The Federal Aviation Administration is considering amending Part 39 of the Federal Aviation Regulations by adding an airworthiness directive applicable to Mooney Model M20 series airplanes. There have been cracks and failures of the engine mounts reported on Mooney Model M20 series airplanes that could possibly result in loss of the engine. Since this condition is likely to exist or develop in other airplanes of the same type design, the proposed airworthiness directive would require repetitive inspection of the engine mounts for cracks and replacement of cracked mounts.

Interested persons are invited to participate in the making of the proposed rule by submitting such written data, views, or comments as they may desire. Communications should identify the docket number and be submitted in triplicate to the Federal Aviation Administration, Regional Counsel, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before March 24, 1975 will be considered before taking action on the proposed rule. The proposals contained in this notice may be changed in the light of comments received. All comments will be available, both before and after the closing date for comments, at the office of the Regional Counsel for examination by interested persons.

This amendment is proposed under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, it is proposed to amend § 39.13 of Part 39 of the Federal Aviation Regulations by adding the following new airworthiness directive:

MOONEY. Applies to Mooney Models M20, M20A, M20B, M20C, M20D, M20E, M20F, and M20G airplanes with 200 or more hours' time in service.

Compliance required within the next 25 hours' time in service after the effective date of this AD or before the accumulation of 225 hours' time in service, whichever occurs later, unless already accomplished within the last 25 hours' time in service, and thereafter at intervals not to exceed 50 hours' time in service from the last inspection.

a. To detect cracked engine mount members, visually inspect the entire tubular mount.

b. If cracks are found, replace the engine mount before further flight with an engine mount of the same part number or later FAA approved revision or with an equivalent mount approved by the Chief, Engineering and Manufacturing Branch, Federal Aviation Administration, Fort Worth, Texas.

c. Repetitive inspections are required on new engine mounts.

Issued in Fort Worth, Texas, on February 10, 1975.

HENRY L. NEWMAN,
Director, Southwest Region.

[Airspace Docket No. 75-RM-4]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations which would alter the transition area at Sidney, Mont.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station, P.O. Box 7213, Denver, Colorado 80207. All communications received on or before March 24, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 10455 E. 25th Avenue, Aurora, Colorado 80010.

The NDB RWY 19 and NDB RWY 1 approach procedures to Sidney-Richland, Mont. Airport have been revised. The NDB RWY 28 approach procedure has been cancelled. Other minor refinements to the procedures have been made. It is necessary to change controlled airspace accordingly to protect aircraft conducting these revised procedures.

In consideration of the foregoing, the FAA proposes the following airspace action:

§ 71.181 [Amended]

In § 71.181 (40 FR 441) the description of the Sidney, Mont. transition area is amended to read:

XUM V 40 136 FEB 21 75 XUM

SIDNEY, MONTANA

That airspace extending upward from 700 feet above the surface within a 9-mile radius of the Sidney-Richland Municipal Airport (latitude 47°42'35" N., longitude 104°11'10" W.); within 9.5 miles east and 4.5 miles west of the 356° bearing from the Sidney NDB (latitude 47°42'45" N., longitude 104°10'56" W.) extending from the 9-mile radius area to 18.5 miles north of the NDB; and within 9.5 miles southeast and 4.5 miles northwest of the 215° bearing from the Sidney NDB extending from the 9-mile radius area to 18.5 miles southwest of the NDB.

This amendment is proposed under authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Aurora, Colorado, on February 19, 1975.

M. M. MARTIN,
Director, Rocky Mountain Region.

[FR Doc.75-4691 Filed 2-20-75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 75-AL-2]

CONTROL ZONE AND TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amendments to Part 71 of the Federal Aviation Regulations which would designate a control zone and transition area at Umiat, Alaska.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Chief, Air Traffic Division, Alaskan Region, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska 99501.

All communications received on or before March 24, 1975, will be considered before action is taken on the proposed amendments. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Air Traffic Division. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the office of the Regional Counsel, Federal Aviation Administration, 632 Sixth Avenue, Anchorage, Alaska 99501.

Increased air activity in the Umiat area has necessitated the installation of a nondirectional radio beacon to provide navigational coverage for Instrument Flight Rule (IFR) operations.

The proposed control zone and transition area would be designated to provide controlled airspace protection for Instrument Flight Rule (IFR) traffic using the Umiat airport. The proposed configuration conforms to the minimum requirement for controlled airspace protection for standard instrument procedures as specified in the U.S. Standard for Terminal Instrument Procedures (TERPs) which criteria are premised on safety.

In consideration of the foregoing, it is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

§ 71.171 [Amended]

1. In § 71.171 (40 FR 354) the Umiat, Alaska, control zone is designated to read:

UMIAT, ALASKA

Within a 5-mile radius of the Umiat airport, latitude 69°22'17" N, longitude 152°08'00" W; within 3 miles each side of the 079° bearing from the Umiat RBN extending from the 5-mile radius zone to 8 miles east of the RBN; and within 3 miles each side of the 259° bearing from the Umiat RBN extending from the 5-mile radius zone to 8 miles west of the RBN.

§ 71.181 [Amended]

2. In § 71.181 (40 FR 441) the Umiat, Alaska, transition area is designated to read:

That airspace extending upward from 700 feet above the surface within a 7.5-mile radius of the Umiat airport (latitude 69°22'17" N, longitude 152°08'00" W).

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 USC 1348(a)) and section 6(c) of the Department of Transportation Act (49 USC 1655(c)).

Issued in Anchorage, Alaska, on February 10, 1975.

LYLE K. BROWN,
Director, Alaskan Region.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Parts 2, 81, 83, 87, 89, 91, 93 & 95]

[Docket No. 20351; FCC 75-145]

SAFETY AND SPECIAL RADIO SERVICES

Station Transmissions; Automatic Identification System

1. The Commission hereby gives Notice of Proposed Rule Making looking toward adoption of rules requiring transmitters used by stations licensed in the Safety and Special Radio Services to be fitted with an automatic transmitter identification system (ATIS).

2. The Commission by statute is charged with developing the efficient use of the radio spectrum. In practical terms, the goal is to provide rules which promote the orderly use of radio facilities and the radio frequency spectrum by the maximum number of persons. In order to accomplish that goal, the Commission has promulgated various rules with which licensees must comply in order to assure efficient use of the spectrum. To assure compliance with these rules, and, more importantly, to identify violators and improper activities, the Commission has consistently found it necessary to require identification of every transmission made from a transmitting station.

3. The Commission's rules now require the transmitter operator to identify every transmission generally at least at the end of each transmission. The Commission, however, recognizes the fact that proper station identification is not always accomplished by the operator. Whether he does not know how he must identify, he forgets, or deliberately fails to identify the end result is a difficult procedure to locate the station should it be operated for any reason improperly. It is important to recognize that the problem of proper identification is not confined to any one service. While the Citizens Radio Service enforcement activities are severely aggravated by the lack of identification, Commission enforcement personnel are very much aware that in almost every Safety and Special Radio Service there is virtually no identification of the transmitting station.

4. Within recent years, the electronic industries have developed inexpensive but reliable devices which automatically identify a transmitting station. Not only do these devices assure the correct identification of every transmission but will also increase spectrum efficiency when the need for voice identification can be eliminated. (See paragraph 8 below).

5. To alleviate this enforcement difficulty and to bring our technical rules up to the existing level of the state of the art, we are proposing that each transmitter used under Parts 81, 83, 87, 89, 91, 93 and 95 which operates between 25 MHz and 960 MHz and produced after (one year following adoption of final rules) be fitted with an automatic transmitter identification device. This proposal is prospective only; it will not affect existing transmitters.

6. The actual ATIS system proposed is set forth in the attached Appendix. Our proposed rules will regulate the output of the ATIS device, e.g., the system must use the American Standard Code for Information Interchange (ASCII) and the tone must be transmitted at a particular rate and at a particular modulation level; they will not regulate the actual means by which that output is achieved. In the Citizens Radio Service we have proposed additional requirements designed to insure that the ATIS device is properly installed and operating and will not be tampered with once put into service.

7. We welcome comments from the electronics industry and affected licensees on any aspect that will improve this system of automatic identification. We specifically request comments and supporting data on the following:

A. Whether the proposed system will significantly affect the quality of ongoing communications.

B. Overall economic impact of the ATIS program including a cost analysis of the proposed system as installed in transmitters.

C. Whether a code other than ASCII should be adopted.

D. Whether the proposed ATIS will be compatible with present and future designs on selective calling, coded squelch, control of repeaters, or other non-voice control functions.

E. Whether it will be feasible to substitute the proposed ATIS for the Morse Code system adopted in Docket 18262.

F. Whether any types of transmitters should be exempt from utilizing the ATIS system, e.g., operational fixed stations operating on frequencies above 952 MHz for multi-channel use, Developmental stations, repeater stations. Detailed reasons and supporting technical or economic data should be included with any recommendation for exemption.

G. Whether another system of automatic identification should be adopted. Consideration should be given to a subaudible system. Any recommendation for another system should include data on the foregoing queries; and should also include recommended technical standards to implement such systems.

8. We are not proposing to eliminate the voice identification requirements now in effect. Such a proposal would for the present be premature. Since our ATIS proposal most likely cannot be decoded without reasonably sophisticated receiving equipment, elimination of voice identification would be in violation of the International Radio Regulations. More importantly, in the radio services where international communications frequently, or may reasonably be expected to take place, the lack of voice identification may be a safety hazard until ATIS decoding devices are in common use. It may be expected that the Commission will support a proposal to amend the International Radio Regulations regarding the use of ATIS and modifying the requirements for voice identification.

9. Authority for the proposed rule amendments herein is contained in § 4(i), 302 and 303 of the Communications Act of 1934, as amended.

10. Pursuant to applicable procedures set forth in § 1.415 of the Commission's Rules, interested persons may file comments on or before May 19, 1975, and reply comments on or before June 2, 1975. All relevant and timely comments and reply comments will be considered by the Commission before final action is taken in this proceeding. In reaching its decision on the rules which are proposed herein, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this Notice.

11. In accordance with the provisions of § 1.419 of the Commission's Rules and Regulations, an original and 14 copies of all comments, pleadings, briefs, or other documents shall be furnished the Commission.

12. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's public reference room at its headquarters in Washington, D.C. (1919 M Street, NW).

Adopted: February 5, 1975.

Released: February 13, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

1. In § 2.983, paragraph (h) is added to read as follows:

§ 2.983 Application for type acceptance.

* * * * *

(h) For equipment including the ATIS function, a complete description of the system and installation details of the ATIS identifier shall be submitted.

2. In § 2.989, paragraph (i) is added to read as follows:

§ 2.989 Measurement required: Occupied bandwidth.

* * * * *

(i) Transmitters employing an ATIS identifier when operating at required keying speed and modulation percentage.

3. In § 2.995, paragraph (f) is added to read as follows:

§ 2.995 Measurements required: Frequency stability.

* * * * *

(f) The frequency stability of the ATIS identifier tone frequency shall be measured in accordance with paragraph (a), (b) and (c) above.

PART 81—STATIONS ON LAND IN THE MARITIME SERVICES AND ALASKA—PUBLIC FIXED STATIONS

PART 83—STATIONS ON SHIPBOARD IN THE MARITIME SERVICES

PART 87—AVIATION SERVICES

PART 89—PUBLIC SAFETY RADIO SERVICE

PART 91—INDUSTRIAL RADIO SERVICES

PART 93—LAND TRANSPORTATION RADIO SERVICES

4. Parts 81, 83, 87, 89, 91, and 93 are to be amended to add the following sections:

§ --.--- Automatic transmitter identification.

(a) A transmission system the purpose of which is to automatically identify the transmissions of particular stations.

(b) The system is alphanumeric and provides for the transmission of the station call sign, binary coded in the American Standard Code for Information Inter-change (ASCII), which is transmitted automatically at the beginning and end of each transmission, or at intervals of approximately thirty seconds in the case of longer transmissions, at a rate of 100 bauds.

§ --.--- Applicability.

The requirements of this Subpart are applicable to transmitters which are placed in service or manufactured after (one year after final rules are adopted) for operation in the (name of service) service on frequencies in the bands between 25 and 960 MHz.

§ --.--- ATIS identifiers.

(a) The ATIS identifier shall be the station call sign preceded by "SYN" and shall be followed by "I".

(b) The ATIS identifier shall be included in each transmitter subject to this Subpart.

§ --.--- Supplementary information for type acceptance.

After (after adoption of final rules) an application for type acceptance of each type of transmitter fitted with ATIS, as required by this Subpart, shall include that information required by §§ 2.983(h), 2.989(i) and 2.995(f) of the Commission's Rules.

§ --.--- Transmission of identification.

(a) The ATIS identifier shall be automatically transmitted at the beginning and conclusion of each transmission and, in the case where a transmission is of more than thirty seconds duration, once each thirty seconds, ±10 seconds.

(b) The binary (ATIS) information shall be applied to the carrier as modulation by audio frequency shift keying (AFSK) of 85 Hz above and below of the center frequency of 1200 Hz. The information "O" (low) and "1" (high) shall be applied in such a manner the "O" is the lower frequency and "1" is the higher frequency.

(c) The ATIS identifier shall be transmitted at a modulation level of 50%, ±10%.

(d) The ATIS identifier shall be transmitted at a rate of 100 bauds.

(e) The frequency of the tone oscillator shall not vary more than 85 ±1Hz from the center frequency of 1200 Hz.

§ --.--- ATIS as an integral part of the transmitter.

(a) The ATIS shall be incorporated into and made an integral part of each transmitter installed pursuant to this Subpart. The ATIS shall be installed in each transmitter by the manufacturer of the transmitter. The ATIS identifier shall be encoded by a person holding a first or second class commercial telephone operator's license or by the manufacturer.

(b) The timing, programming and encoding functions of the ATIS identifier shall be incorporated into the transmitter so as to prohibit adjustment, change or disabling of these functions once initially established in accordance with (a) above.

§ --.--- Technical standards applicable to ATIS identifiers.

The following technical standards shall be employed in formation of each of the characters of the ATIS identifier:

(a) Standard ATIS code. Each of the characters of the ATIS identifier shall be formed from the following code:

XUM V 40136 FEB 21 75 XUM

Bits b7 b6 b5 / b4 b3 b2 b1 / COLUMN / ROW	0_0 0	0_1 1	1_0 2	1_1 3	2_0 4	2_1 5	2_2 6
0 0 0 0 0				0		P	
0 0 0 1 1				1	A	Q	
0 0 1 0 2				2	B	R	
0 0 1 1 3				3	C	S	
0 1 0 0 4				4	D	T	
0 1 0 1 5				5	E	U	
0 1 1 0 6		SYN		6	F	V	
0 1 1 1 7				7	G	W	
1 0 0 0 8				8	H	X	
1 0 0 1 9				9	I	Y	i
1 0 1 0 10					J	Z	
1 0 1 1 11					K		
1 1 0 0 12					L		
1 1 0 1 13					M		
1 1 1 0 14					N		
1 1 1 1 15					O		

(b) Standard bit sequence. The bit sequence shall be least significant bit first to most significant bit, that is, in terms of the standard ATIS code b1 through b7 in ascending (consecutive) order.

(c) Standard character structure. The character structure shall consist of eight bits (seven bits plus one character parity bit) having equal time intervals. This requirement corresponds to the standard for a synchronous data communication system.

(d) Character parity. The character parity bit shall be transmitted and shall follow the most significant bit, b7, of the character to which it applies.

(e) Standard sense of character parity. The sense of character parity shall be odd over the eight bits, i.e., an odd number of "1" (marking) bits per character.

PART 95—CITIZENS RADIO SERVICES

5. Part 95 is amended to add the following:

§ ------ Automatic transmitter identification.

(a) A transmission system the purpose of which is to automatically identify the transmission of particular stations.

(b) The system is alphanumeric and provides for the transmission of the station call sign, binary coded in the American Standard Code for Information Inter-change (ASCII), which is transmitted automatically at the beginning and end of each transmission, or at intervals of approximately thirty seconds in the case of longer transmissions, at a rate of 100 bauds.

§ ------ Applicability.

The requirements of this Subpart are applicable to transmitters which are placed in service after (one year after final rules are adopted) for operation in the Citizens Radio Service on frequencies in the bands between 26.960 and 27.540 MHz.

§ ------ ATIS identifiers.

(a) The ATIS identifier shall be the station call sign preceded by "SYN" and shall be followed by "i" except as provided in subparagraph (c) of this section.

(b) The ATIS identifier shall be included in each transmitter subject to this subpart.

(c) At the point of manufacture each transmitter capable of operating between 26.960 MHz and 27.540 MHz shall be equipped with an ATIS identifier which shall be the serial number of the transmitter. After issuance of a station license, the station licensee shall have a first or second class commercial radio telephone licensee or the manufacturer encode the station call sign into the ATIS device.

§ ------ Supplementary information for type acceptance.

After (after adoption of final rules) an application for type acceptance of each type of transmitter fitted with ATIS, as required by this Subpart, shall include that information required by Section 2.983(h), 2.989(i) and 2.995(b) of the Commission's Rules.

§ ------ Transmission of identification.

(a) The ATIS identifier shall be automatically transmitted at the beginning and conclusion of each transmission and, in the case where a transmission is of more than thirty seconds duration, once each thirty seconds, ±10 seconds.

(b) The binary (ATIS) information shall be applied to the carrier as modulation by audio frequency shift keying (AFSK) of 85 Hz above and below of the center frequency of 1200 Hz. The information "O" (low) and "1" (high) shall be applied in such a manner the "O" is the lower frequency and "1" is the higher frequency.

(c) The ATIS identifier shall be transmitted at a modulation level of 50%, ±10%.

(d) The ATIS identifier shall be transmitted at a rate of 100 bauds.

(e) The frequency of the tone oscillator shall not vary more than 85 ±1Hz from the center frequency of 1200 Hz.

§ ------ ATIS as an integral part of the transmitter.

(a) The ATIS shall be incorporated into and made an intergral part of each transmitter installed pursuant to this Subpart. The ATIS shall be installed in each transmitter by the manufacturer of the transmitter in the case of a Class D station and shall be designed in such a manner that the transmitter will not function unless an encoded ATIS device is installed and operating.

(b) The timing, programming and encoding functions of the ATIS shall be incorporated into the transmitter so as to prohibit adjustment, change disabling of these functions once initially established in accordance with (a) above.

§ ------ Technical standards applicable to ATIS identifiers.

The following technical standards shall be employed in formation of each of the characters of the ATIS identifier:

(a) Standard ATIS code. Each of the characters of the ATIS identifier shall be formed from the following code:

Bits b7 b6 b5 / b4 b3 b2 b1 / COLUMN / ROW	0_0 0	0_1 1	1_0 2	1_1 3	2_0 4	2_1 5	2_2 6
0 0 0 0 0				0		P	
0 0 0 1 1				1	A	Q	
0 0 1 0 2				2	B	R	
0 0 1 1 3				3	C	S	
0 1 0 0 4				4	D	T	
0 1 0 1 5				5	E	U	
0 1 1 0 6		SYN		6	F	V	
0 1 1 1 7				7	G	W	
1 0 0 0 8				8	H	X	
1 0 0 1 9				9	I	Y	i
1 0 1 0 10					J	Z	
1 0 1 1 11					K		
1 1 0 0 12					L		
1 1 0 1 13					M		
1 1 1 0 14					N		
1 1 1 1 15					O		

(b) Standard bit sequence. The bit sequence shall be least significant bit first to most significant bit, that is, in terms of the standard ATIS code b1 through b7 in ascending (consecutive order).

(c) Standard character structure. The character structure shall consist of eight bits (seven bits plus one character parity bit) having equal time intervals. This requirement corresponds to the standard for a synchronous data communication system.

(d) Character parity. The character parity bit shall be transmitted and shall follow the most significant bit, b7, of the character to which it applies.

(e) Standard sense of character parity. The sense of character parity shall be odd over the eight bits, i.e., an odd number of "1" (marking) bits per character.

§ ------ Responsibility of licensee.

The station licensee shall be responsible for all transmissions which occur with the transmission of an ATIS identifier assigned to such licensee.

[No. 75-118]

FEDERAL SAVINGS AND LOAN SYSTEM

Proposed Amendments Relating to Interest Rate Adjustments

Correction

In FR Doc. 75-4177 appearing at page 6870 in the issue for Friday, February 14, 1975, make the following changes:

1. On page 6871, in the third paragraph of the middle column, in the 4th line, the word "dates" should read "rates".

2. On page 6871, in the 4th paragraph of the middle column, in the 9th line, the word "st" should read "set".

3. On page 6873, amendatory paragraph 1. should be changed to read as follows: "Section 541.14 is amended by revising paragraphs (a), (b), (c)(4), redesignating (c)(5) and (c)(6) as (c)(6) and (c)(7), and by adding a new (c)(5) as follows. Paragraph (c)(4) is carried here for purposes of clarity."

4. In § 545.6-2 (c)(2)(v), between the 3rd line which begins "this section***" and the 4th line which begins "rate on such***" insert the following: "rate decreases, the contract interest".

5. In § 545.6-2 (c)(2)(x)(A)(4), the word now reading "effcted" should be changed to read "effected".

6. In § 545.6-2 (c)(2)(x)(A)(8), the word now reading "prpaid" should be changed to read "prepaid".

FEDERAL POWER COMMISSION

[18 CFR Part 35]

[Docket No. RM74-20]

FILING OF RATE SCHEDULES

Proposed Revisions Under the Federal Power Act

FEBRUARY 14, 1975.

1. Pursuant to 5 U.S.C. 553 and Sections 205, 206, 304, and 309 of the Federal Power Act (49 Stat. 851, 852, 855, 856, 858, 859; 16 U.S.C. 824d, 824e, 825e, 825h), the Commission hereby gives notice that it is proposing to amend its Regulations under the Federal Power Act to require the submission of rate design information by public utilities as a part of their filings of initial rate schedules under § 35.12 of the Regulations and their filings of rate schedule changes under § 35.13. The proposed revisions would become effective 30 days following their promulgation.

2. The revised regulations herein are to be submitted for the proposal contained in the Commission's notice of proposed rulemaking, dated April 26, 1974.

3. As the Commission noted in its Notice of Proposed Rulemaking, and as several parties have indicated in their written comments, a prime consideration for the evaluation of proposed and existing rate structures is the cost of service. The revised regulations proposed herein elicit certain cost information and data to enable a more thorough evaluation of the form and substance of those rate structures under the jurisdiction of this Commission. The proposed regulations, as revised, would require to be submitted as part of an initial rate schedule filing a summary cost analysis together with a complete explanation of the method used in arriving at the cost of service allocated to the sales and services for which the rate or charge is proposed and the data underlying such allocation. For rate increases, a summary cost analysis to justify cost based rate designs and to justify the blocking of energy or demand charges would be required.

4. As originally noticed we proposed identical language to amend §§ 35.12(b)(5-8) and 35.13(b)(5-8). This renotice proposes instead to revise § 35.12 by amending only § 35.12(b)(5) with new language and to delete the existing Statement P under § 35.13(b)(4)(iii) and substituting therefore a new Statement P under that Section which will incorporate generally with modification the language originally proposed to be included in §§ 35.12(b)(5-8) and 35.13(b)(5-8).

5. To effect these changes, the following is proposed:

Sections 35.12 and 35.13 of the Commission's Regulations are proposed to be amended as follows:

A new § 35.12(b)(5) will be added immediately following § 35.12(b)(4), to read as follows:

§ 35.12 Filing of initial rate schedules.

* * * * * *

(b) * * *

(5) In support of the design of the proposed rate, the filing public utility shall submit the same material required to be furnished pursuant to § 35.13(b)(4)(iii) Statement P. In addition, the public utility shall also submit a summary cost analysis, together with a complete explanation as to the method used in arriving at the cost of service allocated to the sales and service for which the rate or charge is proposed, and showing the principal determinants used for allocation purposes. In connection therewith, the following data should be submitted:

(a) In the event the filing public utility considers certain special facilities as being devoted entirely to the service involved, it shall show the cost of service related to such special facilities.

(b) Computations showing the energy responsibility of the service, based upon considerations of energy sales under the

XUM V40136 FEB 21 75 XUM

proposed rate schedule and the Kwh delivered from the filing public utility's supply system.

(c) Computations showing the demand responsibility of the service, and explaining the considerations upon which such responsibility was determined (e.g., coincident or non-coincident peak demands, etc.).

Delete existing Statement P under § 35.13(b)(4)(iii) and substitute therefor the following:

§ 35.13 Filing of changes in rate schedules.

• • • • • •

(b) • • •
(4) • • •

Statement P—In support of the design of the proposed rate, the filing public utility shall submit the following material:

(1) A narrative statement describing and justifying the objectives of the design by the proffered rate. If the purpose of the rate design is to reflect costs, the narrative should state how that objective is achieved, and should be accompanied by a summary cost analysis that would justify the rate design. If the rate design is not intended to reflect costs (whether fully distributed, incremental or other) a statement should be furnished justifying the departure from cost-based rates.

(2) Where the billing determinants (quantities of demand, energy, delivery points, etc.) are on different bases than the cost allocation determinants supporting such charges, an explanation shall be submitted setting forth the economic or other considerations which warrant such departure. The information should include, but need not be limited to, the following:

(a) For rate schedules so structured, where the individual rates for the demand, energy, and customer charges do not correspond to the comparable cost classifications supporting such charges, a detailed explanation shall be submitted stating the reasons for the differences.

(b) For rate schedules so structured, where the rates being charged contain more than one demand or energy block, a detailed explanation shall be submitted indicating the rationale for the blocking and the considerations upon which such blocking is based, together with adequate cost support for the specific blocking.

6. Any interested person may submit to the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, not later than March 3, 1975, any views, comments, or suggestions in writing concerning all or part of the proposed revisions set forth herein. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, 825 North Capitol Street, NE., Washington, D.C. 20426, during regular business hours. The Commission will consider all such written submittals before acting on the matters proposed herein. An original and 14 conformed copies of any comments shall be filed on the Secretary of the Commission. Submittals to the Commission shall indicate the name, title, mailing address, and telephone number of the person to whom communications concerning the proposal shall be addressed.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

KENNETH F. PLUMB,
Secretary.

By direction of the Commission.

[FR Doc.75-4744 Filed 2-20-75;8:45 am]

RENEGOTIATION BOARD

[32 CFR Part 1480]

AVAILABILITY OF RECORDS

Implementation Regulations

The Renegotiation Board is considering amendments to its regulations on control and availability of records, 32 CFR Part 1480, to ensure effective implementation of the recent Freedom of Information Act amendments ((5 U.S.C. 552), as amended by Pub. L. 93-502, November 21, 1974).

The Board's proposed changes include a provision which would make available any reasonably segregable portion of a document otherwise exempt.

The proposed changes provide that copies of a current index of Board documents made available for public inspection pursuant to 32 CFR 1480.4 and 1480.5 shall be provided upon request at a cost not to exceed the direct cost of duplication. The Board has determined that publication of such an index on a quarterly or other basis is unnecessary and impracticable.

The Board's present regulations state that a request must be for an "identifiable" record. The proposed changes eliminate that requirement; records requested to be disclosed under the proposed regulations shall be "reasonably described." Thus each request ought to describe the record to the extent possible, including the subject matter of the record, its approximate date, and the names or titles of the persons by whom it was prepared or to whom it was addressed.

The proposed changes outline the procedures for requesting documents and for appealing from initial denials. In addition, the proposals outline Board procedures for acting on requests and set time limits for Board action. Basically an initial determination must be made within ten days after receipt of a request for records and a subsequent determination, if necessary, must be made within twenty days after receipt of an appeal from an initial denial of a request. Where unusual circumstances exist, either of these time limits may be extended by not more than ten days in the aggregate.

The proposed changes also include the preparation and substance of an annual report on the Freedom of Information Act activities of the Board which shall be submitted to the Congress.

The Board's proposed changes eliminate charges for monitoring inspections by a requester, eliminate charges for time spent in deleting exempt material and revise charges for search and duplication to reflect direct costs only in accordance with section 1(b)(2) of Pub. L. 93-502, 88 Stat. 1561.

In order to protect the public from incurring unexpected costs, the proposed rules provide that where fees in excess of $25 are anticipated, and the requester has not indicated his willingness to accept these costs, the request will not be deemed received until the requester is notified of the anticipated costs and agrees to bear them. Such notification will be given as quickly as possible, and in any event a notification giving the best estimate then available shall be transmitted within 5 working days.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they desire. Communications should be submitted in triplicate to the Office of General Counsel, Renegotiation Board, Washington, D.C. 20446. All communications received on or before March 17, 1975 will be considered before final action is taken on the amendments. No public hearing will be held. The proposal contained in this notice may be changed in light of comments received.

Written material or suggestions submitted will be available for public inspection during regular business hours in the library at the principal office of the Board, 2000 M Street NW., Washington, D.C.

Dated: February 18, 1975.

REX M. MATTINGLY,
Acting Chairman.

PART 1480—AVAILABILITY AND CONTROL OF RECORDS

1. In § 1480.2, paragraph (a) and (d) are revised to read as follows:

§ 1480.2 Statutory provisions and Executive Orders.

(a) *Freedom of information.* The regulations in this part implement the provisions of section 552 of title 5, United States Code (section 3 of the Administrative Procedure Act as amended by Pub. L. No. 90-21, approved June 5, 1967 (81 Stat. 54) and by Pub. L. 93-502, approved November 21, 1974 (88 Stat. 1561)).

• • • • • •

(d) *Classified information.* Records of the Board are subject to the restrictions on disclosure of classified information as provided in Executive Order 11652, dated March 8, 1972 (37 FR 5209, March 10, 1972).

• • • • • •

§ 1480.3 [Amended]

2. Section 1480.3 is amended by deleting "10501" following the words Executive Order and inserting "11652" therein.

3. In § 1480.5 paragraph (b) is added and paragraph (d) is amended by adding two sentences to read as set forth below:

§ 1480.5 Public inspection of records; index.

• • • • • •

(b) *Records containing both available and unavailable information.*—Any reasonably segregable portion of a record otherwise exempt from disclosure requirements under 5 U.S.C. § 552 shall be made available unless such portion is readily available from another source and the other source is made known to the person desiring the record. A reasonably segregable portion of a record is such portion that is not inextricably intertwined with facts that are exempt under 1480.9 or with policymaking processes.

• • • • • •

(d) • • • Publication of such index or indexes has been determined by the Board to be unnecessary and impracticable. Upon request, the Board shall provide copies of its index or indexes at a cost not to exceed the direct cost of duplication.

• • • • • •

4. Section 1480.6 is revised to read as follows:

§ 1480.6 Production of reasonably described records.

(a) *In general.* (1) Subject to the exemption provisions of § 1480.9, upon request made as provided in § 1480.7 the Board will make available for inspection and copying any record not published or made available for public inspection and copying pursuant to the provisions of § 1480.4 or § 1480.5.

(2) A document is "reasonably described" when the request specifies the title or subject matter of the record, the approximate date of the record sought to be made available, and the names or titles of the persons by whom it was prepared or to whom it was addressed.

(3) This part applies only to records or categories of records which exist at the time the request for the information is made. The Board is not required to compile or procure a record solely for the purpose of making it available under this part.

(b) *Referrals to other agencies.* (1) When the Board receives a request to make available a record which is the exclusive concern of another agency of the Government (see § 1451.23 of this subchapter), the Board will refer the request to such other agency and will notify the person making the request of such referral. This paragraph specifically includes all requests for records containing classified information (see § 1480.2 (d) and § 1480.9(a)(1) of this part).

(2) When the Board receives a request to make aavilable a record which is of concern to more than one agency of the Government, the Board will retain and act upon the request if the Board is one of the agencies concerned and if its interest in the record is paramount; otherwise, the Board will refer the request to the agency having the paramount interest and will notify the person making the request of such referral (see § 1480.7).

5. Section 1480.7 is revised to read as follows:

§ 1480.7 Procedure for obtaining access to records; time limits; responsibility.

(a) *In general.* (1) Each person desiring access to a reasonably described record pursuant to §§ 1480.4, 1480.5, or 1480.6 must submit a written request for the record; such request must indicate that it is being made pursuant to the Freedom of Information Act and the envelope in which the request is sent must be prominently marked with the letters "FOIA." If a copy of a particular record is desired instead of an inspection thereof, the written request shall so state.

(2) All requests, including requests for documents located at regional boards, must be addressed to the Public Information Officer, Renegotiation Board, Washington, D.C. 20446.

(b) *Receipt of requests.* If the requirements of paragraph (a) of this section are not met, the ten-day time limit described in paragraph (c) of this section will not begin to run until the request has been received by the Public Information Office.

(c) *Initial determination.* An initial determination as to whether to release a record requested pursuant to § 1480.6 shall be made within ten days (excepting Saturdays, Sundays, and legal public holidays) after the request is received in accordance with paragraphs (a) and (b) of this section except that this time limit may be extended by up to ten working days in accordance with paragraph (e) of this section. The person making the request will be notified promptly of such determination. If such determination is to release the requested record, such record shall be made promptly available. If such determination is not to release the record in whole or in part, the person making the request shall, at the same time he is notified of such determination, be notified of (a) the reason for the determination; and (b) the right of such person to appeal the determination within the Board.

(d) *Appeal procedures.* (1) Any person who has been given an initial determination in accordance with paragraph (c) of this section that a requested record will not be disclosed, may appeal to the Board for a reconsideration of the determination.

(2) Each such application for reconsideration shall be made by letter addressed to and filed with the Office of General Counsel, Renegotiation Board, Washington, D.C. 20446, within twenty days after the date of the initial determination. Such application for reconsideration shall include all information and arguments relied upon by the person making the application and shall indicate that it is an appeal by the person making the application and shall indicate that it is an appeal from a denial of a request made under the Freedom of Information Act. The envelope in which the application is sent shall be prominently marked with the letters "FOIA." If these requirements are not met, the twenty-day time limit in subparagraph (3) below will not begin to run until the application has been identified as an appeal under the Freedom of Information Act and has been received by the Office of General Counsel.

(3) A determination with respect to any appeal made pursuant to this paragraph will be made within twenty days (excepting Saturdays, Sundays, and legal public holidays) after receipt of such appeal except that this time limit may be extended by up to ten working days in accordance with paragraph (e).

(4) The decision by the General Counsel as to the availability of the record is administratively final. The decision by the General Counsel not to disclose a record under this part is considered to be a withholding by the Board for the purposes of section 552(a)(3) of title 5, United States Code.

(e) *Extensions of time.* (1) In unusual circumstances as specified in this paragraph, the time limits prescribed in either §§ 1480.7(c) or 1480.7(d)(3) may be extended by not more than ten days in the aggregate. In such a case written notice to the person making the request is required setting forth the reasons for such extension and the date on which a determination is expected to be dispatched.

(2) As used in this paragraph, "unusual circumstances" means, but only to the extent reasonably necessary to the proper processing of the particular request—(i) the need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request; (ii) the need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or (iii) the need for consultation which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject-matter interest therein.

(f) *Responsibility.* The authority to administer this part is delegated to the Director, Office of Administration with respect to initial determinations and to the General Counsel with respect to appeals therefrom, or in the absence of either officer, to his deputy.

6. In § 1480.9 paragraphs (a)(1) and (a)(7) are revised to read as follows:

§ 1480.9 Exemptions.

(a) • • •

(1) Records specifically authorized under criteria established by Executive Order 11652, dated March 8, 1972, as amended (37 FR 5209, March 10, 1972),

XUM V40136 FEB 21 75 XUM

to be kept secret in the interest of national defense or foreign policy and properly classified pursuant to Executive Order 11652 (see § 1480.2(d) and § 1480.6 (b)(1)).

. . . . . .

(7) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would (i) interfere with enforcement proceedings (ii) deprive a person of a right to a fair trial or an impartial adjudication (iii) constitute an unwarranted invasion of personal privacy (iv) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source (v) disclose investigative techniques and procedures or (vi) endanger the life or physical safety of law enforcement personnel.

7. Section 1480.12 is revised to read as follows:

§ 1480.12 Copies of records; fees or charges.

(a) Upon request, the Board will furnish a copy or copies of any record made available pursuant to this part, except records published in the FEDERAL REGISTER and offered for sale by the Superintendent of Documents, Government Printing Office (see § 1480.4).

(b) *Fees.* The following specific fees shall be applicable with respect to services rendered to members of the public under this part:

(1) The charge for duplication or photocopy will be fifteen (15) cents per page.

(2) The charge for search of Renegotiation Board records by clerical personnel will be at the rate of $5.00 per hour.

(3) The charge for search of Renegotiation Board records by professional personnel will be at the rate of $9.00 per hour.

(4) The charge for authentication of each record as a true copy will be $2.50.

(5) Computer costs shall be assessed in accordance with actual costs incurred by the Board. A computer cost estimate shall be furnished to the requester at the time the request is granted, if the cost estimate exceeds $25.00.

(c) *Other charges.* When a response to a request requires services or materials other than the common ones described in paragraphs (b)(1) through (b)(5) of this section, the direct cost of such services or materials may be charged, but only if the requester has been notified of such cost before it is incurred.

(d) *Records located elsewhere than at Board headquarters.* If records requested under this part are stored elsewhere than the headquarters of the Renegotiation Board at 2000 M Street, NW, Washington, D.C., the actual costs of transportation of people or records as is required to process the request at headquarters will be added to the search costs.

(e) *Notice of anticipated fees in excess of $25.* Where it is anticipated that the fees chargeable under this section will amount to more than $25, and the requester has not indicated in advance his willingness to pay fees as high as are anticipated, the requester shall be notified of the amount of the anticipated fee or such portion thereof as can readily be estimated. In such cases, a request will be not be deemed to have been received until the requester is notified of the anticipated cost and agrees to bear it. Such a notification shall be transmitted as soon as possible, but in any event within five working days, giving the best estimate then available. The notification shall offer the requester the opportunity to confer with Board personnel with the object of reformulating the request so as to meet his needs at lower cost.

(f) *Advance deposit.* (1) Where the anticipated fee chargeable under this section exceeds $25, an advance deposit of 25 percent of the anticipated fee or $25, whichever is greater, may be required.

(2) Where a requester has previously failed to pay a fee under this section, an advance deposit of the full amount of the anticipated fee may be required. In such cases, a request will not be deemed to be received until receipt of full payment.

(g) *Individual inspection and copying.* Persons may inspect and copy records by their own means in the principal office of the Board without charge except for any search charges payable pursuant to this section.

(h) *Remittance of fees.* Remittances shall be made payable to the order of the Renegotiation Board and mailed to the Renegotiation Board, Attention: Director, Office of Administration, Washington, D.C. 20446. The Board will assume no responsibility for cash which is lost in the mail.

(i) *Waiver of fee.* The Board shall waive any fee or charges prescribed in this part in any instance in which the Board, in its discretion, determines such waiver to primarily benefit the general public. There shall be no charge for the making or authentication of copies of records required for use by other agencies of the Government.

8. Part 1480 is revised by adding a new § 1480.13 to read as follows:

§ 1480.13 Freedom of information report.

(a) On or before March 1 of each calendar year, the Board shall submit a report covering the preceding calendar year to the Speaker of the House of Representatives and President of the Senate. The report shall include the following:

(1) The number of determinations made by the Board not to comply with requests for records made under § 1480.7 (c) and the reasons for each such determination.

(2) The number of appeals made pursuant to § 1480.7(d), the result of such appeals, and the reasons for the action upon each appeal that results in a denial of information.

(3) The names and titles or positions of each person responsible for denial of records and the number of instances of participation of each.

(4) The results of each proceeding conducted pursuant to subsection (a)(4)(F) of 5 U.S.C. section 552, including a report of the disciplinary action taken against the officer or employee who was primarily responsible for improperly withholding records or an explanation of why disciplinary action was not taken.'

(5) A copy of every rule made by the Board regarding 5 U.S.C. section 552.

(6) A copy of the fee schedule and the total amount of fees collected by the Board for making records available.

(7) The cost of administering the Freedom of Information Act.

(8) Such other information as indicates effort to administer fully the Freedom of Information Act.

(Sec. 109, 65 Stat. 22; 50 U.S.C.A., App. Sec. 1219)

[FR Doc.75-4796 Filed 2-18-75;3:45 pm]

TENNESSEE VALLEY AUTHORITY

[18 CFR Ch. II]

FEES FOR SEARCH AND DULPICATION OF RECORDS

Notice of Proposed Rulemaking

The Tennessee Valley Authority (TVA) is considering amendments to its regulations concerning fees for the search and duplication of TVA records requested pursuant to the Freedom of Information Act, 5 U.S.C. section 552.

The current fee regulations concerning records search and duplication are found in § 301.1(e) of Part 301 of Title 18 of the Code of Federal Regulations, and provide for the recovery of the direct or incremental cost to TVA for searching, compiling, copying, transporting, or otherwise preparing or furnishing the records. Recent amendments to the Freedom of Information Act provide for publication of uniform fee schedules limited to reasonable standard charges to recover the direct costs of search and duplication. The proposed regulation so provides.

At this time, charges for files search and duplication are proposed to be made only for clerical time involved, and no charge is proposed for supervisory time. If it develops that significant amounts of supervisory time are being required in the search and duplication process, the regulations may be amended to provide for charges therefor.

TVA also publishes and sells to the public at nominal cost various materials concerning its activities and other matters within its statutory responsibilities, and also provides for the sale of other materials, such as maps prepared by other agencies, at prices prescribed by such agencies. Such services are not performed under the Freedom of Information Act. For the convenience of the public, reference to the availability of such publications and materials is contained in the first sentence of § 301.1(e). The providing of such services is not affected by the proposed rulemaking.

Interested persons may participate in the proposed rulemaking by submitting such written data, views, or arguments as they may desire. Communications should be submitted to the Director of Information, Tennessee Valley Authority, Knoxville, Tennessee 37902. All communications received on or before February 28, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated. The proposal contained in this notice may be changed in light of the comments received.

Comments received will be available for examination in the Director of Information's Office, Room 333, New Sprankle Building, 500 Union Avenue, Knoxville, Tennessee 37902.

This revision is proposed under the authority of 16 U.S.C. §§ 831–831dd and Pub. L. 93–502.

Dated: February 14, 1975.

LYNN SEEBER,
General Manager.

PART 301—PROCEDURES

Part 301 of Title 18 is amended by adding the following new section.

§ 301.2 Schedule of fees.

(a) *Basis.* Except as otherwise provided in subsection (c) of this section, TVA records which are available for public inspection under § 301.1 are made available upon payment of uniform fees which will approximately cover the direct costs to TVA of searching for, compiling, transporting, and copying the records.

(b) *Fees.* The following fees are applicable:

(1) *Time charges.* For time spent searching files, compiling requested material from files, and making any requested copies the charge is $4.15 per hour.

(2) *Duplication charges.* For reproduction of requested material which consists of sheets no larger than 8½ by 14 inches, the charge is ten cents per page. For reproduction of other materials, the charge is the direct cost of photostat or other means necessarily used for duplication.

(3) *Other charges.* Where a response to a request requires services or materials (including personnel) other than the common ones described in paragraphs (1) and (2) of this section, the charge is the direct cost of such services and materials to TVA, but only if the requester has been notified of such cost before it is incurred, or if the request contains a statement that all costs are acceptable.

(c) *Waiver or reduction of fees.* (1) No time charge is made with respect to any request for records requiring less than four (4) hours' time for searching and reproducing documents.

(2) If it is determined by TVA that all material requested is exempt from disclosure under § 301.1 of this part, and TVA accordingly declines to furnish all such material, no fees shall be charged. TVA may waive or reduce fees otherwise chargeable under this section upon its determination that waiver or reduction is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

DEPARTMENT OF LABOR

Office of the Secretary

[29 CFR Part 5]

PAYROLL REPORTING REQUIREMENTS FOR TRUCK OWNER-OPERATORS

Labor Standards Concerning Contracts for Federally Financed and Assisted Construction

The Department of Labor on September 13, 1961, announced that the labor standards provisions of the Davis-Bacon and Related Acts would not be applied to bona fide truck owner-operators who are independent contractors until it could devise a practicable way to report wage rates for such bona fide owner-operators. Contractors performing work subject to the Davis-Bacon and Related Acts were not required to report on their payrolls more than the operator's name and the words "owner-operator."

It has come to the attention of the Department of Labor that the predetermined prevailing rates for truck drivers have not in all cases been paid to individuals, under the guise that they were bona fide independent contractors for whom the payroll information requirements had been waived.

The Secretary of Labor, in a letter of July 10, 1974, announced that the policy enunciated by the Department's 1961 letter would be rescinded, and made clear that in the future the wage rates for truck owner-operators would be treated for wage determination and enforcement purposes under the applicable stautes no differently from any other classifications of laborers and mechanics subject to the Davis-Bacon and Related Acts to insure labor standards protections provided by the statutes.

This Department considers it essential to amend its regulations to make clear what will be required of the agencies and of contractors and subcontractors affected, if uniformity is to be achieved as contemplated by Reorganization Plan No. 14 of 1950.

The purpose of this proposal, therefore, is to present for comment payroll reporting requirements with respect to truck owner-operators. Because of the practical problems of reporting wage rates and hours worked for those individuals who are bona fide independent contractors, it is proposed that payroll reporting requirements will continue to be waived for such individuals. However, the proposed regulation sets forth factors which would be considered in determining whether a truck owner-operator is in fact an independent contractor. This proposal would be effective as to new contracts entered into 120 days after its final publication. It shall have no effect on existing contracts or on contracts for which bids have already been opened or negotiations concluded within 120 days after its final publication.

To assure that any final implementing regulations will take into account the practical problems which may be encountered by procurement agencies and contractors, and will be drafted with the benefit of the experience of affected agencies and organizations representing construction laborers and mechanics and construction contractors, the Department solicits detailed comments and suggestions so that it may best preserve their interests and at the same time protect the interests of laborers and mechanics affected.

Interested persons should submit comments on or before April 7, 1975, to the Administrator, Wage and Hour Division, 14th and Constitution Avenue NW., Washington, D.C. 20210.

Accordingly, it is proposed to add a new § 5.16 to Part 5 of Title 29 of the Code of Federal Regulations as follows:

§ 5.16 Payroll reporting requirements for truck owner-operators.

All truck owner-operators working on the site are laborers and mechanics subject to the Davis-Bacon and Related Acts. However, because of practical considerations where such owner-operators are in fact bona fide independent contractors, the payroll reporting requirements contained in § 5.5(a)(3) above are modified for such independent owner-operators as follows: With respect to truck owner-operators who are bona fide independent contractors, contractors and subcontractors shall include on their payrolls the name of the truck owner-operator and the notation "truck owner-operator—independent contractor." No further information need be included on the payrolls. The contractor or subcontractor shall make available on request a copy of his contract with any truck owner-operator. However, the actual relationship rather than the relationship stated in the contract shall control where they differ. Factors which will be considered in determining whether an owner-operator is a bona fide independent contractor include, but are not necessarily limited to, the amount of investment by the owner-operator in facilities and equipment, and whether the contractor or subcontractor shares a financial interest with the owner-operator in the truck or incurs some or all of the truck's operating expenses; whether the services in question are an integral part of the business of the contractor or subcontractor; the nature and degree of control retained or exercised by the contractor or subcontractor over the owner-operator; the degree of independent initiative, judgment, and foresight in open-market competition with others required for success of the owner-operator's alleged independent operation; whether the owner-operator holds himself/herself out to the general public as being in business for himself/herself; and

XUM
V 40 136 FEB 21 75
XUM

whether there are clear opportunities for profit and loss to the owner-operator.

Signed at Washington, D.C., this 14th day of February 1975.

Administrator,
Wage and Hour Division.

[FR Doc.75-4759 Filed 2-20-75;8:45 am]

Occupational Safety and Health Administration

[29 CFR Part 1952]

CONNECTICUT PLAN SUPPLEMENTS

Proposed Approval

1. Background. Part 1953 of Title 29, Code of Federal Regulations, prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (29 U.S.C. 667) (hereinafter referred to as the Act) for review of changes and progress in the development and implementation of State plans which have been approved under section 18(c) of the Act and 29 CFR Part 1902. On January 4, 1974, a notice was published in the FEDERAL REGISTER of the approval of the Connecticut plan and of the adoption of Subpart X of Part 1952 containing the decision (39 FR 1012). On September 16, 1974, the State of Connecticut submitted supplements to the plan involving developmental changes (see Subpart B of 29 CFR Part 1953). The supplements consist of the Governor's Executive Order Number Twenty-Seven and revision of Connecticut's Target Industries Program.

2. Issues. The Governor's Executive Order Number Twenty-Seven is in response to the State commitment under the requirements of 29 CFR 1952.303(e) of the State's developmental schedule to establish a State agency safety program which covers employees of State departments and agencies. The Executive Order outlines a comprehensive safety and health program applicable to State employees and places various safety and health responsibilities upon the head of each State agency and department. Accordingly, this directive implements the Connecticut Occupational Safety and Health Act wherein public employees, both State and municipal, are already protected by the same standards, inspections, citations, discrimination procedures, recordkeeping and all remaining features of the Connecticut Act, as employees in the private sector, by that Act's definition of "employer" (Connecticut General Statutes, Chapter 571, Public Act 73-379 as amended by Public Act 74-137, sec. 31-367(d)) which term includes "the State and any political subdivision thereof".

Additionally, based upon a survey which covers the first full year of recordkeeping under the Federal Act, Connecticut has revised its Target Industries Program to focus attention on those industries in Connecticut with high rates of job-related injuries. These include; concrete work, roofing and sheet metal work, lumber and wood products, iron and steel industries and concrete products. The Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) has reviewed the supplements and hereby gives notice that their approval is in issue before him.

3. Location of the supplements for inspection and copying. A copy of the plan and its supplements may be inspected and copied during normal business hours at the following locations: Office of the Associate Assistant Secretary for Regional Programs, Occupational Safety and Health Administration, Room 850, 1726 M Street NW., Washington, D.C. 20210; Regional Administrator, Occupational Safety and Health Administration, 18 Oliver Street, Fifth Floor, Boston, Massachusetts 02110; and Department of Labor, 200 Folly Brook Blvd., Wethersfield, Connecticut 06109.

4. Public participation. Interested persons are hereby given until March 24, 1975, in which to submit written data, views and arguments concerning whether the supplements should be approved. Such submissions are to be addressed to the Associate Assistant Secretary for Regional Programs at his address as set forth above where they will be available for inspection and copying.

Any interested person may request an informal hearing concerning the proposed supplements, by filing particularized written objections with respect thereto within the time allowed for comments with the Associate Assistant Secretary for Regional Programs. If in the opinion of the Assistant Secretary substantial objections are filed, which warrant further public discussion, a formal or informal hearing on the subjects and issues involved may be held.

The Assistant Secretary shall consider all relevant comments, arguments and requests submitted in accordance with this approval and shall thereafter issue his decision as to approval or disapproval of the supplements, make appropriate amendments to Subpart X of Part 1952 and initiate appropriate further proceedings if necessary.

Signed at Washington, D.C., this 18th day of February, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

[29 CFR Part 1910]

[Docket No. OSHA-37]

HEARING ON PROPOSED INORGANIC ARSENIC STANDARD

Change of Location

On January 21, 1975, a notice of proposed rulemaking on inorganic arsenic was published in the FEDERAL REGISTER, (40 FR 3392). The notice stated in Part VII, *Public Participation*, page 3399, column 1, that an informal public hearing will be held at the Departmental Auditorium, Constitution Avenue between 12th and 14th Streets, NW., beginning on April 8, 1975, at 9:30 a.m. E.D.T.

The location for this hearing has been changed to the Department of Commerce Auditorium, 14th Street and Constitution Avenue, NW., Washington, D.C. The hearing date and time remain unchanged.

Written data, views, and arguments concerning the proposal may be mailed to the Docket Officer, Docket OSH-37, Occupational Safety and Health Administration, Room 260, 1726 M Street, NW., Washington, D.C. 20210. Such data, views, and arguments will be available for public inspection and copying at the above address.

Persons desiring to appear at the hearing must file a notice of intention to appear on or before March 17, 1975, with Ms. N. Hucke, OSHA Committee Management Office, Docket OSH-37, 1726 M Street NW., Room 200, U.S. Department of Labor, Washington, D.C. 20210 (Phone: 202/961-2248 or 2487). The notice must contain the following information:

(1) The name and address of the person to appear;

(2) The capacity in which he will appear;

(3) The approximate amount of time required for the presentation;

(4) The specific provisions of the proposal that will be addressed;

(5) A brief statement of the position that will be taken with respect to each provision addressed; and

(6) A summary of the evidence with respect to each such provision proposed to be adduced at the hearing.

The oral proceedings will be reported verbatim. All statements and documents that are intended to be submitted for the record of the hearing must be submitted in quadruplicate. The use of prepared statements by witnesses is encouraged.

Any questions concerning the hearing or the change in location should be directed to N. Hucke, OSHA Committee Management Office.

Signed at Washington, D.C. this 12th day of February, 1975.

JOHN STENDER,
Assistant Secretary of Labor.

notices

This section of the FEDERAL REGISTER contains documents other than rules or proposed rules that are applicable to the public. Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

TREASURY DEPARTMENT

OFFICE OF FOREIGN ASSETS CONTROL

Statement of Organization; Amendments

The Statement of Organization of the Office of Foreign Assets Control required to be published pursuant to 5 U.S.C. 552 (a)(1)(A), is being amended to reflect changes since its last publication. As amended, the Statement reads:

Office of Foreign Assets Control Statement of Organization

The Office of Foreign Assets Control is established under Treasury Department Order No. 128 of December 14, 1950, as amended. The Office of Foreign Assets Control is headed by a Director who reports to the Assistant Secretary (Enforcement, Operations and Tariff Affairs).

The Office administers controls over the assets in the United States of, and financial transactions by, North Korea, North Viet-Nam, Cuba, and their nationals for the purpose of preventing transactions which would be inimical to the interests of the United States. Similar controls which applied to the People's Republic of China have been removed under general licenses authorizing all transactions except with respect to Chinese property in the United States which was blocked as of May 6, 1971. Controls are also administered over the assets remaining blocked under World War II controls of Czechoslovakia, East Germany, Estonia, Latvia, Lithuania, and their nationals, and with respect to certain scheduled securities. In addition, the Office administers the Transactions Control Regulations which prohibit persons in the United States from engaging in certain transactions involving the shipment of certain strategic merchandise from foreign countries to Russia or other Communist countries unless licensed. A general license authorizes such transactions from certain countries upon specified conditions.

The above controls are administered through a system of licenses, rulings and other documents (see 31 CFR Ch. V) pursuant to powers of the President under section 5(b) of the Trading With the Enemy Act, as amended, and any proclamations, orders, regulations, or rulings that have been or may be issued thereunder. The Director of the Office of Foreign Assets Control has been delegated power to exercise and perform all authority, duties and functions which the Secretary of the Treasury is authorized or required to exercise or perform under sections 3 and 5(b) of the Trading With the Enemy Act, as amended, and any proclamations, orders, regulations, or rulings that have been or may be issued thereunder.

The Office also administers import and financial controls with respect to Rhodesia (see 31 CFR Part 530) pursuant to Executive Orders Nos. 11322 and 11419 of 1967 and 1968 respectively, which implement United Nations Resolutions calling for an embargo against Rhodesia.

The Office of Foreign Assets Control is represented in the field by the Federal Reserve Bank of New York. Authority to take final licensing action on certain applications for specific licenses authorizing certain types of transactions prohibited by the Regulations, is delegated to the Foreign Assets Control Division, Federal Reserve Bank of New York, subject to policies and procedures prescribed by the Office of Foreign Assets Control.

The public may in general secure any information or make submittals, requests, or petitions with respect to any Foreign Assets Control matters by communicating through correspondence or by telephone or by coming in person or sending a representative either to the central office in Washington or to the Federal Reserve Bank of New York.

Correspondence with the central office should be directed to the Office of Foreign Assets Control, United States Treasury Department, Washington, D.C. 20220. Personal inquiries to the central office should be made to the Office of Foreign Assets Control, 1331 G St., NW., Washington, D.C. All correspondence or inquiries to the Federal Reserve Bank of New York should be addressed as follows: Foreign Assets Control Division, Federal Reserve Bank of New York, 33 Liberty Street, New York, N.Y. 10045.

[SEAL] STANLEY L. SOMMERFIELD,
Acting Director,
Office of Foreign Assets Control.

DEFENSE INTELLIGENCE AGENCY SCIENTIFIC ADVISORY COMMITTEE

Notice of Closed Meeting

Pursuant to the provisions of section 10 of Public Law 92-463, effective January 5, 1973, notice is hereby given that the DIA Scientific Advisory Committee Panel Meeting which was previously scheduled for Friday, 7 March 1975 as announced in the Federal Register on 10 February 1975 has been rescheduled and will be held at the Pentagon on Friday, 14 March 1975.

The entire meeting commencing at 0830 hours is devoted to the discussion of classified information as defined in section (b)(1), Title 5 of the U.S. Code and therefore will be closed to the public. Subject matter is to conduct a study of specialized intelligence data requirements and U.S. ability to meet these requirements.

MAURICE W. ROCHE,
Director, Correspondence and Directives, OASD (Comptroller).

DEFENSE SCIENCE BOARD TASK FORCE ON SPECIFICATIONS AND STANDARDS IMPROVEMENT

Notice of Cancellation of Advisory Committee Meeting

The DOD Committee Management Officer has determined that the notice of meeting published in the FEDERAL REGISTER on 10 February 1975 was not timely and in accordance with provisions of Public Law 92-463. Consequently, the meeting of the Defense Science Board Task Force on Specifications and Standards Improvements scheduled for 21-22 February is cancelled.

DEFENSE SCIENCE BOARD ON EXPORT OF U.S. TECHNOLOGY

Advisory Committee Meeting

A special advisory committee to the Defense Science Board on "Export of U.S. Technology; Implications to U.S. Defense" will meet in closed session on 13 March 1975 in the Pentagon, Washington, D.C. The subcommittee meeting on this date will be concerned with Instrumentation.

The mission of the Defense Science Board is to advise the Secretary of Defense and the Director of Defense Research and Engineering on overall research and engineering and to provide long-range guidance in these areas to the Department of Defense. The special advisory committee will provide an assessment of the implications to U.S. defense of current and impending exports of U.S. technology to serve as a basis for determination of Defense policy.

DEPARTMENT OF JUSTICE

UNITED STATES V. NORRIS INDUSTRIES

Proposed Consent Judgment and Competitive Impact Statement

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16 (b) through (h), that a proposed consent judgment and a competitive impact statement as set out below have been filed with the United States District Court for the Central District of California in Civil Action No. 73–1036, United States of America v. Norris Industries, Inc. The complaint in this case alleges that the acquisition of Pressed Steel Tank Company by Norris Industries substantially lessened competition in the markets for various types of high pressure cylinders and shells. The proposed judgment requires Norris to divest certain assets which it acquired in the merger and enjoins it from acquiring any company for ten years engaged in the manufacture of these cylinders and shells. Public comment is invited on or before April 22, 1975. Such comments and responses thereto will be published in the FEDERAL REGISTER and filed with the Court. Comments should be directed to Hugh Morrison, Chief, Special Trial Section, Antitrust Division, Department of Justice, Washington, D.C. 20530.

Dated: February 18, 1975.

THOMAS E. KAUPER,
Assistant Attorney General, Antitrust Division.

UNITED STATES OF AMERICA, PLAINTIFF, V. NORRIS INDUSTRIES, INC., DEFENDANT

Stipulation. It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. A final judgment in the form hereto attached may be filed and entered by the Court, upon the motion of either party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act (15 U.S.C. 16), and without further notice to either party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed final judgment by serving notice thereof on defendant and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed Final Judgment is not entered pursuant to this stipulation, this stipulation shall be of no effect whatever and the making of this stipulation shall be without prejudice to plaintiff and defendant in this and any other proceeding.

Dated: February 18, 1975.

For Plaintiff:

UNITED STATES DISTRICT COURT FOR THE CENTRAL DISTRICT OF CALIFORNIA

[Civil Action No. 73–1036 WPG]

UNITED STATES OF AMERICA, Plaintiff
v.
NORRIS INDUSTRIES, INC., Defendant

Final Judgment. Plaintiff, United States of America, having filed its complaint herein on May 9, 1973, and its amended complaint herein on June 25, 1974, and defendant Norris Industries having appeared by its attorneys and having filed its answers to said complaint and amended complaint, and plaintiff and defendant, by their respective attorneys, having consented to the entry of this Final Judgment, without trial or adjudication of any issue of fact or law herein and without this Final Judgment constituting evidence or admission by any party with respect to any issue of fact or law herein;

Now, therefore, before the taking of any testimony and without trial or adjudication of any issue or fact or law herein, and upon the consent of the parties hereto, it is hereby, *ordered, adjudged, and decreed:*

I.

This Court has jurisdiction of the subject matter herein and of the parties hereto. The complaint states a claim upon which relief may be granted under section 7 of the Act of Congress of October 15, 1914, as amended, entitled "An Act to supplement existing laws against unlawful restraints and monopolies, and for other purposes," commonly known as the Clayton Act. Entry of this Judgment is in the public interest.

II.

As used in this Final Judgment:

(A) "Norris" means defendant Norris Industries, Inc.;

(B) "PST" means Pressed Steel Tank Company, Inc., and any person owned or controlled directly or indirectly by Norris that in connection with the divestiture of PST Plant 1 succeeds to the business or assets of PST other than PST Plant 1;

(C) "PST Plant 1" means all real and personal property (except for accounts receivable on conditional sales contracts and leases), business, manufacturing and shipping facilities and operations of PST located at 1445 South 66th Street, Milwaukee, Wisconsin, and related to the manufacture and sale of the products there manufactured; all technical data owned or controlled by PST relating to the manufacture and sale of any product manufactured by PST Plant 1 on the date of completion of the divestiture ordered by subsection (A), section IV of this Final Judgment; and the names Pressed Steel Tank Company, Inc., PST and all other trade names and trademarks owned or controlled by PST on the date of completion of the divestiture ordered by section IV(A) of this Final Judgment, except any such names that (a) do not relate to the sale of any product manufactured by PST Plant 1 on the date of completion of such divestiture, and (b) have not been utilized by PST in the sale of high pressure compressed gas cylinders more than ninety (90) days prior to the expiration of plaintiff's right to object to a proposed plan

for such divestiture or the Court's consent to such a proposed plan pursuant to section IV(C) of this Final Judgment;

(D) "Person" means any individual, corporation, partnership, association, firm or other legal entity;

(E) "High-pressure compressed gas cylinders" means seamless, one-piece compressed gas cylinders made according to Department of Transportation standards which hold compressed and liquefiable gases at service pressures of 900 pounds per square inch ("p.s.i."), and above and includes carbon dioxide cylinders, round bottom cylinders, and industrial cylinders;

(F) "Industrial cylinders" means high-pressure compressed gas cylinders, excluding round-bottom cylinders, made for service pressures of 2000 p.s.i. and above and with capacities of 650 cubic inches to 4100 cubic inches;

(G) "Carbon dioxide cylinders" means high-pressure compressed gas cylinders made to hold carbon dioxide at a service pressure of 1800 p.s.i. and with capacities of 2400 cubic inches or less;

(H) "Round-bottom cylinders" means high-pressure compressed gas cylinders with rounded or ellipsoidal bottoms, made for service pressures of 1800 p.s.i. and above and with capacities of less than 1600 cubic inches;

(I) "Acetylene cylinder shells" means empty cylindrical metal containers or their components which are used in making acetylene cylinders;

(J) "Acetylene cylinders" means acetylene cylinder shells containing a porous filler and acetone;

(K) "Accumulator shells" means pressure vessels used in making high-pressure bladder type accumulators (those with operating pressures of 1000 p.s.i. and above);

(L) "Technical data" means all written know-how, technology, production manuals, drawings, patents and patent applications of PST; and

(M) "PST technical data" means all know-how, technology, drawings, patents and patent applications of PST relating to the manufacture of industrial cylinders by PST other than at Plant 1 on the effective date of this Final Judgment existing in writing on that date, and one or more production manuals describing the equipment and processes used by PST in such manufacture on that date.

III.

The provisions of this Final Judgment applicable to Norris shall apply also to each of its subsidiaries, successors and assigns, and their officers, directors, agents and employees and to those persons in active concert or participation with any of them who receive actual notice of this Final Judgment by personal service or otherwise. The provisions of this Final Judgment shall not apply to any person who acquires any of the assets divested pursuant to such Final Judgment.

IV.

(A) Norris is ordered and directed to divest all of its interest, direct and indirect, in either

(1) PST Plant 1 within eighteen months from the date of entry of this Final Judgment; or

(2) PST within three years from the date of entry of this Final Judgment.

Said divestiture shall not be made by means of an exchange offer or distribution to Norris shareholders.

(B) The divestiture ordered by this Final Judgment shall be of a single viable, going business, and Norris shall not take any action, including but not limited to the disposition of any assets of PST, which would impair or impede such viability or Norris' ability to accomplish such divestiture.

(C) Norris shall submit in writing to plaintiff the complete details of any proposed divestiture plan intended to implement the provisions of subsection (A) of this Section IV. Plaintiff shall have thirty (30) days from the date of first receipt of a proposed divestiture plan in which to request additional information from Norris, which shall have ten (10) days from the receipt of such request to advise plaintiff the extent to which such information is unavailable and twenty (20) days to furnish in writing such information to the extent it is available. Plaintiff shall have thirty (30) days following the date of receipt of the requested additional information, or following the date of receipt of a written statement from Norris that such information is not available, in which to object in writing to the proposed divestiture plan. If plaintiff objects to the proposed divestiture plan, it shall not be consummated unless plaintiff withdraws its objection the Court gives its consent to the plan. If no request is made for additional information, plaintiff shall advise defendant in writing no later than thirty (30) days after the receipt of the proposed divestiture plan whether it has any objections to the proposed divestiture plan.

(D) The time periods set forth in subsection (A) of this Section IV shall be tolled from the date plaintiff first receives in writing from Norris the details of any divestiture plan up to and including the date Norris receives written notification of plaintiff's final decision on such divestiture proposal.

(E) Nothing in this Final Judgment shall prohibit Norris from accepting and enforcing a *bona fide* lien, mortgage or other form of security interest, whether by agreement or judgment, on the assets to be divested pursuant to this Final Judgment, to secure full payment of the price at which such assets are sold.

(F) Should Norris reacquire any of the assets divested pursuant to this Final Judgment, Norris is ordered to divest such reacquired assets in accordance with the provisions of this Final Judgment within one (1) year from the date of such reacquisition.

(G) Defendant shall promptly take steps to advise prospective purchasers of the availability of the assets required to be divested by this Final Judgment, and shall furnish to all *bona fide* prospective purchasers on an equal and non-discriminatory basis all necessary information, including business records, regarding the assets to be divested and shall permit such prospective purchasers to make such inspection as may reasonably be necessary for such purpose, provided that defendant may schedule any such inspection in such a manner as not unduly to interfere with its business operations.

V.

If the divestiture required by this Final Judgment has not been completed within three (3) years from the date of entry of this Final Judgment plus any additional time provided for in subsection (D) of Section IV, the Court, upon application by plaintiff, shall appoint a trustee, who shall have full authority to manage and to dispose of PST after opportunity of the parties to be heard. The costs and expenses of such trustee required to accomplish divestiture are to be at the expense of Norris.

VI.

(A) In the event PST Plant 1 is divested pursuant to this Final Judgment, the purchaser thereof may, at any time within six (6) months from the completion of the divestiture, request PST technical data from Norris, and Norris shall as promptly as possible supply such technical data at a cost not exceeding the cost of reproducing such data to the extent it already exists in writing, and at a cost not exceeding the cost of preparing such data to the extent it does not already exist in writing. Norris shall, for a period of thirty (30) months following the completion of such divestiture, at the purchaser's request clarify or explain such PST technical data or make reasonable efforts to supplement such PST technical data with additional technical data of PST (whether or not existing in writing on the effective date of this Final Judgment), at a cost not exceeding the cost of such clarifying, explaining or supplementing, to the end of attempting to assist the purchaser to manufacture the industrial cylinders manufactured by PST other than at Plant 1 on the effective date of this Final Judgment, provided that nothing herein shall make Norris a guarantor of the purchaser's ability to manufacture such industrial cylinders by use of such technical data or otherwise.

(B) In the event PST Plant 1 is divested pursuant to this Final Judgment, Norris may retain non-exclusive, royalty-free, licenses with the unrestricted right to sublicense, under any patent or patent applications of PST relating to the manufacture of any product produced by PST other than at PST Plant 1 on the date of completion of divestiture of PST Plant 1, together with copies of, and an unrestricted proprietary interest in, all technical data relating to the manufacture of such products.

VII.

No officer, director, agent or employee of Norris shall at the same time be an officer, director or employee of the purchaser of any of the assets divested pursuant to this Final Judgment.

VIII.

Norris is enjoined and restrained, for a period of ten (10) years from the effective date of this Final Judgment from acquiring without the prior consent of the plaintiff any equity interest in or evidence of indebtedness (other than indebtedness arising from the sale of goods or services in the ordinary course of business) of any company engaged in the manufacture of high pressure compressed gas cylinders, acetylene cylinders, acetylene cylinder shells or accumulator shells or any of the capital assets of any such company that are or have been used in the manufacture of any such products.

IX.

Beginning six (6) months after the date of entry of this Final Judgment, and continuing every six (6) months until the divestiture ordered by this Final Judgment has been completed or until the appointment of a trustee pursuant to this Final Judgment, Norris shall furnish a written report to plaintiff setting forth the steps it has taken to accomplish the divestiture required by said Final Judgment.

X.

For the purpose of determining or securing compliance with this Final Judgment and for no other purpose, and subject to any legally recognized privilege:

(A) Any duly authorized representative of the Department of Justice shall, upon written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to Norris, made to its principal office, be permitted (1) access during the regular office hours of Norris, to inspect and copy

XUM
V 40 36
FEB 21 75
XUM

any and all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession or under the control of Norris, relating to any of the subject matter contained in this Final Judgment, and (2) subject to the reasonable convenience of Norris, and without restraint or interference from it, to interview officers or employees of Norris, who may have counsel present, regarding such matters.

(B) Upon written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, Norris shall submit such reports in writing with respect to the matters contained in this Final Judgment as may from time to time be requested.

No information obtained by the means provided in this Section X shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the United States, except in the course of legal proceedings to which the United States is a party for the purpose of securing compliance with this Final Judgment or as otherwise required by law.

XI.

Jurisdiction is retained for the purpose of enabling any of the parties to this Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the construction or modification of any of the provisions thereof, for the enforcement of compliance therewith, and for the punishment of violations thereof.

UNITED STATES DISTRICT JUDGE.

UNITED STATES DISTRICT COURT FOR THE CENTRAL DISTRICT OF CALIFORNIA

[Civil Action No. 73-1036 WPG]

UNITED STATES OF AMERICA, PLAINTIFF V. NORRIS INDUSTRIES, INC., DEFENDANT

Proposed Consent Decree

Competitive impact statement. Pursuant to section 2(b) of the *Antitrust Procedures and Penalties Act* (15 U.S.C. 16 (b)-(h)), the United States of America hereby files this Competitive Impact Statement relating to the proposed consent judgment submitted for entry in this civil antitrust proceeding.

On May 7, 1973, the Department of Justice filed a civil antitrust suit alleging that the acquisition of Pressed Steel Tank Company, Inc. ("PST") by Norris Industries, Inc. ("Norris") violated section 7 of the Clayton Act. The original complaint alleged that the acquisition would eliminate competition generally, and between Norris and PST, in the production and sale of acetylene cylinders, acetylene cylinder shells, high-pressure compressed gas cylinders, carbon dioxide cylinders, round-bottom cylinders and industrial cylinders, and would increase concentration in these product markets. The amended complaint added "accumulator shells" as a line of commerce wherein competition was allegedly lessened by the acquisition.

Compressed gas cylinders are metal containers used to store and transport compressed and liquefiable gases such as oxygen, argon, nitrogen, carbon dioxide, acetylene and medical and refrigerant gases. High-pressure compressed gas cylinders hold gas at pressures about 900 p.s.i. There are three basic types of high-pressure compressed gas cylinders: carbon dioxide cylinders, round-bottom cylinders and industrial cylinders.

Acetylene cylinders, an additional cylinder mentioned in the complaint, are sold to vendors of acetylene gas who fill the cylinders with gas. Acetylene gas, among other uses, is used as a heat source in devices which cut, remove and shape metal. Because of the explosive nature of acetylene gas, a special cylinder is required to contain it. An acetylene cylinder consists of an acetylene cylinder shell to which a porous filling and acetone solvent have been added.

High-pressure bladder type accumulators are used in fluid power systems to store hydraulic energy, absorb shock, compensate for changes in fluid pressure or volume, dispense fluids and for other purposes. Applications of these accumulators include use in hydraulic presses, on machine tools, in drilling operations and in pumping installations. High-pressure bladder type accumulators are composed of an accumulator shell into which a rubber bladder is inserted. Compressible gas is contained within the bladder, separated from the fluid in the system which usually operates at pressures of 1000 p.s.i. and above. As fluid is pumped into the accumulator the gas is compressed in the bladder, thus storing hydraulic energy in the accumulator.

At the time Norris acquired PST, Norris ranked fourth among the six producers of high-pressure compressed gas cylinders in the United States. It ranked third among the manufacturers of carbon dioxide cylinders, second among the manufacturers of round-bottom cylinders and fourth among he manufacturers of industrial cylinders. Norris was also the second largest of only two manufacturers of acetylene cylinder shells, and the third largest of only three sellers of acetylene cylinders in 1970. Norris was the second largest of six manufacturers of accumulator shells in 1970.

In 1970, when Norris acquired all of the shares of the capital stock of PST, PST ranked second among the six producers of high-pressure compressed gas cylinders in the United States. It ranked fourth among the manufacturers of carbon dioxide cylinders, first among the manufacturers of round-bottom cylinders and second among the manufacturers of industrial cylinders. At that time PST was the nation's largest manufacturer of acetylene cylinder shells and of accumulator shells.

Prior to the acquisition, Norris and PST engaged in substantial competition in the manufacture and sale of high-pressure compressed gas cylinders. In 1970 PST accounted for approximately 25.8 percent of total shipments of high-pressure compressed gas cylinders and Norris accounted for approximately 8.2 percent, for a combined total of 34 percent. At that time, Norris accounted for approximately 17.6 percent, and PST approximately 10.9 percent of total shipments of carbon dioxide cylinders, for a combined total of 28.5 percent. In the market for round-bottom cylinders Norris accounted for approximately 31.1 percent of total shipments and PST approximately 66.8 percent, for a combined total of 97.9 percent, and in the market for industrial cylinders, Norris accounted for approximately 1.4 percent and PST approximately 30.4 percent of total 1970 shipments. At the time of the acquisition Norris and PST were the only manufacturers of acetylene cylinder shells in the United States. In the market for accumulator shells in 1970, Norris accounted for approximately 34.4 percent of total shipments and PST accounted for approximately 47.5 percent.

In industrial cylinders, unlike the other products alleged in the complaint, the case primarily involved a lessening of potential competition. Norris had been unsuccessfully attempting to enter this highly concentrated market in which PST held a large market share. The complaint sought divestiture by Norris of all of the stock or assets of PST.

PST operates two manufacturing plants, both in Milwaukee, Wisconsin. Plant one, built in 1902, is used to manufacture all relevant product lines except industrial cylinders and accumulator shells. The plant has no room for expansion. Plant two is used to manufacture industrial cylinders, a product line in which Norris had no substantial production prior to the acquisition. A small dollar volume of accumulator shells was manufactured in plant one prior to 1969 and thereafter they were manufactured in plant two. Each plant uses different machinery and production processes and is therefore not equipped to produce cylinders made by the other plant.

The proposed consent decree provides a combination of measures to dispel the anticompetitive effects alleged by the complaint. First, Norris is required to divest either plant one, the larger of PST's two plants, within eighteen months, or all of PST including both plants within three years. Second, if Norris divests PST plant one, it will provide the purchaser of the plant with the technology and know-how involved in making industrial cylinders. Third, if the required divestiture has not been completed within three years, the Court, upon application of the United States, shall appoint a trustee to carry out the divestiture, at the expense of Norris. Fourth, Norris is enjoined for a period of ten years from acquiring, without the consent of the Justice Department, any company engaged in manufacturing any products covered by the complaint. These measures should serve to increase competition and reduce industry concentration.

As noted above, the prayer for relief in this case sought divestiture of all of the stock or assets acquired from PST. The proposed settlement would permit Norris to retain PST plant two, if it promptly sells plant one; otherwise, it must divest all of PST.

The alternative to the proposed consent decree considered by the Antitrust Division of the Department of Justice was a full trial on the merits in order to attempt to obtain complete divestiture by Norris of PST. The Antitrust Division determined that the additional relief which might be obtained at trial did not justify the commitment of manpower and additional delay in obtaining relief. Here competition could be promptly restored in those major lines of commerce where Norris and PST previously were direct competitors, and important technology and know-how in manufacturing industrial cylinders would be made available to the purchaser of plant one. This transfer of technology will enhance the position of a purchaser of plant one as a potential entrant into the industrial cylinder market. An important factor in this settlement was the relatively small dollar volume of sales here involved. In the year of the acquisition, PST had sales of industrial cylinders of less than $6 million.

Although PST moved production of accumulator shells from plant one to plant two in 1969, it later discontinued production of these shells some time after the acquisition. Since the acquisition, an additional firm has entered the industry and become a major supplier of these shells.

Many general considerations are involved in every enforcement decision. Here, for example, an appraisal of the time and effort that would be required for a trial on the merits was obviously a factor. Also, the proof of a potential competition case, such as is involved in industrial cylinders, is significantly more difficult than for a case involving existing competition. Moreover, Norris' past inability to successfully manufacture industrial cylinders compounded these problems and was a factor in gauging the likelihood of success on this part of the case.

In evaluating the relative benefits to competition of the relief here proposed and

that which might be obtained at trial were complete divestiture ordered, we ultimately must judge the relative effectiveness of two potential competitors. With this settlement, the purchaser of plant one would be a potential competitor in industrial cylinders. On the other hand, if divestiture of all of PST were ordered at trial, the divested company would be the actual competitor in industrial cylinders and Norris would return to its pre-acquisition status as a potential entrant. Norris had tried to enter this market, and not succeeded as of the date of the acquisition. The Antitrust Division evaluates Norris as a more likely entrant than a new owner of PST plant one, but the Division does not believe that this difference in competitive impact is sufficiently significant to justify the resource allocations and risks involved in trial. Of far greater competitive significance is the prompt restoration of PST as a competitor in those lines of commerce where it and Norris were direct and substantial competitors prior to the acquisition, which the proposed Judgment would achieve.

Any potential private plaintiffs who might have been damaged by the alleged violations will retain the same right to sue for monetary damages and any other legal and equitable remedies which they would have had, were the proposed consent decree not entered. However, this judgment may not be used as *prima facie* evidence in private litigation pursuant to section 5(a) of the Clayton Act, as amended, 15 U.S.C. 16(a).

The proposed Final Judgment is subject to a stipulation by and between the United States and the Defendant, which provides that the United States may withdraw its consent to the proposed Final Judgment until the Court has found that entry of the proposed judgment is in the public interest. By its terms, the proposed Judgment provides for retention of jurisdiction of this action in order, among other things, to permit either of the parties thereto to apply to the Court for such orders as may be necessary or appropriate for its modification.

As provided by the *Antitrust Procedures and Penalties Act*, any persons believing that the proposed Judgment should be modified may for a 60 day period submit written comments to the United States Department of Justice, Antitrust Division, Washington, D.C. 20530, which will file with the Court and publish in the FEDERAL REGISTER such comments and its response to such comments. The Department of Justice will thereafter evaluate any and all such comments and determine whether there is any reason for withdrawal of its consent to the proposed Final Judgment.

No materials and documents of the type described in section (b) of the Antitrust Procedures and Penalties Act (15 U.S.C. 16 (b)) were considered in formulating this Proposed Judgment.

Dated: February 18, 1975.

FRANK N. BENTKOVER,
RONALD J. SILVERMAN,
Attorneys, Department of Justice.

FEDERAL ADVISORY COMMITTEE ON FALSE IDENTIFICATION

Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act (Pub. L. 92-463, 5 U.S.C. Appendix I) that the fifth meeting of the Federal Advisory Committee on False Identification will be held at 10:00 a.m., Thursday, March 13, 1975, at the Briefing and Conference Center of the Department of Justice (opposite Room 1315), 10th and Constitution Avenues, NW., Washington, D.C.

The Committee was established by the Attorney General to study the criminal use of false identification at Federal, state and local levels and to recommend measures to prevent the criminal use of false identification and the obtaining of fraudulent identification documents.

At the fifth meeting the Committee's five Task Forces will continue to examine the scope of the false identification problem in the following areas: Government payments, commercial transactions, fugitives, Federal identification documents, and state and local identification documents. Each area will be reviewed with emphasis on: (1) the number of cases in which member agencies or organizations are victimized by false identification; (2) the dollar impact of using false identification; (3) social and other costs of the criminal use of false identification; (4) false identification techniques; and (5) user and victim profiles. The meeting, open to the public, will adjourn at approximately 3:30 p.m.

Further information concerning this meeting may be obtained from David J. Muchow, General Crimes Section, Criminal Division, Department of Justice, Room 402 Federal Triangle Building, 315 9th Street, NW., Washington, D.C. 20530; telephone: area code 202-739-2745. Minutes of the meeting will be available for public inspection two weeks after the meeting in Room 402, Federal Triangle Building.

JOHN C. KEENEY,
Acting Assistant Attorney General.

Drug Enforcement Administration

IMPORTATION OF CONTROLLED SUBSTANCES

Notice of Application

Pursuant to Section 1008 of the Controlled Substance Import and Export Act (21 U.S.C. 958(h)), the Attorney General shall, prior to issuing a registration under this section to a bulk manufacturer of a controlled substance in schedules I or II, and prior to issuing a regulation under section 1002(a) authorizing the importation of such a substance, provide manufacturers holding registrations for the bulk manufacture of the substance an opportunity for a hearing.

Therefore in accordance with 1311.42 of Title 21, Code of Federal Regulations, notice is hereby given that on January 17, 1975, G. D. Searle & Company, Searle Parkway and Niles Avenue, Skokie, Illinois 60076, made application to the Drug Enforcement Administration to be registered as an Importer of Diphenoxylate, a basic class controlled substance listed in schedule II.

Any person registered to manufacture Diphenoxylate in bulk may, on or before March 24, 1974 file written comments on or objections to the issuance of the proposed registration and may, at the same time, file written request for a hearing on the applicaiton (stating with particularity the objections or issues, if any, concerning which the person desires to be heard and a brief summary of his position of those objections or issues).

Comments and objections may be addressed to the Hearing Clerk, Office of Administrative Law Judge, Drug Enforcement Administration, Room 1130, 1405 Eye Street NW., Washington, D.C. 20537.

Dated: February 12, 1975.

JOHN R. BARTELS, Jr.,
Administrator,
Drug Enforcement Administration.

Law Enforcement Assistance Administration

PRIVATE SECURITY ADVISORY COUNCIL

Notice of Meeting

Notice is hereby given as to the specific location of the meeting of the Law Enforcement/Private Security Relationship Study Committee of the Private Security Advisory Council to the Law Enforcement Assistance Administration. As previously announced, the meeting will take place on Friday, March 7, 1975. The specific location will be Room 2109, Hilton International Hotel at O'Hare International Airport, Chicago, Illinois. The meeting will begin at 9:30 AM.

Difficulties were encountered in scheduling this meeting and arranging for meeting facilities. To provide sufficiently advanced notice of this meeting, the initial notice had to be published without including the specific meeting location.

For further information, please contact: Irving Slott, Director, Planning Development and Evaluation Division, Office of National Priority Programs, LEAA, U.S. Department of Justice, 633 Indiana Avenue, NW., Washington, D.C. 20531. (202) 386-3317.

GERALD YAMADA,
Attorney-Advisor
Office of General Counsel.

WESTERN SLOPE GAS CO.

Notice of Pipeline Application

FEBRUARY 12, 1975.

Notice is hereby given that, pursuant to section 28 of the Mineral Leasing Act of 1920 (41 Stat. 449), as amended (30 USC 185), Western Slope Gas Company, P.O. Box 840, Denver, Colorado 80201, has applied for a right of way for a four-inch natural gas gathering pipeline across the following lands:

SIXTH PRINCIPAL MERIDIAN, COLORADO

T. 3 S., R. 101 W.,
Sections 30 and 31.
T. 3 S., R. 102 W.,
Section 25, all in Rio Blanco County, Colorado

The pipeline will connect the Fuelco Rope Canyon 5-31C FED and 7-31C FED natural gas wells to applicant's West Douglas to Grand Junction Transmission Line. The purpose of the project is to enable applicant to meet the increasing demands for adequate supplies of natural gas in the Grand Junction, Colorado, market area.

The purposes of this notice are: to inform the public that the Bureau of Land Management will be proceeding with the preparation of environmental and other analyses necessary for determining whether the application should be approved and, if so, under what terms and conditions; to allow interested parties to comment on the application, and to allow any persons asserting a claim to the lands or having bona fide objections to the proposed pipeline right of way to file their objections in this office. Any person asserting a claim to the lands or having bona fide objections must include evidence that a copy thereof has been served on the applicant.

Any comment, claim, or objections must be filed with the Chief, Branch of Land Operations, Bureau of Land Management, Colorado State Office, Room 700, Colorado State Bank Building, 1600 Broadway, Denver, Colorado 80202, within thirty days from the date of this notice.

EVERETT K. WEEDIN,
Chief, Branch of Land Operations.

[NM 24512]

NEW MEXICO

Notice of Application

FEBRUARY 14, 1975.

Notice is hereby given that, pursuant to Section 28 of the Mineral Leasing Act of 1920 (30 U.S.C. 185), as amended by the Act of November 16, 1973 (87 Stat. 576), Llano, Inc. has applied for a 6 inch natural gas pipeline and a 46.25 acre compressor site right-of-way across the following lands:

NEW MEXICO PRINCIPAL MERIDIAN, NEW MEXICO

T. 19 S., R. 32 E.
Sec. 5, SW¼NW¼, W½SW¼;
Sec. 6, S½NE¼, S½SE¼;
Sec. 8, W½W½;
Sec. 17, W½W½;
Sec. 20, W½NW¼.

This pipeline will convey natural gas across 4.08 miles of national resource lands in Lea County, New Mexico.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved, and if so, under what terms and conditions.

Interested persons desiring to express their views should promptly send their name and address to the District Manager, Bureau of Land Management, PO Box 1397, 1717 West Second Street, Roswell, NM 88201.

FRED E. PADILLA,
Chief, Branch of Lands and Minerals Operations.

OUTER CONTINENTAL SHELF OFFSHORE SOUTHERN CALIFORNIA

Availability of Draft Environmental Impact Statement; Public Hearing Regarding Possible Oil and Gas Lease Sale

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Department of the Interior has prepared a draft environmental impact statement relating to a possible Outer Continental Shelf general oil and gas lease sale of 297 tracts of submerged lands on the Outer Continental Shelf offshore southern California.

Single copies of the draft environmental statement can be obtained from the Office of the Manager, Pacific Outer Continental Shelf Office, Bureau of Land Management, 7663 Federal Building, 300 North Los Angeles Street, Los Angeles, California 90012 and from the Office of Public Affairs, Bureau of Land Management (130), Washington, D.C. 20240.

Copies of the draft environmental statement will also be available for review in the main public libraries in various coastal cities in the sale area.

In accordance with 43 CFR 3301.4, a public hearing will be held in the Los Angeles area in May, 1975, for the purpose of receiving comments and suggestions relating to the possible lease sale. The exact location and dates of this hearing will be announced at a later date.

Review comments on the draft environmental statement will be accepted by the Department until May 23, 1975. These comments should be addressed to the Manager, Pacific Outer Continental Shelf Office, Bureau of Land Management, at the above listed address.

After a public hearing is held and comments have been received and analyzed a final environmental statement will be prepared.

CURT BERKLUND,
Director,
Bureau of Land Management.

Approved: February 3, 1975.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

T. 14 N., R. 92 W.,
Sec. 4, SW¼NW¼, and W½SW¼;
Sec. 5, lot 5, and SE¼NE¼;
Sec. 9, W½W½;
Sec. 16, W½NW¼, N½SW¼, and SE¼SW¼;
Sec. 21, NE¼NW¼, and W½W½;
Sec. 28, W½W½;
Sec. 29, E½SE¼;
Sec. 32, E½E½.
T. 15 N., R. 92 W.,
Sec. 6, lots 9, 10, SW¼NE¼, W½SE¼, and SE¼SE¼;
Sec. 7, E½NE¼;
Sec. 8, SW¼NW¼, and W½SW¼;
Sec. 17, N½NW¼, SE¼NW¼, and E½SW¼;
Sec. 20, E½NW¼, SW¼NE¼, and W½SE¼;
Sec. 29, W½NE¼, N½SE¼, and SE¼SE¼;
Sec. 32, E½E½.
T. 16 N., R. 92 W.,
Sec. 30, lot 8;
Sec. 31, lots 5, 6, 7, and E½SW¼.
T. 12 N., R. 93 W.,
Sec. 3, lot 1, SE¼NE¼, and NE¼SE¼.
T. 13 N., R. 93 W.,
Sec. 24, SE¼NE¼, SE¼SW¼, N½SE¼, and SW¼SE¼;
Sec. 25, N½NW¼, and SW¼NW¼;
Sec. 26, SE¼NE¼, SE¼SW¼, N½SE¼, and SW¼SE¼;
Sec. 34, SE¼SE¼;
Sec. 35, NE¼NW¼, S½NW¼, and W½SW¼.

T. 16 N., R. 93 W.,
Sec. 11, SW¼NE¼, E½SW¼, and NW¼SE¼;
Sec. 13, NW¼NW¼;
Sec. 14, NE¼NE¼, S½NE¼, N½NW¼, SE¼NW¼, SE¼SW¼, and W½SE¼;
Sec. 15, N½NE¼;
Sec. 22, N½NE¼;
Sec. 23, N½N½, and SE¼NE¼;
Sec. 24, SW¼NW¼, W½SW¼, and SE¼SW¼;
Sec. 25, W½NE¼, NE¼NW¼, N½SE¼, and SE¼SE¼.

The pipeline will be a part of the Barrel Springs Gathering System in Carbon County, Wyoming.

The purpose of this notice is to inform the public that the Bureau will be proceeding with consideration of whether the application should be approved and, if so, under what terms and conditions.

Interested persons desiring to express their views should send their name and address to the District Manager, Bureau of Land Management, P.O. Box 670, Rawlins, WY 82301.

PHILIP C. HAMILTON,
Chief, Branch of Lands and Minerals Operations.

DEPARTMENT OF AGRICULTURE

Farmers Home Administration

[Notice of Designation Number A146]

IOWA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Iowa:

Howard Wapello

The Secretary has found that this need exists as a result of a natural disaster consisting of excessive rainfall May 7-25 and June 3 and killing frost September 21 and 23, 1974, in Howard County; and excessive rainfal May 4 through June 21; drought July 6-30; abnormally cloudy, cool weather August 1 through September 20; hailstorm in Blakesburg area on August 13; and killing frost September 20 and October 2, 1974, in Wapello County.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3 (b) including the recommendation of Governor Robert D. Ray that such designation be made.

Applications for Emergency loans must be received by this Department no later than April 10, 1975, for physical losses and November 10, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 14th day of February, 1975.

FRANK B. ELLIOTT,
Administrator,
Farmers Home Administration.

[Notice of Designation Number A145]

NORTH DAKOTA

Designation of Emergency Area

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following county in North Dakota:

LaMoure

The Secretary has found that this need exists as a result of a natural disaster consisting of drought June 1 to July 31 and hail, wind, and a tornado on August 19, 1974.

Therefore, the Secretary has designated this area as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of Governor Arthur A. Link that such designation be made.

Applications for Emergency loans must be received by this Department no later than April 10, 1975, for physical losses and November 10, 1975, for production losses, except that qualified

XUM V 40 136 FEB 21 75 XUM

borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated area makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 14th day of February, 1975.

Administrator,
Farmers Home Administration.

[FR Doc.75-4813 Filed 2-20-75;8:45 am]

[Notice of Designation Number A139]

SOUTH DAKOTA

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in South Dakota:

Hand Potter

The Secretary has found that this need exists as a result of a natural disaster consisting of drought June 15 through November 8, 1974, in Hand County and April 1 through September 30, 1974, in Potter County.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3 (b) including the recommendation of Governor Richard F. Kneip that such designation be made.

Applications for Emergency loans must be received by this Department no later than April 10, 1975, for physical losses and November 10, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 14th day of February 1975.

Administrator,
Farmers Home Administration.

[FR Doc.75-4814 Filed 2-20-75;8:45 am]

[Notice of Designation Number A143]

WYOMING

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Wyoming:

Crook Weston
Niobrara

The Secretary has found that this need exists as a result of a natural disaster consisting of drought January 1 to November 1, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3(b) including the recommendation of former Governor Stanley K. Hathaway that such designation be made.

Applications for Emergency loans must be received by this Department no later than April 11, 1975, for physical losses and November 11, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

LATOUCHE ISLAND TIMBER SALE

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the Latouche Island Timber Sale, Report Number USDA-FS-DES(Adm)R-10-75-02.

This environmental statement concerns a proposed timber sale involving the harvesting of 2.780 million board feet of timber.

This draft environmental statement was transmitted to the CEQ on February 11, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Bldg., Room 3231
12th St. & Independence Ave., SW.
Washington, D.C. 20250.

Ketchikan, Alaska 99901

A limited number of single copies are available upon request to Clay G. Beal, Forest Supervisor, Chugach National Forest, 121 W. Fireweed Lane, Anchorage, Alaska 99503.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public and from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Clay G. Beal, Forest Supervisor, Chugach National Forest, 121 W. Fireweed Lane, Anchorage, Alaska 99503. Comments must be received by April 14, 1975 in order to be considered in the preparation of the final environmental statement.

C. A. YATES,
Regional Forester, Alaska Region.

ROGUE PLANNING UNIT, SISKIYOU NATIONAL FOREST, OREGON

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a final environmental statement for the Rogue Planning Unit, Siskiyou National Forest, Oregon. USDA-FS-DES-(Adm)-74-8.

The environmental statement concerns a proposed land use management plan for the Rogue Planning Unit, Siskiyou National Forest, in Coos and Curry Counties, Oregon. The proposed plan applies to a 27,000-acre roadless area.

This final environmental statement was transmitted to CEQ on February 12, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service
South Agriculture Building, Room 3231
12th Street and Independence Avenue, SW.
Washington, D.C. 20250

USDA, Forest Service
Pacific Northwest Region
319 S.W. Pine Street
Portland, Oregon 97204

Siskiyou National Forest
1504 N.W. 6th Street
Grants Pass, Oregon 97526

A limited number of single copies are available upon request to Regional Forester T. A. Schlapfer, Pacific Northwest Region, P.O. Box 3623, Portland, Oregon 97208, or Forest Supervisor William P. Ronayne, 1504 NW. 6th Street, Grants Pass, Oregon 97526.

Copies of the environmental statement have been sent to various Federal, State, and local agencies as outlined in the CEQ Guidelines.

ROBERT R. TYRREL,
Director, Planning, Programing and Budgeting.

MANAGEMENT OF FAIRVIEW, PUDDIN ROCK AND CANTON-STEELHEAD ROADLESS AREAS UMPQUA NATIONAL FOREST, OREGON

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Forest Service, Department of Agriculture, has prepared a draft environmental statement for the management of Fairview, Puddin Rock and Canton-Steelhead Roadless Areas, Umpqua National Forest, Oregon. USDA-FS-R-6-DES-(Adm)-75-09.

The environmental statement concerns a proposal for management direction of three roadless areas within the Umpqua National Forest, Douglas County, State of Oregon.

This draft environmental statement was transmitted to CEQ on February 14, 1975.

Copies are available for inspection during regular working hours at the following locations:

USDA, Forest Service, South Agriculture Bldg., Room 3231, 12th St. & Independence Ave., SW., Washington, D.C. 20250.
USDA, Forest Service, Pacific Northwest Region, 319 S.W. Pine Street, Portland, Oregon 97204.
Umpqua National Forest, Federal Office Building, Roseburg, Oregon 97470.

A limited number of single copies are available upon request to Forest Supervisor, Umpqua National Forest, P.O. Box 1008, Roseburg, Oregon 97470.

Copies of the environmental statement have been sent to various Federal, state, and local agencies as outlined in the CEQ guidelines.

Comments are invited from the public, and from state and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved for which comments have not been requested specifically.

Comments concerning the proposed action and requests for additional information should be addressed to Forest Supervisor, Umpqua National Forest, P.O. Box 1008, Roseburg, Oregon 97470. Comments must be received by April 25, 1975, in order to be considered in the preparation of the final environmental statement.

KENT T. CHURCHILL,
Acting Forest Supervisor,
Umpqua National Forest.

Rural Electrification Administration

COLORADO-UTE ELECTRIC ASSOCIATION, INC.

Final Environmental Impact Statement

Notice is hereby given that the Rural Electrification Administration has prepared a Final Environmental Impact Statement in accordance with section 102(2)(C) of the National Environmental Policy Act of 1969, in connection with loan applications from Colorado-Ute Electric Association, Inc., Box 1149, Montrose, Colorado 81401. The statement covers approximately 16.5 miles of new 115 kV transmission line from Basalt, Eagle County, Colorado, to Aspen, Pitkin County, Colorado; the upgrading of an existing parallel 69 kV line to 115 kV to provide loop service from Basalt to Aspen, Colorado; the installation of terminal facilities for both lines at the existing Basalt Substation and a 3.5 mile 115 kV tap line from the proposed Basalt to Aspen loop transmission system to a 115-24.9 kV substation in the Snowmass-at-Aspen area. It will also cover 42 miles of 115 kV transmission line from Bayfield, LaPlata County, Colorado to Pagosa, Archuleta County, Colorado; terminal facilities at the existing Bayfield Substation and a new 115-69 kV Pagosa Substation.

Additional information may be secured on request, submitted to Mr. David H. Askegaard, Assistant Administrator-Electric, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250. Comments are particularly invited from State and local agencies which are authorized to develop and enforce environmental standards, and from Federal agencies having jurisdiction by law or special expertise with respect to any environmental impact involved from which comments have not been requested specifically.

Copies of the REA Final Environmental Impact Statement have been sent to various Federal, State and local agencies, as outlined in the Council on Environmental Quality Guidelines. The Final Environmental Impact Statement may be examined during regular business hours at the offices of REA in the South Agriculture Building, 12th Street and Independence Avenue, SW., Washington, D.C., Room 4310, or at the borrower address indicated above.

Comments concerning the environmental impact of the construction proposed should be addressed to Mr. Askegaard at the address given above. Comments must be received on or before March 24, 1975 to be considered in connection with the proposed action.

Final REA action with respect to this matter (including any release of funds) will be taken only after REA has reached satisfactory conclusions with respect to its environmental effects and after procedural requirements set forth in the National Environmental Policy Act of 1969 have been met.

Dated at Washington, D.C., this 11th day of February, 1975.

DAVID A. HAMIL,
Administrator,
Rural Electrification Administration.

[FR Doc.75-4816 Filed 2-20-75;8:45 am]

DEPARTMENT OF COMMERCE

National Oceanic and Atmospheric Administration

STATE COASTAL ZONE MANAGEMENT PROGRAMS

Necessity of Cooperation Between Federal and State Agencies in Development

The attention of Federal agencies is invited to the fact that certain provisions of the Coastal Zone Management Act of 1972 (86 Stat. 1280), hereafter the Act) require that, before the Secretary of Commerce (by delegation, the Administrator, National Oceanic and Atmospheric Administration, hereafter the Administrator) can approve a state's coastal zone management program, he must determine, among other things, that there has been:

the opportunity of full participation (in the development of a program) by relevant Federal agencies (section 306(c)(1):

and that;

the views of Federal agencies principally affected by such program have been adequately considered (section 307(b)).

The Administrator has determined that the Federal agencies listed below are "relevant" to any state coastal zone management program, and shortly will issue regulations which will require any state agency or other entity responsible

XUM V 40 136 FEB 21 75 XUM

for the development of a coastal zone management program to work with the appropriate office(s) of each of these Federal agencies in the development of its program.

Department of Agriculture
Department of Commerce
Council on Environmental Quality
Department of Defense
Department of Health, Education, and Welfare
Department of Housing and Urban Development
Department of the Interior
Department of Justice
Department of Transportation
Environmental Protection Agency
Energy Research and Development Administration
Nuclear Regulatory Commission
Federal Energy Administration
Federal Power Commission
General Services Administration

However, it is possible that a given state program may involve the interests of one or more Federal agencies not listed. Therefore, in order to insure that no such agencies are overlooked in the development of any state program, there are listed below the coastal states (and their individual state agencies) which have received grants, as authorized by section 305 of the Act, for the purpose of developing coastal zone management programs. Should any Federal agency not appearing on the above list believe that its interests would be "relevant" to any of these developing state programs, or be "principally affected" by any of them, that Federal agency should so inform the Administrator, National Oceanic and Atmospheric Administration, U.S. Department of Commerce, Washington, D.C. 20230 (Attention: Office of Coastal Zone Management). Upon receipt of this information, the Administrator shall inform each state agency of the name and contact office of any Federal agency not listed above which has interests which are relevant to, or could be principally affected by, that state agency's coastal zone management program; and he shall instruct that state agency to work with such Federal agency in the development of the state program.

Administrator.

[FR Doc.75-4638 Filed 2-20-75;8:45 am]

Office of the Secretary

[DOO 25-4B; Amdt. 3]

OFFICE OF MINORITY BUSINESS ENTERPRISE

Authority and Organization

This order, effective February 4, 1975, further amends the material appearing at 38 FR 27430 of October 3, 1973; 38 FR 27431 of October 3, 1973; and 39 FR 26768 of July 23, 1974.

Department Organization Order 25-4B, dated August 30, 1973 is hereby further amended as follows:

1. SECTION 3. *Office of the Director.* Paragraph .07 is added to read as follows:

.07 The Indian Office shall be jointly responsible, with the Regional Directors, for coordinating, developing, monitoring and evaluating all OMBE programs and activities related to American Indians.

2. SEC. 5. *National Programs Division.* Delete paragraph .10.

3. SEC. 6. *Field Structure.* a. The opening paragraph is revised to read as follows:

The principal field structure of OMBE shall consist of regional offices ("OMBE Regional Offices"), located in New York, Washington, D.C., Atlanta, Chicago, Dallas, and San Francisco. Except as provided in (a) and (b) of this paragraph and in subparagraph .01(b) of this section, each Regional Office shall direct the support and evaluation of OMBE contracts and grants, and the mobilization of public and private resources in support of the minority enterprise program over a prescribed multi-State region, as depicted in Exhibit 2 of this Order. The Regional Offices shall not be responsible for the support and evaluation of:

(a) Those contracts and grants affecting the program in more than one region, which shall be the responsibility of the National Programs Division; and

(b) Experiment and Demonstration projects, which shall be the responsibility of the Program Research and Development Staff.

b. Paragraph .01 is revised to read as follows:

.01(a) The *Regional Directors in New York, Chicago, Washington, D.C., Atlanta, Dallas and San Francisco* shall be responsible for effectively implementing the OMBE program in their respective OMBE regions. Each Regional Director shall report directly to the OMBE Director on all activities and developments in the region, represent OMBE in meetings and conferences, and make speeches and statements through the media to promote the OMBE program. He shall be responsible for the management practices and procedures of the Regional Office, the support and evaluation of all OMBE contracts and grants assigned to the region, and recommendations on renewal or nonrenewal of existing contracts, and funding of new contract proposals.

(b) In addition to the functions and responsibilities described in subparagraph (a) of this paragraph, the *Regional Director in Chicago*, through the National Franchising Center, shall be responsible for planning, directing and coordinating all activities related to OMBE's nationwide franchising program, and shall be the Contracting Officer's Technical Representative for all contracts and grants related to the franchising program.

c. Paragraph .04 is revised to read as follows:

.04 The *Project Support and Evaluation Staff* shall be headed by a Senior Project Officer and composed of several project officers. The number of project officers shall depend on the number of OMBE contractors in the Region. This staff shall be responsible for the support and evaluation of all OMBE contracts assigned to a Region.

d. Delete subparagraphs .04 (a) and (b).

4. The organization chart Exhibit 1, attached to this amendment supersedes the organization chart dated August 30, 1973. A copy of the Organization chart is attached to the original of this document on file in the Office of the Federal Register.

Effective date: February 4, 1975.

ALEX M. ARMENDARIS,
Director, Office of Minority Business Enterprise.

Approved:
GUY W. CHAMBERLAIN, JR.,
Acting Assistant Secretary for Administration.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of Education

EPDA TEACHERS FOR INDIAN CHILDREN AND BILINGUAL EDUCATION TRAINING PROGRAMS

Closing Date for Receipt of Applications

Pursuant to the authority contained in section 501(b) and 532 of the Higher Education Act of 1965 as amended (20 U.S.C. 1091(b) and 1119a), notice is hereby given that the U.S. Commissioner of Education has established a closing date for receipt of applications for the renewal of presently funded projects in the Teachers for Indian Children Program and the Bilingual Education Training Program. Because the appropriation available for these programs is quite limited, only a small number of the currently funded projects will be renewed and applications for support of new projects will not be accepted.

In reviewing applications for continuation projects to be awarded in Fiscal Year 1975, the Commissioner will utilize the review criteria set forth in 45 CFR 100a.26, and will evaluate the extent to which the applicant is meeting the objectives set forth in the previously approved work statement and the extent to which the applicant is fulfilling the funding criteria published in the FEDERAL REGISTER for April 4, 1974 (pp. 12273-12276), on which such projects were approved and supported. (A copy of these criteria are attached as an appendix to this notice, for the information of eligible applicants.)

In order to be assured of consideration, applications must be received by the U.S. Office of Education Application Control Center on or before March 31, 1975.

A. *Applications sent by mail.* An application sent by mail should be addressed as follows: U.S. Office of Education, Application Control Center, 400 Maryland Avenue, SW., Washington, D.C. 20202, Attention: 13.506 (for the Bilingual Education Training Program) or 13.546 (for the Teachers for Indian Children Program). An application sent by mail will be deemed to have been received on time:

(1) If the application was sent by registered or certified mail not later than the fifth calendar day prior to the closing date (or if such fifth calendar day is a Saturday, Sunday, or Federal holiday, not later than the next following business day), as evidenced by the U.S. Postal Service postmark on the wrapper or envelope, or on the original receipt from the U.S. Postal Service; or

(2) If the application is received on or before the closing date by either the Department of Health, Education, and Welfare, or the U.S. Office of Education mail rooms in Washington, D.C. (In establishing the date of receipt, the Commissioner will rely on the time-date stamp of such mail rooms or other documentary evidence of receipt maintained by the Department of Health, Education, and Welfare, or the U.S. Office of Education.)

B. *Hand delivered applications.* An application to be hand delivered must be taken to the U.S. Office of Education Application Control Center, Room 5673, Regional Office Building Three, 7th and D Streets, SW., Washington, D.C. Hand delivered applications will be accepted daily between the hours of 8 a.m. and 4 p.m. Washington, D.C. time except Saturdays, Sundays, or Federal holidays. Applications will not be accepted after 4 p.m. on the closing date.

C. *Program information and forms.* Information and application forms may be obtained from the Division of Educational Systems Development, Bureau of Occupational and Adult Education, Office of Education, Room 3032, 7th and D Streets, SW., Washington, D.C. 20202.

D. *Applicable regulations.* The regulations applicable to these programs are the Office of Education General Provisions Regulations (45 CFR Part 100a), and the regulations for the Education Profession's Development Program (45 CFR Part 174).

(Catalog of Federal Domestic Assistance Numbers 13.506 and 13.546 Educational Personnel Training Grants—Bilingual Education Training, and Teachers for Indian Children)

Dated: February 9, 1975.

T. H. BELL,
Commissioner of Education.

APPENDIX

A. *The criteria used during FY 74 for the funding of applications under the Bilingual Education Training Program were as follows.*—1. The extent to which the program or project will result in educational personnel better prepared to teach children of limited English-speaking ability or educational personnel better prepared to train such teachers;

2. The extent to which the program or project will increase the capability of an institution to train educational personnel in bilingual education;

3. The extent to which the training of personnel under the program or project is coordinated with, or supportive of, projects funded under the Bilingual Education Program authorized by Title VII of the Elementary and Secondary Education Act of 1965 or with projects of the type that may be supported under that program;

4. The extent to which the proposed program or project is directed toward the educational personnel needs of a particular school or school district serving children of limited English-speaking ability;

XUM
V 40 136 FEB 21 75 F
XUM

5. The extent to which the teaching techniques and methods proposed for trained educational personnel are effective for bilingual education;

6. Under 45 CFR 100a.26(b)(8)(ii): the extent to which the proposed program includes effective procedures for evaluating the impact of the program or project in terms of the number and effectiveness of teachers serving in bilingual education programs; and

7. The extent to which the trainees are or will be trained to be literate in and able to teach in the non-English language involved.

(20 U.S.C. 1091(b) and 1119)

B. *The criteria used during FY 74 for the funding of applications under the Teachers for Indian Children Program were as follows*—1. The extent to which the proposed program or project (a) is directed toward the educational personnel needs of schools serving Indian children on a particular reservation, and (b) is designed to meet the special educational needs of such children;

2. The extent to which the applicant has, for the purposes of the program or project, established effective communication with the schools which are likely to employ persons trained under such program or project and with the Indian communities whose children are attending such schools, and has consulted with such schools, and such communities in the formulation of the proposal;

3. The number and percentage of Indians to be trained in the program or project;

4. The extent to which the proposal includes provisions for practicum or work experience;

5. Under 45 CFR 100a.26(b)(8)(ii): the extent to which the proposal includes effective procedures for evaluating the impact of the program or project in terms of the number of and effectiveness of teachers serving in target schools and in terms of meeting the needs of the students attending such schools;

6. The degree to which the training will involve educational approaches which take into account the culture and heritage of Indian children; and

7. The degree to which the training program focuses on approaches, methods and techniques which are pertinent to the education of Indian children.

(20 U.S.C. 1119a)

Federal Council on the Aging

Notice of Meeting

The Federal Council on the Aging was established by the 1973 amendments to the Older Americans Act of 1965 (P.L. 93-29), for the purpose of advising the President, the Secretary of Health, Education, and Welfare, the Commissioner on Aging, and the Congress on matters relating to the special needs of older Americans.

Notice is hereby given, pursuant to P.L. 92-463 that the Council will hold a regular meeting on March 13, 14 and 15, 1975. On March 13, 1975, the meeting will be in Room 4549 Donohoe Building, 400 Sixth Street SW., Washington, D.C. from 9:30 a.m. to 5 p.m. Agenda (a.m.): status of studies and other mandated activities of the FCA, briefing on Employees Retirement Income Security Act of 1974 by a Department of Labor official; (p.m.): briefing on national income support policy for the elderly, James B. Cardwell, Commissioner of Social Security Administration, DHEW and a representative from the Office of Planning and Evaluation, DHEW. March 14, 9 a.m. to 5 p.m., Room 4549 Donohoe Building, agenda: an invited panel of experts to discuss Federal strategy to assist the frail elderly. March 15, 9 a.m. to 3 p.m., Channel Inn, 650 Water Street SW., Washington, D.C. agenda: implementation of Council priority issues and approval of Annual Report of the Council to the President.

This meeting open for public observation.

Further information on the Council may be obtained from Cleonice Tavani, Executive Director, Federal Council on the Aging, Room 4022, Donohoe Building, 400 Sixth Street, SW., Washington, D.C. 20201, telephone: (202) 245-0441.

National Institutes of Health

CLINICAL TRIALS REVIEW COMMITTEE

Notice of Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the Clinical Trials Review Committee, National Heart and Lung Institute, April 1-2, 1975, National Institutes of Health, Building 31, Conference Room 2. This meeting will be open to the public from 8:30 a.m. to 9:30 a.m. on April 1, 1975, to discuss an administrative report. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in Sections 552(b)(4) and 552(b)(6), Title 5, U.S. Code and section 10(d) of Pub. L. 92-463, the meeting will be closed to the public on April 1, 1975 from 9:30 a.m. to adjournment, for the review, discussion and evaluation, of individual contract proposals. The proposals contain information of a proprietary or confidential nature, including detailed research protocols, designs, and other technical information; financial data, such as salaries; and personal information concerning individuals associated with the proposals.

Mr. York Onnen, Chief, Public Inquiries and Reports Branch, National Heart and Lung Institute, Building 31, Room 5A21, phone (301) 496-4236, will provide summaries of the meeting and rosters of the committee members. Dr. Samuel M. Schwartz, Associate Director for Review, Division of Extramural Affairs, NHLI, Westwood Building, Room 655A, phone (301) 496-7351 will furnish substantive program information.

Notice of Meeting

Pursuant to Pub. L. 92-463, notice is hereby given of the meeting of the National Heart and Lung Institute Board of Scientific Counselors, April 25 and 26, 1975, National Institutes of Health, Building 10, Room 7N214. This meeting will be open to the public from 9 a.m. to p.m. on April 25 and 9 a.m. to 11 a.m. on April 26 to discuss the work of the Laboratory of Cell Biology, the Laboratory of Chemical Pharmacology and the Section on Experimental Atherosclerosis, National Heart and Lung Institute. Attendance by the public will be limited to space available.

In accordance with the provisions set forth in Section 552(b)(6), Title 5, U.S. Code and Section 10(d) of Pub. L. 92-463, the meeting will be closed to the public from 4 p.m. to adjournment on April 25 and from 11 a.m. to adjournment on April 26 for the review, discussion, and evaluation of individual programs and projects conducted by the National Institutes of Health, including consideration of personnel qualifications and performance, the competence of individual investigators, and similar items, the disclosure of which would constitute a clearly unwarranted invasion of personal privacy.

Mr. York Onnen, Chief, Public Inquiries and Reports Branch, National Heart and Lung Institute, Building 31, Room 5A21, National Institutes of Health, Bethesda, Maryland 20014, phone (301) 496-4236, will provide summaries of the meeting and rosters of the Board members. Substantive information may be obtained from Dr. Jack Orloff, Director, Division of Intramural Research, NHLI, NIH Building 10, Room 7N214, phone (301) 496-2116.

SUZANNE L. FREMEAU,
Committee Management Officer,
National Institutes of Health.

FEBRUARY 10, 1975.

DIET, NUTRITION AND CANCER PROGRAM ADVISORY COMMITTEE

Notice of Establishment

The Director, National Institutes of Health, announces the establishment on

January 22, 1975, of the advisory committee indicated below by the Director, National Cancer Institute, under the authority of section 410(a)(3) of the Public Health Service Act (42 U.S.C. 286d). Such advisory committee shall be governed by the provisions of the Federal Advisory Committee Act (Public Law 92-463) setting forth standards governing the establishment and use of advisory committees.

Name: Diet, Nutrition and Cancer Program Advisory Committee

Purpose: The Committee provides to the Director, NCI, advice concerning the need to formulate and make available to the public the best scientific recommendation for diets and nutrition appropriate to prevent cancer in healthy individuals, and to improve the cure, long-term management and rehabilitation of the cancer patient. The Committee will terminate on January 22, 1977.

R. W. LAMONT-HAVERS, M.D.,
Acting Director,
National Institutes of Health.

FEBRUARY 12, 1975.

[Docket No. N-75-262]

TRAINING FOR STATE AND LOCAL AGENCIES

Notice of Conference

Pursuant to delegation of authority (35 FR 6877 (1970)) with respect to the administration of fair housing under Title VIII of the Civil Rights Act of 1968, the Federal Fair Housing Law, and HUD recognition of substantially equivalent State and local laws (24 CFR, Part 115; 37 FR 16540 (8-16-72)), notice is hereby given of a training conference for staff members of State and local fair housing agencies. The conference will convene on Monday, March 10, 1975, at 8:30 a.m. in the HUD-West Training Center, 3001 South Federal Boulevard, Denver, Colorado 80236 and extend through Friday, March 14, 1975.

The purpose of the training is to provide information on Title VIII and on the procedures developed under provisions of Title VIII to assure achievement of the fair housing objectives of Title VIII. Information will be provided on Title VIII requirements regarding the issuance by HUD of recognition of State and local fair housing laws that provide fair housing rights and remedies substantially equivalent to the rights and remedies provided in Title VIII. The conference is designed to provide an overview and working knowledge of HUD's regulations on substantially equivalent State and local fair housing laws. The training will also focus on current relations between HUD and the State and local agencies.

Persons eligible to participate in the training conference are members of the fair housing compliance enforcement staffs of State and local agencies in States and local governmental units that have fair housing laws or ordinances. Participation will be limited to 40 persons. Eligibility lists will close on February 28, 1975.

For further information concerning HUD's provision of lodging and meals call, Fair Housing, Toll Free WATS Line: (800) 424-8590.

THOMAS O. JENKINS,
Acting Assistant Secretary for Equal Opportunity.

Coast Guard

[OGD 75-51]

INTERNATIONAL VOYAGE LOAD LINES

Chedabucto Bay, Canada; New Interpretations Regarding Certain Voyages

The purpose of this notice is to inform the public of certain new interpretations of the International Convention on Load Lines, 1966, by the Government of Canada with regard to coastal voyages to or from the Chedabucto Bay area.

The Secretary-General of the Inter-Governmental Maritime Consultative Organization has informed all Contracting Governments to the International Convention on Load Lines, 1966 of the following information received from the Government of Canada:

The Government of Canada, taking cognizance of Article 11(2) of the International Load Line Convention, 1966, regards Chedabucto Bay and the Strait of Canso to the Canso Causeway as a port standing on the boundary line between the North Atlantic Winter Seasonal Zone II and the North Atlantic Winter Seasonal Area as defined in Regulation 46(1)(b) and 46(2) respectively in Annex II of the International Load Line Convention, 1966.

Article 11(2) of the International Convention on Load Lines, 1966 states:

A port standing on the boundary line between two zones or areas shall be regarded as within the zone or area from or into which the ship arrives or departs.

Therefore, vessels over 328 feet in length will no longer be considered to be passing through the North Atlantic Winter Seasonal Zone II when sailing directly to or from the Chedabucto Bay area to or from the North Atlantic Winter Seasonal area. The effective dates for loading to the applicable Load Line for vessels over 328 feet in length on these North American coastal voyages are changed accordingly. These vessels may now load to the Summer Load Line from 16 February through 15 December and must not exceed the Winter Load Line from 16 December through 15 February as indicated in Regulation 46(2) of the International Convention on Load Lines, 1966 and 46 CFR 42.30-5(b).

Dated: February 18, 1975.

W. M. BENKERT,
Rear Admiral, U.S. Coast Guard,
Chief, Office of Merchant Marine Safety.

ADVISORY COUNCIL ON HISTORIC PRESERVATION

ELIGIBLE PROPERTY IN WHEELING, WEST VIRGINIA

Public Information Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act (Pub. L. 92-463) and § 800.5(c) of the Advisory Council's "Procedures for the Protection of Historic and Cultural Properties" (36 CFR Part 800) that on March 6, 1975, 7:30 p.m., a public information meeting will be held in the Wheeling City Council Chambers, 2nd floor, City County Building, 1600 Chapline Street, Wheeling, West Virginia, so that representatives of national, State, and local units of government, and representatives of public and private organizations, and interested citizens can receive information and express their views on a proposed undertaking of the Economic Development Administration, U.S. Department of Commerce that will have an adverse effect upon a property eligible for inclusion in the National Register of Historic Places. The proposed undertaking is the construction of a municipal auditorium in Wheeling, West Virginia. The eligible property is the B&O Railroad Freight Station and Train Shed.

A summary of the agenda of the public information meeting follows:

I. Explanation of the procedures and purpose of the meeting by representatives of the Executive Director of the Advisory Council.

II. Explanation of the project by representatives of the Economic Development Administration, U.S. Department of Commerce.

III. Statement by the West Virginia State Historic Preservation Officer on the project.

IV. Statements from the public on the project.

Speakers will be permitted to present their views on the project and should limit their statements to approximately five minutes. Statements should be limited to the undertaking, its effects on historic and cultural properties, and alternate courses of action. Written statements in furtherance of oral remarks will be accepted by the Council at the time of the meeting. Additional information regarding the meeting is available from the Executive Director, Advisory Council on Historic Preservation, 1522 K Street, NW., Washington, D.C. 20005 (202-254-3380).

Dated: February 19, 1975.

ROBERT R. GARVEY, JR.,
Executive Director.

CIVIL AERONAUTICS BOARD

[Docket 27153]

HONOLULU-VANCOUVER ROUTE PROCEEDING

Notice of Hearing

Notice is hereby given, pursuant to the provisions of the Federal Aviation Act of 1958, as amended, that public hearings in the *Honolulu-Vancouver Route Proceeding*, Docket 27153, will be held on April 29, 1975, at 10 a.m. (local time) in the Imperial Suite, Ilikai Hotel, 1777 Ala Moana Boulevard, Honolulu, Hawaii, before Associate Chief Administrative Law Judge Ross I. Newmann.

Notice is further given that any person, other than a party of record, may appear at this session and present factual evidence which is relevant to the issues in accordance with Rule 14 of the Board's rules of practice. All such participants will be heard at the beginning of the hearing and will be followed by the State of Hawaii, Aloha Airlines, Hawaiian Airlines, Northwest Airlines, United Air Lines, Western Air Lines, and the Bureau of Operating Rights.

For details of the issues involved in this proceeding, interested persons are referred to the Board's Order 74–11–33 dated November 6, 1974, instituting this proceeding; the Prehearing Conference Report served on December 24, 1974; the Supplemental Prehearing Conference Report served on January 14, 1975; and other documents which are in the docket of this proceeding on file in the Docket Section of the Civil Aeronautics Board.

Dated at Washington, D.C., February 14, 1975.

[SEAL] ROSS I. NEWMANN,
Associate Chief Administrative Law Judge.

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Notice of Availability

Environmental impact statements received by the Council on Environmental Quality from February 10 through February 14, 1975. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the minimum period for public review and comment on draft environmental impact statements is forty-five (45) days from this FEDERAL REGISTER notice of availability (April 7, 1975). The thirty (30) day period for each final statement begins on the day the statement is made available for review from the originating agency. Back copies will also be available at cost, from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

FOREST SERVICE

Draft

Palomar Planning Unit, Cleveland National Forest, San Diego and Riverside Counties, Calif., February 10: The statement refers to the 124,000 acre Palomar Mountain Planning Unit of the Cleveland National Forest. The plan proposes designation of 36,629 acres of National Forest lands as special interest area—(scenic), encompassing two roadless

XUM
V 40 136
FEB 21 75
XUM

areas, a complete fuel modification program for the entire unit, acquisition of 5,315 acres privately owned lands and 1,828 acres BLM land, and nondevelopment status on all slopes over 50%. Adverse impacts include increased litter and fire risk as a result of additional people engaged in back country activity. (ELR Order No. 50190.)

Final

Mountain Home Unit, Boise National Forest, Elmore County, Idaho, February 10: The statement refers to a proposed land use plan for the 443,946 acre Mountain Home Planning Unit of the Boise National Forest. The unit has been divided into five management areas, which are divided into management units. Management will be for timber, range, recreation, wildlife, and wilderness and backcountry values. There are 124,760 acres of inventoried roadless areas within the unit. Of these, 38,600 acres will remain undeveloped. The remainder may be developed as the need arises (two volumes). Comments made by: EPA, DOI, and State agencies and concerned citizens. (ELR Order No. 50195.)

Timber Management Plan, Chippewa National Forest, Beltrami, Cass, and Itasca Counties, Minn., February 13: The statement refers to the proposed timber management plan for the Chippewa National Forest. The plan period will extend from July 1, 1974 through June 30, 1982. The plan outlines an annual potential harvest of 86.6 MMBF of pulpwood, sawtimber, and other products. This harvest would consist of 8,200 acres of regeneration cuts and 5,900 acres of intermediate cuts. The impacts from herbicide use and road construction under the plan will be discussed in separate impact statements. This statement discusses the plan's impacts upon wildlife, recreational uses, and soil quality (145 pages). Comments made by: COE, DOI, DOT, EPA, GLRC, and State agencies, national organizations, corporations, and concerned citizens. (ELR Order No. 50211.)

RURAL ELECTRIFICATION ADMINISTRATION

Draft

Tombigbee Units 2 and 3, several counties, Ala., February 10: The statement refers to the request for insured and guaranteed loan funds from REA for $295,000,000 to construct Alabama Electric Cooperative's addition of two 233MW (gross output) coal fired steam generator units and approximately 157 miles of 230 kV transmission lines and acquire related coal leases. Adverse impacts include soil erosion and visual intrusion from the transmission facilities and effects associated with burning coal. (ELR Order No. 50189.)

230 kV Transmission Lines, Boone to Lamar, several counties, Colo., February 13: The statement concerns the loan application by Colorado-Ute Electric Association, Inc., for construction of approximately 98 miles of 230 kV transmission line between Boone and Lamar, Colorado. The project also includes a 2.5 section of 115 kV tie lines between the Boone substation and the existing Midway-LaJunta 115 kV line, and a 13-mile 115 kV tie line between the proposed Lamar Substation and the existing South Lamar Substation. The major adverse impact will be the intrusion of the transmission facilities upon the landscape. (ELR Order No. 50216.)

SOIL CONSERVATION SERVICE

Draft

Anderson River Watershed, several counties, Ind., February 11: The statement concerns a project for watershed protection, flood prevention, municipal and industrial water supply, and recreaton in Crawford, Dubois, Perry, and Spencer Counties, Ind. The project will inundate 12.1 miles of perenial warm water stream fishery and 8.5 miles of intermittent feeder streams and 297 acres of land. Over 1,200 acres cropland and forest will be replaced by dam, emergency spillway, and permanent pool areas (102 pages). (ELR Order No. 50203.)

Mantachie, Bogue Fala, and Bogue Ecuba Watershed, Itawamba, Lee, and Monroe Counties, Miss., February 10: The statement concerns a project for watershed protection, flood prevention, and recreation for Mantachie, Bogue Fala, and Bogue Ecuba Creeks Watershed. The project will utilize conservation land treatment, 12 floodwater retarding structures, and two multiple purpose structures. Nine hundred eighty three acres will be inundated and another 225 acres subject to seasonal flooding. Temporary construction disruption and lowered water quality will result. (ELR Order No. 50187.)

Shuqualak Creek Watershed Project, Noxubee, and Kemper Counties, Miss., February 10: Proposed is a project for watershed protection and flood prevention in Noxubee and Kemper Counties, Miss., There will be about 67 acres of land cleared for sediment pools, the dam and spillway areas, and along the channel work rights-of-way. There will be a loss of agricultural production due to the inundation of 919 acres of farm land, and there will be a loss of 153 acres of wildlife habitat on lands to be in the sediment pools. Temporary water and air pollution will result during construction. (ELR Order No. 50188.)

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attn: DAEN–PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Ave., SW., Washington, D.C. 20314, 202–693–7168.

Draft

Aubrey Lake, Supplement, Cooke County, February 10: The statement is a draft supplement to a final eis filed with CEQ March 4, 1974. The proposed action is the construction of Aubrey Lake for water supply, recreation, fish and wildlife. The project will require acquisition of approximately 42,000 acres and will inundate 90 miles of stream. Historical sites and archeological sites will be adversely affected, and families will be displaced. (Fort Worth District). (ELR Order No. 50185).

Jekyll Island Beach Erosion, Supplement, Glynn County, Ga., February 10: The statement is a revised draft prepared to supplement the draft eis filed with CEQ August 10, 1973. The proposed action consists of restoration and periodic nourishment of 27,000 feet of ocean beach and construction of a 1,000 foot rubblestone terminal groin for beach erosion control and hurricane protection. Adverse impacts include temporarily increased water turbidity and disruption of benthic, plankton, and nekton communities during construction (Savannah District). (ELR Order No. 50184.)

Chincoteague Harbor of Refuge, Maintenance Dredging, Accomack County, Va., February 10: Proposed is the maintennance dredging of Chincoteague Harbor of Refuge, Va. The estimated 8,000 cubic yards of shoaled material will be deposited in an upland diked disposal area adjacent to the harbor. The action will remove resident benthic organisms inhabiting the dredged areas (15 pages). (ELR Order No. 50201.)

Draft

St. Johns Bayou and New Madrid Floodway, New Madrid, Scott and Mississippi Counties, Mo., February 10: The statement concerns a plan for flood control and drainage to urban and rural areas in New Madrid, Scott, and Mississippi Counties, Mo. Three pumping stations will be constructed and a total of 81 miles of channels enlarged by excavating from one side. A total of 4,900 acres will be flooded annually. Adverse impacts include deteriorated water quality, the clearing of 7,000 acres of woodlands, and elimination of a significant element of stream bank cover (Memphis District). (ELR Order No. 50193.)

Final

Haines Small Boat Harbor, Alaska, February 13: The project involves the construction of a rubblemound breakwater and the dredging of an entrance channel. The project will expand the present moorage of the Haines Small Boat Harbor for resident and transient fishing vessels, pleasure craft, and commercial vessels. There will be adverse impact to marine biota from dredging operations (Anchorage District). Comments made by: DOI, DOC, EPA, USDA, DOT, and State agencies. (ELR Order No. 50217.)

NAVY

DEPARTMENT OF DEFENSE

Contact: Mr. Peter M. McDavitt, Special Assistant to the Assistant, Secretary of the Navy (Installations and Logistics), Washington, D.C. 20350, 202–697–0892.

Final

Norfolk Naval Station, Va., February 11: Proposed is the improvement and addition of naval ship berthing spaces at the station. Approximately 1,850,000 cu. yds. of spoil will be dredged; several additional piers will be constructed. There will be adverse impact from dredging. Comments made by: EPA, DOI, USCG, DOC, COE, DOD, and Commonwealth of Virginia. (ELR Order No. 50202.)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630, Waterside Mall, Washington, D.C. 20460, 202–755–0940.

Final

Northwest Sewage Facility, Houston, Tex., February 12: Proposed is the granting of Federal funds to the City of Houston for the enlargement of wastewater treatment facilities at the Northwest Wastewater Treatment Facility Site from the existing 4 mgd. capacity to 12 mgd. The enlarged plant will provide secondary biological treatment capable of serving the 1990 estimated population of 90,000 persons. Sludge will be conveyed to the Northwest Regional Sludge Treatment Plant where it will be processed for use as fertilizer. Adverse impacts of the action include increases in noise levels and occasional odors. Comments made by: COE, DOT, USDA, HEW, HUD, DOI, and State agencies. (ELR Order No. 50209.)

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kauders, Executive Director of Environmental Affairs, General Services Administration, 18th and F Sts. NW., Washington, D.C. 20405, 202–343–4161.

Draft

Soviet Embassy Complex, District of Columbia, February 14: Proposed is the construction of the five-building Soviet Embassy Complex on a 12.5-acre site in the Glover Park Neighborhood of Northwest Washington, D.C. The project is part of a bilateral agreement between the United States and U.S.S.R. providing for the reciprocal exchange of 85-year leasehold interests for embassy sites in both Washington and Moscow. Construction and associated disruption are expected to occur continuously over a 32-month period. (ELR Order No. 50219.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Acting Director, Office of Environmental Quality, Room 7206, 451 7th Street SW., Washington, D.C. 20410, 202–755–6295.

Draft

Downtown East Urban Renewal, Reading, Berks County, Pa., February 11: The statement concerns an urban renewal project in 44.53 acres of the central business district of Reading, Pennsylvania. The project includes destruction of 292 structures and construction of new residential and commercial buildings. A 2-story shopping mall and parking structures are planned. Seventy-nine families and 132 businesses will be displaced. (ELR Order No. 50205.)

Final

Cedar—Riverside New Community, Minneapolis, Hennepin County, Minn., February 10: Proposed is the approval of Stage 11 housing in the New Community of Cedar—Riverside. HUD has guaranteed loans up to $24 million for the development. The new community will occupy 100 acres within a 336 acre Urban Renewal Area of Minneapolis. Adverse impacts include increased air and noise pollution, and increased generation of solid waste. Comments made by: DOC, DOI, HEW, DOT, COE, AHP, AEC, EPA, and State and local agencies and concerned citizens. (ELR Order No. 50199.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, 202–343–3891.

BUREAU OF SPORTS FISHERIES AND WILDLIFE

Draft

Sport Hunting of Migratory Birds, Regulations, February 10: The statement concerns a proposal recommending that annual regulations continue to be issued permitting and regulating the sport hunting of migratory birds throughout the United States. The proposal protects the birds from indiscriminate hunting. Adverse impacts include annual reductions in populations, occasional killing of endangered and other non-target species, littering, and some destruction of vegetation. (ELR Order No. 50196.)

Final

Featherstone National Wildlife Refuge, Prince William County, Va., February 10: The proposed project is the acquisition of 313 acres known as the Featherstone Marsh to be established as the Weatherstone National Wildlife Refuge. Management on the Refuge would be restricted to retaining the natural integrity of the marsh and upland areas. Principal adverse impact of the proposal would be removal of the land from potential private use and development (76 pages). Comments made by: USDA, DOI, EPA, and one State agency. (ELR Order No. 50197.)

NUCLEAR REGULATORY COMMISSION

Contact: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, P–722, NRC, Washington, D.C. 20545, 301–973–7373.

Draft

Davis-Besse Nuclear Power Station, 2 and 3, Ottawa County, Ohio, February 14: The proposed action is the issuance of construction permits to the Toledo Edison Company for the construction of the Davis-Besse Nuclear Power Station Units 2 and 3. The station will employ identical pressurized-water reactors to produce 2,772 megawatts thermal (MWt) each. A steam turbine generator will use this heat to provide about 906 MWe (net) of electric power capacity. A cooling tower will be constructed which will obtain water from and discharge it to Lake Erie. The project will require the change of about 100 acres from agricultural to industrial use. (ELR Order No. 50218.)

Washington Nuclear Projects 3 and 5, Grays Harbor County, Wash., February 12: The proposed action is the issuance of construction permits to the Washington Public Power Supply System for the construction of Washington Nuclear Projects 3 and 5. The station will employ a pressurized water reactor to produce up to 3800 megawatts thermal (MWt) and a steam turbine generator will use this heat to provide 1240 MWe (net) of electrical power capacity. Water for cooling will be obtained from and discharged to the Chehalis River. Twelve thousand feet of transmission line will also be constructed. The project will require the disturbance of about 300 acres of the 2,170-acre forested site. (ELR Order No. 50208.)

Final

Sequoyah Uranium Hexafluoride Plant, Sequoyah County, Okla., February 13: The statement refers to the continuation of Source Material License SUB–1010, held by the Kerr-McGee Corp., authorizing the operation of a uranium hexafluoride manufacturing facility in Sequoyah County, close to the confluence of the Illinois and Arkansas Rivers. The plant produces high purity uranium hexafluoride using uranium concentrates as the starting material. It is designed to produce 5,000 tons of uranium annually. Comments made by: AHP, USDA, COE, HEW, HUD, DOI, DOT, EPA, FPC, and State agencies. (ELR Order No. 50212.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, 400 7th Street SW., Washington, D.C. 20590, 202–426–4357.

Draft

SR 525, Swamp Creek Interchange to SR 99, Snohomish County, Wash., February 13: Proposed is the construction of a 3.2-mile segment of the Swamp Creek Interchange (I–5, I–405) to SR 99 where it will connect with existing SR 525 westerly. The highway will be a 4-lane controlled-access facility and will have a significant impact on community growth. The project will displace 42 families. (ELR Order No. 50210.)

FEDERAL HIGHWAY ADMINISTRATION

Draft

U.S. 119-Appalachian Corridor G, Kentucky and West Virginia, February 10: The statement refers to the proposed improvement of a segment of US 119 in Pike County, Kentucky and Mingo County, West Virginia, within Appalachian Corridor G. The project will extend from the Harmey Street Bridge in South Williamson, Kentucky, to Route 14 near Goatman, West Virginia, a distance of approximately 2.45 miles. Nine businesses, 83 families, and 1 non-profit organization will be displaced. Coal seams of marketable value may be opened due to construction cuts. (ELR Order No. 50192.)

SR 54, Owensboro, Daviess County, Ky., February 13: Proposed is the widening of a 1.1 mile segment of SR 54-Leitchfield Road to four lanes. The project runs from the Owensboro Beltline (SR 212) to Twelth Street east of the existing alignment. Adverse impacts include displacement of ten families and construction disruptions (111 pages). (ELR Order No. 50213.)

SR 9 By-pass, Keene, Cheshire County, N.H., February 10: Proposed is the construction of a 2.8 mile, 2-lane section of New Hampshire Route 9 By-pass from SR 12 By-pass to approximately 1,700 feet east of the junction of SR 9 and SR 10. Plans for future expansion to four lanes are included. Acquisition of 185 acres of land, including nine residences and one busines and 2.0 acres of park land, is required for the project. A 4(f) statement is included. (ELR Order No. 50198.)

SR 242, Powers Highway, Coos County, Oreg., February 13: Proposed is the reconstruction of segments of SR 242, Powers Highway, from Powers to the Coos Bay-Roseburg Highway, a distance of 18 miles. The eastern alternative utilizes the present highway corridor and the western alternative, the quicker, more direct path of the two, would utilize an abandoned railroad right-of-way and would require bridge structures. The number of displacements depends upon the alternative chosen. (ELR Order No. 50214.)

I–205, to Portland, Oreg., Oregon and Washington: Proposed is the construction of a 9.2-mile section of I–205 from the Lewis and Clark Highway in Clark County Washington to SE Foster Road in Multnomah County/Portland, Oregon. The project is the uncompleted part of 36 miles of I–205; the right-of-way has largely been acquired and cleared. Two bridges and a fill are required to cross Columbia River. A 4(f) statement is included. Eleven businesses and 24 housing units remain to be cleared. (ELR Order No. 50215.)

Final

M 99 (Logan Street), Lansing, Ingham County, Mich., February 10: Proposed is the reconstruction of 1.8 miles of Logan Street, from Victor Street to Kalamazoo Street, in Lansing. A small amount of section 4(f) land will be acquired from Riverside Park; several families will be displaced. Comments made by: CEQ, DOI, USDA, EPA, USCG, and DOT. (ELR Order No. 50194.)

Yazoo City Bypass, U.S. 49W, Yazoo County, Miss., February 10: The project consists of relocating approximately 3.8 miles of U.S. 49W from its junction with Mississippi Highway No. 3 in a southeasterly direction to a junction with Miss. Highway No. 16, Highway No. 49E, and U.S. 49. The project directly affects the town of Yazoo City in that it will provide a bypass route to the south of that city. Adverse impacts are increased air, noise, and water pollution due to construction, and the displacement of 19 families and one business (95 pages). Comments made by: DOI, EPA, HUD, USDA, and State agencies. (ELR Order No. 50200.)

U.S. 29 Improvement, Rockingham and Caswell Counties, N.C., February 11: Proposed is the improvement of a 7.4 mile segment of U.S. 29 from the U.S. 29–SR 1767 interchange in Rockingham County through Caswell County to the Virginia State Line. The project would widen U.S. 29 to two 24-foot roadways separated by a 68 foot median and would require 200 acres of woodlands and farm land for right-of-way. Twelve families and three businesses will be displaced (41 pages). Comments made by: USDA, COE, EPA, FPC, GSA, HUD, DOI, and State agencies. (ELR Order No. 50206.)

U.S. COAST GUARD

Draft

Gulf LORAN–C Project, February 10: The statement concerns the expansion of the LORAN–C (Long Range Aid to Navigation) coverage to include the harbors, estuaries, and the Coastal Confluence Zone of the Gulf of Mexico. This expansion of coverage will

XUM
V 40 136 FEB 21 75
XUM

require the construction and operation of three transmitting stations at Malone, Florida, Grangeville, Louisiana, and Raymondville, Texas. Adverse impacts include the conversion of forest to pastureland at the Grangeville site and construction disruption. (ELR Order No. 50186.)

Final

Prince William Sound Vessel Traffic System, Alaska, February 11: Proposed is the development of a vessel traffic system for Prince William Sound. Included in the proposal is the construction of a control center, and housing for 45 Coast Guard personnel and their dependents. The traffic system is designed to lessen the probability of tanker casualties with resulting spills of crude oil when the Valdez crude oil loading terminal becomes operational (73 pages). Comments made by: EPA, COE, USDA, DOI, DOT, and State and local agencies. (ELR Order No. 50204.)

New York Vessel Traffic System, several counties, New York, February 10: The statement refers to a proposed system which will cover the geographic areas comprising the Port of New York, the Hudson River to Albany, and Long Island Sound to the west of Block Island, Rhode Island. The system will consist of a combination of vessel traffic system levels which will include VHF/FM communications, radar surveillance, a Traffic Separation System, and a Vessel Movement Reporting System. Radar and communication sites, and a vessel traffic operations center will be constructed. There will be adverse impact from construction disruption (108 pages). Comments made by: DOC, COE, DOD, HEW, DOI, DOT, EPA, and State and local agencies. (ELR Order No. 50191.)

GARY L. WIDMAN,
General Counsel.

[FR Doc.75-4752 Filed 2-20-75;8:45 am]

FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19902; FCC 75-144]

AM BROADCAST STATIONS

One-Hour Sign On Time Advancement

In the matter of amendment of Part 73 of the Commission's rules to provide a one-hour advancement in the sign-on times of daytime AM broadcast stations to recoup the morning hour lost by the enactment of year-round daylight saving time.

1. In accordance with Public Law 93-434, approved October 5, 1974, and effective October 27, 1974, most of the nation will observe "standard" (non-advanced) time through 2 a.m. Sunday, February 23, 1975, after which daylight saving (advanced) time will be observed through the last Sunday of October 1975. Absent further action by Congress, most areas under U.S. jurisdiction will, effective 2 a.m. Sunday, April 27, 1975, revert to the "6 and 6" formula provided by the Uniform Time Act of 1966; i.e., the observance of non-advanced time between the last Sunday of October and the last Sunday of April, and the observance of advanced time during the remaining six months of the year.

2. Thus, in 1975 (and perhaps for this year alone), the onset of advanced time will occur two months prior to the traditional last Sunday in April. In our order of October 8, 1974, in this proceeding (FCC 74-1086; 49 FCC 2d 89), we recognized that ". . . between February 23 and April 27, 1975, when most of the country again returns to daylight saving time, daytime stations will suffer varying (but diminishing) degrees of hardship." This will occur because substantial portions of their audiences will have departed for work or school prior to local sunrise, particularly during the last six days of February, when licensed sign-on times are comparatively late. For this reason, we indicated our intention, barring unforeseen circumstances, to reinstate the benefits of the earlier emergency orders[1] during this two-month period and, in addition, to incorporate whatever further pre-sunrise operating benefits could, in the meantime, be negotiated internationally.[2] We find the public interest will be served by implementing this intention.

3. Authority for the adoption of this order is contained in Public Laws 93-182 and 93-434, and in sections 4(i) and 303(r) of the Communications Act of 1934, as amended. Because of the urgent need for the interim adjustments herein ordered and because we interpret PL 93-182 as permitting these adjustments to be made without regard to hearing rights which might otherwise be asserted by co-channel fulltime stations under section 316 of the Communications Act, we find that compliance with the notice and effective date provisions of the Administrative Procedure Act (5 U.S.C. 553) is not required.

4. Accordingly, *It is ordered*, That effective February 23, 1975, the temporary pre-sunrise operating benefits available to class II and class III daytime stations under the emergency orders adopted in this proceeding on December 18, 1973 (FCC 73-1324), and February 6, 1974 (FCC 74-135), are reinstated through Sunday, April 27, 1975, at which time all AM stations shall revert to their licensed and/or authorized PSA modes of operation as provided in §§ 73.87 and 73.99 of the Commission's rules.

5. *It is further ordered*, That daytime stations assigned to the *Bahamian I-A clear channel* (1540 kHz) MAY, between February 23 and April 27, 1975, and without regard to whatever privileges they already hold under pre-sunrise service authorizations (PSA's) issued by the Commission, operate for one hour immediately preceding local sunrise at the power levels specified in Appendix A.

6. *It is further ordered*, That daytime stations assigned to Canadian I-B clear channels MAY, during said two-month period and without regard to whatever privileges they already hold under PSA's issued by the Commission, operate for one hour immediately preceding local sunrise at the power levels specified in Appendix B.

7. *It is further ordered*, That daytime stations assigned to Canadian I-A clear channels MAY, during said two-month period, operate for one hour immediately preceding local sunrise at the power levels specified in Appendix C.

8. *It is further ordered*, That any temporary pre-sunrise operation undertaken pursuant to this Order shall not commence earlier than 6 a.m. local time, shall be appropriately logged, and a description of the method used to reduce power to the level specified herein shall be entered in the maintenance log.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; (47 U.S.C. 154, 303))

Adopted: February 4, 1975.

Released: February 7, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPENDIX A

The following stations may operate with the powers indicated, delivered to their daytime or critical hours antenna systems, as appropriate:

1540 kHz

WCOX—Camden, Ala	19
WANL—Lineville, Ala	18
KZRK—Ozark, Ark	50
KPOL—Los Angeles, Calif	50
KJOA—Jackson, Ga	11
WOGA—Sylvester, Ga	7
WSMI—Litchfield, Ill	50
WBNL—Booneville, Ind	50
WLOI—La Porte, Ind	50
KNEX—McPherson, Kans	50
KLKC—Parsons, Kans	50
WKCB—Hindman, Ky	19
KCTO—Columbia, La	50
KGLA—Gretna, La	35
WDON—Wheaton, Md	50
WSWG—Greenwood, Miss	50
KBXM—Kennett, Mo	50
WKXR—Exeter, NH	50
WYRD—East Syracuse, N.Y	50
WKYK—Burnsville, N.C	19
WRPL—Charlotte, N.C	15
WIFM—Elkin, N.C	20
WBCO—Bucyrus, Ohio	50

KEDA—San Antonio, Tex	50
WRGM—Richmond, Va	7
KBES—Bellevue, Wash	50
WTKM—Hartford, Wis	50

[1] In general terms, those orders provided a minimum of one hour of additional operation during the pre-sunrise period, with a power of at least 50 watts, except where precluded by international agreement.

[2] Two international agreements bearing on this situation have been implemented since our adoption of the October 8, 1974 Order in this proceeding: a permanent agreement, reached September 4, 1974, with the Commonwealth of The Bahamas respecting the pre-sunrise operation of U.S. class II daytimers assigned to the Bahamian I-A clear channel 1540 kHz; and a temporary agreement reached January 22, 1975, with Canada respecting the pre-sunrise operation of U.S. daytimers assigned to frequencies on which Canada holds I-A and I-B clear channel priorities.

APPENDIX B

The following stations may operate with the powers indicated, delivered to their daytime or critical hours antenna systems, as appropriate:

640 kHz

WOI—Ames, Iowa	50
WHLO—Akron, Ohio	302

FEDERAL ENERGY ADMINISTRATION

FOODSERVICE ADVISORY COMMITTEE

Notice of Charter Amendment

This notice is given to advise of a change in the name of the Foodservice Advisory Committee. The charter of the Foodservice Advisory Committee was published on August 21, 1974 (39 FR 30196). The new name for this Committee will be the Food Industry Advisory Committee.

The charter published August 21, 1974, is hereby amended, effective immediately, to substitute "Food Industry Advisory Committee" for "Foodservice Advisory Committee" wherever the latter phrase appears. The charter is not amended in any other respect.

Issued at Washington, D.C. on February 18, 1975.

DAVID G. WILSON,
Acting General Counsel.

[FR Doc.75-4808 Filed 2-20-75;8:45 am]

FEDERAL POWER COMMISSION

[Docket No. G-7490, et al.]

AMOCO PRODUCTION CO.

Applications for Certificates, Abandonment of Service and Petitions To Amend Certificates [1]

FEBRUARY 10, 1975.

Take notice that each of the Applicants listed herein has filed an application or petition pursuant to section 7 of the Natural Gas Act for authorization to sell natural gas in interstate commerce or to abandon service as described herein, all as more fully described in the respective applications and amendments which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before February 27, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates or the authorization for the proposed abandonment is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[1] This notice does not provide for consolidation for hearing of the several matters covered herein.

[Docket No. E-9261]

BUCKEYE POWER, INC.

Notice of Tariff Change

FEBRUARY 14, 1975.

Take notice that Buckeye Power, Inc., on February 10, 1975, tendered for filing proposed changes in its FPC Rate Schedules Nos. 3 through 30, inclusive. The proposed changes would increase revenues from jurisdictional sales and service by $5,190,636 based on the 12 month period ending March 31, 1975. The proposed changes would also change the method of determining billing demand from non-coincidental peak demand to coincidental peak demand.

Buckeye states that the primary reason for the proposed rate increase is to produce equity capital for Buckeye to be used to complete its second generating unit now under construction and to provide for additional capital expenditures for environmental protection facilities and to provide for additional generating capacity to meet its future requirements.

The proposed effective date is April 1, 1975.

Copies of the filing were served upon Buckeye Power, Inc.'s 28 member-owners which constitute its jurisdictional customers and the Public Utilities Commission of Ohio.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 10, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4727 Filed 2-20-75;8:45 am]

[Docket No. CI75-438]

COLEVE

Notice of Application

FEBRUARY 14, 1975.

Take notice that on January 27, 1975, Coleve, a Joint Venture composed of Columbia Gas Development Corporation and Energy Ventures, Inc., 2500 First City National Bank Building, Houston, Texas 77002, filed in Docket No. CI75-438

V 40 36 FEB 21 75 XUM XUM

an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act and § 2.75 of the Commission's rules of practice and procedure to authorize Applicant to sell natural gas from eight tracts in federal waters offshore Louisiana to Columbia Gas Transmission Corporation. Under the terms of the Gas Purchase and Sales Agreement dated January 23, 1975, the gas would be sold from certain acreage in the Federal Domain offshore Louisiana, specifically in Blocks 479, North half of West Cameron Block 507, 485, 531, and 642, West Cameron Area; Blocks 370 and 371, East Cameron Area; and Block 267, South Marsh Island Area at the initial rate of $1.44 per Mcf, together with the 2.0 cents per Mcf annual escalations.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8 and 1.10). All such petitions or protests should be filed on or before March 3, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4728 Filed 2-20-75;8:45 am]

[Docket No. RP75-46]

EASTERN SHORE NATURAL GAS CO.

Tender of Demand Charge Adjustment and Request for Waiver of Regulations

FEBRUARY 14, 1975.

Take notice that Eastern Shore Natural Gas Company (Eastern Shore) on December 24, 1974, tendered for filing revised and original tariff sheets to its FPC Gas Tariff, Original Volume No. 1, as follows:

Third Revised Sheet No. 7
Second Revised Sheet No. 9D
First Revised Sheet No. 32B
Original Sheet No. 34L
Original Sheet No. 34M

Eastern Shore states that the purposes of this filing are (1) to provide for demand charge adjustments under its curtailment plan, and (2) to set forth the procedures for reimbursement of Eastern Shore through changes in its commodity charges for the demand charge credits granted to customers.

Eastern Shore states that the proposed revisions are in the public interest because its customers will not be required to pay demand charges for that portion of contract demand not supplied by reason of gas shortage curtailment, and Eastern Shore will not be precluded from earning its cost of service. Eastern Shore further states that the operation of the proposed tariff changes will not result in any increase in Eastern Shore's annual revenues.

Eastern Shore requests waiver of the thirty-day notice provisions of the Natural Gas Act and the Commission's rules and regulations in order that the proposed tariff sheets may become effective as of January 1, 1975.

Eastern Shore states that copies of the filing have been mailed to each of the Company's jurisdictional customers and to interested State commissions.

Any person desiring to be heard or to protest said filing should file a Petition to Intervene or Protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before February 28, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a Petition to Intervene. Copies of this filing are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4729 Filed 2-20-75;8:45 am]

[Docket No. RP75-42-1]

EL PASO NATURAL GAS CO.

Order Granting Petition for Emergency Relief and Granting Intervention

FEBRUARY 14, 1975.

By letter filed December 16, 1974, Paul Lime Plant, Inc. (Paul Lime) requested emergency relief from the curtailment imposed upon it by El Paso Natural Gas Company (El Paso) for a period of 60 days commencing December 11, 1974. Paul Lime has requested that it be permitted to utilize 3,800 Mcf per day for that period after which it will have installed alternate fuel facilities enabling it to pay back the gas consumed during the emergency period.

Paul Lime is a direct industrial customer of El Paso located near Douglas, Arizona, which utilizes gas for space heating in company houses and offices and in three gas fired kilns that are used in the production of calcium oxide. Paul Lime asserts that its product, calcium oxide, is an essential reagent in the production of copper concentrates by producing mines in southern Arizona and New Mexico. Consequently, Paul Lime states that gas curtailments to its plant would result in probable layoffs not only of its own employees, which number 48, but also copper workers in the southwest who number in excess of 10,000.

Paul Lime requires the emergency volumes for Priority 3 use, but following the 60 day period gas will not be required for Priority 3 consumption and Paul Lime will thus be able to effectuate a payback. Paul Lime further indicates that it will minimize gas usage during the emergency period by operating only two of the three kilns.

To initiate emergency service, and pending our disposition of Paul Lime's petition herein, El Paso, at Paul Lime's request, began emergency gas service on December 11, 1974. By telegram to the Commission dated December 16, 1974, El Paso indicated no problems in rendering the requested service.

On February 5, 1975, Pacific Gas & Electric Company (PG & E) filed a petition to intervene in the instant proceeding and claimed sufficient interest in the proceeding by virtue of its status as a customer of El Paso. However, PG & E neither opposed the petition herein nor requested formal hearing thereon.

Because of the temporary nature of the emergency herein and because of Paul Lime's expeditious installation of alternate fuel facilities, allowing full paybacks of Priority 3 volumes, we will grant the petition for the relief requested.

Finally, on February 10, 1975, the Commission received a communication from Paul Lime indicating that delivery of certain equipment to be utilized in the changeover from gas to alternate fuel had not been timely delivered and that it would need an additional 30 days of emergency relief with delivery volumes of 2,400 Mcf per day required for Priority 3 use. For good cause shown the Commission will grant the requested extension of emergency relief service.

The Commission finds. (1) Good cause exists to permit emergency gas service from El Paso to Paul Lime for the period requested in the latter's petition for emergency relief.

(2) Good cause exists to permit an extension of emergency gas service from El Paso to Paul Lime for a period not to exceed 30 days from the date of termination of the original emergency service period.

(3) The participation of PG & E may be in the public interest.

The Commission orders. (A) The emergency service of gas deliveries in the amount of 3,800 Mcf per day for Priority 3 use from El Paso to Paul Lime for the 60 day period commencing December 11, 1974, is hereby authorized, subject to payback.

(B) The emergency service from El Paso to Paul Lime shall be continued for a period not to exceed 30 days beyond the termination date of the emergency period authorized in Paragraph (A) above, subject to payback. The volumes of Priority 3 gas to be delivered during the extended period shall be 2,400 Mcf per day.

(C) PG & E is permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *Provided, however,* That participation of such intervenor shall be limited to matters directly affecting asserted rights and interests as specifically set forth in the petitions to intervene; and, *Provided, further,* That the admission of such intervenor shall not be construed as recognition by the Commission that they might be aggrieved because of any order

of the Commission entered in this proceeding.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75-4730 Filed 2-20-75;8:45 am]

[Docket No. CP74-192]

FLORIDA GAS TRANSMISSION CO.

Order Setting Pre-Hearing Conference, Prescribing Procedures, and Granting Interventions

FEBRUARY 10, 1975.

On January 24, 1974, Florida Gas Transmission Company (Florida), filed in Docket No. CP74-192 an application pursuant to sections 7(b) and 7(c) of the Natural Gas Act for permission and approval to abandon certain facilities and pipeline system totaling approximately 881.8 miles and extending through the states of Louisiana, Mississippi, Alabama, and Florida and for a certificate of public convenience and necessity authorizing the construction and operation of certain additional facilities on Florida's 30-inch loop which parallels said 24-inch system to allow Florida to convert the 24-inch system from natural gas service to a petroleum products pipeline.

In order to complete its 30-inch system which loops its existing and original 24-inch system, Florida seeks authorization to construct and connect an additional 68.28 miles of pipeline. The proposed construction consists of:

30-inch mainline

10.48 miles in Louisiana.
6.80 miles in Alabama.
23.96 miles in Florida.

26-inch mainline

9.93 miles in Florida.

Laterals

5.90 miles of 20-inch line in Florida.
11.21 miles of 4½-inch line in Florida.

Florida also seeks authorization to install three compressor stations in Florida, as follows:

1. A 3,165 horsepower compressor to be relocated from Station No. 5, Chambers County, Texas, to Station No. 16A, Putnam County, Florida;
2. A 3,165 horsepower compressor to be relocated from Station 8, East Baton Rouge Parish, Louisiana, to Station No. 17A, Lake County, Florida; and,
3. A new 3,800 horsepower compressor to be installed at Station 21, Palm Beach County, Florida.

The proposed construction is estimated to cost $21,497,000.

The proposed abandonment, upon completion of the new facilities, consists of 881.8 miles of pipeline and related facilities to its original 24-inch system extending from a point near Zachary in East Baton Rouge Parish, Louisiana to Fort Lauderdale, Florida. The proposed abandonment consists of:

24-inch mainline

82.3 miles in Louisiana.
82.5 miles in Mississippi.
72.6 miles in Alabama.
444.5 miles in Florida.

20-inch mainline

98.4 miles in Florida.

18-inch mainline

101.5 miles in Florida.

As of June 30, 1976, the projected date of abandonment, the original cost and depreciated original cost of said facilities are estimated to be $73,318,268 and $31,558,022, respectively.

Florida states that if the requested construction and abandonment authorizations are granted, the abandoned facilities will be sold to an unidentified affiliated company at depreciated original cost, for conversion to a petroleum products pipeline with an initial daily capacity for transporting 220,000 barrels of such products as gasoline, jet fuel, kerosene, and No. 2 fuel oil.

Florida states that the delivery capacity of its 30-inch system with the proposed facilities will be approximately equal to the deliverability from connected gas reserves at the time of the proposed conversion and will exceed its firm requirements. Florida further states that the proposed conversion of the 24-inch system to a petroleum products pipeline represents the least threat to the ecology and environment in supplying petroleum products to the State of Florida.

The application by Florida was noticed on February 7, 1974, with protests or petitions to intervene due by March 1, 1974. Notice of intervention was filed by the Florida Public Service Commission. Timely petitions to intervene were filed by the following:

City Gas Company of Florida [1]
Florida Power & Light Company
Florida Power Corporation
Florida Public Utilities Company
Gainesville Gas Company
Maule-Industries, Inc.[1]
Murphy Oil Corporation
Peoples Gas System, Inc.
Port Everglades Authority
Port Everglades Towing, Inc.
Southern Gas Company
Standard Oil Company
Sun Oil Company

The cites of Fort Pierce, Gainesville, Homestead, Kissimmee, Lakeland, Sebring, Starke, and Tallahassee jointly submitted a timely request for a ten day extension of time to determine whether they should petition to intervene. On March 12, 1974, these cities submitted a joint petition to intervene, protesting the proposed abandonment and specifically requesting a formal hearing.

Petitions to intervene were filed out-of-time by the following parties:

Florida Audubon Society, Inc.
Gardinier, Inc.

[1] These petitions specifically requested a formal hearing.

Governor of Florida
Izaak Walton League, Florida Division
Tenneco Oil Company

In addition, the Gulf Coast Regional Conservation Committee of the Sierra Club filed a timely protest and the Delta Chapter of the Sierra Club filed a protest after expiration of the time prescribed.

We believe that a formal hearing should be convened to develop a complete record in this proceeding. Such proceeding should develop, inter alia, a record regarding:

1. Florida's indicated reduction in average daily delivery capacity by about 69,000 Mcf;
2. Gas pipeline safety, operating flexibility and the cost of future capacity increases;
3. The propriety and/or necessity of gas customers paying for any new construction, all necessitated by the proposed sale and conversion of certain facilities to products transportation;
4. The full cost of the proposed products pipeline, including necessary conversion costs, as compared to the full cost of a new such pipeline, in order to determine the propriety of the sale to an affiliated company at depreciated original cost of a jurisdictional facility for conversion to a non-jurisdictional use;
5. The effect of the proposal on the quality of the human environment; and,
6. The propriety of conveying natural gas pipeline right-of-way for purposes other than natural gas transmission service, under section 7(h) of the Natural Gas Act.
7. The effect on the instant proposal with and without the continued transportation service being rendered by Florida for Sun Oil Company, pursuant to Docket Nos. G-9262, et al. and CP65-393. These proceedings authorized the transportation of up to 340,000 MMBTU per day from Sun Oil. The contract for 140,000 MMBTU's is due to expire in June, 1979 and the contract for the remaining 200,000 MMBTU's is due to expire in June, 1988.

The Commission finds. (1) It is necessary and appropriate that the proceeding in Docket No. CP74-192 be set for formal public hearing.

(2) A pre-hearing conference should be convened, at which may be discussed in addition to the matters set forth in § 1.8 of the rules of practice and procedure, any requests for clarification of the facts presented by the application which may be necessary for evaluation of the environmental impact of the proposed project.

The Commission orders. (A) Florida Gas Transmission Company, and all supporting interveners, shall file testimony and exhibits comprising their cases in chief on or before March 12, 1975.

(B) A pre-hearing conference is to be convened on March 19, 1975, at the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426

XUM
V 40 136 FEB 21 75

to discuss procedural issues and clarification as noted in this order.

(C) A formal hearing shall be convened in the proceeding in Docket No. CP74–192 in a hearing room of the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C., 20426 on April 1, 1975 at 10 a.m. (e.d.t.). The Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for the purpose—see Delegation of Authority 18 CFR 3.5(d)—shall preside at the hearing in this proceeding and shall prescribe relevant procedures not herein provided.

(D) If necessary, the record of these proceedings shall remain open until the submission of the Commission Staff's final environmental impact statement, and no initial decision shall be issued by the Administrative Law Judge until inclusion of the environmental impact statement in the record and cross-examination thereon.

(E) The above-mentioned interveners are permitted to intervene in this proceeding subject to the rules and regulations of the Commission; *Provided, however,* That participation of such interveners shall be limited to matters affecting asserted rights and interests as specifically set forth in the petitions to intervene, and *Provided, further,* That the admission of such interveners shall not be construed as recognition by the Commission that they might be aggrieved because of any order of the Commission entered in this proceeding.

By the Commission.

Secretary.

[FR Doc.75–4731 Filed 2–20–75;8:45 am]

[Docket No. G–3727]

GETTY OIL CO.

Notice of Petition To Amend

FEBRUARY 14, 1975.

Take notice that on January 30, 1975, Getty Oil Company (Applicant), P.O. Box 1404, Houston, Texas 77001, filed in Docket No. G–3727 a petition to amend the order issuing a certificate of public convenience and necessity in said docket pursuant to section 7(c) of the Natural Gas Act by authorizing the sale of natural gas to Transcontinental Gas Pipe Line Corporation (Transco) pursuant to the terms of a gas purchase agreement dated November 7, 1974, between Petitioner and Transco, said agreement having resulted from the agreement certified to the Commission in Hilda B. Weinert and Jane W. Blumberg, et al., Docket No. G–2730, et al., all as more fully set forth in the petition to amend, which is on file with the Commission and open to public inspection. Petitioner also requests permission to withdraw its application for permission and approval to abandon the sale to Transco filed in the subject docket on February 4, 1971.

Petitioner was issued a certificate of public convenience and necessity in the subject docket authorizing the sale of gas to Transco from certain acreage in the La Gloria Field, Brooks and Jim Wells Counties, Texas. On February 4, 1971, Petitioner filed for permission and approval to abandon sales to Transco from the subject acreage. Said application was consolidated with similar applications in Docket No. G–2730, et al., and was granted by the order accompanying Opinion No. 655 in Docket No. G–2730, et al. (49 FPC 738). On November 21, 1973, the United States Court of Appeals for the District of Columbia Circuit reversed Opinion No. 655 and remanded it to the Commission for further proceedings. Transcontinental Gas Pipe Line Corporation v. FPC, 488 F.2d 1325 (D.C. Cir. 1973).

Petitioner states that on November 7, 1974, it entered into a new contract which supersedes the contract certificated in Docket No. G–3727 and which, among other things, sets forth volumes committed to Transco and provides for sales to continue until the gas reserves committed thereunder have been delivered. Said new contract is to become effective as of the date of Commission approval of the proposed settlement agreement in the proceeding in Docket No. G–2730.

Petitioner requests that, in the event the Commission approves the revised settlement proposal, the Commission contemporaneously issue an order amending Petitioners certificate issued in Docket No. G–3727 so as to authorize Petitioner to perform all acts and obligations provided for under the contract dated November 7, 1974.

Any person desiring to be heard or to make any protest with reference to said petition to amend and said request for withdrawal of application for permission and approval to abandon should on or before March 4, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–4732 Filed 2–20–75;8:45 am]

[Dockets Nos. CI64–385, CI64–1124]

GRAMPIAN CO., LTD. AND RUTH PHILLIPS BISIKER

Notice of Petitions To Amend

FEBRUARY 14, 1975.

Take notice that on February 3, 1975, Grampian Company, Limited and Ruth Phillips Bisiker (Petitioners), c/o Cecil L. Smith, 1407 Main Street, Suite 1407, Dallas, Texas 75202, filed in Docket Nos. CI64–385 and CI64–1124, respectively, petitions to amend the orders issuing certificates of public convenience and necessity in said dockets pursuant to section 7(c) of the Natural Gas Act by authorizing the sale of natural gas to Transcontinental Gas Pipe Line Corporation (Transco) pursuant to the terms of separate gas purchase agreements dated November 7, 1974, between Petitioners and Transco, said agreements having resulted from the settlement agreement certified to the Commission in Hilda B. Weinert and Jane W. Blumberg, et al., Docket No. G–2730, et al., all as more fully set forth in the petitions to amend, which are on file with the Commission and open to public inspection. Petitioners also request permission to withdraw their applications for abandonment of sale to Transco filed in the subject dockets on March 1, 1971.

Petitioners were authorized by orders issuing certificates of public convenience and necessity in the subject dockets to sell gas to Transco from acreage in the La Gloria Field, Brooks and Jim Wells Counties, Texas. Petitioners filed applications for permission and approval to abandon said sales on March 1, 1971, also in the instant dockets. Said requests, along with other similar abandonment applications, were granted by the order issuing Opinion No. 655 in Docket No. G–2730, et al. (49 FPC 738). On November 21, 1973, the United States Court of Appeals for the District of Columbia Circuit reversed Opinion No. 655 and remanded it to the Commission for further proceedings. Transcontinental Gas Pipe Line Corporation v. FPC, 488 FPC 1325 (D.C. Cir. 1973).

Petitioners state that, as a result of settlement negotiations, they have entered into new contracts with Transco which provide, inter alia, for various volumes, to be delivered to Transco during certain periods, which are different from the volumes committed under the contracts pursuant to which sales were certificated in Docket No. G–3287 [sic] and further provide for such sales to continue as set forth in said contracts until all of the gas reserves committed to Transco thereunder have been delivered. Petitioners further state that said contracts will become effective the date of Commission approval of the proposed settlement.

Petitioners, accordingly, request that in the event the Commission approves the settlement in Docket No. G–2730 the Commission contemporaneously issue orders amending the certificates of public convenience and necessity issued in Docket Nos. CI64–385 and CI64–1124 so as to authorize Petitioners to perform all acts and obligations provided for under the November 7, 1974, contracts with Transco.

Any person desiring to be heard or to make any protest with reference to said petitions to amend should on or before March 3, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–4733 Filed 2–20–75;8:45 am]

[Docket No. E–9046]

MONTAUP ELECTRIC CO.

Order Accepting for Filing and Suspending Proposed Increase in Rates, Granting Waiver of Notice Requirements, and Establishing Procedures

FEBRUARY 14, 1975.

On January 17, 1975, Montaup Electric Company (Montaup) tendered for filing, amendments to a rate schedule for service to the Narragansett Electric Company (Narragansett). The amendments, originally filed on October 1, 1974, were rejected as being contractually barred by the Mobile-Sierra doctrine[1] by Commission Order dated December 18, 1974 in the above-referenced docket. Montaup states that in the event its application for rehearing on the Mobile-Sierra issue is denied the above-mentioned rate schedule will nevertheless terminate on April 30, 1975, pursuant to contractual notice dated October 29, 1974. Montaup requests an effective date of May 1, 1975. Montaup further requests an 18 day suspension of the proposed rates to have the revised rate for service to Narragansett made effective subject to refund on May 19, 1975, the same date the rates to other customers filed in this proceeding will become effective subject to refund. Montaup further states that it has added a supplement to its rate schedule for service to Narragansett expressly permitting changes in rates by unilateral filing in accordance with section 205 of the Federal Power Act.

Notice of the filing was issued on January 28, 1975, with protests and petitions to intervene due on or before February 5, 1975.

Upon review of the instant filing we find that proper notice of termination of the above-mentioned contract was given to Narragansett by letter dated October 29, 1974, and that said contract will thereby terminate as of April 30, 1975. We also find that the issues raised in the present filing indicate that the proposed changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Accordingly, and in recognition of Montaup's request herein, we shall grant waiver of the ninety day notice requirements of § 35.3(a) of the Commission's Regulations and accept the proposal for filing as of January 17, 1975. Additionally, we shall suspend the proposal for 18 days from Montaup's proposed effective date of May 1, 1975, until May 19, 1975, to coincide with the effective date of the other documents filed in the above docket.

Pursuant to our findings stated above and in recognition of our treatment of the issue herein presented, we will deem Montaup's application for rehearing (filed January 17, 1975) withdrawn, as requested by Montaup.

The Commission finds. (1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Montaup's revised rate schedule be suspended as hereinafter provided.

(2) Good cause exists to grant Montaup's motion for waiver of the notice requirements of the Commission's regulations.

The Commission orders. (A) Pending a hearing and a decision therein, Montaup's proposed changes in its rates and charges to Narragansett tendered January 17, 1975, are accepted for filing as of January 17, 1975, and suspended for 18 days from the May 1, 1975 proposed effective date, and the use therefore deferred until May 19, 1975, subject to refund.

(B) Pursuant to the authority of the Federal Power Act, particularly section 205 thereof, and the Commission's rules and regulations, and the regulations under the Federal Power Act (18 CFR Chapter I) a public hearing shall be held concerning the lawfulness of Montaup's proposed rates changes as to Narragansett, in Docket No. E–9046. The hearing herein ordered shall be consolidated with the hearing ordered on December 18, 1974 in this docket, and Paragraphs (C) and (D) of that order which established procedural dates are incorporated herein.

(C) Montaup's application for rehearing, filed January 17, 1975, is hereby deemed withdrawn.

(D) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to § 1.18 of the Commission's rules of practice and procedure.

(E) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.75–4735 Filed 2–20–75;8:45 am]

[Docket No. CP74–64]

MOUNTAIN FUEL SUPPLY CO.

Notice of Amendment to Application

FEBRUARY 14, 1975.

Take notice that on February 6, 1975, Mountain Fuel Supply Company (Applicant), 180 East First South Street, Salt Lake City, Utah 84111, filed in Docket No. CP74–64 an amendment to its application filed in the subject docket pursuant to section 7(c) of the Natural Gas Act by which amendment Applicant proposes to sell to and exchange natural gas with Colorado Interstate Gas Company, a division of Colorado Interstate Corporation (CIG), from an enlarged producing area, all as more fully set forth in the amendment which is on file with the Commission and open to public inspection.

By its application[1] filed in the subject docket on September 6, 1973, Applicant requests, inter alia, certificate authorization for the sale of natural gas to and the exchange of natural gas with CIG. The source of gas for said sale and exchange, as stated in the application, is from the Spearhead Ranch Well No. 1, Converse County, Wyoming. Applicant states that in anticipation of future natural gas development in Converse County it has enlarged the dedicated area under its sale and exchange agreement with CIG to include an additional 54 sections in the Anadarko-Fox area of Converse County.

Any person desiring to be heard or to make any protest with reference to said amendment should on or before March 6, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene, in accordance with the Commission's rules. Persons who have heretofore filed a protest or petition to intervene need not file again.

KENNETH F. PLUMB,
Secretary.

[Docket No. RI75–109]

MURPHY OIL CORP.

Hearing and Rate Change

FEBRUARY 7, 1975.

Order providing for hearing on and suspension of proposed change in rate, and allowing rate change to become effective subject to refund.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A hereof.

The proposed changed rate and charge may be unjust, unreasonable, unduly dis-

[1] United Gas Pipeline Co. v. Mobile Gas Service Corp., 350 U.S. 332 (1956) and F.P.C. v. Sierra Pacific Power Co., 350 U.S. 348 (1956).

[1] Notice of the application was published in the FEDERAL REGISTER on September 27, 1973 (38 FR 26973).

XUM

FEB 21 75
XUM

criminatory, or preferential, or otherwise unlawful.

The Commission finds. It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered below.

The Commission orders. (A) Under the Natural Gas Act, particularly Sections 4 and 15, the Regulations pertaining thereto [18 CFR, Chapter I], and the Commission's rules of practice and procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.-102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

APPENDIX

Docket No.	Respondent	Rate schedule No.	Supplement No.	Purchaser and producing area	Amount of annual increase	Date filing tendered	Effective date unless suspended	Date suspended until—	Cents per Mcf*		Rate in effect subject to refund in dockets Nos.
									Rate in effect	Proposed increased rate	
RI75-109..	Murphy Oil Corp.....	24	17	Northwest Pipeline Corp., (Basin Dakota Field, San Juan County, N. Mex.) (Rocky Mountain Area).	$129,914	1-10-75	.....	6-22-74	22.5	1 35.7	

*Unless otherwise stated, the pressure base is 15.025 lb/in²a. 1 Plus applicable tax and Btu adjustment.

The proposed rate increase of Murphy, pursuant to an area rate clause, is from 22.5 cents to 35.7 cents per Mcf, the rate ceiling in Rocky Mountain established by Opinion No. 699–H for gas sold under contracts dated after October 1, 1968, from wells commenced prior to January 1, 1973. We shall suspend the proposed rate increase for one day from the date it would otherwise become effective under Opinion No. 699–H pending determination as to whether the Rocky Mountain ceiling in Opinion No. 699–H is applicable to the subject sales.

In regard to any sale of natural gas for which the proposed increased rate is filed under the provisions of Opinion No. 699–H, issued December 4, 1974, in Docket No. R–389–B, no part of the proposed rate increase above the prior applicable area ceiling rate may be made effective until the seller submits a statement in writing demonstrating that Opinion No. 699–H is applicable to the particular increased rate filing, in whole or in part. The proposed increased rates for which such support shall have been satisfactorily demonstrated on or before January 31, 1975, will be made effective as of June 21, 1974.

[FR Doc.75–4518 Filed 2–20–75;8:45 am]

[Docket No. E–9181]

NANTAHALA POWER AND LIGHT CO.

Order Accepting for Filing and Suspending Proposed Rate Increase, Granting Interventions, and Establishing Procedures

FEBRUARY 14, 1975.

On December 16, 1974, as completed on January 17, 1975,[1] Nantahala Power and Light Company (Nantahala) tendered for filing, proposed Rate Schedule PL comprising Second Revised Sheet No. 4, superseding First Revised Sheet No. 4, and Third Revised Sheet No. 5, superseding Second Revised Sheet No. 5.[2] According to Nantahala, the proposed change in rates would increase the company's present revenues by $84,879. This filing introduces a proposed purchase power cost adjustment clause into Nantahala's tariff in order that variations in the cost of purchased power above or below those rates in effect as of January 2, 1975, might be reflected. Nantahala has also amended its availability clause by eliminating the restirictive language governing resale of power.

Notice of the instant filing was issued on December 31, 1974, with responses due on or before January 14, 1975. On January 13, 1975, North Carolina Electric Membership Corporation and Haywood Electric Membership Corporation filed a petition to intervene and a motion for the deferral of filing and hearing schedules in this proceeding. As these parties are customers of Nantahala and directly affected by the instant filing, we believe good cause exists to grant the requested interventions.

As noted above, Nantahala has included in its revised tariff sheets a purchased power cost adjustment clause which provides for monthly automatic adjustments by which Nantahala's jurisdictional customers' monthly bills are increased or decreased to reflect variations in the cost of purchased power above or below those rates in effect as of January 2, 1975. We find that this clause is sufficiently different from a fuel cost adjustment clause so as not to be subject to the new fuel cost regulations set forth in Order No. 517, issued. Accordingly, we shall not reject Nantahala's purchased power clause on the basis of its nonconformity to Order No. 517. We shall, however, provide that the issue of the justness and reasonableness of the purchased power clause be determined in the hearing ordered in this proceeding, and, in the interim, provide that any revenues collected pursuant to rate adjustments made under the purchased power clause shall be collected subject to refund pending the outcome of this proceeding.

Our review of Nantahala's filing and the issues raised therein indicates that the proposed changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Accordingly, we shall suspend the proposed changes for one day and establish hearing procedures to determine the justness and reasonableness of Nantahala's filing.

Nantahala has requested a waiver of § 35.3 of the Commission's regulations in order that an effective date of February 1, 1975, be allowed. We do not find that Nantahala has shown good cause to waive the 30 day notice requirement. Accordingly we shall deny Nantahala's request for waiver, pursuant to § 35.11 of the regulations, of the notice requirements set forth in § 35.3 of the regulations.

The Commission finds. (1) It is necessary and proper in the public interest that a hearing be set to determine the justness and reasonableness of Nantahala's proposed rates and that the proposed rates be suspended for one day as hereinafter ordered and conditioned.

(2) Good cause exists to permit the intervention of the above-named petitioners to intervene.

(3) Good cause does not exist to waive the notice requirements of § 35.3 of the regulations.

The Commission orders. (A) Pursuant to the authority set forth in section 205 of the Federal Power Act, a public hearing shall be held on June 10, 1975, at 10 a.m., e.s.t., at the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, to determine the justness and reasonableness of the proposed changes in Nantahala's filing, including Nantahala's proposed purchased power cost adjustment clause.

(B) Staff shall serve its prepared testimony and exhibits on or before April 29, 1975; the intervenors shall serve on or before May 13, 1975; and Nantahala shall serve any rebuttal evidence on or before May 27, 1975.

(C) Pending a hearing and decision thereon, Nantahala's proposed revised tariff sheets are accepted for filing and suspended for one day until February 18, 1975, when they shall become effective, subject to refund.

(D) Pending the outcome of this proceeding, all revenues collected pursuant to rate adjustments made under Nantahala's proposed purchased power adjustment clause shall be collected subject to refund.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(F) The above named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) Nantahala's request for waiver of the notice requirements of § 35.3 of the regulations is denied.

(H) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[FR Doc.75–4519 Filed 2–20–75;8:45 am]

[Docket No. E–9181]

NANTAHALA POWER AND LIGHT CO.

Order Accepting for Filing and Suspending Proposed Rate Increase, Granting Interventions, and Establishing Procedures

FEBRUARY 14, 1975.

On December 16, 1974, as completed on January 17, 1975,[1] Nantahala Power and Light Company (Nantahala) tendered for filing, proposed Rate Schedule PL comprising Second Revised Sheet No. 4, superseding First Revised Sheet No. 4, and Third Revised Sheet No. 5, superseding Second Revised Sheet No. 5.[2] According to Nantahala, the proposed change in rates would increase the company's present revenues by $84,879. This filing introduces a proposed purchase power cost adjustment clause into Nantahala's tariff in order that variations in the cost of purchased power above or below those rates in effect as of January 2, 1975, might be reflected. Nantahala has also amended its availability clause by eliminating the restirictive language governing resale of power.

Notice of the instant filing was issued on December 31, 1974, with responses due on or before January 14, 1975. On January 13, 1975, North Carolina Electric Membership Corporation and Haywood Electric Membership Corporation filed a petition to intervene and a motion for the deferral of filing and hearing schedules in this proceeding. As these parties are customers of Nantahala and directly affected by the instant filing, we believe good cause exists to grant the requested interventions.

As noted above, Nantahala has included in its revised tariff sheets a purchased power cost adjustment clause which provides for monthly automatic adjustments by which Nantahala's jurisdictional customers' monthly bills are increased or decreased to reflect variations in the cost of purchased power above or below those rates in effect as of January 2, 1975. We find that this clause is sufficiently different from a fuel cost adjustment clause so as not to be subject to the new fuel cost regulations set forth in Order No. 517, issued. Accordingly, we shall not reject Nantahala's purchased power clause on the basis of its nonconformity to Order No. 517. We shall, however, provide that the issue of the justness and reasonableness of the purchased power clause be determined in the hearing ordered in this proceeding, and, in the interim, provide that any revenues collected pursuant to rate adjustments made under the purchased power clause shall be collected subject to refund pending the outcome of this proceeding.

Our review of Nantahala's filing and the issues raised therein indicates that the proposed changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Accordingly, we shall suspend the proposed changes for one day and establish hearing procedures to determine the justness and reasonableness of Nantahala's filing.

Nantahala has requested a waiver of § 35.3 of the Commission's regulations in order that an effective date of February 1, 1975, be allowed. We do not find that Nantahala has shown good cause to waive the 30 day notice requirement. Accordingly we shall deny Nantahala's request for waiver, pursuant to § 35.11 of the regulations, of the notice requirements set forth in § 35.3 of the regulations.

The Commission finds. (1) It is necessary and proper in the public interest that a hearing be set to determine the justness and reasonableness of Nantahala's proposed rates and that the proposed rates be suspended for one day as hereinafter ordered and conditioned.

(2) Good cause exists to permit the intervention of the above-named petitioners to intervene.

(3) Good cause does not exist to waive the notice requirements of § 35.3 of the regulations.

The Commission orders. (A) Pursuant to the authority set forth in section 205 of the Federal Power Act, a public hearing shall be held on June 10, 1975, at 10 a.m., e.s.t., at the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, to determine the justness and reasonableness of the proposed changes in Nantahala's filing, including Nantahala's proposed purchased power cost adjustment clause.

(B) Staff shall serve its prepared testimony and exhibits on or before April 29, 1975; the intervenors shall serve on or before May 13, 1975; and Nantahala shall serve any rebuttal evidence on or before May 27, 1975.

(C) Pending a hearing and decision thereon, Nantahala's proposed revised tariff sheets are accepted for filing and suspended for one day until February 18, 1975, when they shall become effective, subject to refund.

(D) Pending the outcome of this proceeding, all revenues collected pursuant to rate adjustments made under Nantahala's proposed purchased power adjustment clause shall be collected subject to refund.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(F) The above named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) Nantahala's request for waiver of the notice requirements of § 35.3 of the regulations is denied.

(H) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[FR Doc.75–4520 Filed 2–20–75;8:45 am]

[Docket No. E–9181]

NANTAHALA POWER AND LIGHT CO.

Order Accepting for Filing and Suspending Proposed Rate Increase, Granting Interventions, and Establishing Procedures

FEBRUARY 14, 1975.

On December 16, 1974, as completed on January 17, 1975,[1] Nantahala Power and Light Company (Nantahala) tendered for filing, proposed Rate Schedule PL comprising Second Revised Sheet No. 4, superseding First Revised Sheet No. 4, and Third Revised Sheet No. 5, superseding Second Revised Sheet No. 5.[2] According to Nantahala, the proposed change in rates would increase the company's present revenues by $84,879. This filing introduces a proposed purchase power cost adjustment clause into Nantahala's tariff in order that variations in the cost of purchased power above or below those rates in effect as of January 2, 1975, might be reflected. Nantahala has also amended its availability clause by eliminating the restirictive language governing resale of power.

Notice of the instant filing was issued on December 31, 1974, with responses due on or before January 14, 1975. On January 13, 1975, North Carolina Electric Membership Corporation and Haywood Electric Membership Corporation filed a petition to intervene and a motion for the deferral of filing and hearing schedules in this proceeding. As these parties are customers of Nantahala and directly affected by the instant filing, we believe good cause exists to grant the requested interventions.

As noted above, Nantahala has included in its revised tariff sheets a purchased power cost adjustment clause which provides for monthly automatic adjustments by which Nantahala's jurisdictional customers' monthly bills are increased or decreased to reflect variations in the cost of purchased power above or below those rates in effect as of January 2, 1975. We find that this clause is sufficiently different from a fuel cost adjustment clause so as not to be subject to the new fuel cost regulations set forth in Order No. 517, issued. Accordingly, we shall not reject Nantahala's purchased power clause on the basis of its nonconformity to Order No. 517. We shall, however, provide that the issue of the justness and reasonableness of the purchased power clause be determined in the hearing ordered in this proceeding, and, in the interim, provide that any revenues collected pursuant to rate adjustments made under the purchased power clause shall be collected subject to refund pending the outcome of this proceeding.

Our review of Nantahala's filing and the issues raised therein indicates that the proposed changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Accordingly, we shall suspend the proposed changes for one day and establish hearing procedures to determine the justness and reasonableness of Nantahala's filing.

Nantahala has requested a waiver of § 35.3 of the Commission's regulations in order that an effective date of February 1, 1975, be allowed. We do not find that Nantahala has shown good cause to waive the 30 day notice requirement. Accordingly we shall deny Nantahala's request for waiver, pursuant to § 35.11 of the regulations, of the notice requirements set forth in § 35.3 of the regulations.

The Commission finds. (1) It is necessary and proper in the public interest that a hearing be set to determine the justness and reasonableness of Nantahala's proposed rates and that the proposed rates be suspended for one day as hereinafter ordered and conditioned.

(2) Good cause exists to permit the intervention of the above-named petitioners to intervene.

(3) Good cause does not exist to waive the notice requirements of § 35.3 of the regulations.

The Commission orders. (A) Pursuant to the authority set forth in section 205 of the Federal Power Act, a public hearing shall be held on June 10, 1975, at 10 a.m., e.s.t., at the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, to determine the justness and reasonableness of the proposed changes in Nantahala's filing, including Nantahala's proposed purchased power cost adjustment clause.

(B) Staff shall serve its prepared testimony and exhibits on or before April 29, 1975; the intervenors shall serve on or before May 13, 1975; and Nantahala shall serve any rebuttal evidence on or before May 27, 1975.

(C) Pending a hearing and decision thereon, Nantahala's proposed revised tariff sheets are accepted for filing and suspended for one day until February 18, 1975, when they shall become effective, subject to refund.

(D) Pending the outcome of this proceeding, all revenues collected pursuant to rate adjustments made under Nantahala's proposed purchased power adjustment clause shall be collected subject to refund.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(F) The above named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) Nantahala's request for waiver of the notice requirements of § 35.3 of the regulations is denied.

(H) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB, *Secretary.*

[Docket No. E–9181]

NANTAHALA POWER AND LIGHT CO.

Order Accepting for Filing and Suspending Proposed Rate Increase, Granting Interventions, and Establishing Procedures

FEBRUARY 14, 1975.

On December 16, 1974, as completed on January 17, 1975,[1] Nantahala Power and Light Company (Nantahala) tendered for filing, proposed Rate Schedule PL comprising Second Revised Sheet No. 4, superseding First Revised Sheet No. 4, and Third Revised Sheet No. 5, superseding Second Revised Sheet No. 5.[2] According to Nantahala, the proposed change in rates would increase the company's present revenues by $84,879. This filing introduces a proposed purchase power cost adjustment clause into Nantahala's tariff in order that variations in the cost of purchased power above or below those rates in effect as of January 2, 1975, might be reflected. Nantahala has also amended its availability clause by eliminating the restirictive language governing resale of power.

Notice of the instant filing was issued on December 31, 1974, with responses due on or before January 14, 1975. On January 13, 1975, North Carolina Electric Membership Corporation and Haywood Electric Membership Corporation filed a petition to intervene and a motion for the deferral of filing and hearing schedules in this proceeding. As these parties are customers of Nantahala and directly affected by the instant filing, we believe good cause exists to grant the requested interventions.

As noted above, Nantahala has included in its revised tariff sheets a purchased power cost adjustment clause which provides for monthly automatic adjustments by which Nantahala's jurisdictional customers' monthly bills are increased or decreased to reflect variations in the cost of purchased power above or below those rates in effect as of January 2, 1975. We find that this clause is sufficiently different from a fuel cost adjustment clause so as not to be subject to the new fuel cost regulations set forth in Order No. 517, issued. Accordingly, we shall not reject Nantahala's purchased power clause on the basis of its nonconformity to Order No. 517. We shall, however, provide that the issue of the justness and reasonableness of the purchased power clause be determined in the hearing ordered in this proceeding, and, in the interim, provide that any revenues collected pursuant to rate adjustments made under the purchased power clause shall be collected subject to refund pending the outcome of this proceeding.

Our review of Nantahala's filing and the issues raised therein indicates that the proposed changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Accordingly, we shall suspend the proposed changes for one day and establish hearing procedures to determine the justness and reasonableness of Nantahala's filing.

Nantahala has requested a waiver of § 35.3 of the Commission's regulations in order that an effective date of February 1, 1975, be allowed. We do not find that Nantahala has shown good cause to waive the 30 day notice requirement. Accordingly we shall deny Nantahala's request for waiver, pursuant to § 35.11 of the regulations, of the notice requirements set forth in § 35.3 of the regulations.

The Commission finds. (1) It is necessary and proper in the public interest that a hearing be set to determine the justness and reasonableness of Nantahala's proposed rates and that the proposed rates be suspended for one day as hereinafter ordered and conditioned.

(2) Good cause exists to permit the intervention of the above-named petitioners to intervene.

(3) Good cause does not exist to waive the notice requirements of § 35.3 of the regulations.

The Commission orders. (A) Pursuant to the authority set forth in section 205 of the Federal Power Act, a public hearing shall be held on June 10, 1975, at 10 a.m., e.s.t., at the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, to determine the justness and reasonableness of the proposed changes in Nantahala's filing, including Nantahala's proposed purchased power cost adjustment clause.

(B) Staff shall serve its prepared testimony and exhibits on or before April 29, 1975; the intervenors shall serve on or before May 13, 1975; and Nantahala shall serve any rebuttal evidence on or before May 27, 1975.

(C) Pending a hearing and decision thereon, Nantahala's proposed revised tariff sheets are accepted for filing and suspended for one day until February 18, 1975, when they shall become effective, subject to refund.

(D) Pending the outcome of this proceeding, all revenues collected pursuant to rate adjustments made under Nantahala's proposed purchased power adjustment clause shall be collected subject to refund.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(F) The above named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) Nantahala's request for waiver of the notice requirements of § 35.3 of the regulations is denied.

(H) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[Docket No. E–9181]

NANTAHALA POWER AND LIGHT CO.

Order Accepting for Filing and Suspending Proposed Rate Increase, Granting Interventions, and Establishing Procedures

FEBRUARY 14, 1975.

On December 16, 1974, as completed on January 17, 1975,[1] Nantahala Power and Light Company (Nantahala) tendered for filing, proposed Rate Schedule PL comprising Second Revised Sheet No. 4, superseding First Revised Sheet No. 4, and Third Revised Sheet No. 5, superseding Second Revised Sheet No. 5.[2] According to Nantahala, the proposed change in rates would increase the company's present revenues by $84,879. This filing introduces a proposed purchase power cost adjustment clause into Nantahala's tariff in order that variations in the cost of purchased power above or below those rates in effect as of January 2, 1975, might be reflected. Nantahala has also amended its availability clause by eliminating the restirictive language governing resale of power.

Notice of the instant filing was issued on December 31, 1974, with responses due on or before January 14, 1975. On January 13, 1975, North Carolina Electric Membership Corporation and Haywood Electric Membership Corporation filed a petition to intervene and a motion for the deferral of filing and hearing schedules in this proceeding. As these parties are customers of Nantahala and directly affected by the instant filing, we believe good cause exists to grant the requested interventions.

As noted above, Nantahala has included in its revised tariff sheets a purchased power cost adjustment clause which provides for monthly automatic adjustments by which Nantahala's jurisdictional customers' monthly bills are increased or decreased to reflect variations in the cost of purchased power above or below those rates in effect as of January 2, 1975. We find that this clause is sufficiently different from a fuel cost adjustment clause so as not to be subject to the new fuel cost regulations set forth in Order No. 517, issued. Accordingly, we shall not reject Nantahala's purchased power clause on the basis of its nonconformity to Order No. 517. We shall, however, provide that the issue of the justness and reasonableness of the purchased power clause be determined in the hearing ordered in this proceeding, and, in the interim, provide that any revenues collected pursuant to rate adjustments made under the purchased power clause shall be collected subject to refund pending the outcome of this proceeding.

Our review of Nantahala's filing and the issues raised therein indicates that the proposed changes have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, preferential or otherwise unlawful. Accordingly, we shall suspend the proposed changes for one day and establish hearing procedures to determine the justness and reasonableness of Nantahala's filing.

Nantahala has requested a waiver of § 35.3 of the Commission's regulations in order that an effective date of February 1, 1975, be allowed. We do not find that Nantahala has shown good cause to waive the 30 day notice requirement. Accordingly we shall deny Nantahala's request for waiver, pursuant to § 35.11 of the regulations, of the notice requirements set forth in § 35.3 of the regulations.

The Commission finds. (1) It is necessary and proper in the public interest that a hearing be set to determine the justness and reasonableness of Nantahala's proposed rates and that the proposed rates be suspended for one day as hereinafter ordered and conditioned.

(2) Good cause exists to permit the intervention of the above-named petitioners to intervene.

(3) Good cause does not exist to waive the notice requirements of § 35.3 of the regulations.

The Commission orders. (A) Pursuant to the authority set forth in section 205 of the Federal Power Act, a public hearing shall be held on June 10, 1975, at 10 a.m., e.s.t., at the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, to determine the justness and reasonableness of the proposed changes in Nantahala's filing, including Nantahala's proposed purchased power cost adjustment clause.

(B) Staff shall serve its prepared testimony and exhibits on or before April 29, 1975; the intervenors shall serve on or before May 13, 1975; and Nantahala shall serve any rebuttal evidence on or before May 27, 1975.

(C) Pending a hearing and decision thereon, Nantahala's proposed revised tariff sheets are accepted for filing and suspended for one day until February 18, 1975, when they shall become effective, subject to refund.

(D) Pending the outcome of this proceeding, all revenues collected pursuant to rate adjustments made under Nantahala's proposed purchased power adjustment clause shall be collected subject to refund.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's rules of practice and procedure.

(F) The above named petitioners are hereby permitted to intervene in this proceeding, subject to the rules and regulations of the Commission; *Provided, however,* That the participation of such intervenors shall be limited to matters affecting the rights and interests specifically set forth in the respective petition to intervene; and *Provided, further,* That the admission of such intervenor shall not be construed as recognition that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) Nantahala's request for waiver of the notice requirements of § 35.3 of the regulations is denied.

(H) The Secretary of the Commission shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[FR Doc.75–4525 Filed 2–20–75;8:45 am]

[Docket No. E–9181]

NANTAHALA POWER AND LIGHT CO.

Order Accepting for Filing and Suspending Proposed Rate Increase, Granting Interventions, and Establishing Procedures

FEBRUARY 14, 1975.

On December 16, 1974, as completed on January 17, 1975,[1] Nantahala Power and Light Company (Nantahala) tendered for filing, proposed Rate Schedule PL comprising Second Revised Sheet No. 4, superseding First Revised

Commission Staff Counsel do not believe, in making a recommendation for relicensing of the Chippewa Project No. 108, that we necessarily preclude the submission of further data by the Band and those Federal agencies recommending recapture which would support such a recommendation. But based upon the record as developed in this proceeding, in the absence of further evidence, we do not believe that recapture would satisfy the criteria established in Section 10(a) of the Act.

Northern States and the Staff each responded to the petition to reopen, with Northern States strenuously objecting and the Staff agreeing with the petitioners' request. Northern States argued (1) that Agriculture and the Interior have failed to identify, "in even the most rudimentary" manner, the evidence that requires reopening of the proceeding, and they have thereby failed to meet the requirements of § 1.33(a) of our rules; (2) that Agriculture and Interior have failed to demonstrate why their proposed evidence was not introduced at the hearing, even though they have had many years of notice (at least from July 17, 1969, when the Commission issued Order No. 384, concerning the content of Federal takeover recommendations) as to what is required; and (3) that reopening the record now will result in an "incalculable delay," given the requirements of the National Environmental Policy Act, among other things, thereby increasing Northern States' expenditures of time, money, and resources and resulting, Northern States says, in a deprivation of due process. Northern States points out that our denial of the Agriculture and Interior request will not, in any event, deprive those Departments of the opportunity to present their management plan to the Congress, and it is there, Northern States says, that the ultimate judgment as to Federal takeover will be made.

For its part, the Staff stated that it did not object to reopening, because the proposed management plan could be of assistance to the Commission, and later the Congress, in resolving the issues here involved. The Staff expressed certain misgivings—concerning the amount of time required, and concerning the position of the Lac Courte Oreilles Band—and stated that the Commission is not "required" to reopen this record. But, in light of the Commission's responsibility to insure a complete record, the Staff stated its view to be that a decision to reopen would be "fully justified."

On the basis of the foregoing filings, the Administrative Law Judge denied the petition on January 9, 1975, but he certified the question to us for our consideration and disposition. His denial, based upon his balancing of the public interest and the entitlement of all parties to the elements of fair play, is based upon the failure of the petitioners to give "any hint" as to the contents of the proposed plan; the limitations apparently imposed by the Lac Courte Oreilles Band in connection with its agreement to participate with the Forest Service in preparing the study; and the absence of any showing as to the materiality of the proposed evidence. The Administrative Law Judge states his agreement with the Staff view that the evidence already presented in the case is "exhaustive".

We grant the petition to reopen the record. We do so notwithstanding our agreement with much of the argument presented by Northern States, and with much of the reasoning of the Administrative Law Judge. And we do so notwithstanding our dismay at the timing and content of the Agriculture-Interior petition. Each has had notice of Northern States' application for a new license since August 1971; each has long since recommended to us that the United States should take over the project (1968 in the case of Agriculture, 1972 in the case of Interior); and each participated in the hearings in this proceeding in 1973 and 1974. Yet seven months after the hearings were concluded and the record closed, with briefing substantially completed, the Departments have asked, in effect, that we call a complete halt. Our dismay is compounded by the singular lack of detail concerning the proposed new evidence. It is clear that no deference whatsoever has been paid to our rules.

Recognizing the fact that we are here dealing with a case of first impression, following the enactment of Pub. L. 90–451, 82 Stat. 616, i.e., one in which both Departments have proposed Federal takeover in an administrative hearing reflecting the requirement of FPC Order No. 384, we believe they should have the opportunity to present evidence in further support of their takeover position. They contend, and we are willing to accept, for purposes of this order, that existing evidence in support of Federal takeover may be deficient. While the record in the case is not yet before us, the briefs of the parties are, and an examination of those briefs suggests that existing evidence concerning Federal takeover is lacking at least in specificity. In any event, we think the existing record cannot be described as "exhaustive", so long as it does not contain a management plan of the kind these parties apparently seek to present. We cannot risk excluding the proposed evidence.

We stress the first impression characteristics of this case and in doing so, we would remind both Departments that in future instances, we expect adherence to the Commission's rules. Fairness to all parties and the orderly disposition of Commission proceedings demands observance of Commission rules by all interests, Federal departments, state agencies, Indian groups, license applicants and others. In this instance, Northern States points out that if we deny the petition, the Departments will be able, thereafter, to present their proposed management plan to the Congress. We concede that that would probably be the case. This is so because, if we were ultimately to recommend Federal takeover, that recommendation would be submitted to the Congress under section 7(c) of the Federal Power Act; if we were instead to issue a new license, then a two-year stay and notification to the Congress would follow under section 14(b). But we are unwilling to undertake to reach either of these conclusions, notwithstanding the likelihood of our being second-guessed, in the absence of as full a record before us as may be reasonable and possible. The Congress deserve more from us than a decision based on evidence that is apparently, even if arguably, incomplete.

We will, thus, order reopening, but we cannot accede to an indefinite delay. We shall select the shortest interval contained in the Departments' petition, and will, therefore, require that the Land Use and Resource Management Plan be filed with us and with the parties no later than eight months from the date of this order, with hearings thereon to commence as soon thereafter as the Presiding Administrative Law Judge may determine, but in no event later than 30 days following the date of filing of the Plan.

The Commission finds. Good cause exists to reopen the record in this proceeding, in order that a Land Use and Resource Management Plan, relating to Federal takeover of Project No. 108, may be introduced into evidence, with an opportunity afforded for cross-examination thereon.

The Commission orders. (A) The Joint Petition filed on December 6, 1974, by the Secretaries of Agriculture and the Interior is granted, and the record in this proceeding is reopened so that a Land Use and Resource Management Plan may be introduced into evidence.

(B) Such plan shall be filed with us and served upon the parties to this proceeding no later than 8 months from the date of issuance of this order.

(C) Following the filing of such plan, the Presiding Administrative Law Judge shall arrange for such further hearings, and such further briefing, as may in his judgment be appropriate, with hearings commencing no later than 30 days following the date of filing of the plan.

By the Commission.[1]

[FR Doc.75-4739 Filed 2-20-75;8:45 am]

[Docket No. CI75-466]

TENNECO OIL CO. AND TENNESSEE GAS PIPELINE CO.

Extension of Procedural Dates

FEBRUARY 13, 1975.

On February 12, 1975, Tenneco Oil Company, Tennessee Gas Pipeline Company, a division of Tenneco, Inc., filed a motion to extend the procedural dates fixed by order issued February 7, 1975 in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of company testimony and documentary evidence, February 21, 1975.
Hearing, March 3, 1975 (10 a.m., e.d.t.).

KENNETH F. PLUMB, *Secretary.*

[FR Doc.75-4740 Filed 2-20-75;8:45 am]

[Docket No. RP75-13]

TENNESSEE GAS PIPELINE CO.

Proposed Revisions in Rate Increase

FEBRUARY 14, 1975.

Take notice that on February 12, 1975, Tennessee Gas Pipeline Company, a Division of Tenneco Inc. (Tennessee), tendered for filing revised tariff sheets in Docket No. RP75–13. The proposed effective date of the revised tariff sheets is March 15, 1975.

Tennessee states that the purpose of the revised tariff sheets is to revise the rates currently under suspension in this docket to (1) reflect the elimination of non-certificated facilities as required by the Commission's order of October 11, 1974, in this proceeding; (2) reflect the current cost of gas shown in Tennessee's PGA increase in Docket No. RP73–114 which became effective January 1, 1975; and (3) revise the projected sales volumes to reflect the current gas supply curtailment on Tennessee's system. In the event the Commission declines to accept these revised tariff sheets, Tennessee also tendered alternate revised tariff sheets which it states reflect only the adjustments for non-certificated facilities and current cost of gas. The alternate revised tariff sheets are also proposed to be effective on March 15, 1975.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before March 12, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene; provided, however, that any person who has previously filed a petition to intervene in this proceeding is not required to file a further petition.

KENNETH F. PLUMB, *Secretary.*

[Docket Nos. RP74–24, RP75–35, RP75–36, RP75–43, RP75–50, RP75–45]

TENNESSEE GAS PIPELINE CO., ET AL.

Order Denying Motions, Construing Motions as Complaints, Consolidating Complaints and Setting Date and Procedures for Formal Hearing

FEBRUARY 14, 1975.

In the matter of Tennessee Gas Pipeline Company, a Division of Tenneco, Inc., Consolidated Edison Company of New York, Inc., *Complainant*, v. Tennessee Gas Pipeline Company, *Respondent*, Orange and Rockland Utilities, Inc., *Complainant*, v. Tennessee Gas Pipeline Company, *Respondent*, Knoxville Utilities Board, et al., and Tennessee Public Service Commission, *Complainants*, v. Tennessee Gas Pipeline Company, *Respondent*, Pennsylvania Gas and Water Company, *Complainant*, v. Tennessee Gas Pipeline Company, *Respondent;* investigation of revised curtailment level on the system of Tennessee Gas Pipeline Company.

On November 19, 1974, Consolidated Edison Company of New York, Inc. (Con Ed); on November 22, 1974, Orange and Rockland Utilities, Inc. (O&R); on December 23, 1974, Knoxville Utilities Board, et al.; and Tennessee Public Service Commission (Knoxville, et al.); and on January 3, 1975, Pennsylvania Gas and Water Company (Penn Gas), (all hereinafter styled Complainants) filed complaints in Docket Nos. RP75–35, RP75–36, RP75–43, and RP75–50, respectively, under section 5(a) of the Natural Gas Act against Tennessee Gas Pipeline Company's (TGP) operation of its curtailment plan. By order issued December 24, we initiated an investigation in Docket No. RP75–45 into the causes of the increased level of curtailment recently imposed by TGP on its system. By motion filed January 17, 1975, Alabama-Tennessee Natural Gas Company (Alabama-Tennessee) a customer on TGP's system seeks to expand the investigation to include, inter alia, a review of curtailment plan and its implementation that are presently in effect on TGP's system. By motion filed January 24, 1975, General Motors Corporation (GM), an intervenor in the curtailment proceeding in Docket No. RP74–24, seeks to reopen the record in that proceeding and to direct TGP to reinstate end-use volumes discussed therein.

Complainants Con Ed and O&R allege that as a result of TGP's establishment of its seasonal entitlements and continued assurances that additional curtailments would not be required, both companies accelerated their curtailment during the summer season in order to have greater flexibility in September and October. The entitlement period was established originally as April 1, 1974, through October 31, 1974, however because of the alleged effects of Hurricane Carmen, TGP established new Contract Period Quantity Entitlements (CPQE) on September 23, 1974, for the 39-day period from September 23, 1974 to October 31, 1974. Con Ed and O&R contend that the new CPQE's discriminate against them by not taking into account accelerated curtailments during the summer season.

TGP's response to Con Ed and O&R is that the curtailment plan approved in Docket No. RP74–24 gives them the right to change the CPQE's and the applicable period whenever circumstances warrant and that the practicalities of the situation do not permit TGP to credit these customers for their accelerated summer curtailments.

Knoxville et al argues that the December 16, 1974, 13 percent curtailment is completely opposite to TGP's repeated assurances that its gas supply would be adequate to meet all presently certificated requirements. Knoxville et al. contends that the suddenness of the new curtailment did not give it sufficient lead time to acquire alternate fuels.

Penn Gas contends that the end-use data that TGP utilized in implementing its December 16, 1974, curtailment consists of unverified information submitted unilaterally by TGP's customers which, according to Penn Gas, is unreliable and has been discriminately applied by TGP. In addition, Penn Gas requested interim relief with respect to the allocations presented in its petition to the extent that TGP be required to utilize the end-use data shown in Exhibit 2 in the proceeding in Docket No. RP74–24, as revised, consistent with the volumetric limitations imposed in Docket No. CP73–115 or curtail Penn Gas on the basis of corrected end-use data.

TGP in its answer to Penn Gas' complaint filed January 30, 1975, submits that it had to utilize end-use profile data reflecting annual design volumes which were submitted to TGP in response to TGP's letter of October 10, 1974, to its customers requesting their end-use estimates, in order to comply with the Commission's Opinion No. 712 issued November 26, 1974, which directed TGP to impose annual volumetric limitations on all of its customers at the level of its CP73–115 annual system capacity design volumes.

These complaints present issues involving the propriety of TGP's implementation of its curtailment plan that require determination on the basis of an evidentiary record. Additionally, the issues raised in the complaints contain common questions of law and fact that should be heard and decided in a consolidated proceeding.

Penn Gas' request for interim relief is based upon its allegation that TGP is erroneously implementing its curtailment

[1] Commissioner Moody, dissenting, will have a separate statement to be filed later.

XUM
V 40 36
FEB 21 75
XUM

plan. That allegation will become an issue in the consolidated proceeding hereinafter instituted. Therefore, we will deny Penn Gas' request for interim relief, since the grant of that request will prejudge the issue involved in the hearing hereinafter instituted.

In addition Alabama-Tennessee's motion to expand the scope of the investigation in Docket No. RP75–45 and GM's motion to reopen the curtailment proceeding raise questions of law and fact, that more properly relate to Complainant's allegations as to the questions of gas supply allocation than to the captioned proceedings under which such motions were filed. Therefore, we will deny Alabama-Tennessee's motion to expand the scope of the investigation and we will deny GM's motion to reopen the curtailment proceeding. However, due to the nature of the allegations made in those motions already noted, we will construe those motions as complaints filed under section 5(a) of the Act and will consolidate them with the hereinabove-mentioned complaints and set the entire matter for formal hearing.

The Commission finds. (1) Good cause exists for denying Alabama-Tennessee's motion to expand the scope of the proceeding in Docket No. RP75–45, for denying GM's motion to reopen the proceeding in Docket No. RP74–24 and for construing these motions as complaints all as hereinbefore mentioned and hereinafter ordered.

(2) Good cause exists for consolidating all the hereinbefore described complaints and setting these complaints for formal hearing and establishing the procedures for that hearing, as hereinafter ordered.

(3) Good cause exists for denying Penn Gas' request for interim relief.

The Commission orders. (A) The motion to expand the scope of the proceeding in Docket No. RP75–45 filed by Alabama-Tennessee is denied.

(B) The motion of GM to reopen the proceeding in Docket No. RP74–24 is denied.

(C) Penn Gas' request for interim relief is denied.

(D) The motions of Alabama-Tennessee and GM are construed as complaints pursuant to section 5(a) of the Natural Gas Act and are hereby consolidated, along with the complaints of Con Ed, O&R, Knoxville, et al., and Penn Gas for purposes of hearing and decision.

(E) Pursuant to the authority of the Natural Gas Act, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act, a public hearing shall be held commencing on March 25, 1975, at 10 a.m. (e.s.t.) in a hearing room of the Federal Power Commission, 825 North Capitol Street, NE., Washington, D.C. 20426 on the issues raised in the complaints consolidated herein for purposes of hearing and decision.

(F) The direct case of all complainants supporting their complaints shall be filed and served on all parties, the Presiding Administrative Law Judge, and the Commission Staff on or before March 11, 1975.

(G) The Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for this purpose (see Delegation of Authority, 18 CFR 3.5(d)) shall preside at the hearing in this proceeding pursuant to the Commission's rules of practice and procedure and shall establish procedures not herein set for the determination of this consolidated proceeding.

(H) Notice of intervention and petitions to intervene in this proceeding may be filed with the Federal Power Commission, Washington, D.C. 20426, on or before March 7, 1975, in accordance with the Commission's rules of practice and procedure.

By the Commission.

INTERNATIONAL TRADE COMMISSION

[AA1921–143]

TAPERED ROLLER BEARINGS AND CERTAIN COMPONENTS THEREOF FROM JAPAN

Statement of Reasons for Negative Determination of Commissioner Minchew

JANUARY 23, 1975.

In the investigation of Tapered Roller Bearings from Japan, AA1921–143, I have made a negative determination because I feel that all parts of the statutory criteria which would be necessary for an affirmative finding are not met.

Section 201(a) of the Antidumping Act of 1921 states—

(a) Whenever the Secretary of the Treasury (hereinafter called the "Secretary") determines that a class or kind of foreign merchandise is being, or is likely to be, sold in the United States or elsewhere at less than its fair value, he shall so advise the United States Tariff Commission, and the said Commission shall determine within three months thereafter whether an industry in the United States is being or is likely to be injured, or is prevented from being established, by reason of the importation of such merchandise into the United States. . . .

The "foreign merchandise is being, or is likely to be, sold in the United States or elsewhere at less than its fair value" (LFTV) portion of the statute was established by the U.S. Treasury Department with respect to tapered roller bearings from Japan for the period July–December 1973. The U.S. Tariff Commission (now the U.S. International Trade Commission) received advice to this effect from the U.S. Treasury Department on September 4, 1974, and the Commission instituted investigation No. AA1921–142 on September 11, 1974. On October 23, 1974, the Commission received an additional communication from the U.S. Treasury Department which served as the basis for terminating investigation No. AA1921–142. On October 24, 1974, the Commission instituted a new investigation, AA1921–143, on the basis of the aforementioned clarification from the U.S. Treasury Department.[1]

The "is being or is likely to be injured" part of the statute is not met, in my opinion, because what I would consider normal tests for injury are not met. The domestic tapered roller bearing industry (domestic industry) was operating at near capacity and was unable to meet increased demands which existed in the U.S. market in that period. The domestic industry experienced increased sales in every year from 1970 to 1973, which encompasses the dumping period. The domestic industry increased its prices consistently throughout the period 1970 to 1973. In addition, the export sales of the domestic industry as a proportion of total sales increased during 1973. For me, it is not possible to establish that an industry which has the above-mentioned characteristics is being or is likely to be injured by reason of imports sold at LTFV.

The "by reason of the importation of such merchandise" section of the statute, at this point in my determination, does not have to be considered because I have not found injury or the likelihood of injury. However, had injury or the likelihood of injury been found, I do not think that I could have established the causal relationship between the injury or likelihood of injury and the sales of imports at LTFV. It is clear to me that whatever injury which might be alleged by the smaller domestic producers was due more to their competitive disadvantage against the dominant domestic producer than it was to sales at LTFV.

By Order of The Commission.

KENNETH R. MASON,
Secretary.

[FR Doc.75–2690 Filed 1–28–75;8:45 am]

[1] I had opposed the institution of a new investigation on October 24, 1974, because I felt the communication from the U.S. Treasury Department was not new advice but simply a clarification of its advice of September 4, 1974, and consequently I felt the Commission more properly should have proceeded with its original investigation, AA1921–142. My views did not prevail, and a majority of the Commission interpreted the new communication from the U.S. Treasury Department as new advice and the basis for the new investigation, AA1921–143.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on February 14, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received: the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (X) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202–395–4529), or from the reviewer listed.

NATIONAL SCIENCE FOUNDATION

ADVISORY PANEL FOR ENGINEERING MATERIALS

Notice of Revision

This notice is to announce revision in the structure of the Advisory Panel for Engineering Materials. The changes described below are reflected in the panel's modified charter. Copies of the charter addendum, like the initial charter, have been forwarded to the Library of Congress for public inspection and filed with the standing committees of Congress having legislative jurisdiction of the National Science Foundation.

The Advisory Panel for Engineering Materials was established on December 31, 1973, to advise the Engineering Materials Program. However, since that time, the program has been merged into the Metallurgy and Materials Section and the panel now provides advice to the Metallurgy and Materials Section. Members of this panel shall be selected from the community of research scientists in Metallurgy and Materials. Accordingly, the name of the Advisory Panel for Engineering Materials shall be changed to the Advisory Panel for Metallurgy and Materials, effective immediately.

H. GUYFORD STEVER,
Director.

[FR Doc.75-4801 Filed 2-20-75;8:45 am]

ADVISORY PANEL FOR ENGINEERING CHEMISTRY AND ENERGETICS

Notice of Meeting

There will be an open meeting of the Advisory Panel for Engineering Chemistry and Energetics held at 9:30 a.m. in room 511 on March 10 and room 517 on March 11, 1975. The Panel was established January 2, 1973, and functions in accordance with the Federal Advisory Committee Act (P.L. 92-463). The purpose of this Panel is to provide advice and recommendations concerning support for research in engineering chemistry and energetics.

During the March 10 session, the full Panel will meet to discuss general program matters and then will adjourn to assemble in four subgroups. (Room numbers will be announced at the meeting.) Each subgroup will be concerned with one of the four programs in the Engineering Chemistry and Energetics Section: Chemical Processes; Thermodynamics and Mass Transfer; Heat Transfer; and Plasma Dynamics and Nuclear Engineering. The subgroups will discuss the current funding, areas which should be de-emphasized, and new areas in need of attention as they relate to each respective program.

On March 11 the full Panel will reassemble in room 517 to: discuss balance of support activities among the several programs in the Section; review administrative procedures as affecting grantees; and discuss post grant evaluation.

Any persons wishing to attend this open meeting should contact Dr. Charles E. Huckaba, Head, Engineering Chemistry and Energetics Section, Rm. 324, National Science Foundation, Washington, D.C. 20550, telephone 202/632-5867, before March 7. Dr. Huckaba may also be contacted for further information about this Panel.

Summary minutes of this meeting may be obtained from the Committee Management Coordination Staff, MAO, Rm. 720-K, National Science Foundation, Washington, D.C. 20550.

R. GAIL ANDERSON,
Acting Committee Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-286]

CONSOLIDATED EDISON CO. (INDIAN POINT, UNIT NO. 3)

Notice of Availability of Final Environmental Statement

Pursuant to the National Environmental Policy Act of 1969 and the United States Nuclear Regulatory Commission's regulations 10 CFR Part 50, Appendix D, notice is hereby given that the Final Environmental Statement prepared by the Commission's Office of Nuclear Reactor Regulation related to the operation of Indian Point Nuclear Generating Plant, Unit No. 3 by Consolidated Edison Company of New York, Inc., is available for inspection by the public in the Commission's Public Document Room at 1717 H Street, NW., Washington, D.C. and in the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, New York 10548. The Final Environmental Statement is also being made available at the New York State Office of Planning Services, 488 Broadway, Albany, New York 12207 and the Tri-State Regional Planning Commission, 100 Church Street, New York, New York 10007.

The notice of availability of the Draft Environmental Statement for the Indian Point Nuclear Generating Plant, Unit No. 3 and request for comments from interested persons was published in the FEDERAL REGISTER on October 23, 1973 (38 FR 29243). The comments received from Federal, State, local agencies and interested members of the public have been included as Appendix I to the Final Environmental Statement.

Copies of the Final Environmental Statement (NUREG 75/002, Volume I and NUREG 75/003, Volume II) may be obtained at current prices by writing to the National Technical Information Service, Springfield, Virginia 22161.

Dated at Rockville, Maryland this 18th day of February 1975.

For the Nuclear Regulatory Commission.

GEORGE W. KNIGHTON,
Chief, Environmental Projects Branch No. 1 Division of Reactor Licensing.

[FR Doc.75-4853 Filed 2-20-75;8:45 am]

[Docket No. STN 50-535]

GENERAL ATOMIC CO.

Receipt of Standard Safety Analysis Report

General Atomic Company, in response to Option No. 1 of the policy statement of the Nuclear Regulatory Commission (the Commission) entitled "Methods of Achieving Standardization of Nuclear Power Plants", issued March 5, 1973, and pursuant to Appendix O to 10 CFR, Part 50, has filed with the Commission a five-volume document entitled "GASSAR-6 General Atomic Standard Safety Analysis Report", which was docketed on February 5, 1975. The tendered application for GASSAR-6 was received on August 23, 1974. Following a preliminary review for completeness, the application was rejected on November 6, 1974, for lack of sufficient information. General Atomic Company submitted a revised Standard Safety Analysis Report on January 20, 1975, and the application was found to be acceptable for docketing. Docket No. STN 50-535 has been assigned to GAS

SAR-6 and should be referenced in any correspondence relating thereto.

GASSAR-6 has been submitted in accordance with the "reference system" option wherein an entire facility design or major fractions of it can be identified as a standard design to be used in multiple applications. GASSAR-6 describes and analyzes a high-temperature gas-cooled reactor nuclear steam supply system (NSSS) with auxiliary and safety systems. The reactor is designed for initial operation at a rated core thermal power level of 3000 megawatts.

When its review of GASSAR-6 is complete, the Commission's staff will prepare and publish a Safety Evaluation Report documenting the results of the review. In addition, GASSAR-6 will be referred to the Advisory Committee on Reactor Safeguards (ACRS) for its review and a report thereon. Copies of the Safety Evaluation Report and the ACRS report will be made available to the public. A notice relating to the availability of these documents will be published in the FEDERAL REGISTER.

All interested persons who desire to submit written comments for consideration by the staff and ACRS during their review of GASSAR-6 should send them to the Office of the Secretary, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing and Service Section by April 22, 1975.

A copy of the GASSAR-6 Standard Safety Analysis Report is available for public inspection at the Commission's Public Document Room, 1717 H Street, Washington, D.C. 20555. When available, the Safety Evaluation Report and the ACRS report will be made available for inspection by the public at the Commission's Public Document Room.

Dated at Bethesda, Maryland, this 12th day of February, 1975.

For the Nuclear Regulatory Commission.

ROBERT A. CLARK,
Chief, Gas Cooled Reactors Branch, Division of Reactor Licensing.

[FR Doc.75-4447 Filed 2-20-75;8:45 am]

[Dockets Nos. 50-277 and 50-278]

PHILADELPHIA ELECTRIC CO., ET AL.

Notice of Issuance of Amendments to Facility Operating Licenses

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendments Nos. 5 and 3 to Facility Operating Licenses Nos. DPR-44 and DPR-56, respectively, issued to Philadelphia Electric Company, Public Service Electric & Gas Company, Delmarva Power & Light Company, and Atlantic City Electric Company which revised Technical Specifications for operation of the Peach Bottom Atomic Power Station, Units 2 and 3, located in Peach Bottom, York County, Pennsylvania. These amendments are effective as of date of issuance.

The amendments permit a decrease in the discharge pressure of the High Pressure Service Water pumps.

The application for the amendments complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendments.

For further details with respect to these actions, see (1) the application for amendments dated December 3, 1974, (2) Amendments Nos. 5 and 3 to Licenses Nos. DPR-44 and DPR-56, with Changes Nos. 6 and 3, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C. and at the Martin Memorial Library, 159 East Market Street, York, Pennsylvania.

A copy of items (2) and (3) may be obtained upon request addressed to the Nuclear Regulatory Commission, Washington, D.C. 20545, Attention: Director, Division of Reactor Licensing, Office of Nuclear Reactor Regulation.

Dated at Bethesda, Maryland, this 12th day of February, 1975.

For the Nuclear Regulatory Commission.

GEORGE LEAR,
Chief, Operating Reactors Branch #3, Division of Reactor Licensing.

[FR Doc.75-4718 Filed 2-20-75;8:45 am]

[Docket No. 50-244]

ROCHESTER GAS AND ELECTRIC CORP.

Notice of Issuance of Amendment to Provisional Operating License

Notice is hereby given that the U.S. Nuclear Regulatory Commission (the Commission) has issued Amendment No. 5 to Provisional Operating License No. DPR-18 issued to Rochester Gas and Electric Corporation which revised Technical Specifications for operation of the R. E. Ginna Nuclear Power Plant located in Wayne County, New York. The amendment becomes effective 30 days after the date of issuance.

This amendment revises the reporting requirements of the Technical Specifications for the R. E. Ginna Nuclear Power Plant.

The application for the amendment complies with the standards and requirements of the Atomic Energy Act of 1954, as amended (the Act), and the Commission's rules and regulations. The Commission has made appropriate findings as required by the Act and the Commission's rules and regulations in 10 CFR Chapter I, which are set forth in the license amendment. Prior public notice of this amendment is not required since the amendment does not involve a significant hazards consideration.

For further details with respect to this action, see (1) the application for amendment dated December 2, 1974, (2) Amendment No. 5 to License No. DPR-18, with Change No. 14, and (3) the Commission's related Safety Evaluation. All of these items are available for public inspection at the Commission's Public Document Room, 1717 H Street, NW., Washington, D.C., and at the Lyons Public Library, 67 Canal Street, Lyons, New York 14489 and at the Rochester Public Library, 115 South Avenue, Rochester, New York 14627.

A copy of items (2) and (3) may be obtained upon request addressed to the U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Director, Division of Reactor Licensing.

Dated at Bethesda, Maryland, this 13th day of February 1975.

For the Nuclear Regulatory Commission.

ROBERT A. PURPLE,
Chief, Operating Reactors Branch No. 1, Division of Reactor Licensing.

[FR Doc.75-4719 Filed 2-20-75;8:45 am]

PENNSYLVANIA AVENUE DEVELOPMENT CORPORATION

Bylaws

The bylaws of the Pennsylvania Avenue Development Corporation, amended January 28, 1975, are as follows:

ARTICLE I

TITLE AND OFFICE

Section 1. *Title*—The name of the Corporation is the Pennsylvania Avenue Development Corporation.

Section 2. *Office*—The office of the Corporation shall be in the city of Washington, District of Columbia.

ARTICLE II

ESTABLISHMENT

Section 1. *Creation*—The Corporation, a wholly owned instrumentality of the United States subject to the Government Corporation Control Act (31 U.S.C. 841 *et seq.*), was established by the Pennsylvania Avenue Development Corporation Act of 1972 (40 U.S.C. 871 *et seq.*, 86 Stat. 1266), as amended, hereinafter refered to as "the Act".

Section 2. *Purposes*—The purposes for which this Corporation was established are those stated and promulgated by Congress in the Act.

ARTICLE III

BOARD OF DIRECTORS

Section 1. *Powers and responsibilities*—The business, property and affairs of the Corporation shall be managed and controlled by the Board of Directors, and all powers specified in the Act are vested in them. The Board may, at its discretion and as hereinafter provided, delegate authority necessary to carry on the ordinary operations of the Corporation to officers and staff of the Corporation.

Section 2. *Composition; number; selection; terms of office*—The Board of Directors shall be comprised of fifteen voting members and eight non-voting members. The powers and management

XUM
V 40 36 FEB 21 75 XUM

of the Corporation shall reside with the fifteen voting members, and the procedures of the Board shall be determined by them.

The fifteen voting members shall include the seven government agency representatives specified in Subsection 3(c) of the Act (or, their designees), and eight individuals meeting the qualifications of that Subsection, appointed by the President of the United States from private life, at least four of whom shall be residents and registered voters of the District of Columbia.

The Chairman and Vice Chairman shall be designated by the President of the United States from among those members appointed from private life.

Upon his appointment, the Chairman shall invite the eight representatives designated in Subsection 3(g) of the Act to serve as non-voting members of the Board of Directors.

Each member of the Board of Directors appointed from private life shall serve a term of six years from the expiration of his predecessor's term; except that the terms of the Directors first taking office shall begin on October 27, 1972 and shall expire, as designated at the time of appointment. A Director may continue to serve until his successor has qualified.

A Director, appointed from private life wishing to resign shall submit a letter of resignation to the President of the United States, and his resignation shall become effective upon the date of the President's acceptance thereof.

A Director, appointed to fill a vacancy occuring prior to the expiration of the term for which his predecessor was appointed, shall serve for the remainder of such term.

Section 3. *Meetings*—The Board of Directors shall meet and keep its records at the office of the Corporation.

Meetings of the Board of Directors shall be held at the call of the Chairman, but not less often than once every three months. The Chairman shall also call a meeting at the written request of any five voting members.

The Chairman shall direct the Secretary to give the members of the Board notice of each meeting, either personally, or by mail, or by telegram, stating the time, the place and the agenda for the meeting. Notice by telephone shall be personal notice. Any Director may waive in writing, notice as to himself, whether before or after the time of the meeting, and the presence of a Director at any meeting shall constitute a waiver of notice of that meeting. Notice, in whatever form, shall be given so that a Director will have received it five working days prior to the time of the meeting.

Unless otherwise limited by the notice thereof, any and all Corporation business may be transacted at any meeting.

The Chairman shall preside at meetings of the Board of Directors, or the Vice Chairman in the absence of the Chairman. In the event of the absence of both the Chairman and the Vice Chairman, the Directors present at the meeting shall designate a Presiding Officer.

Section 4. *Quorum*—The presence of any eight voting Directors at a meeting of the Board shall constitute a quorum for the transaction of business. The act of a majority of the voting Directors at any meeting at which there is a quorum shall be an act of the Board of Directors. If there shall be less than a quorum at any meeting, a majority of the voting Directors present may adjourn the meeting until such time as a quorum can practically and reasonably be obtained.

Section 5. *Directors serving in stead*—Each member of the Board of Directors specified in paragraphs (1) through (7) of Subsection 3(c) of the Act, if unable to serve in person, may designate another official from his agency or department to serve on the Board in his stead. Such designation will be effected by a letter of appointment to the Chairman from the Director specified in the Act. A Director appointed to serve in stead shall serve as the voting Director of the represented agency until the Chairman receives written notice from the appointing official, or his successor, that the appointment is rescinded. The Chairman shall cause notice of appointments of Directors to serve in stead to be published in the Federal Register.

Section 6. *Vote by proxy*—Voting members of the Board of Directors unable to attend a meeting may vote by proxy on resolutions which have been printed in the agenda in advance for the meeting.

A Director unable to attend a meeting of the Board may submit a vote to be cast by the Presiding Officer by means of a written signed statement of his vote and the resolution to which it pertains together with any statement bearing on the matter the Director wishes to have read. The proxy vote shall be submitted to the Chairman with a separate signed copy to the Secretary, to be received not later than the close of business of the day prior to date fixed for the meeting.

The Presiding Officer shall cast proxy votes received by the Chairman in the following manner: (1) upon the close of discussion on a resolution for which there has been submitted one or more valid proxy votes, the Presiding Officer shall announce that he holds proxy vote(s) from named Director(s), and shall read any explanatory statements submitted by the Director(s) voting by proxy; (2) the Presiding Officer shall take the vote of the Directors present and then declare the proxy votes in hand. The Secretary shall orally verify the validity of the votes submitted to be cast by proxy, and shall record them with the votes cast by the Directors present on the resolution.

Proxy votes shall not be utilized to effect the presence of a quorum.

Section 7. *Compensation of Directors*—Members of the Board of Directors shall be compensated in the manner provided in Section 3 of the Act.

Section 8. *Approval of annual budget*—Upon completion by the staff of a draft annual budget request, the Chairman shall call a meeting of the Board of Directors for its review and consideration. Upon approval by the Board of the draft budget request, it may be submitted to the Office of Management and Budget.

ARTICLE VI

OFFICERS

Section 1. *General provisions*—The corporate officers of the Corporation shall consist of a President, an Executive Director, two Assistant Directors, a Secretary (who shall be appointed by the Chairman from among the staff of the Corporation), and such other officers as the Board of Directors may from time to time appoint.

Any corporate officer elected or appointed by the Board of Directors may be removed at any time, with or without cause, by the affirmative vote of a majority of the Board of Directors.

Section 2. *Powers and duties of the President*—The Chairman of the Board of Directors shall be the President and chief executive officer of the Corporation and shall have the general powers and duties of supervision and management usually vested in the office of president of a corporation. The President shall see that all resolutions and policies of the Board are carried into effect, and shall have power to execute contracts, leases, agreements, and other documents necessary for the operation of the Corporation.

Section 3. *Appointment of certain officers*—The Board of Directors shall appoint an Executive Director and two Assistant Directors, who may be appointed and compensated without regard to the provisions of Title 5 of the United States Code governing appointments in the competitive service and Chapter 51 and subchapter IV of Chapter 53 of Title 5 of the United States Code.

Between meetings of the Board of Directors the Chairman may make appointments to the foregoing positions, when they become vacant by resignation or otherwise. However, the Chairman shall move to have such interim appointments confirmed at the next meeting of the Board. The Chairman shall have power to increase or decrease the salaries of the officers appointed under this section.

Section 4. *Powers and duties of the Executive Director*—The Executive Director shall be the chief of the Corporation's staff and shall have general powers of supervision and management over the administration of the Corporation. The Executive Director shall have power to: execute contracts, agreements, and other documents necessary for planning and design work and for ordinary operations of the Corporation; hire staff (including temporary or intermittent experts and consultants); procure space, equipment, supplies; and, obtain interagency and commercial support services. He shall: direct and manage the day-to-day operations and work of the Corporation; and, supervise planning and development activities of the Corporation in accordance with the development plan and resolutions of the Board of Directors. He shall also perform such other duties and exercise such powers as the President and Board of Directors may prescribe.

Section 5. *Powers and duties of the Assistant Director/Legal*—The Assistant Director/Legal shall be the General Counsel of the Corporation, advising the Board of Directors and the staff on all legal matters effecting the functioning of the Corporation. He shall: coordinate with the Department of Justice in assuring that the interests of the Corporation are represented in any litigation arising from its authorities or actions; and advise the Board of Directors and the staff of statutory or regulatory requirements, and assure compliance therewith. He shall: prepare or review all contracts, agreements or other documents of a legal nature; prepare or review all draft legislation, regulations, official notices and other legal publications; and, perform such other duties as may be prescribed by the Board of Directors, the President, or the Executive Director.

Section 6. *Powers and duties of the Assistant Director/Finance*—The Assistant Director/Finance shall advise the Board of Directors and the officers of the Corporation on economic and financial matters, and guide the formulation of economic and financial policy for development activities. He shall contract for and coordinate the work of consultants and prepare or review proposals, studies, plans, and agreements relating to financing and economic development. He shall act as the treasurer of the Corporation, and shall have charge of the custody, safekeeping and disbursements of all development funds of the Corporation; designate qualified persons to authorize disbursements of development funds; be responsible for documents relating to development financing of the Corporation, including borrowing from the United States Treasury, commercial banks and others; have authority to collect all non-appropriated monies due the Corporation, to receipt therefore and to deposit same for the account of the Corporation; and, work and maintain liaison with appropriate committees of Congress and executive agencies on matters relating to appropriations, financing and the corporation's budget. He shall also perform such other duties as may be prescribed by the Board of Directors, the President, or the Executive Director.

Section 7. *Powers and duties of the Secretary*—The Secretary, to be appointed by the Chairman from among the Corporation's staff, shall give notice of all meetings of the Board of Directors and record and keep the minutes thereof; keep in safe custody the seal of the Corporation, and shall affix the same to any instrument requiring it. When so affixed, the seal shall be attested by the signature of the Secretary. The Secretary shall also perform such other duties as may be prescribed by the Board of Directors, the President, or the Executive Director.

ARTICLE VII

ANNUAL REPORT

The Executive Director shall prepare annually a comprehensive and detailed report of the Corporation's operations, activities, and accomplishments for the review of the Board of Directors. Upon approval by the Board, the Chairman shall transmit the report in January of each year to the President of the United States and to the Congress.

ARTICLE VIII

SEAL

The Corporation may adopt a corporate seal which shall have the name of the Corporation and year of incorporation printed upon it. The seal may be used by causing it or a facsimile thereof to be impressed, affixed, or reproduced.

ARTICLE IX

AMENDMENTS

These bylaws may be altered, amended, or repealed by the Board of Directors at any meeting, if notice of the proposed alteration, amendment, or repeal is contained in the notice of the meeting.

By the Board of Directors.

E. R. QUESADA,
Chairman.

FEBRUARY 14, 1975.

SECURITIES AND EXCHANGE COMMISSION

ADVISORY COMMITTEE ON THE IMPLEMENTATION OF A CENTRAL MARKET SYSTEM

Notice of Meeting

This is to give notice, pursuant to section 10(a) of the Federal Advisory Committee Act, 5 U.S.C. App. I 10(a), that the Securities and Exchange Commission Advisory Committee on the Implementation of a Central Market System will conduct open meetings on March 6 and 7, 1975, at 500 North Capitol Street, Washington, D.C. 20549, in Room 776, beginning at 9:00 A.M. and on April 10 and 11, 1975 in Dallas, Texas.

The summarized agenda for the March meeting is as follows:

Completion of discussion of written comments received in response to the Committee's Preliminary Statement (Securities Exchange Act Release No. 11131, December 11, 1974).

The summarized agenda for and the location of the April meeting will be published in the FEDERAL REGISTER approximately fifteen days prior to the meeting.

Further information may be obtained by writing Andrew F. Steffan, Director, Office of Policy Planning, Securities and Exchange Commission, Washington, D.C. 20549.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

SMALL BUSINESS ADMINISTRATION

[License 02/02-0295]

BT CAPITAL CORP.

Notice of Filing of Application for Approval of Conflict of Interest Transaction

Notice is hereby given that BT Capital Corporation (BT), 600 Third Avenue, New York, New York 10016, a Federal Licensee under the Small Business Investment Act of 1958, as amended, has filed an application pursuant to § 107.1004(b) of the SBA rules and regulations governing small business investment companies (13 CFR 107.1004 (1975)), for an exemption from the provisions of the conflict of interest regulations.

The exemption, if granted, will permit BT to purchase for $101,428 the Notes and Warrants of Century Glove, Inc. (Century), a wholly owned subsidiary of Amadac Industries, Inc. (Amadac). Two directors and stockholders of BT are also directors and shareholders of Amadac. These individuals are considered to be "Associates" of the Licensee, as defined by § 107.3 of the regulations. This transaction, therefore, will require an exemption pursuant to § 107.1004(b)(1) of the regulations.

The application contains the following information:

1. Century, a manufacturer of industrial gloves, has its main office in Newark, New Jersey, and has plants in Newark, New Jersey and Lyerly, Georgia.

2. BT will purchase Century's Subordinated Note, and warrants to purchase Century's common stock. Century has certain repurchase rights concerning the warrants. BT will also purchase warrants for stock of Amadac. These warrants, when exercised, will represent .46 percent of Amadac's stock outstanding.

3. Messrs. Burton I. Koffman and Alan V. Iselin own 8½ percent and 5 percent, respectively, of BT's common stock. Messrs. Koffman and Iselin are directors of BT and Amadac. Mr. Koffman and members of his family and certain corporations which they control own a substantial equity interest in Amadac. Mr. Iselin is the Chairman of the Board of Amadac.

Notice is hereby given that any person may, no later than March 10, 1975, submit written comments on the proposed transaction to: Deputy Associate Administrator for Investment, Small Business Administration, 1441 "L" Street, NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in New York, New York.

Dated: February 7, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[FR Doc.75-4721 Filed 2-20-75;8:45 am]

[License No. 02/02-0310]

NIS CAPITAL CORP.

Notice of Issuance of License To Operate as a Small Business Investment Company

On January 9, 1975, a notice was published in the FEDERAL REGISTER (40 FR 1798) stating that NIS Capital Corp., 34 South Broadway, White Plains, New York 10601, had filed an application with the Small Business Administration (SBA), pursuant to Section 107.102 of the Rules and Regulations governing

XUM
V 40 136
FEB 21 75
XUM

small business investment companies (13 CFR 107.102 (1974)) for a license to operate as a small business investment company (SBIC).

Interested parties were given to the close of business January 24, 1975, to submit their written comments to SBA.

Notice is hereby given that, having considered the application and all other pertinent information, SBA has issued License No. 02/02-0310 to NIS Capital Corp., pursuant to section 301(c) of the Small Business Investment Act of 1958, as amended.

Dated: February 10, 1975.

JAMES THOMAS PHELAN,
Deputy Associate Administrator for Investment.

[FR Doc.75-4722 Filed 2-20-75;8:45 am]

DEPARTMENT OF LABOR

Office of the Secretary

UNEMPLOYMENT BENEFITS

Notice of Extensions

I, as Secretary of Labor, have determined that there was a National "on" indicator for the week ending on February 8, 1975, which is applicable to every State, and an Extended Benefit Period therefore will commence with the week beginning on February 23, 1975 in all States in which an Extended Benefit Period is not already in effect. This determination was made under the Federal-State Extended Unemployment Compensation Act of 1970, 84 Stat. 708.

Similarly, I have determined that there was a Federal Supplemental Benefit "on" indicator for the week ending on February 8, 1975, and a Federal Supplemental Benefit Period therefore will commence with the week beginning on February 23, 1975 in all States in which a Federal Supplemental Benefit Period is not already in effect. This determination was made under the Emergency Unemployment Compensation Act of 1974, 88 Stat. 1869.

In accordance with these determinations Federal-State Extended Benefits will be payable during the Extended Benefit Period in all States, including the District of Columbia and the Commonwealth of Puerto Rico, and Federal Supplemental Benefits also will be payable during the Federal Supplemental Benefit Period in every State which has entered into an Agreement with the Secretary of Labor of the United States pursuant to the Emergency Unemployment Compensation Act of 1974.

Section 203 of the Federal-State Extended Unemployment Compensation Act of 1970 provides that there will be a National "on" indicator for a week if in each of the three calendar months preceding that week the rate of insured unemployment (seasonally adjusted) for all States equalled or exceeded 4.5 per centum. Whenever there is a National "on" indicator under the Act an Extended Benefit Period will commence in every State, in which an Extended Benefit Period is not already in effect, with the third week following the week for which there was an "on" indicator. During an Extended Benefit Period individuals who are unemployed and qualify may receive up to 13 weeks of Federal-State Extended Benefits, after they have exhausted their rights to regular unemployment benefits under State laws and the Federal unemployment compensation programs for government employees and for ex-servicemen and ex-servicewomen.

There have been three consecutive calendar months in which the rate of insured unemployment (seasonally adjusted) for all States equalled or exceeded 4.5 per centum. The rate was 4.5 per centum for November 1974, 5.2 per centum for December 1974, and 5.9 per centum for January 1975. Accordingly, there was a National "on" indicator for the first week of February 1975, which ended on February 8, 1975.

The same National "on" indicator is effective to commence a Federal Supplemental Benefit Period in all States in accordance with the Emergency Unemployment Compensation Act of 1974. During a Federal Supplemental Benefit Period individuals who are unemployed and qualify may receive up to 13 weeks of Federal Supplemental Benefits, after they have exhausted their rights to regular unemployment benefits and their rights to Federal-State Extended Benefits (or are not eligible for such extended benefits because of the ending of their eligibility periods) under State laws and the Federal unemployment compensation programs for government employees and for ex-servicemen and ex-servicewomen. However, Federal Supplemental Benefits are payable in a State only with respect to weeks of unemployment which begin after the week in which the State enters into an Agreement with the Secretary of Labor of the United States under the Emergency Unemployment Compensation Act of 1974.

An Extended Benefit Period in any State will last for a minimum period of 13 weeks, and will end with the third week after the week for which there is both a State and a National "off" indicator in accordance with the State's unemployment compensation law and the Federal-State Extended Unemployment Compensation Act of 1970.

A Federal Supplemental Benefit Period in any State will last for a minimum period of 26 weeks, and will end on the same date as the Extended Benefit Period ends in the State if it has been in effect for 26 or more weeks.

Persons who believe they may be entitled to Federal-State Extended Benefits or Federal Supplemental Benefits in any State, or who wish to inquire about their rights under those programs, should contact the State employment security office or unemployment insurance claims office in their locality.

Signed at Washington, D.C. this 19th day of February, 1975.

PETER J. BRENNAN,
Secretary of Labor.

[FR Doc.75-4855 Filed 2-20-75;8:45 am]

INTERSTATE COMMERCE COMMISSION

[Notice No. 703]

ASSIGNMENT OF HEARINGS

FEBRUARY 18, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after February 21, 1975.

MC-F 12343, National Machinery Haulers, Inc.—Purchase—Larry L. Fenner Transport, Inc., now assigned February 27, 1975 at Omaha, Nebr., is postponed indefinitely.

MC 140504, National Machinery Haulers, Inc., now assigned February 27, 1975, at Omaha, Nebr., is postponed indefinitely.

MC 4405 Sub 512, Dealers Transit, Inc., now being assigned May 12, 1975; at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC 135164 Sub 18, Morwall Trucking, Inc., now being assigned May 12, 1975; at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-C-8507, Harry Schreiber, Schreiber Freight Carriers, Inc., Schreiber Freight Lines, Inc., W-P Truck Lines Inc., Gerald S. Lesher, and Dorothy H. Loughman, dba, Waynesburg-Pittsburgh Local Express—Investigation of Operations and Revocation of Certificates, now being assigned May 13, 1975, at the Offices of the Interstate Commerce Commission, Washington, D.C.

MC-C 8501, Short Freight Lines, Inc., and Van Haaren Specialized Carriers, Inc.,—Investigation and Revocation of Certificates—now assigned March 4, 1975 at Lansing, Mich., will be held in Room 215, Federal Building, 325 Allegan St.

MC 138896 Sub 6, Ajax Transfer Company, now assigned March 3, 1975 at St. Paul, Minn., will be held in Room 584 Circuit Court, Federal Building, 316 N. Robert St.

MC 41432 Sub 143, East Texas Motor Freight Lines, Inc., MC 48958 Sub 121, Illinois-California Express, Inc., MC 108461 Sub 122, Whitfield Transportation, Inc., now assigned March 10, 1975, at Salt Lake City, Utah, is postponed to April 7, 1975 (1 wk) at Salt Lake City, Utah.

MC 1263 Sub 18, McCarty Truck Line, now assigned March 10, 1975 at Lincoln, Nebr., will be held in Room 228, Federal Building and Courthouse, 129 N. 10th St.

MC-C-8461, Akers Motor Lines, Inc.—Investigation and Revocation of Certificates—now assigned March 6, 1975 at Atlanta, Ga., is Cancelled.

MC 136987 Sub 10, Remington Freight Lines, Inc. now being assigned April 2, 1975, at Chicago, Ill. in a hearing room to be later designated.

MC 107496 Sub 958, Ruan Transport Corp., now being assigned March 27, 1975 (2 days) at Chicago, Ill., in Room 1086A, Everett McKinley Dirksen Bldg. 219 S. Dearborn St.

MC 139979, American Colloid Carrier Corporation, now assigned March 21, 1975 at Kansas City, Mo., is postponed to April 1, 1975 (4 days) at Kansas City, Mo.

MC 112601 Sub 160, Transport Service Co., now assigned April 2, 1975 at Chicago, Ill., is cancelled and transferred to Modified Procedure.

MC 116763 Sub 284, Carl Subler Trucking, Inc., now assigned February 21, 1975, at Chicago, Ill., is cancelled and application dismissed.

[SEAL] ROBERT L. OSWALD,
Secretary.

[AB 6 (Sub-No. 8); AB 7 (Sub-No. 5);
Finance Docket No. 27217]

BURLINGTON NORTHERN INC., AND CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD CO.

Abandonment of Certain Operation and Trackage Rights

In the matter of Burlington Northern Inc., abandonment between Wrenshall, Carlton County, Minnesota and Superior, Douglas County, Wisconsin; Chicago, Milwaukee, St. Paul and Pacific Railroad Company, abandonment of operation and trackage rights between Hinckley, Pine County, Minnesota, and Carlton, Carlton County, Minnesota, also between Carlton, Carlton County, Minnesota, and West Duluth Junction, St. Louis County, Minnesota; Chicago, Milwaukee, St. Paul and Pacific Railroad Company—trackage rights—Burlington Northern Inc., between Hinckley Minnesota, and Superior, Wisconsin, and between Boylston, Wisconsin and Cloquet, Minnesota.

Upon consideration of the record in the above-entitled proceedings, and of a staff-prepared environmental threshold assessment survey which is available for public inspection upon request; and

It appearing, That no environmental impact statement need be issued in these proceedings because these proceedings do not represent a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969, 42 U.S.C. 4321, et seq.; and good cause appearing therefor:

It is ordered, That applicant be, and it is hereby, directed to publish the appended notice in newspapers of general circulation in Douglas County, Wis. and St. Louis, Pine, and Carlton Counties, Minn., on or before March 5, 1975, and certify to the Commission that this has been accomplished.

And it is furthered ordered, That notice of this order shall be given to the general public by depositing a copy thereof in the Office of the Secretary of the Commission at Washington, D.C., and by forwarding a copy to the Director, Office of the Federal Register, for publication in the FEDERAL REGISTER.

Dated at Washington, D.C., this 12th day of February, 1975.

By the Commission, Commissioner Tuggle.

[SEAL] ROBERT L. OSWALD,
Secretary.

[AB 6 (Sub-No. 8)]

BURLINGTON NORTHERN INC., ABANDONMENT BETWEEN WRENSHALL, CARLTON COUNTY, MINNESOTA AND SUPERIOR, DOUGLAS COUNTY, WISCONSIN

[AB 7 (Sub-No. 5)]

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD COMPANY ABANDONMENT OF OPERATION AND TRACKAGE RIGHTS BETWEEN HINCKLEY, PINE COUNTY, MINNESOTA, AND CARLTON, CARLTON COUNTY, MINNESOTA, ALSO BETWEEN CARLTON, CARLTON COUNTY, MINNESOTA, AND WEST DULUTH JUNCTION, ST. LOUIS COUNTY, MINNESOTA

[FINANCE DOCKET No. 27217]

CHICAGO, MILWAUKEE, ST. PAUL AND PACIFIC RAILROAD COMPANY—TRACKAGE RIGHTS—BURLINGTON NORTHERN INC., BETWEEN HINCKLEY, MINNESOTA, AND SUPERIOR, WISCONSIN, AND BETWEEN BOYLSTON, WISCONSIN AND CLOQUET, MINNESOTA

The Interstate Commerce Commission hereby gives notice that by order dated February 12, 1975, it has been determined that (1) The proposed abandonment by Burlington Northern (BN) between Wrenshall, Minn., and Superior, Wis., a distance of 14.50 miles, (2) the proposed abandonment of trackage rights and operations by the Chicago, Milwaukee, St. Paul, and Pacific Railroad Company (Milwaukee Road) between Hinckley and Carlton, Minn., a distance of 55.86 miles, and between Carlton and West Duluth Junction, Minn., a distance of 15.36 miles, and between Wrenshall, Minn. and Superior, Wis., a distance of 14.50 miles, and (3) the application by Milwaukee Road to acquire trackage rights over and joint use of certain lines of BN between Hinckley, Minn. and Superior, Wis. (via Boylston), a distance of 64.14 miles and between Boylston, Wis. and Cloquet, Minn. (via Carlton), a distance of 26.53 miles, if approved by the Commission, does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. 4321, et seq., and that preparation of a detailed environmental impact statement will not be required under section 4332(2)(C) of the NEPA.

It was concluded, among other things, that, inasmuch as all affected traffic will be diverted to alternate rail lines, there will be no significant effect on the area's rail transportation system. Furthermore, no diversion of traffic from rail to motor carrier transportation will occur, and there will be no significant impact on land use.

This determination was based upon the staff preparation and consideration of an environmental threshold assessment survey, which is available on request to the Interstate Commerce Commission, Office of Proceedings, Washington, D.C. 20423; telephone 202-343-2066.

Interested persons may comment on this matter by filing their statements in writing with the Interstate Commerce Commission, Washington, D.C. 20423, on or before March 20, 1975.

This negative environmental determination shall become final unless good and sufficient reason is filed to demonstrate why an environmental impact statement should be prepared for this action is submitted to the Commission by the above-specified date.

[FR Doc.75-4819 Filed 2-20-75;8:45 am]

[No. MC-139207]

McNABB-WADSWORTH TRUCKING CO.

Contract Carrier Application

FEBRUARY 19, 1975.

At a session of the Interstate Commerce Commission, Review Board Number 3, held at its office in Washington, D.C., on the 6th day of February, 1975.

It appearing, That by application filed October 9, 1973, as published in the FEDERAL REGISTER, Harold F. McNabb and J.D. Wadsworth, Jr., a partnership, doing business as McNabb-Wadsworth Trucking Company, of Kingsport, Tenn., sought a permit authorizing operation, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of glass and glass products, from Kingsport and Greenland, Tenn., to points in Alabama, Florida, Georgia, North Carolina, South Carolina, and Virginia, under contract with ASG Industries, Inc., of Kingsport, Tenn.; and that, after McNabb-Wadsworth Trucking Company was substituted as applicant by order of July 9, 1974, of Commissioner Gresham, applicant seeks, as shown by its initial verified statement, to transport crated glass and glass products, not exceeding 108 inches in height, over irregular routes, from Kingsport and Greenland to points in Alabama, Florida, Georgia, and Virginia, points in North Carolina on and east of U.S. Highway 1, and points in South Carolina on and east of U.S. Highway 1, except Columbia, S.C., and its commercial zone;

It further appearing, That the application has been processed under the Commission's modified procedure; that applicant has filed verified statements in support of the application; that protestant A. J. Metler Hauling & Rigging, Inc., a motor common carrier, has submitted a verified statement in opposition to the application; and that applicant has filed a rebuttal argument by counsel;

It further appearing, That applicant holds no permanent authority from this Commission; that it is engaged in intrastate dump truck operations, transporting sand and gravel within an 80-mile vicinity of Kingsport, and presently serves shipper in contract carrier service in the transportation of the commodities involved herein under temporary authority; that it has main offices and terminal facilities at Kingsport, operates a fleet of 19 dump trucks in its sand and gravel operations, and has a fleet of 6 tractors and 7 trailers available to provide the service proposed herein, with planned increases of 6 additional open top trailers for use in that service; that it is willing to assign all of its over-the-road tractors and trailers to the use of the supporting shipper and proposes to return equipment to its terminal through transportation of exempt commodities and trip-leasing to authorized carriers; and that applicant submitted financial data;

XUM V 40136 FEB 21 75 XUM

It further appearing, That the supporting shipper, ASG Industries, Inc., manufactures glass products which are primarily used in residential and commercial construction; that its facilities pertinent herein are located at Kingsport and Greenland; that it submitted volume data to respective States, such data actually consisting of minimum volumes of traffic shipped, so as to minimize any disclosures which would betray trade secrets as to specific volume of sales to any city or customer; that shipper also submitted a list of cities to which it has made shipments or will make shipments; that plant expansions and additions have increased ASG's efficiency and sales capacity and shipper expects to maintain its projected annual growth of approximately 15 percent for the next several years; that, accordingly, it anticipates a substantial increase in volume of glass products from the facilities involved herein; that shipper has received satisfactory service from protestant Metler in the transportation of "uncrated glass products exceeding 108 inches in height," which are transported by Metler's specially designed lowboy sling-pack trailers, equipment not used by applicant; that shipper's glass is loaded and unloaded by crane, requiring open top trailers; that it avers that existing carriers have not been able to meet shipper's needs; and that it supports applicant in its amended application for common carrier authority;

It further appearing, That protestant Metler is a motor common carrier authorized, as here pertinent, to transport flat glass from points in Hawkins County (embracing Greenland) and Kingsport, to the destination area involved herein; that it also holds common carrier authority to transport (1) uncrated flat glass, (2) crated flat glass which, because of size or weight, requires the use of special equipment, and (3) crated flat glass which does not require the use of special equipment when moving in mixed shipments with the commodities authorized in (1) and (2) above, from Nashville to points in the Eastern United States; that protestant maintains office and terminal facilities at Knoxville, as well as a small terminal facility at Kingsport; that it submitted an equipment list; that it offers a complete heavy hauler and specialized service; that protestant suggested to applicant that imposition of a restriction against transportation of the crated commodities exceeding 108 inches in height would protect Metler's interest and still permit applicant to handle the supporting shipper's traffic; and that Metler indicates that should the suggested restriction be accepted by the Commission, it would withdraw its opposition to the contract carrier application;

It further appearing, That protestant Metler has specially designed glass trailers with a double drop-frame construction and specially engineered and designed supports for handling uncrated glass of all sizes and crated glass of extremely large dimensions, particularly exceeding 108 inches in height; that it is important to Metler that it retain flat glass traffic handled for ASG on these units, since they are so uniquely designed for the transportation of flat glass that they cannot easily accommodate any back-haul traffic of other types of lading; that during August, September, and October 1973, protestant transported 83 shipments of flat glass totaling 3.32 million pounds and generating $50,141 in revenue for the supporting shipper from and to points in all of the six States involved herein; that it provided a list of shipments as to respective States and projected traffic for a period of a complete year based upon the three month totals, yielding 332 shipments weighing 13.3 million pounds and amounting to $200,565 in revenue; and that in view of applicant's decision to seek common carrier authority in lieu of contract carrier authority, protestant requests that any authority granted herein be restricted to the transportation of traffic originating at Kingsport and Greenland in order to protect Metler's flat glass authority from Nashville, fearing diversion of traffic if applicant is able to interline with other carriers holding authority from Nashville to the two origin points;

It further appearing, That in rebuttal applicant avers that the Commission has consistently resisted encumbering grants of authority with restrictions against joinder or interline unless a protestant specifically demonstrates that it would be materially and adversely affected by such service, and Metler has not established such an effect; and that it has not been shown that an interline from Nashville to the origin points herein is operationally feasible or desirable;

It further appearing, That the evidence of record indicates that there has been a prima facie showing of need for the proposed service; that the sole remaining protestant seeks only to have certain restrictions imposed, (1) the restriction regarding a maximum height of 108 inches for the commodities, and (2) a restriction to the transportation of traffic originating at the two origins; that protestant's interest which it avers will be protected by imposition of restriction (2) above is limited to (a) uncrated flat glass, (b) crated flat glass which, because of size or weight, requires the use of special equipment, and (c) crated flat glass which does not require the use of special equipment when moving in mixed shipments with the commodities in (a) or (b); and that in view of the commodity descriptions, the fact that protestant presented no data regarding specific traffic from Nashville, and the entire circumstances of this proceeding, we believe that a restriction to the transportation of traffic originating at the two origin points is not warranted by the evidence;

It further appearing, That while the restriction against transportation of commodities in excess of 108 inches in height is of the type generally not favored, we believe that the restriction should be imposed herein; that, further, since applicant originally sought to serve a particular shipper, we believe that the origin point herein should be the shipper's facility (which will still allow interlining on shipper's premises with its permission); and that, since it is possible that other parties which have relied upon the notice of the application as published (seeking contract carrier authority) may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the Federal Register and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition for leave to intervene in this proceeding or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced;

And it further appearing, That the evidence of record in support of the application warrants the grant of authority set forth below and establishes that applicant is fit, willing, and able, financially and otherwise, to conduct the operation authorized;

Wherefore, and good cause appearing therefor:

We find, That the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of crated glass and crated glass products, not exceeding 108 inches in height, from the facilities of ASG Industries, Inc., at Kingsport and at Greenland, Tenn., to points in Alabama, Florida, Georgia, and Virginia, points in North Carolina on and east of U.S. Highway 1, and points in South Carolina on and east of U.S. Highway 1, except Columbia, S.C., and points in its commercial zone; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969; that an appropriate certificate should be granted, subject to the condition in the second succeeding paragraph in this order; and that the application in all other respects should be denied.

It is ordered, That said application, except to the extent granted herein, be, and it is hereby, denied.

It is further ordered, That upon compliance by applicant with the requirements of sections 215, 217, and 221(c) of the Interstate Commerce Act, and with the Commission's rules and regulations thereunder, within the time specified in the next succeeding paragraph, a certificate be issued to applicant authorizing operations, in interstate or foreign commerce, as a common carrier by motor vehicle in the manner

described above, subject to prior publication in the FEDERAL REGISTER of a notice of the authority actually granted in this order.

And it is further ordered, That unless compliance is made by applicant with the requirements of sections 215, 217, and 221(c) of the Act within 90 days after the date of service of this order, or within such additional time as may be authorized by the Commission, the grant of authority made herein shall be considered as null and void, and the application shall stand denied in its entirety effective upon the expiration of the said compliance time.

By the Commission, Review Board Number 3.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Ex Parte No. 293 (Sub-No. 5)]

REVIEW OF THE UNITED STATES RAILWAY ASSOCIATION'S PRELIMINARY SYSTEM PLAN RAIL SERVICES PLANNING OFFICE HEARINGS

Notice of Public Hearing

Pursuant to section 207(a)(2) of the Regional Rail Reorganization Act of 1973, notice is hereby given that the Rail Services Planning Office will conduct hearings on the Preliminary System Plan of the United States Railway Association:

It is therefore ordered, That (1) The following dates and hearing sites are established together with the local contact coordinator who will receive requested appearance times at the respective hearings:

MONDAY, MARCH 17—FRIDAY, MARCH 21, 1975

Albany, New York. Hearing Room A, at the New Legislative Office Building, South Swan and State Streets, Albany, New York.

Contact: Marjorie Maxwell, c/o ICC Office, 518 New Federal Building, Maiden Lane and Broadway, Albany, New York 12207 Phone: 518-472-2273.

Buffalo, New York. John Lord O'Brian Hall, University of Buffalo, Amherst Campus, Amherst, New York.

Contact: Anne Siler, c/o ICC Office, 612 Federal Building, 111 West Huron Street, Buffalo, New York 14203, Phone: 716-842-2008.

Hartford, Connecticut. Rooms 148 and 149, State Department of Transportation Building, 24 Wolcott Hill Road, Wethersfield, Connecticut.

Contact: Diane Seavey, c/o ICC Office, 324 U.S. Post Office, 135 High Street, Hartford, Connecticut 06101, Phone: 203-244-2560.

Trenton, New Jersey. Labor and Industry Building, Room 1203, John Fitch Plaza, Trenton, New Jersey 08625.

Contact: Elizabeth Guttenberger, c/o ICC Office, 204 Carroll Building, 428 East State Street, Trenton, New Jersey 08608, Phone: 609-599-3511.

Harrisburg, Pennsylvania. Holiday Inn Town, 2nd and Chestnut Streets, Harrisburg, Pennsylvania.

Contact: Sandra R. Diehl, c/o ICC Office, 278 Federal Building, 228 Walnut Street, Harrisburg, Pennsylvania 17108, Phone: 717-782-4437.

Pittsburgh, Pennsylvania. Courtroom #2, 8th Floor, U.S. Post Office and Courthouse Building, 7th and Grant Streets, Pittsburgh, Pennsylvania.

Contact: Henrietta S. Vlasic, c/o ICC Office, 2111 Federal Building, 1000 Liberty Avenue, Pittsburgh, Pennsylvania 15222, Phone: 412-644-2929.

Columbus, Ohio. Ohio Departments Building, 65 South Front Street, Columbus, Ohio.

Contact: Mary A. White, c/o ICC Office, 221 Federal Building and U.S. Courthouse, 85 Marconi Boulevard, Columbus, Ohio 43215, Phone: 614-469-5620.

Lansing, Michigan. City Council Chambers, Lansing City Hall, Capitol and Michigan Streets, Lansing, Michigan.

Contact: Mary Brown, c/o ICC Office, 225 Federal Building, 325 West Allegan Street, Lansing, Michigan 48933, Phone: 517-372-1910.

Indianapolis, Indiana. Indiana Convention and Exposition Center, 100 South Capitol Avenue, Indianapolis, Indiana.

Contact: Frances Sterling, c/o ICC Office, Century Building, 8th Floor, 36 South Pennsylvania Street, Indianapolis, Indiana 46204, Phone: 317-269-7701.

Springfield, Illinois, Hotel St. Nicholas, 4th and Jefferson Streets, Springfield, Illinois.

CONTACT: Janice Livingston, c/o ICC Office, 414 Leland Office Building, 527 East Capitol Avenue, Springfield, Illinois 62701 Phone 217-525-4075

TUESDAY, MARCH 18—FRIDAY, MARCH 21, 1975

Boston, Massachusetts. Minnehan Auditorium, Massachusetts Division of Employment Security and Government Center, Causeway Street, Boston, Massachusetts.

Contact: Elaine Spencer, c/o ICC Office, 150 Causeway Street, Room 501, Boston, Massachusetts 02114 Phone: 617-223-2372

MONDAY, MARCH 17—WEDNESDAY, MARCH 19, 1975

Montpelier, Vermont. Auditorium Pavilion Office Building, Montpelier, Vermont

Contact: Carol Perry, c/o ICC Office, 87 State Street, Room 303, Montpelier, Vermont 05602 Phone: 802-223-8435

Providence, Rhode Island. Hearing Room, 2nd Floor, Division of Public Utilities and Carriers, 160 Weybosset Street, Providence, Rhode Island

Contact: Josephine M. Long, c/o ICC Office, 187 Westminster Street, Room 402, Providence, Rhode Island 02903 Phone: 401-528-4306

Salisbury, Maryland. Auditorium, Delmarva Power and Light Company, Route 13 and Naylor Mill Road, Salisbury, Maryland.

Contact: Essie Cooper, Rail Services Planning Office, ICC, 12th and Constitution Avenue, NW., Washington, D.C. 20423 Phone: 202-254-3294

Contact: Cassandra Forbes, c/o ICC Office, 345 West Wayne Street, Room 204, Fort Wayne, Indiana 46802 Phone: 219-422-6131

(2) Pursuant to section 205(d)(2) of the Regional Rail Reorganization Act of 1973, attorneys have been retained by the Office to provide free legal assistance to communities, users of rail service and other interested parties in the preparation of their testimony on the Preliminary System Plan. The assistance of these attorneys may be obtained pursuant to the hearing rules set forth below.

(3) The following uniform rules, procedures, and practices for the hearings are established:

(a) Pursuant to section 207(a)(2) of the Regional Rail Reorganization Act of 1973 only testimony relevant to the United States Railway Association's Preliminary System Plan will be received.

(b) Oral testimony will be limited to fifteen minutes.

(c) Persons who wish to testify at the hearings should call or write the local contact coordinator who is identified in Part (1) of this notice.

(d) Prospective witnesses will be asked to provide: their name, address, telephone number, business association, if any, the general areas of the Preliminary System Plan to which their testimony will pertain, and the date and time when they wish to appear. This information will be relayed to an outreach attorney from the Office of Public Counsel. If prospective witnesses need the assistance of an outreach attorney, they should so inform the contact coordinator.

(e) The outreach attorney assigned to the hearing city will schedule all witnesses and either the attorney or the local

XUM
V 40 136 FEB 21 75 XUM

contact coordinator will notify prospective witnesses of confirmed hearing appearance times. The outreach attorney will attempt to accommodate prospective witnesses who appear at the hearing without a prescheduled appearance time.

(f) In order to facilitate the creation of a comprehensive and well-organized record, the outreach attorneys will attempt to schedule prospective witnesses according to the general area of interest which their testimony will address.

(g) All written material for the record should be submitted on 8½ x 11 paper in six copies at the hearing or sent directly to the Rail Services Planning Office, 1900 L Street, NW., Washington, D.C. 20036. Statements sent to the Office should arrive no later than March 28, 1975, and should indicate the hearing site most convenient to the witness' home or place of business. Since the Office has a very short time for review of the testimony, statements received after March 28, 1975, will be made a part of the record but may not be reviewed by the Office.

(h) Witnesses with common interests are urged to make joint submissions. In order to prevent unnecessary duplication in the record, written statements which essentially correspond to oral presentations will not be received by the outreach attorneys at the hearing.

(i) The proceeding is legislative, not judicial in nature. It is designed to elicit public views on the Association's Preliminary System Plan. Witnesses will not be required to testify under oath nor will there be any cross examination or rebuttal testimony. Only questions from the presiding officer and the representative of the Office of Public Counsel will be permitted.

(j) In order to insure that the public is fully informed of the contents of the Preliminary System Plan and its possible impacts upon communities and rail users, the usual Interstate Commerce Commission limitations on radio and television coverage during the hearing will be relaxed. The presiding officer will permit live news coverage in the hearing room, provided that the conduct of the media representatives and the presence of radio and television equipment do not disturb the orderly conduct of the proceeding. Where court room facilities are used, however, the rules of the court regarding media participation will apply. The customary rules of the Commission prohibiting smoking and talking during the hearing will apply.

(k) Hearings will commence and end on the days specified in Part (1) of this notice.

(l) Hearings will convene promptly at 9:30 a.m. and adjourn at 5:30 p.m. An evening session will be scheduled on the first day if appearance times are requested. The evening session will commence at 7:30 p.m. and adjourn at 10 p.m. Additional evening sessions may be scheduled at the discretion of the outreach attorney and the hearing officer.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[FR Doc.75-4820 Filed 2-20-75;8:45 am]

[Notice No. 234]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

FEBRUARY 21, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before March 13, 1975. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75649. By order of February 10, 1975 the Motor Carrier Board approved the transfer to Metro Express, Inc., Wilmington, Del., of the operating rights in Certificate No. MC-136452 issued September 19, 1972 to Slaughter Beverage Transportation, Inc., Smyrna, Del., authorizing the transportation of various commodities from and to specified points and areas in New York, New Jersey, Pennsylvania, Maryland and Delaware. Francis P. Desmond, 115 East 5th St., Chester, Pa. 19013, attorney for applicants.

No. MC-FC-75650. By order entered 2.10.75 the Motor Carrier Board approved the transfer to W. E. Atwood Truck Service, Inc., Readville, Mass., of the operating rights set forth in Certificate No. MC 15123, issued January 10, 1974, to Walter E. Atwood, doing business as W. E. Atwood Truck Service, Readville, Mass., authorizing the transportation of general commodities, with the usual exceptions, between Boston, Mass., and West Acton, Mass., over specified routes, serving all intermediate points; between West Acton, Mass., and Fitchburg, Mass., over specified routes, serving all intermediate points; and between Boston, Mass., on the one hand, and, on the other, points in Massachusetts within 15 miles of Boston. Frank J. Weiner, 15 Court Square, Boston, Mass. 02108, attorney for applicants.

No. MC-FC-75653. By order entered 2.11.75 the Motor Carrier Board approved the transfer to C. W. Keith Transfer & Warehouse Co., a corporation, Phoenix, Arizona, of Certificate of Registration No. MC 56664 (Sub-No. 2), issued August 4, 1965, to C. W. Keith, (Charles W. Keith, Executor), doing business as C. W. Keith Transfer & Warehouse Co., Phoenix, Arizona, evidencing a right to engage in transportation in interstate or foreign commerce, of various specified commodities, between points in Arizona. Charles R. Hallam, 3550 N. Central Ave., Phoenix, Ariz. 85012, attorney for applicants.

No. MC-FC-75660. By order of February 11, 1975 the Motor Carrier Board approved the transfer to Paul Henry Air Freight, Inc., Hagerstown, Md., of the operating rights in Certificates No. MC-125616, MC-125616 (Sub-No. 1), MC-125616 (Sub-No. 2), MC 125616 (Sub-No. 3), MC 125616 (Sub-No. 4), MC 125616 (Sub-No. 5), MC 125616 (Sub-No. 7) and MC 138568 issued February 13, 1964, February 11, 1966, August 24, 1967, August 8, 1968, February 12, 1971, January 17, 1973, August 22, 1974 and June 28, 1974 respectively to W. Paul Henry, Hagerstown, Md., authorizing the transportation of general commodities, with exceptions, between specified points in Maryland, Virginia, Pennsylvania and West Virginia and passengers and their baggage, in special operations, between specified areas in Maryland, Pennsylvania, and West Virginia, on the one hand, and, on the other, specified points in Maryland and Virginia. Peter A. Greene, 1625 K St., NW., Washington, D.C. 20006, attorney for applicants.

MOTOR CARRIER TRANSFER PROCEEDINGS

FEBRUARY 21, 1975.

Application filed for temporary authority under section 210a(b) in connection with transfer application under section 212(b) and Transfer Rules, 49 CFR Part 1132:

No. MC-FC-75690. By application filed February 7, 1975, PARAMOUNT DISTRIBUTION MOTOR TRANSPORTATION, INC., doing business as PARAMOUNT DISTRIBUTION, 74 New York Ave., Framingham, MA 01701, seeks temporary authority to lease the operating rights of HOWE AND COMPANY, INC., Two New York Ave., Framingham, MA 01701, under section 210a(b). The transfer to PARAMOUNT DISTRIBUTION MOTOR TRANSPORTATION, INC., doing business as PARAMOUNT DISTRIBUTION, of the operating rights of HOWE AND COMPANY, INC., is presently pending.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[Rule 19, Ex Parte 241; Exemption 91]

ATLANTA AND WEST POINT RAILROAD CO. ET AL.

Exemption Under Mandatory Car Service Rules

It appearing, That the United States railroads own numerous plain 50-ft. boxcars; that under present conditions, there is virtually no demand for these cars on the lines of the car owners; that return of these cars to the car owners would result in their being stored idle on these lines; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of plain boxcars owned by the United States railroads, resulting in unnecessary loss of utilization of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, plain 50-ft. boxcars described in the Official Railway Equipment Register, I.C.C. R.E.R. No. 394, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation XM, and bearing all reporting marks assigned to the United States railroads, shall be exempt from the provisions of Car Service Rules 1(a), 2(a) and 2(b). (See Exception)

Exception, This exemption shall not apply to 50-ft. plain boxcars owned by the railroads named below:

Atlanta and West Point Railroad Company
Reporting marks: AWP
Bangor and Aroostook Railroad Company
Reporting marks: BAR
Burlington Northern Inc.
Reporting marks: BN-CBQ-GN-NP-SPS
Central Vermont Railway, Inc.
Reporting marks: CV-CVC

FOURTH SECTION APPLICATION FOR RELIEF

FEBRUARY 18, 1975.

An application, as summarized below, has been filed requesting relief from the requirements of Section 4 of the Interstate Commerce Act to permit common carriers named or described in the application to maintain higher rates and charges at intermediate points than those sought to be established at more distant points.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1100.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

FSA No. 42944—*Joint Water-Rail Container Rates—Showa Line, Ltd.* Filed by Showa Line, Ltd., (No. 12), for itself and interested rail carriers. Rates on general commodities, between ports in Japan, Korea, Hong Kong, The Philippines, Taiwan, Malaysia, Indonesia, and The Republic of Singapore, and rail stations on the U.S. Atlantic and Gulf Seaboard. Grounds for relief—Water competition.

By the Commission.

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

V40-36 FEB 21 75

XUM

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following the Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 306 following Secretary of Labor's fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing general wage determination decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rulemaking procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

LABORERS (AREA 1)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 1: Brush Hog Feeder; Carpenter Tender; Concrete Crewman (to include stripping of forms, hand operating jacks on slip form construction, application of concrete curing compounds, pumpcrete machine, handling the nozzle of squeezecrete or similar machine - 6" and smaller); Concrete Signalman; Crusher Feeder; Demolition (to include clean-up, burning, loading, wrecking and salvage of all material); Driller Helper; Dumpman; Fence Erector (to include guard rails, guide and reference posts, sign posts, and right of way markers); General Laborer; Grout Machine Header Tender; Nipper; Riprap Man; Scaleman; Stake Jumper; Structural Mover (to include separating foundation preparation, cribbing, shoring, jacking and unloading of structure); Tailhoseman (water nozzle); Track Laborer (RR); Truck Loader; Timber, Bucker and Faller (by hand); Window Cleaner (prior to completion of construction)

Group 2: Cement Finisher Tender; Cement Handler; Demolition Torch; Dope Pot Fireman, non-mechanical; Form Cleaning Machine - Feeder, Stacker; Form Setter, paving; Driller Helper (when required to move and position machine); Nozzleman, water and air or steam; Pipe layer, corrugated metal culvert; Pipewrapper; Pot Tender; Powderman Helper; Power Tool Operator, gas, electric, pneumatic; Sandblast Tailhoseman; Scaffold Erector, Wood or steel; Railroad Equipment, power driven, except dual mobile power spiker or puller; Rodder and Spreader; Wheelbarrow, power driven; Well-point Man; Vibrator up to 4"

Group 3: Asphalt Raker; Asphalt Roller, walking; Chain Saw Operator with attachments; Concrete Saw Walking; Grade Checker, using level; Jackhammer Operator; Multi-section Pipe Layer; Nozzleman (to include squeeze and flo-crete nozzle); Pavement Breaker; Power Buggy Operator; Railroad Power Spiker or Puller, dual mobile; Tamper (to include operation of Barco, Essex and similar tamper and pavement breakers); Trencher, Shawnee; Water Pipe Liner; Wagon Drills

Group 4: Chain Saw (faller); Laser Beam Operator; Pipe Layer (Caulker, Collarman, Jointer, Mortarman, Rigger, Jacker, Shorer and Lagger but not including laying corrugated metal culvert pipe)

Group 5: Concrete Stack; Mortar Mixer

Group 6: Caisson Worker, free air; High Scaler

LABORERS (AREA 1) (Cont'd)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 7: Brush Machine (to include Horizontal Construction Joint Clean-up Brush Machine, power propelled); Drills (to include Down-the-hole Drills with 3½ inch piston or larger and Out-of-the-hole Drills with 4½ inch piston or larger); Gunnite (to include operation of machine and nozzle); Hod Carrier; Monitor Operator, Air Track or similar mounting; Nozzleman (to include Jet Blasting Nozzleman over 1,200 pounds, Jet Blast Machine, power propelled, Sand Blast Nozzle); Vibrator, 4 inches and over

Group 8: Air Track Drills with Dual Masts and Drills; Powderman

TUNNEL AND SHAFT, FREE AIR

Group 9:
- Class A: Bull Gang, Pump Crete Crewman including distributing pipe, assembling and dismantle and Nipper
- Class B: Brakeman, Dumpman
- Class C: Miner and Nozzleman for concrete and Laser Beam Operator on tunnels
- Class D: Raise and Shaft Miner and Laser Beam Operator on raises and shafts

LABORERS (AREA 2)

Remaining Counties and that portion of Idaho County South of the 46th Parallel

Group 1: General Laborers, Sloper, Clearing and Grading; Form Stripper; Concrete Crew; Concrete Curing Crew; Carpenter Tender; Asphalt Laborer; Hopper Tender; Flagman, (including Pilot Car), Watchman, Heater Tender; Stake Jumper, Choker Setter; Spreader and Weighman; Power Wheelbarrow; Scouring Concrete; Rip Rap Man (hand placed); Fence Erector and Installer - manual or mechanical (includes the installation and erection of fences, guard rails, median rails, reference posts, guide posts and right-of-way markers); Crusher Helper; Cribbing and Shoring (in open ditches); Machinery and Parts Cleaner; Leverman - manual or mechanical; Demolition - salvage; Landscaper; Tool Room Man; Janitor

LABORERS (AREA 2) (Cont'd)

Remaining Counties and that portion of Idaho County South of the 46th Parallel

Group 2: Chuck Tender; Driller Helper; Air Tampers; Gunite Nozzleman Tender; Pipewrapper Tar Pot Tender; Concrete Sawyer; Signalman, handling cement; Dumpman; Steam Nozzleman; Air and Water Nozzleman (Green Cutter, concrete); Vibrator (less than 4"); Pumpcrete and Grout Pump Crew; Hydraulic Monitor

Group 3: Pipelayer, including sewer, drainage, sprinkler systems and water lines; Free Air Caisson; Jackhammer; Paving Breaker; Powderman Helper; Asphalt Raker, Gasoline Powered Tamper; Electric Ballast Tamper; Sand Blasting Form Setter - Airport Paving; Gunman (Gunite); Manhole Setter; Hand Guided Machines, such as Roto Tillers, Trenchers, Post Hole Diggers, Walking Garden Tractors, etc.; Form Setter (Highway Curb and Gutter); Vibrator (4" and over); Timber Faller and Bucker; Metal Pan Installer

Group 4: Hod Carrier; Mason Tender; Plaster Tender; Mason Tender (concrete); Terrazzo-Tile Tender

Group 5: Highscaler; Wagon Drill; Grade Checker; Gunite Nozzleman; Diamond Drillers on Drills.

Group 6: Drill with Manufacturers' rating 3" or over

Group 7: Powderman

UNDERGROUND WORK

Group 8: Reboundman; Chucktender; Nipper; Dumpman; Vibrator (less than 4"); Brakeman; Muckers; Bullgang

Group 9: Form Setter and Mover

Group 10: Miners; Machinemen; Timbermen; Steelmen; Drill Doctors; Spaders and Tuggers; Spiling and/or Caisson Workers, Vibrator (on 4")

POWER EQUIPMENT OPERATORS (AREA 1)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 1: Bit Grinders; Bolt Threading Machine; Compressors, under 2,000 cu. ft. per minute gas, diesel or electric power; Crusher Feeder (mechanical); Deckhand; Drillers' Helper; Fireman and Heater Tender; Grade Checker; Helper (mechanic or welder, H.D.); Oiler; Oiler and Cable Tender, Mucking Machine; Pumpman; Rollers, all type on subgrade (farm type, Case, John Deere and similar - or compacting or vibrator) except when pulled by dozer with operable blade; Steam Cleaner; Welding Machine

POWER EQUIPMENT OPERATORS (Area 1) (Cont'd)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 2: A-frame Truck (single-drum); Assistant Refrigeration Plant (under 1,000 tons); Assistant Plant Operator, Fireman or Pugmixer (asphalt); Bagley or Stationary Scraper; Batch Plant and Wet Mix Operator, single unit (concrete); Belt Finishing Machine; Bending Machine (pipeline); Blower Operator (cement); Cement Hog; Compressor (2,000 cu. ft. or over, 2 or more - gas, diesel, or electric power); Concrete Saw (multiple cut); Distributor Leverman; Elevator Hoisting Materials; Dope Pots (power agitated); Fork Lift or Lumber Stacker, Hydra-lift and similar; Gin Trucks (pipeline); Hoist, single drum; Loader (Bucket Elevators and Conveyors); Longitudinal Float; Mixer (portable-concrete); Pavement Breaker (Hydra-hammer and similar); Post Hole Auger or Punch; Power Broom; Railroad Ballast Regulation Operator, (self-propelled); Railroad Power Tamper Operator, (self-propelled); Railroad Power Tamper Jack Operator, (self-propelled); Spray Curing Machine (concrete); Spreader Box (self-propelled); Straddle Buggy (Ross and similar on construction job site); Tractor (farm type R/T with attachments except Backhoe); Tugger Operator; Ditch Witch or similar

Group 3: A-Frame Truck (2 or more drums); Assistant Refrigeration Plant and Chiller Operator (over 1,000 tons); Backfillers (Cleveland and similar); Belt-crete Conveyors with Power pack or similar; Belt Loader (Kocal or similar); Blade Operator (motor patrol and attachments); Boat Operators; Boom Cats (side); Boring Machine (earth); Boring Machine (rock under 8" bit)(Quarry Master, Joy or similar); Bump Cutter (Wayne, Saginaw or similar); Canal Linning Machine (concrete); Chipper (without crane); Cleaning and Doping Machine (pipeline); Concrete Pumps (squeeze-crete, flow-crete, pumpcrete, Whitman and similar); Drills (Churn, Core, Calyx, or Diamond); Elevating Belt-type Loader (Euclid, Barber Greene, or similar); Elevating Grader-type Loader (Dumor, Adams, or similar); Equipment Serviceman, Greaser and Oiler; Generator Plant Engineers (diesel, electric); Gunite Combination Mixer and Compressor; Hoist, (2 or more drums or tower hoist); Loaders (overhead and front-end under 4 yards, R/T); Locomotive Engineer; Mixer-mobile; Mucking Machines; Paver or Curb Extruder (asphalt and concrete); Pump (Grout or Jet); Rollerman (finishing pavement); Rubber-tired Scraper (one motor with one scraper, under 40 yards); Screed Operator; Soil Stabilizer (P & H or similar); Spreader Machine; Tractor (Crawler, including Dozer, Scraper, Drills, Booms, Rollers, etc.); Traverse Finishing Machine; Trenching Machines (under 7 feet depth capacity); Turnhead Operator; Vacuum Drill (reverse circulation drill, under 8")

POWER EQUIPMENT OPERATORS (AREA 1) (Cont'd)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 4: Asphalt Plant Operator; Crusher, Grizzle and Screening Plant Operator; H. D. Mechanic; H. D. Welder; Refrigeration Plant Engineer (under 1,000 ton); Rubber-tired Scraper, Multi-engine power, with one scraper (Euclid, TS-24 and similar); Rubber-tired Scrapers, one motor with one scraper (40 yards and over); Surface Heater and Planer Machine; Turnhead (with re-screening)

Group 5: Automatic Subgrader (ditches and trimmers) (Autograde, ABC, R.A. Hansen and similar on grade wire); Backhoes (under 3 yards); Batch and Wet Mix Operator - multiple units (2 and including 4); Chipper (With crane); Clamshell Operator (under 3 yards); Concrete Slip Form Paver; Cranes all (under 65 tons); Derricks and Stifflegs (under 65 tons); Draglines (under 3 yards); Drilling Equipment (8" bit and over)(Robbin's Reverse Circulation and similar); Loader Operator (Front end and Overhead 4 yards to 8 yards); Piledriving Engineers; Paver (dual drum); Quad-track or similar equipment; Railroad Track Liner Operator (self-propelled); Rubber-tired Scrapers, multi-engine, power with one scraper (Euclid, TS-24 and similar); Push Pull or Help Mate in use; Rubber-tired Scrapers, multiple engines with two scrapers; Shovels (under 3 yards); Refrigeration Plant Engineer (1,000 tons and over); Signalmen (Whirleys, Highline Hammerheads or similar); Trenching Machines (7 feet depth and over); Multiple Dozer units with single blade

Group 6: Backhoes (3 yards and over); Batch Plant (over 4 units); Cableway Controller - Dispatcher; Cableway Operator; Clamshell Operator (3 yards and over); Cranes, all - 65 tons and over; Derricks and Stifflegs (65 tons and over); Draglines (3 yards and over); Elevating Belt (Holland type); Loader (360 degrees revolving Koehring Scooper or similar); Loaders (overhead and front-end over 8 to 12 yards); Rubber-tired Scrapers (multiple engine with three or more scrapers); Shovels (3 yards and over); Tower Crane; Whirleys and Hammerheads (all)

Group 7: Helicopter Pilot; Loaders (overhead and front-end - Over 12 yards)

POWER EQUIPMENT OPERATORS (AREA 2)

Remaining Counties and that portion of Idaho County, South of the 46th Parallel

Group 1: Brakemen; Crusher; Plant Feeder (mechanical); Deckhand; Drill Helpers; Grade Checkers; Heater Tender; Land Plane; Oilers; Pumpman; Rear Chainman

POWER EQUIPMENT OPERATORS (AREA 2) (Cont'd)

Remaining Counties and that portion of Idaho County, South of the 46th Parallel

Group 2: Air Compressor, Assistant Refrigeration Plant Operator, Bell Boy, Bit Grinder Operator, Blower Operator (cement), Bolt Threader Machine Operator, Broom, Cement Hog, Concrete Mixer, Concrete Saw - Multiple Cut, Discing - Harrowing or Mulching (regardless of motive power), Distributor Leverman, Drill Steel Threader Machine Operator, Fireman - All, Heavy Duty Mechanic Helper or Welder Helper, Head Chainman, Hoist - single drum, Hydraulic Monitor Operator - skid mounted, Oiler (single piece of equipment), Pugmixer - Box or Screed Operator, Spray Curing Machine, Tractor - Rubber Tired Farm type using attachments

Group 3: A-Frame Truck (Hydra Lift, Swedish Cranes, Ross Carrier, Hyster on construction jobs), Battery Tunnel Locomotive, Belt Finishing Machine, Cable Tenders (Underground), Chip Spreader Machine (self-propelled), Hoist - 2 or more drums or Tower Hoist, Hydralift - Fork Lift and similar (when hoisting), Oilers (Underground), Power Loader (Bucket Elevator, Conveyors), Rodman, Road Roller (regardless of motive power).

Group 4: Boring Machine (Earth or Rock) Quarrymaster - Joy - Tractor mounted, Drills: Churn - Core - Calyx or Diamond, Front End and Overhead Loaders and similar Machines - (up to and including 4 yards) - (Rubber-tired), Grout Pump, Hydra-hammer, Instrument Man, Locomotive Engineer, Longitudinal Float Machine, Mixermobile, Spreader Machine, Tractor - Rubber-tired - using Backhoe, Transverse Finishing Machine, Trenching Machines, Waggoner Compactor and similar, Asphalt Spreaders

Group 5: Concrete Plant Operator, Concrete Road Paver (Dual), Elevating Grader Operator, Euclid Elevating Loader, Generator Plant Operator-Mechanic (diesel electric), Post Hole Auger or Punch Operator, Power Shovels and Draglines - under 1 yard, Pumpcrete, Refrigeration Plant Operator, Road Roller (Finishing High Type Pavement), Skidder - Rubber-tired, Sub Grader, Multiple Station Beltline Operator (Teton Dam Project only); Service Oiler

Group 6: Asphalt Pavers - self-propelled, Asphalt Plant Operator, Blade Operator (Motor Patrol), Concrete Slip Form Paver, Cranes - up to and including 50 ton, Crusher Plant Operator, Derrick Operator, Drilling Equipment (Bit under 8 inches) (Robbins Reverse Circulation and similar), Front End and Overhead Loaders and similar Machines-(over 4 yards to and including 7 yards), Koehring Scooper, Heavy Duty Mechanic or Welder, Mucking Machine (Underground), Multi-batch Concrete Plant Operator, Piledriver Engineer, Power Shovels and Draglines (1 yard to and including 3½ yards), Tower Crane Operator, Tractor - Crawler Type - including all attachments, Refrigeration Plant Operator (over 1,000 tons), Trimmer Machine Operator, Tournapulls - Euclid and similar - to and including 40 yards

POWER EQUIPMENT OPERATORS (AREA 2) (Cont'd)

Remaining Counties and that portion of Idaho County South of the 46th Parallel

Group 7: Cableway Operator, Continuous Excavator (Barber Greene WL-50), Cranes - over 50 ton, Dredges, Drilling Equipment (Bit 8 inches and over) (Robbins Reverse Circulation and similar), Fine Grader - CMI or Equivalent, Front End and Overhead Loaders and similar Machines - (over 7 yards), Power Shovels and Draglines over 3-½ yards, Quad type Tractors with all attachments, Tournapulls - Euclid and similar - over 40 yards to and including 50 yards, Multiple Scraper Units.

Group 8: Tournapulls - Euclid and similar - over 50 yards to and including 75 yards

Group 9: Tournapulls - Euclids and similar - over 75 yards to and including 100 yards

Group 10: Tournapulls - Euclids and similar - over 100 yards

TRUCK DRIVERS (AREA 1)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 1: Flat Bed Truck, single rear axle; Escort Driver; Fish Truck; Fork Lift, 3,000 pounds and under; Fuel Truck Driver (Steam Cleaner and Washer);(Helper and Swamper; Leverperson loading (trucks at bunkers; Pickup hauling material; Seeder and Mulcher; Stationary Fuel Operator; Team Driver; Tractor (small rubber tired pulling trailer or similar equipment); Water Tank Truck 1,800 gallons.

TRUCK DRIVERS (AREA 1) (Cont'd)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 2: Bus Driver or Employeehaul Driver; Flat bed truck, dual rear axle; Power Boat hauling employees or material; Tireperson No. 1; Warehouseperson

Group 3: Buggy Mobile and similar; Bulk Cement Tanker; Oil Tank Driver; Power Operated Sweeper; Semi-trailer, low bed, truck and trailer; Straddle Carrier (Ross Hyster and similar); Transit Mixers and trucks hauling concrete (3 yards and under); Trucks, side, end, and bottom dump (under 6 yards); Water tank truck (1,801 - 4,000 gallons)

Group 4: Auto Crane - 2,000 pounds capacity; Bulk Cement Spreader; Dumptor (6 yards and under); Flaherty Spreader, Box Driver; Flat bed truck (using power take off); Fork Lift (over 3,000 pounds); Oil Distributor Driver (road, bootperson, leverperson helper); Rubbertired tunnel jumbo; Scissor truck; Slurry Truck Driver; Transit mixers and trucks hauling concrete (over 3 yards to 6 yards); Water tank truck (4,001 - 6,000 gallons); Wrecker and tow trucks

Group 5: Low Boy (under 50 tons); Service Greaser; Tireperson No. 2 Truck, side, end, and bottom dump (over 6 yards to 12 yards)

Group 6: A-Frame (Swedish Crane, Iowa 3,000, Hydrolift); Water tank truck (over 6,001 - 8,000 gallons)

Group 7: Dumptor (over 6 yards); Transit mixers and trucks hauling concrete (6 yards to 10 yards); Trucks, side, end, and bottom dump (over 12 yards including 20 yards)

Group 8: Low Boy (over 50 tons), Water tank truck (8,001 - 10,000 gallons)

Group 9: Transit mixers and trucks hauling concrete, (10 yards to 15 yards); Trucks, side, end and bottom dump (over 20 yards including 30 yards); Water tank truck (10,001 - 12,000 gallons)

Group 10: Mechanic, field

Group 11: Tournarocker, D.W.'s and similar, with 2 or 4 wheel power tractor with trailer, gallonage or yardage scale, which is greater; Transit Mixers and Trucks hauling concrete (15 yards to 20 yards); Trucks, side, end and bottom dump (over 30 yards to 40 yards); Water tank truck (12,001 - 14,000 gallons)

Group 12: Transit mixers and trucks hauling concrete (over 20 yards); Trucks, side, end and bottom dump (over 40 yards to 50 yards)

Group 13: Truck, side, end and bottom dumps, (over 50 yards to 100 yards)

TRUCK DRIVERS (AREA 1) (Cont'd)

Benewah, Bonner, Boundary, Clearwater, Kootenai, Latah, Lewis, Nez Perce, Shoshone and that portion of Idaho County North of the 46th Parallel

Group 14: Helicopter Pilot hauling employees or material; Trucks, side, end and bottom dump (over 100 yards)

TRUCK DRIVERS (AREA 2)

Remaining Counties and that portion of Idaho County South of the 46th Parallel

Group 1: Leverman loading at bunkers; Pilot Car or Escort Driver

Group 2; Flat bed - 2 axle and pickup hauling material; Water tank truck (1,800 gallons and under); Fork lift (3,000 and under)

Group 3: Flat bed - 3 axle, fuel truck (1,000 gallons and under); Greaser; Tireman; Serviceman; Buggymobile; Man haul (Shuttle truck or bus)

Group 4: Transit mix truck - 3 yds. and under; Warehouseman; Truck helpers; Slurry or concrete pumping truck

Group 5: Flat bed using power takeoff; Water tank truck (over 1,800 - 4,000 gallons); Semi-trailer - Low boy - up to 96,000 lbs. GVW, Bulk cement tanker - up to 96,000 lbs. GVW; Fork lift - over 3,000 lbs. (Bull lift, Hydro lift); Ross, Hyster and similar straddle equipment; "A" Frame truck (Swedish Crane, Iowa 3,000, Hydro-lift)

Group 6: Transit mix truck, over 3 yds. - 6 yds.

Group 7: Water tank truck - over 4,000 gallons; Fuel truck - over 1,000 gallons; Distributor or spreader truck

Group 8: Transit mix truck - over 6 yds. - 8 yds.; Dumptora; Field Tireman; Serviceman

Group 9: Transit mix truck - over 8 yds. - 10 yds.; Snow Plow (Truck Mounted)

Group 10: Low boy - 96,000 lbs. GVW and over; Bulk cement tanker - 96,000 lbs. GVW and over

Group 11: Transit mix truck - over 10 yds.

Group 12: Turnarocker and similar equipment

TRUCK DRIVERS (AREA 2) (Cont'd)

Remaining Counties and that portion of Idaho County South of the 46th Parallel

Group 13:
Truck - side, end and bottom dump
Class A: 6 yds. and under
Class B: Over 6 yds. - including 12 yds.
Class C: Over 12 yds. - including 20 yds.
Class D: Over 20 yds. - including 30 yds.
Class E: Over 30 yds. - including 40 yds.
Class F: Over 40 yds. - including 50 yds.
Class G: Over 50 yds. - including 75 yds.
Class H: Over 75 yds. - including 100 yds.
Class I: Over 100 yds.

Group 14: Truck mechanic

SUPERSEDEAS DECISION

STATE: Indiana
DECISION NO: IN75-2037
Supersedes Decision No. AR-3123, dated August 23, 1971, in 39 FR 30739
DESCRIPTION OF WORK: Heavy and Highway Construction

COUNTIES: See Below
DATE: Date of Publication

GROUP 4	6.61	.30	.30		.05

CLASSIFICATIONS

GROUP 1: Auto patrol, Backhoe (on farm type tractor over 50 H.P.), Ballast regulator (RR), Bituminous mixer, Bituminous paver, Bituminous plant engineer, Bulldozer, Caisson Drilling machine (crane mounted), C.M.I. machine auto-grade, Concrete mixer (21 cu. ft. or over), Core drilling machine, Crane or derrick with any attachment (incl. clamshell, dragline, shovel, backhoe, etc.), Dredge operator, Drilling machine (on which the drill is an integral part), Elevating grader, Euclid loader, Formless paver, Gradall, Gravel processing machine, Operator of guard rail post driver, high lift shovel (1½ yds. and over), Keystone (skimmer scoop, locomotive, operators, mucking machine, panel board concrete plant (central mix type), Pacer-Hetherington, Piledriver-skid crawler, Road pacing mixer, Rock crusher, Roller-asphalt, Waterbound macadam, Bituminous macadam, Brick surface, Roller with dozer blade, Self-propelled widener, Surface heater and planer, Tandem push cat, Tournapull, or similar type equipment, Tournapull tandem, Tractor (boom or winch), Tractor (push), Trench machine (over 24"), Tug boat operator, Well drilling machine, Winch truck with A-frame

GROUP 2: Backfiller, Backhoe on farm type tractor with less than 50 H.P., Bull float, Concrete pump, Concrete mesh depresser (independently operated), Concrete spreader (power driven), Excavation loader (portable), Finishing machine (who supervises 2 or more greasers or a greaser and a helper), Mechanic, Multiple tamping machine (RR), P. C. C. Concrete belt placer, Pull grader-power control, Ross carrier, Sheepfoot roller (self-propelled), Tamper-multiple vibrating-asphalt, Waterbound macadam, Bituminous macadam, and bull float, Gunite machine, Head greaser (who supervises 2 or more greasers or a greaser and a helper), Mechanic, multiple tamping machine (RR), Brick surface, Trench machine (24" and under), Welder

GROUP 3: Assistant plant engineer, Concrete finishing machine, Concrete mixer (less than 21 cu. ft.), Curb machine, Farm tractor (incl. farm tractor with all attachments except backhoe, and incl. highlift end loaders of 1 cu. yd. capacity and less), Fireman (on boiler), Greaser, Hoist, (one drum), Jersey spreader or base paver, Operator (3 to 5 pieces of minor equipment), Paving breaker, Power broom (self-propelled), Roller (earth and subbase material), Slurry seal machine, Spike machine (RR), Tamper - multiple vibrating - earth and subbase material, Throttle valve, Throttle vale and compressor or clever Brooks type combination, Throttle valve and fireman combination on horizontal or upright boiler, Tractaire with drill, Tractor (50 H.P. or over), Well point system, Widener (Apsco or similar type)

REMAINDER OF COUNTIES

GROUP 4: Air compressor, Assistant to Engineer, Automatic dry batch plant, Bituminous Distributor, Bituminous patching tamper, broom and belt machine, Coleman type screen, Conveyor (portable), Deck hand, Digger post hole (power driven), Ulrich spreader, Form grader, Form tamper (motor driven), Generator, Hetherington driver, Hetherington heater, Operator, two pieces of minor equipment, outboard or in board motor boat, power curing spraying machine, power saw - concrete (power driven), Pull broom (power type), Seaman tiller, Straw blower, Stripping machine, Paint (motor driven), Subgrader, Tractaire, Tractor (below 50 H.P.), Track crane oiler - driver, Water pump, Welding machine

LABORERS

Flathead and that area of Sanders County lying 5 miles north of the 5th Parallel

Group 1: General laborers; scaleman; form strippers; car and truck loaders

Group 2: Concrete handlers, conveying and handling concrete; Nozzlemen (air or water); Sand blast tail hose man; Powderman helper; Power driven wheelbarrow; Rodder and Spreader; Form setters (paving); Bucketman; Small air tool operators, including blow pipes and small power tool operators; Chuck tenders; Asphalt rakers, Dumpman; Rip rapping; Pipe wrapper; Pot tender; Concrete pumper hoseman; Jackhammer, Pavement breaker; Vibrator; mechanical tamper and other air tools; Cement handlers (sack or bulk); Burning bar

Group 3: Pipe layers (non-metallic), Metal culvert pipe layers; Mason and Plaster tenders; Cement finisher tender; Small concrete mixer operator; Shoring and lagging open ditches; Powderman; Drills, Air-Trac, wagon drill, cat or truck mounted air operated drills, Sand Blaster (wet or dry); gunite nozzleman; barco tamper

Hill and Valley Counties

Group 1: General and Building Laborers' and Scale Men; Form Stripper and Carpenter Tender; Car and Truck Loaders; Concrete Laborers (wet or dry breaking of concrete requiring sledge hammer); Dumpmen (Spotter and Flagman); Small Power Tools, Chippers, Clay Spaders, Pogo Stick, etc.; Fence Erectors and Installers, installation and erection of fences, guard rails, median rails, reference posts, guide posts and right-of-way markers

Group 2: Dumpmen (Grade)

Group 3: Power Driven Concrete Buggies or Power Driven Wheelbarrows; Pipe Layers (non-metallic); Sandblaster, Concrete Nozzleman, Place Operator, Jackhammer, Pavement Breaker, Vibrator (2-1/2 inches and over) Barco Tamper, Vibrator Turtle; Small Concrete Mixers, Concrete Saw; Nozzleman (air and water); Sandblaster, Tailhoseman, Pot Tender, Tar Pot Tender; Gunite Nozzleman; Caisson Workers (Free Air); Tunnels and Shafts (Free Air); Bull Gang, Pot Tender; Chuck Tender, Muckers and Nippers, Primerhouseman

Group 4: Brick Tenders (handling bricks and blocks only)

Group 5: Hod Carriers and Plaster Tenders (men carrying motor either by hod pail or barrow); High Scaler, Wagon Driller, Cat or Truck mounted Air Operated Drills; Asphalt Rakers and Tampers, Gunite, Form Setter (slab steel forms); Stake Setter, Stake Jumper, Rodder and Spreader, Grademan; Concrete Nozzleman; Miners

Group 6: Powdermen; Lazer Tools and Equipment

LABORERS (Cont'd)

Missoula and Sanders (Southern area) Counties

Group 1: Laborers

Group 2: All power tools, creosote workers; Jackhammer; Marble and tile setters' tenders; Pipelayers; Pipewrappers; Pot tenders; Small concrete mixers; Vibrators

Group 3: Cement masons and plasterer's tenders; Mason tenders; Pumpcrete, gunnite and plasterer pump

Cascade and Glacier Counties

Group 1: General and Building Laborers' and Scale Men; Concrete Laborers (wet or dry breaking of concrete requiring sledge hammer); Dumpman (spotter) and Flagman; Fence Erectors and Installers, including the installation and erection of fences, guardrails, medium rails, reference posts, guide posts and right-of-way markers; Vibrators, under 1-1/2" in diameter; Small Air Tools such as Chippers, Clay Spades, etc.; Stake Setters; Stake Jumper, Rodder and Spreader, Form Stripper; Caisson Workers (Free Air); Vibrator 1-1/2" to 2-1/2" in diameter

Group 2: Concrete or Asphalt Saws; Creosote Material Handler; Curb Machine Form Setter (Slab Steel Forms); Diamond Drills up through 3 inches in diameter; Jackhammer, Pavement Breaker, Wagon Driller, Cat or Truck Mounted Air Operated Drills, and other Air Tools; Diesel Tamper, Wacker, Jay, Turtle, Pogo Sticks, etc., Mechanical Tampers; Nozzlemen, Air and Water, Gunite and Place, Machine (Grout); Pipe Layer (all types); Power Saw (bucking and falling); Power Driven Wheelbarrow; Chuck Tenders, Muckers and Nippers, Primeman

Group 3: Sand Blaster

Group 4: Vibrators, 2-1/2" to 4" in diameter; Brick Tenders; Dumpmen (Grade); Small Concrete Mixers

Group 5: Diamond Drills up through 6 inches in diameter; Hod Carriers and Plaster Tenders (1 - one mixerman per crew); Asphalt Raker and Tamper; High Scaler, Powderman Helper; Concrete Nozzleman; Miners; Barco Tamper; Air-Trac

Group 6: Diamond Drill, over 6 inches in diameter; Self-Propelled Drills, with the exception of size differential, such as Mustang Drills or Twin Stack Drills; Core Drill Operator; Laser Equipment and Tools, excluding Transit; Powderman

Group 7: Concrete Vibrator, 4" and over

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes $6.00 per day to an Annuity & Security Benefit Fund.

b. Holidays: A through F; Election Day; Employee's Birthday.

c. Holidays: A through F; Lincoln's Birthday; Washington's Birthday; Columbus Day; Election Day; Armistice Day.

d. Employees with 6 months or more but less than 5 years service receive 2 weeks vacation, 5 or more years of service receive 3 weeks.

e. Employees with 6 months or more but less than 5 years service receive 2 weeks vacation, 5 or more years but less than 15 years receive 3 weeks, 15 or more years receive 4 weeks.

f. PAID HOLIDAYS: ST. Patricks Day.

g. Holidays: A through F; Washington's Birthday; Christmas Eve and Good Friday, providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and regular scheduled work days immediately preceding and following the holiday.

h. $3.50 per day contribution for each man to a special annuity fund.

i. Paid Holidays New Year's Day & Xmas Day providing the employee works a full half day preceding or following the holiday.

j. Employee contributes $.857 per hour to an additional security benefit fund.

k. Employer contributes $.43 per hour to a Security Benefit Fund.

l. Employer contributes 7% per hour to a combined Health, Welfare and Pension Fund.

m. Employer contributes $8.00 per day to an Annuity Fund.

n. Holidays: A through F, Lincolns Birthday; Washington's Birthday; Columbus Day; Election Day; Veteran's Day, providing the employee works two days in the calendar week in which the holiday falls and each remainding word day during such calendar week.

o. For each 15 days within the contract year an employee will receive one days vacation with pay, with a maximum vacation of three weeks per year.

p. Holidays: B, C, D & E, Election, Columbus Day, providing employee works at least 1 day in the week in which the holiday occurs.

WELDERS: Receive rate prescribed for craft performing operation to which welding is incidental.					

PAID HOLIDAYS:
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTE:

a. Employer contributes 4% of basic hourly rate for 5 years' service and 2% basic hourly rate for 6 months to 5 years' service as Vacation Pay Credit. 6 Paid Holidays.

* LABORERS

GROUP I: Boxman; Carpenter Tender; Cement Finisher Helper; Chat Boxman; Choker Setter; Clearing and Grading; Cleaning of equipment and parts in connection with concrete; Concrete Crew; Dock-hand and Cleaning Man; Fence Erector and Installer (includes installation and erection of fences, guard rails, median rails, reference post, guide post, and right-of-way markers); Flagman; Form Stripper; Gardener Helper; General Laborer; Grizzley Op. (whether by power or hand); Group Pump Op.; Heater Tender; Helpers (all not herein separately classified); House Movers; Landscaping Helper; Laborers on Wrecking and Demolition; Nurseryman Helper; Prewaterman; Riprap man (hand placed); Sloper, Spreader and Weighman; Stake Jumper; Stripping and Cleaning of steel and pans; Tool Dispatcher and Checker (full time); Unloading and packing of reinforcing steel rods and mesh

GROUP II: Air-track Helper; Asphalt Rakers and Ironers; Dumpman; Gunnite Reboundman; Metal Form Setter (airport paving and highway); Pipe Wrapper; Pot Tender and Joint Maker; Rollers; Screen and Clean-up Man; Signal and Dumpman on Concrete Construction; Tunnel and Belt Man

GROUP III: Barko Vibratory Roller and similar type compacting machines; Concrete Cutting Torch; Hand and Chain Saw Op. (Bucking and Falling Timbers); High Pressure Water Nozzleman; J Tampers and similar type tampers; Jackhammer and Pavement Breaker; Mortar and Grout Mixer; Multi-plate Installer; Op. of pneumatic and electric tools and compressors and concrete saw; Op. of Power-Type Form Cleaner and Oiling Machine; Pipelayer; Powderman Helper; Power Type Buggies; Pumpcrete Op.; Refinery Tank and Vessel Cleaners; Sand-Blasters; Sandblaster Pot Tender; Vibrator Op.; Work of all type using cutting torches and tools needed in wrecking; Laser Beam Operator

GROUP IV: Air-track and Core Diamond Drillers; Drill Mechanic (on job site); High Scaler operating jackhammer or breaker; Main Vibratorn and similar types 70 lbs.; Multiple Side Boom Driller; Wagon Driller

GROUP V: Gunnite Groundman; Gunnite Nozzleman; Gunnite Rodman;
GROUP VI: Powderman

** TUNNEL AND SHAFT WORK

GROUP I: Underground Laborers

GROUP II: Brakeman; Chucktender; Dumpman; Powderman Helper; Puddler

GROUP III: Nipper; Screedman; Vibrator; Tapman

GROUP IV: Cutting Machine Op.; Drill Doctor Finisher; Gunnite Gunman; Miners; Powder Make-up Man; Spader and Tuggers; Steelman; Timberman

GROUP V: Gunnite Groundman; Gunnite Nozzleman; Gunnite Rodman

*** POWER EQUIPMENT OPERATORS

GROUP 1: Chainman; Rodman

GROUP 2: Asphalt Plant Fireman; Brakeman - Locomotive; Elevator Operator; Oiler, Boxman; Rear Chainman; Fireman; Hydraulic Monitor; Material Loader or Conveyor; Partsman - Field; Gradesetter; Repairman Helper - Field

GROUP 3: Air Compressor Operator: Concrete Mixer Operator (skip type); Concrete Pump or Pumpcrete Gun Operator; Engineer, Dinkey Operator; Generator (100 KW or over); Mixer Box Operator (Concrete or Asphalt Plant) (continuous mix or similar); Pump Operator; Self-propelled, automatically applied concrete curing machine (on streets, highways, airports and canals); Screedman; Truck Crane Oiler

GROUP 4: Ballast Jack Tamper; Ballast Regulator; Ballast Tamper - Multiple Purpose; Front End Loador up to and including 1 c.y. Struck MRC; Hoist Operator 1 Drum; Line Master; Lubrication & Service Engineer (Mobile & Grease Rack); Slip Form Pumps

GROUP 5: Air Compressor Operator (two or more Compressors); Batch Operator (Asphalt Plant); Motorman; Pavement Breaker Operator (Esnco & similar type); Signalman; Shuttlecar; Small Rubber Tired Tractors; Small Self-propelled Pneumatic Rollers; Towermobile Operator; Welding Machine (2 or more)

GROUP 6: A-Frame Truck & Tugger Hoist; Concrete Saws (self-propelled unit on streets, highways, airports and canals), Engineer, Locomotive; Fork lift (construction job site); Kolman Loader (and similar); Maginnis Internal Full Slab Vibrator (on airports, highways, canals and warehouses); Mixermobile Operator; Pipe Bending Machine Operator; Pipe Cleaning Machine; Pipe Wrapping Machine; Road Mixing Machine Operator; Ross Carrier, or similar type; Small Rubber Tired Tractor (with attachments, including backhoe); Small Tractor with Boom; Surface Heater (self-propelled); Loader Operator (over 1 c.y. up to and including 2 c.y. struck MRC); Power Jumbo Operator (setting slip forms, etc. in tunnels); Small Rubber Tired Trenching Machine

GROUP 7: Bridge Crane; Chip Box Spreader (Flaherty type and similar); Concrete Mixer Operator (paving or batch plant); Dock Engineers (Marine); Drilling Machine Operator (well or diamond); Dual Drum Mixers; Elevating Grader Oper.; Fuller Kenyon Pump and similar types; Heavy Duty Rotary Drill Rigs (such as quarry master, joy drills or equal; Hoist Operator - 2 drums; Instrument Man; Mechanical Finisher Operator (Asphalt or concrete); Mine or Shaft Hoist; Pavement Breaker (Pavement Breaker with compressor combination); Pavement Breaker, Truck mounted, compressor combination; Refrigeration Plant; Self-propelled Pipeline, Wrapping Machine Perault, CRC, or similar types); Slusher Operator; Tractor Operator (Sheep's foot and compacting equipment); Trenching Machine; Tractor-Compressor Drill Combination; No-Joint Pipe Laying Machine; Lull High Lift (40 ft. or similar); Roller Operator or self-propelled compactor

POWER EQUIPMENT OPERATORS (Cont'd)

GROUP 7A: Side Boom Operator; Asphalt Plant Engineer; Engineer Crushing Plant; Tractor Operator (Bulldozer, Scraper or drag-type shovel or boom attachment) (up to and including D-7 or similar)

GROUP 8: Do-Mor Loader and Adams Elegrader; Euclid Loader and similar types; Chicago Boom (including Stiff Leg and Sheer Pole); Chief of Party; Combination Slusher and Motor Operator; Concrete Batch Plant . Multiple unit); Koehring Skooper (or similar, up to 5 c.y. Struck MRC); Loader Operator over 2 c.y. up to and including 5 c.y. Struck MRC; Mucking Machine Operator; Saurman Type Dragline (under 5 c.y. Struck MRC); Self-propelled Elevating Grade Plane; Soil Stabilizer (P & H or equal); Subgrader (automatic subgrader - fine - grader); Self-propelled Boom Type lifting device; Mechanical Trench Shield; Rubber Tired Scraper (under 35 c.y. Struck MRC); Tri-Batch Paver; Tunnel (Mole or similar)

GROUP 8A: Heavy Duty Repairman or Welder; Tractor Operator Bulldozer, Scraper or Drag Type Shovel or Boom Attachment Larger than D-7 or similar

GROUP 9: Combination Mixer & Compressor (Gunnite); Highline Cableway Signalman; Motor Patrol; Tower Crane (Linden type or similar designs and capacity) (in the erection, dismantling and moving of equipment there shall be additional Operator Engineer)

GROUP 10: Highline Cableway Operator (Signalman required); Lift Slab Machine (Vagtborg and similar types); Locomotive (over 100 tons) (single or multiple units); Pre-Stress wire Wrapping Machine; Saurman type dragline (5 c.y. Struck MRC and over; Tractor Tandem Scrapers; DW 10, 20 etc. (Tandem Scraper); Universal Equipment Operator (shovel, backhoe, dragline, derrick, derrick barge, clamshell crane, gradeall, etc. (up to and including 5 c.y.) Struck MRC; Loader (over 5 c.y. up to and including 12 c.y. Struck MRC)

GROUP 11: Automatic Concrete Slip Form Paver (Gradesetter, Screedman); Koehring Skooper (or similar) (5 cu. yds. and over Struck MRC); Multiple Propulsion Power Unit Earth Movers (up to and including 75 c.y. Struck MRC); Remote Controlled Cranes and Derricks; Power Equipment with shovel-type controls (over 5 cu. yds. up to and including 7 cu. yds. Struck MRC; Rubber Tired Scraper (35 cu. yds. and over Struck MRC); Self-propelled Compactor (with multiple propulsion power units); Slip Form Paver (Concrete or asphalt) (1 operator and 2 screedmen when required); Tandem Tractors, Tower Cranes Mobile

GROUP 11A: Multi-Purpose Earth Moving Machines (two (2) or more scrapers (over 75 c.y. Struck MRC); Power Shovels and Draglines (over 7 c.y. Struck MRC; Loader over 12 c.y. Struck MRC)

GROUP 11B: Operator of Helicopter (when used in erection work)

POWER EQUIPMENT OPERATORS
(Piledriving)****

Group 1-A: Assistant to Engineer (Fireman, Oiler, Deckhand)

Group 1-B: Compressor Operator (electrically, gas or diesel powered, etc.)

Group 1-C: Truck Crane Oiler

Group 2-A: Operator of Tugger Hoist (hoisting materials only)

Group 2-B: Compressor Operator (2 to 6) (electrically, gas or diesel powered); Generator Op. (electrically, gas or diesel driven, 100 KW; Pump Operator (2 to 6); Welding Machine Operator (2 to 6) (gas or diesel powered)

Group 3: "A" Frames; Deck Engineer; Fork Lift Operator; Self-propelled Boom Type Lifting Device

Group 3-A: Heavy Duty Repairman and/or welder

Group 4: Operating Engineer in lieu of assistant to engineer tending boiler or compressor attached to crane piledriver; Operator of Pile-driving Rigs, Skid or Floating and Derrick Barges; Operator of Diesel or gasoline powered Crane Piledriver (w/o boiler) up to and including 1 cubic yard rating; Truck Crane Operator (up to and including 25 tons) (hoisting material only) (Assistant to engineer required) (not driving piles)

Group 5: Operator of diesel or gasoline powered Crane Piledriver (w/o boiler) over 1 cu. yd. rating; Operator of Crane (w/steam flash boiler, pump or compressor attached); Operator of steam powered crawler or universal type driver (Raymond or similar type); Truck Crane Op.) over 25 tons); (Hoisting material or performing Piledriving work)

POWER EQUIPMENT OPERATORS
(Steel Erection)*****

Group 1: Assistant to Engineer (Oiler)

Group 2: Assistant to Engineer (Truck Crane Oiler); Compressor; Generator, gasoline or diesel driver (100 KW)

Group 3: Compressors, Generators and/or Welding Machines or Combination (2 to 6); Deck Engineer; Instrument Man; Signalman (using mechanical equipment); Fork Lift

Group 4: Heavy Duty Repairman; Tractor Operator

Group 4-A: Combination Heavy Duty Repairman; Welder

POWER EQUIPMENT OPERATORS (Cont'd)
(Steel Erection)

Group 5: "A" Frame or Boom Truck; Boom Cat; Chicago Boom; Crawler Cranes and Truck Cranes (15 tons MRC or less) Self-propelled Boom Type Lifting Device; Single Drum Hoist; Chief of Party

Group 6: Crawler Cranes and Truck Cranes (over 15 tons MRC); Derricks (2 operators required when swing engine remote from hoist); Universal Liebher and Tower Cranes (and similar types) (In the erection, dismantling and moving of equipment, there shall be an additional operating engineer); Two or more Drum Hoists; Highline Cableway; Tower Cranes

Power Equipment Operators and Truck Drivers

AREA 1: All areas included in the description defined below which is based upon township and range-lines as referenced to the Salt Lake City Base and Meridian:

Commencing at the intersection of the Utah-Nevada border and the northerly line of township 36S, thence easterly along the northerly lines of township 36S to the northeast corner of township 36S, range 17W;
Thence northerly to the N.W. corner of township 35S, range 16W;
Thence easterly to the N.E. corner of township 35S, range 16W;
Thence northerly to the N.W. corner of township 31S, range 15W;
Thence easterly to the N.E. corner of township 31S, range 15W;
Thence northerly to the N.W. corner of township 26S, range 14W;
Thence easterly to the N.E. corner of township 26S, range 14W;
Thence northerly to the N.W. corner of township 25S, range 13W;
Thence easterly to the N.E. corner of township 25S, range 13W;
Thence northerly to the N.W. corner of township 24S, range 12W;
Thence easterly to the N.E. corner of township 24S, range 12W;
Thence northerly to the N.W. corner of township 19S, range 11W;
Thence easterly to the N.E. corner of township 19S, range 11W;
Thence northerly to the N.W. corner of township 17S, range 10W;
Thence easterly to the N.E. corner of township 17S, range 10W;
Thence northerly to the N.W. corner of township 16S, range 9W;
Thence easterly to the N.E. corner of township 16S, range 9W;
Thence northerly to the N.W. corner of township 15S, range 8W;
Thence easterly to the N.E. corner of township 15S, range 8W;
Thence northerly to the S.W. corner of township 7S, range 7W;
Thence westerly to the S.W. corner of township 7S, range 10W;
Thence northerly crossing the Salt Lake Base Line to the N.W. corner of township 6N, range 10W;
Thence easterly to the N.W. corner of township 6N, range 8W;
Thence northerly to the N.W. corner of township 12N, range 8W;
Thence easterly to the N.E. corner of township 12N, range 8W;
Thence northerly along the westerly line of range 7W to the Utah-Idaho Border
Thence easterly along the Utah-Idaho Border crossing the Salt Lake Meridian to the intersection of the Utah-Idaho-Wyoming Borders
Thence southerly along the Utah-Wyoming Border
Thence easterly along the Utah-Wyoming Border to the easterly line of range 11E;
Thence southerly along the east line of range 11E, crossing the Salt Lake Base Line to the N.E. corner of township 4S, range 11E;
Thence easterly to the N.W. corner of township 4S, range 18E;
Thence northerly to the N.W. corner of township 1S, range 18E;
Thence easterly along the Salt Lake Base Line to the N.E. corner of township 1S, range 24E;
Thence southerly to the N.E. corner of township 3S, range 24E;
Thence easterly along the northern line of township 3S to the Utah-Colorado border;
Thence southerly along the Utah-Colorado Border, to the southerly line of township 6S;
Thence westerly to the N.E. corner of township 7S, range 23E;
Thence southerly to the S.E. corner of township 7S, range 23E;
Thence westerly to the S.W. corner of township 7S, range 20E;

Power Equipment Operators and Truck Drivers

AREA 1: (Cont'd)

LABORERS (AREA 1)

All Counties and portions of Counties East of the 120th Meridian

Group 1: Brush Hog Feeder; Carpenter Tender; Concrete Crewman (to include stripping of forms, hand operating jacks on slip form construction, application of concrete curing compounds, pumpcrete machine, handling the nozzle of squeezecrete or similar machine - 6" and smaller); Concrete Signalman; Crusher Feeder; Demolition (to include clean-up, burning, loading, wrecking and salvage of all material); Driller Helper; Dumpman; Fence Erector (to include guard rails, guide and reference posts, sign posts, and right of way markers); General Laborer; Grout Machine Header Tender; Nipper; Riprap Man; Scaleman; Snake Jumper; Structural Mover (to include separating foundation preparation, cribbing, shoring, jacking and unloading of structure); Tailhoseman (water nozzle); Track Laborer (RR); Truck Loader; Timber, Bucker and Faller (by hand); Window Cleaner (prior to completion of construction)

Group 2: Cement Finisher Tender; Cement Handler; Demolition Torch; Dope Pot Fireman, non-mechanical; Form Cleaning Machine - Feeder, Stacker; Form Setter, paving; Driller Helper (when required to move position machine); Nozzleman, water and air or steam; Pipe Layer, corrugated metal culvert; Pipewrapper; Pot Tender; Powderman Helper; Power Tool Operator, gas, electric, pneumatic; Sandblast Tailhoseman, Scaffold Erector, wood or steel; Railroad Equipment, power driven, except dual mobile power spiker or puller; Rodder and Spreader; Wheelbarrow, power driven; Well-point Man; Vibrator up to 4"

Group 3: Asphalt Raker; Asphalt Roller, walking; Chain Saw Operator with attachments; Concrete Saw walking; Grade Checker, using level; Jackhammer Operator; Multi-section Pipe Layer; Nozzleman (to include squeeze and flocrete nozzle); Pavement Breaker; Power Buggy Operator; Railroad Power Spiker or Puller, dual mobile; Tamper (to include operation of Barco, Essex and similar tamper and pavement breakers); Trencher; Shawnee; Water Pipe Liner; Wagon Drills

Group 4: Chain Saw (faller); Laser Beam Operator; Pipe Layer (Caulker, Collarman, Jointer, Mortarman, Rigger, Jacker, Shorer and Lagger but not including laying corrugated metal culvert pipe)

Group 5: Concrete Stack; Mortar Mixer

Group 6: Caisson Worker, free air; High Scaler

LABORERS (AREA 1) (Cont'd)

All Counties and portions of Counties East of the 120th Meridian

Group 7: Brush Machine (to include horizontal construction joint clean-up brush machine, power propelled); Drills (to include down-the-hole drills with 3" inch piston or larger and out-of-the-hole drills with 4! inch piston or larger); Gunnite (to include operation of machine and nozzle); Hod Carrier; Monitor Operator, air track or similar mounting; Nozzleman (to include jet blasting nozzleman over 1200 pounds, jet blast machine power propelled, sand blast nozzle); Vibrator, 4 inches and over

Group 8: Air Track Drills with Dual Masts and Drills; Powderman

Group 9: Tunnel and Shaft, Free Air
Class A: Bull Gang, Pump Crete Crewman including distributing pipe, assembling and dismantle and nipper
Class B: Brakeman, Dumpman
Class C: Miner and Nozzleman for concrete and laser beam operator on tunnels
Class D: Raise and Shaft Miner and Laser Beam Operator on raises and shafts

LABORERS (AREA 2)

All Counties West of the 120th Meridian (except those enumerated in Areas 3 and 4) and including the Northern portion of Pacific County

Group 1: General Laborer; Nipper; Truck Spotter; Pitman; Brush Cutter; Choke Setter; Concrete and Monolithic Laborer; Pot Tender; Asphalt Laborer; Ditch Digger; Drierman; Concrete Form Stripper; Carpenter Helper; Track Laborer; Wellpoint; Header Laborer and Guardrail Erector

Group 2: Dumpman; Faller and Bucker; hand; Powderman's Helper; Sloper (over 20'); Wagon Driller and Air Trac Helper

Group 3: Groutman (preasure) including post tension beam; Power Tools (light duty) Chippers, Grinders, Tampers, and similar electric and air operated tools; Swinging Scaffold or Boatswain Chair over water or over 25' in height; Topman

Group 4: Concrete Saw Operator; Pipe Pot Tender; Power Wheel Barrow or Buggy; Power Tools (heavy duty); Jackhammer, Pavement Breaker, Vib-Vibrators, Tampers (multiple and self-propelled); Railroad spike puller; Rakers-asphalt

LABORERS (AREA 2) (Cont'd)

All Counties West of the 120th Meridian (except those enumerated in Areas 3 and 4) and including the Northern portion of Pacific County

Group 5: Form Setter (steel forms); Grademan and Stake Hopper; Rodder; Nozzleman (concrete pump, green cutter when using combination of high presaure air and water on concrete and rock, sandblast, gunnite, shot-crete); Spreader (carrier grade with Rodder)

Group 6: Faller and Bucker; Chain Saw; High Scaler; Mortarman and Hod Carrier; Pipe Layer and Caulker; Pipe Wrapper; Timberman - sewer; Wagon Driller and Air Track; Manhole Builder; Laser Beam Operator

Group 7: Cement Dumper - paving; Powderman

TUNNEL WORK

Group 8: Topman and Bull Gang

Group 9: Chuck Tender; Mucker and Laborer; Nipper; Brakeman

Group 10: Powderman's Helper

Group 11: Miner (including monolithic work); Spader; Re-timberman; Maintenance Man; Laser Beam Operator

Group 12: Miner, Shaft and Raise

Group 13: Powderman

LABORERS (AREA 3)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 1: Asphalt Plant Laborers; Asphalt Spreaders; Batch Weighman; Broomers; Brusher Burners and Cutter; Car and Truck Loaders; Carpenter Tender; Change-house man or Dry Shack Men; Choker Setters; Clean Up Laborers; Concrete Laborers; Crusher Feeders; Culvert, hand labor; Curing, concrete; Demolition, Wrecking, and Moving Laborers; Driller Helpers; Dumpers, road oiling crew; Dumpmen (for grading crew); Elevator Feeders; Fence Builder (including guard rail, median rail, reference post, guide post, right-of-way marker); Fine Graders; Form Strippers (not swinging stages); General Laborers; Landscaping or Planting Laborers; Leverman on aggregate spreader (Flaherty and similar types); Loading Spotters; Material yard man (including electrical); Pittsburgh Chipper Operator or similar types; Powderman Helper; Railroad Track Laborers; Ribbon Setters (including steel forms); Rip Rap Man (hand placed); Road Pump Tender; Sewer Labor; Skipmen; Signalmen; Slopers, Spraymen; Stake Chaser-Stake Setter-Grade Checker; Stockpiler; Timber Faller and Bucker (hand labor); Toolroom Man (at job site); Tunnel Bull Gang (above ground); Weightman-Crusher (aggregate when used)

LABORERS (AREA 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 2: Applicator (including pot tender for same); applying protective material by hand or nozzle on utility lines or storage tanks on project; Burners; Choker Splicer; Clary Power Spreader and similar types; Clean-up Nozzleman - Greencutter (concrete rock, etc.): Concrete Power Buggy-man; Demolition and wrecking charred materials; Gunite Nozzleman Tender; Gunite or Sand Blasting Pot Tender; Handlers or mixers of all materials of an irritating natufe (including cement and lime); Manhole Builders; Power Tool Operator, includes but not limited to: Chipping Guns, Dry Pack Machine, Jackhammer, Paving Breakers, Post Hole Digger, (air, gas, or electric); Tampers, Vibrating Screed, Vibrators (less than 4" in diameter); Ribbon Setter, head; Rip Rap Man (head), hand olaced; Sand Blasting (wet); Sewer Timbermen; Timber Buckers and Fallers, Brush Cutters (power saw); Tunnel - Muckers, Brakemen, Concrete Crew, Bull Gang (under - ground)

Group 3: Asphalt Rakers; Bit Grinder ; Concrete Saw Operator; Drill Doctor; Drill Operators, Air Tracks, Cat Drills, Wagon Drills, Rubber-mounted Drills and other similar types; Gunite Nozzleman; High Scalers, Strippers and Drills (covers work in swinging stages, chairs, or belts, under extreme conditions unusual to normal drilling, blasting, barring-down or aloping and stripping); Powdermen; Power Saw Operators (bucking and falling merchantable logs); Pumpcrete Nozzlemen; Sandblasting (dry); Sewer Pipe Layers; Track Liners, Anchor Machines, Ballast Regulators, Multiple Tampers, Power Jacks; Tugger Operator, Tunnel-Chuck Tenders, Nippers and Timbermen; Vibrators (4" and larger); Water Blaster, Welder; Laser Beam (pipe Laying)

Group 4: Tunnel Miners; Tunnel Powderman; Laser Beam (Tunnel)

LABORERS (AREA 4)

Those portions of Chelan, Douglas, Kittitas, Okanogan and Yakima Counties West of the 120th Meridian

Group 1: General Laborer; Carpenter Tender; Form Stripper; Track Laborer; Choker Setter; Fence Laborer

Group 2: Air Track and Wagon Drill Helper; Crusher Feeder; Dumpman; Powderman Helper; Sloper, over 20 feet, Faller and Bucker, hand

Group 3: Drill Chipper; Grinder, Tampers and similar light power tools; Faller and Bucker (hand); Grout Man (power); Top Man, Swinging Scaffold or Boatswain Chair over water or over 25' in height

Group 4: Asphalt Raker and Spreader; Cement Handler, cask or bulk; Dope Pot Tender; House Wreckers; Jackhammer; Pavement Breaker; Vibrator; Track Spike Puller; Concrete Saw and similar heavy power tools; Power Buggy Tampers (multiple and self-propelled)

LABORERS (AREA 4) (Cont'd)

Those portions of Chelan, Douglas, Kittitas, Okanogan and Yakima Counties West of the 120th Meridian

Group 5: Form Setter, Steel Forms; Grademan, Stake Hopper; Spreader, Rodder, Nozzleman: Concrete Pumps, Gunnite, Sand Blast, Shot-crete, Green Cutter when using combination of high pressure air and water on concrete and rock

Group 6: Air Track and Wagon Drill Operator; High Scaler; Pipe Layer and Caulker; Pipe Wrapper; Timber Man; Mortar Man and Hod Carrier; Faller and Bucker; Chain Saw

Group 7: Cement Dumpers - Paving

Group 8: Tunnel Work:
Class A: Topman and Bull Gang
Class B: Chuck Tender; Mucker and Laborer; Nipper; Brakemen
Class C: Powderman Helper
Class D: Miner (including Monolithic Worker); Re-Timberman; Maintenance Man; Spader, Laser Beam Operator
Class E: Miner; Shaft and Raise
Class F: Powderman

POWER EQUIPMENT OPERATORS (AREA 1)

All Counties and portions of Counties East of the 120th Meridian

Group 1: Bit Grinders; Bolt Threading Machine; Compressors, under 2,000 cu. ft. per minute gas, diesel or electric power; Crusher Feeder (mechanical); Deckhand; Drillers' Helper; Fireman and Heater Tender; Grade Checker; Helper (mechanic or welder, H.D.); Oiler; Oiler and Cable Tender, Mucking Machine; Pumpman; Rollers, all types on subgrade (farm type, Case, John Deere and similar - or compacting or vibrator) except when pulled by dozer with operable blade; Steam Cleaner; Welding Machine

Group 2: A-Frame Truck (single-drum); Assistant Refrigeration Plant (under 1,000 tons); Assistant Plant Operator, Fireman or Pugmixer (asphalt); Bagley or Stationary Scraper; Batch Plant and Wet Mix Operator, single unit (concrete); Belt Finishing Machine; Bending Machine (pipeline); Blower Operator (cement); Cement Hog; Compressor (2,000 cu. ft. or over, 2 or more-gas, deisel or electric power); Concrete Saw (multiple cut); Distributor Leverman; Elevator Hoisting Materials; Dope Pots (power agitated); Fork Lift or Lumber Stacker, Hydra-lift and similar; Gin Trucks (pipeline); Hoist, single drums; Loader (bucker elevator and conveyors); Longitudinal Float; Mixer (portable-concrete); Pavement Breaker (hydra-hammer and similar); Post Hole Auger or Punch; Power Broom; Railroad Ballast Regulation Operator, (self-propelled); Railroad Power Tamper Operator (self-porpelled); Railroad Power Tamper Jack Operator (self-propelled); Spray Curing Machine (concrete); Spreader Jack Operator (self-propelled); Straddle Buggy (Ross and similar on construction job site); Tractor-(farm type R/T with attachments except backhoe); Tugger Operator; Ditch Witch or similar

POWER EQUIPMENT OPERATORS (AREA 1) (Cont'd)
All Counties and portions of Counties East of the 120th Meridian

Group 3: A-Frame Truck (2 or more drums); Assistant Refrigeration Plant and Chiller Operator (over 1,000 tons); Backfillers (Cleveland and similar); Belt-crete Conveyors with power pack or similar; Belt Loader (Kocal or similar); Blade Operator (motor patrol and attachments); Boat Operators; Boom Cats (side); Boring Machine (earth); Boring Machine (rock under 8" bit)(Quarry Master, Joy or similar); Bump Cutter (Wayne, Saginaw or similar); Canal Linning Machine (concrete); Chipper (without crane); Cleaning and Doping Machine (pipeline); Concrete Pumps (squeeze-crete, flow-crete, pump-crete, Whitman and similar); Drills (Churn, Core, Calyx or Diamond); Elevating Belt-type Loader (Euclid, Barber Green, or similar); Elevating Grader-type Loader (Dumor, Adams, or similar); Equipment Serviceman, Greaser and Oiler; Generator Plant Engineers (diesel, electric); Gunite Combination Mixer and Compressor; Hoist, (2 or more drums or tower hoist); Loader (overhead and front-end under 4 yards, R/T); Locomotive Engineer; Mixermobile; Mucking Machines; Paver or Curb Extruder (asphalt and concrete); Pump (grout or jet); Rollerman (finishing Pavement); Rubber-tired Scraper (one motor with one scraper, under 40 yards); Screed Operator; Soil Stabilizer (P & H or similar); Spreader Machine; Tractor (Crawler, including dozer, scraper, drills, booms, rollers, etc.); Traverse Finishing Machine; Trenching Machines (under 7 feet depth capacity); Turnhead Operator; Vacuum Drill (reverse circulation drill, under 8")

Group 4: Asphalt Plant Operator; Crusher, Grizzle and Screening Plant Operator; H.D. Mechanic; H.D. Welder; Refrigeration Plant Engineer (under 1,000 ton); Rubber-tired Scraper, Multi-engine Power, with one scraper (Euclid, TS-24 and similar); Rubber-tired Scrapers, one motor with one scraper (40 yards and over); Surface Heater and Planer Machine; Turnhead (with re-screening)

Group 5: Automatic Subgrader (ditches and trimmers) (Autograde, ABC, R.A. Hansen and similar on grade wire); Backhoes (under 3 yards); Batch and Wet Mix Operator - multiple units (2 and including 4); Chipper (with crane); Clamshell Operator (under 3 yards); Concrete Slip Form Paver; Cranes all (under 3 yards); Drilling Equipment (8" bit and over)(Robbin's reverse circulation and similar); Loader Operator (front end and overhead 4 yards to 8 yards); Piledriving Engineers; Paver (dual drum); Quad-track or similar equipment; Railroad Track Liner Operator (self-propelled); Rubber-tired Scrapers, multi-engine, power with one scraper (Euclid, TS-24 and similar), Push Pull or Help Mate in use; Rubber-tired Scrapers, multiple engines with tow scrapers; Shovels (under 3 yards); Refrigeration Plant Engineer (1,000 tons and over); Signalmen (Whirleys, Highline Hammerheads or similar); Trenching Machines (7 feet depth and over); Multiple Dozer units with single blade

POWER EQUIPMENT OPERATORS (AREA 1) (Cont'd)
All Counties and portions of Counties East of the 120th Meridian

Group 6: Backhoes (3 yards and over); Batch Plant (over 4 units); Cableway Controller - Dispatcher; Cableway Operator; Clamshell Operator (3 yards and over); Cranes, all - 65 tons and over; Derricks and Stifflegs (65 tons and over); Draglines (3 yards and over); Elevating Belt (Holland type); Loader (360 degrees revolving Koehring Scooper or similar); Loaders (overhead and front-end over 8 to 12 yards); Rubber-tired Scrapers (multiple engine with three or more scrapers); Shovels (3 yards and over); Tower Crane; Whirleys and Hammerheads (all)

Group 7: Helicopter Pilot; Loaders (overhead and front-end - over 12 yards)

POWER EQUIPMENT OPERATORS (AREA 2)
All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 1: Mechanics' Helpers (Heavy Duty)

Group 2: Oilers, Grade Checkers and Stakemen and/or Brakemen

Group 3: Firemen; Firemen (drier and hot plant)

Group 4: Rollers, Tampers and Vibrators (other than plant, road mix or multi-lift materials); Tractor (farmall type, 60 h.p. and under); Compressor (excavating and general purposes)

Group 5: Oiler Driver on Truck Cranes (over 45 tons up to 100)

Group 6: Blower Distributors and Mulch Seeding Operator; Oil Distributors

Group 7: Locomotives (Dinkey-air, diesel, electric, gas, steam)

Group 8: Equipment Service Oiler; Oiler Driver on Trucks Cranes (100 tons and over)

Group 9: Pump (water); Tractors (Farmall type, over 60 h.p)

Group 10: Post Hole Diggers (mechanical)

Group 11: Brooms (power, Wayne, Saginaw, and similar types); Bulldozers (under D9 or similar); Loaders (Fork Lifts or Lumber Stacker - on construction job site - Drot Travel Lift); Rollers, Tampers and Vibrators (twin engine); Saw (concrete); Scrapers (carry-all type, single)

POWER EQUIPMENT OPERATORS (AREA 2) (Cont'd)
All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 12: Batch Plant (batch and mixer, 200 yards per hour and under); Cranes ("A" Frame Trucks, single power drum); Conveyors; Crusher (rock); Washing and Screening Plants; Finishing Machine Operator, Concrete Paving; Hoists, Air Tuggers, Strato Tower Bucket, Elevators and Deck Winches (power); Loaders (Elevating-Athey, Barber Greene, and similar types, and overhead and front-end, under 2½ yards); Mixers (asphalt up to 4 tons per batch, and concrete mixer and batch - 200 yards per hour and under); Power Plant Operators; Pumps (Fuller Kenyon, and Concrete and pump crete); Rollers, Tampers and Vibrators (on plant, road mix or multi-lifts materials); Screed man; Spreaders (Blaw Knox, Cedarpids, Jaeger, Flarrety or similar types); Trenching Machine (under 16 inches)

Group 13: Mechanics or Welder (heavy duty)

Group 14: Motor Patrol Graders (including Model 14 and similar); Tournapulls, Caterpillar, Euclid Scrapers, and similar type equipment (25 yards and under)

Group 15: Compressor (steel erection including sandblasting, painting of the same); Hoists on steel erection, Air Tuggers and Towermobiles; Loaders (fork lifts with tower)

Group 16: Cement Hogs; Loaders (Elevating Grader type, Dumor and similar); Locomotive (geared or rod engine); Mixers (paving); Scraper (carryall type, double)

Group 17: Tractors (Farmall type, used as Backhoes, Rubber-tired, Ford, Ferguson, Case, and similar type 60 h.p. and under)

Group 18: Dull Dozer (D-9 or similar)

Group 19: Trenching Machines (16 inches and over)

Group 20: Bump Cutter (Concut, Christianson or similar types)

Group 21: Batch Plant (batch and mixer, over 200 yards per hour through 400 yards per hour); Conveyors (Beltcrete with power pack and similar types); Loaders (elevating belt type - Euclid and similar types); Mixer (asphalt, 4 tons and over, per batch, and concrete mixers and batch - over 200 yards per hour through 400 yards per hour, and paving dual)

POWER EQUIPMENT OPERATORS (AREA 2) (Cont'd)
All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 22: Bulldozer engaged in Yo Yo Operation (while clearing and scaling); Cableways (3 yards and under); Cranes ("A" frame trucks, double power drum: and Crawler, truck type, floating, Locomotive, Whirley, either 3 yards and under, or 150' of boom including jibs and under, or 45 tons and under: and Hydralifts, Hyster Cat Cranes and attachments and Chipper, wood with boom attachment); Derricks, all; Drilling Machine (core, cable rotary and exploration); Loaders (fork lift with power boom and swing attachment, and overhead and front end, 2½ yards and up to 4 yards); Mixers (mobile type with hoist combination); Motor Patrol Graders (over Model 14 and similar); Mucking Machines (mole, tunnel drill, and/or shield); Paydozer and Linker Pusher (Quad-9 and similar); Piledriver Engineer, (L.B. Foster Puller or similar, Pawing Breaker); Shovels (Crawler and truck types, all attachments, 3 yards and under); Sub Grader (Gurries, CMI and similar types); Tractors (Farmall type, used as backhoes, rubber tired - Ford, Ferguson, Case and similar types - over 60 h.p.); Tournapulls, Caterpillar, Euclid Scrapers and similar type equipment - over 25 yards through 40 yards

Group 23: Loaders (overhead and front end, 4 yards up to 8 yards)

Group 24: Mixer (concrete mixers and batch over 400 yards per hour through 600 yards per hour)

Group 25: Tournapulls, Caterpillar, Euclid, Scarpers and similar type (over 40 yards through 55 yards)

Group 26: Cableways (over 3 yards); Cranes (Crawler, truck type, floating, Locomotive, Whirley, either over 3 yards, or over 150' of boom including jibs or over 45 tons up to 100 tons: and, Tower Cranes, Pecco, Lorraine, Bucyrus and similar types); Helicopter Winch Operator; Remote Control Operator on Rubber-tired Earth Moving Equipment; Shovels (Crawler and truck type, all attachments, over 3 yards up to 6 yards); Slip Form Paver (Zimmerman, CMI and similar types)

Group 27: Tournapulls, Caterpillar, Euclid, Scrapers, and similar type equipment (over 55 yards through 70 yards)

Group 28: Loaders (overhead and front end 8 yards and over)

Group 29: Tournapulls, Caterpillar, Euclid, Scrapers and similar type equipment (over 70 yards through 85 yards)

POWER EQUIPMENT OPERATORS (AREA 2) (Cont'd)

All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 30: Cranes (Crawler, Truck type, Floating, Locomotive, Whirley, either 5 yards and over, 200' of boom including jibs and over, or 100 tons and over); Shovel (Crawler and Truck type, all attachments, 6 yards and over)

Group 31: Tournapulls, Caterpillar, Euclid, Scrapers and similar type equipment (over 85 yards through 100 yards)

POWER EQUIPMENT OPERATORS (AREA 3)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 1: Assistant Conveyor Operator; Crusher Feederman; Oilers (including asphalt and concrete plant, crane, crusher, guardrail equipment - including punch, shovel, dragline, clamshell backhoe, skooper, railroad equipment, and trenching machine); Parts Man (tool room); Pump (under 4 inches); Railroad Equipment (Brakeman and Switch Man); Self-propelled Scaffolding Operator (on job site)

Group 2: Auger Oiler; Blade Operator (pulled type); Combination Guardrail Machines Oiler; Crane (Truck crane oiler - driver 25 ton capacity or over; and Fireman, all equipment: and A-Frame Truck, single drum: and Tugger or Coffin type Hoist); Drill Helper; Floating Equipment Boatman; Fork Lift or Lumber Stacker Operator (on construction job site); Grade Checker; Grade Oiler (required to check grade); Helicopter Radioman (ground); Repairman Helper (H.D.); Roller Operator (grading of base rock - not asphalt); Shovel Fireman; Tar Pot Fireman (including power agitated); Temporary Heating Plant Operator

Group 3: Asphalt (including plant fireman, pugmill operator - any type, and truck mounted asphalt spreader, with screed); Broom Operator (self-propelled - on construction job site); Compressor Operator (any power - under 1,250 cu. ft. total capacity); Concrete (including Conveyor Operator, Mixer Box - CTB, Dry Batch, etc., Cement Hog, Concrete Saw, Concrete curing machine - riding type, and Wire mat or Brooming machine operator); Fork Lift (Ross Carrier, on construction job site); Hydraulic Pipe Press Operator; Loader (Bucket elevator, Barber-Greene and similar type); Pump, (any power - 4 inches and over, and Hydrostatic pump); Railroad Equipment (Motorman and Ballast Jack Tamper); Seeder Machine - Hydrographic (straw, pulp, or seed); Signalman (Bell Boy, phone, etc.); Tamping Machine (Mechanical, self-propelled); Tunnel (Conveyor operator - any type, and air filtration equipment)

POWER EQUIPMENT OPERATORS (AREA 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 4: Asphalt Screed Operator; Compactor (self-propelled - including Vibratory); Compressor (any power - over 1,250 cu. ft. total capacity); Concrete (Combination mixer and Compressor operator, Gunite work); Concrete Screed Operator; Concrete Mixer (single drum under five bag capacity); Floating Equipment Fireman; Fork Lift (over 5 tons); Helicopter Hoist Operator; Hydra Hammer or similar; Locomotive (under 40 tons); Lull Hi-lift Operator; Oiler (service, greaser); Pavement Breaker; Pump (more than 4 - any size); Roller (oiling, CTB)

Group 5: Asphalt Extrusion Machine; Chip Spreading Machine; Compactor (Wagner Pactor or similar type - without blade); Concrete Batch Plant quality control; Concrete (Power Jumbo Operator - Setting Slip Forms etc., in tunnels); Concrete (Slip Form Pumps - power driven Hydraulic Lifting Device for concrete forms); Crane (Hoist - single drum and Elevator Operator); Lime Spreading Machine; Pulva Mixer (or similar type); Sweeper (Wayne type - self-propelled, on construction job site); Tractor Operator (Rubber-tired 50 h.p. flywheel and under); Trenching Machine (maximum digging capacity 3 feet depth)

Group 6: Asphalt Paver; Asphalt Burner and Reconditioner (any type); Concrete Pavement Grinder and/or Grooving Machine Operator (riding type); Concrete (Cast-in-place Pipe Laying Machine and Maginnis Internal Full Slab Vibrator Operator); Concrete Finishing Machine (Clary, Johnson, Bidwell, Burgess Bridge Deck or similar type); Concrete Curb Machine (mechanical berm, curb and/or gutter); Concrete Joint Machine; Concrete Planer; Concrete Paving Machine; Concrete Finishing Machine; Concrete Spreader; Loaders (rubber-tired, 2½ cu. yards and under); Rock Spreaders, self-propelled

Group 7: Asphalt Plant Operator (any type); Asphalt Roller Operator (any mix); Beltcrete Operator; Concrete, Cement Pump (Fuller-Kenyon and similar); Concrete Grouting Machine; Concrete Mixer (single drum, five bag capacity and over); Crane (A-frame Truck double drum, and Boom Truck); Drill (Churn drill and Earth boring machine); Hydraulic Backhoe (wheel type 3/8 cu. yds. and under, with or without front end attachments 2½ cu. yds. and under - Ford, John Deere, Case type); Loader (Elevating Grader, tractor towed requiring operators on grader); Pot Rammer; Pumpcrete (any type); Railroad Equipment (Ballast regulator, Ballast Tamper multi-purpose, Track Liner, Tie Spacer, Shuttle Car, Locomotive - 40 ton and over)

Group 8: Concrete Batch Plant and/or Wet Mix Operator (one and two drum); Diesel - electric engineer (including asphalt plant, crusher, floating equipment generator, shovel, dragline, clamshell, backhoe, skooper, etc.); Generator Operator; Loader (belt loaders, Kolman and Ko Cal types)

POWER EQUIPMENT OPERATORS (AREA 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 9: Boring Machine; Bulldozer; Clearing Equipment (including Log Skidders, Chippers, Incinerators, and Stump Splitters); Compactor, with blade; Concrete Cooling Machine; Cranes (Chicago Boom and similar types, Lift Slab Machine, Boom type Lifting Device - 5 ton capacity or less, and Cherry Picker or similar type crane - Hoist - 5 ton capacity or less); Crusher Plant Operator; Drill Cat; Drill Doctor (including Bit Grinder); Grizzley Operator; Guardrail Punch Operator; Guardrail Auger Operator; Hammer Operator; Heater and Planer Operator (surface); Hydraulic Backhoe (track type 3/8 cu. yd.); Loader (front end and overhead - 2½ cu. yds. and under 4 cu. yds.); Machine Tool; Mechanic (H.D.); Pipe Cleaning Machine; Pipe Doping Machine; Pipe Bending Machine; Pipe Wrapping Machine; Side-boom Cats; Stationary Drag Scraper; Tractor (rubber-tired over 50 h.p. flywheel); Tractor (with boom attachment); Trenching Machine (maximum digging capacity over 3 feet depth)

Group 10: Barge Operator (self-unloading); Bulldozer (twin engine-TC 12 and similar); Cable-plow (any type); Compactor (multi-engine); Dozers and Pushers (rubber-tired-Michigan, Cat, Hough type); Driller (percussion, diamond, core, cable, rotary, and similar); Jack Operator (elevating barges)

Group 11: Concrete Mixer Mobile Operator; Concrete Breaker; Crane (25 ton and under); Grade-all (under 1 cu. yd.); Guardrail Machine Combination (i.e., Puncher, Auger, etc.); Mucking Machine (tunnel); Shovel, Dragline, Clamshell, Hoe, etc., under 1 cu. yd.

Group 12: Blade Operator; Concrete Batch Plant and/or Wet Mix (3 or more units); Hoist Operator (two or more drums); Loader (elevating - Athey and similar type); Piledrivet Operator (not crane type); Reinforced Tank Banding Machine (K-17 or similar); Scrapers (rubber-tired - single engine, single scraper: and Self-loading, Paddle wheel, Auger type: and Twin engine: and Scraper with push-pull attachments); Shield Operator (tunnel)

Group 13: Backfilling Machine; Blade Operator, finish; Blade Operator (externally controlled by electronic, mechanical hydraulic means); Blade Operator (multi-engine); Cableway (up to 25 tons); Concrete Paving Road Mixer; Crane (over 25 ton to and including 40 ton); Derrick (under 100 tons); Floating Equipment Piledriver; Floating Clamshell (under 3 cu. yds.); Floating Crane (derrick barge - less than 30 tons); Grade-all (1 cu. yd. and over); Hoist (Stiffleg, Guy Derrick or similar, 50 tons and over); Loader (Elevating grader - operated by tractor operator, Sierra, Euclid, or similar types); Shovel, Dragline, Clamshell, Hoe, etc., 1 cu. yd. and less than 3 cu. yds.)

POWER EQUIPMENT OPERATORS (AREA 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 14: Crane - tower; Scraper (rubber-tired self loading paddle wheel, Auger type, finish and/or 2 or more units); Scraper (rubber-tired with tandem scraper)

Group 15: Loader (4 cu. yds. but less than 6 cu. yds.); Rock Hound Operator

Group 16: Auto Grader or "Trimmer" Operator; Bulldozer (Tandem, Quadnine and similar type); Cableway (25 tons and over); Concrete Slip Form Paver (automatic); Concrete Canal Line Operator; Crane (over 40 tons and including 100 tons); Floating Clamshell (3 cu. yds. and over); Floating Crane (Derrick barge - 30 tons but less than 80 tons); Loader (6 cu. yds. but less than 12 cu. yds.); Scraper (rubber-tired, with Tandem Scrapers, multi-engine); Shovel, Dragline, Clamshell, Hoe, etc., 3 cu. yds. but less than 5 cu. yds.; Wheel Excavator (under 750 cu. yds. per hour); Whirley (80 tons and under)

Group 17: Canal Trimmer; Crane (over 100 tons to and including, 200 tons); Floating Crane (Derrick barge, 80 tons but less than 150 tons); Loader (12 cu. yds. and over); Shovel, Dragline, Clamshell, Hoe, etc., 5 cu. yds. and over; Whirley (over 80 tons to and including, 150 tons)

Group 18: Band Wagons (in conjunction with wheel excavator; Crane (over 200 tons); Floating Crane (150 tons but less than 250 tons); Wheel Excavator (over 705 cu. yds. per hour); Whirley (150 tons and over)

Group 19: Floating Crane (250 tons and over); Helicopter, when used in erecting work; Remote controlled earth-moving equipment; Underwater equipment (remote or otherwise)

POWER EQUIPMENT OPERATORS (AREAS 1 and 2)
(DREDGING)

Group Descriptions for Areas 1 and 2 covering Statewide Washington

Group 1: Assistant Mate (Deckhand)

Group 2: Fireman; Oiler

Group 3: Assistant Engineer (Electric, Diesel, Steam or Booster Pump); Mates and Boatmen

Group 4: Engineer Welder; Craneman

Group 5: Assistant Engineer (Electric Generator Operator for primary pump, power barge or dredge)

Group 6: Leverman, Hydraulic

Group 7: Leverman, Dipper:
(a) 5 yards and under
(b) Over 5 yards

POWER EQUIPMENT OPERATORS(AREA 3)
(DREDGING)

Group Descriptions for Area 3 Covering Statewide Washington

Group 1: Leverman, Hydraulic

Group 1A: Leverman, Dipper

Group 2: Assistant Engineer (including Watch Engineer, Welder, Mechenic, and Machinist) and Mate.

Group 3: Tenderman (Boatman, attending Dredge Plant); Fireman

Group 4: Assistant Mate (Deckhand); Oiler

TRUCK DRIVERS (AREA 1)

All Counties and portions of Counties East of the 120th Meridian (except those portions of Kittitas, Klickitat, and Yakima Counties)

Group 1: Flat Bed Truck, single rear axle; Escort Driver; Fish Truck; Fork Lift, 3,000 pounds and under; Fuel Truck Driver (Steam Cleaner and Washer); Helper and Swamper; Leverperson loading trucks at bunkers; Pick-up hauling material; Seeder and Mulcher; Stationary Fuel Operator; Team Driver; Tractor (small rubber tired pulling trailer or similar equipment); Water Tank Truck 1,800 gallons.

Group 2: Bus Driver or Employeehaul Driver; Flat bed truck, dual rear axle; Power Boat hauling employees or material; Tireperson No. 1; Warehouseperson

Group 3: Buggy Mobile and similar; Bulk Cement Tanker; Oil Tank Driver; Power Operated Sweeper; Semi-trailer, low bed, truck and trailer; Straddle Carrier (Ross Hyster and similar); Transit Mixers and trucks hauling concrete (3 yards and under); Trucks, side, end, and bottom dump (under 6 yds.); Water tank truck (1,801 - 4,000 gallons)

Group 4: Auto Crane - 2,000 pounds capacity; Bulk Cement Spreader; Dumptor (6 yards and under); Flaherty Spreader, Box Driver; Flat bed truck (using power take off); Fork lift (over 3,000 pounds); Oil Distributor Driver (road, bootperson, leverperson helper); Rubber-tired tunnel jumbo; Scissor truck; Slurry Truck Driver; Transit Mixers and trucks hauling concrete (over 3 yds. to 6 yds.); Water tank truck (4,001 - 6,000 gallons); Wrecker and Tow Trucks

Group 5: Low Boy (under 50 tons); Service Greaser; Tireperson No. 2; Truck, side, end, and bottom dump (over 6 yards to 12 yards)

Group 6: A-Frame (Swedish Crane, Iowa 3,000, Hydrolift); Water tank truck (over 6,001 - 8,000 gallons)

Group 7: Dumptor (over 6 yards); Transit Mixers and trucks hauling concrete (6 yards to 10 yards); Trucks, side, end, and bottom dump (over 12 yards including 20 yards)

TRUCK DRIVERS (AREA 1) (Cont'd)

All Counties and portions of Counties East of the 120th Meridian (except those portions of Kittitas, Klickitat, and Yakima Counties)

Group 8: Low Boy (over 50 tons); Water tank truck (8,001 - 10,000 gallons)

Group 9: Transit mixers and trucks hauling concrete, (10 yards to 15 yards); Trucks, side, end and bottom dump (over 20 yards including 30 yards); Water tank truck (10,001 - 12,000 gallons)

Group 10: Mechanic, field

Group 11: Tournarocker, D.W.'s and similar, with 2 or 4 wheel power tractor with trailer, gallonage or yardage scale, which is greater; Transit Mixers and Trucks hauling concrete (15 yards to 20 yards); Trucks, side, end and bottom dump (over 30 yards to 40 yards); Water tank truck (12,001 - 14,000 gallons)

Group 12: Transit mixers and trucks hauling concrete (over 20 yards); Trucks, side, end and bottom dump (over 40 yards to 50 yards)

Group 13: Truck, side, and and bottom dumps, (over 50 yards to 100 yards)

Group 14: Helicopter Pilot hauling employees or material; Trucks, side, end and bottom dump (over 100 yards)

TRUCK DRIVERS (AREA 2)

All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County and including all of Kittitas and Yakima Counties

Group 1: Leverman and Loaders at bunkers and batch plants; Pickup truck, Escort or Pilot Car; Swampers; Warahouseman and Checkers

Group 2: Team Drivers

Group 3: Bull Lifts and similar equipment used in loading and unloading trucks, transporting materials on job site, warehousing; Dumpsters, and similar equipment (including Tournarockers, Tournawegon, Turnatrailer, Cat DW series, Terra Cobra, LeTourneau, Westinghouse, Athey Wagon, Euclid, two and four-wheeled power tractor with trailer and similar top-loaded equipment transporting material: Dump trucks - side, end.and bottom dump, including semi-trucks and trains or combinations thereof) - up to and including 5 yards; Flatbed, single rear axle; Fuel truck; Grease truck; Greaser, Battery Service Man and/or Tire Service Man; Scissor truck; Spreader, Flaherty; Tractor (small, rubber-tired); Vacuum truck; Water Wagon and tank truck (up to 1,600 gallons); Winch truck, single rear axle; Wrecker, tow truck and similar equipment

TRUCK DRIVERS (AREA 2) (Cont'd)

All Counties and portion of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County and including all of Kittitas and Yakima Counties

Group 4: Flatbed, dual rear axle

Group 5: Buggymobile; Hyster Operators; Straddle Carrier (Ross, Hyster, and similar equipment); Water Wagon and Tank Truck, 1,600 gallons to 3,000 gallons

Group 6: Transit-mix, 0 to and including 4½ yards

Group 7: Dumpsters, and similar equipment (as listed in Group 3) - over 5 yards to and including 12 yards; Explosive truck (field mix) and similar equipment; Lowbed and heavy duty trailer, under 50 tons gross; Road Oil Distributor Driver; Slurry Truck; Sno-go and similar equipment; Winch Truck, dual rear axle

Group 8: Dumpster, and similar equipment (as listed in Group 3) - over 12 yards to and including 16 yards

Group 9: Bulk Cement Tankers; Dumpsters, and similar equipment (as listed in Group 3) - over 16 yards to and including 20 yards; Water Wagon and Tank Truck, over 3,000 gallons

Group 10: Bull Lifts or similar equipment used in loading or unloading trucks transporting materials on job site, other than warehousing

Group 11: Transit-mix, over 4½ yards to and including 6 yards

Group 12: "A" Frame or Hydralift Trucks or similar equipment

Group 13: Dumpsters, and similar equipment (as listed in Group 3) - over 20 yards to and including 30 yards; Lowbed and heavy duty trailer, over 50 tons gross to and including 100 tons gross

Group 14: Transit-mix, over 6 yards, to and including 8 yards

Group 15: Dumpsters, and similar equipment (as listed in Group 3) - over 30 yards to and including 40 yards; Lowbed and heavy duty trailer, over 100 tons gross

Group 16: Transit-mix, over 8 yards to and including 10 yards

Group 17: Dumpsters, and similar equipment (as listed in Group 3) - over 40 yards to and including 55 yards

TRUCK DRIVERS (AREA 2) (Cont'd)

All Counties and portions of Counties West of the 120th Meridian (except those enumerated in Area 3) and including the Northern portion of Pacific County

Group 18: Transit-mix, over 10 yards to and including 12 yards

Group 19: Transit-mix, over 12 yards to and including 16 yards

Group 20: Transit-mix, over 16 yards to and including 20 yards

Group 21: Transit-mix over 20 yards

TRUCK DRIVERS (AREA 3)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 1: Battery Rebuilders; Bus or Manhaul Driver; Concrete Buggies (power operated); Dump Trucks, side, end, and bottom dumps, including semi-trucks and trains or combinations thereof: 6 cu. yds. and under Lift Jitneys, Fork Lifts (all sizes used in loading, unloading and transporting material on job site); Loader and/or Leverman on concrete dry batch plant (manually operated); Pilot car; Solo flat bed and misc. body trucks, 0-10 tons; Truck Helper; Truck Mechanic Helper; Warehouseman (warehouse parts, tool men and parts chaser, checkers and receivers); Water wagons (rated capacity) - up to 1,600 gallons

Group 2: "A" Frame of Hydra-lift Truck with load bearing surface; Lubrication Man, Fuel Truck Driver, Tireman, Wash Rack, Steam Cleaner or combinations; Team Drivers

Group 3: Dump trucks, side, end, and bottom dumps, including semi-trucks and trains or combinations thereof: over 6 cu. yds. and including 10 cu. yds.; Slurry Truck Driver or Leverman; Transit mix, and wet or dry mix trucks: 5 cu. yds. and under; Tireman (full-time basis); Water wagons (rated capacity) - 1,600 to 3,000 gallons

Group 4: Flaherty Spreader Driver or Leverman; Low bed equipment, flat bed semi-trailer, truck and trailer or doubles transporting equipment or wet or dry materials; Lumber Carrier Driver - Straddle carrier (used in loading, unloading and transporting or materials on job site); Oil Distributor Driver or Leverman; Water wagons (rated capacity) - 3,000 to 5,000 gallons

Group 5: Dumpsters or similar equipment, all sizes; Transit mix and wet or dry trucks, over 5 cu. yds. and including 7 cu. yds.

TRUCK DRIVERS (AREA 3) (Cont'd)

Clark, Cowlitz, Klickitat, Skamania, Wahkiakum, and the Southern portion of Pacific, Counties

Group 6: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: Over 10 cu. yds. and including 20 cu. yds.; Transit mix and wet or dry mix trucks, over 7 cu. yds. and including 9 cu. yds.; Truck mechanic-welder-body repairman; Water wagons (rated capacity) - 5,000 to 7,000 gallons

Group 7: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 20 cu. yds. and including 30 cu. yds.; Transit mix and wet or dry mix trucks - over 9 cu. yds. and including 11 cu. yds.; Water wagons (rated capacity) - over 7,000 gallons to 10,000 gallons

Group 8: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 30 cu. yds. and including 40 cu. yds.; Transit mix and wet or dry mix trucks - over 11 cu. yds. and including 13 cu. yds.; Water wagons (rated capacity) - over 10,000 gallons to 15,000 gallons

Group 9: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 40 cu. yds. and including 50 cu. yds.; Transit mix and wet or dry mix trucks - over 13 cu. yds. and including 15 cu. yds.

Group 10: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 50 cu. yds. and including 60 cu. yds.

Group 11: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 60 cu. yds. and including 70 cu. yds.

Group 12: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combination thereof: over 70 cu. yds. and including 80 cu. yds.

Group 13: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combination thereof: over 80 cu. yds. and including 90 cu. yds.

Group 14: Dump trucks, side, end and bottom dumps, including semi trucks and trains or combinations thereof: over 90 cu. yds. and including 100 cu. yds.

Drivers and Helpers (handling sacked cement add $.05 per hour)

SUPERSEDEAS DECISION

WY75-5028 p.2

STATE: Wyoming COUNTIES: Converse, Goshen, Laramie, Natrona, Niobrara and Platte

DECISION NUMBER: WY75-5028 DATE: Date of Publication

Supersedes Decision No. AR-1004 dated July 26, 1974, in 39 FR 27415

DESCRIPTION OF WORK: Building Construction (excluding single family homes and garden type apartments up to and including 4 stories), and heavy construction.

BUILDING CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments H & W.	Pensions	Vacation	App. Tr.
ASBESTOS WORKERS	$ 9.06	.50	.87

LABORERS (Building Construction)

Group 1: Axeman and hand faller; Concrete worker(wet or dry)(curing and drying); Car and truck loader; Dumpman; Erector and installer (includes the installation and erection of all fences, right-of-way, median fence, snow fence, etc., guard rails, section rails, reference posts, guide posts, signs and right-of-way markers); Form stripper; Form setter helper (paving); General Laborer; Gunite helper; Landscaper helper; Material handler (lumber, rods, cement, concrete); Nozzleman (air and water); Pipe setter helpers, non-metallic; Pipe setters helpers, corrugated; All work pertaining to pre-watering, pre-irrigation, and pre-wetting; Rodman; Riprap man; Sandblaster pot tender; Signelman, grade, concrete, etc.; Sissaerman or hopper man; Stake jumper for equipment; Tar and asphalt pot tender; Wrecking and demolition crews; Unloading and packing of steel rods and mesh (reinforcing); Heater tender and pilot car operator

Group 2: Asphalt raker and tamper; Bin wall installer; Bituminous curb builder; Carpenter tender; Cement mason tender; Chuck tender; Form setter (paving); Hand operator vibrator roller; Landscaper; Mechanical form cleaner; Mortar man on stone riprap; Operator of pneumatic, electric, gas tamper and similar mechanical tools; Powderman helper; Pipe setter, corrugated; culvert pipe, multi-plate, sectional plate and similar type; Pipe wrapper; Power-type concrete buggy (push); Power saw operator (clearing); Vibrator (concrete); Creosote material handler (corrosive enamel or its equal); Burner (cutting torch)

Group 3: Concrete saw; Gunite nozzleman; High scaler (using air tools from bos'n chair, swing stage life belt, or block and tackle, shall receive $.20 per hour more than the classified rate); Jackhammer and pavement breaker; Sandblaster nozzleman; Sewer pipe installer, non-metallic; Caulker; Collarman; Jointer; Mortarman; Rigger; Jacker; Power-type concrete buggy (ride); Shoring and lagging of open ditch

Group 4: Powderman and blaster; Wagon drill, air track, diamond and other drills for blasting powder or grouting

Group 5: Hod carriers; Mason tender; Plasterers tenders; Terrazzo tenders; Tile setter tenders, and Scaffold builders

Group 6: Tunnel and underground work: Miners (drills) Machine man; Timberman; Steelman; Drill doctor; Form setter and movers; Spaders; Tuggers; Spilling and/or caisson workers; Jackhammer men; Finishers; Re-bar man; Powderman

Group 7: Nipper; Chuck tender; Top man or toplander

Group 8: Brakeman and vibrator man

Group 9: Mucker and bull gang laborer

LABORERS (Heavy Construction)

Group 1: Axeman and hand faller; Bin wall installer helpers; Concrete worker (wet or dry); Concrete workers (curing and drying); Dumpman; Erector and installer(including the installation and erection of fences, snow fence, guard rails, median rails, median posts, signs and right-of-way marker); Form stripper; Form setter helper (paving); General labor; Gunite helper; Heater tender; Landscaper helper; Material handler (lumber, rods, cement, concrete); Nozzleman, air and water; Pipe setters helpers (non-metallic); Pipe setters helpers (corrugated); Pre-watering, pre-wetting and pre-irrigation (all work); Rip rap man; Sandblaster pot tender; Signal men, grade concrete, etc.; Scissor man or hopper man; Stake jumper for equipment; Tar and asphalt pot tender; Wrecking and demolition crews

Group 2: Asphalt raker and tamper; Bin wall installer; Bituminous curb builder; Cement mason or finisher, helper and tender; Chuck tender; Form setter (paving); Hand operated vibratory roller; Landscaper; Mortar man on stone rip rap; Operator of pneumatic, electric, gas tamper and similar mechanical tools; Pipe setter (corrugated, culvert pipe sectional, multiplate and similar type); Pipe setter, pipelayer (non-metallic); Pipewrapper; Powderman helper; Power type concrete buggy (push or ride); Power saw operator (clearing); Vibrator, concrete

Group 3: Concrete saw; Gunite nozzleman; High scaler (using air tools from bos'n chair, swing stage life belt, or block and tackle shall receive $.20 per hour more than the classified rate); Jackhammer and pavement breaker; Sandblaster nozzleman; Sewer pipe installer (non-metallic), clay, concrete, etc. (Caulker, collarman, jointer, mortarman, rigger, jacker

Group 4: Powderman and blaster; Wagon drill, air-trac, diamond, and other drills for blasting powder or grouting

Group 5: Tunnel and Underground Work: Brakeman; Swamper; Vibrator man

Group 5A: Bull gang; Dumpman; Mucker; Trackman

Group 5B: Miners (drillers) machine men; Timbermen; Steelmen; Drill doctor; Form setter and mover; Spader; Tuggers spilling and/or caisson workers; Powdermen; Jackhammermen; Finishers

Group 5C: Chucktender; Topman; Toplander

POWER EQUIPMENT OPERATORS (HEAVY CONSTRUCTION)

Group 1: Auger Machine Operator (post holes, etc.); Batch Bin Weighman, Scissorman or Hopperman; Beginner Operator; Brakeman and Helpers; Crusher Oiler; Oiler, Utility; Screed Operator; Tractor Operators (farm, crawler or wheel type, 60 HSP (drawbar) or less with or without use of power attachments, except for use of back hoe or bucket)

Group 2: Broom Operators, self propelled; Cableway Signalman (Bellboy); Concrete Saw (self-propelled); Fireman; Power Loader, belt and bucket type

Group 3: Air Compressor over 315 cu. ft. capacity; Chip Spreader Operator; Form Grader Operator; Joint Machine Operator; Longitudinal Float Operator; Mixer Operator Concrete (under one yard); Helper (Welder or Heavy Duty); Roller Operators, self-propelled (pneumatic, rubber tired, sheep foot, vibratory or combination type); Tire Repairman

Group 4: Pump Operator (all others)

Group 5: Conveyor Belt Operator; Fork Lift and Lumber Staker; Screening Plant Operator

Group 6: A-Frame Truck; Tractor Operators (Farm, Crawler or wheel type, over 60 HSP (drawbar) without use of power attachments

Group 7: Oiler, Lead Utility

Group 8: Gunnite and Grout Machine Operator; Mulching Machine Operator; Oil Distributor

Group 9: Front End Loader (up to and including 1-1/2 cu. yds.); Pavement Breakers, Hydro-tamper and similar type machines; Pumps, Well Points

Group 10: Hoist Operator (one drum)

Group 11: Haulage Motorman and Industrial type Motormen; Motor Patrol Operator (all others); Pump Operator (in tunnels, shafts, raises); Hydro type Cranes (up to 15 tons)

Group 12: Air Compressor, two or more machines or tunnels, shafts, raises or plant operator; Asphalt Plant Operator; Bituminous Laydown Machine Operator; CMI Machine and similar; Concrete Batch Plant; Concrete Finish Machine Operator; Concrete Multi Blade Span Saw (Hunt process or similar); Concrete Spreader and Paver Operator; Crusher Operator; Drilling Machine, integrated (Core, Rotary, Caisson, Diamond); Elevating Grader; Front End Loader (over 1-1/2 cu. yds.); Jumbo Form Operator; Mixer Operator, base course pug mill type; Mixer Bituminous Operator (travel plant); Mixer Operator Concrete (over one yard); Motor Patrol Operator (finish); Mucking Machine Operator (all types); Pneumatic Guns; Pumpcrete Operator; Roller Operator, (tandem steel wheel, three axle or three wheel); Scraper Equipment (all types); Shovels, Draglines, Cranes, Piledrivers, all truck mounted cranes, (manufacturers' rating) up to 3-1/2 yards, all attachments;

POWER EQUIPMENT OPERATORS (HEAVY CONSTRUCTION)

Hydro type Cranes, (15 ton and over); Shuttle Car Operator; Subgrade Machine Operator (power); Tractor Operator, all with use of power attachments and including Pushcat, Dozer, Tournadozer, etc. (The use of power attachment shall not include disking, pulling or rollers, and similar unskilled actions), Trenching Machine Operator; Wash Plant Operator

Group 13: Welder, Machine Doctor

Group 14: Hoist Operator (two or more drums of shafts or raises); Repairman, Mechanics, Machine Doctors, Welders and Helpers; Heavy duty mechanic machine doctor

Group 15: Cableway Operators; Mixer Dual Drum, Cranes, (Whirley, Gantry, Stiffleg, overhead traveling)

Group 16: Shovels, Draglines, Cranes, Piledrivers, All Truck Mounted Cranes, (manufacturer's rating) 3-1/2 yards to 7 cu. yds., all attachments; Wheel Excavator Operator

Group 17: Shovels, Draglines, Cranes, Piledrivers, all Truck Mounted Cranes, (manufacturer's rating) 7 cu. yds. and over, all attachments

[FR Doc.75-4623 Filed 2-20-75;8:45 am]

an invaluable reference tool

1974–75 Edition

This official guidebook provides useful information about U.S. Government agencies, including:

- Major programs and functions
- Listings of key officials
- Organization charts for many agencies

Most agency descriptions include a "Sources of Information" section that gives addresses and telephone numbers for obtaining specifics on employment, government contracts, environmental programs, small business opportunities, publications, speakers and films available to civic and educational groups, and other topics of public interest.

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

$5.75 per copy. Paperbound, with charts

federal register

February 24, 1975—Pages 7893–8060

MONDAY, FEBRUARY 24, 1975

WASHINGTON, D.C.

Volume 40 ■ Number 37

Pages 7893–8060

PART I

The Issue Number of the Federal Register for Friday, February 21, 1975, which read 35, should have been 36.

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

OCCUPATIONAL HEALTH AND SAFETY—HEW/CDC recommends exposure standards for toxic substances; pertinent data by 5–27–75 7960

INJURIOUS WILDLIFE—Interior/FWS proposes revision of importation requirements; comments by 4–10–75 7935

FREEDOM OF INFORMATION—The following agencies issue guidelines on availability of information:

- Air Force 7901
- General Services Administration 7924, 7927
- Internal Revenue Service 7934
- Nuclear Regulatory Commission 7893
- Office of Economic Opportunity 7929
- Small Business Administration 7898
- Transportation Department 7915

"GOING PRIVATE" TRANSACTIONS—SEC proposes public investigatory procedures; comments by 3–15–75 7947

PART II:

FOREIGN CURRENCY TRANSACTIONS—

- Treasury/Monetary Offices issue final requirements for non-banking firm reports 8020
- Treasury/Monetary Offices adopt form implementing reporting requirements for non-banking institutions 8021

PART III:

EFFLUENT LIMITATIONS—

- EPA issues interim standards for ferroalloy manufacturing point source category; comments by 3–26–75 8030
- EPA proposes guidelines for pretreatment and performance standards for ferroalloy manufacturing category; comments by 3–26–75 8038

PART IV:

NATIONAL UTILITY RESIDUAL FUEL ALLOCATION—FEA establishes supplier percentage for March 1975 8043

(Continued inside)

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going into Effect Today

DOT/NHTSA—New pneumatic tires, tire selection and rims for passenger cars. 3597; 1–23–75

GSA—Procurement by formal advertising. 2810; 1–16–75

HEW/FDA—New drug applications; public information; correction.. 4300; 1–29–75

INT/BLM—Advisory boards; operation procedures..... 3294; 1–21–75

List of Public Laws

This is a listing of public bills enacted by Congress and approved by the President, together with the law number, the date of approval, and the U.S. Statute citation. Subsequent lists appear each day in the FEDERAL REGISTER, and copies of the laws may be obtained from the U.S. Government Printing Office.

S. 58..... Pub. Law 94–2
Office of the Attorney General, compensation and other emoluments attached to
(Feb. 18, 1975; 89 Stat. 4)

H.R. 2634..... Pub. Law 94–3
To increase the temporary debt limitation and extend it to June 30, 1975
(Feb. 19, 1975; 89 Stat. 5)

H.R. 1589..... Pub. Law 94–4
Food stamps, increased costs, suspension
(Upon the expiration of the 10-day period prescribed by the U.S. Constitution, H.R. 1589 became law on Feb. 20, 1975, without the President's approval; 89 Stat. 6)

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5286. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

HIGHLIGHTS—Continued

MEETINGS—

HEW/OE: Advisory Committee on Accreditation and Institutional Eligibility, 3–12 thru 3–14–75..... 7960

Interior: Coordinating Subcommittee of the Committee on Emergency Preparedness of the National Petroleum Council, 3–10–75..... 7954

Justice/LEAA: Defensible Space Committee of the Private Security Advisory Council, 3–14–75..... 7953

NASA: Panel on General Aviation Technology, 3–12 thru 3–14–75..... 7963

NSF: Interagency Task Force on Inadvertent Modification of the Stratosphere, 2–27–75..... 7969

National Endowment for the Humanities: Public Programs Panel, 3–20 and 3–21–75..... 7969

See also Comptroller of the Currency; Internal Revenue Service; Monetary Offices.
Proposed Rules
Fiscal assistance to State and local governments; discrimination; correction 7935

CONTENTS

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

CHAPTER XI—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; MISCELLANEOUS COMMODITIES), DEPARTMENT OF AGRICULTURE

[Amdt. 4]

PART 1207—POTATO RESEARCH AND PROMOTION PLAN

Payments of Assessments

This amendment clarifies the designated handler's responibility to pay assessments by deleting the proviso that a producer may pay assessments on his potatoes on behalf of the designated handler.

Notice was published in the January 15, 1975, FEDERAL REGISTER (40 FR 2697) regarding the proposal to amend § 1207.512 *Designated handler*, which was recommended by the National Potato Promotion Board on December 3, 1974. The Potato Board was established pursuant to the Potato Research and Promotion Plan (7 CFR Part 1207). The plan is effective under the Potato Research and Promotion Act (7 U.S.C. 2611–2627).

The notice afforded interested persons an opportunity to file written comments not later than January 31, 1975. None was filed.

The existing section provides the producer may elect to pay the assessment on his potatoes on behalf of the designated handler. This was an accommodation to the handler but in no way relieved him of the responsibility under any circumstances.

Although the rules and regulations specify the designated handler is responsible for payment, a number of handlers have chosen to interpret this producer option as relieving the handler of this responsibility. To remove any possible doubt, this amendment deletes the applicable proviso which permitted this option.

After consideration of all relevant matters, including the proposal set forth in the notice, it is hereby found that this amendment will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that potatoes are (1) now being handled which should be covered by the amended rule; (2) such a change was recommended by the National Potato Promotion Board on December 3, 1974; (3) information regarding this rule change was published in the FEDERAL REGISTER on January 15, 1975; and (4) compliance with this amendment will not require any special preparation on the part of handlers subject thereto which cannot be completed on or before the effective date hereof.

The amendment is as follows:

In paragraphs (b) and (c) of § 1207.512 *Designated handler*, the following provisos are deleted:

In § 1207.512(b), the following proviso is deleted: "*Provided*, That such producer-handler may elect to pay the assessments on his potatoes on behalf of the designated handler."

In § 1207.512(c), the following proviso is deleted: "*Provided*, That the producer may elect to pay the assessment on his potatoes on behalf of the designated handler."

(7 U.S.C. 2611–2627; 84 Stat. 2041)

Dated: February 19, 1975, to become effective February 28, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.75-4917 Filed 2-21-75;8:45 am]

Title 10—Energy

CHAPTER I—NUCLEAR REGULATORY COMMISSION

PART 2—RULES OF PRACTICE

PART 9—PUBLIC RECORDS

Implementation of the Freedom of Information Act

Notice is hereby given of the adoption on February 19, 1975 of amendmtnts to the Nuclear Regulatory Commission's regulations in Title 10, Chapter I, Code of Federal Regulations, Parts 2, "Rules of Practice", and 9, "Public Records". The amendments reflect certain provisions contained in the 1974 amendments to the Freedom of Information Act, Pub. L. 93–502, enacted November 21, 1974, and effective February 19, 1975. On January 15, 1975 the Atomic Energy Commission published proposed amendments to Part 9 to revise its schedule of fees for producing copies of records (40 FR 2714). Subsequently, in accordance with the Energy Reorganization Act of 1974, Pub. L. 93–438, the Nuclear Regulatory Commission (NRC) was established on January 19, 1975. The NRC assumed the licensing and related regulatory functions of the former Atomic Energy Commission. No comments were received on the proposed rule published on January 15, 1975.

The amendments set forth below establish procedures to be followed by persons seeking records from the NRC and the actions to be taken by the NRC with respect to such requests. The amendments provide that copies of records may be requested in person at the NRC Public Document Room and that written requests for copies of records shall be addressed to the Director, Office of Administration. If the Director, Office of Administration, determines that a request for records should be denied in whole or in part, that determination may be appealed to the Executive Director for Operations, who will make a decision whether or not

XUM
V40-37
FEB 24 75
XUM

to uphold the initial determination. For advisory committees, boards, panels, and offices reporting to the Commission, and the Office of the Executive Legal Director, the initial determination on a request for records shall be made by the head of such board, panel, or office, or the Advisory Committee Management Officer, as appropriate, rather than the Director, Office of Administration. An appeal of an adverse determination shall be made to the Commission instead of the Executive Director for Operations.

In conformity with the recent Freedom of Information Act amendments, the amendments set forth below provide for specified time limits within which Commission action, both initially and on appeal, must be accomplished. The Commission's regulations also are amended to correspond to the Freedom of Information Act amendments with respect to those records which are exempt from disclosure.

The amendments provide a schedule of fees to be charged for the production of records which reflect only the direct cost of the services provided. The charges for searching for requested records are lower than those which were published by the Atomic Energy Commission for comment on January 15, 1975 (40 FR 2714). The charge for record searches by clerical and administrative employees has been reduced from $5.70 per hour to $5.00 per hour, and the charge for searches by professional or supervisory employees has been reduced from $16.00 per hour to $12.00 per hour.

The amendments also make certain minor conforming changes in Part 9 required by the Energy Reorganization Act to reflect the establishment of the Nuclear Regulatory Commission on January 19, 1975.

Because the amendments relate to agency organization, practice, and procedure, or conform to the requirements of the Freedom of Information Act amendments of November 21, 1974, or the Energy Reorganization Act of 1974, the Commission has found that notice of proposed rule making and public procedure thereon are unnecessary, and good cause exists for making the amendments effective without the customary 30 day notice.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, and sections 552 and 553 of Title 5 of the United States Code, as amended by Pub. L. 93-502, November 21, 1974, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Parts 2 and 9 are published as a document subject to codification.

1. The term "AEC" is changed to "NRC" in § 2.790 and paragraphs (a) (1) and (a) (8) are revised to read as follows:

§ 2.790 Public inspections, exemptions, requests for withholding.

(a) • • •

(1) Records (1) which are specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy, and (ii) which are in fact properly classified pursuant to such Executive order;

• • • • •

(8) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would (i) interfere with enforcement proceedings, (ii) deprive a person of a right to a fair trial or an impartial adjudication, (iii) constitute an unwarranted invasion of personal privacy, (iv) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (v) disclose investigative techniques and procedures, or (vi) endanger the life or physical safety of law enforcement personnel; or

• • • • •

2. Paragraph (d) of § 2.790 is amended by substituting "§ 9.12" for "§ 9.10".

3. The term "AEC" is changed to "NRC" wherever it appears in 10 CFR Part 9.

§ 9.1 [Amended]

4. In § 9.1 and Appendix A, the term "Atomic Energy Commission" is changed to "Nuclear Regulatory Commission".

5. In § 9.2(a), the words "the agency established by the Atomic Energy Act of 1954, as amended", are changed to "the Nuclear Regulatory Commission, established by the Energy Reorganization Act of 1974".

6. In § 9.2(c), the words "section 21 of the Atomic Energy Act of 1954, as amended", are changed to "section 201 of the Energy Reorganization Act of 1974".

7. In § 9.2, paragraph (d) is revised, paragraph (e) is redesignated paragraph (f) and new paragraphs (e) and (g) are added to read as follows:

§ 9.2 Definitions.

As used in this part:

• • • • •

(d) "Government agency" means any executive department, military department, Government corporation, Government controlled corporation, or other establishment in the executive branch of the Government (including the Executive Office of the President), or any independent regulatory agency.

(e) "Office", unless otherwise indicated, means all offices and divisions of the NRC reporting to or through the Executive Director for Operations, except for the Office of the Executive Legal Director.

• • • • •

(g) "Working days" mean Monday through Friday, except legal holidays.

§ 9.3 [Removed]

8. Section 9.3 is deleted.

9. Paragraphs (b) and (c) of § 9.5 are redesignated as paragraphs (c) and (d) respectively, a new paragraph (b) is added, and paragraphs (a) (1) and (7) are revised to read as follows:

§ 9.5 Exemptions.

(a) The following types of records are exempt from public disclosure under § 9.4:

(1) Records (i) which are specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy, and (ii) which are in fact properly classified pursuant to such Executive order.

• • • • •

(7) Investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would (i) interfere with enforcement proceedings, (ii) deprive a person of a right to a fair trial or an impartial adjudication, (iii) constitute an unwarranted invasion of personal privacy, (iv) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (v) disclose investigative techniques and procedures, or (vi) endanger the life or physical safety of law enforcement personnel.

• • • • •

(b) Any reasonably segregable portion of a record shall be provided to any person requesting such record after deletion of the portions which are exempt under this section.

• • • • •

10. Section 9.7 is revised to read as follows:

§ 9.7 Publicly available records.

(a) The NRC Public Document Room is located at 1717 H Street, NW., Washington, D.C., and is open between 8:30 a.m. and 5:00 p.m. on Monday through Friday, except legal holidays. The following records or documents are available at the NRC Public Document Room for public inspection and copying:

(1) Final opinions including concurring and dissenting opinions as well as orders of the NRC made in the adjudication of cases;

(2) Statements of policy and interpretations which have been adopted by the NRC and have not been published in the FEDERAL REGISTER;

(3) A record of the final votes of each member of the Commission in every proceeding;

(4) Nuclear Regulatory Commission rules and regulations;

(5) Nuclear Regulatory Commission Manual and instructions to NRC personnel that affect any member of the public;

(6) Current indexes of the foregoing records issued, adopted or promulgated after July 4, 1967.

(b) The NRC will publish, quarterly or more frequently, and distribute (by sale or otherwise) copies of the indexes or supplements thereto, specified in paragraph (a) (6) of this section, unless it determines by order published in the FEDERAL REGISTER that publication would be unnecessary and impracticable, in which case the NRC will provide copies of such indexes on request at a cost not to exceed the direct cost of reproduction as provided in § 9.14.

11. Sections 9.8, 9.9, and 9.10 are revoked and new §§ 9.8, 9.9, 9.10, 9.11, 9.12, 9.13, 9.14, 9.15, and 9.16 are added to read as follows:

§ 9.8 Requests for records.

(a) Copies of records may be requested in person at the NRC Public Document Room, 1717 H Street, NW., Washington, D.C. Written requests for copies of records shall be addressed to the Director, Office of Administration, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555. The request shall clearly state on the envelope and in the letter that it is a "Freedom of Information Act Request". A request that is not so marked will be deemed not to have been received by the NRC until it is actually received by the Director, Office of Administration.

(b) All requests for copies of records must reasonably describe the record sought in sufficient detail to permit the identification of the requested record. Where possible, specific information regarding dates, titles, docket numbers, file designations, and other information which may help identify the records should be supplied by the requester. If a request does not reasonably describe the record sought in sufficient detail to permit its identification, the requester will be so informed by the Director, Office of Administration, or his designee, within 10 working days after receipt of the request and requested to submit additional information regarding the request or to meet with appropriate NRC personnel in order to clarify the request.

(c) If the record for which a request is made has been reasonably described pursuant to paragraph (b) of this section and is available in the NRC Public Document Room, the requester will be informed within 10 working days after receipt of the request by the Director, Office of Administration, or his designee, of the time and place where the record will be made available, and the estimated cost for furnishing copies of the record. In order to obtain copies of records in the most expeditious manner, a person may request copies of records in person at the NRC Public Document Room, or may open an account at the Public Document Room with the private firm contractually responsible for reproducing copies of NRC records.

(d) Requested records which have been reasonably described pursuant to paragraph (b) of this section but which are located at places other than the NRC Public Document Room or NRC headquarters may, at the discretion of the NRC, be made available for inspection and copying at such other locations within 10 working days after receipt of the request. For example, contracting officers may authorize an NRC contractor to disclose records in its possession at the contractor's facility or, if the record is in the possession of a subcontractor, at a subcontractor's facility. To the extent applicable, the charges specified in § 9.14 for locating and reproducing copies of records shall be applied to records made available pursuant to this paragraph.

(e) A request for a record which is not available in the NRC Public Document Room shall be promptly forwarded by the Director, Office of Administration, or his designee, to the head of the office primarily concerned with the records requested. The Director, Office of Administration, or his designee will maintain, and the Executive Legal Director or his designee will be furnished, a copy of each request referred to another office, together with the following information: (1) the date the request was received; (2) the office to which it was referred; and (3) the date on which it was referred.

§ 9.9 Initial determination.

(a) If, after consultation with the Executive Legal Director or his designee, the head of the office to which a request has been referred finds that the record sought is exempt from production or disclosure, but that its production or disclosure is not contrary to the public interest and will not adversely affect the rights of any person, the head of the responsible office will authorize the production or disclosure of the record, and will notify the requester within 10 working days after receipt of the request that the records will be promptly made available.

(b) Except as provided in § 9.15, if the head of the office to which a request has been referred finds that a request should be denied in whole or in part, he will submit such finding to the Director, Office of Administration, in sufficient time to comply with the time limits set forth in this paragraph for a response by the Director. The Director, Office of Administration, will, after consultation with the Executive Legal Director or his designee, make an independent determination whether to comply with or deny the request. If the Director, Office of Administration, determines that the record sought is exempt from production or disclosure pursuant to § 9.5(a), and its production or disclosure is contrary to the public interest or will adversely affect the rights of any person, the Director, Office of Administration, will notify the requester in the manner provided in § 9.10 within 10 working days after receipt of the request.

(c) The 10 working day period for response to a request for records provided in paragraphs (a) and (b) of this section may be extended for unusual circumstances as provided in § 9.13.

(d) In exceptional circumstances where it does not appear possible to complete action on the request within the maximum 20 working day limit as provided in § 9.13, the Director, Office of Administration may seek an agreement with the requester for a specific extension of time in which to act upon the request. Any such agreement shall be confirmed in writing.

(e) If the head of the office to which a request has been referred or the Director, Office of Administration, does not respond to a request within the 10 working day period, or within such extended period as provided in this Part, the requester may treat such delay as a denial of the request and immediately appeal to the Executive Director for Operations as provided in § 9.11(a) or to a district court as provided in § 9.11(c).

§ 9.10 Form and content of responses.

(a) When a requested record has been identified and is available, the head of the office to which a request has been referred or the Director, Office of Administration, will promptly furnish the record or notify the requester as to where and when the record will be available for inspection and copying. The notification will also advise the requester of any applicable fees under § 9.14.

(b) A reply denying a request for a record will be in writing signed by the Director, Office of Administration, and will include:

(1) The reason fr the denial;

(2) A reference to the specific exemption under the Freedom of Information Act and the Commission's regulations authorizing the withholding of the record;

(3) The name and title or position of each person responsible for the denial of the request, including the head of the office recommending denial of the request; and

(4) A statement that the denial may be appealed within 30 days from the receipt thereof to the Executive Director for Operations.

(c) A copy of each letter granting or denying requested records will be maintained by or furnished to the Director, Office of Administration, or his designee.

§ 9.11 Appeal from initial determination.

(a) Except as provided in § 9.15, a requester may within 30 days of receipt of a notice of denial of the request for records pursuant to this Part appeal such denial to the Executive Director for Operations. The appeal shall be in writing, addressed to the Executive Director for Operations, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555, and shall clearly state on the envelope and in the letter that it is an "Appeal from Initial FOIA Decision".

(b) Except as provided in § 9.13, the Executive Director for Operations will make a determination with respect to any appeal pursuant to this section within 20 working days after the receipt of such appeal.

(c) If on appeal the denial of the request for records is upheld in whole or in part, the Executive Director for Operations will notify the person making such request of the denial, including the exemption relied upon, a brief explanation of how the exemption applies to the records withheld, and the reasons for asserting the exemption. The requester shall be informed that the denial is a

XUM V 4 0 1 3 7 F E B 2 4 7 5 XUM

final agency action and that judicial review is available in a district court of the United States in the district in which the requester resides, or has his principal place of business, or in which the agency records are situated, or in the District of Columbia.

(d) Copies of all appeals and written determinations on appeal will be furnished by the Executive Director for Operations, or his designee, to the Director, Office of Administration, or his designee.

§ 9.12 Production or disclosure of exempt records.

(a) Records of the kind specified in § 9.5(a) shall not be produced or disclosed by NRC personnel, or NRC contractors who have possession of such records, except in accordance with this Part or §§ 2.744 and 2.790 of this chapter.

(b) NRC personnel and NRC contractors from whom a record exempt from disclosure is sought shall follow the procedure specified below:

(1) If an exempt record is sought from NRC personnel, the request or subpoena shall promptly be forwarded to the Director, Office of Administration, who shall process the request as provided in this Part or take such other action as may be appropriate.

(2) If an exempt record is sought from an NRC contractor, the request or subpoena shall promptly be forwarded to the NRC contracting officer administering the contract who will then follow the procedure specified in paragraph (b)(1) of this section.

(3) NRC personnel or NRC contractors who are required by a subpoena to produce or disclose a record of the types included in § 9.5(a) shall appear in response thereto and shall respectfully decline to produce or disclose the record described, basing refusal on this paragraph, unless production or disclosure has been authorized pursuant to this Part.

§ 9.13 Extension of time for response.

(a) In unusual circumstances specified in paragraph (b) of this section, the time limits prescribed in § 9.9 or § 9.11 may be extended by not more than 10 working days by written notice to the person making such request, setting forth the reasons for such extension and the date on which a determination is expected to be dispatched.

(b) For purposes of this section, "unusual circumstances" means:

(1) the need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) the need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) the need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the NRC having substantial subject-matter interest therein.

(c) Any extension of time limits prescribed in §§ 9.9 and 9.11 may not exceed a combined total of 10 working days per request.

§ 9.14 Charges for production of records.

(a) Requests for the reproduction of records at the NRC Public Document Room located in Washington, D.C. will be honored upon payment of the following charges:

(1) Sizes up to 8½ x 14 inches made on office copying machines—$0.08 per page copy. Larger sizes—$0.08 for each 8½ x 14 inch unit or fraction thereof per page copy. Microfiche—8½ x 11 inches—$0.15 per page copy.

(2) The charge for reproducing records other than those specified above will be computed on the basis of NRC's direct costs.

(3) The charges for requests made through the mails will be the same as paragraph (a) (1) and (2) of this section except that shipping or mailing costs shall be added. If the amount of any mailed-in order is less than $2.00, excluding the shipping or mailing costs, the customer shall be charged a minimum of $2.00 plus costs of shipping or mailing.

(b) Requests for copies of records to be reproduced and furnished by the NRC at locations other than the NRC Public Document Room located in Washington, D.C., will be honored at the following charges:

(1) Sizes up to 8½ x 14 inches made on office copying machines—$0.10 per page copy. Larger sizes—$0.10 for each 8½ x 14 inch unit or fraction thereof per page copy.

The charge for reproducing records other than those specified above will be computed on the basis of NRC's direct costs.

(3) If a request is for records not located in the NRC Public Document Room, a charge of $5.00 per hour will be made for searching for the requested records by clerical or administrative employees and a charge of $12.00 per hour for searching by professional or supervisory employees. Search fees are assessable even when no records responsive to the request, or no records not exempt from disclosure, are found. Fractional parts of an hour will be charged on a pro rata basis for search functions, except that no charge will be made for manual searching if it takes one hour or less to complete.

(4) When a computer search is necessary in order to fulfill a request, the computer search charge will be the actual direct cost of the computer search.

(5) Unless the request specifically states that whatever cost is involved will be acceptable, or acceptable up to a specified limit, a request that is expected to involve assessed fees in excess of $25.00 shall be accompanied by a deposit equal to the estimated costs of responding to the request. For requests involving anticipated costs of reproduction and search which are in excess of $25.00, the NRC will so advise the requester, and the request will not be deemed to have been received until a deposit equal to the estimated costs is received or the requester has agreed to bear the anticipated costs. Fees may be required to be paid in full prior to the issuance of the requested records.

(6) Refunds of unused deposits or additional billings will be made to adjust the anticipated cost to the actual cost.

(c) In compliance with the Federal Advisory Committee Act, transcripts of testimony in NRC proceedings, which are transcribed by a reporting firm under contract with the NRC, may be purchased directly from the reporting firm at the cost of reproduction as provided for in the contract with the reporting firm, or may be purchased from the NRC at the cost of reproduction as provided in paragraphs (a) and (b) of this section.

(d) Material which has been copyrighted will not be reproduced in violation of the copyright laws.

(e) The Director, Office of Administration, or his designee, or the Executive Director for Operations on appeal, will waive or reduce any fee required by this section upon a determination that waiver or reduction of the fee is in the public interest because furnishing the information can be considered as primarily benefiting the general public.

§ 9.15 Committees, boards, panels, and offices reporting to the Commission.

(a) For boards, panels, and offices reporting directly to the Commission, and the Office of the Executive Legal Director, the initial determination on a request for records required by § 9.9 shall be made by the head of such board, panel, or office, or his designee, instead of the Director, Office of Administration, and an appeal of an adverse determination shall be made to the Commission instead of the Executive Director for Operations. Any denial of a request shall be signed by the head of the board, panel, or office making the initial determination and shall contain the information specified in § 9.10 except that the response will note that any appeal shall be to the Commission.

(b) The Advisory Committee Management Officer shall make the initial determination required by § 9.9 on requests for records of advisory committees established pursuant to Part 7 of this chapter, including the Advisory Committee on Reactor Safeguards, and an appeal of an adverse determination shall be to the Commission. Any denial of a request will be signed by the Advisory Committee Management Officer and will contain the information specified in § 9.10 except that the response will note that any appeal shall be to the Commission.

(c) The head of boards, panels, and offices reporting directly to the Commission, and the Advisory Committee Management Officers for advisory committees established pursuant to Part 7 of this chapter, will make the initial determination required by paragraphs (a) and (b) of this section only after consultation with the Office of the General Counsel.

§ 9.16 Annual Report to Congress.

(a) On or before March 1 of each calendar year, the Director, Office of Administration, will submit a report covering the preceding calendar year to the Speaker of the House of Representatives and President of the Senate for referral to the appropriate committees of the Congress. The report will include—

(1) the number of determinations made by the NRC not to comply with requests for records made to the NRC under this Part and the reasons for each such determination;

(2) the number of appeals made by persons under § 9.11, the results of such appeals, and the reason for the action upon each appeal that results in a denial of information;

(3) the names and titles or positions of each person responsible for the denial of records requested under this section, and the number of instances of participation for each;

(4) the results of each proceeding conducted pursuant to 5 U.S.C. 552(a)(4)(F), including a report of the disciplinary action taken against the officer or employee who was primarily responsible for improperly withholding records or an explanation of why disciplinary action was not taken;

(5) a copy of every rule made by the NRC regarding this Part;

(6) a copy of the fee schedule and the total amount of fees collected by the NRC for making records available under this Part; and

(7) such other information as indicates efforts to administer fully the provisions of 5 U.S.C. 552.

(b) A copy of each report to the Congress made pursuant to paragraph (a) of this section will be made available for public inspection and copying in the NRC Public Document Room.

12. In Appendix A the words "Director, Division of Classification", are amended to read "Director, Office of Administration", and the words "General Manager or Director of Regulation, as appropriate", are amended to read "Executive Director for Operations" wherever they appear.

13. In paragraph 1.c. of Appendix A, the words "§ 9.9 of the AEC regulations (10 CFR 9.9)" are amended to read "§ 9.14 of the NRC regulations (10 CFR 9.14)".

14. Paragraph 2.d. of Appendix A is amended to read as follows:

(d) In the event the Director, Office of Administration, or the Classification Review Committee in the case of submission to it under a or b above, determines that the information is unclassified but the information appears to be of the type exempt from public disclosure as set forth in § 9.5 of the NRC regulations (10 CFR 9.5), the requester shall be so notified in writing as provided in § 9.10 (b) of this chapter.

15. In paragraph 3 of Appendix A, the phrase "which remain in effect in accordance with the Energy Reorganization Act of 1974", is added after the phrase "Atomic Energy Act".

16. In paragraph 6 of Appendix A, the word "longstanding" is deleted, and the phrase "atomic energy field" is changed to "nuclear energy field".

Effective Date: These amendments become effective on February 24, 1975.

(Sec. 161, Pub. L. 83-703, 68 Stat. 948 (42 U.S.C. 2201); Pub. L. 93-438, 88 Stat. 1242 (42 U.S.C. 5841); Pub. L. 93-502, 88 Stat. 1561 (5 U.S.C. 552))

Dated at Washington, D.C. this 19th day of February 1975.

For the Nuclear Regulatory Commission.

JOHN C. HOYLE,
Acting Secretary of the Commission.

Title 12—Banks and Banking

CHAPTER I—COMPTROLLER OF THE CURRENCY, DEPARTMENT OF THE TREASURY

PART 23—STATEMENTS OF BUSINESS INTERESTS OF DIRECTORS AND PRINCIPAL OFFICERS OF NATIONAL BANKS

Delay in Effective Date

The Comptroller of the Currency is amending the regulation governing statements of business interests of directors and principal officers of national banks 12 CFR Part 23, 39 FR 41735, December 2, 1974; 40 FR 6200, February 10, 1975). The amendment extends the effective date of the regulation to May 1, 1975, and is issued for the purpose of affording additional time for reconsideration of certain provisions.

Since this amendment merely delays the effective date, it is hereby determined that further proposed rulemaking and public participation procedures are not in the public interest. Accordingly, Part 23 of 12 CFR is amended as follows:

1. In § 23.3, the second sentence is revised to read as follows:

§ 23.3 Filing of statement.

* * * The director or principal officer shall complete and file Forms CC-9030-29 with the designated bank within 30 days after becoming a director or principal officer or by May 1, 1975, whichever is later. * * *

2. In § 23.1, paragraph (a) is revised to read as follows:

§ 23.1 Authority and scope.

(a) This part is issued by the Comptroller of the Currency pursuant to sections 161, 481, 1818, and 1820 of Title 12 of the United States Code. This part requires the filing of a Statement of Interest, Form CC-9030-29, by directors and principal officers of national banks. An initial statement must be filed by May 1, 1975, or within 30 days after attaining the position of director or principal officer of a national bank, whichever is later.

* * * * * *

3. The effective date is revised to read as follows:

Effective date. This part becomes effective on May 1, 1975.

Effective date. This amendment becomes effective on February 24, 1975.

Dated: February 18, 1975.

JAMES E. SMITH,
Comptroller of the Currency.

[FR Doc.75-4964 Filed 2-21-75;8:45 am]

CHAPTER II—FEDERAL RESERVE SYSTEM

SUBCHAPTER B—FEDERAL OPEN MARKET COMMITTEE

PART 271—RULES REGARDING AVAILABILITY OF INFORMATION

Implementation of 1974 Amendments to the Freedom of Information Act

The purpose of these revisions is to implement the 1974 Amendments to the Freedom of Information Act (5 U.S.C. 552). The amended regulations will (1) provide specific time limits for making a determination as to the availability of requested information (2) clearly identify the official[s] responsible for any initial or final denial of a request for information and (3) revise the Committee's Rules with regard to exemption (1) of the Freedom of Information Act.

Additionally, on January 27, 1975 there was published in the FEDERAL REGISTER (40 FR 4022) a notice of proposed rulemaking with regard to a proposed fee schedule applicable to all constituent units of the Committee. The Committee has considered all aspects of the proposed fee schedule and the proposed fee schedule is hereby adopted with the following change: addition of a provision for the waiver of search and duplication charges of less than $2. The new fee schedule is incorporated herein as § 271.4(f) of the revised Rules Regarding Availability of Information.

In order to accomplish these revisions and to otherwise update the Rules Regarding Availability of Information, §§ 271.4 and 271.6 are amended, effective February 19, 1975, in the following respects:

(1) Section 271.4 is amended by the modification of paragraph (c) and the addition of new paragraphs (d), (e) and (f) to read as follows:

§ 271.4 Records available to the public on request.

* * * * * *

(c) *Obtaining access to records.* Any person requesting access to records of the Committee shall submit such request in writing to the Secretary of the Committee. In any case in which the records requested, or copies thereof, are available at a Federal Reserve Bank, the Secretary of the Committee may so advise the person requesting access to the records. Every request for access to records of the Committee shall state the full name and address of the person requesting them and shall describe such records in a manner reasonably sufficient to permit their identification without undue difficulty. The Secretary of the Committee shall determine within ten working days after receipt of a request for access to records of the Committee whether to comply with such request; and he shall immedi-

XUM V 40 37 FEB 24 75 XUM

ately notify the requesting party of his decision, of the reasons therefor, and of the right of the requesting party to appeal to the Committee any refusal to make available the requested records of the Committee.

(d) *Appeal of denial of access to records of the Committee.* Any person who is denied access to the records of the Committee, properly requested in accordance with paragraph (c) of this section, may file, with the Secretary of the Committee, within ten days of notification of such denial, a written request for review of such denial. The Committee, or such member or members of the Committee may designate (pursuant to § 272.4(c) of its Rules of Procedure) shall make a determination with respect to any such appeal within 20 working days of its receipt, and shall immediately notify the appealing party of the decision on the appeal and of the right to seek court review of any decision which upholds, in whole or in part, the refusal of the Secretary of the Committee to make available the requested records.

(e) *Extension of time requirements in unusual circumstances.* In unusual circumstances as provided in 5 U.S.C. 552 (a)(6)(b), the time limitation imposed upon the Secretary of the Committee or the Committee or its designated representative(s) in paragraphs (c) and (d) of this section may be extended by written notice to the requesting party for a period of time not to exceed a total of ten working days.

(f) *Fee schedule.* A person requesting access to or copies of particular records shall pay the costs of searching and copying such records at the rate of $10 per hour for searching and 10 cents per standard page for copying. With respect to information obtainable only by processing through a computer or other information systems program, a person requesting such information shall pay a fee not to exceed the direct and reasonable cost of retrieval and production of the information requested. Detailed schedules of such charges are available upon request from the Secretary of the Committee. Documents may be furnished without charge or at a reduced charge where the Secretary of the Committee or such person as he may designate determines that waiver or reduction of the fee is in the public interest because furnishing the information can be considered as primarily benefiting the general public, or where total charges are less than $2.

(2) Section 271.6 is amended by the deletion of the concluding sentence in that section and the revision of paragraph (a) to read as follows:

§ 271.6 Information not disclosed.

* * * * *

(a) is exempted from disclosure by statute or is specifically authorized under criteria established by an executive order to be kept secret in the interest of national defense or foreign policy and is in fact properly classified pursuant to such executive order.

(3) The requirements of section 553 of title 5, United States Code, with respect to notice, public participation, and deferred effective date were not followed in connection with these amendments (except for § 271.4(f)) because the rules involved are procedural in nature and accordingly do not constitute substantive rules subject to the requirements of such section.

By order of the Federal Open Market Committee, February 19, 1975.

ARTHUR L. BROIDA,
Secretary.

[FR Doc.75-4887 Filed 2-21-75;8:45 am]

Title 13—Business Credit and Assistance

CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Rev. 2, Amdt. 1]

PART 102—DISCLOSURE OF INFORMATION

Document Search Fee Schedules

On January 17, 1975, there was published in the FEDERAL REGISTER (40 FR 3014) a notice of proposed rulemaking to amend the Small Business Administration Regulation which, among other things, implements the Freedom of Information Act, 5 U.S.C. 552, in order to give effect to certain provisions contained in the 1974 Freedom of Information Act Amendments, Pub. L. 93-502, enacted November 21, 1974, and effective February 19, 1975.

The amendment establishes the schedule of fees for document search and duplication, and other information services. It reflects the Agency determination that the periodic publication and distribution of the public index required by the Act is unnecessary and impracticable. It also adds the District of Columbia to the provision setting forth the jurisdictions available for judicial review of agency refusals to disclose; adds a provision establishing administrative deadlines for determining requests for information and records, and appeals of agency denials of such requests, as well as requiring the identification of persons responsible for such denials; and adds a provision requiring the disclosure of portions of records segregable from nondisclosable portions.

Agency regulations already cover other requirements of the 1974 Amendments, e.g., the extent to which requests must describe agency records and the circumstances under which fees will be waived in the public interest.

Interested persons were given 30 days in which to submit written comments or suggestions regarding the proposed amendment. Since more has been received, the proposed amendment is adopted without change, except for minor technical corrections, as set forth below, and is effective February 19, 1975, to conform to the effective date of Pub. L. 93-502.

Dated: February 19, 1975.

THOMAS S. KLEPPE,
Administrator.

Chapter I, Part 102, Title 13 of the Code of Federal Regulations is hereby amended as follows:

1. By adding new paragraphs (k) and (l) to § 102.3 as follows:

§ 102.3 Information and records available to the public and exempt from disclosure.

* * * * *

(k) *Disclosure of segregable portions of records.* If a record contains both disclosable and nondisclosable information, any reasonably segregable portion of such record shall be provided to the requester after deletion of the nondisclosable portions.

(l) *Public Index of SBA materials.* The Public Index providing identifying information for the public as to matters issued, adopted, and promulgated by the Agency is available for inspection and copying. The Agency has determined that periodic publication and distribution is unnecessary and impracticable as permitted by the Freedom of Information Act.

2. By adding a new paragraph (f) to § 102.4 as follows:

§ 102.4 Public access to information and records.

* * * * *

(f) *Written requests under the Freedom of Information Act.*

(1) *Time limitations.* If a request for information and records is made in writing, it shall be considered a request under the Act and a determination whether, or the extent to which, the Agency will comply with the request shall be made within 10 working days after receipt of the request by the Agency. In unusual circumstances the Act permits an extension of up to 10 days if the Agency gives written notice to the requester setting forth the reasons for the extension and the date on which a determination is expected to be sent. As defined in the Act, "unusual circumstances" means:

(i) the need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(ii) the need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(iii) the need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the Agency having substantial subject-matter interest therein.

(2) *Notice of denial of request.* A denial of a request or any part thereof under this paragraph must be in writing, and must advise the requester of a right to appeal to the Assistant Administrator for Congressional and Public Affairs, Small Business Administration, Washington, D.C. 20416, by letter or other written communication containing a description of the information requested, the name and place of employment of the SBA official or employee who denied

the request, the reason, if any, given for the denial, and such other pertinent facts as the requester deems appropriate. The notice of denial must also contain the names and titles or positions of each person responsible for the denial of the request.

3. By amending paragraphs (a) and (e) of § 102.5 to read as follows:

§ 102.5 Administrative appeal of refusal to disclose.

(a) *Who may appeal.* Any person whose request for information or records has been denied may submit a written appeal to the Agency. A failure by the Agency to act on a request within the time limit imposed by § 102.4(f) of this part shall be deemed a denial for purposes of appeal.

* * * * *

(e) *Agency decision.* (1) *Who decides.* Final Agency decisions on appeals from refusals to disclose information or records shall be made by the Assistant Administrator for Congressional and Public Affairs, who shall promptly review each appeal and provide appellant and other interested parties, if any, with a written notice of the decision.

(2) *Notice of decision.* If the decision upholds the refusal to disclose, the notice shall set forth the exemptions from disclosure under the Freedom of Information Act which form the basis of the decision. The notice shall also advise that judicial review is available on complaint to the district court of the United States in the district in which the appellant resides, or has his principal place of business, or in which the Agency records are located, or in the District of Columbia.

(3) *Time limitations.* The decision on the appeal to determine whether, or the extent to which, the Agency will comply with the request for information or records shall be made within 20 working days after receipt of such appeal. In unusual circumstances as defined in § 102.4 (f)(1) of this part, an extension of up to 10 days, less any time used under the extension permitted by § 102.4(f)(1), is authorized, if the Agency sends written notice to the requester setting forth the reasons for the extension and the date on which the decision is expected to be sent.

4. By amending § 102.6 to read as follows:

§ 102.6 Fees.

(a) *Basis.* Fees for document search and duplication relating to records and information requested under the Freedom of Information Act are set to recover direct costs involved. Fees for compilations or complying with requests for information not currently in identifiable form or existence, are based on the Federal User Charge Statute, 31 U.S.C. 483a and may include direct and indirect costs. No fee shall be charged for time spent in resolving legal or policy issues, or where the request for information or records is denied, or where the requested information or records are not found. A document search includes time spent searching within documents and files of documents to determine which parts thereof are subject to or exempt from public disclosure.

(b) *Method of payment.* Fees may be paid in cash, by personal check, or by other form of remittance suitable to SBA. Payment shall normally be due at the time the service is rendered. However, where extensive record searches or compilations are involved and the fee will, in the opinion of the Agency, probably exceed $100.00, the person requesting the service shall pay whatever is estimated by SBA to be appropriate before any search or compilation is undertaken. Fees paid in advance shall be held in suspense pending completion of the search or compilation and adjusted when final charges have been determined.

(c) *Prices.* (1) The charge for duplication will be ten (10) cents per page.

(2) The charge for search of SBA records and duplication by clerical personnel will be at the rate of $5.00 per hour.

(3) The charge for search of SBA records by professional and managerial personnel will be at the rate of $9.00 per hour.

(4) For information which has to be compiled the charge will include the cost of employees' time, cost of computer runs or other equipment use based upon the types of computer and other equipment and the time they are utilized, the cost of supplies and materials necessary to produce the requested records, and overhead expense. It is not practicable to establish fixed-prices for such services. Since there is no obligation on the part of the Agency to compile records or data, requests for compilations must be reasonable and not unduly interfere with normal SBA operations or program activities.

(5) Persons may inspect and copy documents by their own means in the SBA facilities without charge except for search or compilation charges which may be otherwise payable.

(d) *Waiver of Fees.* Fees will be waived when less than $5.00 or when it is in the public interest to do so. Such a waiver will be in the public interest, for example, when in the determination of the Agency the request will not impose an undue burden or expense upon it *and* the request is (1) from another Government organization, Federal, State or local; (2) for the purpose of obtaining information primarily for the benefit of the general public rather than for the primary benefit of the requester, as will be the case with certain requests from news media and from organizations engaged in a nonprofit activity designed for public safety, health, welfare, or education; (3) from employees and former employees seeking information from their own personnel records; (4) from or on behalf of the defending party in connection with a proceeding against such party by the Federal Government; and (5) from a low-income person and the fee would impose a financial hardship.

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75-NW-6-AD; Amdt. 39-2096]

PART 39—AIRWORTHINESS DIRECTIVES

Boeing Model 707/727/737 Series Airplanes

Cracks have been discovered in certain control cable pulleys on Boeing Model 707, 727, and 737 series airplanes that could result in degradation of the affected control systems. Since this condition is likely to exist or develop in other airplanes of the same type design, an airworthiness directive is being issued to require inspection and replacement of Arvan Inc. control cable pulleys MS 20220-3 and -4 (color black only) which are installed on Boeing Model 707, 727, and 737 series airplanes.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697) § 39.13 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

BOEING. Applies to all Boeing Model 707, 727, and 737 series airplanes, as listed in Boeing Alert Service Bulletins 3204 (707), 727-27-155, and 737-27-1073, or later FAA approved revisions, with Arvan Inc./Tansey control cable pulleys MS 20220-3 and -4 or SMS 20220-3 and -4 (color black only) (Boeing Part Number BACP30P8 and BACP30P9), certificated in all categories. Compliance required as indicated.

A. To detect cracks in Arvan Inc./Tansey control cable pulleys MS 20220-3 and -4 or SMS 20220-3 and -4 (color black only) accomplish the following:

1. Within the next 25 hours time in service from the effective date of this AD, unless already accomplished, inspect the control cable pulleys which are located in the critical areas of the airplane in accordance with Boeing Alert Service Bulletins 3204 (707), 727-27-155, and 737-27-1073, or later FAA approved revision, or in a manner approved by the Chief, Engineering and Manufacturing Branch, FAA Northwest Region. The critical areas are defined in the above Boeing Alert Service Bulletins.

2. If crack(s) are found, replace the pulleys in accordance with the above Boeing Alert Service Bulletins, before further flight.

B. Replace all Arvan Inc./Tansey control cable pulleys MS 20220-3 and -4 or SMS 20220-3 and -4 (color black only) as follows:

1. Within 100 hours time in service from the effective date of this AD, unless already accomplished, replace those pulleys located in the critical areas defined in Boeing Alert Service Bulletins 3204 (707), 727-27-155, and 737-27-1073 or later FAA approved revisions.

2. Replace all other affected pulleys within 600 hours from the effective date of this AD, unless already accomplished.

NOTE.—The affected parts were not available from the manufacturer prior to August 1974.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1).

XUM
V 40 37 FEB 24 75 F
XUM

All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Boeing Commercial Airplane Company, P.O. Box 3707, Seattle, Washington 98124. The documents may be examined at FAA Northwest Region, 9010 East Marginal Way South, Seattle, Washington.

This amendment becomes effective February 24, 1975.

(Secs. 313(a), 601, 603, Fedreal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, 1423); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Seattle, Washington on February 7, 1975.

C. B. WALK, Jr.,
Director,
Northwest Region.

NOTE.—The incorporation by reference provisions in the document were approved by the Director of the Federal Register on June 19, 1967.

[FR Doc.75-4948 Filed 2-24-75;8:45 am]

[Docket No. 75-GL-2; Amdt 39-2101]

PART 39—AIRWORTHINESS DIRECTIVES

Goodyear Main Wheel Assembly

Some operators have reported inservice failures of DC-10-30 and DC-10-40 main landing gear wheel bolts. There has been an incident of a fatigue-type failure, on a single wheel, of three (3) MS 21250-10060 bolts used to attach the wheel halves of the Goodyear main wheel assembly P/N's 500757-1 and -2. These wheels are typically used on, but their use is not limited to, McDonnell-Douglas Aircraft Company DC-10-30 and DC-10-40 series aircraft. Failure of these bolts could result in a wheel failure, thereby causing an unsafe condition during takeoff or landing of the aircraft. This Airworthiness Directive is being issued to require inspection of the wheel half attaching bolts of the Goodyear wheel assembly P/N's 500757-1 and -2.

The compliance time for the initial inspection herein prescribed as the next tire change or wheel re-assembly, has been established by the agency on the basis of safety considerations. This compliance time provides the lead time for operators to schedule and plan compliance with the Airworthiness Directive with a minimum burden. To prescribe the initial inspection required by this Airworthiness Directive under the usual notice and public procedures followed by the agency with the time period the agency has determined is required in the interest of safety, would necessarily result in a reduction of the compliance time for the initial inspection required by this Airworthiness Directive. This could provide certain operators insufficient time to schedule airplanes for compliance with the Airworthiness Directive. Therefore, accomplishment of the initial inspection required by this Airworthiness Directive, within the time the agency has determined is necessary, renders strict compliance with the notice and public procedure provisions of the Administrative Procedure Act impracticable. Accordingly, this amendment becomes effective thirty (30) days after publication in the FEDERAL REGISTER; however, interested persons are invited to submit such written data, views, or arguments as they may desire regarding this Airworthiness Directive. Communications should identify the Docket Number and be submitted in duplicate to the Director, Great Lakes Region, Attention: Regional Counsel, Airworthiness Rules Docket, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received before the effective date will be considered by the Administrator, and the Airworthiness Directive may be changed in the light of comments received. All comments will be available both before and after the effective date in the Rules Docket for examination by interested persons. Operators are urged to submit their comments as early as possible since it may not be possible to evaluate comments received near the effective date in sufficient time to amend the Airworthiness Directive before it becomes effective, in the event amendment is determined to be appropriate.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697 and 14 CFR 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new Airworthiness Directive:

GOODYEAR AEROSPACE CORPORATION. Applies to main wheel assemblies P/N's 500757-1 and -2 typically used on, but their use is not limited to, McDonnell-Douglas Aircraft Company DC-10-30 and DC-10-40 series aircraft.

Compliance is required at the next tire change or wheel re-assembly after the effective date of this Airworthiness Directive, unless already accomplished, and thereafter at each tire change or wheel re-assembly or during replacement of any wheel half attaching bolts in a tire/wheel assembly. New wheels or spare wheel assemblies with previously magnetic-particle inspected bolts are exempt only from the initial inspection.

To prevent failures of the MS 21250-10060 bolts attaching the wheel halves, accomplish the following:

(a) Perform magnetic-particle inspection for cracks of all wheel-half attaching bolts, paying particular attention to the radius under the bolt head and to the threads. Replace cracked bolts and those having stripped, crossed or damaged threads. No reworking of wheel bolts is permitted. Defective bolts shall be scrapped.

This amendment becomes effective February 28, 1975.

Secs. 313(a), 601, and 603 Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423); Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois, on February 14, 1975.

JOHN M. CYROCKI,
Director, Great Lakes Region.

[FR Doc.75-4844 Filed 2-21-75;8:45 am]

[Airspace Docket No. 74-GL-50]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Designation of Transition Area

On Page 1060 of the FEDERAL REGISTER dated January 6, 1975, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a transition area at Deckerville, Michigan.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective April 24, 1975.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), of the Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois, on February 10, 1975.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.181 (39 FR 440), the following transition area is added:

DECKERVILLE, MICHIGAN

That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of the Lamont Airport (Latitude 43°34'35" N., Longitude 82°39'10" W.); within 3 miles each side of the 076° bearing from the airport, extending from the 5.5-mile radius area to 8.5 miles east of the airport; within 3 miles each side of the 285° bearing from the airport, extending from the 5.5 mile radius area to 8.5 miles west of the airport.

[FR Doc.75-4846 Filed 2-21-75;8:45 am]

[Airspace Docket No. 74-GL-49]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On Pages 1059 and 1060 of the FEDERAL REGISTER dated January 6, 1975, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Jacksonville, Illinois.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective April 24, 1975.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Des Plaines, Illinois, on February 10, 1975.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.181 (39 FR 440), the following transition area is amended to read:

JACKSONVILLE, ILLINOIS

That airspace extending upward from 700 feet above the surface within a 5 mile radius of Jacksonville Municipal Airport (Latitude 39°48'30" N., Longitude 90°14'15" W.); within 3 miles each side of the 311° bearing from the airport, extending from the 5 mile radius area to 8 miles northwest of the airport; and within 3 miles each side of the 136° bearing from the airport, extending from the 5 mile radius area to 6 miles southeast of the airport.

[FR Doc.75-4845 Filed 2-21-75;8:45 am]

[Airspace Docket No. 74-GL-48]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On Page 1060 of the FEDERAL REGISTER dated January 6, 1975, the Federal Aviation Administration published a Notice of Proposed Rule Making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at New Castle, Indiana.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the proposed amendment is hereby adopted without change and is set forth below.

This amendment shall be effective 0901 G.m.t., April 24, 1975.

(Sec. 307(a), Federal Aviation Act of 1958 [49 U.S.C. 1348]; sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c))

Issued in Des Plaines, Illinois on February 10, 1975.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

In § 71.181 (39 FR 440), the following transition area is amended to read:

NEW CASTLE, INDIANA

That airspace extending upward from 700 feet above the surface within 5 mile radius of the New Castle-Henry County Municipal, Sky Castle Airport (Latitude 39°52'35" N., Longitude 85°19'35" W.); within 3 miles each side of the 110° bearing from the airport, extending from the airport to 8 miles east.

(Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of sec. 6(c) of the Department of Transportation Act [49 U.S.C. 1655(c)].

[FR Doc.75-4847 Filed 2-23-75;8:45 am]

Title 32—National Defense

CHAPTER VII—DEPARTMENT OF THE AIR FORCE

SUBCHAPTER A—ADMINISTRATION

PART 806—DISCLOSURE OF AIR FORCE RECORDS

This revision establishes procedures to permit more rapid access to releasable information, outlines new policy on determining what is releasable under the Freedom of Information Act, as amended, and completely changes the previous version of this part.

Part 806, Subchapter A of Chapter VII of Title 32 of the Code of Federal Regulations is revised to read as follows:

Subpart A—General Information

Sec.
806.1 Purpose.
806.3 Types of requests covered by this part.
806.5 Special release procedures for certain types of records.
806.6 Definitions.
806.7 Responsibilities.
806.9 Requirements for annual report.
806.11 Actions after the effective date of this part.
806.13 Documentation.
806.15 Programs of instruction.

Subpart B—Policies Governing Disclosure of Records

806.17 Basic policies on disclosure.
806.19 Specific policies on disclosure.
806.21 Schedule of fees for searching and duplication under the Freedom of Information Act.
806.23 Records that may be withheld from disclosure.
806.25 Partial denial.

Subpart C—Disclosure and Denial Authorities

806.27 Disclosure authorities.
806.29 Disclosure authority for specialized requests.
806.31 Denial authorities.
806.33 Responsibilities of disclosure and denial authorities.

Subpart D—Processing Requests for Records

806.35 Use of functional address indicator.
806.37 Responsibilities of the Freedom of Information Manager.
806.39 Responsibilities of the DAD.
806.41 Processing procedures.
806.43 Notice of administrative extension.
806.45 Expedited handling required.

Subpart E—How the Public Submits Requests for Records

806.47 Identifying material requested.
806.49 Addressing requests.
806.51 Where to send requests.
806.53 Where to address requests for records of military personnel.
806.55 Where to address requests for Air Force technical, supply, and engineering publications and data.

Subpart F—Appeals From Denials to Make Records Available

806.57 Filing an appeal.

AUTHORITY: Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012; 5 U.S.C. 552.

Subpart A—General Information

§ 806.1 Purpose.

This part outlines policy and procedure on the disclosure of records, establishes mandatory time limits, and explains how members of the public may inspect or obtain copies of Air Force records, under the Freedom of Information Act (5 U.S.C. 552, as amended by Pub. L. 93-502). It implements Part 286 of this title. It applies to all Air Force activities. In case of a conflict, this part takes precedence over any existing Air Force directive dealing in whole or in part with the disclosure of records.

§ 806.3 Types of requests covered by this part.

(a) This part governs the disclosure of records to the general public, including military and civilian personnel who are acting as private citizens.

(b) In addition to the general procedures outlined in this part, some records are subject to specialized or limited disclosure procedures, such as those listed in § 806.5.

§ 806.5 Special release procedures for certain types of records.

Type of specialized request:	*Governing directive*
Accident/incident investigation and reports.	AFR 127-4.
Background, criminal and counterintelligence reports of investigation.	Pt. 952 of this chapter.
Civilian personnel records.	Federal personnel manual, ch. 294, and AF supplement.
Classified records	DOD ISPR 5200.-1R/AFR 205-1.
Collateral investigations of aircraft and missile accidents.	AFR 110-14.
Computer system descriptions, programs and related documentation.	AFM 171-9.
Inspector General investigation.	AFR 120-3.
Drug/alcohol abuse programs documentation.	AFR 30-2.
Inspection reports	AFR 123-1.
Litigation	Pt. 840 of this chapter.
Medical records	AFR 168-4.
Military personnel records.	Pt. 806a of this chapter.
News media	AFR 190-12.
Procurement information reports.	Pts. 1-39 of this title.
Release of test results on commercial equipment.	AFR 80-24.
Unclassified records of trial after courts-martial.	AFM 111-1.

§ 806.6 Definitions.

(a) *Denial authority.* Anyone having the authority to deny the disclosure of records requested by the public.

(b) *Determination.* The decision either to grant or deny a request from the public for records.

(c) *Disclosure.* The act of making a record available for inspection or of providing a copy of the record to the public when requested.

(d) *Disclosure authority.* Anyone having the authority to disclose records requested by the public.

XUM
V40137
FEB 24 75
XUM

(e) *Freedom of Information Manager.* The person responsible for managing the Freedom of Information Program at each level.

(f) *Functional address indicator DADF.* DADF is the indicator to identify all forms of communications pertaining to requests under the Freedom of Information Act (see AFM 10-6, Air Force Standard Functional Address Symbol System).

(g) *Partial denial.* A determination that any portion of a requested record be withheld.

(h) *Records.* For the purpose of this part, "records" are defined as all books, papers, maps, photographs, or other documentary materials, regardless of physical form or characteristics, made or received by any agency of the United States Government under Federal law or in connection with the transaction of public business and preserved or appropriate for preservation by that agency or its legitimate successor as evidence of the organization, functions, policies, decisions, procedures, operations or other activities of the Government or because of the informational value of data in them (44 U.S.C. 3301). This definition should be used as a guide.

(1) The term "records" does not include objects or articles such as structures, furniture, paintings, sculpture, three-dimensional models, vehicles, equipment, and so forth, whatever their historical value as "evidence."

(2) Records are not limited to permanent or historical documents; they include contemporaneous ones as well.

(3) Formulae, designs, drawings, research data, computer programs, technical data packages, etc. are not considered "records" within the Congressional intent of 5 U.S.C. 552. Because of development costs, utilization, or value, these items are considered property, not preserved for information value or as evidence of agency functions, but as exploitable resources to be utilized in the best interest of all the public.

(i) Requests for copies of such material shall be evaluated in accordance with policies expressly directed to the appropriate dissemination or use of such property.

(ii) Requests to inspect such material to determine its content for informational purposes shall normally be granted, however, unless inspection is inconsistent with the obligation to protect the property value of the material as, for example, may be true for certain formulae.

§ 806.7 Responsibilities.

In carrying out the objectives and requirements of the Freedom of Information Act, as amended, the responsibilities in paragraphs (a) through (g) of this section are assigned:

(a) *Administrative Assistant to the Secretary of the Air Force (SAF/AA).* Overall responsibility within the Air Force for implementation of and compliance with the Act. Responsible for final decisions of appeals (see § 806.75).

(b) *Director of Administration (HQ USAF/DA).* Responsible for administrating and supervising the policies and procedures prescribed within this part; for submitting the annual report; and for developing an Air Force program of instruction on the Freedom of Information Act.

(c) *Commanders of major commands and separate operating agencies of the Air Force.* Responsible for implementing this part within their commands and agencies.

(d) *FOI Managers (DAD) at all levels of the Air Force.* Overall responsibility for controlling and processing all requests for records; for obtaining recommended determinations from the office of primary responsibility (OPR) for the records requested; for collecting fees; and for submitting required reports.

(e) *Disclosure and denial authority.* Their responsibilities are set forth in § 806.33 of this part.

(f) *Office of primary responsibility for the requested record.* Responsible for providing the requested record and for assisting the disclosure authority in making a determination within prescribed 10-day time limit.

(g) *The office designated by the FOI Manager to process requests.* Responsible for control and suspense of requests and promptly making records available within the prescribed 10-day time limit.

§ 806.9 Requirements for annual report.

The DAD at each major command and separate operating agency of the Air Force and HQ USAF/DADP must furnish an annual report on Freedom of Information Act activities during the calendar year. The report control symbol is DD-PA(A)1365. The report must be submitted to HQ USAF/DAD on or before January 15 of each year. The report must include:

(a) The number of requests processed under this part.

(b) The number of determinations made not to comply with requests for records made under this part and the reasons for each such determination.

(c) The names and titles or positions of each person responsible for the denial of records requested under this part, and the number of instances of participation for each.

(d) The total amount of fees collected for making records available under this part.

(e) A copy of each command supplement or other instructions issued to implement this part.

(f) All information that indicates efforts to instruct and educate personnel and to administer fully the Freedom of Information Act.

(g) Such data on the costs of processing requests under this part as can reasonably be ascertained or estimated.

(h) Any problems incurred in implementing this part and any solutions for those problems.

§ 806.11 Actions after the effective date of this part.

Any requests for records or administrative appeals still pending in the Air Force on February 19, 1975 (the effective date), will become subject to this part.

§ 806.13 Documentation.

Dispose of documentation prescribed by this part in accordance with AFM 12-50, Disposition of Air Force Documentation.

§ 806.15 Programs of instruction.

HQ USAF/DAD will establish programs of instruction on the provisions and requirements of this part for all officials and employees who contribute to the implementation of the Freedom of Information Act.

Subpart B—Policies Governing Disclosure of Records

§ 806.17 Basic policies on disclosure.

(a) It is the policy of the Department of Defense and the Air Force to make available to the public the maximum amount of information and records concerning their operations and activities.

(b) This basic policy is subject to the necessary exemptions recognized in 5 U.S.C. 552(b); that is, certain records may need to be withheld from public disclosure, as explained in § 806.23. However, even when such nondisclosure is so authorized, the request for disclosure may be granted at the sole discretion of the Air Force, if no significant and legitimate Governmental purpose is served by withholding them.

(c) Determination that a record should be withheld must not be influenced by the possibility that its release might suggest administrative error or inefficiency or might otherwise embarrass the Air Force or an official of the Air Force.

(d) A request for a record is considered satisfied when one copy is provided, which may be reproduced by the requester.

§ 806.19 Specific policies on disclosure.

(a) Any reasonably described material in the possession of the Air Force that qualifies as a "record" (as defined in § 806.6(h)) and is not exempt from disclosure under § 806.23, should be made available upon written request from any person.

(b) To be considered reasonably described, the record must already exist at the time of the request; that is, there is no obligation to create a record to satisfy a request for information. However, if the information exists in the form of several records at so many different locations that gathering the information would involve excessive administrative costs, the requester should be referred to the sources at those locations.

(c) A requester must be reasonably specific in identifying each record he would like made available. The Air Force is not required to permit the requester to browse through entire files or large series of records to find a record he may then identify. The Air Force must make a reasonable effort to locate any records requested.

(1) A request for a specific record should not be denied solely because the record is maintained by computer.

(2) The request may be denied only by an official designated in § 806.29 as explained in Subpart C of this part. (Other

Air Force directives may also contain specific procedures for release or denial of records (§ 806.5 of this part).)

(d) Under 5 U.S.C. 552(a)(4(A)) and 31 U.S.C. 483a, requesters are charged the reasonable standard costs to the Air Force for searching and duplication.

(1) Charges are determined as explained in § 806.21.

(2) No charge is made to the public for the use of an established reading room or reference library.

(3) The fee shall not include the cost of determining whether the record is exempt from disclosure under § 806.23 or whether it would serve a significant and legitimate Governmental purpose to withhold the record.

(e) Official requests for records received directly from foreign governments, their representatives, or international commands may be answered only by offices holding delegation of disclosure authority letters as described in AFR 200-9, Disclosure of Classified Military Information to Foreign Government and International Organizations. Other Air Force recipients must send such correspondence to the foreign disclosure policy office within their major command or to HQ USAF/CVAFI.

§ 806.21 Schedule of fees for searching and duplication under the Freedom of Information Act.

(a) *Publications, forms and reports:*

(1) *Shelf stock of printed or microfiche medium.* Requesters may be furnished more than one copy of a publication or form if it does not deplete stock levels below projected planned usage.

Minimum fee, per request	$2.00
Plus:	
Forms, per copy	.05
Publications, per printed page	.01
Microfiche, per fiche	.06
Reports, per printed page	.05

(Examples: Cost of 20 forms, $3.00 ($2.00 plus five cents per page); cost of a printed publication with 100 pages, $3.00 ($2.00 plus one cent per page); cost of a microfiche publication consisting of 10 fiche, $2.60 ($2.00 plus six cents per fiche)

(2) *Office copy reproduction (when shelf stock is not available).*

Minimum charge up to six reproduced pages	$2.00
Minimum charge, first fiche	5.00
Each additional page	.05
Each additional fiche	.10

(3) *Duplication of other issuances.*

Minimum charge up to six pages	$2.00
Each additional page	.05

(b) *Search fees.*

Clerical search, per hour	$6.50
Minimum charge	3.50
Professional search (includes computer programer time and review to determine whether a record comes within the scope of a request), per hour	13.00
Minimum charge	10.00

NOTE.—Computer service charges are to be based on the actual computer configuration used and based only on direct costs for the use of the central processing unit, plus input/output devices, plus memory capacity.

(c) *Exceptions.* No fee should ordinarily be charged if the requester is an indigent; if the fee amounts to less than $3.00; if the record is not located; or if the record is determined to be exempt from disclosure.

(1) In general, charges may be waived in the public interest when:

(i) The recipient of the benefits is engaged in nonprofit activity designed for public safety, health or welfare;

(ii) Payment of the full costs or fee by a state, local government or nonprofit group would not be in the interest of the program;

(iii) The incremental cost of collecting the fees would be an unduly large part of the receipts from the activity.

(2) A refusal to waive charges by the official responsible for the initial decision on the request may be appealed to the Secretary of the Air Force or his designee for final approval.

(d) *Collections.* (1) Fees will ordinarily be collected in advance of rendering the service. In some instances, it may be more practical to collect the fees at the time the service or property is conveyed to the recipient, but only when the request specifically states that whatever cost involved will be acceptable, or acceptable up to a specified limit that will cover the anticipated cost.

(2) Collection of scheduled fees will normally be deposited to Miscellaneous Receipts of the Treasury.

(3) Search fees are assessable even when no records responsive to the request (or no records not exempt from disclosure) are found, provided the requester is advised of this requirement, at the time the estimated charges are presented to the requester for approval and he agrees to incur the cost of search.

§ 806.23 Records that may be withheld from disclosure.

Records or portions of records which fall in one or more of the exemptions listed in § 806.23(a) through § 806.23(i) are exempt from disclosure to the public. Nevertheless, any request for such a record will not be denied unless it is also determined that a significant and legitimate Government purpose would be served by exercising the exemption. If only a portion of the record is determined to be exempt, the rest of the record must be disclosed (see § 806.25).

(a) Those properly and currently classified in the interest of national defense or foreign policy, as specifically authorized under the criteria established by Executive Order and implemented by regulations.

(b) Those containing rules, regulations, orders, manuals, directives, and instructions relating to the internal personnel rules or to the internal practices of the Air Force, if their release to the public would substantially hinder the effective performance of a significant function of the Air Force.

(1) Operating rules, guidelines and manuals for Air Force investigators, inspectors, auditors, or examiners, and certain schedules or methods of operation which would reveal:

(i) Negotiating and bargaining techniques.

(ii) Bargaining limitations and positions.

(iii) Inspection schedules and methods.

(iv) Audit schedules and methods.

(2) Personnel and other administrative matters such as examination questions and answers used in training courses or in the determination of qualifications of candidates for employment, entrance to duty, advancement, or promotions.

(c) Those containing information which statutes authorize or require be withheld from the public. The authorization or requirement may be found in the terms of the statute itself or in Executive Orders or regulations authorized by, or in implementation of, a statute.

(1) Trade, technical, and financial information provided in confidence by businesses.

(2) National Security Agency information.

(3) Any records containing information relating to inventions which are the subject of patent applications on which the Patent Secrecy Orders have been issued.

(4) The Privacy Act of 1974 (5 U.S.C. 552a).

(5) Restricted data and formerly restricted data.

(d) Those containing trade secrets or commercial or financial information which the Air Force receives from a person with the understanding that it will be retained on a privileged or confidential basis in accordance with customary handling of such records. Such records are those the disclosure of which would cause substantial harm to the competitive position of the person providing the information; impair the Government's ability to obtain necessary information in the future; or impair some other legitimate Government interest. Examples include records which contain:

(1) Commercial or financial information received in confidence in connection with loans, bids, contracts, or proposals, as well as other information received in confidence, or privileged, such as trade secrets, inventions and discoveries, or other proprietary data.

(2) Statistical data and commercial or financial information concerning contract performance, income, profits, losses and expenditures if offered and received in confidence from a contractor or potential contractor.

(3) Information customarily considered privileged or confidential under the rules of evidence in the Federal courts, such as information coming within the doctor-patient, lawyer-client, and priest-penitent privileges.

(4) Personal statements given in the course of inspections, investigations, or audits, where such statements are received in confidence from the individual and retained in confidence because they cover trade secrets or commercial or financial information normally considered confidential or privileged or because they are essential to an effective inspection, investigation, or audit.

XUM
V40137 FEB 24 75 F
XUM

(5) Data provided in confidence by private employers in connection with locality wage surveys which are used to fix and adjust pay schedules applicable to prevailing rate employees within the Air Force.

(e) Except as provided in §§ 806.23(e)(2) through 806.23(e)(5), internal communications within and among agencies and components.

(1) Examples include:

(i) Staff papers containing staff advice, opinions, or suggestions.

(ii) Information received or generated by the Air Force preliminary to a decision or action, including draft versions of documents, where premature disclosures would interfere with the orderly conduct of Government. (Preliminary or draft documents received from other Governmental organizations are not Air Force records and may not be released by the Air Force without the agreement of the organization).

(iii) Advice, suggestions, or reports prepared on behalf of the Air Force by boards, committees, councils, groups, panels, conferences, commissions, task forces, or other similar groups that are formed by the Air Force to obtain advice and recommendations, or by individual consultants.

(iv) Those portions of Air Force evaluations of contractors and their products which contain recommendations or advice by Government employees about the contractor or product.

(v) Advance information on such matters as proposed plans to procure, lease, or otherwise acquire and dispose of materials, real estate, facilities, or functions when such information would provide undue or unfair competitive advantage to private personal interests.

(vi) Records which are exchanged among agency personnel or within and among components or agencies preparing for anticipated legal proceedings before any federal, state or military court or before any regulatory body.

(vii) Reports of inspections, audits, investigations or surveys which pertain to safety, security, or the internal management, administration, or operation of the Air Force.

(2) If any such intra- or inter-agency record, or reasonably segregable portion of such record would routinely be made available through the discovery process in the course of litigation with the Air Force, that is, the process by which litigants obtain information from each other that is relevant to the issues in a trial or hearing, then it should not be withheld from the general public. If, however, the information would only be made available through the discovery process by special order of the court based on the particular needs of a litigant balanced against the interests of the Air Force in maintaining its confidentiality, then the record or document should not be made available to a member of the general public.

(3) Intra- or inter-agency memorandums or letters which are factual, or those reasonably segregable portions which are factual, are routinely made available through discovery and should, therefore, be made available to a requester unless the factual material is otherwise exempt from release.

(4) A direction or order from a superior to a subordinate, though contained in internal communication, is generally not withholdable from a requester if it constitutes policy guidance or a decision, as distinguished from a discussion of preliminary matters that would compromise the decision-making process.

(5) An internal communication concerning a decision which subsequently has been made a matter of public record should normally be made available to a requester when it furnishes the best support, explanation, or rationale for the decision.

(f) Information in personnel and medical files, as well as information in similar files that if disclosed to a member of the public would result in a clearly unwarranted invasion of personal privacy.

(1) Examples of files similar to personnel and medical files include:

(i) Those compiled to evaluate or adjudicate the suitability of candidates for civilian employment and the eligibility of individuals, civilian, military, or industrial, for security clearances or for access to particularly sensitive classified information.

(ii) Files containing reports, records, and other material pertaining to personnel matters in which administrative action, including disciplinary action, may be taken.

(2) In determining whether the release of information would result in a clearly unwarranted invasion of personal privacy, consideration should be given to the stated or assumed purpose of the request. When determining whether a release is clearly unwarranted, the public interest in satisfying this purpose must be balanced against the sensitivity of the privacy interest being threatened.

(3) When the only basis for withholding information is protection of the personal privacy of an individual who is the subject of the record, the information should not be withheld from him or from his designated legal representative. A clearly unwarranted invasion of the privacy of others appearing in that record may, however, constitute a basis for deleting reasonably segregable portions of the record even when providing it to the subject of the record.

(4) An individual's personnel, medical, or similar files may be withheld from him or from his designated legal representative only to the extent consistent with the Privacy Act of 1974 (5 U.S.C. 552a), after its effective date of September 27, 1975.

(g) Those investigative records compiled for the purpose of enforcing civil, criminal, or military law, including the implementation of Executive Orders, or regulations validly adopted pursuant to law.

(1) But only to the extent that their release would:

(i) Interfere with enforcement proceedings;

(ii) Deprive a person of the right to a fair trial or an impartial adjudication;

(iii) Constitute an unwarranted invasion of personal privacy;

(iv) Disclose the identity of a confidential source;

(v) Disclose confidential information furnished only from a confidential source obtained by a criminal law enforcement authority in a criminal investigation or by an agency conducting a lawful national security intelligence investigation;

(vi) Disclose investigative techniques and procedures not already in the public domain and requiring protection against public disclosure to insure their effectiveness;

(vii) Endanger the life or physical safety of law enforcement personnel.

(2) Examples include:

(i) Statements of witnesses, and other material developed during the course of the investigation, and all materials prepared in connection with related Government litigation or adjudicative proceedings.

(ii) The identity of firms or individuals suspended from contracting with the Air Force or being investigated for alleged irregularities when no indictment has been obtained nor any civil action filed against them by the United States.

(iii) Information obtained in confidence (expressed or implied) in the course of a criminal investigation by a criminal law enforcement agency or office within the Air Force or a lawful national security intelligence investigation conducted by an authorized agency or office within the Air Force for the purpose of obtaining affirmative or counter intelligence information or background investigation or eligibility for access to classified information.

(3) The right of individual litigants to investigative records currently available by law is not diminished.

(4) When the subject of an investigative record is the requester of that record, it may be withheld after September 27, 1975, only in accordance with regulations implementing the Privacy Act of 1974 (5 U.S.C. 552a). After September 27, 1975, the effective date of the Privacy Act of 1974, the identity of the source of information obtained in confidence may be withheld in accordance with an implied or express promise of confidentiality given prior to that date and in accordance with an express promise of confidentiality after that date. Information from which the confidential source can be deduced may also be withheld.

(h) Those contained in or related to examination, operating or condition reports prepared by, on behalf of, or for the use of any agency responsible for the regulation or supervision of financial institutions.

(i) Those containing geological and geophysical information and data (including maps) concerning wells.

§ 806.25 Partial denial.

Exempt portions of a requested record should be deleted and the remaining reasonable segregable portions should be disclosed to the requester. If the meaning of the nonexempt portions is distorted by the deletions, or if the nonexempt portions indirectly reveal the exempt portions of the record, those nonexempt portions which result in the distortion or revelation do not need to be disclosed.

(a) Here, reasonable segregation means segregating the record by the portions that were separately evaluated under a system for designating exempt portions at the time the record was originated. (To illustrate, see how certain paragraphs in DOD ISPR 5200.1R have been designated as classified information.)

(b) Each deletion shall be fully justified in writing. If any part of a requested record is withheld it is considered a partial denial, and § 806.31 (b) and (c) apply.

Subpart C—Disclosure and Denial Authorities

§ 806.27 Disclosure authorities.

The authority to disclose records of a routine nature, such as standard publications, photographs and local reports, may be delegated to a lower level than indicated in § 806.27 (a) and (b) of this part. This level, however, must be high enough to insure that releases are made by a responsible authority and according to the policy outlined in this part.

(a) Except for the types of records listed in § 806.29, or as specifically authorized by other Air Force directives, the following officials in § 806.27(a) (1) and (2) have authority to disclose records:

(1) Chiefs of offices at directorate or higher level at HQ USAF.

(2) Commanders at major commands or separate operating agency of the Air Force. This authority may be delegated to directorate or comparable level at major command headquarters and to the level of installation, wing or comparable commanders.

(b) The officers and officials listed in § 806.29 have authority to disclose or deny the specific types of records cited, if appropriate under this part.

§ 806.29 Disclosure authority for specialized requests.

Specialized type of record	*Who is the disclosure authority*
For use in litigation	The Judge Advocate General, or other authority listed in Part 840 of this title.
Records of trial after courts-martial	The Judge Advocate General, or other authority listed in AFR 111–2.
Medical records	The director, base medical service, or a designated medical officer, subject to the requirements of AFM 168–4.
Inspector General report of investigation	As outlined in AFR 120–3.
Inspection reports	As outlined in AFR 123–1.
Primary accident/incident investigations (excludes ground/explosive accidents).	As outlined in AFR 127–4.
Collateral accident investigation reports of investigations.	As outlined in AFR 110–14.
AF Office of Special Investigation reports of investigations.	As outlined in Part 952 of this title.
Classified records	The original classifier or the office currently responsible for the classification of the subject matter pursuant to DOD ISPR 5200.1R

§ 806.31 Denial authorities.

The authority to deny the disclosure of records to the public will not be delegated to a lower level than specified in paragraph (a) of this section unless approved by SAF/AA. Such request will be forwarded to HQ USAF/DA.

(a) Only the following officials or their designee have the authority to deny the release of records:

(1) Deputy chief of staff and chiefs of comparable offices or higher level at HQ USAF.

(2) Commanders of major commands or of separate operating agencies of the Air Force.

(b) These denial authorities will, however, consult with the Staff Judge Advocate before making a determination to deny, or partially deny, a request for disclosure of records.

§ 806.33 Responsibilities of disclosure and denial authorities.

(a) The officials who have been designated as disclosure and denial authorities (see §§ 806.27 and 806.31) will:

(1) Consider that a request is received by the Air Force when it is received by the DAD responsible for processing such requests; also within 10 days after its receipt (except Saturdays, Sundays, and legal public holidays), determine whether or not to comply with the request. Failure to make a determination within the time limits permits the requester to seek imediate judicial action.

(2) Immediately notify the person making the request of this determination. If this determination is adverse, notify the requester of the reason and of the right to appeal. (See § 806.57 for the appeal procedure.)

(3) The official who denies a request must send a copy of the denial to HQ USAF/JACL, Washington, D.C. 20314, together with a copy of the incoming request. The notice of denial must state the name and title or position of the official who denied the release.

(4) In unusual circumstances, as outlined in § 806.43, notify the requester that the processing will require an administrative extension of up to 10 workdays (except Saturdays, Sundays, and legal holidays).

(5) Make a timely determination on whether to approve or deny a request. If the determination cannot be met within the time limits, notify the next highest command in writing, signed by proper authority, and explain the reason for noncomplying within the time limit. Send an information copy of this notification to HQ USAF/JACL and DAD, Washington, D.C. 20330, together with a copy of the request.

Subpart D—Processing Requests for Records

§ 806.35 Use of functional address indicator.

The functional address indicator DADF will be used throughout the Air Force to designate the office responsible for processing all Freedom of Information requests for records from the public.

§ 806.37 Responsibilities of the Freedom of Information Manager.

Documentation management officers and documentation managers at all levels of the Air Force are designated as Freedom of Information Managers. The Freedom of Information Manager has the overall responsibility for the processing of all requests for records.

§ 806.39 Responsibilities of the DAD.

Within each activity, the DAD is the office of responsibility for processing requests for records. As such, it will:

(a) Be the focal point for:

(1) Receiving and processing requests for records, as explained in § 806.41.

(2) Providing facilities and services for inspecting, copying, and furnishing extra copies of records.

(3) Collecting fees and charges, if appropriate. Charge for publications and forms and for searching and duplicating records according to § 806.21. If a request is received for a publication that AFR O-serie indicates is on sale at the Government Printing Office, inform the requester that:

(i) A copy will be provided for him at the prevailing rate, if he desires; but

(ii) He may be able to purchase the document at a lower price from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

(b) Make available to the general public, the reference use of master publication libraries established under AFR 5–31, Publications Libraries and Individual Publications Sets. Do not charge for the use of normal library research services.

XUM
V 40 37
FEB 24 75
XUM

(1) If the document requested is a departmental publication that has been marked "FOR OFFICIAL USE ONLY" in accordance with AFR 12-31, Use and Protection of "For Official Use only" Information, transfer the request to HQ USAF/DADF for a response under the policies outlined in this part (especially § 806.43(c) for guidance).

(2) If the document requested is a departmental publication that has not been marked "FOR OFFICIAL USE ONLY," make it available promptly, without review.

(3) If the publication contains copyrighted material, it may be made available for public inspection, but because the sale or copying of such publications may be restricted, refer the request to OPR for processing under AFR 110-8, Inventions, Patents, Copyright, and Trademarks.

(c) Establish coordination and local working agreements between administrative reference libraries and other functional areas that maintain technical, professional, and specialized types of documentation.

(d) Notify the requester that the request cannot be satisfied if the record is not reasonably described. Request that, if possible, the requester send further identification. This kind of notification is not considered a denial under § 806.23.

(e) Send requests promptly and directly to other Government agencies if the requested record is in their possession. Notify the requester of the referral. If the request is for copies of material primarily concerning a member of the Congress or a Congressional committee, refer the requester to the member of the committee involved.

§ 806.41 Processing procedures.

When a request is received for disclosure of records under the Freedom of Information Act, DAD will:

(a) Record the date and time the request was received and assign a suspense date to the request.

(b) Acknowledge receipt of request if 10 or more workdays have elapsed between the postmark date of the request and the date received, or where unusual problems are readily apparent. Acknowledgment of routine requests is not necessary.

(c) Refer the request to the office that has possession of the record and any other office that should be consulted (for example, the Staff Judge Advocate) in determining whether to disclose the record to deny the request.

(d) Notify the information officer, if the request asks for records that contain potentially newsworthy material or if the request is received from a representative of the news media.

(e) If the records have been retired to a record center (or other repository), take the action outlined in AFM 12-50, chapter 9, and in the attachments to that directive, Disposition of Air Force Documentation.

(f) Consult with higher headquarters or other activities that have an interest in the requested material (or ask the office of primary responsibility to do this). For example, if the document is one that the Air Force received, it may be proper to consult the originator; conversely, if the Air Force originated the document, it may be proper to consult the recipient in determining whether it should be released.

(g) If the disclosure authority determines that the Air Force may make the material available, take one of the actions in § 806.41(g) (1) and (2).

(1) If the requester asked to inspect the record, tell him where and when it may be inspected. Inform him of the amount of the fee, if one is to be charged under § 806.21.

(2) If the requester asked for a copy of the record, inform him of the fee required under § 806.21 and explain that DAD will furnish the copy upon payment. If the request is urgent, he may be given the copy before payment.

(h) If the disclosure authority is not authorized by § 806.27 to deny the request, DAD should send the proposed denial directly to the proper denial authority for decision; it will include the case file and a statement of reasons for not disclosing the requested material. This referral must be given the highest priority action, because the denial authority must make this determination within the prescribed time limits.

(i) The denial authority makes the determination to disclose or deny the request for records within the prescribed time limitations.

§ 806.43 Notice of administrative extension.

In unusual circumstances, the FOI Manager has the authority to authorize an administrative extension of the time limit for processing a request by giving written notice to the requester, explaining the reason for the extension, and the date on which a notice of determination is expected to be dispatched. The notice will not specify a date that would be an extension of more than 10 workdays (except Saturdays, Sundays, and legal public holidays). Copies of this written notice must be sent to the next highest command with information copies to HQ USAF/JACL, Washington, D.C. 20314, and USAF/DAD, Washington, D.C. 20330. Unusual circumstances means:

(a) The need to search for and collect the requested records from field facilities or other establishments that are separate from the installation processing the request.

(b) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request.

(c) The need for consultation, which must be conducted with all practicable speed.

(1) With another agency having a substantial interest in the determination of the request, or

(2) Among two or more geographically separated installations of the Air Force having substantial subject matter interest therein.

§ 806.45 Expedited handling required.

The Air Force will give highest priority at each echelon to the handling of any request from a member of the public to inspect or copy records. Each Air Force office should make every effort to avoid creating procedural obstacles and compensate for internal Air Force organizational problems, for example, when a reorganization (or transfer of function) contributes to an improperly directed request. Specifically:

(a) If an office received an improperly directed request for records, it must notify the proper DADF office immediately and ask for instructions on how to refer the request.

(b) All Air Force personnel must make every reasonable effort to assist requesters in directing requests for records to the proper authorities (see AFR 11-25, Communications with and Service to the Public).

Subpart E—How the Public Submits Requests for Records

§ 806.47 Identifying material requested.

Requests to inspect or obtain copies of records will be made in writing. The request should contain at least the information in paragraphs (a) through (d) of this section.

(a) An identification as complete as possible of the desired material, including (if known) its title, description, its number, date, and the issuing authority.

(b) If the request concerns a matter of official record about civilian or military personnel, the request must identify the person as follows: first name, middle name or initial, and surname; date and place of birth; and social security account number (or Air Force service number), if known.

(c) A statement as to whether the requester wishes to inspect the record or obtain a copy of it.

(d) If the request is for information which is part of a military service record, the request may be submitted on a Standard Form 180, Request Pertaining to Military Records. Any agency may furnish copies of the SF 180 to the public to facilitate an unofficial inquiry, or may direct a nongovernmental organization to the Superintendent of Documents to purchase quantities of the form.

§ 806.49 Addressing requests.

To expedite processing, requesters should address their requests as shown in § 806.51 of this part. In addressing correspondence concerning their request for records to any Air Force activity, requesters should use the functional address indicator DADF (DADF is the standard Air Force-wide symbol to identify a request for records under the Freedom of Information Act). The mandatory time limit does not begin until the request is received by the proper DADF responsible for processing the request.

§ 806.51 Where to send requests.

Nature of request	*Address the request to*
For the matters of official record, for use in litigation.	HQ USAF/JACL (thru HQ USAF/DADF) Washington, D.C. 20330; or thru DADF at the activity where the record is located.
For matters of record concerning civilian employees currently employed by the Air Force.	The civilian personnel officer (thru DADF) of base or activity where the civilian is employed.
For matters of record concerning civilian employees no longer employed by the Federal service.	National Personnel Records Center, GSA (Civilian Personnel Records), 111 Winnebago Street, St. Louis, Missouri 63118.
For matters of record concerning members and former members of the Air Force, Air Force Reserve or Air National Guard.	See § 806.53 of this part on where to address these inquiries.
For standard publications (that is, regulations, etc., as defined in AFM 5-1, Air Force Publications Management Program).	The DADF at nearest Air Force installation, except: for the District of Columbia, to HQ USAF/DADF, Washington, D.C. 20330; and for remainder of the Metropolitan Washington, D.C. area, to HQ COMD/DADF, Bolling AFB, Washington, D.C. 20332.
For Air Force technical, supply and engineering publications and data.	See § 806.53 of this part.
For major command standard (that is, administrative) publications.	The DADF at the major command headquarters.
For reports of investigation compiled by the Air Force Office of Special Investigations.	HQ AFOSI/DADF, Forrestal Building, Washington, D.C. 20314.
For audiovisual materials (still photographs, motion pictures, and audio recordings) held at USAF depositories.	HQ USAF (SAF/OIPL) thru AF/DADF, Washington, D.C. 20330.
For other records, where the location of the record is known.	The DADF where the record is located.
For other records, where the location is not known.	HQ USAF/DADF, Washington, D.C. 20330.

§ 806.53 Where to address requests for records of military personnel.

NOTE: Records of members and former members of the Air Force are maintained in different locations, depending on the member's current status. Address requests for such records to the address indicated in this section.

Present military status	Present/past military rank	Proper address
On extended active duty	A commissioned officer, or warrant officer.	Organization of assignment, if known; otherwise, to: AFMPC/DPMDRO (DADF), Randolph Air Force Base, Tex. 78148.
Do	An airman	Organization of assignment, if known; otherwise, to: AFMPC/DPMDRA (DADF), Randolph Air Force Base, Tex. 78148.
A member of the Air Force Reserve, not on extended active duty.	A commissioned officer or warrant officer or airman.	ARPC/DADF, 3800 York St., Denver, Colo. 80205.
A member of the Air National Guard, not on extended active duty.	A commissioned officer, or warrant officer.	Do.
Do	An airman	Adjutant General of of the State (or District of Columbia or Commonwealth of Puerto Rico).
Retired for temporary disability	A commissioned officer or warrant officer.	AFMPC/DPMDRO(DADF), Randolph Air Force Base, Tex. 78148.
Do	An airman	AFMPC/DPMDRA(DADF), Randolph Air Force Base, Tex. 78148.
Retired with pay	A general officer	AFMPC/DPMDRO(DADF), Randolph Air Force Base, Tex. 78148.
Do	Other than a general officer	National Personnel Records Center (Military Personnel Records) 9700 Page Blvd., St. Louis, Mo. 63132.
Former member, no longer has an Air Force affiliation.	A commissioned officer, warrant officer, or airman.	Do.
Unknown	Unknown	AFMPC/DPMDRM(DADF), Randolph Air Force Base, Tex. 78148.

§ 806.55 Where to address requests for Air Force technical, supply, and engineering publications and data.

Type of publication	*Proper address*
Air Force Technical Orders (TO's). If the specific TO number is unknown, describe the desired TO, including the name of the equipment, manufacturer, model, serial, part number, and any other identifying information on the particular equipment.	Oklahoma City ALC(DADF), Tinker Air Force Base, Oklahoma 73145; or the prime ALC for the specific TO, if known.
Air Force Technical Reports (TR's), when specific source is unknown.	NTIS, 5285 Port Royal Road, Springfield, Virginia 22151 (Exception: for DDC users, to: DDC, Cameron Station, Alexandria, Virginia 22314.)
USAF and DOD Federal Supply Catalogs and related catalog publications indexed in USAF 8-2A-1.	AFLC/DADF, Wright-Patterson Air Force Base, Ohio 45433.

XUM V 40 37 FEB 24 75 XUM

Type of publication	*Proper address*
Cataloging Handbooks (H2–1, H2–2, H2–3, etc.) and Federal manuals for supply cataloging (M1–1, M1–2, M1–3, etc.), and Master Cross Reference Indexes, CRL–1 and CRL–2.	Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.
Engineering drawing and associated lists	AFLC(DADP), Wright-Patterson Air Force Base, Ohio 45433.
Armed Services Procurement Regulations (ASPR's) and Air Force supplements to ASPR's.	Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.
AF publications pertaining to automated data systems. Specifications, standards, military handbooks, etc. Indexed in the DOD Index of Specifications and Standards (DODISS).	AF/DSDC(DADP), Gunter AFS, Alabama, 36114. Naval Publications and Forms Center, 5801 Tabor Avenue, Philadelphia, Pennsylvania 19120.
The index to DOD–ISS above (including part 1, alphabetical listing, and part 2, numerical listing).	Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

Subpart F—Appeals From Denials To Make Records Available

§ 806.57 Filing an appeal.

(a) When a request to copy or inspect a record has been denied, the requester may appeal the denial, separately in writing, to the Office of the Secretary of the Air Force, within 45 days of denial.

(1) A requester will not be considered to have exhausted his administrative remedies within the Department of the Air Force unless such an appeal has been filed and a secretarial decision made on that appeal. That decision is the final Air Force action on the request (see exception in paragraph (a) (2) of this section).

(2) The requester will also be deemed to have exhausted his administrative remedies within the Air Force, if the Air Force fails to comply with the time limits prescribed in this part.

(b) The requester should address the appeal to the Office of the Secretary of the Air Force and send it through the denial authority who denied the request. (For example, if HQ AFLC denied the request, the requester should send the appeal to the Office of the Secretary of the Air Force through Commander, AFLC, Wright-Patterson Air Force Base, Ohio 45433.) The appeal should outline the requester's arguments and reasons for submitting the appeal. The appeal may not be made in person, except at the discretion of the Secretary of the Air Force.

(c) The denial authority will send the appeal to HQ USAF/JACL promptly for processing, together with a copy of the requested record. (If the requested record is too bulky to send, describe it sufficiently to permit a proper determination on the request.) If the initial time limit was extended, give the number of additional days used in making the determination. HQ USAF/JACL will either release the requested record or forward the appeal to the Office of the Secretary, SAF/AA, for final determination.

(d) Within 20 workdays (except Saturdays, Sundays, and legal holidays) after the appeal is received by the Office of the Secretary of the Air Force, a determination will be made on that appeal.

(1) If the denial is upheld, in whole or in part, the Secretary's office will notify the requester of that determination, explain the reasons for the denial, and inform the requester of his right to a judicial review of that determination, upon complaint to the District Court of the United States in one of the following places: in the district where the requester resides; in the district where the requester's principal business is located; in the district where the Air Force records are situated; or in the District of Columbia.

(2) If the appeal is granted, OASF will advise the requester in writing.

(3) If the final denial is based in whole or part on a security classification, the requester will be advised of his optional right to seek declassification of the record by the Interagency Classification Review Committee in lieu of immediate judicial review.

By order of the Secretary of the Air Force.

STANLEY L. ROBERTS,
Colonial, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

[FR Doc.75-4860 Filed 2-21-75;8:45 am]

SUBCHAPTER E—SECURITY

PART 851—PROTECTION OF USAF RESOURCES

This revision designates command authority; esatblishes authority concerning vehicle inspections; provides pilferage control guidance; designates standard warning signs; and provides additional information to update and to clarify the part.

Part 851, Subchapter E of Chapter VII of Title 32 of the Code of Federal Regulations is revised to read as follows:

Subpart A—Background and Terminology

Sec.
851.1 Purpose.
851.3 Definitions.
851.5 Program applicability.
851.7 Command authority and responsibility.
851.9 Legal requirements.

Subpart B—Resource Protection: Aids and Equipment

851.11 Concept of protection.
851.13 Controlled areas.
851.15 Entrances to controlled areas.
851.17 Requirements for display of warning signs.
851.19 Specifications of warning signs.

Subpart C—Resource Protection: Entry and Internal Controls

Sec.
851.21 Base entry policy.
851.23 Installation patrols.
851.25 Inspection of motor vehicles entering or leaving an Air Force installation.
851.27 Pilferage control.
851.29 Prevention of pilferage and vandalism.

AUTHORITY: Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012, except as otherwise noted.

Subpart A—Background and Terminology

§ 851.1 Purpose.

This part outlines the basic objectives, concepts, and components of the USAF Resource Protection Program. It provides for a base resource protection plan and establishes a general policy for resource protection. It applies to USAF units at all levels of command.

§ 851.3 Definitions.

(a) *Aerospace operational resources.* USAF weapons systems, combat support systems, and nuclear weapons required for general and limited war operations (see attachment 1, AFM 207–1, Doctrine and Requirements for Security of Air Force Weapons System, for complete explanation).

(b) *Armed.* Bearing a firearm.

(c) *Central depository.* An on-base facility where armed personnel are on duty at all times, top rovide close and continuing supervision of containers used to temporarily store funds.

(d) *Classes of munitions.* See AFM 127–100, Explosive Safety Manual.

(e) *Controlled area.* Any specifically designated building, area or structure, containing USAF resources which are lucrative targets for theft, compromise or destruction and to which entry must be limited in order to provide more than routine protection.

(f) *Deviation.* A temporary condition where existing facilities, equipment, manpower, or procedures do not meet the standards prescribed by this part.

(g) *Duress alarm system.* A mechanical or electronic device which enables personnel on duty to alert an agency, usually security police, for the purpose of obtaining immediate assistance without arousing suspicion.

(h) *Exception.* A permanent condition where existing facilities, equipment, manpower, or procedures do not meet the standards prescribed by this part.

(i) *Firearm.* A firearm is any weapon including starter guns, which will or may, readily be converted to expel a projectile through a barrel by the action of an explosive; the frame, or receiver of any such weapon; and any firearm muffler or silencing device. This definition includes individual crew-served, and aircraft armament weapons, as well as pyrotechnic flare guns.

(j) *Firearms storage facility.* A structure approved by the installation commander for the storage of more than ten firearms.

(k) *Fund activity.* Any activity or function approved by the installation commander to handle Government funds. Branches, or subactivities of main functions (such as BX branches, club annexes, and bowling lanes), are considered separate fund activities.

(l) *Fund container.* Any receptacle which contains Government funds; this includes vaults, safes, cash boxes, or security containers.

(m) *Fund custodian.* The person designated to accept and discharge the responsibility of managing and supervising the fund activity.

(n) *Government funds.* Funds under the control of Air Force personnel that include, without being limited to, revenues and funds of the United States or any of its officers, agents, or employees.

(1) All appropriated, nonappropriated and other Government funds or negotiable instruments, under the control of Air Force personnel are considered under the purview of this part.

(2) Funds are primarily considered monies (that is, coins and currency). U.S. Postal Service stamp stocks, blank money orders, Government pay checks, and negotiable instruments (checks) marked payable to the United States Treasury or stamped "For Deposit Only," need not be counted when total amounts of funds are tallied for storage or escort purposes.

(o) *Inspection.* An analysis conducted for the purpose of establishing, planning, programming and insuring continuing compliance with protection standards.

(p) *Installation/base commander.* The designated military member responsible for the protection of USAF resources located within his area of jurisdiction.

(q) *Intrusion detection equipment (IDE).* A combination of compatible mechanical or electronic components, primarily designed and assembled to detect and annunciate an unauthorized entry or attempted entry into a protected area.

(r) *J–SIIDS.* Joint Service Interior Intrusion Detection Systems.

(s) *Major command.* Here, the term major command (or MAJCOM) also refers to a separate operating agency.

(t) *Night depository.* Fund storage container constructed as an adjunct to the base banking facility. This term includes night depositories constructed as a part of accounting and finance offices.

(u) *Nonnuclear munitions.* A general term applying to the nonnuclear explosives. It also refers to the filler of an explosive item. Incendiary materials, which are contained in some rocket motors and which will burn but will not explode are excluded from the criteria established by this part.

(v) *Nonnuclear munitions storage area.* A designated area set aside for the storage of nonnuclear munitions. Where nonnuclear munitions are stored within nuclear storage areas, the provisions of AFMs 207–1 and 207–10, System Security Standard—Nuclear Weapons in Storage, Surface Movement and Logics Transport Status, will apply.

(w) *Nonnuclear munitions storage facility.* Any structure or location, except a designated storage area where nonnuclear munitions are regularly stored or stockpiled. Procedures for the establishment of munitions storage facilities and restrictions on explosive classes and quantities to be located therein are contained in AFM 127–100.

(x) *Personal firearm.* Privately owned firearm.

(y) *Protection.* The physical actions, aids and facilities required to safeguard USAF resources from loss, unauthorized penetration, damage or destruction.

(z) *Security police forces.* Air Force military security police personnel (AFSC 81XX/811XX/812XX) and all Department of the Air Force (DAF) civilians, contract civilians, Air Force military augmenters and foreign nationals civilian personnel who have been designated by proper authority to perform guard or police duties, within the meaning of Article 7b, Uniform Code of Military Justice, and paragraph 19a, Manual of Courts Martial 1969, revised.

(aa) *USAF physical resources.* All property, equipment, facilities and materials, classified or unclassified, within the jurisdiction, administration or custody of the United States Air Force and its units, exclusive of those aerospace operational resources described in AFR/AFM 207–1.

§ 851.5 Program applicability.

(a) *Application of program.* In the broadest sense, this program is designed to protect Air Force resources. However, it applies to non-Air Force activities tenant on Air Force installations, except where otherwise specified in inter-service support agreements or other written agreements.

(b) *Air National Guard or Air Reserve Forces.* (1) This program applies to Air National Guard (ANG) and Air Reserve Forces (ARF) bases or installations or facilities located on lands owned, leased, or otherwise under U.S. Air Force jurisdiction.

(2) Air National Guard or Air Reserve units located on lands under the jurisdiction of other services, will be guided by other services' directives on circulation procedures and posting of boundaries, which implement Department of Defense Directive 5200.8.

(3) Any Air National Guard or Air Reserve Force unit which is not located on land owned or leased by (or otherwise under the jurisdiction of) the USAF or another service, should refer to state statutes for authority to establish regulations and procedures for the protection of their resources. These directives will follow the policy and intent of this part as closely as possible. Requirements for fencing and posting may be modified by Headquarters Air National Guard and Air Reserve Forces.

(c) *Air Force units tenant to other services.* When negotiating an agreement, each Air Force tenant unit (including ANG and ARF units) on another service's installation will include as much of this part as possible. However, Air Force tenant units will comply with the terms of host-nation or service agreements.

§ 851.7 Command authority and responsibility.

The command responsibility for protection of physical resources carries with it the authority to promulgate directives necessary to accomplish this responsibility.

(a) Under Section 21 of the Internal Security Act of 1950, 64 Stat. 1005 (50 U.S.C. 797), any directive promulgated by the commander of a military installation or facility (including a directive which authorizes entry to or exit from a military installation) is legally enforceable against all persons, whether or not those persons are subject to the UCMJ.

(b) DOD Directive 5200.8 which implements 50 U.S.C. 797, delegates the authority to promulgate such directives to the commander of any major command, numbered air force, air division, wing, group or installation. Any directive promulgated by a properly designated Air Force commander is enforceable against persons subject to the UCMJ who are under that commander's jurisdiction.

(c) Although 18 U.S.C. 1382 does not specifically pertain to the protection of USAF physical resources, this law makes it a criminal act for any person to reenter an installation after being removed from it (or ordered not to reenter it) by the installation commander, or by his designee, acting on his specific instructions (Part 809a of this chapter).

§ 851.9 Legal requirements.

To have legal effect, any directive or regulation pertaining to the protection of USAF physical resources must meet the requirements in paragraphs (a) through (d) of this section.

(a) Any regulation that implements 50 U.S.C. 797 and DOD Directive 5200.8, must:

(1) Be promulgated by commanders designated by the Secretary of Defense in paragraph III.C, DOD Directive 5200.8;

(2) State specifically that the directive is issued pursuant to the Internal Security Act of 1950 (50 U.S.C. 797) and pertains to one of the subjects listed in that act;

(3) Clearly describe, locate and identify the controlled area(s) or property, and state that entrance into that area or property without the installation commander's consent is prohibited.

(4) Be posted in a conspicuous, appropriate place (for example, at the gates of the installation or at the entrance to the controlled area).

(5) Outside the United States and its possessions, a commander's authority is derived from bilateral agreements between the United States and countries concerned.

(b) Any regulation that applies only to persons who are subject to the UCMJ:

(1) Should be promulgated by an Air Force commander, as defined in paragraph III.C, DOD Directive 5200.8 (preferably, by the installation commander who is responsible for the security of the entire installation, although it is enforceable when issued by any commander who is responsible for the USAF physical resources in the area).

XUM V 4 0 1 3 7 FEB 24 75 XUM

(2) Must clearly describe, locate, and identify the controlled area or property, and state clearly that entrance into, or use of, the controlled area is prohibited, without the consent of the commander who issued the order.

(3) Must require each controlled area to be clearly posted and the regulation be publicized to insure that all military personnel know of its existence.

(c) The installation commander (or his designee) must issue the order in writing to remove persons from the installation and direct them not to reenter (Part 809a of this chapter).

(d) Any regulation that is intended to apply to persons in an oversea area who are not subject to the UCMJ must be consistent with any formal U.S. agreement with the host nation. When a criminal offense is a violation in which the U.S. has extra-territorial jurisdiction, U.S. Federal authorities may prosecute a non-U.S. citizen offender.

Subpart B—Resource Protection: Aids and Equipment

§ 851.11 Concept of protection.

The physical protection of USAF resources encompasses measures designed to develop habits and attitudes in Air Force personnel that will enhance resource protection, by providing a reasonably secure environment, and by eliminating potential weaknesses in our protective posture.

(a) The installation commander must use a systems approach in the analysis of physical protection requirements to insure that all elements of the resource protection program are integrated and complement each other. For example, protective lighting is a greater deterrent when the lighted area is also under surveillance or observation; likewise, an alarm system is effective only when there is a force available to respond to it. Similarly, barriers are more effective when they are patrolled and observed.

(b) The installation commander must also consider the cost of physical protection safeguards and weigh those costs against other factors, such as sensitivity, criticality, vulnerability, location, and mission of the installation, facility or resource.

(c) The type of loek to be used in protecting resources must also be planned carefully. High security padlocks and hasps must be used to protect certain sensitive resources (such as firearms, munitions, etc.).

(1) Padlocks that meet military specification MIL-P-17802 are available as medium security locks for use to secure pilferable items of significant value.

(2) Locks listed under FSN 5340-664-1323 are low security locks. Since they afford only a small degree of protection, they should never be used to secure pilferable items or articles of significant value.

§ 851.13 Controlled areas.

The establishment of controlled areas in an installation improves the total base security posture by providing security in depth and developing the security consciousness of personnel. Although an increase in security measures may cause some slowdown in operations and some inconvenience to other personnel, the use of controlled areas assists in matching protection requirements with local needs.

(a) The installation commander is authorized to establish a controlled area in order to regulate entrance to that area; he is also authorized to apply appropriate methods and degrees of control to protect Air Force physical resources from loss, theft, damage, destruction, compromise, or other hazard.

(1) A controlled area may be established in an area designated under AFR or AFM 207-1 as a restricted area, and vice-versa.

(2) When an area is to be controlled for a temporary period, the commander will specify the precise period (in days, weeks, or months). If the directive refers to an area to be permanently controlled, it will clearly specify the limits and boundaries, and the boundaries must be posted and clearly defined.

(b) Visitor control and surveillance of personnel in a controlled area requires security consciousness on the part of the personnel working in the area. In especially sensitive areas, security police personnel may be provided for entry control.

(c) The designation controlled area carriers as much of a legal and moral restriction as any physical barrier. Unless physical barriers are specifically required, the actual control may depend entirely on the security consciousness of the personnel in the designated area.

(d) Parking areas for privately owned vehicles will be established outside of controlled areas to the greatest extent consistent with operational necessity.

§ 851.15 Entrances to controlled areas.

(a) Entrances should be kept to a minimum necessary for safety, efficiency and operational control. Where required, adequate physical safeguards (such as fences, gates, and window bars) must be installed to deny entry of unauthorized persons into a controlled area.

(b) Except when a sign would tend to advertise a concealed area, controlled area signs must be posted in conspicuous and appropriate places, such as ordinary entrances, or approaches to these areas, and on perimeter fences or boundaries to the area. (These procedures will be discussed in more detail; see §§ 851.17 and 851.19)

§ 851.17 Requirements for display of warning signs.

Warning signs will be displayed at each entrance to the installation, around the perimeter of the installation, at each entrance to a controlled area, around the perimeter of each controlled area, and displayed in such a manner that they can be easily read by persons approaching on foot or in a vehicle. The rules in paragraphs (a) and (b) of this section apply.

(a) *Controlled areas.* Maximum spacing between signs will not normally exceed 100 yards. Deviation may be necessary when the sign would obstruct the path of most likely approach.

(b) *Base perimeters.* The commander will be guided by local statutes which govern the posting of lands. However, strategic locations such as roads that dead-end on a perimeter fence, etc., will always be posted: When the perimeter is adjacent to a populated area, the signs will not be placed more than 100 yards apart.

§ 851.19 Specifications of warning signs.

(a) The most commonly used signs are designated as AF Forms, to facilitate their posting in areas or on installations. The forms will be mounted on aluminum, sheet metal, or wood backing.

(1) The following figure depicts the design and wording for installation warning signs:

WARNING

U.S. AIR FORCE INSTALLATION

IT IS UNLAWFUL TO ENTER THIS AREA WITHOUT PERMISSION OF THE INSTALLATION COMMANDER

(SEC. 21 INTERNAL SECURITY ACT OF 1950; 50 U.S.C. 797)

WHILE ON THIS INSTALLATION ALL PERSONNEL AND THE PROPERTY UNDER THEIR CONTROL ARE SUBJECT TO SEARCH

For controlled area signs, the phrase "CONTROLLED AREA," is substituted for "U.S. AIR FORCE INSTALLATION." The background of the signs is white with the word "WARNING" in bright red. All other letters are in Air Force blue.

(2) When a sensitive program or classified material is involved, and there is a restriction on photography, a separate sign will be locally fabricated and posted in conjunction with the basic warning sign. These signs will include the wording "PHOTOGRAPHY IS PROHIBITED." The letters will be in Air Force blue on a white background. Proportionate lettering of the size used in the basic warning sign will be used.

(b) If military working dog teams are used inside or around the posted area, AF Forms 2529, Military Working Dog Notice, will be affixed directly below the basic warning sign.

(c) In a foreign country, or in CONUS, wherever the ethnic origin of the local populace indicates it would be advisable, signs will be bilingual. The signs will conform to the laws and regulations of the foreign country.

(1) Variation in wording is authorized with approval of overseas major commands, based on nation-to-nation agreements, status of forces agreements, local laws, etc.

(2) In an area where there is a high degree of illiteracy, a commonly accepted danger or warning symbol will be posted on the signs.

(3) These signs will be locally fabricated or procured and should, to the extent possible, conform with color and design of the basic sign facings.

(d) Size and use for the AF Forms are:

(1) AF Form 2523, Installation Warning Sign, (2 ftx1 ft); used to post area boundaries.

(2) AF Form 2524, Installation Warning Sign, (4 ftx2 ft); used to post personnel and vehicle entry points.

(3) AF Form 2525, Controlled Area Sign (2 ft x 1 ft); used to post area boundaries and buildings.

(4) AF Form 2526, Controlled Area Sign (4 ft x 2 ft); used to post personnel and vehicle entry points.

(e) Any sign that is already in use on December 21, 1973, which differs in size or color, but which conforms basically to the required language, will continue to be used until it becomes unserviceable.

Subpart C—Resource Protection: Entry and Internal Controls

§ 851.21 Base entry policy.

(a) The installation commander will determine the degree of control required over personnel entering or leaving the installation (that is, checking identification credentials, registering visitors, etc.).

(1) As a basic policy, he should avoid placing any unnecessary restrictions against personnel visiting the installation, since a system of complex time-consuming entry controls at perimeter gates serves few useful purposes. However, under certain conditions and circumstances, a complete lack of entry controls can have a detrimental effect on security of the installation.

(2) In determining the stringency of the controls to be used, the commander will consider the local environment; the security priority assigned operational resources and the threat thereto (see AFM and AFR 207-1); pilferage problems and base features that might present significant hazards to public safety.

(3) These policies are not intended to infringe upon normal domestic or social activities of families residing on the base, or hamper or preclude private visits, or hinder public visits during officially sanctioned events. Nevertheless, more stringent controls are required during emergency operations.

(b) The minimum controls in paragraphs (b)(1) through (b)(6) of this section should be applied at every Air Force installation.

(1) The installation must be fenced around the perimeter (See AFM 86-2, Standard Facility Requirements).

(2) The installation must be posted with warning signs at all perimeter gates and along the perimeter fenceline.

(3) The installation must be patrolled internally by security police forces (see § 851.23).

(4) If the installation meets at least one of the characteristics in paragraphs (b)(4)(i) through (b)(4)(iv) of this section, security police personnel must man the base perimeter entry points (gates) when the gates are open for public use.

(i) Routinely possesses or supports on-base aerospace operational resources of security priority A or B as explained in AFR/AFM 207-1.

(ii) Has excessive or serious pilferage problems.

(iii) Is confronted by a highly significant and unique security threat.

(iv) Has features or activities that are significant public safety hazards, when adequate protection cannot be afforded by controlled areas.

(5) If the installation requires security police manning of perimeter entry points, it will operate only the minimum number of perimeter entry gates required for operational needs. Each special purpose gate will be opened, manned, and secured (locked) by trained contractor or owner-user personnel. All non-essential gates will be closed during periods of low volume traffic.

(6) If the installation does not meet the characteristics of paragraph (b)(4) of this section, the main gate must be manned by information-security police on a 24-hour basis. All non-essential gates will be closed during low volume traffic.

§ 851.23 Installation patrol.

The base protection program includes installation patrols as well as patrols authorized in weapons system security (207 series) directives, to respond to incidents immediately as they occur, and to provide some deterrence to criminal activity.

(a) The number of patrols required depends on local circumstances and on the size of the installation, but generally, each installation will have at least one 24-hour per day patrol.

(b) More may be needed, depending on the off-base housing area traffic control requirements, or the need to protect high value or essential resources that are pilferable. The major command will determine the necessity for base patrols at small detachments or sites.

§ 851.25 Inspection of motor vehicles entering or leaving an Air Force installation.

A commander may direct the inspection of any vehicle entering or departing an installation under his jurisdiction, whether the owner or operator is military or civilian.

(a) Vehicles to be inspected will be selected on an impersonal basis, using an arbitrary formula—such as "every other car." That is, individual cars should not be singled out for inspection unless there is reason to believe that a specific vehicle may be carrying contraband items.

(b) The refusal by the owner or driver to submit to this inspection on entering an installation is legal cause to deny the vehicle entry. Physical force may not be used to enter a vehicle when permission to inspect has been denied. However, the commander may detain the vehicle and deny exit until the individual complies, or he may deny future on-base driving privileges, including cancellation of base entry for any vehicle owned or operated by the individual.

(c) If the installation commander has reasons to believe Government property is contained in the vehicle without proper authority, which cannot otherwise be recovered, he may, after consultation with the nearest U.S. Attorney, cause the locked compartments to be forced open.

§ 851.27 Pilferage control.

(a) *Use of term.* Pilferage involves the deliberate taking of property through circumvention of human controls and physical security measures for personal gain. (Like the terms steal, theft, larceny, it implies taking without authority, any quantity of material, or any item of monetary value. For example, items most often pilfered include tools, small arms and ammunitions, bulk explosives, food stuffs, clothing, medical supplies, radios, flashlights and batteries, fuels of all kind, and other small, easily concealed items.) Pilferage can be reduced and controlled through implementation of logical and well planned protection techniques, which should be used particularly for sensitive or high value items.

(b) *Responsibilities.* (1) The installation commander has overall responsibility for the reduction or elimination of pilfering.

(2) The owning organization is accountable and responsible for resources within that unit. Adequate controls and safeguards must be provided by the unit commander to insure protection of property.

(3) The Chief of Security Police will assist in providing protective recommendations to reduce and control susceptibility to pilferage of the total facility.

(c) *Conditions conducive to pilferage.* (1) While there are numerous factors which contribute to, or are conducive to pilferage, the primary factors fall within two categories: inadequate physical security measures and inadequate or insufficient utilization of human resources in the areas of management, training, discipline, responsibility, etc.

(2) Of the two categories, the physical security aids are the more tangible and more easily corrected. The human resource factors are more susceptible to breakdown, fluctuation, inadequacy and neglect.

(i) Management or top supervisory personnel must implement a proper plan of organization and adequate methods to measure safeguard procedures. They must also control and insure accuracy and reliability of accounting procedures and encourage strict compliance with prescribed policies.

(ii) Intermediate supervisors and other personnel must help to protect pilferable resources. For example, frequent, unannounced inspections, including an accounting and inventory of records, help to prevent pilferage. Also, the opportunity to pilfer should be reduced by making sure that personnel who have access to stock records do not also have unmonitored access to merchandise.

§ 851.29 Prevention of pilferage and vandalism.

In a base or housing area where there is a high level of pilferage or vandalism, the commander may supplement normal security police patrols in one or more of the ways in paragraphs (a) through (f) of this section.

(a) Stakeouts by security police personnel.

XUM V 40 137 FEB 24 75 XUM

(b) Use of unmarked Government vehicles by security police.
(c) Foot patrol(s) by security police.
(d) Patrol by military working dog teams.
(e) Use of TDY security police.
(f) Refer to Army Air Force Exchange Service (AAFES) Manual 16–1, for additional guidance on preventing shoplifting and pilferage from base exchange and commissaries.

By order of the Secretary of the Air Force.

STANLEY L. ROBERTS,
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

[FR Doc.75-4961 Filed 2-21-75;8:45 am]

SUBCHAPTER I—MILITARY PERSONNEL

PART 888e—DISPOSITION OF CONSCIENTIOUS OBJECTORS

Miscellaneous Amendments

These amendments to Part 888e eliminate separate treatment on non-EAD Reserves and incorporate the various guidance into appropriate sections throughout the part; add the requirement that members who have departed their duty station for PCS reassignment must submit their application at next duty station; amplify and clarify actions required of the servicing CBPO; require the investigating officer, if available, to be a JAC officer; clarify the instructions to the investigating officer; revise the flow of applications; require applicant to comply with active duty or transfer orders in effect at the time of his application or subsequently issued and received; clarify status of applicants on flying status; and update to make other minor changes to the part.

Part 888e, Subchapter I of Chapter VII of title 32 of the Code of Federal Regulations is amended as follows:

1. Part 888e, Table of Contents, is amended by removing Subpart F and all sections in Subpart F and by revising the title of § 888e.20 to read "Actions required of the servicing CBPO.".

§ 888e.2 [Amended]

2. Section 888e.2 is amended by substituting "October 18, 1971" for "May 1, 1970" and by substituting "February 28, 1974" for "October 18, 1971".

3. Section 888e.12 is amended by revising to read as follows:

§ 888e.12 Required information.

(a) A member of the Air Force who seeks either separation or assignment to noncombatant duties by reason of conscientious objection will submit an application therefor through his unit commander to the CBPO Special Actions unit. Members of the Air National Guard of the United States (ANGUS) not on extended active duty (EAD) will submit their applications to their immediate commander. Members of the U.S. Air Force Reserve (USAFR) not on EAD will submit their applications to their immediate commander who will request assistance of the nearest CRPO/CBPO. The applicant will indicate whether he is seeking a discharge or assignment to noncombatant duties and will include the items in paragraph (a) (1) through (4) of this section.

(1) The personal information required in paragraph (b) of this section.

(2) Any other items which the applicant desires to submit in support of his case.

(3) Applicants for 1–A–0 status will not be processed unless accompanied by a voluntary request for separation in accordance with AFR 36–12, Administrative Separation of Commissioned Officers and Warrant Officers of the Air Force (officers), or AFM 39–10, Separation Upon Expiration of Term of Service for Convenience of Government, Minority, Dependency and Hardship (airmen). Non-EAD members will prepare their requests for voluntary separation in accordance with AFM 35–3, Air Reserve Forces Personnel Administration (USA FR officers and airmen); ANGR 36–05, Officer Personnel Administrative Discharge of Commissioned Officers and Warrant Officers of the Air National Guard of the U.S. (ANGUS officers); or ANGR 39–10, Enlisted Personnel Separation (ANGUS airmen). Such requests by the applicant will be submitted by letter in the format prescribed in § 888e.38. The request will be signed and dated by the applicant and made a part of the application prior to forwarding to the commander exercising special court-martial jurisdiction.

(4) Application for discharge will be submitted under AFM 35–3, AFR 36–12, AFM 39–10, ANGR 36–05, or ANGR 39–10, as appropriate. Applications for discharge or noncombatant duty will be prepared in accordance with the applicable directive cited in this paragraph with the additional data required by this part attached or indorsed. Applications will be submitted to the unit commander in a sufficient number of copies so that two copies can be forwarded to AFMPC/DPMAKO (officers), AFMPC/DPMAKE (airmen), Randolph Air Force Base, Texas 78148.

NOTE.—Members desiring to file an application under this part, who have departed their duty station for PCS reassignment, are required to submit their application at their next duty station.

(b) Each person seeking release from active service from the Air Force or assignment to noncombatant duties, as a conscientious objector, will provide the information indicated in paragraph (b) (1) through (4) of this section as the minimum required for consideration of his request. This in no way bars the Air Force from requiring such additional information as is desired. The individual may submit such other information as desired.

(1) General information concerning applicant:
(i) Full name.
(ii) Social Security account number.
(iii) Selective Service number.
(iv) Service address.
(v) Permanent home address.
(vi) Name and address of each school and college attended (after age 16), dates of attendance, and the type of school (public, church, military, commercial, etc).
(vii) A chronological list of all occupations, positions, jobs, or types of work, other than as a student in school or college (after age 16) whether for monetary compensation or not. Include the type of work, name of employer, address of employer, and the from/to date for each position or job held.
(viii) All former addresses (after age 16) and dates of residence at those addresses.
(ix) Parents' names and addresses. Indicate whether they are living or deceased.
(x) The religious denomination or sect of both parents.
(xi) Was application made to the Selective Service System (local board) for classification as a conscientious objector prior to entry into the Air Force?
(A) To which local board?
(B) What decision was made by the Board, if known?
(xii) When the applicant has served less than 180 days in the military service, a statement by him as to whether he is willing to perform work under the Selective Service civilian work program for conscientious objectors, if discharged as a conscientious objector. Also, a statement of the applicant as to whether he consents to the issuance of an order for such work by his local Selective Service Board.

(2) Training and belief:
(i) A description of the nature of the belief which requires the applicant to seek separation from the military service or assignment to noncombatant training and duty for reasons of conscience.
(ii) An explanation as to how his beliefs changed or developed, to include an explanation as to what factors (how, when, and from whom or from what source training received and belief acquired) caused the change in or development of conscientious objection beliefs.
(iii) An explanation as to when these beliefs became incompatible with military service, and why.
(iv) An explanation as to the circumstances, if any, under which the applicant believes in the use of force, and to what extent, under any forseeable circumstances.
(v) An explanation as to how the applicant's daily life style has changed as a result of his beliefs and what future actions he plans to continue to support his beliefs.
(vi) An explanation as to what in applicant's opinion most conspicuously demonstrates the consistency and depth of his beliefs which gave rise to his claim.

(3) Participation in organizations:
(i) Information as to whether applicant has ever been a member of any military organization or establishment before entering upon his present term of service. If so, the name and address of such organization will be given together with reasons why he became a member.

(ii) A statement as to whether applicant is a member of a religious sect or organization. If so, the statement will show the following:
(A) The name of the sect and the name and location of its governing body or head, if known.
(B) When, where, and how the applicant became a member of said sect or organization.
(C) The name and location of any church, congregation, or meeting which the applicant customarily attends, and the extent of the applicant's active participation therein.
(D) The name, title, and present address of the pastor or leader of such church, congregation, or meeting.
(E) A description of the creed or official statements, if any, and if they are known to him, of said religious sect or organization in relation to participation in war.
(iii) A description of applicant's relationships with and activities in all organizations with which he is or has been affiliated, other than military, political, or labor organizations.
(4) References: Any additional information, such as letters of reference or official statements of organizations to which the applicant belongs or refers in his application, that the applicant desires to be considered by the authority reviewing his application. The burden is on the applicant to obtain and forward such information.

§ 888e.14 [Amended]

4. Section 888e.14(b) is amended by substituting "AFMPC/DPMAKO (officers) or AFMPC/DPMAKE (airmen), Randolph Air Force Base, Texas 78148" for "AFMPC".

5. Section 888e.14 is amended by revising the NOTE to read as follows:

NOTE: In cases of non-EAD applicants, ANGUS members will be supported by their CBPO. USAFR members will be assisted by the CRPO/CBPO nearest to the applicant. The assisting CRPO/CBPO (a CRPO whenever possible) will accomplish the actions in this section and § 888e.20.

6. Section 888e.20 is amended by revising to read as follows:

§ 888e.20 Actions required of the servicing CBPO.

The servicing CBPO will:
(a) Screen the applicant's Field Record Group and contact other appropriate offices for any information which may be supportive of or cast doubt upon the member's sincerity. This information will immediately be forwarded to the servicing CRPO/CBPO for inclusion in the applicant's file and for consideration by the investigating officer.
(b) Schedule the applicant for interviews with the chaplain and psychiatrist. The applicant will be personally interviewed by a chaplain who will submit a written opinion as to the nature and basis of the applicant's claim and as to the applicant's sincerity and depth of conviction. The chaplain's report must include the reasons for his conclusions but will not make any recommendations for approval or disapproval of the application. The applicant will also be interviewed by a psychiatrist who will submit a written report of psychiatric evaluation. This evaluation will also indicate the presence or absence of any psychiatric disorder which would warrant treatment or disposition through medical channels, or any character or personality disorder which would warrant appropriate administrative action. The report will not make any recommendations for approval or disapproval of the application. A medical officer may make this evaluation if a psychiatrist is not reasonably available.
(c) The information developed in the screening, the chaplain's opinion, and the psychiatric evaluation will become part of the case file furnished to the investigating officer. If the applicant refuses to participate or is uncooperative or unresponsive in the course of the interview, this fact will be included in the comments given by the chaplain and psychiatrist or medical officer.

7. Section 888e.22 is amended by revising the introductory text, note, and paragraph (a) to read as follows:

§ 888e.22 Appointment of investigating officer.

The commander exercising special court-martial jurisdiction over the applicant (major commands (MAJCOMs) and separate operating agencies (SOAs) for assigned non-EAD reservists) will appoint a judge advocate, if available, to investigate the applicant's claim. If the applicant is a commissioned officer, the investigating officer must be senior in both temporary and permanent grades to the applicant, unless the investigating officer is a judge advocate (JA).

NOTE: JAG mobilization augmentees and JAG area representatives may be used as investigating officers for applications submitted by non-EAD USAFR personnel and processed through ARPC.

(a) Upon appointment, the investigating officer will review this part.

* * * * *

§ 888e.24 [Amended]

8. Section 888e.25(f) is amended by removing the phrase "commander who appointed the investigating officer," and by substituting "servicing CBPO/DPMQS" and by adding at the end of the paragraph the sentence "The case file will include a statement by the investigating officer, or a copy of a receipt from the applicant, showing the date on which the copy of the report was delivered to the applicant.".

9. Section 888e.26 is amended by revising to read as follows:

§ 888e.26 Forwarding of application.

Fifteen days after the date the applicant was provided his copy of the record (§ 888e.24(f) or upon receipt of his rebuttal, whichever is sooner, the CRPO/CBPO (DPMQS) will promptly forward the record case to the local staff judge advocate (SJA) for review for procedural compliance with the part. If necessary, the SJA may return the case through the servicing CRPO/CBPO to the investigating officer for further investigation. When the record is complete, the SJA will forward it to the commander who appointed the investigating officer. The appointing commander will forward the case, including his recommended disposition and reasoning, direct to the applicant's MAJCOM of assignment. In cases of non-EAD ANGUS applicants, the servicing CRPO/CBPO will promptly forward the case through command channels to NGB/DPM, Washington, D.C. 20310. In cases of non-EAD USAFR applicants, the servicing CRPO/CBPO will promptly forward the case to the MAJCOM or SOA to which the applicant is assigned. After a review for legal sufficiency by the SJA, the MAJCOM/SOA of assignment will forward the case, including their recommendations and reasons, in at least two copies, direct to AFMPC/DPMAKE (airmen) or AFMPC/DPMAKO (officers), Randolph Air Force Base, Texas 78148.

§ 888e.32 [Amended]

10. Section 888e.32 is amended by removing "AFMPC" and substituting "HQ USAF" and by removing the sentence "However, members desiring to file application who are on orders for reassignment are required to submit applications at their next permanent duty station," and substituting the sentence "The applicant will be required to comply with active duty or transfer orders in effect at the time of his application or subsequently issued and received." and by adding at the end of the section the sentence "For applicants on flying status, see AFM 35–13, Flying Status, Aeronautical Ratings, Designations and Parachute Jump Status, for appropriate suspension action.".

§ 888e.34 [Amended]

11. Section 888e.34 is amended by removing the phrase "with entry in personnel records and discharge papers that the reason for separation is conscientious objection" from the first sentence and by adding "AFM 35–3 (USAFR members), ANGR 36–05 (ANGUS officers), ANGR 39–10 (ANGUS airmen)" following the phrase "pertinent provisions of" in the second sentence.

§ 888e.38 [Amended]

12. Section 888e.38 is amended by removing the phrases "paragraph 3–8r," and "paragraph 16m,".

13. Section 888e.42 is amended by revising to read as follows:

§ 888e.42 DD Form 214.

If a member is discharged from EAD as a conscientious objector, DD Form 214, Report of Separation from Active Duty, items 9c and 10, will be completed as indicated in paragraphs (a) and (b) of this section.
(a) Item 9c.
(1) Officers—AFR 36–12.
(2) Airmen—AFM 39–10.
(b) Item 10. Enter Code "2" for airmen.

XUM
V 40 137 FEB 24 75 XUM

§ 888e.44 [Amended]

14. Section 888e.44 is amended by adding "AFM 35-3, ANGR 36-05, ANGR 39-10," after the phrase "the standards established in".

§ 888e.50 [Amended]

15. Section 888e.50 is amended by changing "SSS" to read "SS" and by removing the last sentence in the text, which begins with "He will request the SSS * * *".

Subpart F—[Revoked]

16. Subpart F is revoked and the information contained therein is being incorporated into the appropriate sections throughout this part.

(Sec. 8012, 70A Stat. 488; 10 U.S.C. 8012)

By order of the Secretary of the Air Force.

STANLEY L. ROBERTS,
Colonel, USAF, Chief, Legislative Division, Office of The Judge Advocate General.

Title 47—Telecommunication

CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

PART 0—COMMISSION ORGANIZATION

Reorganization of Office of Plans and Policy

In the matter of editorial amendment of Part 0 of the Commission's Rules to reflect a reorganization of the Office of Plans and Policy.

1. The increasing frequency of international conferences and the upcoming 1979 WARC require that the Commission's operations involving participation in these conferences be improved. The amendment adopted herein assigns responsibility to the Office of Plans and Policy for periodically advising the Commission of current and future participation in international conferences.

2. The amendment adopted herein pertains to agency organization. The prior notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act are therefore inapplicable. Authority for the amendments adopted herein is contained in Sections 4(i) and 5(b) of the Communications Act of 1934, as amended, and in § 0.231(d) of the Commission's rules.

3. *In view of the foregoing, it is ordered,* Effective February 12, 1975, that Part 0 of the rules and regulations is amended as set forth below.

Adopted: January 29, 1975.

Released: February 18, 1975.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303)

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] R. D. LICHTWARDT,
Acting Executive Director.

Section 0.21(h) is revised to read as follows:

§ 0.21 Functions of the office.

* * * * *

(h) To coordinate the development and presentation of Commission views and position papers regarding both domestic and international communications policy, participate in interagency and international discussions and conferences, as may be authorized and approved by the Commission, and periodically advise the Commission of current and future participation in international conferences.

* * * * *

[FR Doc.75-4861 Filed 2-21-75;8:45 am]

[FCC 75-199]

PART 0—COMMISSION ORGANIZATION

Delegations of Authority

In the matter of amendment of Part 0 of the Commission's rules and regulations Concerning Delegations of Authority to the Chief, Cable Television Bureau.

1. The Commission has completed its review of the delegations of authority to the Chief, Cable Television Bureau, and has concluded that an expansion of the present delegations contained in § 0.289 of the Commission's Rules is in order. To accomplish this, present and new delegations of authority are being incorporated into a new § 0.288. The new delegations will allow routine cable applications and petitions, and those not presenting novel questions of law or policy, to be processed at staff level in accordance with established policy and precedent unless, in the opinion of the staff, a particular matter warrants referral to the Commission. These delegations should reduce the Commission's workload of routine cases, allowing more time to be spent on the larger issues of policy, and will aid the Cable Television Bureau in expediting the processing of pending cases and thereby reducing its backlog.

2. In general, the new delegations grant the Chief, Cable Television Bureau new authority with respect to procedural matters, consistent with that granted the other bureaus of the Commission, and new authority with respect to substantive case processing, where Commission policy has been clearly established.

3. Despite the extent of the changes herein ordered, the internal handling of petitions for reconsideration and applications for review will not vary from present practice. Specifically, petitions for reconsideration, filed pursuant to section 405 of the Communications Act, will continue to be acted on by the Commission *en banc* or by the "designated authority" within the Commission, whichever is appropriate, whereas all properly filed applications for review will, in accordance with section 5(d) of the Communications Act, continue to be referred to the Commission *en banc*. Persons aggrieved by actions taken at any level within the Commission are thus assured that their right of access to the full Commission is in no way affected by the ordered changes.

4. Since these amendments are either editorial or relate to Commission organization, procedures, or practice, or restate existing requirements, the prior notice provisions of section 4 of the Administrative Procedure Act, 5 U.S.C. 553, do not apply. For the same reason, these amendments will be made effective immediately.

Authority for the rule amendments adopted herein is contained in sections 2, 3, 4(i) and (j), 5(b) and (d), 301, 303, 307, 308, and 309 of the Communications Act of 1934, as amended.

Accordingly, it is ordered, That, effective February 28, 1975, Part 0 of the Commission's Rules and Regulations is amended as set forth below.

Adopted: February 12, 1975.

Released: February 24, 1975.

(Secs. 2, 3, 4, 301, 303, 307, 308, 309, 48 Stat., as amended, 1064, 1065, 1066, 1081, 1082, 1083, 1084, 1085; 47 U.S.C. 152, 153, 154, 301, 303, 307, 308, 309)

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. A new § 0.288 is added as follows:

§ 0.288 Authority Delegated.

The Chief, Cable Television Bureau, is delegated authority to act upon applications, petitions, requests, and other matters, which are not in hearing status, as follows:

(a) To extend or shorten, for good cause shown, the time required to: comply with Commission orders; file briefs and comments with respect to rulemaking; file responses to official correspondence; effectuate a transfer of control or assignment of a license or other authorization; file pleadings, briefs, comments, and all other papers, including papers related to waiver requests, applications not designated for hearing, and matters which are to be decided by the Commission, such as applications for review of actions taken by the Chief, Cable Television Bureau, and including situations in which the filing date was initially specified by the Commission; comply with technical requirements specified in authorization orders and rules or releases of the Commission; file financial, statistical and other statements and annual reports;

(b) To initiate official correspondence where appropriate;

(c) To act on requests for withdrawal of papers in accordance with § 1.8 of this chapter;

(d) To dismiss applications, as provided in §§ 76.20 and 78.21 of this chapter, or those which are not timely filed under the Commission's rules, not acceptable under the Commission's rules, or clearly moot;

(e) To dismiss premature requests for waiver of the Commission's rules;

(f) To dismiss, as repetitious, any petitions for reconsideration of a Commission Order which disposed of a petition for reconsideration and which did not reverse, change, or modify the original order;

(g) To dismiss or deny petitions for rulemaking which are repetitive or moot or which, for other reasons, plainly do not warrant consideration by the Commission;

(h) To modify or set aside on his own motion any action taken pursuant to delegated authority, in accordance with § 1.113 of this chapter;

(i) To include conditions in permits, certificates, licenses, and other authorizations granted pursuant to this section, beyond the specific requirements of the rules when necessary to carry out the purpose of those rules and to delete conditions imposed which have been rendered moot;

(j) To impose conditions on any authorization granted pursuant to this section, making such grant subject, where applicable, to the outcome of any pending court action or Commission proceeding which may affect the holder's qualifications;

(k) To issue corrected authorizations and to cancel certificates, licenses, construction permits, or other authorizations when such correction or cancellation would not be of a consequential nature;

(l) To issue rulings and interpretations concerning complaints arising under section 315 of the Communications Act and §§ 76.205 and 76.209 of this chapter;

(m) To act on the following applications for authorizations in the Cable Television Relay Service, in coordination with the Broadcast Bureau, if such applications comply fully with the requirements of the Communications Act, the provisions of Part 78 of this chapter, and Commission policy and standards; if no mutually exclusive application has been filed; and if no petition to deny or other substantial objection to the application has been filed:

(1) Applications for construction permits for new stations;

(2) Applications for licenses to cover construction permits;

(3) Applications for modification, assignment, transfer of control, or renewal;

(4) Applications for asignment or transfer of control filed pursuant to § 78.35(b) of this chapter;

(n) To designate for hearing, upon appropriate issues, mutually exclusive applications for authorization in the Cable Television Relay Service;

(o) To give written consent to applicants who request authority to make minor changes in existing transfers of control or assignment of licenses in the Cable Television Relay Service, and to grant requests for waiver of §§ 78.53 and 78.55 of this chapter;

(p) To act on requests for special temporary authority in the Cable Television Service and for temporary authority for special operations (in coordination with the Broadcast Bureau) in the Cable Television Relay Service, when such requests are either unopposed or present extraordinary circumstances requiring immediate action;

(q) To deny petitions for waiver or other special relief concerning the network program exclusivity provisions of §§ 76.91 and 76.93 of this chapter where denial is consistent with established Commission policy;

(r) To dismiss or deny objections to applications for cerificates of compliance, where dismissal or denial is consistent with established Commission policy;

(s) To deny applications for certificates of compliance which request a waiver of the signal carriage provisions of §§ 76.59, 76.61, or 76.63 of this chapter, and which are clearly inconsistent with established Commission policy;

(t) To act on applications for certificates of compliance which:

(1) conform to applicable rules and regulations, or whose disposition is governed by established Commission policy;

(2) seek waiver of a rule within one or more of the following categories:

(i) franchise-holding requirement of § 76.31(a) of this chapter, where there is no franchising authority;

(ii) franchise requirements of § 76.31 (a)(1) and (a)(4) of this chapter, where the cable system will operate within the confines of a military reservation and the franchise was awarded under federal procurement regulations;

(iii) franchise fee limitations of § 76.31 (b) of this chapter;

(iv) number and location of designated access cablecasting channels and facilities that must be provided, pursuant to § 76.251 of this chapter;

(v) carriage of full network stations, pursuant to §§ 76.59(b)(1), 76.61(b)(1), or 76.63(a) (as it refers to § 76.61(b)(1)) of this chapter;

(vi) carriage of the non-network programming of a network station in lieu of carriage of an independent station, pursuant to §§ 76.59(b)(2), 76.61(b)(2), or 76.63(a) (as it refers to § 76.61(b)(2)) of this chapter;

(vii) ratification of cable television operations and services that commenced prior to March 31, 1972 in unincorporated areas of counties without proper authorization.

§ 0.289 [Deleted]

2. Section 0.289 is deleted.

[FR Doc.75-4862 Filed 2-21-75;8:45 am]

Title 49—Transportation

SUBTITLE A—OFFICE OF THE SECRETARY OF TRANSPORTATION

PART 7—PUBLIC AVAILABILITY OF INFORMATION

By notice of proposed rulemaking published in the FEDERAL REGISTER on January 22, 1975 (40 FR 3456), the Department of Transportation proposed revised rules governing the public availability of information. The revised regulations implement the Freedom of Information Act, 5 USC 552, as amended by Public Law 93-502, 88 Stat. 1565.

Comments were submitted by the Center for Auto Safety ("the Center") Washington, D.C., which requests numerous changes to the proposed regulations. The comments are discussed seriatim.

Section 7.3 *Policy.* The Center requests the first sentence be continued to include:

That any applicable exemptions to the Act be waived whenever possible; that any doubt with respect to an information request be resolved in favor of granting the request; and that all fees under the Act be waived whenever granting the request in any way benefits the public interest rather than a commercial interest.

The Department does not agree that the proposed "clarification" is necessary. The expressed policy is to permit the public full access to all information with three reasonable exceptions (national interest, protection of private rights and efficient conduct of public business). The comment concerning fees will be considered below.

Section 7.15 *Records containing both available and unavailable information.* This section is modified, as requested by the Center, to delete superfluous language.

Section 7.21 *Initial determinations.* The Center requests the word "immediately" be defined to mean "same day". The language of this section is similar to that of section 552(a)(6)(A)(i) of the amended Act which does not define "immediately." In the absence of definition in the Act, "immediately" is used in its commonly accepted sense, *i.e.*, "without delay".

Section 7.25 *Extension.* The Center requests "immediate" notification of extension be given to a requester. This is not required by section 552(a)(6)(B) of the amended Act, and inclusion in the implementing regulation would not serve any useful purpose.

The Center also requests subsection (c) be amended to state consultations with the Department of Justice are not grounds for extension. The three subsections contain the sole grounds for extension. It is not necessary to itemize all circumstances which are *not* grounds for extension.

Section 7.41 *Applicability.* The Center seeks amendment of subsection (a)(3) to exempt only instructions to negotiators during the course of negotiations. We believe the Center misunderstands the purpose of this section. It serves as guidance to the public as to the general types of information available. The identification of certain materials in subsection (a)(3) as not available is for the convenience of the public.

Section 7.43 *Access to materials and index.* The Center requests subsection (b) be deleted because it would make indexes unavailable from the Department if they are published commerically. The "material" referred to in subsection (b) does not include "indexes" which are required by the amended Act to be made available.

Section 7.53 *Public availability of records.* The Center requests that "must" be replaced by "should" wherever the former term appears. These regulations are designed to assure timely handling of all requests for information made un-

XUM
V 40 37 FEB 24 75 XUM

der the Act, and, to that end, it is necessary to require specific identification of those requests. We believe the identification requirement is reasonable and will enhance timely consideration. Any request not made in accordance with the regulations will be handled in as expeditious a manner as is possible. The Center's contention that misaddressed requests could be "hand delivered" to the appropriate office within an hour after receipt ignores the reality of mail room operations in which a great volume of mail is received daily. Also, the Center ignores the possibility that a request for information maintained by one office, as defined in the Appendices to this part, may be addressed to a different office or facility. The Center further seeks modification of subsection (d) which requires description of requested records "to the extent possible". Obviously this phrase means "to the extent the requester finds possible". The identifying information serves to ensure expeditious handling of requests, and is not intended to be a ground for delay. The Center also asks that search fees not be charged if a requested document does not exist in agency files. The Congress has expressed its intent that direct costs of services provided under the Act be charged, unless the agency determines that "waiver or reduction of the fee is in the public interest because furnishing the information can be considered as primarily benefiting the general public" (§ 552(a)(4)(A)). Although it is not expected that requested documents will not be found, retention of this subsection will serve to deter overly broad "fishing expeditions" for records which may not exist. This is particularly true since the Department seeks to find even those requested documents which may not be identified clearly.

Section 7.55 *Request for records of concern to more than one Government organization.* The Center objects to this section because the matter of extension of time is considered in § 7.25. This section merely informs the public that other agencies or governments will be consulted if requested records are of concern to them. The consultation process must be conducted within the time limits established by §§ 7.21, 7.23 and, if appropriate, 7.25.

Section 7.69 *Trade secrets and commercial or financial information that is privileged or confidential.* The Center requests subparagraph (a)(2) concerning employee statements of financial interest be deleted because such statements are not properly within this exemption and availability of these records would be of public benefit to assure the absence of conflicts of interest. We agree that the exemption in this section is inappropriate, and properly should appear in § 7.73, *Protection of personal privacy.* We disagree, however, that an employee's financial status should be open to public inspection. Conflicts of interest are prohibited by Chapter 11, Title 18 United States Code, violation of which is a criminal offense. The Center's comments on subsection (b) are directed to the possibility that it "could be interpreted more broadly than contemplated by the Act". It is obvious that the provisions of the Act limit the scope and effect of implementing regulations, and this need not be stated.

The Freedom of Information Clearinghouse ("the Clearinghouse") Washington, D.C., filed comments dated February 10, postmarked February 11, and received on the afternoon of February 12, 1975. Although these comments are late-filed, they have been considered. To the extent the comments of the Clearinghouse are similar to those submitted by the Center, they will not be discussed again.

The Clearinghouse requests sections 7.21 and 7.81(a) be modified to require full itemization and indexing to correlate claimed exemptions with specific portions of records withheld from disclosure. Such a requirement is not reasonable at the administrative stage of proceedings under the Act. The written statement required by these sections will inform the requester of the reasons for denial of the request, and will do so with reference to the specific exemption or exemptions involved.

Section 7.71 *Intragovernmental exchanges.* We agree with the Center's recommendation that reference to advisory committee records be deleted in subsection (a).

Section 7.75 *Investigatory files compiled for law enforcement purposes.* The Center requests that "only" be inserted to modify "to the extent" in subsection (a). This is unnecessary because the scope of the regulation cannot be greater than that of the Act. The Center also requests that the first sentence in subsection (b) include language relating its term to those in subsection (a). This, too, is unnecessary for the same reason.

Section 7.81 *General.* The comments of the Center are similar to those made with respect to section 7.53. The time limits established by the Act and subpart C of this part are not affected.

Section 7.95. *Fee schedule.* The Center urges waiver of all fees with respect to "all requests by individual citizens, and particularly by non-profit, tax-exempt public interest, charitable or educational organizations . . . in the public interest." We believe that provisions of section 7.97(c) properly set forth the guidelines for waiver of fees, while implementing the intent of the Congress that the direct cost of making documents available normally be borne by the requester. The Center's request that no charge be made if the total fee is less than 15 dollars similarly must be denied. The Center also requests the fee for duplication of the first page (§ 7.95(b)) be reduced to five cents, the fee for additional pages. The first page fee of 25 cents includes the direct cost of employee time to travel to and from the document reproduction facility, a cost not incurred for additional page duplication.

The United States Department of the Treasury notes the reference to the payee in section § 7.93 should be the "Treasury of the United States". This change is reflected in the regulation adopted.

No other substantive changes were made. No changes are made at this time to Appendices A–H.

Part 7 of Subtitle A of Title 49, Code of Federal Regulations, is revised as follows:

Subpart A—Applicability and Policy

Sec.
7.1 Applicability.
7.3 Policy.
7.5 Definitions.

Subpart B—General

7.11 Administration of part.
7.13 Deletion of identifying detail.
7.15 Records containing both available and unavailable information.
7.17 Protection of records.

Subpart C—Time Limits

7.21 Initial determination.
7.23 Final determination.
7.25 Extension.

Subpart D—Publication in Federal Register

7.31 Applicability.
7.33 Publication required.

Subpart E—Availability of Opinions, Orders, Staff Manuals, Statement of Policy, and Interpretations: Indexes

7.41 Applicability.
7.43 Access to materials and index.
7.45 Indexes of public materials.
7.47 Copies.

Subpart F—Availability of Reasonably Described Records

7.51 Applicability.
7.53 Public availability of records.
7.55 Request for records of concern to more than one Government organization.

Subpart G—Exemptions

7.61 Applicability.
7.63 Records relating to matters that are required by Executive Order to be kept secret.
7.65 Records related solely to internal personnel rules and practices.
7.67 Records exempted from disclosure by statute.
7.69 Trade secrets and commercial or financial information that is privileged or confidential.
7.71 Intragovernmental exchanges.
7.73 Protection of personal privacy.
7.75 Investigatory records compiled for law enforcement purposes.
7.77 Reports of financial institutions.
7.79 Geological and geophysical information.

Appendix C—Federal Aviation Administration.
Appendix D—Federal Highway Administration.
Appendix E—Federal Railroad Administration.
Appendix F—St. Lawrence Seaway Development Corporation.
Appendix G—Urban Mass Transportation Administration.
Appendix H—National Highway Traffic Safety Administration.

AUTHORITY: 5 USC 552; Pub. L. 93-502, 88 Stat. 1565; 31 USC 438; 49 USC 1657.

Subpart A—Applicability and Policy

§ 7.1 Applicability.

(a) This part implements section 552 of Title 5, United States Code, and prescribes rules governing the availability to the public of the records of the Department of Transportation.

(b) Subpart G of this part describes the records that are not required to be disclosed under this part.

(c) Appendices A through H to this part:

(1) Describe the places and times at which records will be available for inspection and copying;

(2) Define the kinds of records located at each facility;

(3) Contain the indexes to such records; and

(4) Identify the officials having authority to deny requests for disclosure of records under this part.

(d) The Director of Public Affairs may amend Appendix A to this part to reflect any changes in the items covered by that appendix. The head of the operating administration concerned may amend the appendix applicable to that Administration to reflect any changes in the items covered by that appendix.

(e) This part applies only to records that exist at the time the request for the information is made. The Department is not required to compile or procure a record solely for the purpose of making it available under this part.

(f) Indexes are maintained to reflect all records subject to this part, and are available for public inspection and copying as provided in Appendices A through H to this part.

§ 7.3 Policy.

In implementing section 552 of Title 5, United States Code, it is the policy of the Department of Transportation to make information within the Department available to the public to the greatest extent possible in keeping with the spirit of that section. Therefore, all records of the Department, except those that the Department specifically determines must not be disclosed in the national interest, for the protection of private rights, or for the efficient conduct of public business to the extent permitted by the Freedom of Information Act, are declared to be available for public inspection and copying as provided in this part. Each officer and employee of the Department is directed to cooperate to this end and to make records available to the public promptly and to the fullest extent consistent with this policy. A record may not be withheld from the public solely because its release might suggest administrative error or embarrass an officer or employee of the Department.

§ 7.5 Definitions.

Unless the context requires otherwise, the following definitions apply in this part:

"Department" means the Department of Transportation, including the Office of the Secretary and the following operating administrations:

(a) The Coast Guard.

(b) The Federal Aviation Administration.

(c) The Federal Highway Administration.

(d) The Federal Railroad Administration.

(e) The National Highway Traffic Safety Administration.

(g) The St. Lawrence Seaway Development Corporation.

"He" includes she.

"Includes" means "includes but is not limited to."

"May" is used in a permissive sense to state authority or permission to do the act prescribed.

"Record" includes any writing, drawing, map, recording, tape, film, photograph, or other documentary material by which information is preserved.

"Secretary" means the Secretary of Transportation or any person to whom he has delegated his authority in the matter concerned.

Subpart B—General

§ 7.11 Administration of part.

Except as provided in Subpart H of this part, authority to administer this part in connection with the records in the Office of the Secretary is delegated to the Director of Public Affairs. Authority to administer this part in connection with records in each operating administration is delegated to the head of that administration. The head of any operating administration may redelegate to officers of that administration the authority to administer this part in connection with defined groups of records. However, the head of an operating administration may redelegate his duties under Subpart H of this part only to his deputy and to not more than one other officer who reports directly to the head and who is located at the headquarters of that administration.

§ 7.13 Deletion of identifying detail.

Whenever it is determined to be necessary to prevent a clearly unwarranted invasion of personal privacy, identifying details are deleted from any record covered by this part that is published or made available for inspection. A full explanation of the justification for the deletion is attached to the copy of the record published or made available for inspection.

§ 7.15 Records containing both available and unavailable information.

If a record contains information that the Department determines cannot be disclosed under this part, but also contains information that can be disclosed, the latter information will be provided for public inspection and copying.

§ 7.17 Protection of records.

(a) No person may, without permission, remove any record made available to him for inspection or copying under this part, from the place where it is made available. In addition, no person may steal, alter, mutilate, obliterate, or destroy, in whole or in part, such a record.

(b) Section 641 of Title 18 of the United States Code provides, in pertinent part, as follows:

Whoever * * * steals, purloins, or knowingly converts to his use or the use of another, or without authority, sells, conveys or disposes of any record * * * or thing of value of the United States or of any department or agency thereof * * * shall be fined not more than $10,000 or imprisoned not more than 10 years or both; but if the value of such property does not exceed the sum of $100, he shall be fined not more than $1,000 or imprisoned not more than one year or both. * * *

Section 2071 of Title 18 of the United States Code provides, in pertinent part, as follows:

Whoever willfully and unlawfully conceals, removes, mutilates, obliterates, or destroys, or attempts to do so, or with intent to do so takes and carries away any record, proceeding, map, book, paper, document, or other thing, filed or deposited * * * in any public office, or with any * * * public officer of the United States, shall be fined not more than $2,000 or imprisoned not more than 3 years, or both.

Subpart C—Time Limits

§ 7.21 Initial determination.

(a) An initial determination as to whether to release a record requested pursuant to Subpart F shall be made within ten days (excepting Saturdays, Sundays, and legal public holidays) after the request is received in accordance with paragraph (a) of § 7.53 except that this time limit may be extended by up to ten working days in accordance with § 7.25. The person making the request will be notified immediately of such determination. If such determination is to release the requested record, such record shall be made promptly available. If such determination is not to release the record, the person making the request shall, at the same time he is notified of such determination, be notified of (1) the reason for the determination; (2) the right of such person to appeal the determination; and (3) the names and titles or positions of each person responsible for the denial of the request.

§ 7.23 Final determination.

A determination with respect to any appeal made pursuant to § 7.81 shall be made within twenty days (excepting Saturdays, Sundays, and legal public holidays) after receipt of such appeal except that this time limit may be extended by up to ten working days in accordance with § 7.25. The person making the request will be notified immediately of such determination, pursuant to § 7.81.

§ 7.25 Extension.

In unusual circumstances as specified in this section, the time limits prescribed in §§ 7.21 and 7.23, may be extended by written notice to the person making a request setting forth the reasons for such extension and the date on which a determination is expected to be dispatched. Such notice shall not specify a

XUM V 40 137 FEB 24 75 XUM

date that would result in a cumulative extension of more than ten working days. As used in this subparagraph, "unusual circumstances" means, but only to the extent reasonably necessary to the proper processing of the particular request—

(a) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(b) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(c) The need for consultation, which shall be conducted with all practicable speed, with another agency having a substantial interest in the determination of the request or among two or more components of the agency having substantial subject-matter interest therein.

Subpart D—Publication in Federal Register

§ 7.31 Applicability.

This subpart implements section 552 (a) (1) of Title 5, United States Code, and prescribes rules governing the publication in the FEDERAL REGISTER of the following:

(a) Descriptions of the organization of the Department, including its operating administrations and the established places at which, the officers from whom, and the methods by which, the public (1) may secure information; and (2) make submittals or requests or obtain decisions.

(b) Statements of the general course and methods by which the Department's functions are channeled and determined, including the nature and requirements of all formal and informal procedures available.

(c) Rules of procedure, descriptions of forms available or the places at which forms may be obtained, and instructions as to the scope and contents of all papers, reports or examinations.

(d) Substantive rules of general applicability adopted as authorized by law, and statements of general policy or interpretations of general applicability adopted by the Department.

(e) Each amendment, or repeal of any material listed in paragraphs (a) through (d) of this section.

§ 7.33 Publication required.

(a) *General.* All material described in section 7.31 is published in the FEDERAL REGISTER. For the purposes of this paragraph, material that is reasonably available to the class of persons affected by it is considered to be published in the FEDERAL REGISTER if it has been incorporated by reference therein with the approval of the Director of the Federal Register.

(b) *Effect of nonpublication.* Except to the extent that a person has actual and timely notice of the terms thereof, no person may in any manner be required to resort to, or be adversely affected by, any procedure or matter required to be published in the FEDERAL REGISTER but not so published.

Subpart E—Availability of Opinions, Orders, Staff Manuals, Statements of Policy, and Interpretations: Indexes

§ 7.41 Applicability.

(a) This subpart implements section 552(a) (2) of Title 5, United States Code. It prescribes the rules governing the availability, for public inspection and copying, of the following:

(1) Any final opinion (including a concurring or dissenting opinion) or order made in the adjudication of a case.

(2) Any policy or interpretation that has been adopted under the authority of the Department, including any policy or interpretation concerning a particular factual situation, if that policy or interpretation can reasonably be expected to have precedential value in any case involving a member of the public in a similar situation.

(3) Any administrative staff manual or instruction to staff that affects any member of the public, including the prescribing of any standard, procedure, or policy that, when implemented, requires or limits any action of any member of the public or prescribes the manner of performance of any activity by any member of the public. However this does not include staff manuals or instructions to staff concerning internal operating rules, practices, guidelines and procedures for Departmental inspectors, investigators, examiners, auditors and negotiators, the release of which would substantially impair the effective performance of their duties. Indexes of the materials listed in this paragraph are maintained, as specified in Appendices A–H to this part.

(b) Any material listed in paragraph (a) of this section that is not made available for public inspection and copying, or that is not indexed as required by § 7.45, may not be cited, relied on, or used as precedent by the Department to adversely affect any member of the public unless the person against whom it is cited, relied on, or used has had actual and timely notice of that material.

(c) This subpart does not apply to material that is published in the FEDERAL REGISTER or is covered by Subpart G of this part.

§ 7.43 Access to materials and index.

(a) Except as provided in paragraph (b) of this section, material listed in § 7.41(a) is available for inspection and copying by any member of the public at document inspection facilities of the Department. The index of material available at each facility is published in the FEDERAL REGISTER quarterly and is also located at the facility. Information as to the kinds of materials available at each facility may be obtained from the facility or the headquarters of the operating administration of which it is a part.

(b) The material listed in § 7.41(a) that is published and offered for sale is indexed but is not required to be kept available for public inspection. Whenever practicable, however, it will be made available for public inspection at any document inspection facility maintained by the Office of the Secretary or an operating administration, whichever is concerned.

§ 7.45 Indexes of public materials.

The index of material subject to public inspection and copying under this subpart covers all material issued, adopted, or promulgated after July 4, 1967. However, earlier material may be included in the index to the extent practicable. Each index contains instructions on how to use it.

§ 7.47 Copies.

Copies of any material covered by this subpart that is not published and offered for sale may be ordered, upon payment of the appropriate fee, from the office indicated in § 7.53. Copies are certified upon request and payment of the prescribed fee.

Subpart F—Availability of Reasonably Described Records

§ 7.51 Applicability.

This subpart implements section 552 (a) (3) of Title 5, United States Code, and prescribes the regulations governing public inspection and copying of reasonably described records. It does not apply, however, to material that is covered by Subpart D of this part, records determined under Subpart G of this part not to be available, and material that is offered for sale by the Government Printing Office.

§ 7.53 Public availability of records.

(a) Each person desiring access to a record covered by this subpart must comply with the following provisions:

(1) A written request must be made for the record.

(2) Such request must indicate that it is being made under the Freedom of Information Act.

(3) The envelope in which the request is sent must be prominently marked with the letters "FOIA".

(4) The request must be addressed to the appropriate office as set forth in paragraph (c) of this section.

(b) If the requirements of paragraph (a) of this section are not met, the ten day time limit described in § 7.21 will not begin to run until the request has been identified by an employee of the Department as a request under the Freedom of Information Act and has been received by the office to which it should have been originally sent.

(c) Each person desiring access to a record covered by this subpart that is located in the Office of the Secretary, or to obtain a copy of such a record, must make a written request to the Director of Public Affairs, 400 Seventh Street, SW., Washington, D.C. 20590. Each person desiring access to a record covered by this subpart that is located in an operating administration, or to obtain a copy of such a record, must make a written request to that administration at the address set forth in the appendix applicable to that administration. If the person making the request does not know where in the Department the record is located, he may make inquiry of the Director of Public Affairs as to its location.

(d) Each request should describe the particular record to the extent possible. The request should specify the subject matter of the record, the date when it was made, the place where it was made and the person or office that made it. If the description is insufficient, the officer handling the request will notify the person making the request and, to the extent possible, indicate the additional data required.

(e) Each record made available under this subpart is available for inspection and copying during regular working hours at the place where it is located or, upon reasonable notice, at the document inspection facilities of the Office of the Secretary or each administration as set forth in the appendix applicable to that office or administration. Original records may be copied but may not be released from custody. Upon payment of the appropriate fee, copies will be mailed to the requester.

(f) Except for services performed without charge or at a reduced charge pursuant to section 7.97, each request for a search of records or for a copy of a record should be accompanied by the fee prescribed in the applicable fee schedule. When the fee is not readily ascertainable without examination of the records, the officer or employee receiving the request will furnish an estimate of the fee to the person making the request or the fee may be collected after the records are made available. If a search is necessary the fee for a search is charged, regardless of whether it is successful.

(g) Notwithstanding paragraphs (a) through (f) of this section, informational material, such as press releases, pamphlets, and other material of that nature that is ordinarily made available to the public as a part of any information program of the Government is available upon oral or written request. There is no fee for individual copies of that material as long as it is in supply. In addition, the Department will continue to respond, without charge, to routine oral or written inquiries that do not involve the furnishing of records.

§ 7.55 Request for records of concern to more than one Government organization.

(a) If the release of a record covered by this subpart would be of concern to both this Department and another Federal agency, the record will be made available only after consultation with the other interested agency.

(b) If the release of a record covered by this subpart would be of concern to both this Department and a State or local government, or a foreign government, the record will be made available by the Department only after consultation with the other interested State or local government or foreign government.

Subpart G—Exemptions

§ 7.61 Applicability.

This subpart implements section 552 (b) of Title 5, United States Code which exempts certain records from public inspection under section 552(a). The Department will, however, release a record authorized to be withheld under §§ 7.65 through 7.79 unless it determines that the release of that record would be inconsistent with a purpose of the section concerned. Examples given in §§ 7.65 through 7.79 of records included within a particular statutory exemption are not necessarily illustrative of all types of records covered by the exemption.

§ 7.63 Records relating to matters that are required by Executive Order to be kept secret.

Records relating to matters that are specifically authorized under criteria established by an Executive Order to be kept secret in the interest of national defense or foreign policy include those within the scope of the following, and any further amendment of any of them, but only to the extent that the records are in fact properly classified pursuant to such Executive Order:

(a) Executive Order 11652 of March 8, 1972 (37 F.R. 5209, March 10, 1972).

(b) Executive Order 10865 of February,[1] 1950 (3 CFR 1949–1953 Comp., p. 398); and

(c) Executive Order 10104 of February [1], 1950 (3 CFR 1949–1953 Comp., p. 298).

These records may not be made available for public inspection.

§ 7.65 Records related solely to internal personnel rules and practices.

(a) Records related solely to internal personnel rules and practices that are within the statutory exemption include memoranda pertaining to personnel matters such as staffing policies and policies and procedures for the hiring, training, promotion, demotion, and discharge of employees, and management plans, records, or proposals related to labor-management relationships.

(b) The purpose of this section is to authorize the protection of any record related to internal personnel rules and practices dealing with the relations between the Department and its employees.

§ 7.67 Records exempted from disclosure by statute.

(a) Records relating to matters that are specifically exempted by statute from disclosure include those covered by the following:

(1) Section 1905 of Title 18, United States Code, protecting trade secrets, processes, and certain economic and other data obtained by examination or investigation, or from reports.

(2) Revised Statutes section 4448, as amended (46 U.S.C. 234) protecting the source of reports of defects and imperfections of vessels.

(3) Revised Statutes section 4551, as amended (46 U.S.C. 643) protecting the names, address, and next of kin of merchant seamen and entries made in records pertaining to merchant seamen.

(4) Public Law 86–660, as amended (23 U.S.C. 313 (note) protecting information in the register of persons whose license to operate a motor vehicle has been denied, terminated, or suspended.

(5) Section 106 of Public Law 89–564 (23 U.S.C. 313 (note)) so far as it relates to identification of individuals in reports on highway traffic accidents.

(6) Section 902(f) of the Federal Aviation Act of 1958 (49 U.S.C. 1472(f)) relating to information obtained by examining the accounts, records, or memoranda of an air carrier.

(7) Section 1001 of the Federal Aviation Act of 1958 (49 U.S.C. 1481) so far as it relates to the secrecy of acts and proceedings when requested on grounds of national defense.

(8) Section 1104 of the Federal Aviation Act of 1958 (49 U.S.C. 1504) relating to the withholding, upon request, of information obtained under that Act.

(b) The purpose of this section is to preserve the effectiveness of statutes of the kind listed in paragraph (a) of this section, in accordance with their terms.

§ 7.69 Trade secrets and commercial or financial information that is privileged or confidential.

(a) Trade secrets and commercial or financial information that is privileged and for which confidentiality is requested by the person possessing such privilege are within the statutory exemption. This includes the following:

(1) Commercial or financial information not customarily released to the public, furnished and accepted in confidence.

(2) Commercial, technical, and financial information furnished by any person in connection with an application for a loan or a loan guarantee.

(3) Commercial or financial information customarily subjected to an attorney-client or similar evidentiary privilege.

(4) Materials in which the Department has a property right such as designs, drawings, and other data and reports acquired in connection with any research project, inside or outside of the Department, or any grant or contract.

(5) Business records of the Alaska Railroad of the kind which are ordinarily treated by railroads as confidential.

(b) The purpose of this section is to authorize the protection of trade secrets and commercial or financial records that are customarily privileged or are appropriately given to the Department in confidence. It assures the confidentiality of trade secrets and commercial or financial information obtained by the Department through questionnaires and required reports to the extent that the information would not customarily be made public by the person from whom it was obtained. In any case in which the Department has obligated itself not to disclose trade secrets and commercial or financial information it receives, this section indicates the Department's intention to honor that obligation to the extent permitted by law. In addition, this section recognizes that certain materials, such as research data and materials, formulae, designs, and architectural drawings, have significance not as records but as items of property acquired, in many cases, at public expense. In any case in

XUM
V 40 37 FEB 24 75 XUM

which similar proprietary material in private hands would be held in confidence, material covered by this section may be held in confidence.

§ 7.71 Intragovernmental exchanges.

(a) Any record prepared by a Government officer or employee (including those prepared by a consultant) for internal Governmennt use is within the statutory exemption to the extent that it contains—

(1) Opinions, advice, deliberations, or recommendations made in the course of developing official action by the Government, but not actually made a part of that official action, or

(2) Information concerning any pending proceeding or similar matter including any claim or other dispute to be resolved before a court of law, administrative board, hearing officer, or contracting officer.

(b) This section has two distinct purposes. One is to protect the full and frank exchange of ideas, views, and opinions necessary for the effective functioning of the Government and to afford this protection both before and after any action is taken. This judicially recognized privilege of protection against disclosure in litigation or elsewhere is intended to assure that these resources will be fully and readily available to those officials upon whom the responsibility rests to take official and final Departmental action. However, the action itself, any memoranda made part of that action, and the facts on which it is based are not within this protection. The other purpose is to protect against the premature disclosure of material that is in the development stage if premature disclosure would be detrimental to the authorized and appropriate purposes for which the material is being used, or if, because of its tentative nature, the material is likely to be revised or modified before it is officially presented to the public.

(c) Examples of records covered by this section include minutes, to the extent they contain matter described in paragraph (a) of this section; staff papers containing advice, opinions, suggestions, or exchanges of views, preliminary to final agency decision or action; budgetary planning and programing information; advance information on such things as proposed plans to procure, lease, or otherwise hire and dispose of materials, real estate, or facilities; documents exchanged preparatory to anticipated legal proceedings; material intended for public release at a specified future time, if premature disclosure would be detrimental to orderly processes of the Department; records of inspections, investigations, and surveys pertaining to internal management of the Department; and matters that would not be routinely disclosed under disclosure procedures in litigation and which are likely to be the subject of litigation. However, if such a record also contains factual information, that information must be made available under section 7.15, unless the facts are so inextricably intertwined with deliberative or policy-making processes, that they cannot be separated without disclosing those processes.

§ 7.73 Protection of personal privacy.

(a) Any of the following personnel, medical, or similar records is within the statutory exemption if its disclosure would harm the individual concerned or be a clearly unwarranted invasion of his personal privacy:

(1) Personnel and background records personal to any officer or employee of the Department, or other person, including his home address.

(2) Statements of financial interests furnished by employees of the Department.

(3) Medical histories and medical records concerning individuals, including applicants for licenses.

(4) Any other detailed record containing personal information identifiable with a particular person.

(b) The purpose of this section is to provide a proper balance between the protection of personal privacy and the preservation of the public's right to Departmental information by authorizing the protection of information that, if released, might unjustifiably invade an individual's personal privacy.

§ 7.75 Investigatory records compiled for law enforcement purposes.

(a) Records compiled by the Department for law enforcement purposes, including the enforcement of the regulations of the Department, are within the statutory exemption to the extent that production of such records would (1) interfere with enforcement proceedings, (2) deprive a person of a right to a fair trial or an impartial adjudication, (3) constitute an unwarranted invasion of personal privacy, (4) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (5) disclose investigative techniques and procedures, or (6) endanger the life or physical safety of law enforcement personnel.

(b) The purpose of this section is to protect from disclosure the law enforcement files of the Department, including files prepared in connection with related litigation and adjudicative proceedings. It includes the enforcement not only of criminal statutes but all kinds of laws.

§ 7.77 Reports of financial institutions.

Any material contained in or related to any examination, operating, or condition report prepared by, on behalf of, or for the use of, any agency responsible for the regulation or supervision of financial institutions is within the statutory exemption.

§ 7.79 Geological and geophysical information.

Any geological or geophysical information and data (including maps) concerning wells is within the statutory exemption.

Subpart H—Procedures for Reconsidering Decisions Not To Disclose Records

§ 7.81 General.

(a) Each officer or employee of the Department who, upon a request by a number of the public for a record under this part, makes a determination that the record is not to be disclosed, will give a written statement of his reasons for that determination to the person making the request; and indicate the name and title or position of each person responsible for the denial of such request, and the availability of an appeal within the Department.

(b) Any person to whom a record has not been made available within the time limits established by Subpart C and any person who has been given a determination pursuant to paragraph (a) of this section, that a record he has requested will not be disclosed, may apply to the head of the operating administration concerned, or in the case of the Office of the Secretary, to the General Counsel of the Department, for reconsideration of the request. Any person on whose request an initial determination has not been made within the time limits established by Subpart C may consider his request denied and may appeal this denial either administratively or judicially. A determination that a record will not be disclosed is not administratively final for the purposes of judicial review unless it was made by the head of the operating administration concerned (or his designee), or the General Counsel, as the case may be, unless the applicable time limit has passed without a determination of the appeal having been made. Upon a determination that an appeal will be denied, the requester shall be informed in writing of the reasons for the determination, and the names and titles or positions of each person responsible for the determination, and that the determination may be appealed to the district court of the United States in the district in which the complainant resides, or has his principal place of business, or in which the records are located, or in the District of Columbia.

(c) Each application for reconsideration must be made in writing within sixty days from the date of receipt of the original denial and must include all information and arguments relied upon by the person making the request. Such application must indicate that it is an appeal from a denial of a request made under the Freedom of Information Act. The envelope in which the application is sent must be prominently marked with the letters "FOIA". If these requirements are not met, the twenty day time limit described in § 7.23 will not begin to run until the application has been identified by an employee of the Department as an application under the Freedom of Information Act and has been received by the appropriate office.

(d) Whenever the head of the operating administration concerned, or the General Counsel, as the case may be, determines it to be necessary, he may require the person making the request to furnish additional information, or proof of factual allegations, and may order other proceedings appropriate in the circumstances. The decision of the head of the operating administration concerned, or the General Counsel, as the case may be, as to the availability of the record is administratively final.

(e) The decision by the head of the operating administration concerned, or the General Counsel, as the case may be, not to disclose a record under this part is considered to be a withholding by the Secretary for the purposes of section 552 (a)(3) of title 5, United States Code.

(f) Any final decision by the head of an operating administration or his delegee identified in Appendices B through H of this part, not to disclose a record under this part is subject to concurrence by the General Counsel.

Subpart I—Fees

§ 7.91 General.

(a) This subpart prescribes fees for services performed for the public under Subparts E and F of this part by the Department of Transportation.

(b) This subpart does not apply to any special study, special statistical compilation, table or other record requested under section 9(n) of the Department of Transportation Act. The fee for the performance of such a service is the actual cost of the work involved in compiling the record. All moneys received by the Department in payment of the cost of the work are deposited in a separate account administered under the direction of the Secretary, and may be used for the ordinary expenses incidental to the work.

§ 7.93 Payment of fees.

The fees prescribed in this subpart may be paid by check, draft, or postal money order, payable to the Treasury of the United States. Except as provided in section 7.53(f), the fees are payable in advance.

§ 7.95 Fee schedule.

(a) Except as provided in paragraph (j) of this section search for a record under Subpart F of this part, when required, including making it available for inspection	$2.00
(b) Copies of documents by photocopy or similar method: Each page not larger than 11 x 17 inches:	
First page	.25
Each additional page	.05
(c) Copies of documents by typewriter, each page	2.00
(d) Certified copies of documents:	
(1) With Department of Transportation seal	3.00
(2) True copy, without seal	1.00
(e) Photographs:	
(1) Black and White print (from negative)	1.25
(2) Black and White print (from print)	3.15
(3) Color print (from negative)	3.50
(4) Color print (from print)	6.25
(f) Duplicate data tapes—each reel of tape or fraction thereof. The applicant must furnish the necessary number of blank magnetic tapes. The tapes must be compatible for use in the supplier's computer system, ½ inch wide and 2,400 feet long, and must be capable of recording data at a density of 556 or 800 characters per inch. Unless otherwise designated, the tapes will be recorded at 556 CPI density. The Department of Transportation is not responsible for damaged tape. However, if the applicant furnishes a replacement for a damaged tape, the duplication process is completed at no additional charge.	36.00
(g) Microreproduction fees are as follows:	
(1) Microfilm copies, each 100-foot roll or less	3.75
(2) Microfiche copies, each standard size sheet (4" x 6", containing up to 65 frames)	.15
(h) Data processed record, each 1,000 lines or fraction thereof	1.00
(i) Preprinted materials, shelf stock, on color standard sizes: (1) Each page (exluding blanks)	.06
(j) Other records: The fee for a copy of a record not described in paragraphs (b) through (i) of this section will be supplied on request. The amount of that fee will be the cost of producing and handling.	
(k) The fee for a search and copy of any record where the cost will obviously be more than $2 will be determined in accordance with the policy of the Freedom of Information Act.	

§ 7.97 Services performed without charge or at a reduced charge.

(a) No fee is charged for time spent in preparing correspondence related to a request and in making determinations pursuant to § 7.81.

(b) No fee is charged for documents furnished in response to:

(1) A request from an employee or former employee of the Department for copies of personnel records of the employee;

(2) A request from a member of Congress for his official use;

(3) A request from a State, territory, U.S. possession, county or municipal government, or an agency thereof;

(4) A request from a court that will serve as a substitute for the personal court appearance of an officer or employee of the Department;

(5) A request from a foreign government or an agency thereof, or an international organization.

(c) Documents will be furnished without charge or at a reduced charge, if the Director of Public Affairs, or the head of the operating administration concerned, as the case may be, determines that waiver or reduction of the fee is in the public interest, because furnishing the information can be considered as primarily benefiting the general public. Examples of requests that may fall within this paragraph are reasonable requests from groups engaged in a nonprofit activity designed for the public safety, health, or welfare; schools; and students engaged in study in the field of transportation.

§ 7.99 Transcripts.

Transcripts of hearings and oral argument are available for inspection. Where transcripts are prepared by a nongovernment contractor, and the contract permits the Department to handle the reproduction of further copies, the provisions of Subpart I apply. Where the contract for transcription services reserves the sales privilege to the reporting service, any duplicate copies should be purchased directly from the reporting service.

§ 7.101 Alternate sources of information.

In the interest of making documents of general interest publicly available at as reasonable a cost as possible, alternate sources are arranged whenever practicable. In appropriate instances, material that is published and offered for sale may be obtained from the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402; the Commerce Department's National Technical Information Service (NTIS), Springfield, Va. 22151; the National Audio-Visual Center, National Archives and Records Service, General Services Administration, Washington, D.C. 20405; or the Consumer Product Information Coordinating Center, General Services Administration, Washington, D.C. 20407.

Effective date. This amendment is effective February 19, 1975.

Issued in Washington, D.C., on February 19, 1975.

JOHN W. BARNUM,
Undersecretary.

CHAPTER X—INTERSTATE COMMERCE COMMISSION

SUBCHAPTER A—GENERAL RULES AND REGULATIONS

[2nd Rev. S.O. 1112-A]

PART 1033—CAR SERVICE

Railroad Operating Regulations for Freight Car Movement

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 18th day of February 1975.

Upon further consideration of Second Revised Service Order No. 1112 (39 FR 22269, 43632), and good cause appearing therefor:

XUM
V 40 37 FEB 24 75 F
XUM

It is ordered, That § 1033.1112 *Service Order No. 1112*, (Railroad operating regulations for freight car movement) be, and it is hereby, vacated and set aside.

(Secs. 1, 12, 15 and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17 (2). Interprets or applies Secs. 1(10–17), 15 (4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), 17(2))

It is further ordered, That this order shall become effective at 11:59 p.m., February 18, 1975; that copies of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[S.O. 1170-A]

PART 1033—CAR SERVICE

Railroad Operating Regulations for Movement of Privately Owned Freight Cars

At a session of the Interstate Commerce Commission, Railroad Service Board, held in Washington, D.C., on the 18th day of February 1975.

Upon further consideration of Service Order No. 1170 (39 FR 3827, 32137), and good cause appearing therefor:

It is ordered, That § 1033.1170 *Service Order No. 1170*, (Railroad operating regulations for movement of privately owned freight cars) be, and it is hereby, vacated and set aside.

(Secs. 1, 12, 15, and 17(2), 24 Stat. 379, 383, 384, as amended; 49 U.S.C. 1, 12, 15, and 17(2). Interprets or applies Secs. 1(10–17), 15(4), and 17(2), 40 Stat. 101, as amended, 54 Stat. 911; 49 U.S.C. 1(10–17), 15(4), 17 (2))

It is further ordered, That this order shall become effective at 11:59 p.m., February 18, 1975; that copies of this order and direction shall be served upon the Association of American Railroads, Car Service Division, as agent of the railroads subscribing to the car service and car hire agreement under the terms of that agreement, and upon the American Short Line Railroad Association; and that notice of this order shall be given to the general public by depositing a copy in the Office of the Secretary of the Commission at Washington, D.C., and by filing it with the Director, Office of the Federal Register.

By the Commission, Railroad Service Board.

Title 24—Housing and Urban Development

CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-478]

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the fourth column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 Status of participating communities.

State	County	Location	Effective date of authorization of sale of flood insurance for area	Hazard area identified	State map repository	Local map repository
•	•	•	•	•	•	•
California	Monterey	Seaside, city of	Feb. 13, 1975. Emergency	June 7, 1974		
Idaho	Bonneville	Ucon, city of	do			
Illinois	Livingston	Pontiac, city of	do	Mar. 8, 1974		
Indiana	Johnson	Edinburg, town of	do	Feb. 1, 1974

Title 41—Public Contracts and Property Management

CHAPTER 105—GENERAL SERVICES ADMINISTRATION

PART 105-61—PUBLIC USE OF RECORDS, DONATED HISTORICAL MATERIALS, AND FACILITIES IN THE NATIONAL ARCHIVES AND RECORDS SERVICE

Miscellaneous Changes

This regulation amend Part 105-61 to conform with recent changes to the Freedom of Information Act; requires researchers to check personal belongings before entering research rooms; provides that records which are available on microfilm will not be copied by other means as long as a legible copy can be made from the microfilm; and authorizes the Archivist of the United States to issue supplemental rules and procedures concerning the location and hours of use of records, fees for reproduction, and related services, and restrictions on the use of records.

The table of contents for Part 105-61 is amended by adding or revising the following entries:

Sec.
105-61.000 General.
105-61.000-1 Scope.
105-61.000-2 Authority for issuance.
105-61.102 Research room rules.
105-61.102-1 Registration.
105-61.102-2 Researcher's responsibility for records.
105-61.102-3 Prevention of damage to records.
105-61.102-4 Removal or mutilation of records.
105-61.102-5 Conduct.
105-61.102-6 Keeping records in order.
105-61.103 Access to unclassified records.
105-61.103-1 Archives.
105-61.103-2 FRC records.
105-61.103-3 Records of defunct agencies.
105-61.104 Access to national security information.
105-61.104-1 Declassification responsibility. Order 11652.
105-61.104-2 Public requests for review of national security information.
105-61.104-3 Access to records that remain classified.
105-61.108-1 Authority.
105-61.108-2 Fees and procedures.
105-61.203 Review of national security classified donated historical materials under Executive Order 11652.
105-61.203-1 Mandatory review of White House classified materials.
105-61.203-2 Mandatory review of agency classified material.

1. Section 105-61.000 is revised as follows:

§ 105-61.000 General.

§ 105-61.000-1 Scope.

This part prescribes rules and procedures governing the public use of records and donated historical materials in the custody of the National Archives and Records Service (NARS) but does not apply to current operating records of the Service. This part also prescribes rules and procedures governing the public use of certain facilities of the Service.

§ 105-61.000-2 Authority for issuance.

The rules and procedures included in subparts 105-61.1 through 105-61.3 are issued by the Administrator of General Services. The Archivist of the United States is authorized to issue supplemental rules and procedures concerning restrictions on the use of records in subparts 105-61.53 and 105-61.54; on fees for reproduction and related services in subpart 105-61.52; and on the location of records and hours of use in subpart 105-61.51.

2. Section 105-61.001-7 is revised as follows:

§ 105-61.001-7 Federal records centers.

"Federal records centers" includes the Washington National Records Center, National Personnel Records Center, and the Federal records centers and Federal archives and records centers listed in §§ 105-61.5101-6 and 105-61.5101-7.

Subpart 105-61.1—Public Use of Archives and FRC Records

1. Section 105-61.101 is amended as follows:

§ 105-61.101 Availability of records.

§ 105-61.101-1 General.

• • • • •

(d) A director will require that researchers under the age of 16 years be accompanied by an adult researcher who agrees in writing to be present when the records are used and to be responsible for compliance with the research room rules set forth in § 105-61.102. The director may make exceptions to the above requirement under certain circumstances.

(e) Requests received in the normal course of reference service are not considered requests made under the Freedom of Information Act (5 U.S.C. 552). Requests under the act must follow the procedure set forth in § 105-61.103 or § 105-61.104.

§ 105-61.101-2 Location of records and hours of use.

(a) A prospective researcher should first ascertain the location of the records desired. Inquiries may be addressed to the Archivist of the United States, Washington, DC 20408.

(b) The locations and hours of duty (expressed in local time) of depositories administered by the National Archives and Records Service are shown in § 105-61.5101.

(c) Except for Federal holidays and other times specified by the Archivist, records will be made available according to the schedule set forth in § 105-61.5101.

(d) In addition to the times specified in § 105-61.5101, records may be made available at such other times as are authorized by a director.

2. Section 105-61.102 is redesignated as § 105-61.103 and revised as follows:

§ 105-61.103 Access to unclassified records.

§ 105-61.103-1 Archives.

(a) *Restrictions.* The use of archives is subject to the restrictions prescribed by statute or Executive Order, or those restrictions specified in writing in accordance with 44 U.S.C. 2104 by the agency from which the records were transferred. The restrictions are published in the "Guide to the National Archives of the United States," which is hereby incorporated by reference, and supplemented by restriction statements approved by the Archivist of the United States and set forth in Subparts 105-61.53 and 105-61.54. The Guide is available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. The Guide may also be consulted at the NARS research facilities set forth in § 105-61.5101 and the GSA Business Service Center reading rooms set forth in § 105-60.303. NARS makes available any reasonably segregable portion of a record after the restricted portion has been deleted.

(b) *Freedom of Information Act requests.* Requests for access to unclassified archives under the Freedom of Information Act shall reasonably describe the records requested, shall be made in writing to the director of the appropriate NARS depository listed in § 105-61.5101 or to the Assistant Archivist for the National Archives, and shall clearly indicate that the request is being made under the act. Within 10 workdays after receiving a request for unrestricted records NARS makes them available. When restricted records are requested, NARS consults with the agency from which the records were transferred, when appropriate, to determine which exemption in 5 U.S.C. 552b, if any, justifies continuing the restrictions and makes a determination within 10 workdays unless consultation with the transferring agency requires an extension not to exceed 10 additional workdays. If an extension is required, NARS notifies the requester within 10 workdays from receipt of the request.

(c) *Denials and appeals.* Denials under the Freedom of Information Act of access to archives are made by the appropriate director of a Federal records center or a Presidential library or by the Assistant Archivist for the National Archives, who, within 10 workdays, notifies the requester of the reasons for denial and of the procedures for appeal. Appeals from denials may be made in writing to the Deputy Archivist of the United States, General Services Administration (ND), Washington, DC 20408. The Deputy Archivist consults with the agency specifying the restriction, when appropriate, and makes a determination within 20 workdays after the date of receipt of the appeal. If an extension is required, the Deputy Archivist notifies the requester within 20 workdays from receipt of the request. Time extensions will not exceed 10 workdays in the aggregate: either solely in the initial or in the appellate stage, or divided between them. If the determination is adverse in whole or in part, the Deputy Archivist notifies the requester of his right to judicial review.

§ 105-61.103-2 FRC records.

Requests for access to records on deposit in Federal records centers shall be addressed directly to the appropriate agency or to the FRC director at the address shown in § 105-61.5101. The use of FRC records is subject to access rules prescribed by the agency from which the records were transferred. When the agency's rules permit, NARS makes FRC records available to requesters. When access is precluded by these rules and restrictions, the FRC director will refer to the responsible agency the requests and any appeals for access, including those made under the Freedom of Information Act.

§ 105-61.103-3 Records of defunct agencies.

Access to archives and FRC records received from agencies which have ceased to exist without a successor in function are handled in accordance with § 105-61.103-1.

3. Section 105-61.103 is redesignated as § 105-61.102 and revised to read as follows:

§ 105-61.102 Research room rules.

§ 105-61.102-1 Registration.

Researchers shall register each day they enter a research room, furnishing the information specified on the registration form.

§ 105-61.102-2 Researcher's responsibility for records.

The research room attendant may limit the quantity of records to be delivered at one time to a researcher. When requested, researchers shall acknowledge receipt of records by signature. A researcher is responsible for all records delivered to him until he returns them. When a researcher has completed his use of records, he shall return them to the research room attendant. When requested, researchers shall return records as much as 10 minutes before closing time. Before leaving a research room, even for a short time, a researcher shall notify the research room attendant and place all records in their proper containers.

§ 105-61.102-3 Prevention of damage to records.

The researcher shall exercise all possible care to prevent damage to records. Records shall not be used at a desk where there is a container of liquid or where a fountain pen is being used. Records shall not be leaned on, written on, folded anew, traced, fastened with paper clips or rubber bands, or handled in any way likely to cause damage. The use of records of exceptional value or in fragile condition shall be subject to any conditions specified by the research room attendant.

§ 105-61.102-3 Removal or mutilation of records.

Researchers may not remove records from a research room. The removal or mutilation of records is forbidden by law and is punishable by fine or imprisonment or both (18 U.S.C. 2071). At the discretion of the research room attendant or Federal Protective Officer on duty, researchers may be required to check personal belongings, including briefcases, folders, coats, newspapers, or containers of any kind before entering a research room; and upon leaving, researchers shall present for examination any article that could contain records. To ensure that records are not unlawfully removed or mutilated, a director may issue and post at the entrance of a research room instructions supplementing the rules in this § 105-61.102.

§ 105-61.102-5 Conduct.

Researchers are subject to the provisions of Subpart 101-19.3, Conduct on Federal Property. Eating in a research room is prohibited. Smoking is prohibited except in designated smoking areas. Loud talking and other activities likely to disturb other researchers are also prohibited. Persons desiring to use typewriters, sound recording devices, or photocopying equipment shall work in areas designated by the research room attendant.

§ 105-61.102-6 Keeping records in order.

A researcher must keep unbound records in the order in which they are delivered to him. Records appearing to be in disorder should not be rearranged by a researcher, but should be referred to the research room attendant. Normally, a researcher will not be allowed to remove records from more than one container at a time.

4. Section 105-61.104 is revised as follows:

§ 105-61.104 Access to national security information.

Public access to national security information and material is governed by Executive Order 11652, of March 8, 1972; the implementing National Security Council (NSC) Directive Governing the Classification, Downgrading, Declassification, and Safeguarding of National Se-

XUM

FEB 24 75
XUM

curity Information of May 17, 1972; and the Freedom of Information Act (5 U.S.C. 552).

§ 105–61.104–1 Declassification responsibility.

(a) *Records less than 30 years old.* Determinations to declassify national security information and materials less than 30 years old are the responsibility of the agency that classified the information unless that agency has authorized NARS to make such determinations.

(b) *Records more than 30 years old.* Determinations to declassify or to grant or deny access to national security information and materials more than 30 years old are the responsibility of NARS unless the head of the agency that classified the information personally certifies in writing that the information must remain classified.

(c) *Presidential records.* Determinations to declassify or to grant or deny access to national security information or materials classified by a President, his White House staff, or special committees or commissions appointed by him, are the responsibility of NARS and are made after consultation with the agencies having primary subject-matter interest (see § 105–61.203 for provisions relating to classified Presidential donated historical materials).

§ 105–61.104–2 Public requests for review of national security information.

(a) *General.* All requests for access to national security information and material in the custody of NARS should reasonably describe the records desired, be addressed in writing to the director of the appropriate NARS depository listed in § 105–61.5101 or to the Assistant Archivist for the National Archives, and clearly indicate that the request is being made under the Freedom of Information Act. NARS makes available any reasonably segregable portion of a record after national security information has been deleted.

(b) *Determinations made by other agencies.* When the agency which classified the information is responsible for declassification determinations, NARS notifies the requester of the agency with declassification authority and forwards any declassification requests received by NARS to the classifying agency. The agency makes the determination and notifies both NARS and the requester. If declassification is denied, the agency notifies the requester of his right of appeal.

(c) *Determinations made by NARS.* When NARS is responsible for declassification and access determinations, NARS reviews the records requested; consults with the agency which classified the records or with agencies having primary subject-matter interest if so required by the classifying agency or Executive Order 11652; and makes a determination within 10 workdays unless consultation with another agency requires an extension not to exceed 10 additional workdays. If an extension is required, NARS notifies the requester within 10 workdays from receipt of the request. If declassification or access is denied, NARS notifies the requester of his rights of appeal (1) in accordance with § 105–61.103–1(c), (2) to the Interagency Review Committee under the provisions of Executive Order 11652.

(d) *Declassified records.* When records have been declassified and are not otherwise restricted from release under § 105–61.103, members of the public may use or order reproductions of the records in accordance with this Part 105–61.

§ 105–61.104–3 Access to records that remain classified.

(a) Sections 6 and 12 of Executive Order 11652 and Section VI B of the implementing NSC Directive provide that persons outside the Executive Branch engaged in historical research projects may be authorized access to classified information and material provided that the head of the originating department determines that the project and the granting of the access conform to the requirements of the Executive Order and the NSC Directive, and that the researcher agrees to adequately safeguard the information and material received.

(b) Any person desiring permission to examine such material in the custody of NARS shall, sufficiently in advance, submit to the Archivist of the United States:

(1) A completed application;

(2) Personal history data on appropriate forms that will be furnished; and

(3) A set of fingerprints.

NARS refers applications to agencies having responsibility for the related programs. Records can be made available for examination only after each responsible agency has authorized the Archivist to make them available.

(c) The requirement for submission of a fingerprint set or of personal history data may be waived for an applicant who has previously furnished those items.

(d) To guard against the possibility of unauthorized access to restricted records, a director may issue and post in research rooms instructions supplementing the research room rules provided in § 105–61.102.

5. Section 105–61.105 is revised as follows:

§ 105–61.105 Copying services.

The copying of records will be done by personnel of the National Archives and Records Service with equipment belonging to the Service. NARS reserves the right to make a duplicate, at NARS expense, of any material copied. Such duplicates may be used by the Service to make additional copies for other researchers. Directors may permit individual researchers to use their own copying equipment when such use will not harm the records, will not disturb other researchers, and will not require the use of facilities or space other than that provided to all researchers. In order to preserve the original records, records which are available on microfilm will not be copied by other means as long as a legible copy (electrostat, photograph, or microfilm) can be made from the microfilm.

6. Section 105–61.106–1 is revised as follows:

§ 105–61.106–1 About records.

Upon request, overall information pertaining to holdings or about specific records will be furnished, provided that the time required to furnish the information is not excessive, and provided that the information is not restricted (see §§ 105–61.103 and 105–61.104). When so specified by a director, requests shall be made on prescribed forms.

7. Section 105–61.108 is revised as follows:

§ 105–61.108 Fees.

§ 105–61.108–1 Authority.

44 U.S.C. 2112c authorizes the charging of a fee, not in excess of 10 percent more than the costs or expenses, for making or authenticating copies or reproductions of materials transferred to the Admininistrator's custody. Under 44 U.S.C. 2307 the Chairman, National Archives Trust Fund Board, is authorized to prepare and publish special works and collections of sources and to prepare, duplicate, edit, and release historical photographic materials and sound recordings and sell those publications and releases at a price that will cover their cost, plus 10 percent.

§ 105–61.108–2. Fees and procedures.

The schedule of fees charged under this section for reproductions, exemptions from the fees charged, and procedures for the collection of such fees are issued by the Archivist of the United States and are set forth in subpart 105–61.52.

Subpart 105–61.2 is revised as follows:

Subpart 105–61.2—Public Use of Donated Historical Materials

§ 105–61.201 General.

The use of donated historical materials (as defined in § 105–61.001–4) is governed by the provisions of subpart 105–61.1, except that §§ 105–61.202 and 105–61.203 shall apply in lieu of §§ 105–61.103 and 105–61.104.

§ 105–61.202 Restrictions.

The public use of donated historical materials is subject to restrictions on their use and availability as stated in writing by the donors or depositors of such materials and other restrictions imposed by statute. (Researchers are encouraged to confer with directors on any question of literary property right.) In addition, use is subject to all conditions specified by the Archivist of the United States for purposes of archival preservation.

§ 105–61.203 Review of national security classified donated historical materials under Executive Order 11652.

§ 105–61.203–1 Mandatory review of White House classified materials.

Requests for declassification review of material classified by a President, his White House staff, or special committees or commissions appointed by him shall be made in writing to the director of the appropriate Presidential library. Except when donor restrictions preclude granting access, NARS consults with the agencies having primary subject-matter interest, determines whether the material may be declassified, and notifies the requester of this determination within 30 calendar days. If an extension is required, NARS notifies the requester within 30 calendar days of receipt of the request. If the material is declassified, it becomes available subject to the provisions of this Part 105–61. If the request is denied, the library director informs the requester of his right to appeal the denial to the National Archives Review Committee. The requester may also appeal to the National Archives Review Committee if he receives no notification of action from NARS within 60 calendar days. The National Archives Review Committee, which is composed of the Deputy Archivist of the United States (Chairman), the Assistant Archivist for Presidential Libraries, and the Assistant Archivist for the National Archives, acknowledges receipt of the appeal, determines within 30 calendar days whether the material may be declassified, and notifies the requester of the determination. If the appeal is denied, the Committee notifies the requester of his right of appeal to the Interagency Classification Review Committee.

§ 105–61.203–2 Mandatory review of agency classified material.

Requests for declassification review of agency classified material are directed to the director of the appropriate Presidential library. Except when donor restrictions preclude granting access, NARS forwards the material to the originating agency for review. The originating agency determines within 30 calendar days whether the material may be declassified and notifies the requester and NARS of the determination or the reason further time is necessary to make the determination. If the material is declassified, it becomes available subject to the provisions of this Part 105–61. If the request is denied or if no answer is received after 60 calendar days, the requester may appeal to the Departmental Committee of the originating agency as provided in section 7(B) of Executive Order 11652 and Part III of the National Security Council Directive of May 17, 1972 (37 FR 10053, May 19, 1972).

(Sec. 205(c), 63 Stat. 390 (40 U.S.C. 486(c)))

Effective date. This regulation is effective on February 24, 1975.

Dated: February 19, 1975.

ARTHUR F. SAMPSON,
Administrator of General Services.

[FR Doc.75–4965 Filed 2–21–75;8:45 am]

PART 105–61—PUBLIC USE OF RECORDS, DONATED HISTORICAL MATERIALS, AND FACILITIES IN THE NATIONAL ARCHIVES AND RECORDS SERVICE

Fees for Reproduction Services; Location of Records and Hours of Use

On January 22, 1975, there was published in the FEDERAL REGISTER (40 FR 3474) a notice of proposed rulemaking with proposed amendments to Chapter 105 of title 41 for the purpose of publishing a uniform schedule of fees and for revising the location of records and hours of use. Interested persons were given 30 days in which to submit comments regarding the proposed regulations.

No comments were received. Editorial corrections are made as follows:

1. The hours in paragraph (a) of § 105–61.5101–6 are changed to read 7:30 a.m. to 4 p.m.;

2. The hours in paragraph (b) of § 105–61.5101–7 are changed to read 8 a.m. to 4:30 p.m.;

3. The zip codes in paragraphs (e) and (g) of 105–61.5101–7 have been changed to read 60629 and 76115, respectively;

4. The column headings in paragraph (e) of § 105–61.5206 are changed to read 35mm, 16mm, and 16mm from 35mm.

Accordingly, with these corrections, the proposed amendments are adopted as set forth below.

(Sec. 205(c), 63 Stat. 390 (40 U.S.C. 486(c)); 41 CFR 105–61.000–2)

Effective date. These subparts are effective February 24, 1975.

Dated: February 20, 1975.

JAMES B. RHOADS,
Archivist of the United States.

The table of contents for Part 105–61 is amended by adding or revising the following entries:

Subpart 105–61.4—105–61.50 (Reserved)

Subpart 105–61.51—Location of Records and Hours of Use

105–61.5100	Scope of subpart.
105–61.5101	Location of records and hours of use.
105–61.5101–1	National Archives Building.
105–61.5101–2	[Reserved]
105–61.5101–3	Presidential libraries.
105–61.5101–4	Washington National Records Center.
105–61.5101–5	National Personnel Records Center.
105–61.5101–6	Federal records centers.
105–61.5101–7	Federal archives and records centers.

Subpart 105–61.52 Fees

105–61.5201	Applicability.
105–61.5202	Exclusions.
105–61.5203	Color reproductions.
105–61.5204	Copy negatives.
105–61.5205	Mail orders.
105–61.5206	Fee schedule.
105–61.5207	Payment of fees.
105–61.5208	Effective date.

Subpart 105–61.48 is redesignated as Subpart 105–61.51 and revised as follows:

Subpart 105–61.51—Location of Records and Hours of Use

§ 105–61.5100 Scope of subpart.

This subpart illustrates exhibits previously referred to in this part.

§ 105–61.5101 Location of records and hours of use.

§ 105–61.5101–1 National Archives Building.

The National Archives Building, Eighth and Pennsylvania Avenue, NW., Washington, DC 20408. Hours: For the Central Research Room and Microfilm Research Room, 8:45 a.m. to 10 p.m., Monday through Friday, and 8:45 a.m. to 5:15 p.m. on Saturday. For other research rooms, 8:45 a.m. to 5 p.m., Monday through Friday. Records to be used on Friday after 5 p.m. or on Saturday must be requested by 3 p.m. Friday. Records to be used after 5 p.m., Monday through Thursday, must be requested by 4 p.m. of the day on which they are used.

§ 105–61.5101–2 [Reserved]

§ 105–61.5101–3 Presidential libraries.

(a) Herbert Hoover Library, South Downey Street, West Branch, IA 52358. Hours: 9 a.m. to 5 p.m., Monday through Friday.

(b) Franklin D. Roosevelt Library, Albany Post Road, Hyde Park, NY 12538. Hours: 9 a.m. to 5 p.m., Monday through Friday.

(c) Harry S. Truman Library, Highway 24 at Delaware Street, Independence, MO 64050. Hours: 9 a.m. to 5 p.m., Monday through Friday.

(d) Dwight D. Eisenhower Library, South East Fourth Street, Abilene, KS 67410. Hours: 9 a.m. to 5 p.m., Monday through Friday.

(e) John F. Kennedy Library, 380 Trapelo Road, Waltham, MA 02154. Hours: 8:30 a.m. to 5 p.m., Monday through Friday.

(f) Lyndon B. Johnson Library, 2313 Red River, Austin, TX 78705. Hours: 9 a.m. to 5 p.m., Monday through Friday.

§ 105–61.5101–4 Washington National Records Center.

Washington National Records Center, 4205 Suitland Road, Suitland, MD. Mailing address: General Services Administration, Washington National Records Center, Washington, DC 20409. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

§ 105–61.5101–5 National Personnel Records Center.

(a) National Personnel Records Center (military personnel records), 9700 Page Boulevard, St. Louis, MO 63132. Hours: 7:30 a.m. to 4 p.m., Monday through Friday.

(b) National Personnel Records Center (civilian personnel records), 111 Winnebago Street, St. Louis, MO 63118.

XUM V40137 FEB 24 75 XUM

Hours: 7:30 a.m. to 4 p.m., Monday through Friday.

§ 105–61.5101–6 Federal records centers.

(a) Naval Supply Depot, Building 308, Mechanicsburg, PA 17055. Hours: 7:30 a.m. to 4:00 p.m., Monday through Friday.

(b) 2400 West Dorothy Lane, Dayton, OH 45439. Hours: 7:30 a.m. to 4 p.m., Monday through Friday.

§ 105–61.5101–7 Federal archives and records centers.

(a) 380 Trapelo Road, Waltham, MA 02154. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(b) Military Ocean Terminal, Bldg. 22, Bayonne, NJ 07002. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(c) 5000 Wissahickon Avenue, Philadelphia, PA 19144. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(d) 1557 St. Joseph Avenue, East Point, GA 30044. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(e) 7358 South Pulaski Road, Chicago, IL 60629. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(f) 2306 East Bannister Road, Kansas City, MO 64131. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(g) 4900 Hemphill Street, Fort Worth, TX 76115. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(h) Building 48, Denver Federal Center, Denver, CO 80225. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(i) 1000 Commodore Drive, San Bruno, CA 94066. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(j) 24000 Avila Road, Laguna Niguel, CA 92677. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

(k) 6125 Sand Point Way, Seattle, WA 98115. Hours: 8 a.m. to 4:30 p.m., Monday through Friday.

New Subpart 105–61.52 is added as follows:

Subpart 105–61.52—Fees

§ 105–61.5201 Applicability.

(a) Except as otherwise provided in this section, fees for the reproduction of archives, donated historical materials, and records filed with the Office of the Federal Register are as set forth in § 105–61.5206.

(b) The fees set forth in § 105–61.5206 apply to reproductions of FRC records, except when NARS and the agency that transferred the records have agreed to apply that agency's fee schedule.

(c) The following categories are excluded from the fees set forth in § 105–61.5206.

(1) National Archives publications, including microfilm publications. Prices of publications are available from the Publications Sales Branch (NEPS), National Archives (GSA), Washington, DC 20408.

(2) Audiovisual materials sold by the National Audiovisual Center. Prices for these materials are available from the Distribution Branch (NACD), National Audiovisual Center (GSA), Washington, DC 20409.

(3) Historical photographs and sound recordings that are sold at prices listed in the General Information and Select Audiovisual Records leaflets available from the Publications Sales Branch (NEPS), National Archives (GSA), Washington, DC 20408.

(4) Census schedules (1790–1890). Reproduction of a census entry (i.e., a family unit or household)—$2.

(5) Military service files and pension files more than 75 years old. Reproduction of a military service file (or selected documents from the file if voluminous)—$2.

(6) Passenger lists more than 75 years old—$2.

(7) Orders requiring additional expense to meet unusual customer specifications such as the use of special techniques to make a photographic copy more legible than the original document, or unusual format or background requirement for negative microfilm. Fees for these orders are computed for each order.

§ 105–61.5202 Exclusions.

No fee is charged for reproduction or authentication in the following instances:

(a) Documents furnished to other elements of the Federal Government. However, a fee may be charged if the appropriate director determines that the service cannot be performed without reimbursement.

(b) When the purpose is to disseminate information about the activities of GSA to the general public through press, radio, television, and newsreel representatives;

(c) When the reproduction is to furnish the donor of a document or other gift with a copy of the original;

(d) When the reproduction is for individuals or associations having official voluntary or cooperative relations with GSA in its work;

(e) When the reproduction is for a foreign, State, or local government or an international agency and furnishing it without charge is an appropriate courtesy;

(f) When furnishing the service free conforms to generally established business custom, such as furnishing personal reference data to prospective employers of former Government employees;

(g) When the reproduction of not more than one copy of the document is required to obtain from the Government financial benefits to which the requesting person may be entitled (e.g., veterans or their dependents, employees with workmen's compensation claims, or persons insured by the Government);

(h) When the reproduction of not more than one copy of the transcript of a hearing or other formal proceeding involving security requirements for Federal employment is requested by a person directly concerned in the hearing or proceeding; and

(i) When the reproduction of not more than one copy of a document is for a person who has been required to furnish a personal document (e.g., birth certificate and retention by an agency of the Government).

§ 105–61.5203 Color reproductions.

Color reproductions are furnished to the public and the Government only on a fee basis.

§ 105–61.5204 Copy negatives.

Requests for photographs of materials for which no copy negative is on file are handled as follows:

(a) The cost of the negative shall be charged to the customer; except in cases where NARS wishes to retain the negative for its own use.

(b) When no fee is charged the negative becomes the property of NARS. When a fee is charged the negative becomes the property of the customer.

§ 105–61.5205 Mail orders.

The following fees apply only when reproductions are ordered by mail:

(a) Except for those processes showing a higher minimum in section 105–61.5206, a minimum fee of $2 per order is charged for reproductions ordered by mail.

(b) No additional fee is charged for postage and handling when reproductions are sent by surface mail at the lowest rate to domestic addresses.

(c) When a customer requests that reproductions be sent to a foreign address or requests airmail or priority shipment or special postal service to domestic addresses, the order is subject to a shipping fee in addition to the cost of the reproductions. The shipping fee is computed as a percentage of the cost of the items ordered plus a special shipping or postal service fee using the schedule in paragraph (d) or (e). However, no additional charge is made when the special shipping fee is less than $1.

(d) The following special shipping fees are computed as a percentage of the fee for the item ordered:

Type of reproduction	Shipping fee: Foreign surface or expedited domestic mail or freight or express	Shipping fee: Foreign airmail
	Percent	*Percent*
Electrostat	5	10
Photostat	10	20
Diazo	10	20
Copy negative	1	2
Slides (2" x 2")	2	4
Photographic prints (larger than 8" x 10")	10	20
Sound tapes	5	10
Motion pictures	3	6
Microfilm	3	6
Photographic prints (8" x 10" or smaller)	4	8

(e) The following fees for special postal service apply when the service is requested by the customer:

Insured mail	$0.40
Certified mail	.30
Return receipt	.15
Registered mail	.95

When packages are sent registered mail, both the shipping fee and the special postal service fee are charged since the U.S. Postal Service charges the airmail rate for registered mail.

§ 105–61.5206 Fee schedule.

(a) Authentication			$2.00
(b) Still photography (minimum order, $2):			
(1) Copy negatives (black and white):			
4 by 5 inches			2.10
8 by 10 inches			3.25
(2) Aerial prints (black and white):			
10 by 10 inches or smaller, contact			2.00
10 by 10 inches enlargement			3.00
14 by 14 inches			4.00
18 by 18 inches and 20 by 24 inches			5.00
27 by 28 inches			6.00
40 by 41 inches			12.00
(3) Photographic prints (includes prints from microfilm):			
	B. & W.	Color	
8 by 10 inches or smaller	$2.55	$8.25	
11 by 14 inches	3.20	15.00	
16 by 20 inches	5.25	25.00	
20 by 24 inches		37.00	
22 by 28 inches	7.50		
24 by 30 inches		58.50	
30 by 40 inches	9.80	90.00	
Sepia, add	3.50		
(4) Slides and transparencies:			
Black and white:			
2 by 2 inches from existing negative			1.10
Additional fee when negative must be made			2.10
Color:			
2 by 2 inches duplicate			.75
2 by 2 inches from opaque original			1.50
4 by 5 inches			5.75
8 by 10 inches			10.00
(5) Photostat (up to 17 by 23 inches)			1.50
(6) Diazo (per foot)			.45
(7) Drymounting (per square foot)			1.00

(c) Microfilm:	16 mm	16 mm from 35 mm
(1) Negative (per frame; minimum order, $10)	$0.10	$0.10
(2) Positive (per foot; minimum, $6 per roll)	.08	.09

(d) Electrostatic copying	
(1) Paper to paper (up to 8½ by 14 inches):	
Mail order (minimum order, $2)	.15
In research rooms	.10
(2) Microfilm to paper:	
From negative (Copyflo, minimum order, $10 per foot)	1.25
From positive (per frame):	
When work is done by customer (up to 8½ by 14 inches per frame)	.15
When work is done by NARS (minimum order, $2):	
Nonconsecutive frames or first of consecutive frame, any size	.75
Consecutive or duplicate frames-	
Up to 8½ by 14 inches	.25
11 by 17 inches	.35
18 by 24 inches	.45

(e) Motion pictures (minimum order, $24):	35 mm	16 mm	16 mm from 35 mm
(1) Basic fee per band or reel	$8.50	$7.00	$7.00
(2) Added fee per foot-			
Master positive	.05	.04	.06
Duplicate negative	.10	.06	.08
Projection print	.04	.03	.05
Composite, add	.015	.015	.03

(f) Sound recordings:	
Reel to reel or cassette, fee based on length of master 7½ ips, 7 inch reel:	
300 feet (7½ min)	2.50
600 feet (15 min)	4.10

(2) Photographer or other (per hour)	10.00	13.05

(i) *Unlisted processes.* Fees for reproduction work indicated in this section 105 or for processes not listed are computed upon request.

§ 105–61.5207 Payment of fees.

Fees may be paid in cash or by check or money order made payable to the National Archives Trust Fund. Remittances from outside the United States must be made by international money order or check drawn in U.S. dollars on a bank in the United States or one of its territories or possessions. Fees must be paid in advance except when the appropriate director approves a request for handling them on an account receivable basis. Accounts more than 90 days overdue are subject to late charges of 12 percent per year. Purchasers with special billing requirements must state them when placing orders and must complete special forms for NARS approval. When special billing forms are not submitted with the order or are completed by NARS there is an added $5 service charge.

§ 105–61.5208 Effective date.

The fees in § 105–61.5206 are effective beginning February 19, 1975, and ending on June 30, 1975. Orders received after June 30, 1975, will be subject to the fees in effect at that time.

Title 45—Public Welfare

CHAPTER X—OFFICE OF ECONOMIC OPPORTUNITY

PART 1005—INSPECTION AND COPYING OF RECORDS: RULES FOR COMPLIANCE WITH PUBLIC INFORMATION ACT

Interim Regulations

In order to implement the Freedom of Information Act amendments to make information more accessible to the public, the Community Services Administration is publishing interim rules which will replace current regulations found in 45 CFR 1005, Inspection and Copying of Records; Rules for Compliance with Public Information Act.

Part 1005 of Chapter X of Title 45 of the Code of Federal Regulations is revoked.

Interested persons are invited to submit written comments, additional recommendations or objections regarding these interim rules to the General Counsel, Community Services Administration, 1200—19th Street, NW., Washington, D.C. 20506, on or before March 24, 1975.

The provisions of this Part are effective immediately on an interim basis pending the receipt of comments and issuance of final regulations.

Dated: February 20, 1975.

BERT A. GALLEGOS,
Director.

Sec.
1005.1 Purpose.
1005.2 Policy.
1005.3 Definition of terms used in this part.
1005.4 Location and Use of CSA Records.
1005.5 Responsibilities of the Requester.
1005.6 Statutory exemptions.
1005.7 Records of other Agencies.
1005.8 Fees.
1005.9 Officials Authorized to Grant or Deny Requests for Records or Copies of Records.
1005.10 Form and Records of Denial.
1005.11 Administrative Review of Denials.

AUTHORITY: Sec. 602, 78 Stat. 530; 42 U.S.C. 2942.

§ 1005.1 Purpose.

The purpose of this part is to prescribe rules for the inspection and copying of opinions, policy statements, staff manuals, instructions and other records of the Community Services Administration pursuant to the Freedom of Information Act (5 U.S.C. 552), as amended.

§ 1005.2 Policy.

It is the policy of the Community Services Administration pursuant to section 635 of the Community Services Act of 1974 (42 U.S.C. 2977) and the Freedom of Information Act, as amended (5 U.S.C. 552) to encourage the widest possible distribution of information concerning programs administered by the Community Services Administration under the Community Services Act.

§ 1005.3 Definition of terms used in this part.

(a) "CSA"—the Community Services Administration

(b) "Records"—includes books, papers, maps, photographs, or other documentary materials, regardless of physical form, made or received by CSA in connection with the transaction of public business and preserved as evidence of governmental organizations, functions, policies, decisions, procedures, operations, or other activities, or because of the informational value of data contained therein, but does not include books, magazines or other materials acquired solely for library purposes and available through any officially designated library of CSA and does not include anaylses, computations, or compilations of information not extant at the time of the request.

(c) "Request"—a letter or other written communication seeking records under the Freedom of Information Act.

(d) "Person"—includes a corporation or organization as well as an individual.

§ 1005.4 Location and use of CSA records.

(a) *Central records room—CSA Headquarters.* The Community Services Administration maintains a central records room at its headquarters, 1200-19th Street, NW., Room 213, Washington, D.C. 20506 which is under the supervision of the records officer and is open during regular business hours of CSA for the convenience of members of the public in inspecting or copying materials and records.

(b) *CSA Regional Offices.* (1) CSA has ten Regional Offices. Although it may not always be feasible to set aside records rooms in Regional Offices for the exclusive or primary use of the public, every reasonable effort will be made to ac-

XUM
V 40 0137 FEB 24 75 XUM

commodate members of the public who wish to use regional office facilities for the purpose of inspecting and copying records. The records officer of each Regional Office is designated to receive and handle requests submitted pursuant to this part.

(2) CSA regional offices are in the following locations and cover CSA activities in the states indicated:

Region I (Maine, New Hampshire, Vermont, Massachusetts, Connecticut, and Rhode Island) J. P. Kennedy Federal Building, Boston, Massachusetts 02203.

Region II (New York, New Jersey, Puerto Rico, and the Virgin Islands), 26 Federal Plaza, 32nd Floor, New York, N.Y. 10007.

Region III (Pennsylvania, Delaware, Maryland, West Virginia, and Virginia), U.S. Customshouse, Second and Chestnut Streets, Philadelphia, Pennsylvania 19106.

Region IV (North Carolina, Tennessee, Kentucky, South Carolina, Georgia, Alabama, Mississippi, and Florida), 730 Peachtree Street, NE., Atlanta, Georgia 30308.

Region V (Minnesota, Wisconsin, Michigan, Illinois, Indiana, and Ohio), 300 South Wacker Drive, 24th Floor, Chicago, Ill. 60606.

Region VI (New Mexico, Oklahoma, Arkansas, Texas, and Louisiana), 1100 Commerce Street, Dallas, Texas 75202.

Region VII (Nebraska, Iowa, Kansas, and Missouri) 911 Walnut Street, Kansas City, Mo. 64106.

Region VIII (Montana, North Dakota, South Dakota, Wyoming, Utah, and Colorado), Federal Building, 1961 Stout Street, Denver, Colo. 80202.

Region IX (California, Nevada, Arizona, Hawaii, Guam, and Pacific Trust Territories), 100 McAllister Street, San Francisco, California 94102.

Region X (Alaska, Washington, Oregon, and Idaho), Arcade Plaza Building, 1321 Second Avenue, Seattle, Washington, 98101.

(c) *Use of records rooms.* (1) Any person who wishes to inspect or copy opinions, interpretations, staff manuals, or other materials regularly maintained in a records room may secure access to those materials by presenting himself at one of the addresses indicated during business hours. No advance notice or appointment is required, although persons wishing to make extended use of regional office facilities should take account of the possible limitations in these facilities as described in paragraph (b) of this section.

(2) The records rooms are also available to any person to inspect and copy records which are not regularly maintained in the records room. To obtain this type of record, a person should present his request identifying the record to the records officer. It will often be impossible, however, to produce these records, or copies of them on very short notice. Accordingly, a member of the public who wishes to use records room facilities to inspect or copy such records is advised to arrange a time in advance, by phone or letter, addressing the request to the records officer of the facility he desires to use. Persons seeking records by phone will be advised by the records officer or his designee whether a written request would be advisable to aid in the identification and expeditious handling of the records sought. Persons making such requests should address them to the "Records Officer" of either the Headquarters address or one of the regional office addresses listed in paragraph (a) and (b) of this section and should identify the records sought in the manner provided in § 1005.5 of this part. They should also indicate whether there is any specific date on which they would like to use the records room facilities. The records officer will advise the requester as promptly as possible but in any event within ten working days, whether the records sought will be available on the date requested. If access to the records sought is denied, the denial shall be communicated to the requester as set forth in § 1005.10.

§ 1005.5 Responsibilities of the requester.

(a) *Identification of records.* (1) In order for CSA to locate records and make them available, it is necessary that it be able to identify the specific records sought. Persons wishing to inspect or secure copies of records should, therefore, seek to identify them as fully and accurately as possible. In cases where requests are submitted which are not sufficient to permit identification, the records officer receiving the request will endeavor to assist the persons seeking the records in filling in necessary details. In most cases, however, persons seeking records will find that time taken in trying to identify materials in the beginning is well worth their while in enabling CSA to respond promptly to their request.

(2) Among the kinds of information which a person seeking a record should try to provide in order to permit identification of a record are the following:

(i) the specific event or action, if any or if known to which the record refers;

(ii) the unit or program of CSA which may be responsible for or may have produced the record, such as Community Action Programs, or the Economic Development Program;

(iii) the date of the record or the date or period to which it refers or relates, if known;

(iv) the type of record, such as an application, a contract, or a grant, or a report;

(v) personnel of CSA who may have prepared or have knowledge of the record;

(vi) citations to newspapers or publications which are known to have referred to the record.

(b) *Securing copies of records by mail.* (1) A person desiring to secure copies of records by mail should write to the "Records Officer" at the CSA Headquarters or "Records Officer" at the appropriate regional office, (see § 1005.4(a) and (b) for address listings).

(2) Records relating to any local community action program will generally be located in the regional office serving the State in which the program is being operated; records relating to the Economic Development program will very commonly be located at the Headquarters office. If the person making the request is uncertain whether the record is located in a particular office, he should write to the Records Officer in the Headquarters Office. The request should identify the records of which copies are sought as provided in paragraph (a) of this section.

(3) A request need not be in any particular format, except that it (i) must be in writing, (ii) must describe the records sought with sufficient specificity to permit identification, (iii) should be clearly identified both on the envelope and in the letter as a Freedom of Information Act or FOIA request, (iv) should specify willingness to pay fees, if any, (see § 1005.8 (b)), and should include the name, address, and, if possible, phone number of the requester.

§ 1005.6 Statutory exemptions.

(a) The provisions of U.S.C. section 552 which require that agencies make their records available to public inspection and copying do not apply to matters which are:

(1)(a) specifically authorized under criteria established by an Executive order to be kept secret in the interest of national defense or foreign policy and (b) are in fact properly classified pursuant to such Executive order;

(2) related solely to the internal personnel rules and practices of an agency;

(3) specifically exempted from disclosure by statute;

(4) trade secrets and commercial or financial information obtained from a person and privileged or confidential;

(5) interagency or intra-agency memorandums or letters which would not be available by law to a party other than an agency in litigation with the agency;

(6) personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy;

(7) investigatory records compiled for law enforcement purposes, but only to the extent that the production of such records would (A) interfere with enforcement proceedings, (B) deprive a person of a right to a fair trial or an impartial adjudication, (C) constitute an unwarranted invasion of personal privacy, (D) disclose the identity of a confidential source and, in the case of a record compiled by a criminal law enforcement authority in the course of a criminal investigation, or by an agency conducting a lawful national security intelligence investigation, confidential information furnished only by the confidential source, (E) disclose investigative techniques and procedures, or (F) endanger the life or physica lsafety of law enforcement personnel;

(8) contained in or related to examination, operating, or condition reports prepared by, on behalf of, or for the use of an agency responsible for the regulation or supervision of financial institutions; or

(9) geological and geophysical information and data, including maps, concerning wells.

(b) Of the various exemptions set forth in § 1005.6(a) of this section those considered most likely to be applicable to records of CSA are listed in § 1005.6(a) (3), (4), (5), (6), and (7). These generally pertain to: records setting forth such internal personnel rules and practices as instructions to staff on inspection or contract negotiation tactics; records, including records of commercial and financial data, which contain information which is subject to some established or generally recognized privilege or is otherwise confidential because of the circumstances under which it was acquired; records in the form of

communications by which officials or staff of CSA or another agency undertake to advise one another of their views on proposed official actions; records concerning the personal or family affairs of employees, prospective employees, or participants in programs which CSA assists or is responsible for; and records, including inspection reports, which CSA compiles and maintains for use in connection with pending or prospective enforcement proceedings. CSA will invoke these exceptions as sparingly as possible, consistent with its obligation to administer the laws for which it is responsible fairly and effectively, and its obligation to assure that the governmental powers and facilities available to it for collecting and maintaining information relating to the private needs, problems or affairs of the families and individuals are not used for other than their intended official purpose. Furthermore, 5 U.S.C. 552(b) has been amended by Pub. L. 93-502 to provide: "Any reasonably segregable portion of a record shall be provided to any person requesting such record after deletion of the portions which are exempt under this subsection."

§ 1005.7 Records of other agencies.

In any case where a request is determined to relate to records which are of paramount concern to another agency, the CSA will forward the request to that agency. The person making the request will be promptly notified of this action. For purposes of this section, records produced by or for another agency which pertain to program powers exercised by it under delegation or agreement from CSA will, subject to any interagency understanding covering specific records or classes of records, be treated as of paramount concern to that other agency.

§ 1005.8 Fees.

(a) *Waiver of fees.* To the extent practicable, the policy noted in § 1005.2 will be applied under this part so as to permit requests for inspection or copies of records to be met without cost, or at required cost to the requester. Fees will be charged, however, in the case of requests which involve a burden on staff or facilities significantly in excess of that normally accepted by CSA in handling routine requests for information. In determining what fee will be charged, CSA will consider only direct costs of identifying, locating, and copying records. CSA will not charge any fees for normal search for records not found. If extraordinary efforts to find records are to be made, CSA will first consult with the requester. CSA will not charge requester for records denied under § 1005.10. If a request is partially denied, CSA will charge requester only for search for those documents wholly or partially furnished to requester, nor will CSA charge requester for the costs of segregating portions of documents partially denied to requester.

(b) *Agreement to pay fees.* (1) A request should state that the requester will promptly pay applicable fees. In his request, the requester may either:

(i) Agree to pay all fees up to a specified limit; or

(ii) Indicate that he wishes to be advised of the estimated fees.

(2) If the requester elects alternative (b)(1)(ii) of this section or if he places a limit on the fees which is less than their estimated amount, the notice whether the request is granted or denied will be furnished as provided for under § 1005.10 and § 1005.11, but no records will be furnished to the requester until he has been notified of their estimated cost and has agreed to pay it, except that if the estimated cost is ten dollars or less and requester has not specifically set a limit of less than that amount, the records will be sent to him without awaiting his agreement to pay the fee. Estimates of fees will be communicated to the requester as soon as possible, but in any event within ten working days of the receipt of the request, so that the furnishing of requested information is not unnecessarily delayed. If the requester is unwilling to pay the estimated cost, he may reduce the volume of copies requested so as to reduce the fee to an amount he is willing to pay.

(c) *Payment of fees in advance.* (1) Under some circumstances payment of fees in advance may be required. In this event the requester will be notified as soon as possible, but in any event within ten working days of the receipt of the request, so that unnecessary delay in the furnishing of requested information may be avoided. Payment of the whole of the estimated fee will be required in advance of the furnishing of any information if the requester has previously failed to pay any previous fee due to CSA for the furnishing of information under these regulations.

(2) A deposit of 25 percent of the estimated fees will be reqired if these fees are in excess of $50.00.

(d) *Remittances.* Remittances shall be in the form of either a certified personal check or bank draft drawn on a bank in the United States or a postal money order. Remittances shall be made payable to the Treasurer of the United States and mailed to Controller, Community Services Administration, 1200 19th Street, NW., Washington, D.C. 20506.

(e) *Fee Schedule.* (1) Following is the fee schedule for reproduction available under the Freedom of Information Act (5 U.S.C. 552), as amended:

(i) *Search of records.* Four (4) dollars per hour when the search is conducted by a clerical employee; seven (7) dollars per hour when the search is conducted by a professional employee. There will be no charge for searches for less than 1 hour.

(ii) *Duplication of records.* Records will be duplicated at a rate of $.15 per page for all copying.

(iii) *Other.* When no specific fee has been established for a service, or the request for a service does not fall under one of the above categories, the Records Officer is authorized to establish an appropriate fee based on "direct costs" as provided in the Freedom of Information Act and in accordance with Community Services Administration regulations. Services performed that are not required under the Freedom of Information Act such as formal certification of records as true copies may be subject to charges under the Federal User Charge Statute (31 U.S.C. 483a) or other applicable statutes depending upon the services performed.

(2) If records requested under this part are stored elsewhere than the Headquarters, or regional offices, the special costs of returning such records to these offices for review will be added to the search costs.

§ 1005.9 Officials authorized to grant or deny requests for records or copies of records.

The Records Officer shall be responsible for advising CSA officials and staff as to their obligations under this part; he shall take such other actions as may be necessary or appropriate to assure a consistent and equitable application of this part by and within CSA. In pursuance of this objective, the Records Officer shall require other officials of CSA to clear with him prior to denying requests or prior to granting requests for categories of documents which he determines may present special or unusual problems. At his discretion, he may himself grant or deny a request. Subject to this authority each Assistant Director, the General Counsel, the Executive Secretary and the Special Assistant to the Director, heads of Headquarters offices or divisions, and the regional directors may grant or deny requests under this part which pertain to their areas of responsibility.

§ 1005.10 Form and Records of Denial.

A decision to grant or deny a request must be made within 10 working days. Under unusual circumstances (as defined by 5 U.S.C. 552(a)(6)), CSA may extend this period for an additional 10 working days by written notice to the requester setting forth these circumstances and the date upon which a determination is expected. No request for inspection or copying of records under this part which the requester has put in writing shall be denied except in writing. All such denials shall cite the reasons therefor and shall include notice that the person whose request has been denied or partially denied may initiate an appeal by filing a request for review as provided for under § 1005.11. Written denials shall for purposes of this part, be treated as opinions, and shall be maintained and indexed accordingly.

§ 1005.11 Administrative Review of Denials.

(a) Any person whose written request has been denied or partially denied may appeal the denial by writing to the Director of CSA within 30 days of the denial. An appeal shall be in writing and shall include a copy of the original request, the denial, and any written argument the requester wishes to make.

(b) The Director may determine the appeal himself or designate the Deputy Director, an Assistant Director, Deputy Assistant Director or Associate Director to do so, but if he makes such a designation, the designee's determination shall be the agency's final decision. There will ordinarily be no hearing on appeal.

XUM
V 40 37
FEB 24 75
XUM

(c) The appeal shall be determined within 20 working days of its receipt, however, this period may be extended for up to 10 additional working days under unusual circumstances under the same procedures set forth in § 1005.10, provided that an extension has not previously been taken under that section.

(d) The determination of the Director or his designee shall be in writing and should contain an explanation responsive to the arguments advanced. The determination shall be promptly communicated to the requester and shall constitute final CSA action on the appeal. All such determinations shall be treated as opinions under this part in the same manner as denials described in § 1005.10.

(e) Any determination to deny an appeal shall include written notice to the requester of his right to prompt judicial review thereof under 5 U.S.C. 552 (a) (4).

[FR Doc.75-5031 Filed 1-21-75;10:20 am]

proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

DEPARTMENT OF THE TREASURY

Internal Revenue Service

[26 CFR Part 1]

DEDUCTION FOR CERTAIN PAYMENTS TO THE NATIONAL RAILROAD PASSENGER CORPORATION

Notice of Proposed Rule Making

Notice is hereby given that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by March 27, 1975. Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments, will not be accepted. Thus, a person submitting written comments should not include therein material that he considers to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rule making is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702 (d)(9). Any person submitting written comments who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by March 27, 1975. In such case, a public hearing will be held, and notice of the time, place, and date will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in sections 250 and 7805 of the Internal Revenue Code of 1954 (84 Stat. 1341, 68A Stat. 917; 26 U.S.C. 250, 7805).

[SEAL] DONALD C. ALEXANDER,
Commissioner of Internal Revenue.

PREAMBLE

This document contains proposed amendments to conform the Income Tax Regulations (26 CFR Part 1) to the amendments made to the Internal Revenue Code of 1954 by section 901 of the Rail Passenger Service Act (84 Stat. 1341), relating to the deduction for certain payments made to the National Railroad Passenger Corporation. Under the Act, in order to be relieved of the requirement of providing intercity rail passenger service, a railroad must, under a contract entered into under section 401 (a) of the Act, pay a set amount to the National Railroad Passenger Corporation ("the Passenger Corporation") which in exchange assumes the entire responsibility of the railroad to provide intercity rail passenger service. The railroad may then deduct the amount of these payments made to the Passenger Corporation if the railroad does not, except in limited circumstances, receive any stock of the Passenger Corporation in exchange for these payments. The deduction is subject to subsequent disallowance if the railroad acquires any stock of the Passenger Corporation at any time prior to the expiration of 36 months after the last payment is made under the contract to the Passenger Corporation.

PROPOSED AMENDMENTS TO THE REGULATIONS

In order to conform the Income Tax Regulations to section 901 of the Rail Passenger Service Act (84 Stat. 1341), the regulations are hereby amended by inserting the following new sections immediately after § 1.249–1:

§ 1.250 Statutory provisions; certain payments to the National Railroad Passenger Corporation.

SEC. 250. *Certain payments to the National Railroad Passenger Corporation*—(a) *General rule.*—If—(1) any corporation which is a common carrier by railroad (as defined in section 1(3) of the Interstate Commerce Act (49 U.S.C. 1(3))) makes a payment in cash, rail passenger equipment, or services to the National Railroad Passenger Corporation (hereinafter in this section referred to as the Passenger Corporation) pursuant to a contract entered into under section 401(a) of the Rail Passenger Service Act, and

(2) no stock in the Passenger Corporation is issued at any time to such corporation in connection with any contract entered into under such section 401(a) then the amount of such payment shall (subject to subsection (c)) be allowed as a deduction for the taxable year in which it is made.

(b) *When payment is made.*—Under regulations prescribed by the Secretary or his delegate, a payment in rail passenger equipment shall be treated as made when title to the equipment is transferred, and a payment in services shall be treated as made when the services are rendered.

(c) *Effect of certain subsequent acquisitions of stock.*—(1) *Disallowance of deductions.*—If any deduction has been allowed under subsection (a) to a corporation and such corporation (or a successor corporation) acquires any stock in the Passenger Corporation (other than in a transaction described in section 374 or 381) before the close of the 36-month period which begins with the day on which the last payment is made to the Passenger Corporation pursuant to the contract entered into under such section 401(a), then such deduction shall be disallowed (as of the close of the taxable year for which it was allowed under subsection (a)).

(2) *Collection of deficiency.*—If any deduction is disallowed by reason of paragraph (1), then the periods of limitation provided in sections 6501 and 6502 on the making of an assessment and the collection by levy or a proceeding in court shall, with respect to any deficiency (including interest and additions to the tax) resulting from such a disallowance, include one year following the date on which the person acquiring the stock which results in the disallowance (in accordance with regulations prescribed by the Secretary or his delegate) notifies the Secretary or his delegate of such acquisition; and such assessment and collection may be made notwithstanding any provision of law or rule of law which otherwise would prevent such assessment and collection.

(d) *Members of controlled group.*—Under regulation prescribed by the Secretary or his delegate, if a corporation is a member of a controlled group of corporations (within the meaning of section 1563), subsections (a)(2) and (c) shall be applied by treating all members of such controlled group as one corporation.

[Sec. 250 as added by sec. 901, Rail Passenger Service Act (84 Stat. 1341)]

§ 1.250–1 Deducation for certain payments to the National Railroad Passenger Corporation.

(a) *General rule*—(1) *Allowance of deduction.* The amount of a payment described in subparagraph (2) of this paragraph made to the National Railroad Passenger Corporation (hereafter called the "Passenger Corporation") by a corporation which is a common carrier by railroad, as defined in section 1(3) of the Interstate Commerce Act (49 U.S.C. 1(3)), shall be allowed as a deduction for the taxable year in which the payment is made. However, in accordance with paragraph (b) of this section, no deduction shall be allowed for the payment if the Passenger Corporation issues stock to the common carrier by railroad in connection with a contract described in subparagraph (2)(i) of this paragraph. A payment described in subparagraph (2)(i) of this paragraph which is not deductible under section 250 and this section may not be deducted under any other section of

XUM V40137 FEB 24 75 XUM

the Code or these regulations. See paragraph (c) of this section for the rules relating to when certain payments are treated as made to the Passenger Corporation. See paragraph (d) of this section for the rules relating to the disallowance of the deduction if certain subsequent acquisitions of stock of the Passenger Corporation occur. See paragraph (e) of this section for the rules relating to treatment of all members of a controlled group as one corporation. This section applies only with respect to taxable years ending after October 30, 1970.

(2) *Payments eligible for deduction*—(i) *In general.* The deduction allowed by this section shall be allowed with respect to payments made in cash, rail passenger equipment, or services to the Passenger Corporation pursuant to a contract entered into under section 401 (a) of the Rail Passenger Service Act (84 Stat. 1334). The amount of the payments shall be the amounts provided under the contract between the Passenger Corporation and the common carrier by railroad.

(ii) *Rail passenger equipment.* For purposes of this section the term "rail passenger equipment" means depreciable tangible personal property used incident to the furnishing of rail passenger service. Such term does not include track, roadbed, real property or buildings.

(iii) For purposes of this section, the term "services" means the performance of activities for the benefit of the Passenger Corporation and includes the furnishing of the use of equipment or facilities to the Passenger Corporation where title to the equipment or facilities is not transferred to the Passenger Corporation. A grant of the use of track or roadbed shall be treated as the furnishing of services.

(3) *Special rules for payment in equipment and services*—(i) *Realization of income.* In the case of a payment to the Passenger Corporation in the form of equipment or services, the common carrier shall be treated as satisfying a fixed obligation with equipment or services and may, therefore, realize taxable income or a loss as a result of the payment. This rule may be illustrated by the following two examples:

Example (1). If a common carrier had a fixed obligation under a section 401(a) contract to make a payment of $500,000 to the Passenger Corporation and satisfied that obligation with equipment having an adjusted basis to the carrier of $200,000, the common carrier would realize $300,000 as a gain from the satisfaction of its obligation which would be taxable to the common carrier. To the extent provided in section 1245 and the regulations thereunder, the gain would be taxed as ordinary income. Thus, the common carrier would be allowed a deduction of $500,000 for the payment made to the Passenger Corporation and would include in income the amount of $300,000 as a capital gain or ordinary income, as the case may be, arising from satisfaction of its fixed obligation by transfer of the equipment.

Example (2). If a common carrier had a fixed obligation under a section 401(a) contract to make a payment of $500,000 to the Passenger Corporation and satisfied that obligation by providing to the Passenger Corporation services consisting of the use of a passenger train over a specified route on a specified schedule for a period of one year, the common carrier would realize $500,000 of income from the satisfaction of its obligation, to be reduced by its costs and expenses incurred in rendering these services in determining taxable income. Thus, the common carrier would be allowed a deduction of $500,000 for the payment made to the Passenger Corporation and would include in taxable income arising from the satisfaction of its fixed obligation by the performance of services an amount equal to $500,000 reduced by such costs and expenses.

(b) *Stock issued in connection with the contract.* No deduction shall be allowed under this section with respect to a payment in cash, rail passenger equipment, or services to the Passenger Corporation if, in connection with a contract described in paragraph (a)(2)(i) of this section, stock of the Passenger Corporation is issued to the common carrier making such payment. Under section 401(a)(2) of the Rail Passenger Service Act, a common carrier which enters into a contract with the Passenger Corporation receives common stock of the Passenger Corporation unless it waives all rights to receive the stock in exchange for the payments it makes under the contract. For this reason, no deduction shall be allowed under this section with respect to the payments unless the common carrier waives all rights to receive the stock in exchange for the payments.

(c) *Determination of time of payment in equipment and services*—(1) *Equipment.* A payment in rail passenger equipment shall be treated as made when title to the equipment is transferred to the Passenger Corporation or for its benefit.

(2) *Services.* A payment in services shall be treated as made when the services are rendered to the Passenger Corporation or for its benefit.

(d) *Effect of certain subsequent acquisitions of stock*—(1) *Disallowance of deduction*—(i) *In general.* Except as provided in subdivision (ii) of this subparagraph, a deduction which has been allowed under this section to a common carrier shall be disallowed if the corporation, or a successor corporation as defined in subparagraph (2) of this paragraph, acquires any stock of the Passenger Corporation before the close of the 36-month period commencing on the day on which the last payment under the contract described in paragraph (a)(2)(i) of this section is made. The disallowance of the deduction shall be effective as of the close of the taxable year for which it was claimed under this section. An amended income tax return shall be filed by the common carrier, or successor corporation, for that year disclosing the acquisition of the stock and disallowance of the deduction, and additional tax, if any, for the year shall be paid. See subparagraph (3) of this paragraph for rules relating to the assessment and collection of a deficiency from such disallowance.

(ii) *Exceptions.* The rules of subdivision (i) of this subparagraph shall not apply if stock in the Passenger Corporation is acquired in a corporate acquisition to which section 381 and the regulations thereunder apply or in a railroad reorganization to which section 374 and the regulations thereunder apply.

(2) *Successor corporation.* For purposes of subparagraph (1) of this paragraph, the term "successor corporation" means any corporation which acquires assets of the common carrier having a fair market value in excess of one-half the fair market value of all the assets of the common carrier held immediately before the acquisition, where 50 percent or more of one or more classes of voting stock of the corporation is owned, directly or indirectly, at the time of the acquisition by one or more persons who, at any time during the taxable year or years that the common carrier was allowed a deduction under this section, owned, directly or indirectly, 50 percent or more of one or more classes of the voting stock of the common carrier. For purposes of this subparagraph, a person will be considered to own indirectly 50 percent or more of a class of the voting stock of a corporation if the person owns 50 percent or more of a class of the voting stock of another corporation which owns 50 percent or more of a class of the voting stock of the corporation.

(3) *Collection of deficiency.* If a deduction is disallowed under subparagraph (1) of this paragraph, the periods of limitation provided in sections 6501 and 6502 for the making of an assessment and the collection by levy or a proceeding in court shall, with respect to any deficiency (including interest and additions to the tax) resulting from the disallowance of the deduction, be extended to one year after the date on which the common carrier or successor corporation, which acquired the stock of the Passenger Corporation files an amended income tax return in accordance with paragraph (d)(1)(i) of this section. Such assessment and collection may be made notwithstanding any rule of law which otherwise would prevent such assessment and collection.

(e) *Members of controlled group.* For purposes of paragraphs (b) and (d) of this section, all members of a controlled group of corporations, as defined in section 1563 and the regulations thereunder, shall be treated as one corporation. Thus, no deduction for a payment shall be allowed to any member of a controlled group if any other member of the controlled group receives stock in the Passenger Corporation in exchange for the payment in connection with a contract described in paragraph (a)(2) of this section.

[FR Doc.75-4929 Filed 2-21-75;8:45 am]

[26 CFR Part 601]

PROPOSED PROCEDURAL RULES WITH RESPECT TO PUBLIC INSPECTION OF CERTAIN RULINGS AND DETERMINATION LETTTERS

Notice of Public Hearing on Proposed Rules

Proposed amendments to the Statement of Procedural Rules (26 CFR Part 601), relating to the public inspection of certain rulings and determination letters, appear in the FEDERAL REGISTER for Tuesday, December 10, 1974 (39 FR 43087).

A public hearing on the provisions of such proposed amendments will be held on March 25, 1975, beginning at 10 a.m. in the George S. Boutwell Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. 20224.

The rules of § 601.601(a)(3) of the "Statement of Procedural Rules" (26 CFR Part 601) shall apply with respect to such public hearing. Copies of these rules may be obtained by a request directed to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, or by telephoning (Washington, D.C.) 202-964-3935.

Under such § 601.601(a)(3), persons who have submitted written comments within the time prescribed in the notice containing the proposed amendments, and who desire to present oral comments at the hearing on such proposed amendments, should submit an outline of the comments to be presented at the hearing and the time they wish to devote to each subject by March 17, 1975. Such outlines should be submitted to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224. Under § 601.601(a)(3) (26 CFR Part 601) each speaker will be limited to 10 minutes for an oral presentation exclusive of time consumed by questions from the panel for the Government and answers thereto.

Persons who desire a copy of such written comments or outlines and who desire to be assured of their availability on or before the beginning of such hearing should notify the Commissioner, in writing at the above address by March 20, 1975. In such a case, unless time and circumstances permit otherwise, the desired copies are deliverable only at the above address. The charge for copies is ten cents ($0.10) per page.

An agenda showing the scheduling of the speakers will be made after outlines are received from the speakers. Copies of this agenda will be available free of charge at the hearing, and information with respect to its contents may be obtained on March 24, 1975, by telephoning (Washington, D.C.) 202-964-3935.

JAMES F. DRING,
Director, Legislation and Regulations Division.

FISCAL ASSISTANCE TO STATE AND LOCAL GOVERNMENTS

Discrimination; Compliance Procedures

Correction

In FR Doc. 75-3289 appearing on page 5370 in the issue for Wednesday, February 5, 1975, the following corrections are to be made:

1. In the second line of the text immediately following § 51.32(f)(1)(ii)(D), the second word now reading "payment" should read "repayment."

2. The last line of § 51.32(f)(2)(ii) now reading "-ination of this section or the Act; and" should read "-ination provision of this section or the Act; and."

DEPARTMENT OF THE INTERIOR

Fish and Wildlife Service

[50 CFR Part 16]

INJURIOUS WILDLIFE

Proposed Importation Requirements

This notice contains the second proposed rulemaking for a revision and restructuring of Part 16, Injurious Wildlife, of Subchapter B of Chapter I of this title.

The first proposal was published in the FEDERAL REGISTER on December 20, 1973 (38 FR 34970). A draft environmental impact statement (EIS) on the first proposal was made available to the public by notice in the FEDERAL REGISTER on June 5, 1974 (39 FR 19969). The public comment period was extended to July 29, 1974, upon the release of the draft EIS, and was extended again, to September 13, 1974, by a notice in the FEDERAL REGISTER (39 FR 2744; July 31, 1974). A series of four hearings were held in August 1974 to gather further public comments on both the EIS and the first proposal.

THE SECOND PROPOSAL

The public commentary received at the hearings and by mail raised some serious problems, which were resolved by redrafting portions of the first proposal. Since the cumulative effect of these revisions amounts to a significant modification of the first proposal, the Service has decided to issue a second proposal. This will give all segments of the public a chance to comment on the manner in which the serious problems referred to above were resolved. The background of the first proposal, a summary of the public comments, and the second proposal are set forth below:

BACKGROUND

In general, 18 U.S.C. 42 authorizes the Secretary to prescribe by regulation those wild mammals, wild birds, fish, mollusks, crustaceans, amphibians, and reptiles or the offspring or eggs of any of the foregoing (hereinafter "wildlife"), which are injurious to human beings, to the interests of agriculture, horticulture, forestry, wildlife, or to the wildlife resources of the United States (hereinafter "the named interests"). Subject to certain statutory exceptions, such proscribed wildlife may not be imported into the United States, except as permitted by the Secretary for zoological educational, medical, or scientific purposes.

Current information shows that injury caused to the named interests by imported wildlife is more widespread and serious than previously believed. Present ecological and other knowledge, including an awareness of the large and growing volume of imported live wildlife, demonstrate that a thorough regulation of such importations is necessary to protect the named interests from additional injury. Recent examples exist of injury caused to the named interests and to similar interests in other countries by imported wildlife. Control and eradication programs for west or 'exotic" species are costly, frequently unsuccessful and are curative rather than preventative in nature.

FIRST PROPOSAL

In general, the first proposal included a determination based on scientific evidence presently available that all wildlife is or would be injurious to one or more of the named interests at some time or place when imported into the United States. The proposal prohibited the importation of such live wildlife, except as allowed by the Secretary under a permit for scientific, educational, zoological, or medical purposes. However, the proposal also recognized that the risk of injury to the named interests posed by some "low risk" species or genera of wildlife was so slight as to justify a determination that importation thereof could be allowed without a permit. In fact, the findings indicated that most species of marine fishes were "low risk."

The proposal, therefore, established a list of wildlife which the Secretary had determined posed little risk of injury to the named interests. This proposal did not apply to wildlife designated as "low risk." All wildlife not designated as "low risk" was identified by exclusion as injurious and could be imported only pursuant to a permit for scientific, educational, medical, or zoological purposes. A permit, which could be issued when the Secretary found there had been a proper showing of responsibility and continued protection of the named interests, was required prior to the importation of such injurious wildlife.

Problems relating to potentially harmful marine fish importations were substantially different in character from those regarding their freshwater counterparts. In the latter case the primary concern was possible harm to the wildlife or the wildlife resources of the United States caused by escapes or deliberate introductions as the threat to humans was greater with marine species. In the case of marine fishes whose total estimated number is about 11,700 species, accidental or deliberate introductions resulting in the establishment of a species were believed to be uncommon due to the biology of the species and unenclosed nature of the marine habitat. On the other hand, venomous (stinging) marine forms greatly outnumber those occurring in fresh water, and some of the more potentially dangerous species have been and were now readily available to the home aquarist. Biting or attacking marine fishes (sharks, morays, giant seabasses), are limited by their size and the occasional small species available to the aquarium hobbyist were not considered to be of potential danger. Since most species of marine fishes were found to be "low risk," the list of marine fishes identified all species as "low risk," except those genera listed.

V 40 37 FEB 24 75 XUM

The list contained in the proposal was subject to continued review and modification as data accumulated concerning the degree of risk posed by either listed or unlisted species.

Further, this proposal would have simplified the enforcement of these regulations by requiring the pre-clearance and issuance of permits for all injurious wildlife.

It was pointed out that *Psittacine* birds were excluded from the proposal by the statute and, therefore, importation of the monk parakeet (*Myiopsitta monachus*) was not regulated in spite of its known danger to the named interests.

PUBLIC COMMENTS ON THE FIRST PROPOSAL

In early August 1974 a series of four hearings were held in Washington, D.C., Miami, Kansas City and San Francisco on the proposal and the environmental impact statement. The public comment period for the published regulations and the EIS was scheduled to end July 29. In response to public requests, the period was extended 45 days to September 13. At that time a 5-man team was brought together from various field stations through the country to review all the public comments, analyze them and summarize them.

The proposal drew 4,315 individual responses. 2,743 (64%) of these offered unqualified support and 399 additional respondents qualified their support in some minor degree; collectively these 3,142 (73%) responses bore 2,304 additional endorsing signatures. A total of 1,105 responses bearing 2,705 additional signatures opposed, and 106 responses with 15 additional signatures were irrelevant.

A petition protesting the proposal, primarily on legal grounds, was widely distributed, resulting in 13,737 signatures (not included in individual response count above). This petition, however cited as a premise for its opposition, an incorrect implication that the proposed regulation would control the acquisition and possession of pets in general, including domestic cats and dogs.

The 4,315 individual responses were recorded in the following categories:

Government (State and Federal)	41
Research (medical and university)	106
Zoo and aquaria	295
Pet industry	86
Conservation organizations	42
Special interest groups	268
General public	3,441
(Irrelevant responses omitted in above)	36
	4,315

DESCRIPTION OF THE SECOND PROPOSAL

The second proposal is the same as the first proposal in its basic approach, but the list of "low risk" wildlife has been modified, the permit provisions have been revised and clarified, and certain other changes have been made.

In general, the proposal has been revised, wherever possible and consistent with the law, to alleviate unnecessary adverse effects. Following is a listing of the problems raised by the public commentary, and a brief description of what has been done to deal with them. Problems have been grouped according to the various segments of the public that responded.

GOVERNMENT

1. Several States expressed concern for their exotic game programs. *Response:* The second proposal allows for the grant of permits for importation of any species for scientific research. Importation for stocking would be permitted only for low-risk species.

2. Some States objected to the gerbil being on the low-risk list because it is considered a risk for becoming established in the Southwest. Certain States have laws prohibiting its importation. *Response:* The gerbil has been deleted from the revised list of low-risk mammals.

3. Regulations would prohibit importation of Pacific oyster "seed" for commercial use in Oregon and Washington. *Response:* The second proposal incorporates National Marine Fisheries Service recommendations that Pacific oyster seed be permitted from specific locations under State certification.

RESEARCH

1. Medical research fears regulations will make it impossible for import brokers and dealers to stay in business. This will affect availability and will increase cost of monkeys (and other laboratory animals) used for research. *Response:* Dealers will be eligible for import permits to supply responsible parties doing medical research or scientific studies.

2. Researchers objected to the Fish and Wildlife Service (FWS) reviewing and judging research proposals as a prerequisite for issuing an import permit. *Response:* FWS will review primarily to satisfy requirement that the permittee be responsible and that the proposed use is in keeping with the statute.

3. University and museum collectors are concerned that permits will be required for specifically named species in advance of collecting expeditions. Since it is impossible to anticipate all the animals that might be encountered, this does not offer needed flexibility. *Response:* Permits can list broad classifications of animals (such as entire families) provided applicant can demonstrate responsibility.

4. Permit requirements are so burdensome that they would hopelessly obstruct primate research. *Response:* Long-term, multi-transaction permits which require minimum reporting will be available for laboratories.

ZOOS AND AQUARIA

1. Virtually every letter from this group objected to increased administrative work that will result because of permit requirements. Many requested exemptions. *Response:* The Lacey Act does not provide for blanket exemption of zoos. Permit application and reporting procedures were modified to reduce the necessary paperwork.

2. Permit requirement for each importation is too burdensome and could never be accomplished. *Response:* The second proposal clarifies the availability of long-term, multitransaction permits for a variety of species to be issued to zoos, aquaria, research facilities, etc.

3. Many pointed out difficulties that would arise if transfer of animals between zoos required advance permission of the Director, FWS. *Response:* The second proposal permits exchange of injurious animals between permit holders without additional authorization.

4. Many professional biologists and zoologists begin interest in their profession as result of a herpetology hobby. We should not close the door to serious amateurs. *Response:* The serious and responsible hobbyist will be eligible for permits under the more detailed definition of "zoological" purposes.

5. Need to clarify interstate shipment restrictions. *Response:* The second proposal clarifies the prohibition on imports and shipments. Interstate shipments are not affected, except shipments between noncontinental parts of the United States (island ecosystems such as Hawaii and Puerto Rico) and the continental United States.

PET INDUSTRY

Challenged the legality of using a "low-risk" listing of animals importable without restriction rather than a listing of high-risk animals that can be imported only by permit. *Response:* Careful review by the Department of Interior, Solicitor's Office resulted in the opinion that Congress' intent in enacting the Lacey Act does not prohibit the use of a "low-risk" system. Therefore, no change was made in the second proposal in this regard.

CONSERVATION ORGANIZATIONS

1. Proposed list of low-risk fish is too lengthy. *Response:* The lists as originally proposed, with the public comments fully reviewed by panels of the most knowledgeable experts available. The lists have been modified and every species appearing on the final "low-risk" list is supported by scientific rationale.

2. Question the definition of "low risk" marine fishes by exclusion from a list of harmful species. *Response:* Specialists met and reviewed the fish lists and indicated a straight "low-risk" list was impractical. The National Marine Fisheries Service is studying feasibility of preparing a "low-risk" list, but for the present, the exclusionary route is retained in the second proposal.

OTHER SEGMENTS OF THE PUBLIC

1. Game bird breeders, falconers, amateur herpetologists, aquarists, and cage bird fanciers complained that regulations would interfere with pursuit of their hobby. *Response:* Eligibility requirements for scientific, educational, medical or zoological permits have been more clearly defined to show that responsible persons who qualify in these categories can obtain import permits for certain species not on the low-risk list.

2. Various exotic animal breeders argued that the regulations would end their contribution to preservation of endangered species. Animal husbandry techniques developed by such breeders have made it possible to sustain captive populations of endangered animals, thereby reducing chances of complete extinction. *Response:* Serious and responsible animal breeders will be eligible for import permits under more detailed definition of "zoological" and "scientific" purposes.

GENERAL COMMENTS

1. Many opponents and proponents of the new regulations criticized the low-risk list of animals; some because it was not complete and others because it was too inclusive. *Response:* FWS has met with experts from the pet industry, zoos, conservation organizations, professional organizations and specialists from the Smithsonian Institution to refine the original low-risk lists.

2. Many comments objected to exemptions for Federal agencies and pointed out that harmful introductions have been intentionally made by Government agencies. *Response:* Exemption is specified in the Lacey Act.

3. There was frequent criticism that the regulations do not cover Psittacine birds (parrots and parakeets). *Response:* Exemption is specified in the Lacey Act. Interior recognizes the hazards posed by Psittacines.

4. Misinterpretation of control over interstate movement of wildlife was common. *Response:* The second proposal clarifies the prohibition on imports and shipments. Generally, interstate shipments are not affected, except shipments between noncontinental parts of the United States (island ecosystems such as Hawaii and Puerto Rico) and the continental United States.

5. Mass confusion will result because of back-log of permit requests. *Response:* A transition period will be provided to allow processing of permit requests before the proposal becomes effective.

The proposal has been revised as indicated above. It is intended that § 16.22 in Subpart C (Permits) will become effective approximately six months prior to the balance of the regulation. This will give all affected persons an opportunity to obtain permits prior to the effective date of the "low-risk" list, and the corresponding prohibition on the importation and shipment of injurious wildlife (everything not on the "low-risk" list).

SUBMITTAL OF WRITTEN COMMENTS

Interested persons may participate in this rulemaking by submitting written comments, preferably in triplicate, to: the Director (FWS/LE), Fish and Wildlife Service, P.O. Box 19183, Washington, D.C. All relevant comments received on or before April 10, 1975 will be considered. The Service will attempt to acknowledge receipt of comments, but substantive responses to individual comments will not be provided. Comments received and the draft Environmental Impact Statement will be available for public inspection during normal business hours at the Service's office in Suite 600, 1612 K Street, NW., Washington, D.C. This notice of proposed rulemaking is issued under the authority of 18 U.S.C. 42.

Dated: February 13, 1975.

LYNN A. GREENWALT,
Director,
Fish and Wildlife Service.

Accordingly, it is proposed to revise Part 16 of 50 CFR Chapter I, Subchapter B to read as follows:

PART 16—INJURIOUS WILDLIFE

Subpart A—Introduction

Sec.
16.1 Purpose of regulations.
16.2 Scope of regulations.

Subpart B—Designation of Injurious Wildlife

16.11 Injurious wildlife.
16.12 Low risk wildlife list.
16.13 Amendments to the list of low risk wildlife.

Subpart C—Permits

16.21 General permit requirement.
16.22 Injurious wildlife permits.

Subpart D—Additional Restrictions and Exemptions

16.31 Importation of live or dead fish of the family Salmonidae.
16.32 Importation by Federal agencies.
16.33 Psittacine birds.
16.34 Importation of Pacific oysters.
16.35 Importation of brine shrimp eggs.

AUTHORITY: Lacey Act, 74 Stat. 754 (18 U.S.C. 42(a)(1)).

Subpart A—Introduction

§ 16.1 Purpose of regulations.

The regulations contained in this part identify those species, genera and families of live wildlife which have been determined to pose a low risk of injury to human beings, to the interest of agriculture, horticulture, forestry, or to wildlife or the wildlife resources of the United States. All other species of live wildlife or the eggs thereof, and dead fish or eggs of salmonids of the fish family *Salmonidae* are prescribed as injurious or possibly injurious to those interests. Procedures and criteria for issuance of permits for importation and shipment of injurious wildlife and for public participation in the amendment of the list of low risk wildlife are provided. The regulations for this part implement the Lacey Act (18 U.S.C. 42).

§ 16.2 Scope of regulations.

(a) The regulations in this part apply to all importations of live injurious wildlife or the eggs thereof, except Psittacine birds, but including dead fish or eggs of salmonids of the fish family Salmonidae, Pacific oysters, and brine shrimp eggs, into the United States, and to all shipments of such wildlife between certain parts of the United States (see § 16.21). These regulations are in addition to any other regulations governing the importation of wildlife, including without being limited to, the requirements to import all wildlife through designated ports of entry (Part 14), or the prohibitions relating to endangered or threatened species (Part 17), marine mammals (Part 18), migratory birds (Part 21), or wildlife taken, transported, or sold in violation of foreign law (Part 14). See those parts, or other appropriate statutes and regulations, for specific information.

(b) The regulations and permit system established for importation of Bald and Golden Eagles, marine mammals, migratory birds, and endangered wildlife are supplemented by the regulations of this part in order to avoid a multiple permit system. To the extent that importation is prohibited by this part, except under permit, the requirements and criteria of this part must be complied with, in addition to other provisions of Subchapter B. Therefore, to the extent the importation is also controlled by the regulations relating to marine mammals, Bald and Golden Eagles, migratory birds or endangered species, the permit applicant must provide the information and meet the criteria of those regulations as well as of this part, if the wildlife is injurious to the named interests.

(c) These regulations are also in addition to any State or local laws which prohibit activities involving injurious wildlife, including, without limitation, importation, transportation, sale and possession.

Subpart B—Designation of Injurious Wildlife

§ 16.11 Injurious wildlife.

After reviewing scientific and other data available to him, the Secretary hereby prescribes and determines that, with the exception of Psittacine birds and those species listed in § 16.12 of this subpart, all live wildlife or the eggs thereof, as well as the dead fish or eggs of salmonids of the fish family *Salmonidae*, are or could be injurious to human beings, to the interests of agriculture, horticulture, forestry, or to wildlife or the wildlife resources of the United States if or when imported or shipped contrary to § 16.21.

§ 16.12 Low risk wildlife list.

After reviewing scientific and other data available to him, it has been determined that the wildlife listed below are not injurious to human beings, to the interests of agriculture, horticulture, forestry, or to wildlife or the wildlife resources of the United States.

LIST OF LOW RISK WILDLIFE ELIGIBLE FOR IMPORTATION WITHOUT PERMIT

Unless specifically noted, ORDER and FAMILY names are shown for convenience of classification and taxonomic arrangement only. It should be noted that several States or United States Territories have regulations on importation of wildlife. Local regulations that are more restrictive will take precedence over these regulations. The identity of the wildlife in these lists is established by scientific name. The scientific names used herein are those generally accepted at the time of publication. Common names are provided for convenience only and have no legal, official, or technical standing.

MARINE FISH

All marine fishes are included on this list of low risk wildlife, except the ones named below.

Order RAJIFORMES
Family DASYATIDAE
Dasyatis spp., Common Stingrays
Himantura spp., Longspine Stingrays
Pastinachus spp.
Taenitura spp., Oval Stingrays
Urolophus spp., Round Stingrays
Order BATOIDEI
Family TORPEDINIDAE, Electric Rays, (All species)
Order SILURIFORMES
Family PLOTOSIDAE
Plotosus, Coral Catfishes
Order BATRACHOIDIFORMES
Family BATRACHOIDIDAE
Daector spp., Stinging toadfishes
Thalassophryne spp., Stinging toad fishes
Order SCORPAENIFORMES
Family SCORPAENIDAE
Brachirus spp., Lesser Lionfishes
Inimicus spp., Dragonhead scorpions
Pterois spp., Lionfishes
Synanceja spp., Stonefishes
Order PERCIFORMES
Family TRACHINIDAE
Trachinus spp., Weeverfishes

AMPHIBIANS

Family LEPTODACTYLIDAE
Ceratophrys calcarata, Horned Frog
Family PIPIDAE
Hymenochirus spp., Dwarf Clawed Frogs

REPTILES

Family EMYDIDAE
Cuora spp., Oriental Box Turtle
Malayemys subtrijuga, Snail-eating Turtle
Family TESTUDINIDAE, Tortoises (all species except following)
EXCEPT: *Testudo elephantopus*, Galapago Tortoise
Testudo radiata, Madagascar Radiated Tortoise
Family AGAMIDAE
Uromastix spp., Spiny-tail Agamas
Family CHAMAELEONIDAE, Chamaeleons (all species)
Family CORDYLIDAE
Cordylus spp., Spiny-tail Lizards, African Rock Lizards
Platysaurus spp., Spiny-tail Lizards, African Rock Lizards
Family GEKKONIDAE, Geckos (all species except following)
EXCEPT: *Gekko* spp.
Eublepharis spp.
Pheiuma spp.
Thecod actylus spp.
Family IGUANIDAE
Basiliscus spp., Basilisk; Water Lizard
Iguana iguana, Common Iguana
Family SCINCIDAE
Egernia bungana, Blue-tongued Skink
Tiliqua spp., Stump-tailed Skinks
Trachydosaurus spp., Shingle-back Skinks
Family TEIIDAE
Ameiva ameiva, Blue Ameiva
Ameiva undulata, Green Ameiva
Cnemidophorus lemniscatus, Rainbow Lizard
Dracaena guianensis, Caiman Lizard
Tupinambis spp., Tegu Lizards
Family BOIDAE (all species except following)
EXCEPT: *Epicrates* spp.
Family COLUBRIDAE
Acrochordis javanicus, Elephant Trunk Snake
Erpeton tentaculatum, Tentacle Snake
Drymarchon corias, Indigo Snake
Boiga dendrophila
Elaphe taeniura, Chinese Rat Snake
Gonyosoma oxycephalum, Red-tail Rat Snake
Spilotes pullatus, Tiger Rat Snake

BIRDS

Family PHASIANIDAE
Colinus virginianus, Bobwhite Quail
Alectoris graeca (incl. *A. chukar*), Chukar Partridge
Perdix perdix, Hungarian (Gray) Partridge
Coturnix coturnix, Japanese Quail
Excalfactoria (=*Coturnix*) *chinensis*, Painted Quail
Phasianus colchicus, Ring-necked Pheasant

Family COLUMBIDAE
Columba livia, Rock Dove
Streptopelia decaocto (=*S. "risoria"*), Barbary Dove; Ring-necked Dove
Geopelia cuneata, Diamond Dove
Family TIMALIIDAE
Leiothrix argentauris, Silver-eared Mesia
Leiothrix lutea, Pekin Robin, Nightingale Thrush
Family ESTRILDIDAE
Pytilia melba, Melbe Finch
Pytilia afra, Orange-winged Melba
Pytilia phoenicoptera, Aurora Finch
Lagonosticta senegala, Fire Finch
Lagonosticta rubricata, Blue-billed Fire Finch
Lagonosticta rhodoparcia, Jameson's Fire Finch
Uraeginthus angolensis, Blue-breasted Cordon Bleu
Uraeginthus bengalus, Cordon Bleu
Estrilda caerulescens, Lavender Finch
Estrilda melpoda, Orange-cheeked Waxbill
Estrilda troglodytes, Red-eared Waxbill
Amandava amandava, Strawberry Finch
Amandava formosa, Green Avadavat
Amandava subflava, Golden-breasted Waxbill
Aegintha temporalis, Sydney Waxbill
Emblema picta, Painted Finch
Emblema bella, Fire-tailed Finch
Emblema oculata, Red-eared Fire-tailed Finch
Emblema guttata, Diamond Sparrow
Oreostruthus fuliginosus, Crimson-sided Mountain Finch
Neochmia phaethon, Blood Finch
Neochmia ruficauda, Star Finch
Poephila guttata, Zebra Finch
Phophila bichenovii, Owl Finch
Poephila personata, Masked Grassfinch
Poephila acuticauda, Long-tailed Grassfinch
Poephila cincta, Parson Finch
Erythrura hyperythra, Green-tailed Parrot Finch
Erythrura tricolor, Tri-colored Parrot Finch
Erythrura trichroa, Tri-colored Parrot Finch
Erythrura psittacea, Red-headed Parrot Finch
Erythrura cyaneovirens, Fiji Red-headed Parrot Finch
Chloebia gouldiae, Gouldian Finch
Aidemosyne modesta, Cherry (Plum-headed) Finch
Lonchura striata, Society Finch
Amandina fasciata, Cut-throat Finch
Family PLOCEIDAE
Vidua chalybeata, Combassou
Vidua funerea, Black Indigo Bird
Vidua wilsoni, Whydah
Vidua hypocherina, Resplendent Whydah
Vidua fischeri, Fishcher's Whydah
Vidua macroura, Pintail Whydah
Vidua regia, Shaft-tail Whydah
Vidua paradisaea, Paradise Whydah
Vidua orientalis, Broad-tailed Whydah
Anomalospiza imberbis, Cuckoo-Weaver
Family FRINGILLIDAE
Serinus leucopygius, Grey Singing Finch
Carduelis carduelis, European Goldfinch
Family THRAUPIDAE
Buthraupis montana, Hooded Mountain Tanager

MAMMALS

Family TACHYGLOSSIDAE (All species)
Family ORNITHORHYNCHIDAE (All species)
Family CYNOCEPHALIDAE (All species)
Family MYRMECOPHAGIDAE (All species)
Family BRADYPODIDAE (All species)
Family MANIDAE (All species)
Family LEPORIDAE
Lepus americanus, Snowshoe Hare
Family CRICETIDAE
Mesocricetus auratus, Golden Hamster
Family MURIDAE
Rattus rattus (laboratory varieties), Black (Roof) Rat
Rattus norvegicus (Laboratory strains), Norway Rat
Mus musculus (laboratory strains), House Mouse
Family CAVIIDAE
Cavia porcellus, Guinea Pig
Family PROCYONIDAE
Nasua nasua, Coatimundi
Family ORYCTEROPODIDAE (All species)
Family ELEPHANTIDAE (All species)
Family EQUIDAE
Equus burchelli, Burchell's Zebra
Family TAPIRIDAE
Tapirus indicus, Asiatic Tapir
Family RHINOCEROTIDAE
Diceros bicornis, African Black Rhinoceros
Ceratotherium simum, White (Square-lipped) Rhinoceros
Family CAMELIDAE
Camelus dromedarius, Dromedary Camel
Family HIPPOPOTAMIDAE
Hippopotamus amphibius, Hippopotamus
Choeropsis liberiensis, Pygmy Hippopotamus
Family GIRAFFIDAE
Giraffa camelopardalis, Giraffe
Okapia johnstoni, Okapi

§ 16.13 Amendments to the list of low risk wildlife.

(a) The list of wildlife (§ 16.12) may be amended from time to time as additional data becomes available which demonstrate that a family, genus or species should be added to or removed from the list.

(b) The Director shall receive and maintain data regarding injurious wildlife. Notice of any proposed amendments of the list of low risk wildlife for any purpose will be published in the FEDERAL REGISTER, which notice shall give interested persons not less than 30 days to submit written comments and suggestions.

(c) At any time any person may submit a request for a review of any particular listed or nonlisted wildlife. Such requests must be dated and in writing, and should be submitted to the Director. The request must contain the following information:

(1) Name and address of the person making the request;

(2) Association, organization, or business, if any, represented by the person making the request;

(3) Designation of the particular family, genus or species in question by scientific name and, where available, by common name;

(4) Complete narrative explanation of the request for review;

(5) Scientific, commercial, or other data believed to support the request; and

(6) Signature of the person making the request.

If it is determined that substantial evidence has been presented which warrants a review, a finding to that effect shall be published in the FEDERAL REGISTER. Such notice shall give all interested persons an opportunity to submit information on the status of the taxonomic group under review in such form or manner as may be specified. After consideration of these comments the Director will publish in the FEDERAL REGISTER either a notice of proposed rulemaking regarding the change to be made, or a notice indicating that no change will be proposed at that time.

Subpart C—Permits

§ 16.21 General permit requirement.

Except under a valid permit issued pursuant to § 16.22, or as otherwise provided in Subpart D of this Part, no person shall—

(a) Import any injurious wildlife as designated in section 16.11, into the United States;

(b) ship any injurious wildlife, as designated in section 16.11 between the continental United States (including the District of Columbia) and the non-continental portions of the United States, including Hawaii, Puerto Rico, Guam, American Samoa and the Virgin Islands, or between any such non-continental portions of the United States.

Example 1. A zoo imports a lion into Puerto Rico. This, is a violation of § 16.21(a) unless the zoo has a permit, since Puerto Rico is defined as part of the United States.

Example 2. A game bird breeder ships a Golden Pheasant from Indiana to New York. This is not a violation since the shipment was within the continental United States.

Example 3. The same game bird breeder now ships a Golden Pheasant from Indiana to Hawaii. Without a permit, this is a violation, since it is a shipment between the continental United States and a non-continental part of the United States.

Example 4. An animal dealer in Hawaii ships a tiger to a zoo in Guam. This is in violation, unless a permit has been issued, since it is a shipment between two non-continental portions of the United States.

§ 16.22 Injurious wildlife permits.

Upon receipt of a complete application the Director may, in accordance with the issuance criteria of this section, issue a permit authorizing importations or shipments prohibited in § 16.21 for zoological, educational, medical, or scientific purposes. Such permits may authorize a single importation or shipment, a series of importations or shipments, or importations or shipments over a specific period of time. Such permits may specifically designate the wildlife authorized to be imported or shipped, or may designate

XUM
V 40 37 FEB 24 75 XUM

larger taxonomic groups, such as genera or families, from which wildlife may be imported or shipped.

(a) *Application requirements.* Applications for permits to import or ship injurious wildlife for such purposes must be submitted to the Director by the person who wishes to engage in the activity for which a permit is required by § 16.21. Each application must contain the general information and certification required by § 13.12(a) of this subchapter plus the following additional information:

(1) Common and scientific names of the species, number, age and sex (if applicable) of the wildlife to be covered by the permit, or, where this information is inappropriate due to the large number of separate species involved, a listing of the taxonomic groups, by family or genus.

(2) A full statement of justification for the permit, including details of the project or other plans for utilization of the wildlife in relation of zoological, educational, medical, or scientific purposes;

(3) A description and the address of the institution or other facility where the wildlife will be used or maintained, with a complete description, including photographs or diagrams, of the area and facilities in which the wildlife will be housed;

The description must indicate the maximum numbers of individuals of each family, genus or species named in the application which can be safely accommodated in the facilities, taking into account probable ages, sex ratios, and behavioral characteristics of the wildlife;

(4) A full statement as to what precautions the importer or shipper plans to take to insure that importation, shipment and holding of the wildlife will not result in injury to human beings, the interests of agriculture, horticulture, forestry, wildlife, or wildlife resources of the United States, or uncontrollable exposure of these interests to parasites, pathogens or other pests;

(5) A brief resume of the technical expertise available to the applicant, and any experience the applicant or his personnel have had for transporting and maintaining in captivity the species to be imported or shipped or closely related species.

(b) *Issuance criteria.* Upon receiving an application completed in accordance with paragraph (a) of this section, the Director will decide whether or not a permit should be issued. In making his decision, the Director shall consider the following factors:

(1) The degree of threat of injury to human beings, to the interests of agriculture, horticulture, forestry, or to wildlife or the wildlife resources of the United States presented by such importation or shipment;

(2) Whether the wildlife to be imported or shipped will be used for, or sold or otherwise transferred directly by an animal dealer to a person who will use the wildlife for zoological, educational, medical, or scientific purposes; in considering this criterion the following definitions will apply:

"Educational purpose" means the use of wildlife for teaching or demonstrating the concepts of an academic discipline relating to animals, such as biology, zoology, anthropology or wildlife management in a regular curriculum or laboratory program through an educational institution or facility.

"Medical purpose" means the use of wildlife for medical or pharmaceutical research, for the production of vaccines or tissues to be used in the preparation of medicines or for laboratory tests, by a bona fide medical institution, clinic, laboratory or researcher, and includes the use of such wildlife to establish captive-bred colonies for such purposes.

"Scientific purpose" means the use of wildlife for (i) scientific research by a bona fide scientific institution, clinic, laboratory or researcher, and includes the use of such wildlife to establish captive-bred colonies for such purpose; (ii) scientific research related to wildlife management programs or aquaculture carried out by or under the auspices of State or local governments, but not including release of animals to the wild.

"Zoological purpose" means the use of wildlife for (i) public display by bona fide zoological institutions, and (ii) developing propagation and animal husbandry technology for maintaining captive strains of wildlife.

(3) Whether the facilities for transportation and holding the wildlife in captivity are adequately designed and constructed top revent escape;

(4) Whether the applicant by reason of his knowledge, experience, and facilities can reasonably be expected to provide adequate protection to the interests of human beings, agriculture, horticulture, forestry, wildlife, and wildlife resources, and is aware of and can act responsibly regarding the dangers to these interests posed by such wildlife.

(c) *Permit conditions.* In addition to the general conditions set forth in Part 13 of this Subchapter B, every permit issued under this section shall be subject to the following special conditions:

(1) Each permittee shall keep complete records of the importation, shipment, transfer, birth of progeny or death of wildlife imported or shipped under authority of any such permit and a report summarizing such records shall be submitted in writing to the Director within 30 days after the end of each one-year period for which the permit is held, or if the permit is for less than one year, within 30 days after the expiration date of the permit; the records, and the summary report, shall show the following data for the reporting period:

(i) the number of each species, genus, or family (use the taxonomic category designated in the application) imported or shipped;

(ii) the number of progeny born to such wildlife;

(iii) the number of such wildlife or their progeny transferred, the dates of such transfers, and the name and address of the transferee;

(iv) the death or escape of such wildlife or their progeny, including dates of death or escape.

(2) All injurious wildlife possessed under permit and all progeny thereof, must be confined in the facilities and on the premises authorized in the permit;

(3) No injurious wildlife, imported or shipped under permit, or any eggs or progeny thereof, may be released to the wild, nor may be sold, donated, traded, loaned, or transferred to any other person unless such person has a like permit issued under this section, which permit is valid at the time of the transfer.

(4) Permittees must notify the Director by letter, telephone, or telegraph within 24 hours following the escape of any wildlife or their progeny possessed under the authority of a permit, and must file a complete report of the facts regarding the escape within 10 days of the notification of the Director. The report must contain, in addition to the factual description of the escape, a summary of attempts to recapture the wildlife, and steps taken to assure no further escapes;

(d) *Tenure of permits.* The tenure of permits to import or ship injurious wildlife shall be designated on the face of the permit, but in any case shall be not more than two years from the date of issue.

Subpart D—Additional Restrictions and Exemptions

§ 16.31 Importation of live or dead fish of the family Salmonidae.

(a) *General restriction.* Except as otherwise provided in this section, no person shall import any live or dead fish or eggs of salmonids of the fish family Salmonidae unless such importations are by direct shipment, accompanied by a certification that the importation is free of the protozoan Myxosoma cerebralis, the causative agent of so-called "whirling disease," and the virus causing viral hemorrhagic septicemia or "Egtved disease." The certification shall be signed by a designated official acceptable to the Director as being qualified in fish pathology.

(b) *Certificate.* The certificate required by paragraph (a) of this section shall consist of a statement in the English language, printed or typewritten, stating that this shipment of fish or eggs is free from these two diseases by the methods outlined in Fish Disease eLaflet 9 (which may be obtained from the Director) and will contain (1) the date and port of export in the country of origin and the anticipated United States date of arrival and port of entry, (2) surface or air carrier and flight number, or vessel name or number, (3) bill of lading number or airway bill number, and (4) the handwritten signature, in ink, of the authorized certifying officer, and may be substantially in the following form:

I, _____ approved by the Secretary of the U.S. Department of the Interior, through the Director of the U.S. Fish and Wildlife Service, on _____, as a certifying official for _____, as required by Title 50, CFR 16.31(a) do hereby certify, using the methodology described in Fish Disease Leaflet (FDL–9, July 1968), that this shipment of _____ of dead or live fish or fish eggs to be shipped under _____ is free of the protozoan Myxosoma cerebralis, the causative agent of so-called "whirling disease," and the virus causing viral hemorrhagic septicemia or "Egtved disease."

The shipment is scheduled to depart _____ on _____, via _____ with anticipated arrival at the port of _____ U.S.A., on _____.

_____

_____

(c) *Processed or prepared items.* Nothing in this section shall restrict the importation of salmonids of the fish family Salmonidae when such fish or eggs have been processed by canning, pickling, smoking, or otherwise prepared in a manner whereby all spores of the protozoan Myxosoma cerebralis, the causative agent of so-called "whirling disease," and the virus causing viral hemorrhagic septicema or so-called "Egtved disease," have been killed.

(d) *Oceanic fishermen.* Nothing in this section shall restrict the importation of salmonids of the fish family Salmonidae when such fish or eggs were taken on the high seas and imported directly into the United States without being landed or transhipped to or through any other country.

(e) *Wild caught fish from Canada and Mexico.* Nothing in this section shall restrict the importation of Salmonids of the fish family Salmonidae when such fish or eggs were caught in the wild in Canadian or Mexican waters and imported directly into the United States without being transhipped to or through any other country.

§ 16.32 Importation by Federal agencies.

Nothing in this part shall restrict the importation and transportation, without a permit, of any live wildlife by Federal agencies solely for their own use.

§ 16.33 Psittacine birds.

Nothing in this part shall restrict the importation and transportation without a permit, of birds of the family Psittacidae (parrots, macaws, cocatoos, parakeets, lories, lovebirds, etc.), the importation of which is governed by U.S. Public Health Service regulations under 42 CFR Parts 71 and 72 and U.S. Department of Agriculture regulations under 9 CFR Part 92.

§ 16.34 Importation of Pacific oysters.

(a) *General restriction.* Except as otherwise provided in this section, no person shall import any live seed oyster of the species *Crassostrea gigas* (Pacific oysters).

(b) *Certification as disease-free.* Live seed oysters of the species *Crassostrea gigas* (Pacific oysters) may be imported under the following conditions:

(1) The oysters have been commercially cultivated under controlled conditions designed to eliminate pest and parasite organisms;

(2) The oysters are imported directly into the States of Washington or California;

(3) The oysters are inspected and certified as acceptable regarding the introduction of pests and parasites by authorized inspectors of the States of Washington or California.

§ 16.35 Importation of brine shrimp eggs.

(a) *General restriction.* Except as otherwise provided in this section, no person shall import any eggs of the species *Artemia salina.* (brine shrimp).

(b) Eggs of the species *Artemia salina.* (brine shrimp) may be imported if the following conditions are met:

(1) The eggs were taken from the wild in Canada;

(2) Notwithstanding the exception to the declaration requirement in § 14.62 (a)(3), a Declaration for Importation of Fish or Wildlife (form 3–177) is filed as required in § 14.61.

[Docket No. AO–271–A20]

MILK IN THE CENTRAL ARIZONA MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Notice is hereby given of a public hearing to be held at the Ramada Inn, 3801 E. Van Buren, Phoenix, Arizona, beginning at 9:30 a.m. (local time) on March 12, 1975, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Central Arizona marketing area.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 *et seq.*), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

NOTICE OF HEARING—CENTRAL ARIZONA

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

PROPOSED BY UNITED DAIRYMAN OF ARIZONA

PROPOSAL NO. 1

Revise paragraphs (b), (c), and (d)(3) of § 1131.7 as follows:

§ 1131.7 Pool plant.

* * * * *

(b) Any plant which ships fluid milk products, except filled milk, approved by any health authority having jurisdiction in the marketing area as eligible for distribution under a Grade A label in a volume not less than 50 percent of its receipts of milk (from dairy farmers who would be producers if this plant qualifies as a pool plant) in the current month during the period September through November or 20 percent in the current month during the period December through August to a plant specified in paragraph (a) of this section: *Provided,* That if a plant qualifies in each of the months September through November in the manner prescribed in this section such plant shall upon written application to the market administrator on or before November 30 following such compliance be designated as a pool plant until the end of the folowing August.

(c) A milk plant located within the marketing area at which milk may be received from the farms of dairy farmers holding permits or authorization issued by health authorities having jurisdiction in the marketing area and which is operated by a cooperative association qualified under § 1131.18 which has 50 percent or more of its member producers' (as defined in § 1131.12 but including milk transferred from its own plant pursuant to this paragraph) milk received at the pool plants of other handlers. Milk received by such cooperative, in a truck owned or under contract to the cooperative, from a pool plant and transferred in such truck to another pool plant for the account of the cooperative shall be considered a receipt at the cooperative's plant and a transfer from such plant.

(d) * * *

(3) Any plant qualified pursuant to paragraph (b) of this section for any portion of the period December through August, inclusive, that the milk of producers at such plant is subject to the classification and pricing provisions of another order issued pursuant to the Act and the Secretary determines that such plant should be exempted from this part.

PROPOSAL NO. 2

Revise paragraph (c) of § 1131.9 as follows:

§ 1131.9 Handler.

* * * * *

(c) A cooperative association with respect to the milk of producers which is received from the farm for delivery to the pool plant of another handler in a tank truck owned and operated by, or under contract to, such cooperative association.

* * * * *

XUM V40137 FEB 24 75 XUM

PROPOSED BY SAFEWAY STORES, INCORPORATED

PROPOSAL NO. 3

Add paragraph (d)(4) to § 1131.7 as follows:

§ 1131.7 Pool plant.

• • • • • •

(d) • • •

(4) Any plant fully regulated by another State or Federal order with purpose and terms essentially similar to those in this Part, and which disposes of less than 2 percent of its total volume of Class I milk, except filled milk, in the Central Arizona marketing area, and the Secretary determines that such exemption shall not conflict with the purpose of the Act is exempted from this Part.

PROPOSED BY THE DAIRY DIVISION, AGRICULTURAL MARKETING SERVICE

PROPOSAL NO. 4

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, 2617 North 24th Street, Phoenix, Arizona 85008, or from the Hearing Clerk, Room 112–A, Administration Building, United States Department of Agriculture, Washington, D.C. 20250 or may be there inspected.

Signed at Washington, D.C., on February 19, 1975.

JOHN C. BLUM,
Associate Administrator.

[Airspace Docket No. 75–GL–6]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Detroit Lakes, Minnesota.

Interested persons may participate in the proposed rule making by submitting such written data, views or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018. All communications received on or before March 26, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, Illinois 60018.

A new public instrument approach procedure has been developed for the Detroit Lakes Municipal Airport, Detroit Lakes, Minnesota. Accordingly, it is necessary to alter the Detroit Lakes transition area to adequately protect the aircraft executing the new approach.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (39 FR 440), the following transition area is revised to read:

DETROIT LAKES, MINNESOTA

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Detroit Lakes Municipal Airport (Latitude 46°49'34" N., Longitude 95°53'06" W.); within 3 miles each side of the Detroit Lakes VOR 315° radial extending from the 5-mile radius area to 7½ miles northwest of the VOR; within 3 miles each side of the 145° radial extending from the 5-mile radius area to 8 miles southeast of the VOR; and that airspace extending upward from 1200 feet above the surface within 4½ miles northeast and 9½ miles southwest of the Detroit Lakes VOR 315° radial extending from the VOR to 18½ miles northwest; within 4½ miles southwest and 9½ miles northeast of the VOR 145° radial extending from the VOR to 18½ miles southeast, excluding that portion which overlies the Fargo, North Dakota transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).

Issued in Des Plaines, Illinois on February 3, 1975.

R. O. ZIEGLER,
Acting Director,
Great Lakes Region.

[FR Doc.75–4848 Filed 2–21–75;8:45 am]

[14 CFR Part 71]

[Airspace Docket No. 75–RM–3]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation regulations which would alter the transition area at Wolf Point, Montana.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Air Traffic Division, Federal Aviation Administration, Park Hill Station P.O. Box 7213, Denver, Colorado 80207. All communications received on or before March 26, 1975 will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 10455 E. 25th Avenue, Aurora, Colorado 80010.

The location description of the Wolf Point, Mont. NDB has been changed and the public instrument approach procedure to Wolf Point, Mont. International Airport has been revised. It is necessary to alter controlled airspace to protect arriving/departing aircraft at Wolf Point International Airport.

In consideration of the foregoing, the FAA proposes the following airspace action:

In § 71.181 (40 FR 441) the description of the Wolf Point, Mont. transition area is revised to read:

WOLF POINT, MONT.

That airspace extending upward from 700' above the surface within an 8.5-mile radius of the Wolf Point, Mont. NDB (latitude 48°06'16" N., longitude 105°36'05" W.); and that airspace extending upward from 1200' above the surface within a 12-mile radius of the Wolf Point NDB; and within 4.5 miles north and 9.5 miles south of the 294° bearing from the Wolf Point NDB extending from the 12-mile radius area to 18.5 miles northwest of the NDB, excluding that portion that overlies the Glasgow, Mont. transition area.

This amendment is proposed under authority of section 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Aurora, Colorado, on February 20, 1975.

M. M. MARTIN,
Director,
Rocky Mountain Region.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 73]

[Docket No. 20360; RM–2342]

FM BROADCAST STATIONS IN CALIFORNIA

Table of Assignments

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Palm Springs, California), Docket No. 20360, RM–2342.

1. *Petitioner, Proposal and Comments.* Petition for rule making filed March 11, 1974, by KPSI Radio Corporation, licensee of AM Station KPSI (Class IV), Palm Springs, California, proposes to assign Channel 265A to Palm Springs as a second FM channel assignment.

2. *Demographic Data.* (a) Palm Springs is situated 110 miles east of Los Angeles and 87 miles north of the United States-Mexico boundary. It is part of the Upper Coachella Valley in Riverside County.

(b) *Population* (1970 Census). Palm Springs (20,936); Riverside County (459,074).

(c) *Present Aural Services.* AM Stations: KCMJ (Class II, unlimited time); KDES (Class III, unlimited time); KPSI (Class IV, unlimited time) licensed to petitioner; FM Station KDES–FM (Channel 284). All of these stations are licensed to serve Palm Springs. Also, Cathedral City, located 6.5 miles southeast of Palm Springs, is assigned Channel 276A (KWXY–FM).

(d) *Tourist Trade.* Palm Springs is a popular tourist center in Southern California.

(e) *Growth.* Palm Springs has increased in population from 13,468 (1960 Census) to 20,936 (1970 Census). The projected growth of the Coachella Valley area is from 87,000 (1970) to 180,000 (1980) (according to the petitioner). Taxable sales have increased from $42,865,000 (1960) to $120,759,000 (1972). Other indicators of growth that show the region has expanded substantially in the last decade include: electrical connections, bank deposits, airport passenger boardings, telephones, building permits, water connections, and assessed valuations.

3. *Mileage Separations.* Channel 265A may be assigned without affecting any of the existing FM assignments.

4. *Preclusions.* The assignment of Channel 265A to Palm Springs will cause significant preclusion to co-Channel 265A in the following cities, none of which has AM stations or FM assignments: Beaumont, 5,484; Riverside County, 459,074 (1970 Census)
Desert Hot Springs, 2,738; Riverside County
San Jacinto, 4,385; Riverside County
Yucca Valley, 3, 893; San Bernardino County, 684,072

Lesser preclusions with respect to land area and population occur on Channels 263, 266 and 267 without affecting cities with populations greater than 2,500 persons and with no AM or FM assignments. According to information provided by petitioner's engineering firm, three channels are available for assignment to the areas precluded on co-Channel 265A. These are Channels 272A, 280A, and 292A. However, Channel 272A has been assigned to Apple Valley, California, and therefore has been rendered unusable to the precluded area. Although Channels 280A and 292A are usable at the precluded locations at present, a petition has been filed recently to assign Channel 280A to Lake Arrowhead, California (RM–2414) which, if granted, will prohibit its use at the precluded locations. Thus only Channel 292A would be available for future assignment.

5. Since this proposed assignment is within 199 miles of the United States-Mexico border, concurrence by the United Mexican States is being requested.

6. Petitioner asserts that if Channel 265A is assigned to Palm Springs it will apply for a construction permit and if granted will promptly build an FM station.

7. The proposed assignment of Channel 265A would result in an intermixture of classes of channels in Palm Springs. As stated in *Yakima, Washington*, 42 F.C.C. 2d 548 at 550 (1973), our position concerning intermixture is as follows:

• • • [w]e adhere to [non] intermixture to the extent possible but • • • to continue to do so with the FM assignments becoming scarce in some areas would be a vain effort aimed at equality and parity of service inconsistent with more important public interest • • • considerations. Cf. *Henderson, Kentucky*, 9 F.C.C. 2d 805 (1967).

8. In light of the above, the Commission proposes to amend the FM Table of Assignments, § 73.202(b) as follows:

City	Channel No.	
	Present	Proposed
Palm Springs, Calif.....	284	284, 265A

9. The Commission's authority to institute rule making proceedings; showings required, cut-off procedures, and filing requirements are contained below and are incorporated herein.

10. Interested parties may file comments on or before April 11, 1975, and reply comments on or before April 30, 1975.

Adopted: February 14, 1975.

Released: February 20, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] WALLACE E. JOHNSON,
Chief, Broadcast Bureau.

1. Pursuant to authority found in sections 4(i), 5(d)(1), 303 (g) and (r), and 307(b) of the Communications Act of 1934, as amended, and § 0.281(b)(6) of the Commission's Rules, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as set forth in the Notice of Proposed Rule Making to which this Appendix is attached.

2. *Showings required.* Comments are invited on the proposal discussed in the Notice of Proposed Rule Making to which this Appendix is attached. In initial comments, proponent(s) will be expected to answer whatever questions are presented in the Notice. The proponent(s) of the proposed assignment(s) is expected to file comments even if it only resubmits or incorporates by reference its former pleadings. It should also restate its present intention to apply for the channel if it is assigned, and, if authorized, to build the station promptly. Failure to file may lead to denial of the request.

3. *Cut-off procedures.* The following procedures will govern the consideration of filings in this proceeding.

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered, if advanced in reply comments. (See § 1.420 (d) of Commission rules.)

(b) With respect to petitions for rule making which conflict with the proposal in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given as long as they are filed before the date for filing initial comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

4. *Comments and reply comments; service.* Pursuant to applicable procedures set out in §§ 1.415 and 1.420 of the Commission's rules and regulations, interested parties may file comments and reply comments on or before the dates set forth in the Notice of Proposed Rule Making to which this Appendix is attached. All submissions by parties to this proceeding or persons acting on behalf of such parties must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420(a), (b) and (c) of the Commission rules.)

5. *Number of copies.* In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and fourteen copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission.

6. *Public inspection of filings.* All filings made in this proceeding will be available for examination by interested parties during regular business hours in the

FM BROADCAST STATIONS IN CERTAIN STATES

Table of Assignments

In the Matter of Amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Fairfield, Ia.; Mayville, N.D.: Eldon, Mo.; Crete, Nebr., Hurricane, W. Va.; Patterson, N.Y.; Sauk Centre, Minn.; Appomattox, Va.; Warren, Ark.; Gatesville, Tex.; *Batesville, Ind.*; and Otsego, Michigan), Docket No. 20121, RM-2252, RM-2339, RM-2301, RM-2352, RM-2309, RM-2355, RM-2310, RM-2366, RM-2311, *RM-2367*, RM-2321, RM-2373.

Adopted: Feb. 12, 1975; Released: February 18, 1975.

1. The Request for Supplemental Information herein concerns the proposed amendment of Section 73.202(b) of the Commission's Rules, the Table of FM Assignments, with respect to Batesville, Indiana. In response to the Notice of Proposed Rule Making, adopted July 24, 1974 (39 Fed. Reg. 28444), a counterproposal to assign a different FM channel to Batesville was filed by Mid America Radio, Inc., licensee of FM Station WXTZ, Indianapolis, Indiana (WXTZ). The counterproposal raised a number of issues which cannot be resolved without additional information.

2. The proposal by Batesville Broadcasting Company seeks assignment of Channel 276A to Batesville, Indiana. The channel could be assigned there if the transmitter site were to be located 2.5 miles west (nearest point) or within eight miles southwest of the community. One of the limiting factors is the distance separation from Channel 277 occupied by Station WXTZ at Indianapolis.

3. The counterproposal by WXTZ proposes assignment of Channel 280A to Batesville. However, the transmitter site would have to be located some six miles south of the community. WXTZ asserts that, if the Batesville proposal were to be adopted, it would preclude WXTZ from moving its transmitter the necessary distance toward Indianapolis to permit it to serve its city of license in a manner contemplated by the Commission; that the existing transmitter location has created a marginally sufficient signal over the center of the city where there is an area of interference; and that its only realistic option is to move the transmitter. It alleges that in 1972 when WXTZ received a permit to change its transmitter site (BPH-7867), it was thought that WXTZ's proposed 70 dBu contour would cover the entire city limits of Indianapolis, but that it discovered a short time ago that this 70 dBu contour did not fully cover the revised Indianapolis city limits which were expanded virtually to coincide with the entire Marion County.

4. Batesville Broadcasting urges rejection of WXTZ's counterproposal to assign Channel 280A to Batesville. It contends that Channel 276A would allow use of a transmitter site closer to Batesville which is more economically feasible and readily accessible. Batesville Broadcasting argues that WXTZ wants a greater protection by preventing a Batesville station from operating on the adjacent channel, and that WXTZ has failed to provide support for its claim of interference in Indianapolis.

5. WXTZ's present transmitter site is located some 10 to 12 miles north from the center of the city. The station operates with 13.2 kilowatts and 850 feet HAAT and the predicted signal level at the aforementioned distances is greater than 60 dBu. It is therefore difficult to perceive that WXTZ provides marginal service to the center of Indianapolis. In any event, FM stations are assigned on the basis of distance separation to other stations and assignments, and the stations are expected to provide a 70 dBu signal over the entire principal community to be served. It appears that the Indianapolis city limits were recently extended to include greater area, most of Marion County, and WXTZ argues that it should be allowed to comply with that provision of the rules. However, it is noted that there are rural areas within the extended Indianapolis city limits. Thus we need to know the actual population [1] residing in the area within the Indianapolis city limits and beyond the present 70 dBu contour. Further we need information as to the areas and population within its present and proposed 60 dBu contours.

6. As to Batesville, the information as to areas and population within the 60 dBu contours for the proposed Channel 276A and for the suggested Channel 280A operation should be supplied. In addition, the information as to whether or not there are terrain obstructions between the two sites and Batesville should be included.

7. Interested parties may file such comments on or before April 11, 1975, and reply comments on or before April 30, 1975. All submissions by parties to this proceeding, or persons acting on behalf of such parties, shall be made in written comments, reply comments, or other appropriate pleadings.

8. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and 14 copies of all comments, reply comments, pleadings, briefs, or other documents shall be furnished the Commission. All filings made in this proceeding will be available for examination by interested parties during regular business hours in the Commission's Public Reference Room at its Headquarters, 1919 M Street, N.W., Washington, D.C.

Adopted: February 12, 1975.

Released: February 18, 1975.

[Docket No. 20359; RM-2334]

FM BROADCAST STATIONS IN IDAHO

Table of Assignments

In the matter of amendment of § 73.202(b), Table of Assignments, FM Broadcast Stations. (Jerome, Idaho), Docket No. 20359, RM-2334.

1. Notice of Proposed Rule Making is hereby given concerning amendment of the FM Table of Assignments (§ 73.202 (b) of the Commission's rules and regulations) with respect to the petition of the KART Broadcasting Co., Inc., licensee of AM Station KART and FM Station WFMA (currently operating on Channel 224A Jerome, Idaho), proposing the substitution of Channel 275 for 224A at Jerome, Idaho.

2. Jerome (pop. 4,183) [1] is the seat of Jerome County (pop. 10,253). It is located approximately 12 miles north of Twin Falls, Idaho, in the south central portion of the State and 50 miles north of the Idaho-Nevada boundary. Petitioner relates that the Jerome area has grown considerably in the last few years due to the addition of a Tupperware plant and a Moore Business Form plant.

3. Currently Jerome is served by one AM station, KART (Class IV), and one FM station, KFMA (Channel 224A), both licensed to petitioner. The latter station, which commenced operation in August 1970, operates with 3 kW effective radiated power. Petitioner states that with such facilities its 1mV/m signal fails to reach various communities in its vicinity on which it must partly rely for revenues in order to operate the station. Moreover, according to petitioner, its Class IV AM station is unable to provide nighttime aural service to surrounding towns, many of which are without local radio service.

4. Petitioner avers that a construction permit has been granted for the use of Channel 243 at nearby Twin Falls and that two applications for construction permits are pending for the use of Channel 239, the other channel assigned to Twin Falls. It is of the view that when the two Twin Falls Class C stations are on the air they will serve the Jerome area and that petitioner, operating on a Class A facility, will not be able to be competitive with them. For this reason, petitioner urges that Class C Channel 275 be substituted for Channel 224A at Jerome and that its license be modified to specify operation on Channel 275. (In this connection it is noted that the Commission's policy against intermixture of classes of channels applies to channels assigned to the same community.)

5. With respect to the technical feasibility of the proposed assignment, the substitution may be made without affecting any of the other FM assignments presently occupied.

6. The preclusion study submitted by petitioner indicates that significant preclusion, in terms of affected land area, will occur on the co-channel and all six adjacent channels, because there are few existing assignments in the area. The Commission's staff analysis concurs with petitioner's appraisal that there are a substantial number of FM channels readily available for assignment to possible future locations throughout the precluded area. Presently there are eight unoccupied assignments in the area precluded from using Channel 275, two unoccupied assignments within the affected area for Channel 276A and nine unoccupied assignments in the Channel 274 affected area.

7. Our *Policy to Govern Requests for Additional FM Assignments*, 8 F.C.C. 2d 79 (1967) provides that requests for wide-coverage Class B or Class C channels in places where a Class A channel is or could be assigned (particularly relatively small communities), should include a showing as to the extent of unserved and underserved areas if the request is based on the need for a large facility to serve such areas. We are of the view that the instant request falls within the purview of this policy. Consistent therewith, petitioner has furnished a showing based upon *Roanoke Rapids* criteria [2] which alleges that 993 persons in an area of 832 square miles would receive a first FM service and 2,164 persons in an area of 814 square miles would receive a second FM service if the proposed assignment were made. However, it appears that these data may be faulty because the statute mileage scale utilized to illustrate the predicted coverage contours is inaccurate. Moreover, since it appears that the predicted coverage contours are determined on the basis of terrain averaged over each of eight radials, petitioner should submit the terrain profiles and the antenna height above average terrain of such radials in the form of a supplemental report to the Commission in addition to submitting a corrected *Roanoke Rapids* showing.

8. Since petitioner is requesting a modification of its license, it is unnecessary to issue an order to show cause under the provisions of Section 316 of the Communications Act of 1934, as amended, in the event that the Commission finds it in the public interest to make the requested substitution of channels at Jerome.

9. Accordingly, in view of the foregoing and pursuant to authority contained in sections 4(i), 5(d)(1), 303 (g) and (r) and 307(b) of the Communications Act of 1934, as amended, and Section 0.281 (b)(6) of the Commission's Rules and Regulations, it is proposed to amend the FM Table of Assignments, § 73.202(b) of the Commission's rules and regulations, as follows:

City	Channel No.	
	Present	Proposed
Jerome, Idaho	224A	275

10. *Showings required.* Comments are invited on the proposal discussed above. Petitioner is expected to answer whatever issues are raised in this Notice. Failure to do so may result in a denial of the request.

11. *Cut-off procedures.* The following procedures will govern consideration of filings in this proceeding:

(a) Counterproposals advanced in this proceeding itself will be considered, if advanced in initial comments, so that parties may comment on them in reply comments. They will not be considered if advanced in reply comments. (See § 1.420(d) of Commission rules.)

(b) With respect to petitions for rule making which conflict with the proposal in this Notice, they will be considered as comments in the proceeding, and Public Notice to this effect will be given, as long as they are filed before the date for filing comments herein. If filed later than that, they will not be considered in connection with the decision in this docket.

12. Pursuant to applicable procedures set out in § 1.415 of the Commission's rules and regulations, interested parties may file comments on or before April 11, 1975, and reply comments on or before April 30, 1975. All submissions by parties to this proceeding or persons acting on behalf of such parties, must be made in written comments, reply comments, or other appropriate pleadings. Comments shall be served on the petitioner by the person filing the comments. Reply comments shall be served on the person(s) who filed comments to which the reply is directed. Such comments and reply comments shall be accompanied by a certificate of service. (See § 1.420 (a), (b), and (c) of the Commission Rules.)

13. In accordance with the provisions of § 1.419 of the Commission's rules and regulations, an original and fourteen (14) copies of all comments, reply comments, pleadings, briefs, and other documents shall be furnished the Commission. These will be available for public inspection during regular business hours in the Commission's Public Reference Room at its Headquarters, 1919 M Street, NW., Washington, D.C.

Adopted: February 12, 1975.

Released: February 20, 1975.

"GOING PRIVATE" TRANSACTIONS BY PUBLIC COMPANIES OR THEIR AFFILIATES

Notice of Public Investigatory and Rulemaking Proceedings

The Securities and Exchange Commission announced today that it has ordered a public investigatory and rulemaking proceeding, including public hearings, to ascertain facts, conditions, practices and other matters relating to so-called "going private" transactions by public companies or their affiliates. It invites both oral and written comments from interested persons regarding proposed rules dealing with, as well as various specific inquiries related to, such transactions in light of the statutory purposes underlying the Federal securities laws, particularly the Securities Exchange Act of 1934 ("Exchange Act"). The purpose of this investigatory and rulemaking proceeding is to develop a factual basis for determining whether it is necessary or appropriate in the public interest or for the protection of investors for the Commission to adopt one

[1] Determination should not be made on the basis of equally-distributed population.

[2] Population figures are from the 1970 U.S. Census unless otherwise specified.

XUM V40137 FEB 24 75 XUM

or more rules under the Exchange Act[1] based in whole, in part, or on some combination of the rules proposed herein and/or to recommend further legislation to the Congress in this area.

In announcing this proceeding, the Commission does not wish its position to be misunderstood. The phenomenon of "going private" is important and raises significant questions of investor protection which should be thoroughly explored. It is for that reason that the proceeding has been ordered. The Commission, however, has reached no conclusions with respect to the proposed rules. They are included to provide a framework for the hearing and the comments. Other suggestions will be welcomed.

During the pendency of this proceeding, the Commission's staff will process filings, the Commission will initiate and its staff will conduct enforcement proceedings where appropriate, and the staff will respond to "no-action", interpretative, and exemptive requests regarding so-called "going private" transactions. These rule proposals are in no way intended to limit the present applicability of existing provisions of the Federal securities laws and the rules and regulations promulgated thereunder relating to "going private" transactions.

In addition to rules dealing with the "going private" phenomenon, the staff is currently preparing for submission to the Commission proposed rules dealing with issuer tender offers in general.

[1] Section 13(e) of the Exchange Act provides that it shall be unlawful for an issuer which has a class of equity securities registered pursuant to section 12 of the Exchange Act or which is a closed-end investment company registered under the Investment Company Act of 1940 to purchase any equity security issued by it if such purchase is in contravention of such rules and regulations as the Commission, in the public interest or for the protection of investors, may adopt to define acts and practices which are fraudulent, deceptive, or manipulative, and to prescribe means reasonably designed to prevent such acts and practices.

Section 14(e) of the Exchange Act provides that the Commission shall, by rules and regulations, define and prescribe means reasonably designed to prevent fraudulent, deceptive or manipulative acts or practices in connection with any tender offer or request or invitation for tenders, or any solicitation of security holders in opposition to or in favor of such offer, request or invitation.

Section 14(a) of the Exchange Act grants the Commission authority to prescribe rules and regulations in the public interest or for the protection of investors with respect to the solicitation of any proxy or consent or authorization with respect to any security (other than an exempted security) registered pursuant to Section 12 of the Exchange Act.

Section 14(c) of the Exchange Act grants authority to the Commission to prescribe rules and regulations with respect to filings with the Commission and transmittals to security holders of information substantially equivalent to the information which would be required to be transmitted if a solicitation were made, unless proxies, consents, or authorizations with respect to a security registered pursuant to Section 12 are solicited by or on behalf of the management of the issuer from the holders of record of such security in accordance with the rules and regulations prescribed under subsection 14(a).

Section 10(b) of the Exchange Act provides that it shall be unlawful for any person to use or employ, in connection with the purchase or sale of any security, any manipulative or deceptive device or contrivance in contravention of such rules and regulations as the Commission may prescribe as necessary or appropriate in the public interest or for the protection of investors.

Section 3(b) of the Exchange Act gives the Commission authority to define technical, trade and accounting terms and Section 23(a) of the Exchange Act grants the Commission authority to make such rules and regulations as may be necessary for the execution of the functions vested in the Commission by the Exchange Act.

Background

There is presently no definition of a "going private transaction" under the Federal Securities laws. One possibility would be to define a "going private transaction" to include any transaction or series of transactions engaged in by an issuer or its affiliate, which would, if successful, permit the issuer to cease filing reports under the Exchange Act.[2] Another possibility would be to define the term to include any transaction by an issuer or its affiliate which might directly or indirectly result in the issuer being able to cease filing reports under the Exchange Act or which might result in a significant impairment in the liquidity of the trading market in its equity securities.

A "going private" transaction may involve the use of one or more corporate devices. For example, the issuer may make an offer to purchase all equity securities outstanding for cash or other securities by means of a request or invitation for tenders. The management of the issuer and its majority security holders often choose to retain ownership of their shares. Minority security holders are faced with the choice of tendering and receiving the consideration offered or remaining a security holder. If the offer is accepted by enough security holders, non-tendering security holders may find that whatever liquidity existed in the trading market for the issuer's securities has been severely undermined or has disappeared entirely. Moreover, those security holders may lose the protections of sections 13, 14 and 16 of the Exchange Act if the issuer becomes eligible for and seeks termination of its registration under section 12. Further, in the case of issuers having a duty to file reports pursuant to section 15(d), that duty may be suspended.

Other issuers may determine that an offer to purchase is unsatisfactory since a security holder can remain a security holder by non-action. In those circumstances an issuer may split its securities in reverse (for example, offering one new share for 50 outstanding shares) which may require the approval of, and the solicitation of proxies from, security holders depending upon the applicable law. The terms of such reverse splits generally are designed to ensure that smaller security holders receive only fractions of a whole share; as part of the procedure, the issuer does not issue fractional shares but instead purchases old shares, or distributes cash in lieu of any fractions which would have been issuable. Security holders must sell their old shares or their newly received fractional interests or "round up" by purchasing enough fractional shares to be entitled to receive one new share. The rounding up process usually requires a substantial new investment. Moreover, if the issuer has offered a price higher than current market for the old shares, a security holder desiring to round up will probably have to match that price. Thus, a security holder must sell out or make another substantial investment. Not only is the substantial investment a disincentive to rounding up, but also the security holder must contend with a probable lack of liquidity in the new shares and the possibility that the issuer will be eligible to cease filing reports under the Exchange Act.

Furthermore, under the law of many states the controlling persons of a corporation can initiate or effect a merger into a "shell" corporation also owned by them, requiring all security holders to take cash or a newly created debt security. Such a transaction may require the approval of, and the solicitation of proxies from, security holders depending upon the applicable law. The resulting corporation buys the going concern and minority security holders are forced to take cash or the newly created debt security, or in some states, may exercise dissenters' rights and elect to receive an amount determined by an independent appraisal. Under many state statutes, however, questions have been raised as to whether the procedures involved and the tests of fairness developed adequately protect minority security holders.

On September 9, 1974 the Commission announced a Public Fact-Finding Investigation in the Matter of Beneficial Ownership, Takeovers, and Acquisitions by Foreign and Domestic Persons (File No. 4-175).[3] One of the specific inquiries of that proceeding was:

> Whether the Commission should adopt a schedule of disclosure items pursuant to subsection 13(e) of the Exchange Act for issuers making tender offers for their own securities, including when issuers attempt to "go private" and cease reporting under the Exchange Act.

The Commission's staff received conflicting oral testimony and written comments from interested persons during such proceeding. Moreover, the Commission has received a number of letters from shareholders expressing concern about the fairness of so-called "going private" transactions, and from members of the investment community expressing concern about the impact of such transactions on the confidence of investors in the market place. As set forth in Section 2 of the Exchange Act:

> Transactions in securities * * * are affected with a national public interest which makes it necessary to provide for regulation and control of such transactions and of practices and matters related thereto, including transactions by officers, directors, and principal securities holders, * * * to impose requirements necessary to make such regulation and control reasonably complete and effective in order to * * * insure the maintenance of fair and honest markets * * *.

Based on the foregoing, it appears that it may be necessary or appropriate for the Commission to adopt general or specific substantive provisions in addition to disclosure requirements relating to some or all "going private" transactions.

Proposed Rules

Based in part on the Commission's consideration of the record developed during this investigatory and rulemaking proceeding, the Commission may adopt or propose for comment one or more rules under the Exchange Act and/or may recommend further legislation to the Congress in this area. For the purposes of this proceeding, comments and testimony are requested to focus on the rules which are proposed below.

PROPOSED RULE 13E–3A

This proposed rule would make certain purchases of an issuer's equity securities, and certain solicitations of proxies in connection therewith, by the issuer or its affiliates, as defined, unlawful unless the issuer or its affiliate complies with specific disclosure and substantive provisions. The rule is designed to protect investors, particularly the interests of minority security holders, in "going private" transactions. For the purpose of the rule, "going private" transaction—which is referred to as a "Rule 13e–3 transaction"—means any one of a number of specified types of transactions, which if engaged in by an issuer or its affiliate, might directly or indirectly result in, or be part of a plan which might result in any one of a number of specified effects. The types of transactions covered by the proposed rule include: (A) a purchase of any equity security; (B) a cash tender offer, an exchange offer, or any other tender offer for or request or invitation for tenders of any equity security; or (C) a solicitation of any proxy, consent or authorization of a holder of any equity security in connection with any merger, consolidation, or similar business transaction between an issuer (or its subsidiaries) and its affiliate; a sale of substantially all of the assets of an issuer to its affiliate; or a reverse split of any equity security involving the purchase of fractional shares. The types of effects covered by the proposed rule include: (A) causing a class of equity securities to be subject to delisting from a national securities exchange; (B) causing a class of equity securities to be eligible for termination of registration pursuant to Section 12(g)(4) of the Exchange Act; (C) causing an issuer to be eligible for suspension of reporting obligations pursuant to Section 15(d) of the Exchange Act as at the beginning of the next fiscal year of the issuer; or (D) causing a class of equity securities which is authorized to be quoted in an inter-dealer quotation system of a registered national securities association to cease to be so authorized.

The proposed rule would require the mailing of certain specified information to all holders of record and all known beneficial owners of the affected class of equity securities and would provide for a twenty day "waiting period" during which a Rule 13e–3 transaction could not be effected. The requisite information would include, among other things, the source of funds for the transaction, the purposes of the transaction and intentions with respect to the future conduct of the business, background information regarding affiliates, an opinion of counsel respecting the legality of the transaction, certain financial information, recent acquisitions of securities, dividend and market price information, and a summary of an evaluation by two qualified independent persons of the consideration to be offered to the security holders of the affected class of securities who are not affiliates of the issuer.

The proposed rule would also require that the consideration offered to such security holders shall constitute fair value as determined in good faith by the issuer or its affiliate, and shall be no lower than the consideration recommended jointly by two qualified independent persons. In making their recommendations, such persons would be required to consider, among other factors, the value of the assets and earning power of the issuer. Such persons would each be required to have reasonable grounds to believe, and believe, after reasonable investigation, that their jointly recommended consideration constituted fair value to the security holders of the affected class who are not affiliates. In addition, they would be required to submit to the issuer a written report and opinion based thereon regarding the fairness of the recommended consideration to the non-affiliated security holders, setting forth the procedures followed, the basis for and method of arriving at the recommended consideration and any limitation imposed by the issuer or affiliate on the scope of their investigation.

If the Rule 13e–3 transaction takes the form of a cash tender offer or exchange offer, the solicited security holders would be provided with unlimited withdrawal rights at any time prior to acceptance for purchase, pro rata rights during a twenty day "waiting period" and the right to be treated equally with respect to any increase in the offered consideration. Any purchase within sixty days after the expiration of a tender offer shall be deemed to be part of that tender offer. And in those cases where an issuer would no longer be required to file reports pursuant to sections 12 or 15(d) of the Exchange Act, the rule would provide for a twenty day "take out" period during which all remaining security holders would have an additional opportunity to tender or exchange their securities for the same consideration offered in the Rule 13e–3 transaction.

The proposed rule would not be applicable to transactions by companies registered under the Public Utility Holding Company Act of 1935 or the Investment Company Act of 1940, nor would it be applicable to redemptions, calls and other similar transactions involving a purchase of an equity security by an issuer pursuant to specific provisions set forth in the instrument(s) creating or governing that class of equity securities.

PROPOSED RULE 13E–3B

As an alternative to certain of the substantive provisions of the foregoing proposed rule, the Commission is also publishing for comment another form of substantive regulation—denominated as Rule 13e–3B for the purposes of this proceeding. Proposed Rule 13e–3B, if adopted, would also include some or all of the disclosure and tender offer requirements set forth in proposed Rule 13e–3A. To avoid repetition, proposed Rule 13e–3B does not include such specific requirements.

Proposed Rule 13e–3B would apply to any transactions by an issuer which has a class of equity securities registered under Section 12 of the Exchange Act or which files reports under Section 15(d) of the Exchange Act, or by an affiliate, as defined, involving the purchase, directly or indirectly, of any equity security of the issuer which would result or was intended to result in any one of the following consequences: (1) compelling a security holder of the issuer to terminate his equity interest in the issuer; (2) reducing, directly or indirectly, by 25 percent or more, of the amount of any class of equity security of the issuer outstanding prior to the transaction and held beneficially by persons other than the issuer and its affiliates; (3) causing a class of equity securities of the issuer to be subject to delisting from a national securities exchange; (4) causing a class of equity securities of the issuer to be eligible for termination of registration pursuant to section 12(g)(4) of the Exchange Act; (5) causing an issuer to be eligible for suspension of reporting obligations pursuant to section 15(d) of the Exchange Act as at the beginning of the next fiscal year of the issuer; or (6)

[2] An issuer is obligated to file periodic reports under the Exchange Act if the issuer: (i) has a class of securities listed on a national securities exchange pursuant to section 12(b) of the Exchange Act; or (ii) has a class of equity securities held of record by 500 persons and has at least $1,000,000 in assets pursuant to section 12(g) of the Exchange Act; or (iii) has made a registered public offering of securities under the Securities Act of 1933 and has at least 300 shareholders of record pursuant to section 15(d) of the Exchange Act. An issuer is no longer obligated to file periodic reports under the Exchange Act if it delists all of its securities and is not subject to section 12(g) of the Exchange Act or if it has less than 300 shareholders of record and complies with section 12(g)(4) or section 15(d), and Rule 15d–6 (17 CFR 240.15d–6) thereunder, of the Exchange Act.

[3] Release No. 33–5526 (Sept. 9, 1974) (39 FR 33835) as amended by Release No. 33–5538 (Nov. 5, 1974) (39 FR 41223).

XUM V40137 FEB 24 75 XUM

causing a class of the issuer's equity securities authorized to be quoted in an inter-dealer quotation system of a national securities association to cease to be so authorized.

When any such consequences would or are intended to occur, the proposed rule would require that the terms of the transaction, including any consideration to be paid to any security holder, be fair, and, in the case of a transaction by the issuer, that a valid business purpose for the transaction exist. The proposed rule is intended to provide the Commission with sufficient flexibility to deal with any type of transaction by an issuer or its affiliates which, if effected, would have the same consequences.

Proposed Rule 13e–3B would provide the same exceptions as proposed Rule 13e–3A. In addition, transactions exclusively among affiliates of the issuer would be exempt, since neither minority security holders nor the issuer would be involved.

ADDITIONAL INQUIRIES

In addition to the specific issues raised by the proposed rules, the Commission requests written comments and testimony concerning the following general areas:

A. Whether the proposed rules should apply to purchases by an issuer or affiliate of the equity securities of the issuer which have consequences in addition to those specified in the rules?

B. Inasmuch as "going private" transactions may involve conflicts of interests, and the terms of such transactions may not be based upon arm's length bargaining, should additional steps be taken to protect investors in such transactions?

C. With respect to evaluations, such as appraisals, in connection with "going private" transactions, should specific requirements be adopted relating to:

(1) Additional bases for an evaluation, such as an allocation of post-transaction benefits or other relevant values; or

(2) Qualifications, methods of selection and standards of independence relating to persons making such evaluations?

D. Should a rule be adopted to require expressly specific disclosure of budgets, internal projections and future plans of an issuer or its affiliates in connection with "going private" transactions?

E. Assuming a vote of security holders is involved in a "going private" transaction, should a rule be adopted to require affiliates to vote their securities with the majority of, or in proportion to, the votes of security holders who are not affiliates?

F. Should a rule be adopted requiring a vote of security holders in connection with all "going private" transactions?

G. In view of the proposed requirements regarding fairness, is it necessary to require, in addition, that there be a neutralization of the vote of affiliates of the issuer?

H. In lieu of the 25% standard in paragraph (b)(2) of the proposed Rule 13e–3B, should a sliding scale be used with regard to reductions in the number of shares outstanding such as for different types of sizes of issuers?

I. Should commissions or other remunerations paid or given, directly or indirectly, for soliciting proxies or sales of securities be prohibited or limited in some or all types of "going private" transactions?

J. Should the Commission adopt rules relating to "going private" transactions involving closed-end investment companies registered under the Investment Company Act of 1940?

K. Should other types of transactions be specifically exempted in whole or in part from the proposed rules, and in regard thereto, should the time elapsed between the most recent public offering of securities and the proposed transaction be considered as a relevant factor?

L. Should a rule be adopted containing a general exemptive provision and, if so, what standards should be included therein?

PROCEDURES

Any interested person wishing to submit a written statement of views or suggestions concerning additional topics or inquiries relating to "going private" transactions which should be examined during the course of the proceeding is invited to submit such a statement by March 15, 1975. In addition, any interested person wishing to submit specific written comments concerning the inquiries set forth herein and the proposed rules attached hereto is invited to do so at any time prior to the close of the record of this proceeding. All communications should be addressed to George A. Fitzsimmons, Secretary, Securities and Exchange Commission, Washington, D.C. 20549 and should be captioned with File No. 4–173. All such communications will be made part of the record of the proceeding and will be available for public inspection.

The public hearings are tentatively scheduled to commence during April, 1975 at the Commission's offices in Washington, D.C. At a later date, the Commission will issue another order designating the specific date, time and place and procedures for the hearings.

This public investigatory and rulemaking proceeding has been ordered by the Commission pursuant to section 21(a) of the Exchange Act and Rule 4(b) (17 CFR 201.4(b)) of the Commission's rules of practice. Attached hereto are proposed Rules 13e–A and 13e–3B, which are proposed pursuant to sections 3(b), 10(b), 13(e), 14(a), 14(c), 14(e), and 23(a) of the Exchange Act.

(Secs. 3(b), 10(b), 14(a), 14(c), 21(a), 23(a), 48 Stat. 882, 891, 895, 899, 901; sec. 203(a), 49 Stat. 704; sec. 8, 49 Stat. 1379; sec. 5(a), 78 Stat. 569; secs. 2, 3, 82 Stat. 454, 455; secs. 2, 5, 84 Stat. 1497; 15 U.S.C. c(b), j(b), m(e), n(a), n(c), n(e), v(a), w(a))

By the Commission.

[SEAL] SHIRLEY E. HOLLIS,
Assistant Secretary.

FEBRUARY 6, 1975.

The proposed rules are as follows:

§ 240.13e–3[A] Unlawful issuer repurchases.

(a) *Definitions.* For purposes of the rule, the following definitions shall apply:

(1) *Affiliate.* An "affiliate" of an issuer is a person that directly, or indirectly through one or more intermediaries, controls, or is controlled by, or is under common control with such issuer.

(2) *Class of Equity Securities.* The term "class of equity securities" shall include any security convertible or exchangeable into, or any warrant or right to subscribe to or purchase any security of such class.

(3) *Executive Officer.* The term "executive officer" means the president, secretary, treasurer, any vice president in charge of a principal business function (such as sales, administration or finance) and any other person who performs similar policy-making functions for the issuer.

(4) *Purchase.* A "purchase" means any acquisition for value or any contract to buy, purchase or acquire, including any "short form" merger and any purchase of fractional shares in connection with a reverse split.

(5) *Rule 13e–3 Transaction.* A "Rule 13e–3 transaction" is any transaction described in paragraph (a)(5)(i) of this section which, directly or indirectly, might have any of the effects or is part of a plan which might have any of the effects described in paragraph (a)(5)(ii) of this section.

(i) *Types of Transactions.* (A) a purchase of any equity security;

(B) a cash tender offer, an exchange offer, or any other tender offer for or request or invitation for tenders of any equity security; or

(C) a solicitation of any proxy, consent or authorization of a holder of any equity security in connection with any merger, consolidation or similar business combination transaction between an issuer (or its subsidiaries) and its affiliate; a sale of substantially all of the assets of an issuer to its affiliate; or a reverse split of any equity security involving the purchase of fractional shares.

(ii) *Effects of Transaction.* (A) causing a class of equity securities to be subject to delisting from a national securities exchange;

(B) causing a class of equity securities to be eligible for termination of registration pursuant to section 12(g)(4) of the Act;

(C) causing an issuer to be eligible for suspension of reporting obligations pursuant to section 15(d) of the Act as at the beginning of the next fiscal year of the issuer; or

(D) causing a class of equity securities which is authorized to be quoted in an inter-dealer quotation system of a registered national securities association to cease to be so authorized.

(b) *Scope of the Rule.* It shall be unlawful for any issuer, or any affiliate of such issuer at the commencement of a Rule 13e–3 transaction, to engage in a Rule 13e–3 transaction with respect to a class of equity securities of such issuer unless such issuer or affiliate complies with all of the conditions set forth in paragraph (c) of this section.

NOTE.—A person who is not an affiliate of the issuer at the commencement of such person's tender offer for the equity securities of the issuer will not become an affiliate of that issuer for purposes of this rule prior to the termination of that tender offer.

(c) *Conditions to be Met.* A Rule 13e–3 transaction shall be unlawful unless all the following conditions are met:

(1) The issuer or affiliate shall send the following information in accordance with the provisions of any applicable federal, state or other law, but in no event later than 20 days prior to any purchase or any vote, consent or authorization, to each person who was a record holder as of a date not more than 30 days prior to the date of mailing and to each person known to such issuer or affiliate to have been as of such record date a beneficial owner of the class of equity securities subject to the Rule 13e–3 transaction:

(i) The title of the class of equity securities to which the transaction relates;

(ii) If the Rule 13e–3 transaction is to be effected by an affiliate, (A) the identity of the affiliate; (B) the identity of any executive officer; (C) the principal business, occupation or employment of each person identified in (A) or (B) for the last 5 years, including the name and principal business of the organization with which such employment was carried on, and (D) the date(s), nature of conviction, name and location of court and penalty or other disposition of any conviction in a criminal proceeding (excluding traffic violations or similar misdemeanors) during the 5 years for each such person;

(iii) The source and amount of funds or other consideration to be used in making the purchases; and if any part of the purchase price or the proposed purchase price is represented or is to be represented by funds or other consideration borrowed or otherwise obtained, describe the terms of the transaction and the identity of the parties thereto;

(iv) The purpose or purposes of the proposed transaction, including but not limited to any plans or proposals to liquidate the issuer, to sell its assets or merge it with any other person, or to make any other material change in its management, business or corporate structure;

(v) Any contracts, arrangements, or understandings involving the issuer or affiliate with respect to any securities of the issuer, including but not limited to transfer of any of the securities, joint ventures, loan or option arrangements, puts or calls, guarantees of loans, guarantees against loss or guarantees of profits, division of losses or profits, or the giving or withholding of proxies, naming the persons with whom such contracts, arrangements, or understandings have been entered into, and describing the material provisions thereof;

(vi) The identity of all persons and classes of persons employed, retained or to be compensated by the issuer or affiliate or by any person on behalf of the issuer or affiliate to make solicitations or recommendations to security holders in connection with a Rule 13e–3 transaction and the terms of such employment, retainer or arrangement for compensation;

(vii) A description of the effect of the proposed transaction on the issuer, its affiliates and non-affiliated security holders of the class of equity securities, and a description of the terms or arrangements of the proposed transaction relating to any security holder which are not identical to those relating to other security holders;

(viii) An opinion of counsel respecting the legality of the transaction under the law of the state or other jurisdiction under the laws of which the issuer was organized;

(ix) A statement of the intentions of executive officers, directors and affiliates of the person effecting the Rule 13e–3 transaction as to whether they will or will not tender or sell or vote securities of the issuer owned or held by them or vote securities with respect to which they hold proxies and the reasons therefor;

(x) The two year audited financial statements required to be filed with the issuer's most recent annual report under Sections 13 and 15(d) of the Act, together with a balance sheet as of the last day of the most recent period subsequent to the end of the last fiscal year for which a quarterly report was required to be filed pursuant to the Act, and statements of income, retained earnings and changes in financial position for the period then ended and for the corresponding period of the preceding fiscal year;

(xi) Pro forma data showing the effect of the proposed transaction on (A) the issuer's most recent balance sheet furnished pursuant to paragraph (c)(1)(x) of this section; (B) the issuer's statement of income for the last fiscal year or the 12 month period prior to the date of the balance sheet referred to in (A) above; (C) book value per share as of the date of the balance sheet referred to in (A) above; and (D) the ratio of earnings to fixed charges for the period referred to in (B) above;

(xii) The frequency and amount of any dividends with respect to such class of equity securities during the last two years, any restrictions on the issuer's ability to pay dividends and any plan or intention to declare a dividend or to alter the dividend policy of the issuer in the future;

(xiii) The amount of the issuer's equity securities beneficially owned as of the most recent practicable date by any executive officer, director or affiliate of the issuer, or any pension, profit sharing or similar plan of the issuer or affiliate; the aggregate amount of the issuer's equity securities purchased directly or indirectly during the preceding two years, if any, and the aggregate dollar amounts paid for such securities by the issuer, any executive officer, director or affiliate and any pension or profit sharing or similar plan of the issuer or affiliate; and the number of securities purchased and the price per share paid during the last 60 days by each such person.

(xiv) A general description of the federal tax consequences of the proposed transaction to the issuer and its security holders;

(xv) If there is an established market for such class of equity securities, the high and low sale prices of such securities (or in the case of trading in the over-the-counter market, or in the absence of trading on an exchange during a particular period, the range of representative high and low bid and asked quotations) for each quarterly period within the past two years and the nature of the market and source of the quotations. If the securities are traded on one or more exchanges, the name of the principal exchange should be given. If there is no established trading market excluding limited or sporadic quotations, it should be so stated;

(xvi) The offering price per share, subject to appropriate adjustments, the aggregate proceeds received by the issuer and the proceeds received by each affiliate of the issuer, if securities of the class were offered to the public by the issuer or affiliates during the five years preceding the date of the proposed transaction;

(xvii) A fair and adequate summary of the reports, opinions and the joint recommendation required by paragraph (c)(2) of this section; the method of selection of the persons giving such recommendation and opinions, any material relationship between such person or its affiliates which then exists or is mutually understood to be contemplated or which has existed at any time during the previous two years, and any compensation received or to be received as a result of such relationship;

(xviii) A reasonably itemized statement of all expenses incurred or estimated to be incurred in connection with a proposed Rule 13e–3 transaction, including but not limited to filing fees, legal, accounting and appraisal fees, solicitation expenses, and printing costs.

(xix) A fair and adequate summary of any appraisal obtained by or for the issuer or its affiliate regarding the issuer, its material assets, or securities within the last two years.

(xx) Such additional material information, if any, as may be necessary to make the required statements, in the light of the circumstances under which they are made, not materially misleading.

(2) The consideration for the equity securities to be purchased shall constitute fair value to the security holders of such class of the issuer who are not affiliates as determined in good faith by the issuer or its affiliate, and shall be no lower than that recommended jointly by two qualified independent persons. Such persons, in recommending the consideration, shall consider, among other factors, the value of the assets and earning power of the issuer. They shall each:

(i) after reasonable investigation, have reasonable grounds to believe, and

XUM
V 40 37
FEB 24 75
XUM

believe, that their jointly recommended consideration constitutes fair value to the security holders of the issuer of such class who are not affiliates; and

(ii) submit to the issuer a written report and an opinion based thereon regarding the fairness of the recommended consideration to security holders of the issuer of such class who are not affiliates, setting forth the procedures followed, the basis for and the method of arriving at the recommended consideration, and any limitation imposed by the issuer or affiliate on the scope of the investigation; such report and opinion shall be available for inspection and copying by any interested equity security holder of the issuer at the executive offices of the issuer during its regular business hours.

(3) If an issuer or affiliate engages in a Rule 13e–3 transaction involving a cash tender offer, an exchange offer or any other tender offer for or request or invitation for tenders of any equity security:

(i) the issuer or affiliate shall file with the Commission eight copies of any written offer or request or invitation for tenders which shall contain the information required by paragraph (c)(1) of this section and any additional solicitation material at the time any copies of the offer or request or invitation for tenders are first sent to holders of the equity securities, but in no event later than 20 days prior to any purchase pursuant to such offer, request or invitation;

(ii) if any material change occurs in the information filed pursuant to paragraph (c)(4)(i) of this section, eight copies of an amendment shall promptly be filed with the Commission to reflect such change;

(iii) securities deposited pursuant to a tender offer subject to this subparagraph may be withdrawn by or on behalf of a tendering security holder at any time prior to the acceptance for purchase of such securities by the issuer or affiliate;

(iv) if more securities are deposited during the twenty days between the day on which the offer is first sent to security holders and the first day on which securities may be accepted for purchase than the issuer or affiliate is bound or willing to accept for purchase, any securities accepted for purchase shall be accepted on a pro rata basis as nearly as is practicable disregarding fractional shares;

(v) if the consideration offered to security holders in a tender offer subject to this subparagraph is increased, the increased consideration shall be paid for all securities accepted for purchase in the Rule 13e–3 transaction regardless of whether such securities were accepted prior to the increase in consideration;

(vi) any purchase by the issuer or affiliate within sixty days subsequent to the expiration of a tender offer subject to this subparagraph shall be deemed to be made pursuant to such tender offer;

(vii) If the consummation of such a transaction results in one of the effects described in paragraph (a)(5)(ii)(B) or (C) of this section or results in the effect described in paragraph (a)(5)(ii)(A) of this section *and* the issuer is not subject to section 12 or 15(d) of the Act, the issuer or its affiliate within 30 days after such consummation must:

(A) notify any remaining holder of equity securities of that class regarding the result and effect of the transaction; and

(B) offer to purchase the securities held by each remaining security holder for the same consideration paid in the Rule 13e–3 transaction for a period of at least 20 days following the day the notice required by this subparagraph is sent to each remaining security holder.

(d) *Exceptions.* This rule shall not apply to:

(1) transactions by a holding company registered under the Public Utility Holding Company Act of 1935:

(2) transactions by an investment company registered under the Investment Company Act of 1940; or

(3) redemptions, calls or other similar purchases of an equity security by an issuer pursuant to specific provisions set forth in the instrument(s) creating or governing that class of equity securities.

§ 240.13e–3[B] Unlawful issuer repurchases.

NOTE.—This rule is proposed in conjunction with and includes paragraphs (c)(1) and (c)(3) of Proposed Rule 13e–3A but those paragraphs are omitted to avoid repetition.

(a) It shall be unlawful, as a fraudulent, deceptive or manipulative act or practice, for any issuer which has a class of equity securities registered under Section 12 of the Act or which files reports pursuant to Section 15(d) of the Act (the "issuer") or any person controlling, controlled by or under common control with the issuer (an "affiliate"), to enter into any transaction involving a purchase, directly or indirectly, of any equity security of the issuer which does have, or is intended to have, any of the effects described in paragraph (b) hereof unless:

(1) if such transaction is entered into by the issuer, such issuer has a valid business purpose for doing so; and

(2) the terms of such transaction, including any consideration to be paid to any security holder, are fair.

(b) Paragraph (a) of this section shall apply to any transaction which has, or is intended to have, any of the following effects:

(1) compelling any security holder of the issuer to terminate his equity interest in the issuer;

(2) reducing, directly or indirectly, by 25 percent or more; the amount of any class of equity securities of the issuer outstanding prior to the transaction and held beneficially by persons other than the issuer and its affiliates;

(3) causing a class of equity securities of the issuer to be subject to delisting from a national securities exchange;

(4) causing a class of equity securities of the issuer to be eligible for termination of registration pursuant to section 12(g)(4) of the Act;

(5) causing the issuer to be eligible for suspension of reporting obligations pursuant to section 15(d) of the Act as at the beginning of the next fiscal year of the issuer; or

(6) causing a class of equity securities of the issuer which is authorized to be quoted in an inter-dealer quotation system of a registered national securities association to cease to be so authorized.

(c) paragraph (a) hereof shall not apply to:

(1) transactions between or among affiliates of the issuer not involving the issuer or any security holder of the issuer other than an affiliate;

(2) any transaction involving a purchase of a security for which specific provisions have been made in any instrument creating or governing that security;

(3) transactions by a holding company registered under the Public Utility Holding Company Act of 1935; or

(4) transactions by an investment company registered under the Investment Company Act of 1940.

Internal Revenue Service

ART ADVISORY PANEL

Notice of Closed Meetings

FEBRUARY 15, 1975.

Notice is hereby given that pursuant to section 10(a)(2) of the Federal Advisory Committee Act, Pub. L. 92–463, a closed meeting of the Art Advisory Panel will be held on March 11 and 12, 1975 beginning at 9:30 a.m. in Room 3313 Internal Revenue Building, 1111 Constitution Avenue NW., Washington, D.C. 20224.

The agenda will consist of the review and evaluation of the acceptability of market value appraisals of works of art involved in Federal income, estate or gift tax returns. This involves the discussion of confidential material in individual tax returns. A determination as required by section 10(d) of the Act has been made that these meetings are concerned with matters listed in section 552(b) of Title 5 of the United States Code, and that the meetings will not be open to the public.

DONALD C. ALEXANDER,
Commissioner.

Proposed Revenue Procedure

Correction

In FR Doc.75–4391 appearing at page 6991 of the issue for Tuesday, February 18, 1975, Sec. 4.1(c) of the proposed revenue procedure, now reading "Facility and administrative staff" should read "Faculty and administrative staff".

DEPATMENT OF DEFENSE

Department of the Army

BOARD OF VISITORS, UNITED STATES MILITARY ACADEMY

Notice of Closed Meeting

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following meeting.

Name of committee. Board of Visitors, United States Military Academy.

Dates of meeting. April 29–May 1, 1975.

Place of meeting. West Point, New York and Washington, D.C.

Time—At West Point. 1000–1700, April 30.
At Washington. 1300–1700, May 1.

Proposed agenda. Inquiry into the morale and discipline, the curriculum, instruction, physical equipment, fiscal affairs, academic methods and other matters relating to the Military Academy that the Board decides to consider.

Pursuant to section 10(d), P. L. 92–463, the following portions of the Board's meeting are closed to the public for the reasons cited hereunder.

The Superintendent's Presentation to the Board, 1015–1100, April 30
The Commandant's Briefing of the Board, 1315–1530, April 30.
The Executive Session of the Board, 1300–1700, May 1

The above noted portions of the Board's meeting will be concerned with matters listed in 5 U.S.C., section 552b (2) and (6), and discussions at these meetings will require an exchange of opinions which, if written, would fall within 5 U.S.C., section 552(b)(5).

For the Board of Visitors.

EDWIN V. SUTHERLAND,
Colonel, USA, Executive Secretary, Board of Visitors.

[INT DES 75-6]

PROPOSED INJURIOUS WILDLIFE IMPORTATION REGULATIONS

Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, Pub. L. 91-190, the Department of the Interior has prepared a draft environmental statement for the Proposed Injurious Wildlife Importation Regulations, and invites written comments on or before April 10, 1975.

The proposal, which appears in the proposed rules section of this FEDERAL REGISTER, establishes lists of wildlife species that pose a low risk of injury to human beings, the interests of agriculture, horticulture, forestry, or to wildlife or wildlife resources when imported into the United States, and prescribes that importation of any other animals would be injurious to these interests. Injurious species may be imported only under permit.

Copies of the draft statement are available for inspection at the following locations:

U.S. Fish and Wildlife Service, Office of Environmental Coordination, Department of the Interior, 18th & C Streets, N.W., Room 2246, Washington, D.C. 20240.
U.S. Fish and Wildlife Service, Suite 500, 1612 K Street, N.W., Washington, D.C. 20240.
U.S. Fish and Wildlife Service, Regional Office, 730 N.E. Pacific Street, Portland, Oregon 97208.
U.S. Fish and Wildlife Service, Regional Office, 500 Gold Avenue, S.W., Albuquerque, New Mexico 87102.
U.S. Fish and Wildlife Service, Regional Office, Federal Building, Fort Snelling, Twin Cities, Minnesota 55111.
U.S. Fish and Wildlife Service, Regional Office, 17 Executive Park Drive, N.E., Atlanta, Georgia 30329.
U.S. Fish and Wildlife Service, Regional Office, U.S. Post Office and Courthouse, Boston, Massachusetts 02109.
U.S. Fish and Wildlife Service, Regional Office, 10597 West Sixth Avenue, Lakewood, Colorado 80215.
U.S. Fish and Wildlife Service, Alaska Area Office, 813 "D" Street, Anchorage, Alaska 99501.

Single copies may be obtained by writing the Chief, Office of Environmental Coordination, U.S. Fish and Wildlife Service, Department of the Interior, Washington, D.C. 20240. Comments concerning the statement should be addressed to the Director (FWS/MNB), Fish and Wildlife Service, Washington, D.C. 20240. Please refer to the statement number above.

Because this is a second draft environmental statement relating to these regulations, necessitated by revision of the original proposal, extensive coordination has already taken place. Therefore the comment period of 45 days will not be extended.

Dated: February 18, 1975.

STANLEY D. DOREMUS,
Deputy Assistant Secretary of the Interior.

[FR Doc.75-4832 Filed 2-21-75;8:45 am]

NATIONAL PETROLEUM COUNCIL COMMITTEE ON EMERGENCY PREPAREDNESS

Subcommittee Meeting

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463, 86 Stat. 770), notice is hereby given of the following meeting:

The Coordinating Subcommittee of the Committee on Emergency Preparedness of the National Petroleum Council will meet on March 10, 1975, in Room 3580 of the Exxon Building, Houston, Texas at 9 a.m.

The agenda includes the following items:

1. Review and discuss outline of Subcommittee assignments.
2. Review and discuss progress of individual assignments.
3. Discuss any other matters pertinent to the assignment of the Subcommittee.

The meeting will be open to the public to the extent that space and facilities permit. Any member of the public may file a written statement with the Council either before or after the meeting. Interested persons who wish to speak at the meeting must apply to the Council and obtain approval in accordance with its established procedures.

The purpose of the National Petroleum Council is to provide advice, information and recommendations to the Secretary of the Interior, upon request, on any matter relating to petroleum or the petroleum industry.

Further information with respect to this meeting may be obtained from Ms. Fran Hanavan, Office of the Assistant Secretary-Energy and Minerals, Department of the Interior, Washington, D.C., telephone 343-2904.

Dated: February 19, 1975.

C. K. MALLORY,
Deputy Assistant Secretary of the Interior.

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

SHIPPERS ADVISORY COMMITTEE

Notice of Public Meeting

Pursuant to the provisions of section 10(a)(2) of the Federal Advisory Committee Act (86 Stat. 770), notice is hereby given of a meeting of the Shippers Advisory Committee established under Marketing Order No. 905 (7 CFR Part 905). This order regulates the handling of oranges, grapefruit, tangerines, and tangelos grown in Florida and is effective pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674). The committee will meet in the A. B. Michael Auditorium of the Florida Citrus Mutual Building, 302 South Massachusetts Avenue, Lakeland, Florida, at 10:30 a.m., on March 11, 1975.

The meeting will be open to the public and a brief period will be set aside for public comments and questions. The agenda of the committee includes analysis of current information concerning market supply and demand factors, and consideration of recommendations for regulation of shipments of the named fruits.

The names of committee members, agenda, and other information pertaining to the meeting may be obtained from Frank D. Trovillion, Manager, Growers Administrative Committee, P.O. Box R, Lakeland, Florida 33802; telephone 813-682-3103.

Dated: February 20, 1975.

JOHN C. BLUM,
Associate Administrator.

[FR Doc.75-4961 Filed 2-21-75;8:45 am]

Farmers Home Administration

[Designation Number A142]

KANSAS

Designation of Emergency Areas

The Secretary of Agriculture has found that a general need for agricultural credit exists in the following counties in Kansas:

Allen Douglas

The Secretary has found that this need exists as a result of a natural disaster consisting of prolonged drought June 20 to August 20, 1974.

Therefore, the Secretary has designated these areas as eligible for Emergency loans, pursuant to the provisions of the Consolidated Farm and Rural Development Act, as amended by Pub. L. 93-237, and the provisions of 7 CFR 1832.3 (b) including the recommendation of former Governor Robert B. Docking that such designation be made.

Applications for Emergency loans must be received by this Department no later than April 11, 1975, for physical losses and November 11, 1975, for production losses, except that qualified borrowers who receive initial loans pursuant to this designation may be eligible for subsequent loans. The urgency of the need for loans in the designated areas makes it impracticable and contrary to the public interest to give advance notice of proposed rule making and invite public participation.

Done at Washington, D.C., this 18th day of February 1975.

FRANK B. ELLIOTT,
Administrator, Farmers Home Administration.

Soil Conservation Service

[Floodwater Retarding Structure No. 38]

LOWER PLUM CREEK WATERSHED, TEX.

Negative Declaration

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; part 1500.6(e) of the Council on Environmental Quality Guidelines (38 FR 20550) August 1, 1973; and part 650.8 (b)(3) of the Soil Conservation Service Guidelines (39 FR 19651) June 3, 1974; the Soil Conservation Service, U.S. Department of Agriculture, gives notice that an environmental impact statement is not being prepared for Floodwater Retarding Structure No. 38, Lower Plum Creek Watershed, Hays and Caldwell Counties, Texas.

The environmental assessment of this federal action indicates that the project will not create significant adverse local, regional, or national impacts on the environment and that no significant controversy is associated with the project. As a result of these findings, Mr. Edward E. Thomas, State Conservationist, Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76501, has determined that the preparation and review of an environmental impact statement is not needed for this project.

The project concerns a plan for watershed protection and flood prevention. The planned works of improvement include single purpose floodwater retarding structure No. 38.

The environmental assessment file is available for inspection during regular working hours at the following location:

Soil Conservation Service, USDA, First National Bank Building, Temple, Texas 76501.

No administrative action on implementation of the proposal will be taken before March 11, 1975.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: February 13, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

[FR Doc.75-4837 Filed 2-21-75;8:45 am]

PINE RUN WATERSHED PROJECT, PENN.

Availability of Draft Environmental Impact Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650.7(e) of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental impact statement for the Pine Run Watershed Project, Montgomery County, Pennsylvania, USDA-SCS-EIS-WS-(ADM)-75-1-(D)-PA.

The environmental impact statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment, two floodwater retarding structures and a program of nonstructural measures. Land treatment measures to be installed on approximately 1500 acres include diversions, debris basins, subsurface drains and grassed waterways or outlets. The nonstructural program includes a flood insurance program and the implementation and enforcement of land use and flood plain management ordinances within the authority of the sponsoring local governmental unit.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

A limited supply of copies is available at the following location to fill single copy requests:

Soil Conservation Service, USDA, Box 985, Federal Square Station, Harrisburg, Pennsylvania 17108.

Comments concerning the proposed action or requests for additional information should be addressed to Benny Martin, State Conservationist, Soil Conservation Service, Box 985, Federal Square Station, Harrisburg, Pennsylvania 17108.

Comments must be received on or before April 15, 1975, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: February 13, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

XUM

Shuqualak Creek Watershed Project, Noxubee and Kemper Counties, Mississippi, USDA–SCS–EIS–WS–(ADM)–75–3–(D)–MS.

The environmental impact statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment, two floodwater retarding structures and channel work. The channel work consists of 5.2 miles of work on manmade ditches or previously modified channels. It will involve 2.1 miles of channel enlargement and 3.1 miles of channel alignment on channels with ephemeral flow characteristics to provide improved water management on the flood plain which is 72 percent agricultural cropland and grassland.

A limited supply of the draft EIS is available at the following locations:

Soil Conservation Service, USDA
P.O. Box 610, Jackson, Mississippi 39205.

Room 490, Milner Building, 310 S. Lamar Street, Jackson, Mississippi.

Copies of the draft environmental impact statement have been sent for comment to various federal, state, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to W. L. Heard, State Conservationist, P.O. Box 610, Jackson, Mississippi 39205.

Comments must be received on or before April 11, 1975, in order to be considered in the preparation of the final environmental impact statement.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: February 12, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

SPRING CANYON WATERSHED PROJECT, WYO.

Availability of Final Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969; Part 1500 of the Council on Environmental Quality Guidelines (38 FR 20550, August 1, 1973); and Part 650 of the Soil Conservation Service Guidelines (39 FR 19650, June 3, 1974); the Soil Conservation Service, U.S. Department of Agriculture, has prepared a final environmental impact statement (EIS) for the Spring Canyon Watershed Project, Goshen County, Wyoming, USDA–SCS–ES–WS–(ADM)–74–31–F.

The EIS concerns a plan for watershed protection and flood prevention. The planned works of improvement provide for conservation land treatment, one floodwater retarding structure, two grade stabilization structures, and 2,150 feet of reservoir outlet pipeline.

The Final EIS has been filed with the Council on Environmental Quality.

A limited supply is available at the following locations to fill single copy requests:

Soil Conservation Service, USDA
Room 3110, Federal Bldg., 100 East B Street, Casper, Wyoming 82601.

P.O. Box 2440, Casper, Wyoming 82601.

(Catalog of Federal Domestic Assistance Program No. 10.904, National Archives Reference Services)

Dated: February 12, 1975.

WILLIAM B. DAVEY,
Deputy Administrator for Water Resources, Soil Conservation Service.

Office of the Secretary

COOPERATIVE FORESTRY RESEARCH ADVISORY COMMITTEE

Intent of Establishment

Notice is hereby given that the Secretary of Agriculture will establish a Cooperative Forestry Research Advisory Committee for the purpose of advising the Secretary and other officials on all aspects of the administration of the Cooperative Forestry Research Program (also known as the McIntire-Stennis Program) established by Pub. L. 87-788. The Secretary has determined that establishment of this committee is in the public interest in connection with the duties imposed on the Department by law.

The Chairman of this committee will be the Assistant Secretary for Conservation, Research, and Education, U.S. Department of Agriculture, Washington, D.C. 20250.

This committee will report directly to the Secretary. The committee will meet annually at the call of the Chairman and will terminate two years from the date of its establishment.

This notice is given in compliance with the Federal Advisory Committee Act (Pub. L. 92-463). Views and comments of interested persons shall be made in writing and must be received by the Assistant Secretary for Conservation, Research, and Education on or before February 25, 1975, to be certain of consideration.

All written submissions made pursuant to this notice will be available for public inspection at the Office of the Assistant Secretary for Conservation, Research, and Education during regular business hours (7 CFR 1.27 (b)).

Dated: February 19, 1975.

JOSEPH R. WRIGHT, JR.,
Assistant Secretary for Administration.

[FR Doc.75-4919 Filed 2-21-75;8:45 am]

NATIONAL RICE ADVISORY COMMITTEE

Renewal

Notice is hereby given that the Secretary of Agriculture has renewed the National Rice Advisory Committee for the purpose of advising the Secretary and other officials on domestic and export requirements for rice, production, adjustment, and stabilization programs, and other matters relating to this commodity. The Secretary has determined that renewal of this committee is in the public interest in connection with the duties imposed on the Department by law.

The chairman of this committee is the Assistant Secretary for International Affairs and Commodity Programs, U.S. Department of Agriculture, Washington, D.C. 20250.

This notice is given in compliance with Pub. L. 92-463.

JOSEPH R. WRIGHT, JR.,
Assistant Secretary for Administration.

FEBRUARY 14, 1975.

DEPARTMENT OF COMMERCE

Domestic and International Business Administration

CORNELL UNIVERSITY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 74-00381-33-46040. Applicant: Cornell University, Section of Genetics, Development & Physiology, New York State College of Agricultural Sciences, Plant Sciences, Ithaca, N.Y. 14850. Article: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments NVD, The Netherlands. Intended use of Article: The article is intended to be used for research involving various aspects of ultrastructural studies in different organisms.

The main areas of research will be the following:

1. Fine structure of cytoplasmic microfilaments in enlongating plants cells, and of P-protein in the sieve elements of phloem;

2. Fate of DNA in differentiating and mature sieve elements;

3. Alterations in chloroplast membranes during cold acclimation of spinach plants;

4. Comparative ultrastructure studies of the ascospore in the wild type and mutant strains of the fungus, Neurospora crassa.

The article will be used for educational purposes in the following courses:

(1) Electron microscopy for Biologists—an introductory course in electron microscopy that will include most conventional techniques and the principle of an electron microscope.

(2) Advanced Electron Microscopy for Biologists—a course aimed to familiarize students with advanced techniques, such as freeze-fracturing, autoradiography at the EM level, cytochemistry, high resolution electron microscopy, and nucleic acid visualization, and

(3) Problem Course in Electron Microscopy—an advanced course for which the above two courses are a prerequisite.

Comments: No comments have been received with respect to this application.

Decision: Application denied. An instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reasons: This application is a resubmission of Docket Number 74-00045-33-46040 which was denied without prejudice to resubmission on December 13, 1973 for information deficiencies. In reply to Question 8 in this submission the applicant alleges that the foreign article provides the following specifications that are pertinent to his intended purposes and are not possessed by the most closely comparable domestic instrument or apparatus:

(1) Routine resolution of better than 5 Angstroms;

(2) Low beam current without undue loss of image brightness (which the applicant states is preferred for high resolution electron microscopy because high beam currents can deteriorate the fine architecture of macromolecules and render them useless for high resolution work);

(3) Specimen pump-down time of 6 seconds;

(4) Multiple grid specimen holder, necessary because several specimen grids will be examined by one operator;

(5) Maximum number of photographic frames at one time without any reduction in frame size, and capability to accept more than one camera at a time for greater photographic productivity (capacity);

(6) Fast and simple alignment of the illuminating systems; and

(7) Availability of good service.

At the time the article was ordered, two domestically manufactured electron microscopes were available, the Model ETEM-101 (a relatively simple, low resolution instrument (10Å), manufactured by Elektros Incorporated, and the Model EMU-4C, supplied by the Adam David Company.

The Department of Health, Education, and Welfare (HEW) advises in its memoranda dated June 14 and December 17, 1974, that the Model EMU-4C electron microscope is the most closely comparable domestic instrument. HEW further advises that the applicant provides no pertinent specification within the meaning of § 701.2(n) of the regulations upon which duty-free entry could be based. As to the specific allegations of the applicant in reply to Question 8, in the order listed above, the following is noted:

(1) HEW advises that the EMU-4C and the article guarantee equal resolution, viz, 5 Angstroms.

(2) The EMU-4C provides a high intensity grid cap for greater illumination and contrast at high resolution as well as equivalent resolution and illumination to that of the article. We note that at equal illumination specimen damage is equal. Accordingly, HEW advises that low beam current is not established as a pertinent feature.

(3) HEW advises that the specimen change time is a convenience and therefore, is not pertinent.

(4) The EMU-4C has a multiple grid specimen holder.

(5) The specifications for the article attached to this docket states that all 3 cameras can be used in any sequence without breaking the vacuum giving a total load of 106 exposures. The applicant states he ordered the article with the plate camera only. Accordingly, any advantages that might be conferred by 35 and 70 millimeter cameras cannot be considered in our determination of scientific equivalency in accordance with §§ 701.2(d) and 701.6(a)(3) of the regulations. Moreover, HEW advises that the photographic capacity of the article is a convenience and not pertinent.

(6) HEW advises that the fast and simple alignment of the illuminating systems of the article is a convenience and therefore, not pertinent.

(7) HEW also advises that the availability of good service is a convenience and thus, not pertinent.

For the foregoing reasons, we find that the Model EMU-4C electron microscope is of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials)

A. H. STUART,
Director,
Special Import Programs Division.

[FR Doc.75-4893 Filed 2-21-75;8:45 am]

LAFAYETTE COLLEGE

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00103-33-46040. Applicant: Lafayette College, Easton, Pa. 18042. ARTICLE: Electron Microscope, Model EM 201. Manufacturer: Philips Electronic Instruments, The Netherlands. Intended use of Article: The article is intended to be used in two major areas of research: host-parasite interrelationships and interactions; cytological effects of exposure to various agents, e.g., herbicides, in both animals and plants. Normal and pathologic invertebrate tissues will be studied with particular emphasis upon developmental stages of parasites and upon the tissues of their host. Another area of study concerns the ultrastructural pathology of the gerbil testis and epididymis after administration of antifertility drugs. A botanical study concerns the fine structure of plant cell organelles treated with herbicides. The article will also be used for educational purposes in the following courses:

General Physiology, Advanced Genetics, Microbiology, Biology of Vascular Plants, Parasitology, Developmental Biology, Independent Study, Thesis (Honors).

Comments: No comments have been received with respect to this application.

Decision: Application denied. An instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States.

Reason: This application is a resubmission of Docket Number 74-00307-33-46040 which was denied without prejudice to resubmission on May 22, 1974 for informational deficiencies. In reply to Question 8 in this submission the applicant alleges the following specifications are pertinent to his intended purposes and are not possessed by the most closely comparable domestic instrument or apparatus:

(1) The image remains centered throughout the magnification range with no further adjustments than changes in beam intensity. This feature includes permitting magnification changes without a polepiece change.

(2) A single condenser lens that yields a resolution of better an 3.4Å. The single condenser lens system, with fewer controls than a double condenser system, offers the great advantage of simplicity of operation for the inexperienced and permits speedy column alignment.

(3) Availability of a eucentric goniometer stage. The goniometer stage allows a full 360° vertical axis and ±60° horizontal rotation while the image remains centered. This stage makes stereophotography without image displacement possible.

(4) A specimen airlock chamber mechanism in which it is almost impossible to jam the specimen holder.

(5) Use of three cameras without breaking the vacuum by simply using a selector switch.

XUM
V 40 37
FEB 24 75
XUM

(6) Capacity for accommodating a TV unit for teaching purposes:

(7) Liquid nitrogen anticontamination cold trap, which is important in the examination of biological or other inherentiy "dirty" specimens.

(8) A single unit that occupies just over 11 square feet. At the time the article was ordered, two domestically manufactured electron microscopes were available, the model ETEM 101, a relatively simple, low resolution instrument (10Å) manufactured by Elektros Incorporated, and the Model EMU-4C, supplied by the Adam David Company.

The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated December 16, 1974, that the Model EMU-4C electron microscope is the most closely comparable domestic instrument. HEW further advises that the applicant provides no pertinent specification within the meaning of § 701.2 (n) of the regulations upon which duty-free entry could be based. As to the specific allegations of the applicant in reply to Question 8, in the order listed above, the following is noted:

(1) The article provides a magnification range of 1500 to 200,000X without a pole-piece change. The EMU-4C provides a magnification range of 1400 to 240,000X without a pole-piece change. HEW advises that a pole-piece change is not involved for equal magnification range; and, in any event, the magnification capability of the article, including the image-centering requirements, is a convenience and, therefore, is not pertinent within the meaning of § 701.2(n) of the regulations.

(2) The EMU-4C provides the option of either a double condenser lens system or a single condenser lens system. Both the EMU-4C and the article provide equivalent guaranteed resolution (5Å). Moreover, HEW advises that this feature is a convenience and, thus, is not pertinent.

(3) The eucentric goniometer stage was not ordered by the applicant with the foreign article. According to §§ 701.2 (d) and 701.6(a) (3) of the regulations, it cannot be considered in the determination of scientific equivalency.

(4) HEW advises that the operation of the specimen airlock chamber of the article is a non-pertinent convenience.

(5) The foreign article was ordered with a plate camera system only. The EMU-4C is available with a plate camera system. Since no additional camera was ordered with the article, the possible use of 3 cameras cannot be considered in the determination of scientific equivalency according to §§ 701.2(d) and 701.6(a) (3) of the regulations. HEW advises that this feature is a non-pertinent convenience.

(6) The TV unit for the article was not ordered with the article and therefore cannot be considered in our determination of scientific equivalency according to §§ 701.2(d) and 701.6(a) (3) of the regulations.

(7) The EMU-4C provides a built in liquid nitrogen anti-contamination device. Moreover, HEW advises that the feature is a non-pertinent convenience.

(8) HEW advises that the smaller space requirement of the foreign article is a non-pertinent convenience.

For the foregoing reasons, we find that the Model EMU-4C is of equivalent scientific value to the foreign article for such purposes as this article is intended to be used.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials)

LAMONT-DOHERTY GEOLOGICAL OBSERVATORY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00143-56-17500. Applicant: Lamont-Doherty Geological Observatory of Columbia University, Palisades, New York 10964. Article: Recording Current Meters Model 4. Manufacturer: Ivar Aanderaa, Norway. Intended use of Article: The articles will be used to measure the flow of water near the ocean bottom at a point near the Continental Shelf break in the Ross Sea, Antarctica.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article is a self-contained instrument which provides the capabilities for recording current speed and direction, water temperature, conductivity (salinity) and internally recording the appropriate data on magnetic tape.

The National Oceanic and Atmospheric Administration (NOAA) advised in its memorandum dated December 23, 1974 that the capabilities described above are pertinent to the purposes for which the article is intended to be used. NOAA also advised that it knows of no domestically manufactured instrument of equivalent scientific value to the foreign article for the applicant's intended use.

MASSACHUSETTS INSTITUTE OF TECHNOLOGY

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00169-01-86300. Applicant: Massachusetts Institute of Technology, 77 Massachusetts Avenue, Cambridge, Mass. 02139. Article: Rheovibron Dynamic Viscoelastometer, DDV-II-C. Manufacturer: Toyo Measuring Instruments Ltd., Japan. Intended use of article: The article is intended to be used in studies of the dynamic viscoelastic response of polymeric biomaterials over a wide temperature range at several fixed frequencies. The article will also be used in the course Chemical Engineering 1067, Polymer Science Laboratory to give graduate students and qualified under-graduates first-hand experience in the synthesis and mechanical characterization of polymeric materials and to introduce them to more commonly used instruments of industrial polymer laboratories.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides capabilities for subjecting high polymer specimens to tensile vibrations at frequencies up to 110 Hertz and for measuring the real and imaginary components of Young's Modules. The National Bureau of Standards (NBS) advises in its memorandum dated January 31, 1975 that the capabilities described above are pertinent to the applicant's intended use. NBS also advises that it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended use.

[FR Doc.75-4898 Filed 2-21-75;8:45 am]

UNIVERSITY OF HAWAII AT HILO

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and

the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00113-33-46040. Applicant: University of Hawaii at Hilo, P.O. Box 1357, Hilo, Hawaii 96720. Article: Electron Microscope, Model EM-9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of Article: The article is intended to be used to train students (undergraduate) in the techniques of electron microscopy, to familiarize them with the appearance of biological structures at the ultrastructural level, and to enable them to attempt limited research projects in collaboration with members of the faculty as a part of their training. The organisms to be studied are of marine origin obtainable in Hilo Bay, that will include both normal and pathological specimens.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, was being manufactured in the United States at the time the foreign article was ordered (August, 1973).

Reasons: This application is a resubmission of Docket Number 74-00232-33-46040 which was denied without prejudice to resubmission on April 19, 1974 for informational deficiencies. The applicant requires an electron microscope which is suitable for the instruction of undergraduates in basic electron microscopy including correlation of identical fields and structures as seen in the light microscope. The foreign article is a relatively simple, medium resolution electron microscope providing 7 Angstroms (Å) point-to-point resolution, an accelerating voltage of 60 kilovolts (KV), and low distortion magnifications at 140-60,000x with 140 to 1000x in the normal microscope range which permits an overlap of light and electron-microscopy. The article is also designed for confident use [through ease of operation] by beginning students with a minimum of detailed programming.

Domestic instruments available at the time the initial application was received were the Model EMU-4C, supplied by Adam David Company and the Model ETEM-101 manufactured by Elektros Incorporated. The Model EMU-4C is a relatively complex instrument designed for the use of an experienced operator which provides low distortion magnifications at 500X and higher. The Model ETEM-101 is a relatively simple low resolution instrument (10Å point to point). The Department of Health, Education, and Welfare (HEW) advises in its memorandum dated January 9, 1975 that for the applicant's intended uses (1) a 60 KV accelerating voltage for adequate illumination (2) a maximum overlap of the optical (microscope) range (140X magnification) and (3) simplicity and ease of operation are pertinent. HEW also advises that the Model EMU-4C is too complex for the applicant's educational purposes. In addition, HEW advises that the Model ETEM-101 does not provide an equal overlap of the optical magnification range (140X magnification micrographs) or 60 KV accelerating voltage.

We, therefore, find that neither the Model EMU-4C nor the Model ETEM-101 was of equivalent scientific value to the foreign article for such purposes as the article is intended to be used at the time the initial application was received by Customs.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

(Catalog of Federal Domestic Assistance Program No. 11.105, Importation of Duty-Free Educational and Scientific Materials)

Director, Special
Import Programs Division.

[FR Doc.75-4894 Filed 2-21-75;8:45 am]

UNIVERSITY OF MIAMI

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00108-01-07500. Applicant: Rosentiel School of Marine & Atmospheric Science, University of Miami, 10 Rickenbacker Causeway, Miami, Florida 33149. Article: Microcalorimeter. Manufacturer: Techneurop, Canada. Intended use of article: The article is intended to be used to measure the heats of mixing and dilution of electrolyte solutions to the required precision and accuracy (1 cal mol^{-1}).

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides the capabilities of making direct measurements of heats of mixing (when the amounts of the two solutions being mixed are approximately equal) and of making heat measurements over a continuous range of compositions. The National Bureau of Standards (NBS) advises in its memorandum dated January 21, 1975 that the capabilities described above are pertinent to the applicant's intended purposes. NBS also advises that it knows of no domestic calorimeter of equivalent scientific value to the foreign article for the applicant's intended use.

UNIVERSITY OF WASHINGTON

Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Education, Scientific, and Cultural Materials Importation Act of 1966 (Pub. L. 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 FR 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C. 20230.

Docket Number: 75-00170-55-02000. Applicant: University of Washington, Studies in Marine Hydrodynamics, Department of Oceanography, Seattle, Washington 98195. Article: Oceanic Hot Film Anemometer Probe. Manufacturer: Canadian Thin Films Ltd., Canada. Intended use of Article: The article will be used in conjunction with an electronic constant temperature system to study the process of momentum exchange near the density interface of a salt wedge estuary. The objectives to be pursued in the course of these investigations will include determination of the fine scale structure of the turbulent velocity fluctuations, as well as their correlations and their spatial distribution with respect to the density interface.

Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article provides resistance to corrosion in seawater. The National Bureau of Standards (NBS) advises in its memorandum dated January 29, 1975 that the capability described above is pertinent to the applicant's intended studies which are to be conducted in a chemically corrosive environment (due to the presence of seawater). NBS further advises that it knows of no domestic instrument of equivalent scientific value to the foreign article for the applicant's intended use.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Center for Disease Control

OCCUPATIONAL SAFETY AND HEALTH

Request for Information on Certain Chemical Agents

Section 20(a)(3) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 669(a)(3)) provides that the Secretary of Health, Education, and Welfare, on the basis of information available to him, shall develop criteria dealing with toxic materials which will describe exposure levels that are safe for various periods of employment. Section 22(c) of the Act authorizes the National Institute for Occupational Safety and Health (NIOSH) to develop recommended occupational safety and health standards and to perform all functions of the Secretary of Health, Education, and Welfare, under sections 20 and 21 of the Act. NIOSH is proposing to develop criteria documents and recommended occupational health standards on the following substances:

1. Acetylene.
2. Chlorine.
3. Ethylene Dichloride.
4. Fluorine.
5. Formaldehyde.
6. Hydrogen Fluoride.
7. Isopropanol.
8. Methanol.
9. Parathion (ethyl).
10. Phenol.
11. Phosgene.
12. Phosphine.
13. Phosphoric Acid.
14. Phosphorus.
15. Tetrachloroethylene.
16. 1,1,1-Trichloroethane.

Each criteria document will include among other items an evaluation of available information relative to the areas listed below.

Any person having information or data in any of the areas listed below, or in other areas considered relevant to the establishment of a safe and healthful occupational environment involving these substances is requested to submit such information, with accompanying documentation to Acting Director, Office of Research and Standards Development, NIOSH, 5600 Fishers Lane, Rockville, MD 20852 within 90 days.

1. Establishment of safe occupational environment levels for such agents including levels for acute and chronic exposure to airborne concentrations of the chemical agents as well as safe practices concerning direct contact with such agents.

2. Establishment of biologic standards, i.e., the levels of such agents, metabolites, or other effects of exposure which may be present within man without his suffering ill effects taking into consideration (a) the correlation of airborne concentrations of, and extent of exposure to such substances with effects on specific biological systems of man such as the circulatory, respiratory, urinary, and nervous system, and (b) the analytical methods for determining the amount of the substance which may be present within man.

3. Engineering controls, including ventilation, environmental temperature, humidity, and housekeeping and sanitation procedures, with attention to the technological feasibility of such controls.

4. Specifications for the conditions under which personal protective devices should be required.

5. Methodology, including instrumentation, for air sampling and sample analysis of chemical agents and methodology for measuring levels of exposure to physical agents.

6. The need for medical examinations for workers exposed to such agents, the frequency of such examinations, and the specific diagnostic tests which should be used and the rationale of their selection.

7. Work practices or procedures which may be instituted for control of the workplace environment in normal operations and those which may be instituted when environmental levels are temporarily exceeded or where peak concentrations of chemical agents in man are reached.

8. The types of records concerning occupational exposure to such agents that employers should be required to maintain.

9. Warning devices and labels which should be required for the prevention of occupational diseases and hazards caused by such agents.

All information received concerning these substances will be available for public inspection after the development of the respective criteria document.

Dated: February 18, 1975.

EDWARD J. BAIER,
Acting Director, National Institute for Occupational Safety and Health.

Office of Education

ADVISORY COMMITTEE ON ACCREDITATION AND INSTITUTIONAL ELIGIBILITY

Meeting

Notice is hereby given, pursuant to Pub. L. 92-463, that the next meeting of the Advisory Committee on Accreditation and Institutional Eligibility will be held on March 12-14, 1975, at 9 a.m. local time, at the Sheraton-National Motor Hotel, Columbia Pike and Washington Boulevard, Arlington, Virginia.

The Advisory Committee on Accreditation and Institutional Eligibility is established pursuant to section 253 of the Veterans' Readjustment Assistance Act (Chapter 33, Title 38, U.S. Code). The Committee is established to advise the Commissioner of Education in fulfilling his statutory obligations to publish a list of nationally recognized accrediting agencies and associations which he determines to be reliable authorities concerning the quality of training offered by educational institutions and programs. It also serves to advise the Commissioner in fulfilling his statutory obligation to publish a list of State agencies which he has determined to be reliable authorities concerning the quality of public postsecondary vocational education in their respective State, pursuant to section 438(b) of the Higher Education Act of 1965, as amended by Pub. L. 92-318.

The meeting shall be open to the public from 9-11 a.m. and from 3-5 p.m. on March 12, and from 9 a.m.-12 noon on March 13 for presentations by representations of nationally recognized and State agencies which have petitions for recognition pending before the Committee, and for consideration of policy items pertaining to accreditation and institutional eligibility.

Under the authority of section 10(d) of the Federal Advisory Committee Act (Pub. L. 92-463) and clauses (4) and (6) of subsection (b) of section 552 of Title 5 of the United States Code, the meeting will be closed to the public from 11 a.m.-3 p.m., March 12, and from 1 p.m., March 13 to 2:30 p.m. March 14. Closure of the meeting is to allow a free and frank discussion of the pending petitions for recognition and for renewal of recognition by accrediting and State approval agencies. These petitions typically contain financial information about institutions that has been given in confidence and the Committee, in order to evaluate the performance of the petitioning agencies, may wish to discuss such information. In addition, the petitions may occasionally contain information about the activities of individuals which the Committee believes should be discussed, as they relate to the performance of petitioning agencies, and which, in the judgment of the Committee and the Commissioner, would, if publicly disclosed, result in a clearly unwarranted invasion of the personal privacy of such individuals. These portions of the petitions are exempt from disclosure under 5 U.S.C. 552 (b)(4) and (6). A discussion of the petitioner and the working papers necessarily ranges back and forth from exempt and nonexempt materials, and the exempt portion cannot be separated out during the Committee's deliberation. Records shall be kept of all Committee proceedings, and these will be available in the offices of the Accreditation and Institutional Eligibility Staff, Rooms 4068 and 4069, Regional Office Building 3, 7th and D Streets SW., Washington, D.C.

Signed at Washington, D.C. on February 10, 1975.

JOHN R. PROFFITT,
Director, Accreditation and Institutional Eligibility Staff, Office of Education.

CALIFORNIA

Approval of Application for Title I Audit Appeal

Notice is hereby given that, pursuant to the notice establishing the Title I Audit Hearing Board (37 FR 23002, October 27, 1972), an application for an appeal before the Board has been received from the State of California and it has met the jurisdictional requirements of section 5 of the Notice establishing the Board. The appeal involves the allowability of specified expenditures of funds under Title I of the ESEA during the period of November 3, 1966, through June 30, 1970, by the State Education Agency. The amount involved in the subject audit appeal is $27,988.

The prehearing conference will be held at 10:30 a.m. on March 11, 1975, in Room 4173, 400 Maryland Avenue SW., Washington, D.C. 20202.

Section 7 (c) of the Notice setting up the Board provides:

(c) Intervention by third parties. (1) Interested third parties may, upon application to the Board Chairman, intervene in proceedings conducted under this notice. Such application must indicate to the satisfaction of the Board Chairman that the intervener has information relative to the specific issues raised by the final audit determination and that such information will be useful to the Hearing Panel in resolving those issues.

(2) When third parties are given leave to intervene in accordance with subparagraph (1) above, such parties shall be afforded the same opportunities as other parties to present written materials, to participate in informal conferences, to call witnesses, to cross-examine other witnesses, and to be represented by counsel.

All such applications for intervention will be considered if received on or before March 3, 1975.

[FR Doc.75-4850 Filed 2-21-75;8:45 am]

GUARANTEED STUDENT LOAN PROGRAM

Interpretation Regarding Default Claims

Notice is hereby given of an interpretation of section 430(a) of the Higher Education Act of 1965, as amended (20 U.S.C. 1080(a)), as it pertains to loans which have been made under the Federal Insured Student Loan Program (FISLP) by institutions of higher education and vocational schools. Because a large number of interested parties, including students, educational institutions, banks and other financial institutions and lenders, might be affected by this interpretation, and because there has apparently been some uncertainty among such parties prior to now regarding the proper interpretation of section 430(a), it is believed that this interpretation should be promptly and broadly disseminated and that publication of this notice in the FEDERAL REGISTER will be a useful means of promoting such dissemination.

The question at issue is: What "amount of loss" will be reimbursed by the Office of Education on default claims properly filed by eligible lenders holding valid loans made by an educational institution, in cases in which either (i) there is an unpaid refund owed by the institution to the student borrower (or to an assignee of the student) or (ii) the student borrower has not been able to complete the academic training for which he obtained the loan, due to the financial failure of the educational institution leading to a termination of the course of study in which the student was enrolled.

Section 430(a) provides that, upon the default of a student borrower on a loan made under the FISL Program, the holder of the loan may file a default claim on such loan with the Office of Education and the holder shall be reimbursed for the amount of its loss on such loan. Section 430(a) further states that the amount of the loss shall be deemed to be the amount of the unpaid balance of the principal and interest on the loan, but does not indicate further what legal effect is to be given to defenses or offsets against the loan which would be available to the student borrower. We have consistently viewed the purpose of the program to be to insure the lender against defaults on the part of the student (e.g., his inability to make payments), rather than against defenses which the student has against the loan (e.g., fraud in the making of the loan or a failure of consideration). Consequently, section 430(a) is interpreted to mean that (i), if, as illustrated in statements (1) and (2) below, the unpaid refund is properly considered a payment by the student on the loan, the default claim will be reduced by any amount included therein which is attributable to such refund; and (ii) the termination of the course of study due to the financial failure of the educational institution results in a failure of consideration on the agreement, including the FISLP loan, between the students and the institution, and establishes a defense on the part of the student as to his obligation to repay which is good against the educational institution and, because the loan is not a negotiable instrument, against any subsequent holder of the loan.

The following statements illustrate how this interpretation applies to various fact situations:

1. If the educational institution which made the loan is the holder of the loan at the time of the default, the reimbursement on the default claim will be reduced by any amount included therein which is attributable to an unpaid refund owed to the student by that institution.

(20 U.S.C. 1080(a))

2. If the holder of the loan at the time of the default is an eligible lender other than the educational institution which made the loan, the reimbursement on the default claim will be reduced by any amount included therein which is attributable to an unpaid refund which had become due prior to the date on which the educational institution transferred the loan and proper notice of such transfer was given to the student.

(20 U.S.C. 1080(a))

3. If the holder of the loan at the time of the default is an eligible lender other than the educational institution which made the loan, the reimbursement on the default claim will *not* be reduced to take account of an unpaid refund which became due after the date on which the institution transferred the loan and the student was given proper notification of the transfer.

(20 U.S.C. 1080(a))

XUM
V 40 37
FEB 24 75
XUM

4. If a student is unable to complete the academic session for which he obtained the loan because the educational institution has failed financially leading to a termination of the course of study in which the student was enrolled, and if that educational institution is the holder of the loan at the time of the termination, the reimbursement on the institution's default claim will not be a greater proportion of the total loan than the proportion of the academic session which the student was able to complete. complete.

(20 U.S.C. 1080(a))

5. If a student is unable to complete the academic session for which he obtained the loan, because the educational institution has failed financially leading to a termination of the course of study in which the student was enrolled, and if the holder of the loan at the time of the termination is an eligible lender other than the educational institution, the reimbursement on the holder's default claim will not be a greater proportion of the total loan than the proportion of the academic session which the student was able to complete.

(20 U.S.C. 1080(a)).

As noted above, there has apparently been some uncertainty among interested parties as to the proper interpretation of section 430(a), particularly with respect to the situation covered by statement (5) of the illustration set forth herein. Thus, it is possible that lenders have relied in good faith upon an assumption that the statute would be interpreted differently as it applies to this situation. Consequently, in the exercise of his authority under section 432(a)(6) of the Higher Education Act (20 U.S.C. 1082 (a)(6)), the Commissioner has determined that the interests of the program would be best served if statement (5) of this interpretation is implemented only as to loans which are transferred by an educational institution to another eligible lender after February 21, 1975. For loans which have been transferred by an educational institution to an eligible lender (who is not affiliated with or controlled by such educational institution) prior to the date of this Notice, the holder of a valid loan will be reimbursed for the full unpaid balance of a properly filed default claim.

Statements (1), (2), (3) and (4) of this interpretation will be implemented as to all loans, irrespective of the date on which the loan was made or transferred.

It is the intention of the Commissioner and the Secretary of Health, Education, and Welfare to publish, as soon as practicable, regulations which will be consistent with this interpretation and will provide rules and procedures regarding its implementation.

(20 U.S.C. 1080(a) and 1082(a)(6))

Dated: February 21, 1975.

T. H. BELL,
Commissioner of Education.

DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

Assistant Secretary for Community Planning and Development

[Docket No. D-75-307]

REGIONAL ADMINISTRATORS, ET AL.

Redelegation of Authority With Respect to the Community Planning and Development Programs; Nomenclature Changes

To conform to the Housing and Community Development Act of 1974 (Title I of Pub. L. 93-383) the Department is reorganizing its Area Offices to facilitate and improve administration of various programs, particularly those involving Community Planning and Development and Housing Production and Mortgage Credit. In each Area Office the Operations Division is being abolished and its functions with regard to Community Planning and Development programs and functions (except environmental) will now be performed by a new Community Planning and Development Division. In addition, certain other organizational changes are being effected. This reorganization becomes effective upon publication.

Because certain Area Offices have not yet completed the necessary managerial and operating changes, titles and positions existing prior to reorganization are being retained during the transitional period, with all the duties, powers, and authority heretofore conferred upon those positions.

There was published, at 40 FR 6953, Feb. 18, 1975, Redelegation of Authority, a revision of 24 CFR, Part 200, Subpart D, with respect to the programs administered by the Assistant Secretary for Housing Production and Mortgage Credit-Federal Housing Commissioner (Federal Housing Administration).

Accordingly, the Redelegations of Authority listed below are changed as follows.

1. In the Redelegation of Authority at 35 FR 15408-09 dated October 2, 1970. Change "Metropolitan Planning and Development," lines 2 and 3 of the heading, to "Community Planning and Development."

a. In section A.III, Change "Assistant Secretary for Metropolitan Planning and Development," lines 6, 7 and 8 to "Assistant Secretary for Community Planning and Development."

b. In section A.V.1., Change "Assistant Regional Administrator for Metropolitan Planning and Development," lines 2-4, to "Assistant Regional Administrator for Community Planning and Development."

c. In section A.V.2., Change "Assistant Secretary or Deputy Assistant Secretary for Metropolitan Planning and Development and Assistant Regional Administrator for Metropolitan Planning and Development," lines 10, 11, 12, 14, 15 and 16, to "Assistant Secretary or Deputy Assistant Secretary for Community Planning and Development," and "Assistant Regional Administrator for Community Planning and Development."

d. In section B., Change "Assistant Regional Administrator for Metropolitan Planning and Development," lines 1-4 to "Assistant Regional Administrator for Community Planning and Development."

e. In section C.1., Change "Assistant Regional Administrator for Community Planning and Management," lines 1-3 to "Assistant Regional Administrator for Community Planning and Development."

f. In section C.2., Change "Assistant Secretary or Deputy Assistant Secretary for Community Planning and Management," and "Assistant Regional Administrator for Community Planning and Management," lines 9, 10, 11, 14, 15, and 16 to "Assistant Secretary or Deputy Assistant Secretary for Community Planning and Development," and "Assistant Regional Administrator for Community Planning and Development."

g. In section D., Change "Director and Deputy Director, Operations Division" in lines 6 and 7 to "Director and Deputy Director, Community Planning and Development Division."

h. In section E., Change "Assistant Regional Administrator for Community Planning and Management," lines 1-3 to "Assistant Regional Administrator for Community Planning and Development."

2. In the Redelegation of Authority at 39 FR 5352-3 dated February 13, 1974:

a. In section B. Change "Director and Deputy Director, Operations Division and Assistant Directors," lines 1, 2, 3, and 5, 6, 7 to "Director and Deputy Director, Community Planning and Development Division."

b. In section C.1., Change "Assistant Regional Administrator for Community Planning and Management," lines 1, 2, and 3 to "Assistant Regional Administrator for Community Planning and Development."

3. In the Redelegation of Authority at 35 FR 16102, 16103, 16104 dated October 14, 1970:

a. In section B., Change "Assistant Regional Administrator(s) for Renewal Assistance and Assistant Regional Administrator for Renewal and Housing Management," lines 1-9, to "Assistant Regional Administrators and Assistant Regional Administrator for Community Planning and Development."

b. In section D., Change "Director and Deputy Director, Production Division," lines 1-4, to "Director and Deputy Director, Community Planning and Development Division."

c. In section E., Change "Program Manager," lines 1-3 to "Director and Deputy Director, Community Planning and Development Division."

d. In section F., Change "Director and Deputy Directors, Production Division and Program Manager," lines 1, 2, and 3, and lines 5, 6, and 7, to "Director and Deputy Director, Community Planning and Development Division."

e. In section G., Change "Relocation Representative(s)," lines 2 and 3 to "Relocation Specialist(s)."

4. In the Redelegation of Authority at 37 FR 5712 dated March 18, 1972:

a. In section A.2., Change "Area Operations Division Director and Deputy Director," lines 1, 2, and 3 to "Director and Deputy Director, Community Planning and Development Division."

b. In section E., Change "Assistant Regional Administrator for Community Development," lines 2, 3, and 4 to "Assistant Regional Administrator for Community Planning and Development."

5. In the Redelegation of Authority at 37 FR 5072, dated March 9, 1972:

a. In section B., Change "Assistant Regional Administrator for Community Development," lines 2 and 3 and 5, 6 and 7 to "Assistant Regional Administrator for Community Planning and Development."

(Sec. 7(d), Department of HUD Act, 42 U.S.C. 3535(d)).

Effective date. This delegation of authority is effective on February 24, 1975.

DAVID O. MEEKER, JR.,
Assistant Secretary for Community Planning and Development.

Federal Disaster Assistance Administration

[FDAA-457-DR; Docket No. NFD-250]

TEXAS

Notice of Major Disaster and Related Determinations

Pursuant to the authority vested in the Secretary of Housing and Urban Development by the President under Executive Order 11795 of July 11, 1974, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285; and by virtue of the Act of May 22, 1974, entitled "Disaster Relief Act of 1974" (88 Stat. 143); notice is hereby given that on February 15, 1975, the President declared a major disaster as follows:

I have determined that the damage in certain areas of the State of Texas resulting from severe storms and flooding beginning about January 31, 1975, is of sufficient severity and magnitude to wararnt a major disaster declaration under Public Law 93-288. I therefore declare that such a major disaster exists in the State of Texas.

Notice is hereby given that pursuant to the authority vested in the Secretary of Housing and Urban Development under Executive Order 11795, and delegated to me by the Secretary under Department of Housing and Urban Development Delegation of Authority, Docket No. D-74-285, I hereby appoint Mr. Joe D. Winkle, HUD Region VI, to act as the Federal Coordinating Officer for this declared major disaster.

I do hereby determine the following area of the State of Texas to have been adversely affected by this declared major disaster:

The County of:

Nacogdoches

(Catalog of Federal Domestic Assistance No. 14.701, Disaster Assistance.)

Dated: February 18, 1975.

THOMAS P. DUNNE,
Administrator, Federal Disaster Assistance Administration.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

[Docket No. EX 75-9; Notice 1]

MARMON MOTOR CO.

Petition for Temporary Exemption From Motor Vehicle Safety Standards

Marmon Motor Company of Dallas, Texas, has applied for a temporary exemption from Motor Vehicle Safety Standard No. 121, *Air Brake Systems*, on the basis that compliance would cause it substantial economic hardship.

Marmon manufactured 574 trucks in 1974. It requests an exemption from Standard No. 121 until October 1, 1975. While it is in a position to conform with the standard on the effective date of March 1, 1975, an unexpected decline in sales in late 1974 and early 1975 has left Marmon with a substantial inventory of parts that cannot be used on trucks that comply with Standard No. 121. It estimates that 7 months will be needed to use these parts in production, and it will produce conforming vehicles thereafter. Marmon has over $116,000 invested in parts which are "totally redundant," and over $75,000 in rear axles which "may be reworked to compliance." The company's net profit in 1974 was $162,705 and it anticipates a net loss in 1975 of $112,091 even assuming the exemption is granted.

This notice of receipt of a petition for a temporary exemption is published in accordance with the NHTSA regulations on this subject (49 CFR 555.7), and does not represent any agency decision or other exercise of judgment concerning the merits of the petition.

Interested persons are invited to submit comments on the petition of Marmon Motor Company described above. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, S.W., Washington, D.C. 20590. It is requested but not required that five copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered. The application and supporting materials, and all comments received, are available for examination in the docket both before and after the closing date. Comments received after the closing date will also be filed and will be considered to the extent possible. Notice of action upon the petition will be published in the FEDERAL REGISTER.

Comment closing date: March 6, 1975.
Proposed effective date: Date of issuance of exemption.

(Sec. 3, Pub. L. 92-548, 86 Stat. 1159 (15 U.S.C. 1410); delegations of authority at 49 CFR 1.51 and 49 CFR 501.8)

Issued on: February 18, 1975.

ROBERT L. CARTER,
Associate Administrator, Motor Vehicle Programs.

Chief Administrative Law Judge.

[FR Doc.75-4922 Filed 2-21-75;8:45 am]

COMMISSION ON CIVIL RIGHTS

STATE ADVISORY COMMITTEES

Renewal

Pursuant to the authority of the Civil Rights Act of 1957 (42 USC 1975), as amended and the Federal Advisory Committee Act of 1972 (Pub. L. 92-463) and Office of Management and Budget Circular A-63 of March 1974, the Chairman of the Commission has determined that the renewal of the 50 State Advisory Committees and the District of Columbia Advisory Committee is in the public interest in connection with the performance of duties imposed on the Commission by law. The Committees are:

Alabama	Montana
Alaska	Nebraska
Arizona	New Hampshire
Arkansas	New Jersey
California	New Mexico
Colorado	New York
Connecticut	Nevada
Delaware	North Carolina
District of Columbia	North Dakota
Florida	Ohio
Georgia	Oklahoma
Hawaii	Oregon
Idaho	Pennslyvania
Illinois	Rhode Island
Indiana	South Carolina
Iowa	South Dakota
Kansas	Tennessee
Kentucky	Texas
Louisiana	Utah
Maine	Vermont
Maryland	Virginia
Massachusetts	Washington
Michigan	West Virginia
Minnesota	Wisconsin
Mississippi	Wyoming
Missouri	

The purposes and objectives of the State Advisory Committees, hereinafter referred to as the Committees, are declared to be to advise the United States Commission on Civil Rights, hereinafter referred to as the Commission, on matters pertaining to denials of the equal protection of the laws because of race, color, religion, sex, or national origin, or in the administration of justice, in the individual States, and to aid the Commission in its statutory ob-

XUM
V 40 37 FEB 24 75 XUM

ligation to serve as a national clearinghouse for civil rights information.

The Commission has established regional offices and directs that the regional offices shall be responsible for providing support services to the Committees. The directors of the regional offices shall be responsible to carry out the obligations and fulfill the responsibilities provided by the Federal Advisory Committee Act of 1972. The directors may delegate the day-to-day responsibilities and duties as appropriate.

The Committees shall be responsible for:

(a) advising the Commission in writing of any knowledge of information it has of any alleged deprivation of the right to vote and to have the vote counted, by reason of color, race, religion, sex, or national origin, or that citizens are being accorded or denied the right to vote in Federal elections as a result of patterns or practices of fraud or discrimination;

(b) advising the Commission concerning legal developments constituting a denial of equal protection of the laws under the Constitution, and as to the effect of the laws and policies of the Federal Government with respect of equal protection of the laws;

(c) advising the Commission upon matters of mutual concern in the preparation of reports of the Commission to the President and the Congress;

(d) receiving reports, suggestions, and recommendations from individuals, public and private organizations, and public officials upon matters pertinent to inquiries conducted by the Committees;

(e) initiating and forwarding advice and recommendations to the Commission upon matters which the Committees have studied;

(f) assisting the Commission in its clearinghouse function and in other matters in which the Commission shall request the assistance of the Committees; and

(g) attending, as observers, any public hearing or conference which the Commission may hold within the State.

The Committee shall meet periodically, as necessary to carry out duly authorized functions.

The Committees shall exist for a period not to exceed two years from the date of the filing of this charter at an estimated annual cost of $1,350,000.

Copies of the Committees' Charters have been filed with the appropriate committees of Congress, the Office of Management and Budget, and the Library of Congress. Inquiries or comments may be addressed to the Advisory Committee Management Officer, Mr. Isaiah T. Creswell, Jr., Office of Field Operations, U.S. Commission on Civil Rights, 1121 Vermont Avenue, NW., Room 600, Washington, D.C. 20425.

ARTHUR S. FLEMMING,
U.S. Commission on Civil Rights.

ENVIRONMENTAL PROTECTION AGENCY

[FRL 336-5; OPP-32000/192]

RECEIPT OF APPLICATIONS FOR PESTITCIDE REGISTRATION

Data To Be Considered in Support of Applications

On November 19, 1973, the Environmental Protection Agency (EPA) published in the FEDERAL REGISTER (38 FR 31862) its interim policy with respect to the administration of section 3(c)(1)(D) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended. This policy provides that EPA will, upon receipt of every application for registration, publish in the FEDERAL REGISTER a notice containing the information shown below. The labeling furnished by the applicant will be available for examination at the Environmental Protection Agency, Room EB-31, East Tower, 401 M Street, SW, Washington, DC 20460.

On or before April 25, 1975, any person who (a) is or has been an applicant, (b) believes that data he developed and submitted to EPA on or after October 21, 1972, is being used to support an application described in this notice, (c) desires to assert a claim for compensation under section 3(c)(1)(D) for such use of his data, and (d) wishes to preserve his right to have the Administrator determine the amount of reasonable compensation to which he is entitled for such use of the data, must notify the Administrator and the applicant named in the notice in the FEDERAL REGISTER of his claim by certified mail. Notification to the Administrator should be addressed to the Information Coordination Section, Technical Services Division (WH-569), Office of Pesticide Programs, 401 M Street, SW, Washington DC 20460. Every such claimant must include, at a minimum, the information listed in the interim policy of November 19, 1973.

Applications submitted under 2(a) or 2(b) of the interim policy will be processed to completion in accordance with existing procedures. Applications submitted under 2(c) of the interim policy cannot be made final until the 60 day period has expired. If no claims are received within the 60 day period, the 2(c) application will be processed according to normal procedure. However, if claims are received within the 60 day period, the applicants against whom the claims are asserted will be advised of the alternative available under the Act. No claims will be accepted for possible EPA adjudication which are received after April 25, 1975.

Dated: February 18, 1975.

JOHN B. RITCH, JR.,
Director, Registration Division.

APPLICATIONS RECEIVED (OPP-32000/192)

EPA File Symbol 2749-GEG. Aceto Chemical Co., Inc., Agr. Chem. Div., 126-02 Northern Blvd., Flushing NY 11368. BANDIT 2EC INSECTICIDE. Active Ingredients: Chlorpyrifos [0,0-diethyl 0-(3,5,6-trichloro-2-pyridyl) phosphorothioate] 22.5%; Xylene 45.0%. Method of Support: Application proceeds under 2(c) of interim policy. PM12

EPA File Symbol 2749-GOA. Aceto Chemical Co., Inc., Agr. Chem. Div. ALACHLOR TECHNICAL HERBICIDE. Active Ingredients: Alachlor (2-Chloro-2,6-diethyl-N-methoxymethyl) acetanilide) 97%. Method of Support: Application proceeds under 2(c) of interim policy. PM25

EPA File Symbol 2749-GOI. Aceto Chemical Co., Inc., Agr. Chem. Div. PROMETRYNE TECHNICAL HERBICIDE. Active Ingredients: Prometryne (2,4-bis(isopropylamino)-6-methylmercapto-S-triazine) 95%. Method of Support: Application proceeds under 2(c) of interim policy. PM25

EPA File Symbol 2749-RIO. Aceto Chemical Co., Inc., Agr. Chem. Div. CARBOFURAN 10G INSECTICIDE. Active Ingredients: Carbofuran (2,3-Dihydro-2,2-Dimethyl-7-Benzofuranyl Methylcarbamate) 10%. Method of Support: Application proceeds under 2(c) of interim policy. PM12

EPA File Symbol 2749-UNN. Aceto Chemical Co., Inc., Agr. Chem. Div. AMETRYNE TECHNICAL HERBICIDE. Active Ingredients: Ametryne (2-ethylamino-4-isopropylamino-6-methylthio-S-triazine) 95%. Method of Support: Application proceeds under 2(c) of interim policy. PM25

EPA File Symbol 32427-EE. Allied Services, Div. of Allied Equities Corp., 765 Landess Ave., Milpitas CA 95035. ALLIED SERVICES CHLORATE—BORATE I—1.3. Active Ingredients: Sodium chlorate 10.2%; Sodium metaborate, anhydrous 13.3%. Method of Support: Application proceeds under 2(c) of interim policy. PM25

EPA File Symbol 32427-EG. Allied Services, Div. of Allied Equities Corp., 765 Landess Ave., Milpitas CA 95035. ALLIED SERVICES CHLORATE—BORATE 2—.95 Active Ingredients: Sodium chlorate 19.7%; Sodium metaborate, anhydrous 9.4%. Method of Support: Application proceeds under 2(c) of interim policy. PM25

EPA File Symbol 255-RUT. American Flouride Corp., 17 Huntington Place, New Rochelle NY 10801. ROACH REPELLENT CONCENTRATE EMULSIFIABLE. Active Ingredients: Petroleum Distillate, N-Octyl Bicycloheptene Dicarboximide, 2-Hydroxyethyl N-Octyl Sulfide 90%. Method of Support: Application proceeds under 2(c) of interim policy. PM17.

EPA File Symbol 5481-RIN. Amvac Chem. Corp., 4100 E. Washington Blvd., Los Angeles CA 90023: EDB-85. Active Ingredients: Ethylene dibromide 84.5%. Method of Support: Application proceeds under 2(c) of interim policy. PM11

EPA File Symbol 5181-RIR. Amvac Chem. Corp., 4100 E. Washington Blvd., Los Angeles CA 90023. FUM-A-CIDE 30. Active Ingredients: Ethylene dibromide 36%; Chloropicrin 30%. Method of Support: Application proceeds under 2(c) of interim policy. PM11

EPA File Symbol 8612-IG. B & G Co., PO Box 20372, Dallas TX 75220. B & G CYTHION 57 EMULSIFIABLE CONCENTRATE. Active Ingredients: 0,0-Dimethyl Phosphorodithioate of Diethyl Mercaptosuccinate 57.0%; Xylene 38.0%. Method of Support: Application proceeds under 2(c) of interim policy. PM16

EPA File Symbol 19760-RE. Cardinal Chemical Co., 257 Duchess Turnpike, Poughkeepsie NY 12603. CARDINAL MALATHION ULV CONCENTRATE INSECTICIDE. Active Ingredients: Malathion 95.0%. Method of Support: Application proceeds under 2(c) of interim policy. PM16

EPA File Symbol 36147-E. Dadom Chemical Corp., 250 Delawanna Ave., Clifton NJ 07014. "TOUGH—SPA" SWIMMING POOL ALGABCIDE. Active Ingredients: Alkyl (C14 95%, C12 3%, C16 2%) Dimethyl Benzyl Ammonium Chloride Dihydrate 100%. Method of Support: Application proceeds under 2(b) of interim policy. PM31

EPA Reg. No. 464-448. The Dow Chemical Co., PO Box 1706, Midland MI 48640. DOW LORSBAN 4E INSECTICIDE. Active Ingredients: Chlorpyrifos [0,0-diethyl 0-(3,5,6-trichloro-2-pyridyl) phosphorothioate] 40.7%; Aromatic petroleum derivative solvent 22.8%. Method of Support: Application proceeds under 2(c) of interim policy. PM12

EPA File Symbol 3040-UN. Edco Chemical Co., Inc., 1048 Key Rd., PO Box 5877, Columbia SC 29202. EDCO SWIMMING POOL ALGAECIDE. Active Ingredients: Alkyl (C14 60%, C12 25%, C16 15%) Dimethyl Benzyl Ammonium Chloride 40%; Ethanol 8%. Method of Support: Application proceeds under 2(c) of interim policy. PM24

EPA File Symbol 1941-IN. Elco Manufacturing Co., 111 Third St., Pittsburgh PA 15215. ELCO VEGETATION KILLER EC. Active Ingredients: 2,4-bis (isopropylamino) 6-methoxy-s-triazine 1.5%; Petroleum distilate 94.0%. Method of Support: Application proceeds under 2(c) of interim policy. PM25

EPA Symbol 1941-TO. Elco Manufacturing Co., 111 Third St., Pittsburgh PA 15215. ELCO VEGETATION KILLER-15. Active Ingredients: 2,4-bis (isopropylamino)-6-methoxy-s-triazine 1.5%; Petroleum distillate 94.0%. Method of Support: Application proceeds under 2(c) of interim policy. PM25

EPA File Symbol 7368-GU. Georgia-Pacific, 2425 Malt Ave., Los Angeles CA 90040. GEORGIA-PACIFIC CALCIUM HYPOCHLORITE TABLETS. Active Ingredients: Calcium Hypochlorite 70%. Method of Support: Application proceeds under 2(c) of interim policy. PM34

EPA File Symbol 2311-RR. Haag Laboratories, Inc., 14010 S. Seeley, Blue Island IL 60406. QAT 1000. Active Ingredients: n-Alkyl 60% C14, 30% C16, 5% C12, 5% C18) dimethyl benzyl ammonium chlorides 5%; n-Alkyl (68% C12, 32% C14) dimethyl ethylbenzyl ammonium chlorides 5%. Method of Support: Application proceeds under 2(b) of interim policy. PM31

EPA File Symbol 12188-G. Holder's Pest Control Co., 5617 Southwest Freeway, Houston TX 77027. HOLDER'S ROACH & ANT SPRAY. Active Ingredients: Pyrethrins 0.052%; Piperonyl Butoxide, Technical 0.260%; Chlorpyrifos (0,0-diethyl 0-(3,5,6-trichloro-2-pyridyl) phosphorothioate 0.500%; Petroleum Distillate 98.736%. Method of Support: Application proceeds under 2(c) of interim policy. PM17

EPA File Symbol 12188-U. Holder's Pest Control Co., 5617 Southwest Freeway, Houston TX 77027. HOLDER'S PYRENONE-DIAZINON LIQUID. Active Ingredients: 0,0-Diethyl 0-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate 0.500%; Pyrethrins 0.052%; Piperonyl Butoxide, Technical 0.261%, Petroleum Distillate 98.608%. Method of Support: Application proceeds under 2(c) of interim policy. PM14

EPA File Symbol 4822-RUG. S. C. Johnson & Son, Inc., 1525 Howe St., Racine WI 53403. JOHNSON J-81 HOSPITAL CLEANER—GERMICIDAL. Active Ingredients: n-Alkyl (50% C14, 40% C12, 10% C16) dimethyl benzyl ammonium chlorides 4.375%; Octyl decyl dimethyl ammonium chloride 2.187%; Dioctyl dimethyl ammonium chloride 1.094%; Didecyl dimethyl ammonium chloride 1.094%; Tetra sodium ethylenediamine tetraacetate 3.600%; Isopropyl alcohol 1.750%. Method of Support: Application proceeds under 2(c) of interim policy. PM31

EPA File Symbol 2342-LG. Kerr-McGee Chemical Corp., Oklahoma City OK 73125. FASCO METHOMYL BAIT-2 INSECTICIDE. Active Ingredients: Methomyl (S-methyl-N-[(methylcarbamoyl)oxy] thioacetimidate) 2.00%. Method of Support: Application proceeds under 2(c) of interim policy. PM12

EPA File Symbol 34130-G. Leahchem Industries, Inc., PO Box 5504, Titusville FL 32760. LEACHEM INDUSTRIES, INC. KILLTEX-G-2 CONCENTRATE ROACH & ANT LIQUID SPRAY. Active Ingredients: Pyrethrins 0.052%; Piperonyl Butoxide, Technical 0.260%; Chlorpyrifos [0,0-diethyl 0-(3,5,6-trichloro 2-pyridyl) phosphorothioate] 0.500%; Petroleum Distillate 98.736%. Method of Support: Application proceeds under 2(c) of interim policy. PM12

EPA File Symbol 1021-RGUR. McLaughlin Gormley King Co., 8810 Tenth Ave., N, Minneapolis MN 55427. D-TRANS INTERMEDIATE 2051. Active Ingredients: d-trans Allethrin (allyl homolog of Cinerin I) 7.28%; Piperonyl butoxide, technical 36.37%; Petroleum distillate 19.99%. Method of Support: Application proceeds under 2(c) of interim policy. PM17

EPA File Symbol 2831-UO. Napasco International, P.O. Box 1219, Thibodaux LA 70301. MINTEX AEROSOL QUAT REFRESHER & SURFACE SPRAY DISINFECTANT. Active Ingredients: Alkyl (C14 58%, C16 28%, C12 14%) dimethyl benzyl ammonium chloride 0.25%; Essential oils 0.50%; Isopropanol 43.22%. Method of Support: Application proceeds under 2(c) of interim policy. PM31

EPA File Symbol 4389-TU. Pacific Chemical, Div. of Pace National Corp., 2500 7th Ave., S. Kirkland WA 98033. CHEMPROCIDE. Active Ingredients: Didecyl dimethyl ammonium chloride 7.5%. Method of Support: Application proceeds under 2(c) of interim policy. PM31

EPA File Symbol 10290-EI. Professional Chemical Co., Inc., 4517 Yale, Houston TX 77018. DEEP SOUTH SNAKE KILL. Active Ingredients: Chlorinated Camphene 10%. Method of Support: Application proceeds under 2(c) of interim policy. PM11

EPA File Symbol 572-EOI. Rockland Chemical Co., Inc., Passaic Ave., West Caldwell NJ 07006. ROCKLAND LAWN WEED KILLER "B". Active Ingredients: Butoxy propyl ester of 2,4-dichlorophenoxy acetic acid 16.35%; Butoxy propyl ester of Silvex [2-(2,4,5-trichlorophenoxy) propionic acid] 7.86%. Method of Support: Application proceeds under 2(c) of interim policy. PM23

EPA File Symbol 572-EOO. Rockland Chemical Co., Inc., PO Box 204, Caldwell NJ 07006. ROCKLAND PROFESSIONAL DIAZINON 14G. Active Ingredients: O,O-diethyl O-(2-isopropyl-6-methyl-4-pyrimidinyl) phosphorothioate 14.0%. Method of Support: Application proceeds under 2(c) of interim policy. PM14

EPA File Symbol 3743-GUA. Southern Agricultural Chemicals, Inc., PO Drawer 527, Kinstree SC 29556. ROYAL BRAND 34.6% NEMAGON GRANULES. Active Ingredients: 1,2-Dibromo-3-Chloropropane 32.8%; Related Compounds 1.8%. Method of Support: Application proceeds under 2(c) of interim policy. PM11

EPA File Symbol 9115-E. Sun-Ray Chemical Co., Industrial Maintenance Products Div., 119 West Jackson, Phoenix, AZ 85003. SUN-RAY CHEMICAL COMPANY HTX GRANULAR GERMICIDAL—CLEANER. Active Ingredients: n-alkyl (C14, C12, C16) dimethyl benzyl ammonium chlorides 3.20%. Method of Support: Application proceeds under 2 (c) of interim policy. PM31

EPA File Symbol 998-REE. Superior Chemical Products, Inc., 3942 Frankford Ave., Philadelphia PA 19124. SUPRO-65 (TOTAL RELEASE AEROSOL CAN). Active Ingredients: 2,2-dichlorovinyl dimethyl phosphate 6.5%; Related compounds 0.5%; Petroleum distillates 4.0%; Xylene 2.0%. Method of Support: Application proceeds under 2(c) of interim policy. PM13

EPA File Symbol 8727-0. Wright Chemical Corp., 1319 W. Wabansia, Chicago IL 60622. WRICO TSL. Active Ingredients: Sodium Dimethyldithiocarbamate 15%; Nabam (Disodium Ethylene Bisdithiocarbamate) 15%. Method of Support: Application proceeds under 2(c) of interim policy. PM33

EPA File Symbol 5427-LO. Wright Chemical Corp., 1319 W. Wabansia, Chicago IL 60622. WRICO TLR SLIMICIDE. Active Ingredients: Sodium Dimethyldithiocarbamate 27.6%; Sodium 2-Mercaptobenzothiazole 2.4%. Method of Support: Application proceeds under 2(c) of interim policy. PM33

REPUBLISHED ITEM

The following item represents a correction to the list of Applications Received published in the FEDERAL REGISTER February 10, 1975 (40 FR 6227).

FEDERAL COMMUNICATIONS COMMISSION

[Report 741]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

FEBRUARY 18, 1975.

Pursuant to §§ 1.227(b)(3) and 21.30 (b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) the close of business one business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cut-off dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's Rules, regulations and other requirements.

[2] The above alternative cut-off rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio and Local Television Tranmission Services (Part 21 of the Rules).

XUM V40-37 FEB 24 75 F XUM

by the end of the 60 day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to §§ 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
Secretary.

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

February 18, 1975.

21117–CD–P–75 City of Brookings Telephone Department (KAL878) C.P. to change antenna system and replace transmitter operating on 152.69 MHz. located at Grain Terminal Building corner 2nd Avenue and Front Street, Brookings, South Dakota.

21117–CD–P–75 Kidd's Communications, Inc. (KMA257) C.P. for additional facilities to operate on 152.15 MHz. at Location #10: 1813 H Street, Bakersfield, California.

21119–CD–P–(3)–75 Airsignal International, Inc. (KIF650) C.P. for additional facilities to operate on 35.58 MHz. at Loc. #2: 2323 Tyler Road, Shades Mtn., Birmingham, Alabama; same facilities at Loc. #3: 0.25 mi. S. of Wilson Rd. on top of Red Mtn., Birmingham, Alabama; same facilities at Loc. #4: Red Mtn. Ridge, Birmingham, Alabama.

21120–CD–P–75 Answerite Professional Telephone Service (KTR989) C.P. to relocate facilities operating on 152.06 MHz. to be located at 800 N. A1A Hwy., Indialantic, Florida.

21121–CD–P–75 Answerite Professional Telephone Service (KUC869) C.P. to relocate facilities operating on 152.24 MHz. to be located at 800 N. A1A Hwy, Indialantic, Florida.

21122–CD–P–75 WJBC Communications Corporation (KRM966) C.P. for additional facilities to operate on 158.70 MHz. to be located at Watterson Towers South, Normal, Illinois.

21123–CD–P–75 Edward J. Hughes d/b/a Professional Answering Service (NEW) C.P. for a new 1-way station to operate on 158.70 MHz. to be located at 336 Mt. Hope Avenue, Bangor, Maine.

21124–CD–P–75 New England Telephone and Telegraph Company (KCA669) C.P. to relocate facilities and change antenna system operating on 454.575 MHz. located at Asnebumskit Mountain 9000' ESE of Paxton, Massachusetts.

21125–CD–AL–(2)–75 Public Telephone Corporation Consent to Transfer of Control from Public Telephone Corporation, TRANSFEROR to Indiana Telephone Corporation, TRANSFEREE. Stations: KSJ803, Batesville, Indiana; KSJ804, Greensburg, Indiana.

20379–CD–P–(1)–75 (KKG415) South Central Bell Telephone Company, Shreveport, Louisiana. Amend to change proposed 454.500 and 454.650 MHz. facilities to 454.425 and 454.475 MHz. Also add frequencies 454.525, 454.575 and 454.625 MHz. at site described as 2.5 Miles Northwest of Haughton, Louisiana. All other particulars are to remain as reported on PN #720 dated September 23, 1974.

RURAL RADIO

60261–CR–P–75 The Mountain States Telephone and Telegraph Company (NEW) C.P. for a new rural subscriber station to operate on 459.40 MHz. to be located 9.2 miles northwest of Casper, Wyoming.

POINT-TO-POINT MICROWAVE RADIO SERVICE

2669–CF–P–75 American Telephone and Telegraph Company (KSV32) 3.8 Miles North of Chiefland, Florida. Lat. 29 31 50 N.-Long. 82 49 26 W. C.P. to add frequency 3970V MHz toward Gulf Hammock, Florida on azimuth 159 degrees/28 minutes.

2670–CF–P–75 Same (KSV33) 1.1 Miles NE of Gulf Hammock, Florida. Lat. 29 15 41 N.-Long. 82 42 32 W. C.P. to add frequency 4010V MHz toward Chiefland, Florida on azimuth 339 degrees/31 minutes; add 4010H MHz toward Dunnellon, Florida on azimuth 138 degrees/00 minutes.

2671–CF–P–75 Same (KSV34) 2.7 Miles South of Dunnellon, Florida. Lat. 2900 30 N.-Long. 82 27 00 W. C.P. to add frequency 3970H MHz toward Gulf Hammock, Florida on azimuth 318 degrees/08 minutes; add 3970V MHz toward Floral City, Florida on azimuth 161 degrees/45 minutes.

2672–CF–P–75 Same (KSV35) 3.6 Miles SW of Floral City, Florida. Lat. 28 42 48 N.—Long. 82 20 23 W. C.P. to add frequency 4010V MHz toward Dunnellon, Florida on azimuth 341 degrees/49 minutes; add 4010V MHz toward Dade City, Florida on azimuth 157 degrees/15 minutes.

2673–CF–P–75 Same (KSV36) 1.8 Miles North of Dade, Florida. Lat. 28 24 33 N.—Long. 82 11 44 W. C.P. to add frequency 3970V MHz toward Floral City, Florida on azimuth 337 degrees/20 minutes; add 3970V MHz toward Polk City, Florida on azimuth 109 degrees/48 minutes.

2686–CF–MP–75 Michigan Bell Telephone Company (KQA43) 1.3 Miles East and 1.3 Miles North of Potterville, Michigan. Lat. 42 38 44 N.—Long. 84 42 28 W. Mod. Permit to change polarization from Horizontal to Vertical on frequencies 3770, 3850, 3930 MHz; from Vertical to Horizontal on 3750 and 3830 MHz toward Lansing, Michigan on azimuth 51 degrees/47 minutes.

2687–CF–P–75 Same (KQM36) 221 N. Washington Street, Lansing, Michigan. Lat. 42 44 08 N.—Long. 84 33 09 W. Mod. Permit to change polarization from Horizontal to Vertical on frequencies 3730, 3810, and 3890 MHz; from Vertical to Horizontal on 3710 and 3790 MHz toward Potterville, Michigan on azimuth 231 degrees/54 minutes.

CORRECTION:

American Telephone and Telegraph Company. The List of Renewal Applications filed by the above named company, Public Notice dated December 2, 1974, should have included KSH90—Watertown Junction, Wisconsin. File Number: 8992–CF–R–75.

2479–CF–P–75 Southwestern Bell Telephone Company (KRR60) 11.5 Miles NE of Russellville off Highway 124, Arkansas. Lat. 35 24 09 N.—Long. 92 59 39 W. C.P. to change antenna system and location; correct emission designator and relocate passive reflector on frequencies 6241.7V and 10835.0V MHz toward Petit Jean, Arkansas via Russellville Passive Reflector.

2558–CF–R–75 The Bell Telephone Company of Pennsylvania. (KOC47) Location within the territory of the Grantee. Renewal of Radio Station License (Developmental) expiring March 11, 1975. Term: March 11, 1975 to March 11, 1976.

2648–CF–P–75 The Mountain States Telephone and Telegraph Company (KPQ57) 103 North Durbin Street, Casper, Wyoming. Lat. 42 51 01 N.—Long. 106 19 17 W. C.P. to add frequencies 3930V and 4010V MHz toward Casper Junction, Wyoming on azimuth 182 degrees/31 minutes.

2650–CF–P–75 Same (WAY20) 2.8 Miles SSE of Casper, Wyoming. Lat. 42 46 17 N.—Long. 106 19 34 W. C.P. to add frequencies 3690V and 3970V MHz toward Casper, Wyoming an azimuth 02 degrees/31 minutes.

2663–CF–P–75 American Telephone and Telegraph Company (KIL27) 3.5 Miles South of Hillsboro, North Carolina. Lat. 36 01 32 N.—Long. 79 07 15 W. C.P. to add frequency 4170H MHz toward Browns Summit, North Carolina on azimuth 291 degrees/37 minutes.

2664–CF–P–75 Same (KIL28) 0.5 Mile SW of Westover, North Carolina. Lat. 35 47 17 N.-Long. 78 43 35 W. C.P. to add frequency 3730V MHz toward Raleigh, North Carolina on azimuth 97 degrees/32 minutes; add 3730H MHz toward Hillsboro, North Carolina on azimuth 306 degrees/37 minutes.

2665–CF–P–75 Same (KJE58) 121 W. Morgan Street, Raleigh, North Carolina, Lat. 35 46-44 N.-Long. 78 38 30 W. C.P. to add frequency 4010V MHz toward Westover, North Carolina on azimuth 277 degrees/35 minutes.

2666–CF–P–75 Same (KID63) 51 Ivy Street, Atlanta, Georgia. Lat. 33 45 21 N.-Long. 84 23 10 W. C.P. to add frequency 3750H MHz toward Sawnee Mountain, Georgia on azimuth 21 degrees/31 minutes.

FEDERAL POWER COMMISSION

[Docket No. RI75–110]

RATE CHANGES

Order Providing for Hearing on and Suspension of Proposed Changes, and Allowing Changes To Become Effective Subject to Refund [1]

FEBRUARY 14, 1975.

Respondents have filed proposed changes in rates and charges for jurisdictional sales of natural gas, as set forth below.

The proposed changed rates and charges may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

The Commission finds: It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon hearings regarding the lawfulness of the proposed changes, and that the supplements herein be suspended and their use be deferred as ordered below.

The Commission orders: (A) Under the Natural Gas Act, particularly sections 4 and 15, the regulations pertaining thereto [18 CFR, Chapter I], and the Commission's rules of practice and procedure, public hearings shall be held concerning the lawfulness of the proposed changes.

(B) Pending hearings and decisions thereon, the rate supplements herein are suspended and their use deferred until date shown in the "Date Suspended Until" column. Each of these supplements shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Each Respondent shall comply with the refunding procedure required by the Natural Gas Act and § 154.102 of the regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplements, nor the rate schedules sought to be altered, shall be changed until disposition of these proceedings or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[1] Does not consolidate for hearing or dispose of the several matters herein.

REPORT OF SUPPLY AND REQUIREMENTS

Notice of Conference

FEBRUARY 12, 1975.

Pursuant to the agreement reached at the public meeting held on November 18, 1974, in the above-entitled proceeding, notice is hereby given that a meeting of the Staffs of the Federal Power Commission, Federal Energy Administration, and National Association of Regulatory Utility Commissioners will be held on February 24, 1975, at 10 a.m. at the offices of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C., 20426, Room No. 6200. The purpose of this meeting is to formulate expanded data collection forms, which will be noticed by this Commission in a new rulemaking proceeding. The expanded forms will be used to obtain needed curtailment information to aid each agency in meeting its responsibilities to alleviate the adverse effects caused by natural gas curtailments.

KENNETH F. PLUMB,
Secretary.

[FR Doc.75–5027 Filed 2–21–75;10:21 am]

FEDERAL RESERVE SYSTEM

AMERICAN BANCORPORATION, INC.

Order Approving Acquisition

American Bancorporation, Inc., St. Paul, Minnesota, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(1) of the Board's Regulation Y, to acquire all of the voting shares of Glasser-American Mortgage Company ("GAMC"), Englewood Cliffs, New Jersey, a proposed new company that would engage in the activities of a mortgage banker, including originating, selling, and servicing mortgage loans for its own account or for the accounts of others. Such activities have been determined by the Board to be closely related to banking (12 CFR 225.4(a)(1) and (3)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (39 FR 39912). The time for filing comments and views has expired, and the Board has considered the application and all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)).

Applicant, the fourth largest banking organization in Minnesota, controls five banks with aggregate deposits of $325 million, representing 2.6 percent of the total deposits in commercial banks in the State.[1] Applicant also engages in such nonbanking activities as personal property leasing, commercial finance, and insurance activities.

GAMC will operate out of an office in Englewood Cliffs, New Jersey, and will primarily serve the metropolitan New York market.[2] Competing in that market are 115 commercial banking organizations, at least 50 thrift institutions, and over 70 other firms which engage in the origination of mortgages. It would appear that no significant existing or future competition would be eliminated upon approval of the application. Moreover, entry by Applicant on a de novo basis into this field should produce benefits to the public by adding an additional competitor that offers this specialized service.

In its consideration of this application, the Board has examined a covenant not to compete contained in an employment

[1] All banking data are as of December 31, 1973, and reflect bank holding company formations and acquisitions approved through November 30, 1974.

[2] The metropolitan New York market includes New York City, all of Nassau, Putnam, Rockland, and Westchester Counties and western Suffolk County in New York, northern Bergen County, and eastern Hudson County in New Jersey, and part of Fairfield County in Connecticut.

XUM
V 40 37
FEB 24 75
XUM

agreement between GAMC and its proposed chief executive. The Board finds that the provisions of this covenant are reasonable in scope, duration, and geographic area, and are consistent with the public interest.

There is no evidence in the record indicating that consummation of the proposed transaction would result in any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects on the public interest.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the condition set forth in § 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

The transaction shall be made not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Minneapolis, pursuant to delegated authority.

By order of the Board of Governors,[1] effective February 12, 1975.[2]

[SEAL] THEODORE E. ALLISON,
Secretary of the Board.

[FR Doc.75-4889 Filed 2-21-75;8:45 am]

FIRST NATIONAL BANCORPORATION, INC.

Proposed Acquisition

The First National Bancorporation, Inc., Denver, Colorado, has applied, pursuant to section 4(c)(8) of the Bank Holding Company Act (12 U.S.C. 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y, for permission to acquire certain of the assets of The Grand Valley Agency, Grand Junction, Colorado. The proposed acquisition would be made directly by First Denver Insurance Agency, Inc., applicant's wholly-owned subsidiary. Notice of the application was published on November 20, 1974 in The Daily Sentinel, a newspaper circulated in Grand Junction, Colorado.

Applicant states that the proposed subsidiary would engage in the activities of selling credit life insurance and credit accident and health insurance in Grand Junction, Colorado at rates established by the State of Colorado. Such activities have been specified by the Board in § 225.4(a) of Regulation Y as permissible for bank holding companies, subject to Board approval of individual proposals in accordance with the procedures of § 225.4(b).

Interested persons may express their views on the question whether consummation of the proposal can "reasonably be expected to produce benefits to the public, such as greater convenience, increased competition, or gains in efficiency, that outweigh possible adverse effects, such as undue concentration of resources, decreased or unfair competition, conflicts of interests, or unsound banking practices." Any request for a hearing on this question should be accompanied by a statement summarizing the evidence the person requesting the hearing proposes to submit or to elicit at the hearing and a statement of the reasons why this matter should not be resolved without a hearing.

The application may be inspected at the offices of the Board of Governors or at the Federal Reserve Bank of Kansas City.

Any views or requests for hearing should be submitted in writing and received by the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, not later than March 18, 1975.

Board of Governors of the Federal Reserve System, February 13, 1975.

[SEAL] GRIFFITH L. GARWOOD,
Assistant Secretary of the Board.

[1] Voting for this action: Governor Sheehan, Bucher, Holland, and Coldwell. Voting against this action: Vice Chairman Mitchell. Absent and not voting: Chairman Burns and Governor Wallich.

[2] Dissenting Statement of Governor Mitchell filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or the Federal Reserve Bank of Minneapolis.

NATIONAL AERONAUTICS AND SPACE ADMINISTRATION

[75-9]

NASA RESEARCH AND TECHNOLOGY ADVISORY COUNCIL PANEL ON GENERAL AVIATION TECHNOLOGY

Meeting

The NASA Research and Technology Advisory Council Panel on General Aviation Technology will meet on March 12-14, 1975, at the NASA Ames Research Center, Moffett Field, California 94035. The meeting will be held in Conference Room 217 of Building 200. Members of the public will be admitted on a first-come, first-served basis, up to the seating capacity of the room, which is about 30 persons. All visitors must report to the Ames Research Center Receptionist in Building 200.

The NASA Research and Technology Advisory Council Panel on General Aviation Technology serves in an advisory capacity only. The current Chairman is Mr. John W. Olcott. There are 13 members. The following list sets forth the approved agenda and schedule for the March 12-14, 1975 meeting of the Panel on General Aviation Technology. For further information, please contact Mr. Roger L. Winblade, Area Code 202 755-2399.

MAR. 12, 1975

Time	Topic
9 a.m.	Welcoming remarks. (Purpose: to officially welcome the members of the General Aviation Technology Panel to their first meeting at the Ames Research Center.)
9.20 a.m.	Chairman's report. (Purpose: To summarize action taken at the Nov. 7-8, 1974, meeting of the Research and Technology Advisory Council and to describe the industry input to the NASA authorization hearings.)
10 a.m.	Report of the Executive Secretary. (Purpose: To brief the Panel on developments since the last meeting including policy, program and organizational changes, status and content of the fiscal year 1976 budget, fiscal year 1977 and beyond program initiatives, and NASA actions on past Panel recommendations.)
1 p.m.	Quiet, clean general aviation turbofan engine (QCGAT) program description. (Purpose: To obtain Panel review and recommendations on NASA program in technology development for QCGAT.)
1:30 p.m.	Report on piston engine emissions workshop. (Purpose: To provide the Panel a summary of the results of NASA, FAA, EPA, and industry workshop on emission reduction.)
2 p.m.	Hydrogen injection program description. (Purpose: To provide Panel with current status and plans for demonstrating the feasibility of the hydrogen injection concept on aircraft engines.)
2:15 p.m.	Langley Research Center status report. (Purpose: To brief the Panel on progress and accomplishments in the general aviation programs at the Langley Research Center since the last meeting.)
3:30 p.m.	Business jet noise measurement. (Purpose: To brief the Panel on the current status of the joint NASA/industry program to document business jet noise abatement effectiveness.)
4 p.m.	Flight Research Center status report. (Purpose: To brief the Panel on progress and accomplishments in the general aviation programs at Flight Research Center since the last meeting.)
4:15 p.m.	Panel summary. (Purpose: To provide an opportunity for comments and clarification of information presented during the day.)

MAR. 13, 1975

Time	Topic
8:30 a.m.	Avionics. (Purpose: To brief Panel on current status and progress of the Ames Research Center program in integrated avionics and to propose guidelines for a workshop in the avionics area.)
9:30 a.m.	Report on cooling drag reduction workshop. (Purpose: To provide the Panel with a summary of the results of the NASA/industry workshop on engine cooling drag reduction.)
10 a.m.	Airfoil optimization. (Purpose: To brief the Panel on the current status, progress and plans for the Ames Research Center program in computerized optimization of airfoils.)
10:45 a.m.	Stall/spin avoidance program description. (Purpose: To provide the Panel with a description of the current status, progress and plans for the Ames Research Center program in stall/spin avoidance.)
11:30 a.m.	Pilot training and simulation. (Purpose: to obtain Panel comments and recommendations on possible future NASA efforts in the general aviation pilot training and simulation area.)
1 p.m.	Tour of facility. (Purpose: To provide the Panel with the opportunity to observe and discuss the most prominent facilities available for use in conducting general aviation related research at the Ames Research Center.)
3 p.m.	System and configuration study efforts. (Purpose: To provide the Panel with a description of the accomplishments, capabilities and plans in system studies area at the Ames Research Center.)
4 p.m.	Panel summary. (Purpose: To provide an opportunity for comments and clarification of information presented during the day.)

MAR. 14, 1975

8:30 a.m.	Member reports and recommendations. (Purpose: To review meeting presentations and to develop final Panel recommendations.)
12 Noon	Adjournment.

BOYD C. MYERS,
Assistant Associate Administrator for Organization and Management, National Aeronautics and Space Administration.

NATIONAL ENDOWMENT FOR THE HUMANITIES

PUBLIC PROGRAMS PANEL

Meeting

FEBRUARY 18, 1975.

Pursuant to the provisions of the Federal Advisory Committee Act (Pub. L. 92-463) notice is hereby given that a meeting of the Public Programs Panel will meet at Washington, D.C. on March 20 and 21, 1975.

The purpose of the meeting is to review Humanities Program Grant proposals and Development Grant proposals that have been submitted to the Endowment for possible grant funding.

Because the proposed meeting will consider financial information and personnel and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy, pursuant to authority granted me by the Chairman's Delegation of Authority to Close Advisory Committee Meetings, dated August 13, 1973, I have determined that the meeting would fall within exemptions (4) and (6) of 5 U.S.C. 552(b) and that it is essential to close the meeting to protect the free exchange of internal views and to avoid interference with operation of the Committee.

It is suggested that those desiring more specific information contact the Advisory Committee Management Officer, Mr. John W. Jordan, 806 15th Street, NW., Washington, D.C. 20506, or call Area Code 202-382-2031.

JOHN W. JORDAN,
Advisory Committee, Management Officer.

NUCLEAR REGULATORY COMMISSION

[Docket No. 50-286]

CONSOLIDATED EDISON COMPANY OF NEW YORK, INC. (INDIAN POINT NUCLEAR GENERATING UNIT 3)

Hearing for Presentation of Data

The Atomic Safety and Licensing Board, in accordance with the Rules of Practice of the Commission, has inquired and determined the convenience and availability of the parties for the convening of a session of the proceeding for the presentation of data related to stipulation signed by all the parties.

Wherefore, it is ordered, In accordance with the Atomic Energy Act, as amended, and the rules of practice of the Commission,[1] that a public session of this proceeding shall convene at 2 p.m. on Monday, March 24, 1975 in the Regency Room of the Springvale Inn, 500 Albany Post Road, Croton-on-Hudson, New York 10520, for the purpose of presentation of data related to the stipulation signed by all parties.

Issued: February 18, 1975, Bethesda, Maryland.

ATOMIC SAFETY AND LICENSING BOARD,
SAMUEL W. JENSCH,
Chairman.

[FR Doc.75-4854 Filed 2-21-75;8:45 am]

[1] The Nuclear Regulatory Commission is the successor organization to the Atomic Energy Commission as provided by legislation enacted by the Congress in Pub. L. 93-438.

NATIONAL SCIENCE FOUNDATION

INTERAGENCY TASK FORCE ON INADVERTENT MODIFICATION OF THE STRATOSPHERE (IMOS)

Meeting

The Federal Interagency Task Force on Inadvertent Modification of the Stratosphere (IMOS) will hold a public meeting on February 27, 1975, from 9 a.m. to 4:30 p.m. in room 5104 at the New Executive Office Building, 726 Jackson Place, (17th Street and Pennsylvania Avenue) NW, Washington, D.C. This Task Force was recently established by the Council on Environmental Quality and the Federal Council for Science and Technology. Its first task will be to study the possible relationship of Freons (fluorochlorohydrocarbons) to future reductions in the ozone content of the stratosphere. The Task Force will prepare a public report in about four months which will (1) summarize atmospheric, medical, and ecological information on the subject, (2) evaluate possible economic impacts and alternatives available to the industry, (3) define potentially applicable authorities under which Federal actions can be taken, and (4) outline the proposed Federal program to resolve the issues.

The Task Force is comprised solely of Federal employees and officers and does not fall under the provisions of the Federal Advisory Committee Act (Pub. L. 92-463). However, the public is invited to attend this meeting as observers. Any persons wishing to attend this open meeting should contact either of the co-chairmen: Ms. Carroll Leslie Pegler, Science and Technology Policy Office, National Science Foundation, 1800 G Street, NW, Washington, D.C. 20550, telephone 202/632-7477; or Dr. Warren R. Muir, Council on Environmental Quality, 722 Jackson Place, NW., Washington, D.C. 20006, telephone 202/382-6854. Requests for information about this Task Force and/or the report of the IMOS should also be addressed to Ms. Pegler or Dr. Muir.

FRED K. MURAKAMI,
Committee Management Officer.

OFFICE OF MANAGEMENT AND BUDGET

CLEARANCE OF REPORTS

List of Requests

The following is a list of requests for clearance of reports intended for use in collecting information from the public received by the Office of Management and Budget on February 19, 1975 (44 U.S.C. 3509). The purpose of publishing this list in the FEDERAL REGISTER is to inform the public.

The list includes the title of each request received; the name of the agency sponsoring the proposed collection of information; the agency form number(s), if applicable; the frequency with which the information is proposed to be collected; the name of the reviewer or reviewing division within OMB, and an indication of who will be the respondents to the proposed collection.

The symbol (X) identifies proposals which appear to raise no significant issues, and are to be approved after brief notice through this release.

Further information about the items on this daily list may be obtained from the Clearance Office, Office of Management and Budget, Washington, D.C. 20503 (202–395–4529), or from the reviewer listed.

SECURITIES AND EXCHANGE COMMISSION

[70–5615]

AMERICAN ELECTRIC POWER COMPANY, INC.

Proposal To Issue and Sell Common Stock by Negotiation

FEBRUARY 14, 1975.

Notice is hereby given that American Electric Power Company, Inc. ("AEP"), 2 Broadway, New York, New York, 10004, a registered holding company, has filed a declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a) and 7 of the Act as applicable to the proposed transaction. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transaction.

AEP proposes to issue and sell up to 10,000,000 additional shares of its common stock, $6.50 par value ("stock") through a negotiated offering. AEP publicly announced its plans to sell the stock on January 28, 1975, and plans to consummate the sale prior to April 30, 1975, thus exempting the sale from the competitive bidding requirements of Rule 50 under the Act (Holding Company Act Release No. 18646).

Proceeds of the sale of the stock will be used by AEP to repay short-term borrowings and to make investments in its subsidiary companies through capital contributions or purchase of the subsidiaries' common stock. It is expected that at the time of the sale of the stock AEP will have outstanding short-term unsecured indebtedness in an aggregate amount not exceeding $150,000,000.

Fees and expenses to be incurred in connection with the proposed transaction will be supplied by amendment. It is stated that no state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

Notice is further given that any interested person may, not later than March 11, 1975, request in writing that a hearing be held on such matter stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the declaration, as filed or as it may be amended, may be permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

EQUITY FUNDING CORPORATION OF AMERICA

Suspension of Trading

FEBRUARY 14, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock, warrants to purchase the stock, 9½ percent debentures due 1990, 5½ percent convertible subordinated debentures due 1991, and all other securities of Equity Funding Corporation of America being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

Therefore, pursuant to section 15(c)(5) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from February 16, 1975 through February 25, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

[File No. 81–144]

GULF & WESTERN INTERNATIONAL N.V.

Application and Opportunity for Hearing

FEBRUARY 12, 1975.

Notice is hereby given that Gulf & Western International N.V. ("Applicant") has filed an application pursuant to section 12(h) of the Securities Exchange Act of 1934, as amended (the "1934 Act"), for a finding that an exemption from the requirement to file reports pursuant to section 13 of the 1934 Act would not be inconsistent with the public interest or the protection of investors.

Section 12(b) of the 1934 Act provides that an issuer may register securities on a national exchange by filing a registration statement with both the exchange and the Securities and Exchange Commission (the "Commission") which registration statement contains information as to the issuer and any person directly or indirectly controlling or controlled by the issuer as the Commission may require for the protection of investors or in the public interest.

Section 13 of the 1934 Act requires that issuers of securities registered pursuant to section 12 must file certain periodic reports with the Commission for the protection of investors and to insure fair dealing in the security.

Section 12(h) of the 1934 Act empowers the Commission to exempt, in whole, or in part, any issuer or class of issuers from the registration or periodic reporting provisions under section 12 and 13, if the Commission finds, by reason of the number of public investors, amount of trading interest in the securities, the nature and extent of the activities of the issuer, income or assets of the issuer or otherwise, that such exemption is not inconsistent with the public interest or the protection of investors.

The Applicant states, in part:

(1) Applicant, a Netherland Antilles corporation, is a wholly-owned subsidiary of Gulf & Western Industries, Inc. ("G&W"), a diversified company with numerous subsidiaries. Applicant operates as an overseas financing vehicle for G&W and its subsidiaries.

(2) In 1968, Applicant issued $50 million, principal amount of 5 percent Guaranteed Sinking Fund Debentures due 1988 (the "Debentures").

(3) The Debentures are convertible into shares of G&W common stock and all obligations of Applicant under the Debentures, including the obligation to pay principal and interest, are fully guaranteed by G&W.

(4) Since Applicant's Debentures were listed on the New York Stock Exchange in 1968, there has hardly been any trading in the Debentures.

(5) The Debentures are listed on the New York Stock Exchange and are registered pursuant to section 12(b) of the 1934 Act.

In the absence of an exemption, Applicant is required to file certain periodic reports with the Commission pursuant to section 13 of the 1934 Act because the Debentures are registered with both the New York Stock Exchange and the Commission.

Accordingly, Applicant believes that the exemption order requested by it is appropriate in view of the fact that a trading market in its Debentures is unlikely to become sufficiently significant; and that since the Debentures are guaranteed by and convertible into common stock of G&W, it is the reports of G&W filed pursuant to Section 13 of the 1934 Act and not those of Applicant in which Debenture holders and investors would be primarily interested.

For a more detailed statement of the information presented, all persons are referred to said application which is on file in the offices of the Commission at 500 North Capitol Street, Washington, D.C.

Notice is further given that any interested person not later than March 10, 1975, may submit to the Commission in writing his views or any substantial facts bearing on this application or the desirability of a hearing thereon. Any such communication or request should be addressed to: Secretary, Securities and Exchange Commission, 500 North Capitol Street NW., Washington, D.C. 20549 and should state briefly the nature of the interest of the person submitting such information or requesting the hearing, the reason for such request, and the issues of fact and law raised by the application which he desires to controvert. At any time after said date, an order granting the application in whole or in part may be issued upon request or upon the Commission's own motion.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
Secretary.

SOUTHERN COMPANY AND SOUTHERN SERVICES, INC.

Proposal To Place Lien; Exception From Competitive Bidding

FEBRUARY 14, 1975.

Notice is hereby given that the Southern Company ("Southern"), Perimeter Center East, Atlanta, Georgia 30346, a registered holding company, and Southern Services, Inc. ("SSI"), a wholly-owned non-utility subsidiary, have filed an application-declaration with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating sections 6(a), 7 and 12(b) of the Act and Rules 45 and 50(a)(5) promulgated thereunder as applicable to the following proposed transactions. All interested persons are referred to said application-declaration, which is summarized below, for a complete statement of the proposed transactions.

SSI, which conducts business as a service company for the Southern system, maintains its offices in a building in Birmingham, Alabama. Construction costs of the building were financed through indebtedness incurred pursuant to Commission authorization. (See Holding Company Act Release No. 17780, November 27, 1972). The currently outstanding principal amount of such indebtedness is $11,640,000. In order to prepay this indebtedness, SSI proposes to place a first mortgage on its office building to secure a loan for $12,000,000.

It is proposed that the mortgage loan will be for a term of 35 years, will bear interest at 9¾ percent per annum, and will be payable in equal annual installments of $1,210,800. SSI will have the option to prepay the loan at any time at the principal amount thereof plus a 10 percent premium if prepaid in years one through five, 7 percent in years six through ten, 3 percent in year eleven, and thereafter at a premium declining at the rate of ½ of 1 percent each year to a minimum of 1 percent if prepayment is made in the fifteenth year or thereafter. It is expected that the proposed arrangements will afford the mortgage lender a right of first refusal to provide permanent financing for any expansion of the office building.

The application-declaration states that SSI solicited proposals from other lenders, including an insurance company, four mortgage bankers and two

XUM
V 40 37 FEB 24 75 XUM

realtors. The various financial institutions were invited to develop both mortgage and sale/leaseback proposals. In all, seven mortgage and eleven sale/leaseback proposals were received and evaluated by SSI. On the basis of various relevant factors, the applicants-declarants have determined that the proposal herein set forth is the most economical and advantageous to Southern and SSI. Accordingly, SSI requests that the proposed transaction be excepted from the competitive bidding requirements of Rule 50 pursuant to clause (a)(5) thereof inas much as the proposed transaction does not lend itself as a practical matter to competitive bidding, and because the procedures employed by SSI in soliciting competitive proposals assured the maintenance of competitive conditions.

As an inducement for the proposed loan to SSI, Southern proposes to unconditionally guarantee the performance by SSI with respect to SSI's obligations under the mortgage.

The fees, commissions and expenses incurred and to be incurred in connection with the proposed transactions will aggregate $199,000, which includes a $120,000 commission payable to Brooks, Harvey & Co., Inc., an associate of Morgan Stanley & Co. Incorporated, to obtain a loan committment upon the terms hereinbefore described. It is stated that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than March 11, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be addressed personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicants-declarants at the above-stated address, and proof of service (by affidavit or, in case of an attorney-at-law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as filed or as it may be amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS, *Secretary.*

SOUTHERN ELECTRIC GENERATING CO.

Proposal To Issue and Sell Notes to Banks

FEBRUARY 14, 1975.

Notice is hereby given that Southern Electric Generating Company ("SEGCO"), P.O. Box 2641, Birmingham, Alabama 35291, a public-utility subsidiary company of The Southern Company, a registered holding company, has filed an application with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating section 6(b) of the Act as applicable to the proposed transactions. All interested persons are referred to the application, which is summarized below, for a complete statement of the proposed transactions.

SEGCO proposes to issue and sell short-term notes to banks from time to time on or prior to December 31, 1975, in an aggregate amount outstanding at any one time or not in excess of $10,000,000. The notes to banks will be dated on the date of borrowing, will mature in not more than nine months, will bear interest at a rate per annum not to exceed 125 percent of the prime rate in effect at the lending bank, and will be prepayable, in whole or in part, without penalty or premium. The names of the lending banks, the maximum amount to be borrowed from each, and a statement regarding compensating balances are to be furnished by amendment.

It is stated that the proceeds from the bank notes will be used by SEGCO to reimburse its treasury for expenditures in connection with the financing of certain pollution control facilities, to pay at maturity from time to time outstanding bank notes incurred for such purpose, and for other corporate purposes. It is further stated that, unless otherwise authorized by the Commission, any bank notes of SEGCO outstanding after December 31, 1975, will be reduced to an amount equal to or less than the 5 percent exemption provided by section 6(b) of the Act from the proceeds of the sale of pollution control revenue bonds (See File No. 70-5534.).

The fees and expenses to be incurred in connection with the proposed transactions are estimated at $5,000. It is represented that the proposed bank notes are subject to the jurisdiction of the Alabama Public Service Commission, the State commission of the State in which SEGCO is organized and doing business; and that no other State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions.

Notice is further given that any interested person may, not later than March 10, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application, as filed or as it may be amended, may be granted as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

STANDARDS ADVISORY COMMITTEE ON COKE OVEN EMISSIONS

Change in Starting Time of Meeting

The March 4, 1975, meeting of the Standards Advisory Committee on Coke Oven Emissions, announced in the FEDERAL REGISTER on Friday, February 7, 1975, (40 FR 5829) will begin at 9 a.m. instead of 10 a.m. as originally announced.

This change was agreed to by the Committee at a public meeting on February 12, 1975, in order to provide more time for public presentations which are scheduled for that day.

In all other respects, the details of the February 7, 1975, Notice of Meeting remain the same. Any questions may be addressed to: Ms. Jeanne Ferrone, U.S. Department of Labor, Committee Management Office, 1726 M Street, NW, Room 200, Washington, D.C. 20210. Phone: (202) 961-3181.

Signed in Washington, D.C. this 18th day of February 1975.

JOHN STENDER, *Assistant Secretary of Labor.*

IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

Elimination of Gateway Letter Notices

FEBRUARY 13, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065(a)), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before March 6, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 114019 (Sub-No. E387), filed May 31, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper* and *paper products*, between those points in Michigan on and south of a line beginning at Lake Michigan and extending along Michigan Highway 21 to junction Michigan Highway 66, thence along Michigan Highway 66 to the Illinois-Michigan State line on the one hand, and, on the other, points in West Virginia. The purpose of this filing is to eliminate the gateway of Hamilton, Ohio.

XUM V40137 FEB 24 75 XUM

No. MC 114019 (Sub-No. E388), filed May 31, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen edible meats, meat products* and *meat by-products*, and *frozen edible articles distributed by meat packinghouses* as described in the Appendix to the report in *Modification of Permits of Motor Contract Carriers of Packinghouse Products*, 46 M.C.C. 23, from points in New York, New Jersey, Rhode Island, Connecticut, and Massachusetts to Bismarck, Salt Lake City, Utah, and points in Oregon and Washington. The purpose of this filing is to eliminate the gateway of Cleveland, Ohio.

No. MC 114019 (Sub-No. E389), filed May 31, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper* and *paper products*, between points in Wisconsin and Iowa on the one hand, and, on the other, Sparrows Point and Baltimore, Maryland, New York, and points within 30 miles thereof, points in that part of New Jersey, Delaware, and Maryland, which are located within 30 miles of Philadelphia, points in West Virginia and points in Pennsylvania on and south of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to its junction with Pennsylvania Highway 53, thence Pennsylvania Highway 53 to its junction with Interstate Highway 80, thence along Interstate Highway 80 to its junction with U.S. Highway 11, thence along U.S. Highway 11 to its junction with U.S. Highway 6, thence along U.S. Highway 6 to the Pennsylvania-New Jersey State line. Restriction: The authority above is restricted to the transportation of the commodities described therein when moving from, to or between paper or paper products, manufacturing plants or warehouses, or other facilities of such plants, and when moving from, to or between warehouses, and wholesale, retail or chain outlets of food business houses, or when moving from, to or between food processing plants, or warehouses or other facilities or such plants. The purpose of this filing is to eliminate the gateways of Gary, Indiana, and Hamilton, Ohio.

No. MC 114019 (Sub-No. E391), filed, May 31, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Paper* and *paper products*, between Sparrows Point and Baltimore, Maryland, New York, New York and points within 30 miles of New York, New York, points in those parts of New Jersey, Delaware, and Maryland, which are located within 30 miles of Philadelphia, Pennsylvania, points in West Virginia on and south of U.S. Highway 50, and points in Pennsylvania on and south of a line beginning at the Maryland-Pennsylvania State line and extending along U.S. Highway 22 to the Pennsylvania-New Jersey State line, on the one hand, and, on the other, points in Missouri on, west and south of a line beginning at the Iowa-Missouri State line and extending along U.S. Highway 63 to junction Missouri Highway 6, thence along Missouri Highway 6 to its junction with U.S. Highway 65, thence along U.S. Highway 65 to its junction with U.S. Highway 24, thence over U.S. Highway 24 to the Kansas-Missouri State line. (2) Between Sparrows Point and Baltimore, Maryland, New York, New York, and points within 30 miles of New York, New York, points in those parts of New Jersey, Delaware, and Maryland which are located within 30 miles of Philadelphia, Pennsylvania, points in West Virginia and those points in Pennsylvania on and south of a line beginning at the Ohio-Pennsylvania State line and extending along U.S. Highway 22 to junction U.S. Highway 11, thence over U.S. Highway 11 to its junction with U.S. Highway 6, thence over U.S. Highway 6 to the Pennsylvania-New Jersey State line, on the one hand, and, on the other, points in Minnesota. Restriction: The authority in (1) and (2) above is restricted to the transportation of the commodities described therein when moving from, to or between paper or paper products, manufacturing plants or warehouses, or other facilities of such plants, and when moving from, to or between warehouses, and wholesale, retail or chain outlets of food business houses, or when moving from, to or between food processing plants, or warehouses or other facilities or such plants. The purpose of this filing is to eliminate the gateways of Hamilton, Ohio, and Muscatine, Iowa.

No. MC 114019 (Sub-No. E392), filed May 31, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asbestos, asphalt, automobile body panels, asphalt flooring blocks, fibreboard* and *pulpboard* (impregnated with asphalt), *asbestos wall boards, bituminized burlap, tin roofing caps, carpet lining, cement* (in packages), *metal clamps, metal clips, cotton cloth* (saturated with asbestos), *roof coating* (with asbestos, pitch tar, or resin base), *conduits, creosote in packages, eave filler strips, roofing felt, asphalt composition flashing blocks, asbestos* or *felt paper insulating material, asbestos millboard, mineral wool, high temperature bonding mortar* or *cement* (in packages), *nails, asbestos packing, asphaltum, coal tar, asbestos,* and *coal tar paint, roofing paper, paving joints, cement pipe* containing *asbestos fiber, roofing pitch, asphalt paving planks asbestos ridge rolls, roofing, asbestos sheathing, shingles, sheathings, shorts, asbestos* and *asphalt siding, concrete slabs, tin straps, roofing tar, asphalt floor tile, wood preservatives*.

(A) From Sparrows Point and Baltimore, Maryland, New York, and points within 30 miles of New York, points in those parts of New Jersey, Delaware, and Maryland which are located within 30 miles of Philadelphia, points in that part of New York on and west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to junction New York Highway 245, thence along New York Highway 245 to junction New York Highway 36, thence along New York Highway 36 to junction New York Highway 21, thence along New York Highway 21 to junction New York Highway 17 along New York Highway 17 to the New York-Pennsylvania State line, points in Pennsylvania, and those in West Virginia on and east of a line beginning at the Ohio-West Virginia State line and extending along West Virginia Highway 14 to junction with U.S. Highway 21, thence along U.S. Highway 21 to points in Wisconsin and Iowa. (B) from Sparrows Point and Baltimore, New York, and points within 30 miles of New York, points in those parts of New Jersey, Delaware and Maryland which are located within 30 miles of Philadelphia, Pennsylvania, points in that part of New York on and west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to its junction with New York Highway 245, thence along New York Highway 245 to junction New York Highway 36, thence along New York Highway 36 to junction New York Highway 21.

Thence along New York Highway 21 to junction New York Highway 17, and thence along New York Highway 17 to the New York-Pennsylvania State line, and points in Pennsylvania on, north and east of a line beginning at the Pennsylvania-Ohio State line, and extending along Pennsylvania Highway 65 to its junction with U.S. Highway 30, thence over U.S. Highway 30 to its junction with Interstate Highway 76, thence over Interstate Highway 76 to its junction with Pennsylvania Highway 326, thence over Pennsylvania Highway 326 to the Pennsylvania-Maryland State line, to points in Illinois on, and north and west of a line beginning at the Illinois-Indiana State line and extending along Interstate Highway 80 to its junction with U.S. Highway 66, thence along U.S. Highway 66 to the Illinois-Michigan State line, and those points in Missouri on, north and west of a line beginning at the Illinois-Missouri State line and extending along U.S. Highway 66 to its junction with Missouri Highway 19, thence along Missouri Highway 19 to the Missouri-Arkansas State line. The purpose of this filing is to eliminate the gateways of Akron, Ohio, and Whiting, Indiana.

No. MC 114019 (Sub-No. E393), filed May 31, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Printing paper*, from Glen Falls, N.Y., to points in Illinois, Indiana, the Lower Peninsula of Michigan, Wisconsin, Iowa, Minnesota, Missouri, Nebraska, Kansas, those points in West Virginia on and west of a line beginning at the West Virginia-Pennsylvania State line and extending along U.S. Highway 119 to its junction with U.S. Highway 250, thence along U.S. Highway 250 to junction U.S. Highway 219, thence along U.S. Highway 219 to the West Virginia-Virginia State line. The purpose of this filing is to eliminate the gateways of Spring Grove, Pa., and East Liverpool, Ohio.

No. MC 114019 (Sub-No. E394), filed May 31, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise, as is dealt in by wholesale or retail food business houses*, and in connection therewith equipment materials and supplies used in the conduct of such business, from Sparrows Point and Baltimore, Md., New York, N.Y., and points within 30 miles of New York, N.Y., points in those parts of New Jersey, Delaware, and Maryland, which are within 30 miles of Philadelphia, Pa., points in that part of New York on and west of a line beginning at Lake Ontario and extending along U.S. Highway 15 to junction New York Highway 245, thence along New York Highway 245 to junction New York Highway 36, thence along New York Highway 36 to junction New York Highway 21, thence along New York Highway 21 to junction New York Highway 17, thence along New York Highway 17 to the New York-Pennsylvania State line, points in West Virginia on and east of a line beginning at the Ohio-West Virginia State line and extending along West Virginia Highway 14 to its junction with U.S. Highway 119, thence along U.S. Highway 119 to the Kentucky-West Virginia State line, and in Pennsylvania, to points in Iowa and Wisconsin. The purpose of this filing is to eliminate the gateways of Akron, Ohio, and Gary, Ind.

No. MC 114019 (Sub-No. E395), filed May 31, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products, and meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), in tank vehicles), from the facilities of Sterling, Colorado Beef Packers at or near Sterling, Colo., and the facilities of American Beef Packers, Inc., at or near Fort Morgan, Colo., to (a) those points in Wisconsin on and east of a line beginning at the Wisconsin-Illinois State line and extending along Wisconsin Highway 104 to its junction with U.S. Highway 12, thence along U.S. Highway 12 to its junction with U.S. Highway 16, thence along U.S. Highway 16 to its junction with U.S. Highway 151, thence along U.S. Highway 151 to its junction with U.S. Highway 41, thence along U.S. Highway 41 to the Wisconsin-Michigan State line, (b) those points in Kentucky on and east of Interstate Highway 65, (c) points in Illinois on and east of a line beginning at the Illinois-Wisconsin State line and extending along U.S. Highway 51 to its junction with Interstate Highway 75, thence along Interstate Highway 75 to the Illinois-Indiana State line, and (d) Bowling Green, Ky., and Nashville, Tenn. The purpose of this filing is to eliminate the gateways of Hammond and Jeffersonville, Ind., and Union City, Ohio.

No. MC 114019 (Sub-No. E397), filed May 31, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glassware, glass containers, and closures therefor and accessories therefor, and paper cartons* used in the packing and shipping of glass articles from Richmond, Ind., to points in Douglas, Franklin, Johnson, Leavenworth, Miami, and Wyandotte Counties, Kans., and Cass, Clay, Henry, Jackson, Johnson, Lafayette, Pettis, Ray, and Saline Counties, Mo., which are within 88 miles of Kansas City, Mo. The purpose of this filing is to eliminate the gateway of Kansas City, Mo.

No. MC 114019 (Sub-No. E398), filed May 19, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products* and *meat by-products*, and *articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except commodities in bulk), in tank vehicles, and hides, in mechanically refrigerated vehicles, from Mason City, Iowa to Cincinnati, Ohio and those points in Kentucky on and east of Interstate Highway 65. The purpose of this filing is to eliminate the gateway of Union City, Ohio.

No. MC 114019 (Sub-No. E399), filed May 19, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Meats, meat products and meat by-products, and articles distributed by meat packinghouses*, as described in Sections A and C of Appendix I to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 and 766 (except hides and commodities in bulk), from Coffeyville, Kans., to points in Maine, New Hampshire, Vermont, Delaware (except Wilmington), Maryland (except points on and west of U.S. Highway 15), points in West Virginia and Virginia on and east of a line beginning at the Ohio-West Virginia State line and extending along U.S. Highway 35 to junction Interstate Highway 64, thence along Interstate Highway 64 to junction Interstate Highway 77, thence along Interstate Highway 77 to junction U.S. Highway 460, thence along U.S. Highway 460 to junction Virginia Highway 8, thence along Virginia Highway 8 to the Virginia-North Carolina State line. The purpose of this filing is to eliminate the gateways of Pittsburgh and West Alexander, Pa.

No. MC 114019 (Sub-No. E403), filed May 22, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Synthetic plastics, dry*, in containers, from Delaware City, Kentucky Highway 55 to the junction of U.S. Highway 127, thence along U.S. Highway 127 to the Kentucky-Tennessee State line, and those in Ohio on, south, and east of a line beginning at the Michigan-Ohio State line, thence along U.S. Highway 25 to the junction of Ohio Highway 29, thence along Ohio Highway 29 to the Indiana-Ohio State line. The purpose of this filing is to eliminate the gateway of Union City, Ohio.

No. MC 114019 (Sub-No. E403), filed May 22, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Synthetic plastics, dry*, in containers, from Delaware City,

No. MC 114019 (Sub-No. E405), filed May 22, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Synthetic plastics, dry*, in containers, from Delaware City,

Delaware, to points in North Dakota, South Dakota, Nebraska, Kansas, Minnesota, and Iowa. The purpose of this filing is to eliminate the gateway of the facilities of Owens-Illinois Glass Company, at or near Gas City, Indiana.

No. MC 114019 (Sub-No. E406), filed May 22, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Glass containers* and *accessories* therefore, and *paper cartons* used in the packing or shipping of glass containers, from Winchester, Indiana, to points in Montana, Wyoming, Colorado, North Dakota, South Dakota, Nebraska, Minnesota, and points in that part of Iowa on and north of a line beginning at the Illinois-Iowa State line, and extending along Iowa Highway 22 to junction Iowa Highway 92, thence along Iowa Highway 92 to junction Iowa Highway 14, thence along Iowa Highway 14 to junction U.S. Highway 34, thence along U.S. Highway 34 to junction U.S. Highway 59, thence along U.S. Highway 59 to the Missouri-Iowa State line. The purpose of this filing is to eliminate the gateway of the facilities of Anchor Hocking Glass Corporation at or near Gurnee, Illinois.

No. MC 114019 (Sub-No. E422), filed May 22, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 S. Pulaski Rd., Chicago, Ill. 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asbestos, asphalt, automobile body panels, asphalt flooring blocks, fibreboard and pulpboard* (impregnated with asphalt), *asbestos wall boards, bituminized burlap, tin roofing caps, carpet lining, cement* (in packages), *metal clamps, metal clips, cotton cloth* (saturated with asbestos), *roof coating* (with asbestos, pitch tar, or resin base), *conduits, creosote* in packages, *eave filler strips, roofing felt, asphalt composition flashing blocks, asbestos* or *felt paper insulating material, asbestos millboard, mineral wool, high temperature bonding mortar* or *cement* (in packages), *nails, asbestos packing, asphaltum, coal tar, asbestos*, and *coal tar paint, roofing paper, paving joints, cement pipe containing asbestos fiber, roofing pitch, asphalt paving planks, asbestos ridge rolls, roofing, asbestos sheathing, shingles, sheathings, shorts, asbestos* and *asphalt siding, concrete slabs, tin straps, roofing tar, asphalt floor tile, wood preservatives*, from those points in Ohio on and south of U.S. Highway 40, to points in Wisconsin, the Upper Peninsula of Michigan, points in that part of Missouri on, north, and west of a line beginning at the Arkansas-Missouri State line and extending along Missouri Highway 19 to junction Missouri Highway 161, thence along Missouri Highway 161 to junction U.S. Highway 54, thence along U.S. Highway 54 to the Illinois-Missouri State line, points in that part of Illinois north and west of a line beginning at the Illinois-Missouri State line and extending along U.S. Highway 54 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Illinois Highway 54, thence along Illinois Highway 54 to junction U.S. Highway 24, thence along U.S. Highway 54 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction Illinois Highway 54, thence along Illinois Highway 54 to junction U.S. Highway 24, thence along U.S. Highway 24 to the Illinois-Indiana State line. The purpose of this filing is to eliminate the gateway of Whiting, Ind.

No. MC 114019 (Sub-No. E423), filed June 5, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, and liquid commodities in bulk, between those points in Ohio south of U.S. Highway 40, on the one hand, and, on the other, Youngstown, Ohio. The purpose of this filing is to eliminate the gateway of Wheeling, West Virginia.

No. MC 114019 (Sub-No. E424), filed June 5, 1974. Applicant: MIDWEST EMERY FREIGHT SYSTEM, INC., 7000 South Pulaski Road, Chicago, Illinois 60629. Applicant's representative: Arthur J. Sibik (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities*, except those of unusual value, classes A and B explosives, livestock, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment, from points in that part of Ohio on and east of a line beginning at the Ohio-West Virginia State line and extending along U.S. Highway 40 to junction Ohio Highway 9, thence along Ohio Highway 9 to junction Ohio Highway 148, thence along Ohio Highway 148 to junction Ohio Highway 145, thence along Ohio Highway 145 to junction Ohio Highway 556, thence along Ohio Highway 556 to junction Ohio Highway 26, thence along Ohio Highway 26 to junction unnumbered highway to the Ohio-West Virginia State line. The purpose of this filing is to eliminate the gateways of Wheeling, West Virginia, and Akron, Ohio.

No. MC 114211 (Sub-No. E620), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, between points in Iowa on the one hand, and, on the other, points in that part of Oklahoma on and west of a line beginning at the Kansas-Oklahoma State line extending along Oklahoma Highway 34 to junction U.S. Highway 283, thence along U.S. Highway 283 to the Oklahoma-Texas State line, with no transportation for compensation on return except as otherwise authorized, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment a special handling, and further restricted against the transportation of commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Omaha, and Beatrice, Nebraska, and Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E621), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a common carrier, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, between points in Wyoming, on the one hand, and, on the other, points in that part of Minnesota on and north of a line beginning at the Iowa-Minnesota State line extending along Interstate 35 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 14, thence along U.S. Highway 14 to the Minnesota-South Dakota State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and further restriction against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Nassau, Minnesota.

No. MC 114211 (Sub-No. E622), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery* and *parts* thereof, from points in Illinois, to points in that part of Nevada on and west of a line beginning at the Oregon-Nevada State line extending along U.S. Highway 95 to junction Interstate Highway 80, thence along Interstate Highway 80 to the California-Nevada State line, to points in that part of Wyoming on and north of a line beginning at the South Dakota-Wyoming State line extending along Wyoming Highway 116 to junction U.S. Highway 16, thence along U.S. Highway 16 to the Idaho-Montana State line and to points in that part of California on and north of a line beginning at the Pacific Ocean extending along Interstate Highway 80 to the California-Nevada State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E623), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, road making machinery* and *contractors' equipment* and *supplies*, from points in Illinois, to points in that part of Wyoming on and north of a line beginning at the South Dakota-Wyoming State line extending along Wyoming Highway 116 to junction U.S. Highway 16, thence along U.S. Highway 16 to the Idaho-Montana State line, points in that part of California on and north of a line beginning at the Pacific Ocean extending along Interstate Highway 80 to the California-Nevada State line, points in that part of Nevada on and west of a line beginning at the Oregon-Nevada State line extending along U.S. Highway 95 to junction Interstate Highway 80, thence along Interstate Highway 80 to the California-Nevada State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Minneapolis, Minnesota.

No. MC 114211 (Sub-No. E624), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, from points in that part of Wyoming on, north and west of a line beginning at the South Dakota-Wyoming State line extending along U.S. Highway 16 to junction Wyoming Highway 450, thence along Wyoming Highway 450 to junction Wyoming Highway 387, thence along Highway 387 to junction U.S. Highway 87, thence along U.S. Highway 87 to junction Wyoming Highway 220, thence along Wyoming Highway 220 to junction Wyoming Highway 287, thence along Wyoming Highway 287 to junction Interstate Highway 80, thence along Interstate 80 to Wyoming 789, thence along Wyoming Highway 789 to the Wyoming-Colorado State line to points in that part of Missouri on and east of a line beginning at the Iowa-Missouri State line extending along U.S. Highway 63 to the Missouri-Arkansas State line and to points in Indiana, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling restricted against the transportation of those commodities and described in *Mercer Extension Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Omaha, Nebraska, and Ft. Dodge and Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E625), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, between points in that part of Wyoming on and west of a line beginning at the Nebraska-Wyoming State line extending along U.S. Highway 26 to junction Wyoming Highway 120, thence along Wyoming 120 to the Wyoming-Montana State line, on the one hand, and, on the other, points in Illinois and points in that part of Iowa on and east of a line beginning at the Nebraska-Iowa State line extending along U.S. Highway 30 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction Iowa Highway 237, thence along Iowa Highway 237 to junction Iowa Highway 60, thence along Iowa Highway 60 to the Minnesota-Iowa State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateways of Omaha, Nebr., and Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E626), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, between points in Wyoming, on the one hand, and, on the other, points in Illinois and points in that part of Iowa on and south of a line beginning at the Nebraska-Iowa State line extending along U.S. Highway 30 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Iowa Highway 175, thence along Iowa Highway 175 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Illinois State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling and restricted against the transportation of those commodities described in *Mercer Extension—Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Omaha, Nebraska, and Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E627), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Road building equipment* (except in each instance, commodities which because of size or weight requires the use of special equipment and except commodities described in *Mercer Extension Oil Field Commodities*, 74 M.C.C. 459) from points in that part of Kansas on and south of a line beginning at the Kansas-Missouri State line extending along Kansas Highway 116 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. 77, thence along U.S. Highway 77 to the Kansas-Oklahoma State line, to points in that part of Oregon on and south of a line beginning at the Pacific Ocean extending along Oregon Highway 42 to junction U.S. Highway 5, thence along U.S. Highway 5 to junction Oregon Highway 66, thence along Oregon Highway 66 to junction U.S. Highway 97, thence along U.S. Highway 97 to junction Oregon Highway 140 thence along Oregon Highway 140 to junction Oregon Highway 39 thence along Oregon Highway 39 to the Oregon-California State line, to points in that part of California on and west of a line beginning at the Oregon-California State line extending along California Highway 139 to junction California Highway 299, thence along California Highway 299 to junction U.S. Highway 395.

Thence along U.S. Highway 395 to the California-Nevada State line, to points in that part of Nevada on and west of a line beginning at the Nevada-California State line extending along U.S. Highway 395 to junction U.S. Highway 40, thence along U.S. Highway 40 to junction U.S. Highway 95, thence along U.S. Highway 95 to junction U.S. Highway 93, thence along U.S. Highway 93 to the Nevada-Arizona State line, to points in that part of Arizona on and west of a line beginning at the Nevada-Arizona State line extending along U.S. Highway 93 to junction U.S. Highway 66, thence along U.S. Highway 66 to junction U.S. Highway 180, thence along U.S. Highway 180 to junction U.S. Highway 60, thence along U.S. Highway 60 to the Arizona-New Mexico State line, and to points in that part of New Mexico on and south of a line beginning at the Arizona-New Mexico State line extending along U.S. Highway 60 to junction Interstate Highway 25, thence along Interstate Highway 21 to junction U.S. Highway 380, thence along U.S. Highway 380 to junction U.S. Highway 285, thence along U.S. Highway 285 to junction U.S. Highway 82, thence along U.S. Highway 82 to junction New Mexico Highway 18, thence along New Mexico Highway 18 to junction U.S. Highway 180, thence along U.S. Highway 180 to the New Mexico-Texas State line. The purpose of this filing is to eliminate the gateway of Claremore, Oklahoma.

No. MC 114211 (Sub-No. E628), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grading, paving* and *finishing machinery, equipment, parts*, and *accessories* and *attachments* (except, in each instance, commodities which because of size or weight require the use of special equipment, and except commodities described in Mercer

Extension-Oil Field Commodities, 74 M.C.C. 459, from points in Idaho, Oregon, Washington and Montana to points in that part of Georgia on and south of a line beginning at the Alabama-Georgia State line extending along U.S. Highway 280 to junction U.S. Highway 319, thence along U.S. Highway 319 to junction U.S. Highway 80, thence along U.S. Highway 80 to junction U.S. Highway 301, thence along U.S. Highway 301 to the Georgia-South Carolina State line, to points in that part of Alabama on and south of a line beginning at the Mississippi-Alabama State line extending along Interstate Highway 10 to junction U.S. Highway 43, thence along U.S. Highway 43 to junction U.S. Highway 84, thence along U.S. Highway 84 to junction U.S. Highway 29, thence along U.S. Highway 29 to junction Alabama Highway 26, thence along Alabama Highway 26 to the Alabama-Georgia State line, to points in that part of North Carolina on and south of a line beginning at the North Carolina-South Carolina State line extending along U.S. Highway 76 to Wilmington, to points in that part of South Carolina on and south of a line beginning at the Georgia-South Carolina State line extending along U.S. Highway 301 to junction Interstate Highway 95, thence along Interstate Highway 95 to junction U.S. Highway 76, thence along U.S. Highway 76 to the South Carolina-North Carolina State line, and to points in Florida. The purpose of this filing is to eliminate the gateway of Canton, South Dakota, Claremore, Oklahoma, and points in Kansas.

No. MC 114211 (Sub-No. E629), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, between points in that part of Iowa on, north and west of a line beginning at the Minnesota-Iowa State line extending along U.S. Highway 69 to junction U.S. Highway 20, thence along U.S. Highway 20 to the Iowa-Nebraska State line, on the one hand, and, on the other, points in that part of Kansas on and south of a line beginning at the Missouri-Kansas line extending along Kansas State Highway 96 to junction U.S. Highway 160, thence along U.S. Highway 160, to junction U.S. Highway 54, thence along U.S. Highway 54 to the Oklahoma-Kansas State line. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa, and Beatrice, Nebraska.

No. MC 114211 (Sub-No. E630), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cast iron pressure pipe* and *fittings* and *accessories*, the transportation of which, because of size or weight, requires the use of special equipment, from points in that part of Nebraska on and west of a line beginning at the South Dakota-Nebraska State line extending along Nebraska Highway 61 to the Kansas-Nebraska State line, to points in that part of Oklahoma on and east of a line beginning at the Kansas-Oklahoma State line extending along U.S. Highway 69, to junction U.S. Highway 59, thence along U.S. Highway 59, to junction Oklahoma Highway 10, thence along Oklahoma Highway 10 to junction U.S. Highway 62, thence along U.S. Highway 62 to junction Oklahoma Highway 51, thence along Oklahoma Highway 51 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 271, thence along U.S. Highway 271 to the Oklahoma-Arkansas State line, and points in that part of Arkansas on and east of a line beginning at the Arkansas-Oklahoma State line extending along U.S. Highway 27 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 70, thence along U.S. Highway 70 to junction Arkansas Highway 4, thence along Arkansas Highway 4 to junction Arkansas Highway 19, thence along Arkansas Highway 19 to junction U.S. Highway 79, thence along U.S. Highway 79 to the Arkansas-Louisiana State line. The purpose of this filing is to eliminate the gateway of Council Bluffs, Iowa.

No. MC 114211 (Sub-No. E631), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural shredders, agricultural sprayers, scalpers, row shields, corn cribs*, (knocked down), and *attachments* and *parts* for said shredders, sprayers, scalpers, and corn cribs, when moving incidental to and in the same vehicle with said commodities, from points in that part of Iowa on and west of a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 52 to junction Iowa Highway 150, thence along Iowa Highway 150, to junction Iowa Highway 149, thence along Iowa Highway 149, to junction U.S. Highway 63, thence along U.S. Highway 63, to junction U.S. Highway 34, thence along U.S. Highway 34, to junction Iowa Highway 5, thence along Iowa Highway 5 to the Iowa-Missouri State line, to points in Pennsylvania, New York (except Kings, Queens, Nassau and Suffolk Counties), and points in that part of Ohio on and east of a line beginning at Cleveland, Ohio extending along Ohio Highway 14 to junction U.S. Highway 62, thence along U.S. Highway 62, to junction Ohio Highway 45, thence along Ohio Highway 45, thence along Ohio Highway 45 to junction Ohio Highway 7, thence along Ohio Highway 7, to junction Interstate Highway 70, thence along Interstate Highway 70 to the Ohio-West Virginia State line. The purpose of this filing is to eliminate the gateway of Oelwein, Iowa.

Mo. MC 114211 (Sub-No. E632), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery*, between points in that part of Kansas on and south of a line beginning at the Kansas-Oklahoma State line extending along Kansas Highway 179 to junction Kansas Highway 14, thence along Highway 14 to junction Kansas Highway 61, thence along Kansas Highway 61, to junction U.S. Highway 50, thence along U.S. Highway 50, to junction U.S. Highway 56, thence along U.S. Highway 50–56, to junction Kansas Highway 99, thence along Kansas Highway 99, to junction Kansas Highway 57, thence along Kansas Highway 57 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 59, thence along U.S. Highway 59, to Kansas Highway 52, thence along Kansas Highway 52 to the Kansas-Missouri State line, on the one hand, and, on the other, points in North Dakota. The purpose of this filing is to eliminate the gateways of Beatrice and Nebraska City, Nebraska, and points in Iowa.

No. MC 114211 (Sub-No. E633), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof from points in that part of Nebraska on and west of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 385 to the Colorado-Nebraska State line, to points in Illinois, Missouri, Indiana, Ohio, Michigan, points in that part of Kansas on and east of a line beginning at the Kansas-Nebraska State line extending along U.S. Highway 81 to junction Interstate Highway 35, thence along Interstate Highway 35, to the Kansas-Oklahoma State line, points in that part of Oklahoma on and east of a line beginning at the Kansas-Oklahoma State line extending along Interstate Highway 35 to junction U.S. Highway 277, thence along U.S. Highway 277 to the Oklahoma-Texas State line, and points in that part of Texas on and east of a line beginning at the Texas-Oklahoma State line extending along U.S. Highway 277, to junction U.S. Highway 281, thence along U.S. Highway 281 to junction Interstate Highway 35, thence along Interstate 35 to the United States-Canada Boundary line, with no transportation for compensation on return except as otherwise authorized. Restriction: Restricted against the transportation of commodities, the transportation of which, because of size or weight, requires the use of special equipment or special handling and further restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebraska.

No. MC 114211 (Sub-No. E642), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, the transportation of which because of size or weight requires the use of special equipment, between Grand View, Mo., on the one hand, and, on the other, points in North Dakota, Minnesota, and points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line extending along U.S. Highway 136 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction U.S. Highway 36, thence along U.S. Highway 36 to junction U.S. Highway 45, thence along U.S. 45 to junction Illinois Highway 6, thence along Illinois Highway 6 to junction U.S. Highway 150, thence along U.S. Highway 150 to the Indiana-Illinois State line. The purpose of this filing is to eliminate the gateway of points in Iowa.

No. MC 114211 (Sub-No. E643), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and parts* for agricultural implements, the transportation of which, because of size or weight, requires special equipment, from Lincoln, Nebr., to points in Wisconsin, Illinois, Indiana, Ohio, Michigan; to points in that part of Minnesota on and north of a line beginning at the Minnesota-Iowa State line extending along U.S. Highway 218 to junction Interstate Highway 35, thence along Interstate Highway 35 to junction U.S. Highway 12, thence along U.S. Highway 12 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction Interstate Highway 94, thence along Interstate Highway 94 to the North Dakota-Minnesota State line; and to points in that part of Missouri on, south, and east of a line beginning at the Missouri-Kansas State line extending along U.S. Highway 36 to junction Missouri Highway 139, thence along Missouri Highway 139 to junction Missouri Highway 6, thence along Missouri Highway 6 to junction Missouri Highway 5, thence along Missouri Highway 5 north to the Iowa-Missouri State line, with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E644), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled agricultural implements and parts* for agricultural implements, from Maize, Kans., to points in that part of North Dakota on, north, and east of a line beginning at the United States-Canada International Boundary line extending along North Dakota Highway 1 to junction North Dakota Highway 5, thence along North Dakota Highway 5 to junction North Dakota Highway 32, thence along North Dakota Highway 32 to junction U.S. Highway 2, thence along U.S. Highway 2 to the North Dakota-Minnesota State line; to points in that part of Minnesota on, north, and east of a line beginning at the North Dakota-Minnesota State line extending along U.S. Highway 2 to junction U.S. Highway 59, thence along U.S. Highway 59 to junction U.S. Highway 10, thence along U.S. Highway 10 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Interstate Highway 90, thence along Interstate Highway 90 to the Minnesota-Wisconsin State line; to points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line extending along U.S. Highway 16 to junction Wisconsin Highway 33, thence along Wisconsin Highway 33 to junction Wisconsin Highway 68, thence along Wisconsin Highway 68 to junction U.S. Highway 151, thence along U.S. Highway 151 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to Sheboygan, Wis.; and to points in that part of Michigan on and north of a line beginning at Charlevoix, Mich., extending along Michigan Highway 32 to Alpena, Mich. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Minneapolis, Minn.

No. MC 114211 (Sub-No. E645), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts therefor*, between Lincoln, Nebr., on the one hand, and, on the other, points in Colorado, Kansas, Oklahoma, and points in that part of South Dakota on, north, and west of a line beginning at the South Dakota-Nebraska State line extending along U.S. Highway 83 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction South Dakota Highway 47, thence along South Dakota Highway 47 to junction U.S. Highway 14, thence along U.S. Highway 14 to junction South Dakota Highway 45, thence along South Dakota Highway 45 to junction U.S. Highway 12, thence along U.S. Highway 12 to the South Dakota-Minnesota State line; and points in that part of Iowa on and east of a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 52 to junction Iowa Highway 150, thence along Iowa Highway 150 to junction U.S. Highway 20, thence along U.S. Highway 20 to junction Iowa Highway 38, thence along Iowa Highway 38 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Iowa Highway 92, thence along Iowa Highway 92 to the Iowa-Illinois State line, restricted against the transportation of commodities the transportation of which, because of size or weight, requires the use of special equipment or special handling, and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E646), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements and parts* for agricultural implements, from Tonkawa, Okla., to points in Minnesota, Wisconsin, Michigan; points in that part of Illinois on and north of a line beginning at the Iowa-Illinois State line extending along Illinois Highway 9 to junction Illinois Highway 49, thence along Illinois Highway 49 to junction Illinois Highway 18, thence along Illinois Highway 18 to the Illinois-Indiana State line; and points in that part of Indiana on and north of a line beginning at the Illinois-Indiana State line extending along Indiana Highway 18 to junction Indiana Highway 67, thence along Indiana Highway 67 to the Indiana-Ohio State line, with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Okla.

No. MC 114211 (Sub-No. E647), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from Baxter Springs, Kans., to points in that part of North Dakota on and north of a line beginning at the Minnesota-North Dakota State line extending along U.S. Highway 2 to junction U.S. Highway 83, thence along U.S. Highway 83 to the United States-Canada International Boundary line; to points in that part of Minnesota on and north of a line beginning at the Wisconsin-Minnesota State line extending along U.S. Highway 2 to the Minnesota-North Dakota State line; to points in that part of Wisconsin on and north of a line beginning at the Michigan-Wisconsin State line, thence along U.S. Highway 2 to the Wisconsin-Minnesota State line; and to points in that part of Michigan on and north of a line beginning at Sault Ste. Marie, Mich., extending along U.S. Highway 2 to junction Michigan Highway 28, thence along Michigan Highway 28 to junction U.S. Highway 41, thence along U.S. Highway

XUM V40137 FEB 24 75 XUM

41 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Michigan-Wisconsin State line, with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateways of Beatrice, Nebr., and Minneapolis, Minn.

No. MC 114211 (Sub-No. E648), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors* (except those with vehicle beds, bed frames, and fifth wheels), *equipment* designed for use in conjunction with farm tractors, and *parts thereof*, from Green Isle, Minn., to points in Washington, Oregon, California, Nevada, Idaho; to points in that part of Montana on, north, and west of a line beginning at the Montana-North Dakota State line extending along U.S. Highway 12 to junction U.S. Highway 312, thence along U.S. Highway 312 to junction U.S. Highway 212, thence along U.S. Highway 212 to junction U.S. Highway 87, thence along U.S. Highway 87 to the Montana-Wyoming State line; to points in that part of Colorado on and west of a line beginning at the Wyoming-Colorado State line extending along Colorado Highway 789 to junction U.S. Highway 6/24, thence along U.S. Highway 6/24 to junction U.S. Highway 6/24 to junction U.S. Highway 6/50, thence along U.S. Highway 6/50 to the Utah-Colorado State line; to points in that part of Wyoming on and west of a line beginning at the Montana-Wyoming State line extending along U.S. Highway 87 to junction U.S. Highway 16, thence along U.S. Highway 16 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to junction Wyoming Highway 28, thence along Wyoming Highway 28 to junction U.S. Highway 187, thence along U.S. Highway 187 to junction U.S. Highway 30, thence along U.S. Highway 30 to junction Wyoming Highway 789, thence along Wyoming Highway 789 to the Wyoming-Colorado State line; to points in that part of Utah on and west of a line beginning at the Colorado-Utah State line extending along U.S. Highway 50 to junction Utah Highway 128, thence along Utah Highway 128 to junction U.S. Highway 163, thence along U.S. Highway 163 to the Utah-Arizona State line; and to points in that part of Arizona on, west, and south of a line beginning at the Arizona State line extending along U.S. Highway 163 to junction U.S. Highway 160, thence along U.S. Highway 160 to junction Arizona Highway 264, thence along Arizona Highway 264 to the Arizona-New Mexico State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Fargo, N. Dak.

No. MC 114211 (Sub-No. E649), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof* (except commodities the transportation of which because of size or weight, requires the use of special equipment, from Green Isle, Minn., to points in Louisiana, and to points in that part of New Mexico on and south of a line beginning at the Arizona-New Mexico State line extending along Interstate Highway 40 to junction Interstate Highway 25, thence along Interstate Highway 25 to junction U.S. Highway 60, thence along U.S. Highway 60 to the New Mexico-Texas State line (except Las Cruces, Deming, and Lordsburg); to points in that part of Texas on and south of a line beginning at the New Mexico-Texas State line extending along U.S. Highway 60 to junction Interstate Highway 27, thence along Interstate Highway 27 to junction Interstate Highway 40, thence along Interstate Highway 40 to the Texas-Oklahoma State line (except Dallas, Fort Worth, Houston, Galveston, Abilene, Sweetwater, Big Springs, Midland, Odessa, and El Paso); to points in that part of Mississippi on and west of a line beginning at the Arkansas-Mississippi State line extending along Mississippi Highway 1 to junction Mississippi Highway 12, thence along Mississippi Highway 12 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction Mississippi Highway 14, thence along Mississippi Highway 14 to junction U.S. Highway 49W, thence along U.S. Highway 49W to junction U.S. Highway 49, thence along U.S. Highway 49 to junction U.S. Highway 98, thence along U.S. Highway 98 to the Mississippi-Alabama State line; and to points in that part of Arkansas on and south of a line beginning at the Oklahoma-Arkansas State line extending along U.S. Highway 71 to junction Arkansas Highway 10, thence along Arkansas Highway 10 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 82, thence along U.S. Highway 82 to the Arkansas-Mississippi State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of points in Iowa; Beatrice and Tulsa, Okla.

No. MC 114211 (Sub-No. E669), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, between Maize, Kans., on the one hand, and, on the other, points in Iowa. The purpose of this filing is to eliminate the gateways of Beatrice and Nebraska City, Nebr.

No. MC 114211 (Sub-No. E670), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* for agricultural implements, the transportation of which, because of size or weight, requires special equipment, from Grand View, Mo., to points in that part of Texas on and west of a line beginning at the New Mexico-Texas State line extending along U.S. Highway 180 to junction U.S. Highway 385, thence along U.S. Highway 385 to junction U.S. Highway 67, thence along U.S. Highway 67 to junction Texas Highway 163, thence along Texas Highway 163 to junction U.S. Highway 90, thence along U.S. Highway 90 to Del Rio, Tex., and to points in that part of Minnesota on and north of a line beginning at the Iowa-Minnesota State line extending along U.S. Highway 59 to junction Minnesota Highway 23, thence along Minnesota Highway 23 to junction Minnesota Highway 65, thence along Minnesota Highway 65 to junction U.S. Highway 169, thence along U.S. Highway 169 to junction U.S. Highway 53, thence along U.S. Highway 53 to the United States-Canada Boundary line, with no transportation for compensation on return except as otherwise authorized restricted against movement to oil field locations. The purpose of this filing is to eliminate the gateway of Beatrice, Nebr.

No. MC 114211 (Sub-No. E671), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* (except commodities the transportation of which because of size or weight requires the use of special equipment), from Independence, Mo., to points in that part of Texas on and south of a line beginning at the Oklahoma-Texas State line extending along U.S. Highway 60 to the Texas-New Mexico State line (except Dallas, Ft. Worth, Houston, Galveston, Abilene, Sweetwater, Big Springs, Midland, Odessa and El Paso), with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateways of Tulsa, Okla., and points in Kansas within 15 miles of Martin City, Mo.

No. MC 114211 (Sub-No. E672), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, from Grand View, Mo., to points in North Dakota, Minnesota, and to points in that part of South Dakota on and north of a line beginning at the Minnesota-South Dakota State line extending along

Interstate Highway 90 to junction U.S. Highway 73, thence along U.S. Highway 73 to junction U.S. Highway 18, thence along U.S. Highway 18 to junction South Dakota Highway 87, thence along South Dakota Highway 87 to the South Dakota-Nebraska State line, and to points in that part of Wisconsin on, north and west of a line beginning at the Minnesota-Wisconsin State line extending along U.S. Highway 18 to junction Wisconsin Highway 23, thence along Wisconsin Highway 23 to junction Wisconsin Highway 11, thence along Wisconsin Highway 11 to junction Wisconsin Highway 69, thence along Wisconsin Highway 69 to the Illinois-Wisconsin State line. The purpose of this filing is to eliminate the gateways of Des Moines and Fort Dodge, Iowa.

No. MC 114211 (Sub-No. E673), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts* thereof, from Armstrong, Iowa, to points in Oklahoma, and points in that part of Kansas on and south of a line beginning at the Missouri-Kansas State line extending along U.S. Highway 36 to junction Kansas Highway 7, thence along Kansas Highway 7 to junction Kansas Highway 20, thence along Kansas Highway 20 to junction U.S. Highway 75, thence along U.S. Highway 75 to junction Kansas Highway 16, thence along Kansas Highway 16 to junction Kansas Highway 63, thence along Kansas Highway 63 to junction U.S. Highway 24, thence along U.S. Highway 24 to junction Kansas Highway 18, thence along Kansas Highway 18 to junction Interstate Highway 70, thence along Interstate Highway 70 to junction U.S. Highway 156, thence along U.S. Highway 156 to junction Kansas Highway 96, thence along Kansas Highway 96 to the Kansas-Colorado State line. The purpose of this filing is to eliminate the gateways of Des Moines, Iowa, and points in Kansas within 15 miles of Martin City, Mo.

No. MC 114211 (Sub-No. E754), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Agricultural implements* and *parts* therefor when moving incidental to and in the same vehicle with said commodities (except, in each instance, commodities which because of size or weight require the use of special equipment, and except commodities described in *Mercer Extension-Oil Commodities*, 74 M.C.C. 459 from Valley, Nebraska, to points in Louisiana, Florida, to points in that part of North Carolina on and south of a line beginning at the South Carolina-North Carolina State line extending along Interstate Highway 95 to junction North Carolina Highway 41, thence along North Carolina Highway 41 to junction U.S. Highway 117, thence along U.S. Highway 117 to junction North Carolina Highway 53, thence along North Carolina Highway 53 to junction North Carolina Highway 24, thence along North Carolina Highway 24 to junction U.S. Highway 70, thence along U.S. Highway 70 to Cherry Point, to points in that part of South Carolina on and south of a line beginning at the Georgia-South Carolina State line extending along U.S. Highway 78 to junction U.S. Highway 301, thence along U.S. Highway 301 to junction Interstate Highway 95, thence along Highway 95 to the South Carolina-North Carolina State line, to points in that part of Georgia on and south of a line beginning at the Alabama-Georgia State line extending along U.S. Highway 278 to junction Interstate Highway 20, thence along Interstate Highway 20 to the Georgia-South Carolina State line, to points in that part of Alabama on and south of a line beginning at the Mississippi-Alabama State line extending along U.S. Highway 72 to junction Alternate U.S. Highway 72.

Thence along Alternate U.S. Highway 72 to junction U.S. Highway 31, thence along U.S. Highway 31 to junction Alabama Highway 67, thence along Alabama Highway 67 to junction U.S. Highway 278, thence along U.S. Highway 278 to the Alabama-Georgia State line, to points in that part of Mississippi on and south of a line beginning at the Tennessee-Mississippi State line extending along U.S. Highway 72 to the Mississippi-Alabama State line, to points in that part of Arkansas on and south of a line beginning at the Tennessee-Arkansas State line extending along U.S. Highway 70 to junction U.S. Highway 65, thence along U.S. Highway 65 to junction U.S. Highway 64, thence along U.S. Highway 64 to the Arkansas-Oklahoma State line, and to points in that part of Oklahoma on and south of a line beginning at the Arkansas-Oklahoma State line extending along U.S. Highway 64 to junction U.S. Highway 69, thence along U.S. Highway 69 to junction Interstate Highway 40, thence along Interstate Highway 40 to H. E. Bailey Turnpike, thence along H. E. Bailey Turnpike to junction U.S. Highway 62, thence along U.S. Highway 62 to the Oklahoma-Texas State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Beatrice, Nebraska and Claremare, Oklahoma.

No. MC 114211 (Sub-No. E907), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors*, with or without attachments, tractor attachments, and parts of tractors and tractor attachments when moving in mixed loads with commodities specified above, between the port of entry at El Paso. Tex., on the one hand, and, on the other, points in Minnesota, Iowa, and Illinois, restricted to the transportation of commodities in foreign commerce. The purpose of this filing is to eliminate the gateway of Topeka, Kans., and points in Iowa.

No. MC 114211 (Sub-No. E910), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm tractors* (except those with vehicle beds, bed frames, and fifth wheels), equipment designed for use in conjunction with farm tractors, and parts thereof, from points in Wyoming to points in that part of Minnesota on and south of a line beginning at the Minnesota-Canada International Boundary line, thence along Minnesota Highway 72 to junction U.S. Highway 71, thence along U.S. Highway 71 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Minnesota-South Dakota State line, to junction Interstate Highway 94, thence along Interstate Highway 94 to junction U.S. Highway 52, thence along U.S. Highway 52 to junction Minnesota Highway 210, thence along Minnesota Highway 210 to junction U.S. Highway 61, thence along U.S. Highway 61 to junction U.S. Highway 2, thence along U.S. Highway 2 to the Minnesota-Wisconsin State line, and to points in that part of Wisconsin on and north of a line beginning at the Minnesota-Wisconsin State line, thence along U.S. Highway 2 to the Wisconsin-Michigan State line, and to points in that part of Michigan on and east of a line beginning at the Wisconsin-Michigan State line, thence along U.S. Highway 2 to Lake Michigan, with no transportation for compensation on return except as otherwise authorized restricted against the transportation of commodities, the transportation of which, because of size or weight, requires the use of special equipment or special handling and restricted against the transportation of those commodities described in *Mercer Extension-Oil Field Commodities*, 74 M.C.C. 459. The purpose of this filing is to eliminate the gateways of Nassau, Minn., Fargo, N. Dak., and points in South Dakota.

No. MC 114211 (Sub-No. E920), filed June 4, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled grading, paving, and finishing equipment*, from points in Arizona to points in Vermont, New Hampshire, Maine, Rhode Island, and the District of Columbia, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Canton, S. Dak., and Minneapolis, Minn.

No. MC 114211 (Sub-No. E980), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from Manchester, Iowa, to points in Kansas and Oklahoma. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa, Martin City, Mo., and points in Kansas within 15 miles of Martin City, Mo.

No. MC 114211 (Sub-No. E1015), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery* and *parts* thereof, from Armstrong, Iowa to points in New Mexico and Texas, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Des Moines, Iowa.

No. MC 114211 (Sub-No. E1043), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled rollers*, from Thief River Falls, Minn., to points in Massachusetts and Connecticut. The purpose of this filing is to eliminate the gateway of Minneapolis, Minn.

No. MC 114211 (Sub-No. E1044), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled tractors, road-making machinery and contractors' equipment and supplies*, from Thief River Falls, Minn., to points in New York. The purpose of this filing is to eliminate the gateway of the plant site of the Stinar Corporation located at or near Minneapolis, Minn.

No. MC 114211 (Sub-No. E1046), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Farm machinery and parts thereof*, from Barnesville, Minn., to points in Colorado, Kansas, and Oklahoma. The purpose of this filing is to eliminate the gateways of points in Iowa, Beatrice and Nebraska City, Nebr.

No. MC 114211 (Sub-No. E1055), filed July 3, 1974. Applicant: WARREN TRANSPORT, INC., P.O. Box 420, Waterloo, Iowa 50704. Applicant's representative: **Kenneth R. Nelson (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Self-propelled farm machinery and parts thereof*, from Armstrong, Iowa to points in New York. The purpose of this filing is to eliminate the gateway of the plant-site of the Stinar Corporation located at or near Minneapolis, Minn.**

No. MC 115322 (Sub-No. E31), filed May 14, 1974. Applicant: REDWING REFRIGERATED, INC., P.O. Box 10177, Taft, Fla. 32809. Applicant's representative: James E. Wilson, 13th & Pennsylvania Ave. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Pittsburgh, Pa., to points in Louisiana, Mississippi (except points in Tunica, Tate, De Soto, Marshall, Union, Prentiss, Tishomingo, Alcorn, Tippah, and Benton Counties), and Alabama (except those points on and in an area bounded by a line beginning at the Alabama-Mississippi State line at U.S. Highway 72, thence along U.S. Highway 72 and Alternate 72, to Town Creek, Ala., thence north along Alabama Highway 101 to U.S. Highway 72, thence along U.S. Highway 72 to Interstate Highway 65, thence along Interstate Highway 65 to the Tennessee-Alabama State line, thence west and south along the Alabama State line to points of beginning. The purpose of this filing is to eliminate the gateway of South Carolina.

No. MC 115322 (Sub-No. E38), filed May 14, 1974. Applicant: REDWING REFRIGERATED, INC., P.O. Box 10177, Taft, Fla. 32809. Applicant's representative: James E. Wilson, 13th & Pennsylvania Ave. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen meats, meat products, and meat by-products*, as defined in the Appendix to the report in *Modification of Permits-Packinghouse Products*, 48 M.C.C. 628, in vehicles equipped with mechanical refrigeration, from points in Tennessee on and west of Interstate Highway 75 to Wilmington, Del., Baltimore, Md., North Bergen, Newark, Hoboken, and Jersey City, N.J., New York and Brooklyn, N.Y., Philadelphia, Pa., Richmond, Norfolk, and Smithfield, Va. The purpose of this filing is to eliminate the gateway of Clinton, N.C.

No. MC 115322 (Sub-No. E39), filed May 14, 1974. Applicant: REDWING REFRIGERATED, INC., P.O. Box 10177, Taft, Fla. 32809. Applicant's representative: James E. Wilson, 13th & Pennsylvania Ave. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits and frozen vegetables*, from points in Alabama (except points in Lauderdale, Colbert, Lawrence, Limestone, Madison, Jackson, De Kalb, Marshall, Morgan, and Franklin Counties), to points in Connecticut, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, and the District of Columbia. The purpose of this filing is to eliminate the gateway of Hendersonville, N.C.

No. MC 115322 (Sub-No. E46), filed May 14, 1974. Applicant: REDWING REFRIGERATED, INC., P.O. Box 10177, Taft, Fla. 32809. Applicant's representative: James E. Wilson, 13th & Pennsylvania Ave. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen fruits and frozen vegetables*, from points in Florida on and south of Florida Highway 40 to points in Connecticut, Maryland, Massachusetts, New Jersey, New York, Pennsylvania, Rhode Island, Virginia, and the District of Columbia. The purpose of this filing is to eliminate the gateway of Hendersonville, N.C.

No. MC 115322 (Sub-No. E68), filed May 14, 1974. Applicant: REDWING REFRIGERATED, INC., P.O. Box 10177, Taft, Fla. 32809. Applicant's representative: James E. Wilson, 13th & Pennsylvania Ave. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foods*, from Eastport, N.Y., to points in South Carolina (except points on and east of South Carolina Highway 41). The purpose of this filing is to eliminate the gateway of Tennessee (except Nashville).

No. MC 117344 (Sub-No. E21), filed May 26, 1974. Applicant: THE MAXWELL CO., 10380 Evendale Drive, Cincinnati, Ohio 45215. Applicant's representative: Thomas L. Maxwell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum products*, as described in Appendix XIII to the report in *Descriptions in Motor Carrier Certificates*, 61 M.C.C. 209 (except coal spray oil), in bulk, in tank vehicles, from points in Kentucky on and east of U.S. Highway 27 and on and north of State Route 32 within 100 miles of Cincinnati, Ohio, to points in Kentucky west of a line beginning at Elizabethtown and extending west along U.S. Highway 62, thence along U.S. Highway 62 to its junction with U.S. Highway 641, thence south along U.S. Highway 641 to the Kentucky-Tennessee State line (except those in Jefferson County, Ky.). The purpose of this filing is to eliminate the gateway of Cincinnati, Ohio.

No. MC 119702 (Sub-No. E3) (Correction), filed May 31, 1974, published in the FEDERAL REGISTER January 27, 1975. Applicant: STAHLY CARTAGE CO., P.O. Box 486, Edwardsville, Ill. 62025. Applicant's representative: E. Stephen Heisley, 666 Eleventh St. NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid fertilizer solutions* which are petroleum products, in bulk, in tank vehicles, from the facilities of Illinois Road Contractors, Inc., in Pike County, Ill., to points in Michigan and Wisconsin (except anhydrous ammonia, from such

plant sites to points in Wisconsin). The purpose of this filing is to eliminate the gateway of the facilities of Agrico Chemical Co., near Pekin, Ill. The purpose of this correction is to correct the "E" number, previously published as E5.

No. MC 126489 (Sub-No. E1), filed June 4, 1974. Applicant: GASTON FEED TRANSPORTS, INC., P.O. Box 1066, Hutchinson, Kans. 67501. Applicant's representative: John E. Jandera, 641 Harrison Street, Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular route, transporting: *Dry feed ingredients* (except salt and salt products and except cotton seed products), from points in Texas on and east of U.S. Highway 83 to points in Nebraska, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Pratt, Kans.

No. MC 126489 (Sub-No. E6), filed June 4, 1974. Applicant: GASTON FEED TRANSPORTS, INC., P.O. Box 1066, Hutchinson, Kans. 67501. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry phosphatic feed and feed ingredients* (except salt and salt products, cotton seed products, and urea), from points in Texas on and north of Interstate Highway 40, to points in Mississippi on or north of a line beginning at the Arkansas-Mississippi State line, thence along Mississippi Highway 6 to Tupelo, Miss., thence along Mississippi Highway 78 to the Mississippi-Alabama State line, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Witchita, Kans., and Van Buren, Ark.

No. MC 126489 (Sub-No. E8), filed June 4, 1974. Applicant: GASTON FEED TRANSPORTS, INC., P.O. Box 1066, Hutchinson, Kans. 67501. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry feed ingredients* (except salt and salt products, cotton seed products, and urea), from points in Dallam, Sherman, Hansford, Ochiltree, and Lipscomb Counties, Tex., to points in that part of Missouri on and south of a line beginning at the Missouri-Arkansas State line, thence along U.S. Highway 67 to intersection with Missouri Highway 72, thence along Missouri Highway 72 to the Missouri-Illinois State line and to points in Mississippi (except Washington and Adams Counties, Miss.), with no transportation for compensation on return unless otherwise authorized. The purpose of this filing is to eliminate the gateways of Wichita, Kans., and Van Buren, Ark.

No. MC 126489 (Sub-No. E10), filed June 4, 1974. Applicant: GASTON FEED TRANSPORTS, INC., P.O. Box 1066, Hutchinson, Kans. 67501. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry phosphatic feed and feed ingredients* (except salt and urea), from Carthage, Mo., to points in Louisiana (except Caddo and Bossier Counties, La.), with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Van Buren, Ark.

No. MC 126489 (Sub-No. E15), filed June 4, 1974. Applicant: GASTON FEED TRANSPORTS, INC., P.O. Box 1066, Hutchinson, Kans. 67501. Applicant's representative: John E. Jandera (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry phosphatic feed and feed ingredients* (except salt and urea), from Carthage, Mo., to points in New Mexico and Mississippi, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Van Buren, Ark.

No. MC 126489 (Sub-No. E17), filed June 4, 1974. Applicant: GASTON FEED TRANSPORTS, INC., P.O. Box 1066, Hutchinson, Kans. 67501. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry phosphatic feed and feed ingredients*, except salt and urea, from Wichita, Kans., to points in Louisiana and Mississippi, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Van Buren, Ark.

No. MC 126489 (Sub-No. E18), filed June 4, 1974. Applicant: GASTON FEED TRANSPORTS, INC., P.O. Box 1066, Hutchinson, Kans. 67501. Applicant's representative: John E. Jandera (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry phosphatic feed and dry feed ingredients*, except salt and urea, from McPherson, Kans., to points in Louisiana and Mississippi, with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Van Buren, Ark.

No. MC 126489 (Sub-No. E19), filed June 4, 1974. Applicant: GASTON FEED TRANSPORTERS, INC., P.O. Box 1066, Hutchinson, Kans. 67501. Applicant's representative: John E. Jandera, 641 Harrison St., Topeka, Kans. 66603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Dry phosphatic feed and feed ingredients*, except salt and urea, from Kansas City, Kans., to points in Louisiana (except Caddo and Bossier Parishes, La.), points in Mississippi and points in Eddy, Luna, and Hidalgo Counties, N. Mex., with no transportation for compensation on return except as otherwise authorized. The purpose of this filing is to eliminate the gateway of Van Buren, Ark.

By the Commission.

[No. MC-19157 (Sub-No. 17)]

McCORMACK'S HIGHWAY TRANSPORTATION, INC.

Extension of Direct Authority

Order. At a session of the Interstate Commerce Commission, Division 1, Acting as an Appellate Division, held at its office in Washington, D.C., on the 11th day of February 1975.

It appearing, that by application filed February 2, 1973, as amended, and as published in the Federal Register of March 8, 1973, McCormack's Highway Transportation, Inc., of Schenectady, N.Y., seeks a certificate of public convenience and necessity authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of radioactive material, new and spent, radioactive source, special nuclear and by-product materials, radioactive material shipping containers, nuclear reactor component parts, and related equipment, restricted against the transportation of commodities in bulk, in tank vehicles, between points in Rowan County, Ky., and Barnwell County, S.C., on the one hand, and, on the other, points in 27 States and the District of Columbia;

It further appearing, that by order entered July 22, 1974, the Commission, Review Board Number 3, granted applicant a 5-year limited term certificate authorizing the transportation (1) of radioactive waste materials, from points in 27 States and the District of Columbia to points in Rowan County, Ky., and specified facilities in Barnwell County, S.C., and (2) of empty radioactive material shipping containers, from the above-described destination points to points in 27 States and the District of Columbia, subject to a condition;

It further appearing, that on September 16, 1974, protestant Tri-State Motor Transit Company, filed a petition for reconsideration of the Review Board's grant to the extent it authorizes service from and to points in Barnwell County, S.C., and moves that the proceeding be set for oral hearing, and applicant filed a reply thereto on September 20, 1974;

It further appearing, that by petition filed September 16, 1974, applicant requests modification of the grant of authority made so as to change the designation of a portion of the involved area from "points in Rowan County, Ky." to "points in Fleming County, Ky." inasmuch as the radioactive burial facility from and to which applicant seeks authority actually lies in Fleming County, Ky., approximately 1 mile from the

XUM
V40137
FEB 24 75
XUM

Rowan County line, and protestant filed a reply thereto on October 8, 1974; and good cause appearing therefor:

It is ordered, That the proceeding be, and it is hereby, reopened for reconsideration on the present record, solely for the limited purposes set forth below.

It is further ordered, That the said order entered herein on July 22, 1974, to the extent it is inconsistent with the result reached herein, be, and it is hereby, vacated and set aside.

It further appearing, that the evidence submitted in support of the application establishes a need for applicant's service; that there is sufficient evidence of traffic moving from and to the disposal facilities of Nuclear Engineering Company, Inc.; that the involved burial site is located in a rural area difficult to fix in location and susceptible of error; that inasmuch as the evidence establishes that the involved burial site is the only radioactive disposal facility in Kentucky, present protestants were not misled by the presentation of applicant's evidence; that because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority as modified and as described in this order, a notice of the authority as modified will be published in the FEDERAL REGISTER and issuance of a certificate withheld for a period of 30 days from the date of such publication, during which period any proper party in interest not presently a party to this proceeding may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced; and that the evidence submitted in the form of verified statements in support of the application amply warrants the grant of authority set forth below; and good cause appearing therefor:

We find on reconsideration, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, (1) of radioactive waste material (except in bulk, in tank vehicles) from points in Alabama, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, Wisconsin, and the District of Columbia to the disposal facilities of Nuclear Engineering Company, Inc., in Fleming County, Ky., and to the disposal facilities of Chem-Nuclear Systems, Inc., in Red Oak Township, Barnwell County, S.C., and (2) of empty radioactive material shipping containers from the destination points described in (1) above to points in the origin territory specified in (1) above; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that the grant of authority herein and applicant's existing authority which it duplicates shall be construed as conferring only a single operating right; that a certificate authorizing such operation should be granted, subject to the condition that it shall be limited in point of time to a period expiring 5 years from the effective date thereof and subject to the condition described in the immediately preceding appearing paragraph; that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Enviromental Policy Act of 1969; and that the application in all other respects should be denied.

It is further ordered, That said application and petition for modification except to the extent granted herein, be, and they are hereby, denied.

It is further ordered, That protestant's petition for reconsideration be, and it is hereby, denied, for the reason that the findings of Review Board Number 3, except to the extent vacated and modified herein, are in accordance with the evidence and applicable law.

It is further ordered, That upon compliance by applicant with the requirements of Sections 215, 217, and 221(c) of the Interstate Commerce Act, and with the Commission's rules and regulations thereunder, a certificate be issued to applicant authorizing operation, in interstate or foreign commerce, as a common carrier by motor vehicle in the manner described above, subject to prior publication in the Federal Register of a notice of the authority actually granted by this order.

It is further ordered, That unless compliance is made by applicant with the requirements of Sections 215, 217, and 221(c) of the Act within 90 days after the date of service of this order, or within such additional time as may be authorized by the Commission, the grant of authority made herein shall be considered as null and void and the application shall stand denied in its entirety effective upon the expiration of the said compliance time.

By the Commission, Division 1, Acting as an Appellate Division.

[SEAL] ROBERT L. OSWALD, *Secretary.*

[No. MC-139207]

McNABB-WADSWORTH TRUCKING CO.

Contract Carrier Application

Order. At a session of the Interstate Commerce Commission, Review Board Number 3, held at its office in Washington, D.C., on the 6th day of February 1975.

It appearing, that by application filed October 9, 1973, as published in the FEDERAL REGISTER, Harold F. McNabb and J. D. Wadsworth, Jr., a partnership, doing business as McNabb-Wadsworth Trucking Company, of Kingsport, Tenn., sought a permit authorizing operation, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, of glass and glass products, from Kingsport and Greenland, Tenn., to points in Alabama, Florida, Georgia, North Carolina, South Carolina, and Virginia, under contract with ASG Industries, Inc., of Kingsport, Tenn.; and that, after McNabb-Wadsworth Trucking Company was substituted as applicant by order of July 9, 1974, of Commissioner Gresham, applicant seeks, as shown by its initial verified statement, to transport crated glass and glass products, not exceeding 108 inches in height, over irregular routes, from Kingsport and Greenland to points in Alabama, Florida, Georgia, and Virginia, points in North Carolina on and east of U.S. Highway 1, and points in South Carolina on and east of U.S. Highway 1, except Columbia, S.C., and its commercial zone;

It further appearing, that the application has been processed under the Commission's modified procedure; that applicant has filed verified statements in support of the application; that protestant A. J. Metler Hauling & Rigging, Inc., a motor common carrier, has submitted a verified statement in opposition to the application; and that applicant has filed a rebuttal argument by counsel;

It further appearing, that applicant holds no permanent authority from this Commission; that it is engaged in intrastate dump truck operations, transporting sand and gravel within an 80-mile vicinity of Kingsport, and presently serves shipper in contract carrier service in the transportation of the commodities involved herein under temporary authority; that it has main offices and terminal facilities at Kingsport, operates a fleet of 19 dump trucks in its sand and gravel operations, and has a fleet of 6 tractors and 7 trailers available to provide the service proposed herein, with planned increases of 6 additional open top trailers for use in that service; that it is willing to assign all of its over-the-road tractors and trailers to the use of the supporting shipper and proposes to return equipment to its terminal through transportation of exempt commodities and trip-leasing to authorized carriers; and that applicant submitted financial data;

It further appearing, that the supporting shipper, ASG Industries, Inc., manufactures glass products which are primarily used in residential and commercial construction; that its facilities pertinent herein are located at Kingsport and Greenland; that it submitted volume data to respective States, such data actually consisting of minimum volumes of traffic shipped, so as to minimize any disclosures which would betray trade secrets as to specific volume of sales to any city or customer; that shipper also submitted a list of cities to which it has made shipments or will make shipments; that plant expansions and additions have increased ASG's efficiency and sales capacity and shipper expects to maintain its projected annual growth of approximately 15 percent for the next several years; that, accordingly, it anticipates a substantial increase in volume of glass products from the facilities involved herein; that shipper has received satisfactory service from protestant Metler in the transportation of "uncrated glass products exceeding 108 inches in height," which are transported by Metler's specially designed lowboy sling-pack trailers, equipment not used by applicant; that shipper's glass is loaded and unloaded by crane, requiring open top trailers; that it avers that existing carriers have not been able to meet shipper's needs; and that it supports applicant in its amended application for common carrier authority;

It further appearing, that protestant Metler is a motor common carrier authorized, as here pertinent, to transport flat glass from points in Hawkins County (embracing Greenland) and Kingsport, to the destination area involved herein; that it also holds common carrier authority to transport (1) uncrated flat glass, (2) crated flat glass whichc, because of size or weight, requires the use of special equipment, and (3) crated flat glass which does not require the use of special equipment when moving in mixed shipments with the commodities authorized in (1) and (2) above, from Nashville to points in the Eastern United States; that protestant maintains office and terminal facilities at Knoxville, as well as a small terminal facility at Kingsport; that it submitted an equipment list; that it offers a complete heavy hauler and specialized service; that protestant suggested to applicant that imposition of a restriction against transportation of the crated commodities exceeding 108 inches in height would protect Metler's interest and still permit applicant to handle the supporting shipper's traffic; and that Metler indicates that should the suggested restriction be accepted by the Commission, it would withdraw its opposition to the contract carrier application;

If further appearing, that protestant Metler has specially designed glass trailers with a double drop-frame construction and specially engineered and designed supports for handling unerated glass of all sizes and crated glass of extremely large dimensions, particularly exceeding 108 inches in height; that it is important to Metler that it retain flat glass traffic handled for ASG on these units, since they are so uniquely designed for the transportation of flat glass that they cannot easily accommodate any back-haul traffic of other types of lading; that during August, September, and October 1973, protestant transported 83 shipments of flat glass totaling 3,32 million pounds and generating $50,141 in revenue for the supporting shipper from and to points in all of the six States involved herein; that it provided a list of shipments as to respective States and projected traffic for a period of a complete year based upon the three month totals, yielding 332 shipments weighing 13.3 million pounds and amounting to $200,565 in revenue; and that in view of applicant's decision to seek common carrier authority in lieu of contract carrier authority, protestant requests that any authority granted herein be restricted to the transportation of traffic originating at Kingsport and Greenland in order to protect Metler's flat glass authority from Nashville, fearing diversion of traffic if applicant is able to interline with other carriers holding authority from Nashville to the two origin points;

It further appearing, that in rebuttal applicant avers that the Commission has consistently resisted encumbering grants of authority with restrictions against joinder or interline unless a protestant specifically demonstrates that it would be materially and adversely affected by such service, and Metler has not established such an effect; and that it has not been shown that an interline from Nashville to the origin points herein is operationally feasible or desirable;

It further appearing, that the evidence of record indicates that there has been a prima facie showing of need for the proposed service; that the sole remaining protestant seeks only to have certain restrictions imposed, (1) the restriction regarding a maximum height of 108 inches for the commodities, and (2) a restriction to the transportation of traffic originating at the two origins; that protestant's interest which it avers will be protected by imposition of restriction (2) above is limited to (a) uncrated flat glass, (b) crated flat glass which, because of size or weight, requires the use of special equipment, and (c) crated flat glass which does not require the use of special equipment when moving in mixed shipments with the commodities in (a) or (b); and that in view of the commodity descriptions, the fact that protestant presented no data regarding specific traffic from Nashville, and the entire circumstances of this proceeding, we believe that a restriction to the transportation of traffic originating at the two origin points is not warranted by the evidence;

It further appearing, that while the restriction against transportation of commodities in excess of 108 inches in height is of the type generally not favored, we believe that the restriction should be imposed herein; that, further, since applicant originally sought to serve a particular shipper, we believe that the origin point herein should be the shipper's facility (which will still allow interlining on shipper's premises with its permission); and that, since it is possible that other parties which have relied upon the notice of the application as published (seeking contract carrier authority) may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority actually granted will be published in the Federal Register and issuance of a certificate in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file a petition for leave to intervene in this proceeding or for other appropriate relief setting forth in detail the precise manner in which it has been so prejudiced;

And it further appearing, that the evidence of record in support of the application warrants the grant of authority set forth below and establishes that applicant is fit, willing, and able, financially and otherwise, to conduct the operation authorized;

Wherefore, and good cause appearing therefor:

We find, that the present and future public convenience and necessity require operation by applicant, in interstate or foreign commerce, as a common carrier by motor vehicle, over irregular routes, of crated glass and crated glass products, not exceeding 108 inches in height, from the facilities of ASG Industries, Inc., at Kingsport and at Greenland, Tenn., to points in Alabama, Florida, Georgia, and Virginia, points in North Carolina on and east of U.S. Highway 1, and points in South Carolina on and east of U.S. Highway 1, except Columbia, S.C., and points in its commercial zone; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969; that an appropriate certificate should be granted, subject to the condition in the second succeeding paragraph in this order; and that the application in all other respects should be denied.

It is ordered, That said application, except to the extent granted herein, be, and it is hereby, denied.

It is further ordered, That upon compliance by applicant with the requirements of sections 215, 217, and 221(c) of the Interstate Commerce Act, and with the Commission's rules and regulations thereunder, within the time specified in the next succeeding paragraph, a certificate be issued to applicant authorizing operations, in interstate or foreign commerce, as a common carrier by motor vehicle in the manner described above, subject to prior publication in the FEDERAL REGISTER of a notice of the authority actually granted in this order.

And it is further ordered, That unless compliance is made by applicant with the requirements of sections 215, 217, and 221(c) of the Act within 90 days after the date of service of this order, or within such additional time as may be authorized by the Commission, the grant of authority made herein shall be considered as null and void, and the application shall stand denied in its entirety effective upon the expiration of the said compliance time.

By the Commission, Review Board Number 3.

[Notice 236]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

FEBRUARY 24, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before March 17, 1975. Pursuant to section 17 (8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC–FC–75576. By order of February 11, 1975, the Motor Carrier Board approved the transfer to Neal R. Wentling and Dorothy E. Wentling, a partnership, doing business as Leaman Trucking Company, 125 East Cumberland Street, Lebanon, Pa. 17042 of the operating rights in Certificate No. MC–84801 issued July 28, 1950, to Mary M. Leaman, same address, Lebanon, Pa., authorizing the transportation of manufactured or fabricated iron and steel articles, other than machinery, from Lebanon, Pa., to Baltimore, Md., Washington, D.C., points in the New York, N.Y., Commercial Zone, as defined by the Commission, and points in New Jersey north of the northern boundaries of Burlington and Monmouth Counties, N.J., and fertilizer and spray materials, from Baltimore, Md., to Lebanon, Pa.

No. MC–FC–75521. By order entered February 11, 1975, the Motor Carrier Board approved the transfer to Robin Express, Inc., Long Island City, N.Y., of the operating rights set forth in Permit No. MC–127536 (Sub-No. 2), issued January 9, 1967, to Rolinthony Trucking, Inc., Astoria, N.Y., authorizing the transportation of cutlery, flatware, kitchen utensils and component parts thereof, (other than gold or silverplated), between points in the New York, N.Y., Commercial Zone as defined by the Commission, on the one hand, and, on the other, the plant site of Regent-Sheffield, Ltd., at East Farmingdale, N.Y., limited to a transportation service to be performed under a continuing contract, or contracts with Regent-Sheffield, Ltd., of East Farmingdale, N.Y. Arthur J. Piken, One Lefrak City Plaza, Flushing, N.Y. 11368, attorney for applicants.

No. MC–FC–75652. By order of February 11, 1975, the Motor Carrier Board approved the transfer to Jack T. Tucker, Texas City, Texas, of Certificate of Registration, No. MC–121457 (Sub-No. 1) issued July 23, 1964 to Carter Swint, doing business as Carter Swint Company, Houston, Texas, evidencing a right to engage in transportation in interstate commerce as described in specialized motor carrier's permanent Certificate of Convenience and Necessity No. 5537, Docket No. 9620, issued November 8, 1974 by the Railroad Commission of Texas. Joe G. Fender, 802 Houston, 1st Savings Bldg., Houston, Texas 77002, attorney for applicants.

No. MC–FC–75656. By order entered February 11, 1975 the Motor Carrier Board approved the transfer to Capitol City Riggers, Inc., Morristown, Ind., of Certificate of Registration No. MC–120596 (Sub-No. 1), issued January 8, 1964, to Cardinal Realty & Investments, Inc., Indianapolis, Ind., evidencing a right to engage in transportation in interstate or foreign commerce of heavy machinery, contractors' equipment, tanks, boilers, smokestacks, requiring special equipment and rigging, between points in Indiana. Richard E. Aikman, Jr., 1200 Merchants Bank Bldg., Indianapolis, Ind. 46204, attorney for applicants.

No. MC–FC–75662. By order of February 13, 1975, the Motor Carrier Board approved the transfer to William H. Kles, Jr., Easton, Pa., of the operating rights in Certificate No. MC–62324 issued January 14, 1963 to W. Harold Kles, doing business as Harry M. Kles, Easton, Pa., authorizing the transportation of various commodities from, to and between specified points and areas in Pennsylvania, New Jersey, and New York. Thomas P. Stitt, 46 South Fourth St., Easton, Pa., 18042, attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

[No. MC–119265 (Sub-No. 3)]

YELLOW CAB, INC.

Extension of Rolling Mill Rolls Permit

Order. At a session of the Interstate Commerce Commission, Review Board Number 3, held at its office in Washington, D.C., on the 5th day of February 1975.

It appearing, that by application filed August 13, 1973, as amended,[1] Yellow Cab, Inc., of Lima, Ohio, seeks a permit authorizing operation, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, (1) of rolling mill rolls, and equipment, materials, and supplies used in the manufacture thereof (except commodities in bulk and commodities requiring special equipment), between Lima, Ohio, on the one hand, and, on the other, points in Illinois, Michigan, Pennsylvania, New York, and Kentucky, under a continuing contract or contracts with Teledyne Ohio Steel, of Lima, Ohio, and (2) of molds, subassemblies, and equipment, materials, and supplies used in the manufacture of molds and sub-assemblies (except commodities in bulk and commodities requiring special equipment), between Lima, Ohio, on the one hand, and, on the other, points in Michigan, Indiana, Kentucky, Illinois, Wisconsin, and Pennsylvania, under a continuing contract or contracts with Rawls Division—National Standard Company, restricted in (1) and (2) above to the transportation on any one vehicle at one time of shipments weighing in the aggregate not more than 14,000 pounds from one consignor at one location to one consignee at one location;

It further appearing, that the application has been processed under the Commission's modified procedure; that applicant has filed verified statements in support of the application; that protestants Lattavo Bros., Inc., Associated Truck Lines, Inc., Interstate Motor Freight System, J Miller Express, Inc., separately, and Jones Transfer Company and W & W Express, Inc., jointly, all motor common carriers, have filed verified statements in opposition to the application; and that applicant and shipper Teledyne have filed statements and applicant also filed argument in rebuttal;

It further appearing, that applicant, as particularly pertinent, is a motor contract carrier performing an express parcel service similar to that sought herein for two other shippers; that applicant proposes to perform an emergency or expedited service involving direct delivery with no stopoffs and no consolidation of shippers' freight with other freight; that it would perform this service on a 7-day-a-week, 24-hour-a-day basis on 15 minutes notice, and, if required, will deliver a commodity outbound from Lima, wait while service is performed on the item, and redeliver to Lima; that it operates 17 pieces of equipment including 3 taxi cabs, 8 station wagons, 3 pick-up trucks, 1 van truck, and 2 small straight trucks; and that it has submitted safety and financial data;

It further appearing, that Teledyne and Rawls, the supporting shippers herein, both express a need for an emergency type service involving almost immediate response to calls for service (within 1 hour for Teledyne and 15 minutes for Rawls), direct service from origin to destination on a 7-day-a-week, 24-hour-a-day basis in small vehicles; that both shippers feel that common carriers cannot or will not provide this service and have conducted the operations described herein in private carriage; and that both shippers will continue to use the services of existing common carriers for their normal transportation needs;

It further appearing, that Teledyne, of Lima, is a manufacturer of rolling mill rolls utilized by the aluminum and steel industry; that it needs an expedited inbound transportation service for various

[1] Applicant amended its application in its initial verified statement restrictively except insofar as it seeks authority to move subassemblies for a named shipper. This portion of the amendment broadens the application and will be discussed infra.

items such as replacement parts for its machines, reinforcing rods, refractories, and alloys when equipment breaks down or supplies run low to avoid costly plant shutdowns which in the past have lasted two or three days when shipper had to rely upon the services of motor common carriers; that shipper also must be capable of providing an emergency type service for its customers, involving either the shipment of new rolling mills outbound, or the pickup of a rolling mill at an aluminum or steel mill for reworking at its Lima facilities and return to the customer; that shipper has indicated representative points and annual emergency tonnage inbound and outbound for the traffic involved; and that normally Teledyne ships its products in truckload quantities, but occasionally, to meet a customer's urgent need it must be able to provide the service described herein;

It further appearing, that Rawls at its plant at Lima produces equipment used in the manufacture and retreading of tires, and production of wire mill equipment, which it sells to tire manufacturers, retread shops and its sister divisions; that Rawls needs an emergency type service for inbound and outbound shipments of the commodities sought; that for example, it makes expedited shipments outbound to its sister divisions to insure continued production, or sometimes must ship various parts to machine shops to be reworked and returned for assembly into a finished product, or on occasion picks up items at customer plants for repair at Lima and reshipment to the customer, in which case Rawls requires the driver to wait at its Lima facilities while the particular item is reworked; and that while Rawls does not indicate the exact volume moving in such service, it does state that such shipments may vary between 1 pound and 20,000 pounds in a 6-month period with an average shipment weighing 200 pounds;

It further appearing, that protestant Associated holds authority to transport general commodities (with the usual exceptions) between numerous points in Illinois, Indiana, Michigan, Ohio, and western Pennsylvania, and to and from Louisville, Ky., over a network of regular routes; that it maintains a terminal at Lima and operates 1,347 pieces of power equipment and 2,424 trailers of various sizes and types; that it submits a list of shipments involving the sought commodities transported for both supporting shippers within the scope of this application (except for a shipment for Teledyne to an Indiana point) in January and February 1974, from which it derived a total of $800.37 in revenue; that it anticipates diversion of such traffic if this application is granted; that Associated offers an exclusive use type service which entitles shipper to individual use of a trailer, and expeditious movement to destination; that it points out that neither shipper has ever used this type of "express" service and questions the need for such service; and that it states it knows of no emergency temporary or temporary authority granted for such service within the 7 months preceding its verified statement;

It further appearing, that protestant J. Miller represents that it can transport the commodities sought in part (1) of the application between Lima, on the one hand, and, on the other, points in western Pennsylvania and western New York, and Ashland, Ky., and those commodities sought to be transported for Rawls, between Lima, on the one hand, and, on the other, points in western Pennsylvania and Ashland; that it operates 129 flat-bed or lowboy trailers which it maintains are suitable for transporting the involved traffic; that its nearest terminals would be at Cleveland and Ironton, Ohio, 150 or more miles from Lima; that protestant now transports traffic of the type involved herein and argues that normal traffic which it moves for Teledyne would be subject to diversion by a grant of the sought authority; that protestant believes that the emphasis by applicant and shippers on the "emergency" service is a mere make-weight argument to bolster the application; and that protestant argues that shippers have submitted insufficient evidence of a need for service;

It further appearing, that protestant Interstate is authorized to transport principally general commodities over regular routes between numerous points in the States sought by combining various grants of authority and observing gateways; that it operates a large fleet of equipment and maintains a terminal at Lima; and that it offers an expedited, direct, single line service to those points it is authorized to serve, but does not indicate that it would wait while an item was being repaired or its hours of operation;

It further appearing, that protestant Jones is authorized to transport general commodities over regular routes primarily between Cleveland, Ohio, and Flint, Mich.; that in connection with W & W, which it operates under temporary authority from this Commission, it can serve all points in Ohio and numerous points in Michigan by observing a Toledo, Ohio gateway; that protestants maintain several terminals in northern Ohio, none of which is in proximity to Lima, and together operate over 1,000 trailers; and that protestants argue that an emergency service not offered by common carriers is not required and that the amount of traffic involved does not warrant the grant of authority to another competitor;

It further appearing, that protestant Lattavo, by tacking its own authority at Cleveland with that acquired from Crown Cartage & Storage Company, can transport general commodities, with the usual exceptions, between Lima, on the one hand, and, on the other, points in western Pennsylvania, and also, as pertinent, iron and steel articles, contractors' and builders' supplies and equipment and building and construction materials (except commodities in bulk), between Lima, on the one hand, and, on the other, specified points in western Pennsylvania; that it operates a large fleet of equipment; that its nearest terminal is located over 100 miles from Lima at Canton, Ohio; that protestant does not show it normally offers the type of service proposed by applicant, but questions applicant's intention and ability to perform such a service because of the wide area sought and the high 14,000 pound weight restriction; and that protestant states that despite regular solicitation on its part, neither shipper has called upon it for service;

It further appearing, that applicant filed a rebuttal statement and argument in which it maintains that the service proposed is specially tailored to meet both shippers' distinct needs which common carriers are unable to satisfy; that it has in fact provided this service for other shippers, and that it does not desire to compete with common carriers and owns no tractor-trailer units; and that Teledyne filed a rebuttal statement in which it argued that because of the emergency nature of the shipments involved it is impossible to project accurately tonnages or customer locations, but that there has been a need for a specialized, expedited, express service for small volumes which common carriers have not provided;

It further appearing, that we believe applicant and shippers' evidence is sufficient to establish a prima facie case, cf. *Twin City Freight, Inc.* v. *United States*, 360 F. Supp. 709, 712–713 (D. Minn. 1972); and that inasmuch as applicant will serve only a limited number of persons (shippers) and here will provide service within one hour of a call from either shipper, 7 days-a-week, 24 hours-a-day, will wait at the destination for a return shipment of the same item, and will otherwise perform a personalized service in small vehicles designed to meet the distinct needs of the shippers for an expedited, emergency or express service, the service proposed is contract carriage under the second alternative criterion of section 203(a)(15) of the Interstate Commerce Act;

It further appearing, that considering the evidence in light of the criteria of section 209(b) of the Act reveals: (1) that applicant would be serving only four shippers, an acceptable showing under the first criterion; (2) that the demand for the involved service, although not regular or scheduled, exists and appears to be reasonably consistent, compare *Steere Tank Lines, Inc., Extension—Potash*, 113 M.C.C. 118 (1971); that such service is highly personalized, and distinctly different from the normal freight service provided by common carriers; (3) that since the service proposed is designed to replace an undesirable private carriage operation, since protestants have not transported any of the emergency traffic involved, and since those protestants presently participating in shippers' normal traffic movements will continue to do so according to shippers' sworn testimony, the protestants should not be seriously adversely affected and should suffer no diversion of traffic currently enjoyed; (4) that, because it is not now handling any of the

V 40 N 37 FEB 24 75 XUM XUM

involved traffic, a denial of the authority sought would not have an adverse effect on applicant, but a denial would deprive shipper of a valuable service, which is designed to meet its distinct transportation needs and which service is not or cannot be provided by protestants, either individually or collectively, because of limited territorial authority or because of the nature of the services they offer; and (5) that shipper's changing requirements do not appear to be a significant factor herein;

It further appearing, that although the application as published in the FEDERAL REGISTER indicates that concerning Rawls Division-National Standard Company applicant originally sought authority to transport only molds and equipment, materials and supplies used in the manufacture thereof (except commodities in bulk and commodities requiring special equipment), applicant actually seeks authority by the amendment in its initial verified statement, and the evidence of record submitted by Rawls demonstrates a need for applicant to transport sub-assemblies and equipment, materials, and supplies used in the manufacture thereof (with exceptions); and that accordingly, the grant of authority should be so framed;

It further appearing, that a weight restriction of 14,000 pounds would not serve to protect existing authorized carriers to any major extent, would be difficult to enforce, and would serve solely to make the operations of applicant more difficult and therefore less efficient; that the Commission has in the past deleted such restriction from grants of authority, finding it to be administratively undesirable because it serves only the negative purpose of limiting the efficiency of a carrier's operations, compare No. MC-119285 (Sub-No. 2). *Yellow Cab, Inc., Petition for Modification of Permit* (not printed), decided by Review Board Number 2 on February 22, 1974; and that such a restriction will not be imposed herein;

It further appearing, that because it is possible that other parties, who have relied upon the notice of the application as published, may have an interest in and would be prejudiced by the lack of proper notice of the authority described in the findings in this order, a notice of the authority, actually granted will be published in the FEDERAL REGISTER; and that issuance of a permit in this proceeding will be withheld for a period of 30 days from the date of such publication, during which period any proper party in interest may file an appropriate petition for leave to intervene in this proceeding setting forth in detail the precise manner in which it has been so prejudiced;

And it further appearing, that otherwise a balancing of the evidence under the statutory criteria demonstrates that the benefits of the proposed service to shipper clearly outweigh any adverse effects, real or potential, which protestants might suffer; and that the evidence warrants the grant of authority set forth below which has been phrased to conform with current Commission practice, and establishes that applicant is fit, willing, and able, financially and otherwise, to conduct the operation authorized;

Wherefore, and good cause appearing therefor:

We find, that operation by applicant, in interstate or foreign commerce, as a contract carrier by motor vehicle, over irregular routes, (1) of rolling mill rolls, and equipment, materials and supplies used in the manufacture thereof (except commodities in bulk and commodities the transportation of which requires special equipment), between Lima, Ohio, on the one hand, and, on the other, points in Illinois, Michigan, Pennsylvania, New York, and Kentucky, under a continuing contract or contracts with Teledyne Ohio Steel, of Lima, Ohio, and (2) (a) of molds, (b) of sub-assemblies, and (c) of equipment, materials, and supplies used in the manufacture of molds and of sub-assemblies (except commodities in bulk and commodities the transportation of which requires special equipment), between Lima, Ohio, on the one hand, and, on the other, points in Michigan, Indiana, Kentucky, Illinois, Wisconsin, and Pennsylvania, under a continuing contract or contracts with Rawls Division—National Standard Company, of Lima, Ohio, will be consistent with the public interest and the national transportation policy; that applicant is fit, willing, and able properly to perform such service and to conform to the requirements of the Interstate Commerce Act and the Commission's rules and regulations thereunder; that this decision is not a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969; that an appropriate permit should be issued subject to the condition described in the second succeeding paragraph in this order; and that the application in all other respects should be denied.

It is ordered, That said application, except to the extent granted herein, be, and it is hereby, denied.

It is further ordered, That upon compliance by applicant with the requirements of sections 215, 218, and 221(c) of the Interstate Commerce Act, with the Commission's rules and regulations thereunder, and with the requirements established in *Contracts of Contract Carriers*, 1 M.C.C. 628 (49 CFR Part 1053), within the time specified in the next succeeding paragraph, a permit be issued to applicant authorizing operations in interstate or foreign commerce, as a contract carrier by motor vehicle in the manner described above, subject to prior publication in the FEDERAL REGISTER of a notice of the authority actually granted in this order.

And it is further ordered, That unless compliance is made by applicant with the requirements of sections 215, 218, and 221(c) of the Act within 90 days after the date of service of this order, or within such additional time as may be authorized by the Commission, the grant of authority made herein shall be considered as null and void, and the application shall stand denied in its entirety effective upon the expiration of the said compliance time.

By the Commission, Review Board Number 3.

Reporting Forms

XUM V40-37 FEB 24 75 XUM

Title 31—Money and Finance: Treasury

CHAPTER I—MONETARY OFFICES, DEPARTMENT OF THE TREASURY

PART 128—TRANSACTIONS IN FOREIGN EXCHANGE, TRANSFERS OF CREDIT AND EXPORT OF COIN AND CURRENCY

Reporting Forms

This amendment is issued pursuant to the authority conferred in Title II of Pub. L. 93–110, 87 Stat. 352, 31 U.S.C. 1141–1143, and section 2 of the Emergency Banking Act of 1933, as amended, 12 U.S.C. 95a. Notice of the proposed rulemaking was published in the FEDERAL REGISTER (39 FR 23080) on June 27, 1974. The proposed amendments prescribed supplemental reporting requirements relating to foreign currency transactions by large U.S. enterprises and their foreign affiliates to provide additional data on the nature and source of flows of mobile capital. The Department also published on June 27, 1974, notice of proposed reporting forms which would implement the supplemental reporting requirements. A number of comments were received following publication and have been given consideration.

This amendment adds new §§ 128.35 and 128.36 to Part 128, which prescribe proposed report forms for nonbanking firms. The proposed report forms for banks were prescribed by an amendment to Part 128 published in the FEDERAL REGISTER (39 FR 36962) on October 16, 1974.

Significant revisions to the proposed nonbanking report forms and instructions were made in response to public comment received on the published proposals. These were as follows: (1) the inclusion in both forms of a broader range of asset and liability items because the limitation of reported assets and liabilities to liquid items only, as initially proposed, would seriously misrepresent companies' true position in the specified foreign currencies; (2) the inclusion of intercompany account items denominated in the specified currencies because these are an important part of overall positions in the currencies; (3) the provision for monthly reporting of estimated data on report Form FC–3 where it is impracticable to provide final accounting data on a monthly basis, provided that final data based on the accounting records as of the end of the calendar quarter is reported quarterly on Form FC–3a; (4) the provision for quarterly reporting on Form FC–4 by foreign branches and subsidiaries of firms in the United States, instead of monthly reporting as initially proposed; (5) the addition of the Italian lira to the foreign currencies to be reported; (6) the addition of U.S. dollars to the currencies to be reported on Form FC–4; and (7) clarification of a number of the definitions and instructions.

1. The heading for Subpart C of Part 128 of Title 31 of the Code of Federal Regulations is amended by adding new §§ 128.35 and 128.36, reading as follows:

Sec.

128.35 Foreign Currency Form FC–3/3a: Monthly and/or quarterly report of assets, liabilities, and positions in specified foreign currencies of firms in the United States.

128.36 Foreign Currency Form FC–4: Quarterly consolidated report of assets, liabilities, and positions in specified currencies of foreign branches and subsidiaries of firms in the United States.

2. Subpart C of Part 128 of Title 31 of the Code of Federal Regulations is amended by adding §§ 128.35 and 128.36, reading as follows:

§ 128.35 Foreign Currency Form FC–3/3a: Monthly and/or quarterly report of assets, liabilities, and positions in specified foreign currencies of firms in the United States.

On this form nonbanking business concerns and nonprofit institutions in the United States are required to report monthly and/or quarterly to the Federal Reserve Bank of New York their assets, liabilities, and positions in the foreign currencies specified on the form, as of the last day of business of the month and/or calendar quarter.

§ 128.36 Foreign Currency Form FC–4: Quarterly consolidated report of assets, liabilities, and positions in specified currencies of foreign branches and subsidiaries of firms in the United States.

On this report form, nonbanking firms and nonprofit institutions in the United States are required to report quarterly to the Federal Reserve Bank of New York the consolidated assets, liabilities, and positions of their foreign branches and majority-owned foreign partnerships and subsidiaries in the currencies specified on the form as of the last day of business of the calendar quarter.

Dated: February 14, 1975.

FOREIGN CURRENCY FORM FC–3/3a

PART I—GENERAL INSTRUCTIONS

A. Introduction. This report form is designed to provide monthly data and/or final quarterly data on assets, liabilities, and forward positions denominated in specified foreign currencies of nonbanking business concerns and non-profit institutions located in the United States. Amounts to be reported on this form are the outstanding amounts of liquid assets, short-term trade receivables, other assets, short-term debt, short-term trade payables, other liabilities, outstanding forward exchange contracts bought and sold, and the net overall positions in the currencies specified, as of the close of business on the last business day of the month on Form FC–3, or the last business day of the calendar quarter on Form FC–3a. *Intercompany accounts, including claims on, and liabilities to, foreign branches, partnerships, and subsidiaries, should be included;* if the reporter is the U.S. branch or subsidiary of a foreign nonbanking company, claims on and liabilities to the foreign parent and its branches and subsidiaries should also be included.

Reports on this form are required by law. The relevant Treasury Regulations are published in the Code of Federal Regulations, Title 31, Part 128.

Form FC–3 should be submitted on a final basis for all months of the quarter if practicable, and the box in the upper left-hand corner of the form indicating final data should be marked. When Form FC–3 is thus submitted on a final basis for the month-end which coincides with a calendar quarter-end, a separate filing on Form FC–3a for that date is not required.

If monthly reporting on a final basis is not practicable, Form FC–3 should be submitted on an estimated basis for all months of the quarter to the extent that final data are not available, and the box indicating estimated data should be marked. When Form FC–3 is thus submitted on an estimated basis for the month-end which coincides with a calendar quarter-end, final data based on accounting records as of the end of the calendar quarter are to be reported on Form FC–3a, and the box indicating final data should be marked.

Data reported on this form will be treated as confidential by the Department of the Treasury and the Federal Reserve Bank of New York acting as the fiscal agent of the Treasury. The data reported by individual firms will not be published or otherwise disclosed. Aggregate data derived from reports on this form may be published or otherwise disclosed in a manner which will not reveal the amounts reported by any individual reporting firm.

B. Who must report. All nonbanking business concerns and nonprofit institutions located in the United States, whether sole proprietorships, partnerships, or corporations, including the U.S. branches and subsidiaries of foreign nonbanking concerns, which for their own account have assets, liabilities, or forward positions denominated in specified foreign currencies, as defined in these instructions, are required to report on this form. Bank holding companies which have filed with the Board of Governors of the Federal Reserve System under Section 4 (c) (12) of the Bank Holding Company Act, 12 U.S.C. 1843(c) (12), an irrevocable declaration that they will cease to be a bank holding company, or have received an exemption under Section 4(d) of the Act, 12 U.S.C. 1843(d), are required to file on this form.

The reports of a U.S. parent nonbanking firm having branches, partnerships, or subsidiaries in the United States should include the reportable items of all domestic branches, partnerships, and subsidiaries normally included in the reporter's consolidated financial statements. Reportable items of domestic branches, partnerships or subsidiaries not normally included in the reporter's consolidated financial statements should either be included in the report of the parent or reported separately.

EXCEPTION: Reportable items of nonbanking business concerns that are subsidiaries of banks or bank holding companies should be submitted on Forms FC–1 and FC–1a, which are applicable to banks.

C. Exemptions. A report on Form FC–3 as of any month-end need not be filed for a specified currency if the dollar equivalent value of *each* of the categories stated in the column headings (e.g., liquid assets, other assets, etc.) for that currency is less than $1 million. If, however, the dollar equivalent value of *any* of the categories denominated in a specified currency is $1 million or more, the entire line for that currency must be reported.

The reporter need not include in the consolidation on Form FC–3 as of any month-end the data of a domestic branch, partnership, or subsidiary for a specified currency if the U.S. dollar equivalent value of each of the categories for that currency held by that branch, partnership, or subsidiary is less than $200 thousand. If, however, the dollar equivalent value of *any* of the categories for a particular branch, partnership, or subsidiary denominated in a specified currency is $200 thousand or more, the entire line for that currency must be included in the reporter's consolidation.

Dollar equivalent values, for purposes of the exemption, are to be calculated using exchange rates prevailing as of the close of business on the day to which this report applies.

A report on Form FC–3a as of any quarter-end need not be filed if the reporter was not required to file a report on Form FC–3 for any specified currency for the final month in the calendar quarter; however, if Form FC–3 was not filed due to nonreportable *estimated* data and subsequently final data are found to be reportable, Form FC–3a should be submitted.

D. Filing of reports. Reports of nonbanking firms and nonprofit institutions should be filed with the Federal Reserve Bank of New York. Reports on Form FC–3 should be submitted not later than one month following the last calendar day of the month reported and on Form FC–3a not later than 45 days following the last day of the calendar quarter reported.

Forms should be mailed to:

Balance of Payments Division
International Research Department
Federal Reserve Bank of New York
33 Liberty Street
New York, New York 10045

NOTE.—Attach to the initial report a list of the names of the domestic branches, partnerships, and subsidiaries whose reportable items are included. Subsequent reports should be checked in the box provided to indicate that the list is unchanged from the preceding report or be accompanied by a list of the names of branches, partnerships, and subsidiaries added or deleted. In addition, attach to the initial report a list of the domestic branches, partnerships, or subsidiaries filing separate reports. If in a subsequent report, such separate related reporters are consolidated in your report, please annotate the applicable additions and deletions list to that effect.

E. Definitions—1. *United States.* The term "United States" shall mean the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and the following: American Samoa, the Canal Zone, Guam, Midway Island, the Virgin Islands, and Wake Island.

2. *Specified currencies.* "Specified currencies" are defined as the currencies specified on this form and such other currencies as may be prescribed, from time to time, in separate communications by the Department of the Treasury. "Specified foreign currencies" are specified currencies other than the U.S. dollar.

3. *Liquid assets.* "Liquid assets" are defined as currency, demand deposits, and all time deposits and certificates of deposit without regard to maturity, wherever held; assets payable on demand; and negotiable and other readily transferable commercial and financial instruments due from any obligor which mature in one year or less from the date to which this report applies.

4. *Short-term.* "Short-term" is defined for the purposes of this report as one year or less from the date to which the report applies, regardless of original maturity.

5. *Spot foreign exchange contracts.* "Spot foreign exchange contracts" are defined as outstanding purchases or sales of foreign exchange, including swaps, to be credited or charged to the account of the reporter within the number of business days regarded by the reporter as representing spot transactions.

6. *Outstanding forward exchange contracts.* "Outstanding forward exchange contracts" are defined as the amounts of foreign exchange which the reporter has contracted to receive or deliver at some future date, other than spot exchange. Forward purchases and sales include foreign exchange which the contract requires to be received or delivered in more than the number of business days regarded by the reporter as representing spot purchases or sales.

F. Rounding. All data entries should be rounded to the nearest million foreign currency units. Currencies of which the equivalent of $1 million is less than 1 million units (the United Kingdom pound, for example) should be rounded to one or zero as appropriate for reporting purposes. Amounts rounded to zero in these instances should be footnoted, giving the actual amount in thousands of foreign currency units.

PART II—SPECIFIC INSTRUCTIONS RELATING TO PARTICULAR COLUMNS ON FORM FC–3/3a

(1) *Liquid assets.* Report in this column the gross amount of liquid assets held, regardless of where held, denominated in the specified currencies. Include, for example, currency, demand deposits, all time deposits and certificates of deposit without regard to maturity, and negotiable and other readily transferable commercial and financial instruments, including obligations issued by foreign central, provincial, and municipal governments and their instrumentalities, which mature in one year or less from the date to which this report applies (such assets are to be reported without regard to the place of custody of the instruments). Include intercompany claims (such as notes, loans, and advances) on foreign branches, partnerships, and subsidiaries, or on foreign parents and their branches and subsidiaries, repayable on demand to the reporter, and loans to other parties repayable on demand to the reporter. Include under this heading unsettled spot foreign exchange purchase contracts if booked or recorded. Exclude other loans, trade receivables or other accounts receivable, and unaccepted trade drafts.

(2) *Short-term trade receivables.* Report in this column all outstanding trade credits and accounts and notes receivable (including intercompany trade receivables) denominated in the specified currencies due in one year or less from the date to which this report applies, regardless of original maturity.

Exclude receivables and installment paper which have been sold or discounted (including those sold with recourse to the reporter) before maturity.

(3) *Other assets.* Report in this column all current assets (including intercompany claims) other than liquid assets and short-term trade receivables, and financial assets maturing in more than one year from the date to which this report applies, denominated in the specified currencies. Include inventories, prepayments, long-term trade receivables, and long-term intercompany claims. Include stocks, bonds, and other securities, valued in accordance with the reporter's customary accounting practices. Exclude fixed assets (plant and equipment).

(4) *Short-term debt.* Report in this column the gross amount of the reporter's current liabilities (including intercompany liabilities, other than short-term trade payables, denominated in the specified currencies. Include, for example, bank loans and notes, overdrafts, finance drafts, obligations payable on demand, and other short-term borrowings due in one year or less from the date to which this report applies. Include as well the current portion of long-term debt and unsettled spot foreign exchange sales contracts if booked or recorded. Exclude other loans, trade payables, accrued expenses, and other accounts payable.

(5) *Short-term trade payables.* Report in this column all outstanding trade liabilities and accounts and notes (including intercompany trade payables) denominated in the specified currencies due and payable in one year or less from the date to which this report applies, regardless of original maturity.

(6) *Other liabilities.* Report in this column all financial liabilities (including intercompany liabilities) other than short-term debt and short-term trade payables. Include long-term trade payables, accrued expenses when calculated in the normal accounting cycle, and liabilities maturing in more than one year from the date to which this report applies. Exclude capitalized leases for plant and equipment.

(7) *Forward exchange bought.* Report in this column the gross amount of outstanding forward exchange contracts calling for the delivery of the specified currency to the reporter.

(8) *Forward exchange sold.* Report in this column the gross amount of outstanding forward exchange contracts calling for the delivery of the specified currency by the reporter.

(9) *Net overall position.* Report in this column the sum of the amounts reported in each specified currency in columns (1), (2), (3), and (7), less the sum of the amounts reported in the specified currency in columns (4), (5), (6), and (8). If the result of the foregoing computations is negative, so indicate by enclosing the figure in parentheses. Reporters showing large amounts in this column may wish to explain briefly in a footnote in the Remarks section.

Enter opposite *Total (for arithmetic check purposes only)* the arithmetic total of the digits appearing in each column.

In the space provided on the form, the reporter should show the number of domestic branches, partnerships, and subsidiaries included in the report.

PART III—RELATIONSHIP TO TREASURY FOREIGN EXCHANGE FORMS

Amounts reportable on this form differ in several respects from amounts reportable on Treasury Foreign Exchange Forms C–1/2 and C–3:

1. All financial assets and liabilities denominated in the specified currencies are to be reported, including those representing liabilities to, and claims on, persons in the United States. The amounts reportable on Treasury Foreign Exchange Forms C–1/2 and C–3 are limited to liabilities to, and claims on, foreigners. Similarly, amounts reportable on Treasury Foreign Exchange Form S–4 are limited to foreign debit and credit balances.

2. Forms C–1/2 and C–3 *exclude* intercompany claims and liabilities, whereas Form FC–3 *includes* such claims and liabilities.

3. All financial assets and liabilities denominated in the specified currencies appearing on your books and records are to be reported, *including* those held for collection by banks in the United States. The amounts reportable on Forms C–1/2 and C–3 *exclude* accounts, notes, and drafts held for collection by banks in the United States.

4. Assets and liabilities are classified on this form on the basis of time remaining to maturity. Amounts reportable on Forms C–1/2 and C–3 are classified on the basis of original maturity.

5. Outstanding purchases and sales of spot and forward exchange in the specified currencies are reportable on this form but are not reported on the Treasury Foreign Exchange Forms.

6. This form requires that assets and liabilities be classified by currency rather than by country. The amounts reportable on Forms C–1/2 and C–3 are classified by country of domicile of the foreigner.

7. Prepayments are included in "other assets" and "other liabilities" on Form FC–3 and FC–4, whereas payments made in advance of delivery of goods contracted for are reported as "short-term" liabilities to and claims on "foreigners" on Forms C–1/2.

FOREIGN CURRENCY FORM FC-4

PART I—GENERAL INSTRUCTIONS

A. *Introduction.* This report form is designed to provide quarterly data on assets, liabilities, and forward positions denominated in specified currencies of foreign branches and majority-owned foreign partnerships and subsidiaries of nonbanking business concerns and nonprofit institutions located in the United States. Amounts to be reported on this form are the outstanding amounts of liquid assets, short-term trade receivables, other assets, short-term debt, short-term trade payables, other liabilities, outstanding forward exchange contracts bought and sold, and the net overall positions in the currencies specified, as of the close of business on the last business day of the calendar quarter. *Intercompany accounts, including claims on and liabilities to the U.S. parent and its domestic and foreign branches, partnerships, and subsidiaries should be included, as well as claims on and liabilities to any foreign parent of the U.S. parent, and any branches and subsidiaries of such a foreign parent.*

Reports on this form are required by law. The relevant Treasury Regulations are published in the Code of Federal Regulations, Title 31, Part 128.

Data reported on this form will be treated as confidential by the Department of the Treasury and the Federal Reserve Bank of New York acting as the fiscal agent of the Treasury. The data reported by individual firms will not be published or otherwise disclosed. Aggregate data derived from reports on this form may be published or otherwise disclosed in a manner which will not reveal the amounts reported by any individual reporting firm.

B. *Who must report.* All nonbanking business concerns and nonprofit institutions located in the United States, whether sole proprietorship, partnerships, or corporations, including the U.S. branches and subsidiaries of foreign nonbanking concerns, which have branches or majority-owned partnerships or subsidiaries located abroad which for their own account have assets, liabilities, or forward positions in specified foreign currencies, as defined in these instructions, are required to submit a consolidated report on this form covering the reportable items of all such foreign branches, partnerships and subsidiaries. Bank holding companies which have filed with the Board of Governors of the Federal Reserve System under Section 4(c)(12) of the Bank Holding Company Act, 12 U.S.C. 1843(c)(12), an irrevocable declaration that they will cease to be a bank holding company, or have received an exemption under Section 4(d) or the Act, 12 U.S.C. 1843(d), are required to file on this form.

Reports must be filed with respect to foreign partnerships or subsidiaries in which the majority ownership is held by an affiliated group of United States firms. In such cases, the reports should be filed by the United States firm which holds the largest percentage of the shares held by United States firms. If the United States firms hold equal shares, the reports should be filed by one of the United States firms by agreement among them.

EXCEPTION: Reportable items of the foreign branches, partnerships and subsidiaries of nonbanking business concerns that are subsidiaries of banks or bank holding companies in the United States should be submitted on Forms FC-2 and FC-2a, which are applicable to banks.

C. *Exemptions.* A report as of the end of any calendar quarter need not be filed with respect to a foreign branch, partnership or subsidiary for a specified foreign currency if the dollar equivalent value of *each* of the categories stated in the column headings (e.g., liquid assets, other assets, etc.) for that currency is less than $1 million. If, however, the dollar equivalent value of *any* of the categories denominated in a specified currency other than the U.S. dollar is $1 million or more, the entire line for that currency must be reported. Dollar equivalent values, for purposes of the exemption, are to be calculated using exchange rates prevailing as of the close of business on the day to which this report applies.

A report as of any quarter-end need not be filed with respect to a foreign branch, partnership or subsidiary holding only a U.S. dollar position and no reportable position in the specified foreign currencies.

D. *Filing of reports.* Reports should be filed quarterly with the Federal Reserve Bank of New York, not later than 45 days following the last day of the calendar quarter reported.

Forms should be mailed to:

Balance of Payments Division
International Research Department
Federal Reserve Bank of New York
33 Liberty Street
New York, New York 10045

NOTE.—Attach to the initial report a list of the names and countries of the foreign branches, partnerships, and subsidiaries whose reportable items are included. Subsequent reports should be checked in the box provided to indicate that the list is unchanged from the preceding report or should be accompanied by a list of the names and countries of branches, partnerships and subsidiaries added or deleted.

E. *Definitions*—1. *United States.* The term "United States" shall mean the States of the United States, the District of Columbia, the Commonwealth of Puerto Rico, and the following: American Samoa, the Canal Zone, Guam, Midway Island, the Virgin Islands, and Wake Island.

2. *Specified currencies.* "Specified currencies" are defined as currencies specified on this form and such other currencies as may be prescribed, from time to time, in separate communications by the Department of the Treasury. "Specified foreign currencies" are specified currencies other than the U.S. dollar.

3. *Majority-owned foreign partnerships.* "Majority-owned foreign partnerships" are defined as partnerships organized under the laws of a foreign country in which one or more nonbanking business concerns and nonprofit institutions in the United States directly or indirectly, own more than 50 percent profit interest.

4. *Majority-owned foreign subsidiaries.* "Majority-owned foreign subsidiaries" are defined as foreign corporations in which one or more nonbanking business concerns and nonprofit institutions located in the United States, directly or indirectly, own stock possessing more than 50 percent of the total combined voting power of all classes of stock entitled to vote, or more than 50 percent of the total value of all classes of stock.

5. *Liquid assets.* "Liquid assets" are defined as currency, demand deposits, all time deposits and certificates of deposits without regard to maturity, wherever held; assets payable on demand; and negotiable and other readily transferable commercial and financial instruments due from any obligor which mature in one year or less from the date to which this report applies.

6. *Short-term.* "Short-term" is defined for the purposes of this report as one year or less from the date to which the report applies, regardless of original maturity.

7. *Spot foreign exchange contracts.* "Spot foreign exchange contracts" are defined as outstanding purchases or sales of foreign exchange, including swaps, to be credited or charged to the account of your reportable foreign branches, partnerships and subsidiaries, within the number of business days regarded by the reportable unit as representing spot transactions.

8. *Outstanding forward exchange contracts.* "Outstanding forward exchange contracts" are defined as foreign exchange which your reportable foreign branches and majority-owned partnerships and subsidiaries have contracted to receive or deliver at some future date, other than spot exchange. Forward purchases and sales include foreign exchange which the contract requires to be received or delivered in more than the number of business days regarded by your reportable foreign branches, partnerships, and subsidiaries as representing spot purchases or sales.

F. *Rounding.* All data entries should be rounded to the nearest million currency units. Currencies of which the equivalent of $1 million is less than 1 million units (the United Kingdom pound, for example) should be rounded to one or zero as appropriate for reporting purposes. Amounts rounded to zero in these instances should be footnoted, giving the actual amount in thousands of foreign currency units.

PART II—SPECIFIC INSTRUCTIONS RELATING TO PARTICULAR COLUMNS ON FORM FC-4

(1) *Liquid assets.* Report in this column the consolidated gross amount of liquid assets held by your reportable foreign branches, partnerships, and subsidiaries, regardless of where held, denominated in the specified currencies. Include, for example, currency, demand deposits, all time deposits and certificates of deposit without regard to maturity, and negotiable and other readily transferable commercial and financial instruments, including obligations issued by central provincial, or municipal governments and their instrumentalities, which mature in one year or less from the date to which this report applies (such assets are to be reported without regard to the place of custody of the instruments). Include intercompany claims (such as notes, loans, and advances) on the U.S. parent and its foreign branches, partnerships, and subsidiaries, or on foreign parents of the U.S. parent and their branches and subsidiaries, repayable on demand to your reportable foreign branches, partnerships, and subsidiaries, and loans to other parties repayable on demand to your reportable foreign branches, partnerships, and subsidiaries. Include under this heading unsettled spot foreign exchange purchase contracts if booked or recorded. Exclude other loans, trade receivables or other accounts receivable, and unaccepted trade drafts.

(2) *Short-term trade receivables.* Report in this column all outstanding trade credits and accounts and notes receivable (including intercompany trade receivables) denominated in the specified currencies due to your reportable foreign branches, partnerships and subsidiaries in one year or less from the date to which this report applies, regardless of original maturity. Exclude receivables and installment paper which have been sold or discounted (including those sold with resource to your reportable foreign branches, partnerships, and subsidiaries) before maturity.

(3) *Other assets.* Report in this column all current assets (including intercompany claims) other than liquid assets and short-term trade receivables, and financial assets maturing in more than one year from the date to which this report applies, denominated in the specified currencies. Include inventories, prepayments, long-term trade receivables, and long-term intercompany claims. Include stocks, bonds and other securities, valued in accordance with custom-

XUM
V 40 37 FEB 24 75 XUM

ary accounting practices of your reportable foreign branches, partnerships, and subsidiaries. Exclude fixed assets (plant and equipment).

(4) *Short-term debt.* Report in this column the consolidated gross amount of current liabilities (including intercompany liabilities), other than short-term trade payables, of your reportable foreign branches, partnerships, and subsidiaries denominated in the specified currencies. Include, for example, bank loans and notes, overdrafts, finance drafts, obligations payable on demand, and other short-term borrowings due in one year or less from the date to which this report applies. Include as well the current portion of long-term debt and unsettled spot foreign exchange sales contracts if booked or recorded. Exclude other loans, trade payables, accrued expenses, and other accounts payable.

(5) *Short-term trade payables.* Report here all outstanding trade liabilities and accounts and notes (including intercompany trade payables) denominated in the specified currencies due and payable by your reportable foreign branches, partnerships, and subsidiaries in one year or less from the date to which this report applies, regardless of original maturity.

(6) *Other liabilities.* Report in this column all financial liabilities (including intercompany liabilities) of your reportable foreign branches, partnerships, and subsidiaries other than short-term debt and short-term trade payables. Include long-term trade payables, accrued expenses when calculated in the normal accounting cycle, and liabilities maturing in more than one year from the date to which this report applies. Exclude capitalized leases for plant and equipment.

(7) *Forward exchange bought.* Report in this column the consolidated gross amount of outstanding forward exchange contracts calling for the delivery of the specified currency to your reportable foreign branches, partnerships and subsidiaries.

(8) *Forward exchange sold.* Report in this column the consolidated gross amount of outstanding forward exchange contracts calling for the delivery of the specified currency by your reportable foreign branches, partnerships, and subsidiaries.

(9) *Net overall position.* Report in this column the sum of the amounts reported in each specified currency in columns (1), (2), (3), and (7), less the sum of the amounts reported in the specified currency in columns (4), (5), (6), and (8). If the result of the foregoing computations is negative, so indicate by enclosing the figure in parentheses. Reporters showing large amounts in this column may wish to explain briefly in a footnote in the Remarks section.

Enter opposite *Total (for arithmetic check purposes only)* the arithmetic total of the digits appearing in each column.

In the space provided on the form, the reporter should show the number of foreign branches, partnerships, and subsidiaries included in the report.

Data reported on this form will be held in confidence.

FERROALLOYS MANUFACTURING POINT SOURCE CATEGORY

Interim Effluent Limitations and Guidelines, and Proposed Pretreatment Standards

XUM
V40-37 FEB 24 75 XUM

Title 40—Protection of the Environment

CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

SUBCHAPTER N—EFFLUENT GUIDELINES AND STANDARDS

[FRL 334–7]

PART 424—FERROALLOYS MANUFACTURING POINT SOURCE CATEGORY

Interim Regulations

Notice is hereby given that effluent limitations and guidelines for existing sources set forth in interim final form below are promulgated by the Environmental Protection Agency (EPA). On February 22, 1974, EPA promulgated a regulation adding Part 424 to Chapter 40 of the Code of Federal Regulations (39 FR 6806). That regulation with subsequent amendments established effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources for the ferroalloy manufacturing point source category. The regulation set forth below will amend 40 CFR Part 424—ferroalloy manufacturing point source category by adding thereto effluent limitations and guidelines for existing sources for the covered calcium carbide furnaces with wet air pollution control devices subcategory (Subpart D), the other calcium carbide furnaces subcategory (Subpart E), the electrolytic manganese products subcategory (Subpart F) and the electrolytic chromium subcategory (Subpart G) pursuant to sections 301, 304 (b) and (c), of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314 (b) and (c), 86 Stat. 816 et seq.; Pub. L. 92–500) (the Act). Simultaneously, the Agency is publishing in proposed form standards of performance for new point sources and pretreatment standards for existing sources and for new sources.

Regulations for uncovered (open) calcium carbide furnaces have been promulgated under Part 415, inorganic chemicals manufacturing point source category (39 FR 9612), and the regulation herein is intended to be complementary to that for inorganic chemicals.

(a) *Legal Authority.* Section 301(b) of the Act requires the achievement by not later than July 1, 1977, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of the best practicable control technology currently available as defined by the Administrator pursuant to section 304(b) of the Act. Section 301(b) also requires the achievement by not later than July 1, 1983, of effluent limitations for point sources, other than publicly owned treatment works, which require the application of best available technology economically achievable which will result in reasonable further progress toward the national goal of eliminating the discharge of all pollutants, as determined in accordance with regulations issued by the Administrator pursuant to section 304(b) of the Act.

Section 304(b) of the Act requires the Administrator to publish regulations providing guidelines for effluent limitations setting forth the degree of effluent reduction attainable through the application of the best practicable control technology currently available and the degree of effluent reduction attainable through the application of the best control measures and practices achievable including treatment techniques, process and procedural innovations, operating methods and other alternatives. The regulation herein sets forth effluent limitations and guidelines, pursuant to sections 301 and 304(b) of the Act, for the covered calcium carbide furnaces with wet air pollution control devices subcategory (Subpart D), the other calcium carbide furnaces subcategory (Subpart E), the electrolytic manganese products subcategory (Subpart F) and the electrolytic chromium subcategory (Subpart G) of the ferroalloy manufacturing point source category.

Section 304(c) of the Act requires the Administrator to issue to the States and appropriate water pollution control agencies information on the processes, procedures or operating methods which result in the elimination or reduction of the discharge of pollutants to implement standards of performance under section 306 of the Act. The reports or "Development Documents" referred to below provide, pursuant to section 304(c) of the Act, information on such processes, procedures or operating methods.

Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants. Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. Section 307(b) of the Act requires the establishmen of pretreatment standrards for pollutants introduced into publicly owned treatment works and 40 CFR 128 establishes that the Agency will propose specific pretreatment standards at the time effluent limitations are established for point source discharges. In another section of the FEDERAL REGISTER regulations are proposed in fulfillment of these requirements.

(b) *Summary and Basis of Proposed Effluent Limitations and Guidelines for Existing Sources and Standards of Performance and Pretreatment Standards for New Sources*—(1) *General methodology.* The effluent limitations and guidelines set forth herein were developed in the following manner. The point source category was first studied for the purpose of determining whether separate limitations are appropriate for different segments within the category. This analysis included a determination of whether differences in raw material used, product produced, manufacturing process employed, age, size, waste water constituents and other factors require development of separate limitations for different segments of the point source category. The raw waste characteristics for each such segment were then identified. This included an analysis of the source, flow and volume of water used in the process employed, the sources of waste and waste waters in the operation and the constituents of all waste water. The constituents of the waste waters which should be subject to effluent limitations were identified.

The control and treatment technologies existing within each segment were identified. This included an identification of each distinct control and treatment technology, including both in-plant and end-of-process technologies, which is existent or capable of being designed for each segment. It also included an identification of, in terms of the amount of constituents and the chemical, physical, and biological characteristics of pollutants, the effluent level resulting from the application of each of the technologies. The problems, limitations and reliability of each treatment and control technology were also identified. In addition, the nonwater quality environmental impact, such as the effects of the application of such technologies upon other pollution problems, including air and solid waste were identified. The energy requirements of each control and treatment technology were determined as well as the cost of the application of such technologies.

The information, as outlined above, was then evaluated in order to determine what levels of technology constitute the "best practicable control technology currently available." In identifying such technologies, various factors were considered. These included the total cost of application of technology in relation to the effluent reduction benefits to be achieved from such application, the age of equipment and facilities involved, the process employed, the engineering aspects of the application of various types of control techniques, process changes, nonwater quality environmental impact (including energy requirements) and other factors.

The data upon which the above analysis was performed included EPA permit applications, EPA sampling and inspections, consultant reports, and industry submissions.

(2) *Summary of conclusions with respect to the covered calcium carbide furnaces with wet air pollution control devices subcategory (Subpart D), the other calcium carbide furnaces subcategory (Subpart E), the electrolytic manganese products subcategory (Subpart F), and the electrolytic chromium subcategory (Subpart G), of the ferroalloy manufacturing point source category*—(i) *Categorization.* For purposes of establishing effluent limitations and standards of performance, the calcium carbide and electrolytic ferroalloys segments of the ferroalloys industry were divided into subcategories on the basis of water uses, waste control technologies, and wastewater constituents. The subcategories are: covered calcium carbide furnaces with wet air pollution control devices (Subpart D); other calcium carbide furnaces (Subpart E); electrolytic manganese products (Subpart F); and electrolytic chromium (Subpart G).

This method of subcategorization permits a discharge for those covered calcium carbide furnaces controlled for air pollution with wet systems and is not excessively permissive to those furnaces which are controlled with dry systems or which have no discharge of process waste water.

Subcategorization of the electrolytic ferroalloys segment is based largely upon the wastewater constituents present and the treatment necessary for the removal of those constituents.

(ii) *Waste characteristics.* The known significant pollutants contained in waste water from calcium carbide manufacture are suspended solids, with cyanide also present in the waste waters from covered furnaces. The pollutants present in waste waters resulting from the manufacture of electrolytic ferroalloys are suspended solids and ammonia. Manganese is found to some extent in the wastes from all electrolytic products, while chromium is found only in the wastes resulting from chromium production. Additionally, the wastewaters from calcium carbide or electrolytic ferroalloys production may be highly acidic or alkaline.

While other pollutants, such as dissolved solids, iron, aluminum, zinc, chloride, copper, etc., sometimes may be present in the process waste waters, effluent limitations were not developed for these constituents because (i) they are discharged intermittently and in small quantities, (ii) they are effectively removed from the effluent by the application of waste water control and treatment technology required for the removal of process waste water constituents which are the subject of effluent limitations, (iii) there is insufficient data available upon which to base effluent limitations, or (iv) the known methods for their removal from waste water are prohibitively expensive at this time.

(iii) *Origin of waste water pollutants.*—(1) *Covered calcium carbide furnaces with wet air pollution control devices subcategory.* Wet air cleaning devices collect particulates from furnace gases by gas scrubbing. In the covered type of furnace, the off-gases contain about 70% carbon monoxide and smaller quantities of cyanide. Waste water from these sources, therefore, contains large quantities of suspended solids and smaller quantities of cyanide. Since some of the particulate matter trapped in the gas is lime from the smelting process, the waste water is at a high pH.

(2) *Other calcium carbide furnaces subcategory.* Air pollution control in this category may be by baghouses in conjunction with evaporative cooling, or nonexistent, and little water pollution potential exists, except as runoff or leachate from the landfilled particulate if the furnace gases are cleaned.

(3) *Electrolytic manganese products subcategory.* All three electrolytic ferroalloys are produced by very similar processes. The process generally involves leaching the metal from ores, ferroalloys or slag from ferroalloy production, purification of the leach solution, platting of the product and final product preparation. Ammonia is used in the production of electrolytic manganese and chromium, but not for that of manganese dioxide. Although there are other differences between the processes, they are of limited importance insofar as the raw waste is concerned and the similarities are more striking than the differences.

Water is used extensively, both for preparation of the electrolyte and for washing the finished metal. Some small quantity of electrolyte may be present in the wastewaters, and some plants hydraulically transport leach and other filter residues to tailings ponds. Electrolytic manganese plants appear to have two waste streams—one is a highly concentrated stream and the other is (relatively) dilute. The first stream, hereinafter referred to as strong electrolytic manganese wastes, derives from the hydraulic transport of filter residues to tailings ponds and also contains the small quantity of electrolyte solution which is spilled or dumped. As a result, wastewaters may contain several thousand mg/l of suspended solids, manganese and ammonia, and may also be at a low pH. The second waste stream is fairly dilute and will be hereafter called the weak electrolytic manganese wastes. This derives from product washing and other miscellaneous water uses. This waste stream, although the flow may be considerable, only contains a few hundred mg/l of suspended solids, manganese and ammonia.

The manganese dioxide plant surveyed had one waste stream, which was generally comparable to the weak electrolytic manganese wastes, except that the suspended solids concentrations were higher and the ammonia concentration lower.

(4) *Electrolytic chromium subcategory.* As in the electrolytic manganese products subcategory, water is used extensively and the resulting wastewaters contain several thousand mg/l of chromium, suspended solids and ammonia and are at a low pH. Because of process economics, hexavalent chromium is reduced to trivalent chromium as an integral part of the process and only very small quantities appear in the wastewater. Manganese also appears in appreciable quantities.

(iv) *Treatment and control technology.* Waste water treatment and control technologies have been studied for each subcategory of the industry to determine what is the best practicable control technology currently available.

(1) *Treatment in the covered calcium carbide furnaces with wet air pollution control devices subcategory.* Control and treatment techniques consist of physical/chemical treatment to remove suspended solids, destroy cyanide and lower the pH. Cyanide destruction can be accomplished by alkaline chlorination, followed by neutralization and clarification in settling ponds (or lagoons), in clarifiers or in sand or multi-media filters. Settling ponds and clarifiers, when well designed and operated, are capable of producing effluent levels of 25 mg/l suspended solids, independent of influent concentrations. Sand filters (when well designed and operated) are capable of reducing the suspended solids effluent concentrations to 10 mg/l. In all types of clarification equipment, proper operation is important, since (for example) excessive solids buildup in a lagoon can reduce the detention time and thereby reduce the quantity of solids which are removed.

Cyanide destruction can be accomplished by alkaline chlorination, although other methods such as oxidation or ozonation may be used depending on the design of the water treatment system. Alkaline chlorination can reduce the effluent cyanide concentration to about 0.2 mg/l.

The best practicable control technology currently available has been determined to be use of a clarifier flocculator and chemical treatment, the latter by alkaline chlorination and neutralization. The best available control technology economically achievable consists of the use of best practicable control technology currently available, plus use of sand or multi-media filters. The best available demonstrated control technology, processes, operating methods, or other alternatives for new sources consists of recirculation of scrubber waste water, and treatment of blowdown by best available control technology economically achievable.

(2) *Treatment in the other calcium carbide furnaces subcategory.* Use of a fabric filter or baghouse for air cleaning reduces waste water discharge to zero. This subcategory is presently achieving no discharge of process waste water. The best practicable control technology currently available, the best available control technology economically achievable and the best available demonstrated control technology, processes, operating methods, or other alternatives for new sources consists of the use of dry dust collection devices.

(3) *Treatment in the electrolytic manganese products subcategory.* Treatment at the present time is largely by settling lagoons, although oxidation or evaporation ponds are also used. Control and treatment techniques available consist of physical/chemical treatment to remove suspended solids, manganese and ammonia, and neutralize the acidity. Manganese removal is facilitated by raising the pH of the wastewater to 9.5 or higher, at which point the manganese is precipitated. Clarification-flocculation will then remove both suspended solids and manganese. Ammonia removal may be accomplished by either stripping or breakpoint chlorination. Choice of the particular method depends largely upon concentrations and volume to be treated. Relatively dilute wastewaters may be more economically treated by chlorinating, while with small quantities of stronger wastes steam stripping (and the recovery of ammonia which may be used in the process) may be preferable. Although ammonia can be destroyed by bi-

XUM V40137 FEB 24 75 XUM

ological treatment, the cost of this method (and also for steam stripping of the weak wastes) appears to make it unfeasible economically for this subcategory at this time. After treatment for manganese or ammonia, the wastewater should be neutralized to render it suitable for discharge.

The best practicable control technology currently available for the weak electrolytic manganese wastewater stream has been determined to be use of alkaline precipitation of manganese, clarification-flocculation and neutralization for discharge: and for the strong electrolytic manganese wastewater stream, complete recirculation after clarification. Best practicable control technology currently available for electrolytic manganese dioxide has been determined to be the same treatment as for the weak electrolytic manganese wastes. The best available control technology economically achievable for electrolytic manganese wastes consists of the use of best practicable control technology currently available, plus partial recirculation of treated wastewater, plus breakpoint chlorination of the portion to be discharged. Best available control technology economically achievable for electrolytic manganese dioxide wastes has been determined to be the same as for the weak electrolytic manganese wastes. Best available demonstrated control technology, processes, operating methods, or other alternatives for new sources producing electrolytic manganese consists of the limitation, through design, of the quantity of wastewater discharged, mechanical transport of filter residues and the use of best practicable control technology currently available and breakpoint chlorination. The best available demonstrated control technology, processes, operating methods, or other alternatives for new sources for electrolytic manganese dioxide wastes has been determined to be the same as for best available control technology economically achievable.

(4) *Treatment in the electrolytic chromium subcategory.* Techniques are identical to those for electrolytic manganese products, with the exception that chromium, in addition to manganese, must be removed. Removal of chromium is facilitated at about pH 8.0.

The best practicable control technology currently available has been determined to be alkaline precipitation of chromium and manganese, clarification-flocculation, breakpoint chlorination and neutralization. The best available control technology economically achievable consists of the use of best practicable control technology currently available, plus partial recirculation of treated wastewater. The best available demonstrated control technology, processes, operating methods, or other alternatives for new sources consists of the limitation, through design, of the quantity of wastewater discharged, mechanical transport of filter residues and the use of best practicable control technology currently available.

The proper management of solid wastes resulting from pollution control systems must be practiced. Pollution control technologies generate many different amounts and types of solid wastes and liquid concentrates through the removal of pollutants. These substances vary greatly in their chemical and physical composition and may be either hazardous or non-hazardous. A variety of techniques may be employed to dispose of these substances depending on the degree of hazard.

If thermal processing (incineration) is the choice for disposal, provisions must be made to ensure against entry of hazardous pollutants into the atmosphere. Consideration should also be given to recovery of materials of value in the wastes.

For those waste materials considered to be nonhazardous where land disposal is the choice for disposal, practices similar to proper sanitary landfill technology may be followed. The principles set forth in the EPA's Land Disposal of Solid Wastes Guidelines 40 CFR Part 241 may be used as guidance for acceptable land disposal techniques.

For those waste materials considered to be hazardous, disposal will require special precautions. In order to ensure long-term protection of public health and the environment, special preparation and pretreatment may be required prior to disposal. If land disposal is to be practiced, these sites must not allow movement of pollutants to either ground or surface waters. Sites should be selected that have natural soil and geological conditions to prevent such contamination or, if such conditions do not exist, artificial means (e.g. liners) must be provided to ensure long-term protection of the environment from hazardous materials. Where appropriate, the location of solid hazardous materials disposal sites should be premanently recorded in the appropriate office of the legal jurisdiction in which the site is located.

(v) *Cost estimates for control of waste water pollutants.* In the calcium carbide segment, only the plants within Subpart D will incur any costs in meeting the proposed limitations. All plants within Subpart E are presently achieving zero discharge and therefore will not be impacted by that limitation.

It is estimated that the cost of meeting the best practicable control technology currently available limitations will cost less than $10,000 for the covered calcium carbide subcategory. The unit price of pollution control is estimated at a maximum of $0.19 per metric ton. Additional annual costs are estimated to be $0.02 per metric ton for Subpart D. For 1983, it is estimated that additional pollution control costs will total about $168,000 in investment for Subpart D, or a maximum of $0.88 per metric ton. Additional annual costs will amount to a maximum of $0.26 per metric ton.

The use of best practicable control technology for the electrolytic manganese products subcategory will cost the industry about 1.8 percent of the sales price of this commodity. Investment costs per ton are estimated at $29.79 for electrolytic manganese and $23.40 for electrolytic manganese dioxide. Annual costs are estimated at $12.42 per ton for electrolytic manganese and $9.75 per ton for manganese dioxide. The investment cost for the electrolytic chromium subcategory is estimated to be $90.71 per ton and the total annual cost $37.81 per ton. Although the annual cost per ton for chromium is high, it represents less than 1 percent of the sales price of this metal.

The cost of the application of the best available technology economically achievable is estimated to be an additional $8.51 per ton for electrolytic manganese and $7.11 per ton for manganese dioxide for investment costs. The additional annual costs are estimated at $3.55 per ton for electrolytic manganese and $2.97 for manganese dioxide. The additional investment and annual costs per ton for electrolytic chromium are estimated to be $8.96 and $3.74 respectively. These costs will be borne to the greatest degree by older, isolated plants, i.e., those plants which do not have another electrolytic or similar process with which the wastes could be combined to achieve overall cost reductions.

(vi) *Energy requirements and non-water quality environmental impacts.* Energy requirements for operation of water pollution control systems are estimated to be less than 0.1 percent of the power required for the production of calcium carbide.

For the electrolytic ferroalloys segment, the energy requirements are estimated to be less than 1 percent of the production power requirements for the electrolytic manganese products subcategory and less than 2 percent for the electrolytic chromium subcategory.

(vii) *Economic impact analysis.* The general conclusion of the economic impact analysis is that the guidelines will have little economic impact on the industries in question. Estimated incremental capital costs for both BPCTCA and BATEA compliance amount to less than 1 percent of 1973 net earnings for each of these industries in question while combined incremental operating costs per ton of product will be less than three percent of current selling prices in each case. All of the firms operating in these industries are large, financially strong enterprises well able to respond to the guidelines without danger to their basic stability and growth. It should be noted in this connection that the demand for ferroalloys is derived from the demand for other products in which they constitute relatively minor inputs. Furthermore, there are no close substitutes in most cases, except for calcium carbide. Consequently, the elasticity of demand for these products is relatively low, indicating that the modest cost increases generated by compliance with the guidelines can be passed on without significant consequences in terms of reduced demand and employment. Since the ferroalloys in question are relatively minor inputs to their consumer industries, it also follows that insignificant internal and external impacts are to be anticipated for the consumer industries.

No plant closures or reductions in production and employment are anticipated.

The reports entitled "Development Document for Interim Final Effluent Limitations Guidelines and Proposed New Source Performance Standards for the Calcium Carbide Segment of the Ferroalloy Manufacturing Point Source Category" and "Development Document for Interim Final Effluent Limitations Guidelines and Proposed New Source Performance Standards for the Electrolytic Ferroalloys Segment of the Ferroalloy Manufacturing Point Source Category" detail the analysis undertaken in support of the interim final regulation set forth herein and are available for inspection in the EPA Freedom of Information Center, Room 204, West Tower, Waterside Mall, Washington, D.C., at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the regulation is also available for inspection at these locations. Copies of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of these reports are available. Persons wishing to obtain a copy may write the EPA Office of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460, Attention: Ms. Ruth Brown, A-107.

When this regulation is promulgated in final rather than interim form, revised copies of the Development Documents will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the economic analysis document will be available through the National Technical Information Service, Springfield, VA 22151.

(c) *Summary of public participation.* Prior to this publication, the agencies and groups listed below were consulted and given an opportunity to participate in the development of effluent limitations, guidelines and standards proposed for the ferroalloys manufacturing category. All participating agencies have been informed of project developments. Initial drafts of the Development Documents was sent to all participants and comments were solicited on that report. The following are the principal agencies and groups consulted: (1) Effluent Standards and Water Quality Information Advisory Committee (established under section 515 of the Act); (2) all State and U.S. Territory Pollution Control Agencies; (3) Ohio River Valley Water Sanitation Commission; (4) New England Interstate Water Pollution Control Commission; (5) Delaware River Basin Commission; (6) Conservation Foundation; (7) Businessmen for the Public Interest; (8) Environmental Defense Fund, Inc.; (9) Natural Resources Defense Council; (10) The American Society of Civil Engineers; (11) Water Pollution Control Federation; (12) National Wildlife Federation; (13) The American Society of Mechanical Engineers; (14) the Manufacturing Chemists Association; and (15) The Ferroalloys Association.

The following responded with comments: the Delaware River Basin Commission, the Manufacturing Chemists Association, the New York State Department of Environmental Conservation, the Illinois Environmental Protection Agency, the Michigan Department of Environmental Resources, Foote Mineral Company, Kerr-McGee Corporation, Union Carbide Corporation and the Ferroalloys Association.

The primary issues raised in the development of the proposed effluent limitations guidelines and standards of performance and the treatment of these issues herein are as follows:

1. The industry requested that calcium carbide be placed within the ferroalloy industry (rather than the inorganic chemicals industry) for regulation. It was also requested that the standards be written on the basis of pollutant per megawatt hour of furnace power consumption, rather than pollutant per ton of product.

Since the manufacturing process characteristics are similar for ferroalloys and calcium carbide production, those calcium carbide furnaces not included in the inorganic chemicals effluent guidelines have been included in the ferroalloys manufacturing category for the issuance of effluent limitations. Open (uncovered) furnaces are regulated in the inorganic chemicals guidelines and duplication would be pointless. There is a limited justification for expressing the limitations on the basis of furnace power (i.e., megawatt-hours) rather than on production tonnage. Furnace power was used as the basis for the first group of ferroalloy regulations because this was simpler and more consistent within the categories than was tonnage. Power consumption can also be related to production of a specific alloy, so that by knowing power usage, tonnages of the various alloys can be calculated. Within the calcium carbide sector, however, power usage is a relatively uniform 2.9 mwhr/kkg (2.6 mwhr/ton), whereas in the alloy segment power usage may range from 2.6 mwhr/kkg (2.4 mwhr/ton) for ferromanganese to 15.4 mwhr/kkg (14.0 mwhr/ton) for silicon metal. Because of this relatively constant power usage and the lack of other than very generalized data regarding power usage for calcium carbide production, while specific data is available regarding tonnage, production tonnage is presently the better basis for the limitations.

2. It was remarked that the effluent limitations as presented in the contractor's report for covered carbide furnaces are more stringent than the effluent limitations promulgated for covered ferroalloy furnaces contained in Subpart B of this regulation. It was also noted that the covered carbide subcategory would require no discharge for new sources whereas Subpart B does permit some discharge.

That the limitations are more stringent for covered carbide furnaces than for covered ferroalloy furnaces is based upon the respective water uses for the two types. Water use per megawatt-hour for the only calcium carbide plant presently discharging was found to be approximately one-third that of ferroalloy furnaces with similar scrubbers. Although some consideration was given to including covered carbide furnaces within the scope of Subpart B, this would allow higher levels of pollutant discharge than would a separate standard. The proposed new source standard for covered carbide furnaces has been revised to allow for discharge of treated blowdown from scrubber recirculation systems, since some plants may not be able to utilize the carbon monoxide content of the furnace off-gas for the fuel value without using wet gas cleaning methods and may be unable to evaporate the wastewater.

3. It was noted that although ammonia and sulfate were included in a list of pollutant parameters for electrolytic ferroalloys, no limits had been set for these in the contractor's draft report. One person suggested that aluminum be deleted as a parameter.

Although ammonia was not limited in the contractor's suggested guidelines, the standards do limit this parameter. Waste data and information relating to treatment are included in the Development Document. No limitation will be placed on sulfate, since the cost of removal would be prohibitive for this industry at this time. Additionally, no limits are proposed for either aluminum or iron. Aluminum is present in large quantities only from electrolytic manganese dioxide production and survey data indicates that it precipitates with the suspended solids and reaches an acceptable level in the discharge. Iron is present in discharges from all three products. However, iron precipitates most readily at or above pH 8.0, indicating that treatment for manganese and/or chromium removal will also control iron.

4. Some commenters criticized the contractor's attempt to apply the effluent concentrations attainable for metals in steel mill pickling rinse waters as a basis for the guidelines for electrolytic wastes. It was pointed out that the two wastes are not comparable, since pickling rinse water is relatively dilute and electrolytic wastes are fairly concentrated.

It is agreed that the two wastes are not totally comparable, and the report and guidelines have been rewritten to reflect this.

5. Concern was expressed about the small difference between the contractor's suggested 1977 and 1983 electrolytic ferroalloy limitations when compared to the very large difference in costs. One person noted that his plant would be spending $6/lb of manganese removed for 1977, but fifty times that ($318/lb Mn removed) for 1983.

The costs presented in the contractor's report were based upon actual plant data and may have been either insufficiently or overly inclusive of items relevant to water pollution control and treatment. Costs for the treatment models have

XUM
V 4 0 - 3 7
FEB 24 75
XUM

been estimated and it is thought that the cost data, as presented in the revised report, is more reflective of actual costs which would be incurred for treatment at isolated plants. Based on the revised cost data and guidelines, treatment for the 1983 standards will remove approximately half the dischargeable 1977 load at a total cost one-third higher than for the 1977 standards. The 1983 removal cost would be about 6¢ per pound of manganese removed.

6. It was thought that the discharge levels suggested in the contractor's report for electrolytic plants for dissolved chromium and dissolved manganese (3.0 and 1.5 mg/l, respectively) were too high to meet water quality standards.

Water quality standards are not a basis for effluent guidelines, which are based on economic and technological achievability. The Act contemplates that additional treatment may be necessary to meet water quality standards on some particular stream segments. For purposes of establishing a national standard, EPA has confined itself to essentially conventional treatment, which for chromium can reduce concentrations to below 0.5 mg/l as total chromium. Manganese can be removed to low levels by various methods, most of which are primarily applicable to the low inlet concentrations found at water treatment plants. Precipitation by lime addition and pH adjustment can reduce effluents to less than 5.0 mg/l as total manganese.

7. It was requested that the 1977 standards for electrolytic manganese be based upon the best plant.

The 1977 standards are to be based on the average of the best plants, also taking into account economic and other factors that impact on actual achievability. The standards for 1983 are to be based on the best available technology economically achievable. Although the best plant in each subcategory was discharging at lower rates than the flow on which the standards for 1983 were formulated, it is the opinion of the Agency that these low levels could not be achieved across-the-board by this industry without economic dislocations and therefore, are not economically achievable.

Moreover, Plant B, which had the lowest discharge from electrolytic manganese production, is only 6 years old. This plant was designed to minimize waste discharge. During a visit by EPA, plant personnel noted that they could probably not meet or even come close to their present conditions if their plant were some years older (as are Plants A and C). Plant D, a new plant, is presently discharging from their chromium operation at about 2 percent of the rate of Plant A, again reflecting differences due to age (and to some extent, geographical location).

8. Electrolytic industry commenters stated that the data is inadequate, incomplete and does not support the standards recommended by the contractor.

Internal review revealed some deficiencies within the document and further testing was performed and additional data collected. It is now believed that the data base is as adequate and complete as possible and is supportive of the suggested standards.

9. One commenter mentioned that in his experience, lime neutralization does not precipitate manganese readily or in significant quantities from dilute solutions.

Although simple neutralization, i.e., to a pH around 7.0, does not appreciably remove manganese, a pH of 9.5 or greater will cause the dissolved manganese to form as manganese hydroxide and precipitate. Additionally the manganese level suggested is more easily attainable if the wastes are not diluted prior to treatment with wastes from other operations.

The Agency is subject to an order of the United States District Court for the District of Columbia entered in *Natural Resources Defense Council* v *Train et. al.* (Cv. No. 1609–73) which requires the promulgation of regulations for this industry category no later than December 30, 1974. This order also requires that such regulations become effective immediately upon publication. In addition, it is necessary to promulgate regulations establishing limitations on the discharge of pollutants from point sources in this category so that the process of issuing permits to individual dischargers under section 402 of the Act is not delayed.

It has not been practicable to develop and publish regulations for this category in proposed form, to provide a 30 day comment period, and to make any necessary revisions in light of the comments received within the time constraints imposed by the court order referred to above. Accordingly, the Agency has determined pursuant to 5 USC 553(b) that notice and comment on the interim final regulations would be impracticable and contrary to the public interest. Good cause is also found for these regulations to become effective immediately upon publication.

Interested persons are encouraged to submit written comments. Comments should be submitted in triplicate to the EPA Office of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460. Attention: Ms. Ruth Brown, A–107. Comments on all aspects of the regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the amendment or modification of the regulation. In the event comments address the approach taken by the Agency in establishing an effluent limitation or guideline EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 301 and 304(b) of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Freedom of Information Center, Room 204, West Tower Waterside Mall, 401 M Street, S.W., Washington D.C. A copy of preliminary draft contractor reports, the Development Documents and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

All comments received on or before March 26, 1975 will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202). In the event that the final regulation differs substantially from the interim final regulation set forth herein the Agency will consider petitions for reconsideration of any permits issued in accordance with this interim final regulation.

In consideration of the foregoing, 40 CFR Part 424 is hereby amended by adding Subparts D, E, F, and G as set forth below.

Dated: February 10, 1975.

RUSSELL E. TRAIN,
Administrator.

Subpart D—Covered Calcium Carbide Furnaces With Wet Air Pollution Control Devices Subcategory

Sec.

424.40 Applicability; description of the covered calcium carbide furnaces with wet air pollution control devices subcategory.
424.41 Specialized definitions.
424.42 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
424.43 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

Subpart E—Other Calcium Carbide Furnaces Subcategory

Sec.

424.50 Applicability; description of the other calcium carbide furnaces subcategory.
424.51 Specialized definitions.
424.52 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
424.53 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

Subpart F—Electrolytic Manganese Products Subcategory

Sec.

424.60 Applicability; description of the electrolytic manganese products subcategory.
424.61 Specialized definitions.
424.62 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
424.63 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

Subpart G—Electrolytic Chromium Subcategory

Sec.

424.70 Applicability; description of the electrolytic chromium subcategory.
424.71 Specialized definitions.
424.72 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.
424.73 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

AUTHORITY: Secs. 301, 304(b) and (c), Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1311, 1314(b) and (c), 86 Stat. 816 et seq.; Pub. L. 92–500.

Subpart D—Covered Calcium Carbide Furnaces With Wet Air Pollution Control Devices Subcategory

§ 424.40 Applicability; description of the covered calcium carbide furnaces with wet air pollution control devices subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of calcium carbide in covered electric furnaces which use wet air pollution control devices. This subcategory includes those electric furnaces of such construction or configuration (known as covered, closed, sealed, semi-covered or semi-closed furnaces) that the furnace off-gases are not burned prior to collection and cleaning, and which off-gases are cleaned after collection in a wet air pollution control device such as a scrubber, 'wet' baghouse, etc. This subcategory does not include noncontact cooling water or those furnaces which utilize dry dust collection techniques, such as dry baghouses.

§ 424.41 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 424.42 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations. The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
TSS	0.22	0.11
Total Cyanide	0.0056	0.0028
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
TSS	0.22	0.11
Total Cyanide	0.0056	0.0028
pH	Within the range 6.0 to 9.0.	

§ 424.43 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
TSS	0.380	0.190
Total Cyanide	0.0056	0.0028
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
TSS	0.380	0.190
Total Cyanide	0.0056	0.0028
pH	Within the range 6.0 to 9.0.	

Subpart E—Other Calcium Carbide Furnaces Subcategory

§ 424.50 Applicability; description of the other calcium carbide furnaces subcategory.

The provisions of this subpart are applicable to discharges resulting from the production of calcium carbide in those covered furnaces which do not utilize wet air pollution control methods. Covered calcium carbide furnaces using wet air pollution control devices are regulated in Subpart D. Open (uncovered) calcium carbide furnaces are regulated in Part 415, inorganic chemicals manufacturing point source category (39 FR 9612).

§ 424.51 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 424.52 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guide-

XUM
V 40-37 FEB 24 75
XUM

lines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations. The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available: there shall be no discharge of process waste water pollutants to navigable waters.

§ 424.53 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of the best available technology economically achievable: there shall be no discharge of process waste water pollutants to naviagable waters.

Subpart F—Electrolytic Manganese Products Subcategory

§ 424.60 Applicability; description of the electrolytic manganese products subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of electrolytic manganese products such as electrolytic manganese metal or electrolytic manganese dioxide.

§ 424.61 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 424.62 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disaprove such limitations, specify other limitations, or initiate proceedings to revise these regulations.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart producing electrolytic manganese after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
TSS	6.778	3.389
Manganese	2.771	1.356
Ammonia-N	40.667	20.334
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
TSS	6.778	3.389
Manganese	2.771	1.356
Ammonia-N	40.667	20.334
pH	Within the range 6.0 to 9.0.	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart producing electrolytic manganese dioxide after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
TSS	1.762	0.881
Manganese	0.705	0.352
Ammonia-N	10.574	5.287
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
TSS	1.762	0.881
Manganese	0.705	0.352
Ammonia-N	10.574	5.287
pH	Within the range 6.0 to 9.0.	

§ 424.63 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

(a) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart producing electrolytic manganese after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
TSS	3.389	1.695
Manganese	0.678	0.339
Ammonia-N	6.778	3.389
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
TSS	3.389	1.695
Manganese	0.678	0.339
Ammonia-N	6.778	3.389
pH	Within the range 6.0 to 9.0.	

(b) The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart producing electrolytic manganese dioxide after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed
(Metric units) kg/kkg of product		
TSS	0.881	0.441
Manganese	0.176	0.088
Ammonia-N	1.762	0.881
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
TSS	0.881	0.441
Manganese	0.176	0.088
Ammonia-N	1.762	0.881
pH	Within the range 6.0 to 9.0.	

Subpart G—Electrolytic Chromium Subcategory

§ 424.70 Applicability; description of the electrolytic chromium subcategory.

The provisions of this subpart are applicable to discharges resulting from the manufacture of chromium metal by the electrolytic process. They are not applicable to discharges resulting from the manufacture of chromium metal by aluminothermic or other methods.

§ 424.71 Specialized definitions.

For the purpose of this subpart:

(a) Except as provided below, the general definitions, abbreviations and methods of analysis set forth in 40 CFR Part 401 shall apply to this subpart.

§ 424.72 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best practicable control technology currently available.

In establishing the limitations set forth in this section, EPA took into account all information it was able to collect, develop and solicit with respect to factors (such as age and size of plant, raw materials, manufacturing processes, products produced, treatment technology available, energy requirements and costs) which can affect the industry subcategorization and effluent levels established. It is, however, possible that data which would affect these limitations have not been available and, as a result, these limitations should be adjusted for certain plants in this industry. An individual discharger or other interested person may submit evidence to the Regional Administrator (or to the State, if the State has the authority to issue NPDES permits) that factors relating to the equipment or facilities involved, the process applied, or other such factors related to such discharger are fundamentally different from the factors considered in the establishment of the guidelines. On the basis of such evidence or other available information, the Regional Administrator (or the State) will make a written finding that such factors are or are not fundamentally different for that facility compared to those specified in the Development Document. If such fundamentally different factors are found to exist, the Regional Administrator or the State shall establish for the discharger effluent limitations in the NPDES permit either more or less stringent than the limitations established herein, to the extent dictated by such fundamentally different factors. Such limitations must be approved by the Administrator of the Environmental Protection Agency. The Administrator may approve or disapprove such limitations, specify other limitations, or initiate proceedings to revise these regulations. The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best practicable control technology currently available:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
TSS	5.276	2.638
Manganese	2.111	1.055
Chromium	0.106	0.053
Ammonia-N	10.553	5.276
pH	Within the range of 6.0 to 9.0.	
(English units) lb/1000 lb of product		
TSS	5.276	2.638
Manganese	2.111	1.055
Chromium	0.106	0.053
Ammonia-N	10.553	5.276
pH	Within the range 6.0 to 9.0.	

§ 424.73 Effluent limitations guidelines representing the degree of effluent reduction attainable by the application of the best available technology economically achievable.

The following limitations establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a point source subject to the provisions of this subpart after application of the best available technology economically achievable:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
TSS	2.649	1.324
Manganese	0.530	0.265
Chromium	0.053	0.027
Ammonia-N	5.297	2.649
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
TSS	2.649	1.324
Manganese	0.530	0.265
Chromium	0.053	0.027
Ammonia-N	5.297	2.649
pH	Within the range 6.0 to 9.0.

ENVIRONMENTAL PROTECTION AGENCY

[40 CFR Part 424]

[FRL 334-8]

FERROALLOY MANUFACTURING POINT SOURCE CATEGORY

Performance and Pretreatment Standards for New Sources

Notice is hereby given that standards of performance and pretreatment standards for new sources and pretreatment standards for existing sources set forth in tentative form below are proposed by the Environmental Protection Agency (EPA). On February 22, 1974, EPA promulgated a regulation adding Part 424 to Chapter 40 of the Code of Federal Regulations (39 FR 6806). That regulation with subsequent amendments established effluent limitations and guidelines for existing sources and standards of performance and pretreatment standards for new sources for the ferroalloys manufacturing point source category. The regulation proposed below will amend 40 CFR 424—ferroalloy manufacturing point source category by adding §§ 424.44, 424.45 and 424.46 to the covered calcium carbide furnances with wet air pollution control devices subcategory (Subpart D), §§ 424.54, 424.55 and 424.56 to the other calcium carbide furnaces subcategory (Subpart E), §§ 424.64, and 424.65 and 424.66 to the electrolytic manganese products subcategory (Subpart F) and §§ 424.74, 424.75 and 424.76 to the electrolytic chromium subcategory (Subpart G) pursuant to sections 306(b) and 307 (b) and (c) of the Federal Water Pollution Control Act, as amended (33 U.S.C. 1251, 1316(b) and 1317 (b) and (c), 86 Stat. 816 et seq.; Pub. L. 92-500) (the Act). Simultaneously with this proposed rule making EPA is promulgating iterim final regulations which establish the above listed subparts.

(a) *Legal Authority.* Section 306 of the Act requires the achievement by new sources of a Federal standard of performance providing for the control of the discharge of pollutants which reflects the greatest degree of effluent reduction which the Administrator determines to be achievable through application of the best available demonstrated control technology, processes, operating methods, or other alternatives, including, where practicable, a standard permitting no discharge of pollutants.

Section 306(b)(1)(B) of the Act requires the Administrator to propose regulations establishing Federal standards of performance for categories of new sources included in a list published pursuant to section 306(b)(1)(A) of the Act. The Administrator published in the FEDERAL REGISTER of January 16, 1973 (38 FR 1624), a list of 27 source categories, including the ferroalloys manufacturing category. The regulations proposed herein set forth the standards of performance applicable to new sources for the covered calcium carbide furnaces with wet air pollution control devices subcategory (Subpart D), the other calcium carbide furnaces subcategory (Subpart E), the electrolytic manganese products subcategory (Subpart F) and the electrolytic chromium subcategory (Subpart G) of the ferroalloy manufacturing point source category.

Section 307(c) of the Act requires the Administrator to promulgate pretreatment standards for new sources at the same time that standards of performance for new sources are promulgated pursuant to section 306. Sections 424.46, 424.56, 424.66, and 424.76, proposed below provide pretreatment standards for new sources within the covered calcium carbide furnaces with wet air pollution control devices subcategory (Subpart D), the other calcium carbide furnaces subcategory (Subpart E), the electrolytic manganese products subcategory (Subpart F) and the electrolytic chromium subcategory (Subpart G) of the ferroalloy manufacturing point source category. Section 307(b) of the Act requires the establishment of pretreatment standards for pollutants introduced into publicly owned treatment works and 40 CFR Part 128 establishes that the Agency will propose specific pretreatment standards at the time effluent limitations are established for point source discharges. Sections 424.44, 424.54, 424.64 and 424.74 proposed below provide pretreatment standards for existing sources within the covered calcium carbide furnaces with wet air pollution control devices subcategory (Subpart D), the other calcium carbide furnaces subcategory (Subpart E), the electrolytic manganese products subcategory (Subpart F) and the electrolytic chromium subcategory (Subpart G) of the ferroalloy manufacturing point source category.

(b) *Summary and Basis of Proposed Standards of Performance and Pretreatment Standards for New Sources and Pretreatment Standards for Existing Sources.* The general methodology and summary of conclusions are discussed in considerable detail in the preamble of the interim final regulations for the covered calcium carbide furnaces with wet air pollution control devices subcategory (Subpart D), the other calcium carbide furnaces subcategory (Subpart E), the electrolytic manganese products subcategory (Subpart F) and the electrolytic chromium subcategory (Subpart G) which are being promulgated by EPA simultaneously with publication of this proposed regulation. The information contained in the preamble to the interim final regulation is incorporated herein by reference. The proposed regulation set forth below proposes pretreatment standards for pollutants introduced into publicly owned treatment works. The proposal will establish for each subpart the extent of application of effluent limitations to existing sources and to new sources which discharge to publicly owned treatment works. The regulation is intended to be complementary to the general regulation for pretreatment standards for existing sources set forth at 40 CFR Part 128. The general regulation was proposed July 19, 1973 (38 FR 19236), and published in final form on November 8, 1973 (38 FR 30982). The regulation proposed below applies to users of publicly owned treatment works which fall within the description of the point source category to which the limitations and standards apply. However, the proposed pretreatment regulation applies to the introduction of pollutants which are directed into a publicly owned treatment works, rather than to discharges of pollutants to navigable waters.

The general pretreatment standard divides pollutants discharged by users of publicly owned treatment works into two broad categories: "compatible" and "incompatible." Compatible pollutants are generally not subject to pretreatment standards. However, 40 CFR 128.131 (prohibited wastes) may be applicable to compatible pollutants. Additionally, local pretreatment requirements may apply (See 40 CFR 128.110). Incompatible pollutants are subject generally to pretreatment standards as provided in 40 CFR 128.133.

Sections 424.44, 424.54, 424.64 and 424.74 of the regulation proposed below are intended to implement that portion of section 128.133, above, requiring that a separate provision be made stating the application to pretreatment standards of effluent limitations based upon best practicable control technology currently available.

Questions were raised during the public comment period on the proposed general pretreatment standard (40 CFR Part 128) about the propriety of applying a standard based upon best practicable control technology currently available to all plants subject to pretreatment standards. In general, EPA believes the analysis supporting the effluent limitations and guidelines is adequate to make a determination regarding the application of those standards to users of publicly owned treatment works. However, to ensure that those standards are appropriate in all cases, EPA now seeks additional comments focusing upon the application of effluent limitations guidelines to users of publicly owned treatment works.

The reports entitled "Development Document for Interim Final Effluent Limitations Guidelines and Proposed New Source Performance Standards for the Calcium Carbide Segment of the Ferroalloy Manufacturing Point Source Category" and "Development Document for Interim Final Effluent Limitations Guidelines and Proposed New Source Performance Standards for the Electrolytic Ferroalloys Segment of the Ferroalloy Manufacturing Point Source Category" detail the analysis undertaken in support of the regulation being proposed herein and are available for inspection in the EPA Freedom of Information Center, Room 204, West Tower, Waterside Mall, Washington, D.C., at all EPA regional offices, and at State water pollution control offices. A supplementary analysis prepared for EPA of the possible economic effects of the proposed regulation is also available for inspection at these locations. Copies of these documents are being sent to persons or institutions affected by the proposed regulation or who have placed themselves on a mailing list for this purpose (see EPA's Advance Notice of Public Review Procedures, 38 FR 21202, August 6, 1973). An additional limited number of copies of these reports are available. Persons wishing to obtain a copy may write the EPA Office of Public Affairs, Environmental Protection Agency, Washington, D.C. 20460, Attention: Ms. Ruth Brown, A-107.

When this regulation is promulgated, revised copies of the Development Documents will be available from the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402. Copies of the Economic Analysis will be available through the National Technical Information Service, Springfield, Virginia 22151.

(c) *Summary of public participation.* A full listing of participants and discussion of comments and responses is included in the preamble of the interim final regulation for the covered calcium carbide furnaces with wet air pollution control devices subcategory, the other calcium carbide furnaces subcategory, the electrolytic manganese products subcategory, and the electrolytic chromium subcategory being simultaneously promulgated by EPA and are incorporated herein by reference.

Interested persons may participate in this rulemaking by submitting written comments in triplicate to the EPA Information Center, Environmenti Protection Agency, Washington, D.C. 20460, Attention: Mr. Philip B. Wisman. Comments on all aspects of the proposed regulation are solicited. In the event comments are in the nature of criticisms as to the adequacy of data which are available, or which may be relied upon by the Agency, comments should identify and, if possible, provide any additional data which may be available and should indicate why such data are essential to the development of the regulations. In the event comments address the approach taken by the Agency in establishing a standard of performance or pretreatment standard, EPA solicits suggestions as to what alternative approach should be taken and why and how this alternative better satisfies the detailed requirements of sections 306 and 307 (b) and (c) of the Act.

A copy of all public comments will be available for inspection and copying at the EPA Information Center, Room 227, West Tower, Waterside Mall, 401 M Street, SW., Washington, D.C. A copy of preliminary draft contractor reports, the Development Documents and economic study referred to above, and certain supplementary materials supporting the study of the industry concerned will also be maintained at this location for public review and copying. The EPA information regulation, 40 CFR Part 2, provides that a reasonable fee may be charged for copying.

All comments received on or before March 26, 1975, will be considered. Steps previously taken by the Environmental Protection Agency to facilitate public response within this time period are outlined in the advance notice concerning public review procedures published on August 6, 1973 (38 FR 21202).

Dated: February 10, 1975.

RUSSELL E. TRAIN,
Administrator.

PART 424—FERROALLOY MANUFACTURING POINT SOURCE CATEGORY

Subpart D—Covered Calcium Carbide Furnaces With Wet Air Pollution Control Devices Subcategory

Part 424 is proposed to be amended as follows:

Subpart D is amended by adding §§ 424.44, 425.45 and 424.46 as fololws:

§ 424.44 Pretreatment standards for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the covered calcium carbide furnaces with wet air pollution control devices subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section , 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
TSS	No limitation.
pH	Do.
Cyanide	0.5 mg/l.

§ 424.45 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations: Maximum for any one day	Effluent limitations: Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
TSS	0.040	0.020
Total Cyanide	0.001	0.0005
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
TSS	0.040	0.020
Total Cyanide	0.001	0.0005
pH	Within the range 6.0 to 9.0.	

§ 424.46 Pretreatment standards for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the covered calcium carbide furnaces with wet air pollution control devices subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property:	*Pretreatment standard*
TSS	No limitation.
pH	Do.
Cyanide	0.5 mg/1.

Subpart E—Other Calcium Carbide Furnaces Subcategory

Subpart E is amended by adding §§ 424.54, 424.55 and 424.56 as follows:

§ 424.54 Pretreatment standards for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the other calcium carbide furnaces subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property:	*Pretreatment standard*
TSS	No limitation.
pH	Do.

§ 424.55 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart: there shall be no discharge of process waste water pollutants to navigable waters.

§ 424.56 Pretreatment standards for new sources.

The pretreatment standard under section 307(c) of the Act for a new source

XUM V 4 0 - 3 7 FEB 24 75 XUM

within the other calcium carbide furnaces subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or pollutant property:	*Pretreatment standard*
TSS	No limitation.
pH	Do.

Subpart F—Electrolytic Manganese Products Subcategory

Subpart F is amended by adding §§ 424.64, 424.65 and 424.66 as follows:

§ 424.64 Pretreatment standards for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the electrolytic manganese products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132, and 128.133 shall not apply.

(a) The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart producing electrolytic manganese:

Pollutant or Pollutant Property	Pretreatment Standards	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
Manganese	2.711	1.356
Ammonia-N	40.667	20.334
TSS	No limitation	
pH	No limitation	
(English units) lb/1000 lb of product		
Manganese	2.711	1.356
Ammonia-N	40.667	20.334
TSS	No limitation	
pH	No limitation	

(b) The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart producing electrolytic manganese dioxide:

Pollutant or Pollutant Property	Pretreatment Standards	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
Manganese	0.705	0.352
Ammonia-N	10.574	5.287
TSS	No limitation	
pH	No limitation	
(English units) lb/1000 lb of product		
Manganese	0.705	0.352
Ammonia-N	10.574	5.287
TSS	No limitation	
pH	No limitation	

§ 424.65 Standards of performance for new sources.

(a) The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart producing electrolytic manganese:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
TSS	1.481	0.740
Manganese	0.296	0.148
Ammonia-N	2.961	1.481
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
TSS	1.481	0.740
Manganese	0.296	0.148
Ammonia-N	2.961	1.481
pH	Within the range 6.0 to 9.0.	

(b) The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart producing electrolytic manganese dioxide:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
TSS	0.881	0.441
Manganese	0.176	0.088
Ammonia-N	1.762	0.881
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb of product		
TSS	0.881	0.441
Manganese	0.176	0.088
Ammonia-N	1.762	0.881
pH	Within the range 6.0 to 9.0.	

§ 424.66 Pretreatment standards for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the electrolytic manganese products subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply.

(a) The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart producing electrolytic manganese:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
Manganese	2.711	1.356
Ammonia-N	40.667	20.334
TSS	No limitation	
pH	No limitation	
(English units) lb/1000 lb of product		
Manganese	2.711	1.356
Ammonia-N	40.667	20.334
TSS	No limitation	
pH	No limitation	

(b) The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment

works by a new source subject to the provisions of this subpart producing electrolytic manganese dioxide:

Pollutant or Pollutant Property	Pretreatment Standards	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
Manganese	0.705	0.352
Ammonia-N	10.574	5.287
TSS	No limitation	
pH	No limitation	
(English units) lb/1000 lb of product		
Manganese	0.705	0.352
Ammonia-N	10.574	5.287
TSS	No limitation	
pH	No limitation	

Subpart G—Electrolytic Chromium Subcategory

Subpart G is amended by adding §§ 424.74, 424.75 and 424.76 as follows:

§ 424.74 Pretreatment standard for existing sources.

The pretreatment standard under section 307(b) of the Act for a source within the electrolytic chromium subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be an existing point source subject to section 301 of the Act, if it were to discharge pollutants to the navigable waters), shall be the standard set forth in 40 CFR Part 128, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a point source subject to the provisions of this subpart.

Pollutant or pollutant property	Pretreatment standards	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
Manganese	2.111	1.055
Chromium	0.106	0.053
Ammonia-N	10.553	5.276
TSS	No limitation	
pH	No limitation	
(English units) lb/1000 lb of product		
Manganese	2.111	1.055
Chromium	0.106	0.053
Ammonia-N	10.553	5.276
TSS	No limitation	
pH	No limitation	

§ 424.75 Standards of performance for new sources.

The following standards of performance establish the quantity or quality of pollutants or pollutant properties, controlled by this section, which may be discharged by a new source subject to the provisions of this subpart:

Effluent characteristic	Effluent limitations	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
TSS	0.834	0.417
Manganese	0.167	0.083
Chromium	0.017	0.008
Ammonia-N	1.668	0.834
pH	Within the range 6.0 to 9.0.	
(English units) lb/1000 lb. of product		
TSS	0.834	0.417
Manganese	0.167	0.083
Chromium	0.017	0.008
Ammonia-N	1.668	0.834
pH	Within the range 6.0 to 9.0.	

§ 424.76 Pretreatment standards for new sources.

The pretreatment standard under section 307(c) of the Act for a new source within the electrolytic chromium subcategory which is a user of a publicly owned treatment works and a major contributing industry as defined in 40 CFR Part 128 (and which would be a new source subject to section 306 of the Act, if it were to discharge pollutants to the navigable waters), shall be the same standard as set forth in 40 CFR Part 128, for existing sources, except that, for the purpose of this section, 40 CFR 128.121, 128.122, 128.132 and 128.133 shall not apply. The following pretreatment standard establishes the quantity or quality of pollutants or pollutant properties controlled by this section which may be discharged to a publicly owned treatment works by a new source subject to the provisions of this subpart:

Pollutant or Pollutant Property	Pretreatment Standards	
	Maximum for any one day	Average of daily values for thirty consecutive days shall not exceed—
(Metric units) kg/kkg of product		
Manganese	2.111	1.055
Chromium	0.106	0.053
Ammonia-N	10.553	5.276
TSS	No limitation	
pH	No limitation	
(English units) lb/1000 lb of product		
Manganese	2.111	1.055
Chromium	0.106	0.053
Ammonia-N	10.553	5.276
TSS	No limitation	
pH	No limitation

NATIONAL UTILITY RESIDUAL FUEL OIL ALLOCATION

Supplier Percentage Notice for March, 1975

V40-37 FEB 24 75 XUM

FEDERAL ENERGY ADMINISTRATION

NATIONAL UTILITY RESIDUAL FUEL OIL ALLOCATION

Supplier Percentage Notice for March, 1975

Pursuant to the provisions of 10 CFR 211.163(b)(2), 211.165 and 211.166(d)(2), the Federal Energy Administration (FEA) hereby provides notice of the volumes of residual fuel oil allocated to each utility and the percentage of such volumes required to be supplied by each supplier for delivery in March, 1975. This information is set forth in the Appendix to this notice. Adjustments of certain supplier base period percentages have been made at the request of affected utilities and suppliers, pursuant to the criteria of 10 CFR 205.25 and are reflected in the Appendix.

The utility allocations were determined after review of the impact of available fuel supplies between utility and non-utility uses of residual fuel oil. In calculating the allocation level for each utility the FEA considered all of the factors enumerated in 10 CFR 211.163(b)(2) and also the following other factors:

1. The data contained in the Federal Power Commission (FPC) Forms 23 and 23A submitted by utilities;

2. Natural gas curtailments;

3. FEA's prediction that the supply level of residual fuel oil is expected to generally equate to the total demand.

The amounts shown in the Appendix are the quantities of residual fuel oil to be delivered to the utilities listed during the month of March, 1975. Some utilities will not receive any allocation for this month for various reasons including the fact that these utilities burn other fuels primarily and use residual fuel oil only for standby purposes.

The Appendix provides the names of the suppliers obligated to supply each utility and each supplier's percentage and volume of each month's allocation to a utility. The first column of the Appendix lists each utility with its suppliers. The second column sets forth the recommended FEA burn level for March. The third and fourth columns provide each supplier's respective percentage and volume share of a utility's allocated volume of residual fuel oil. The fifth column provides the total volume of residual fuel oil for each utility from all suppliers. Following the name of certain suppliers, an additional supplier is shown in parentheses. The supplier in parentheses is presumed, on the basis of the best information available to be the supplier of the utility's supplier. This information is provided for the convenience of such suppliers and the FEA requests that any additions or corrections in this regard be forwarded to FEA Electrical Utilities Reports, Code 47 Washington, D.C. 20461.

Adjustments have been made in the allocation to certain utilities to reflect necessary corrections in the delivery levels authorized in previous months. It is contemplated that corrections or adjustments to delivery levels for certain utilities may be required during the month of March to avoid undue hardship. FEA will consider special circumstances such as unexpected outages which may cause fuel consumption to exceed FEA burn levels in any month. Such corrections or adjustments shall be made pursuant to subparts B and C of 10 CFR Part 205.

FEA expects the utilities to consume supplies at or below FEA burn levels, which are based on the utilities' proposed burn levels.

The utility residual fuel oil allocation program is based in part on the data derived from utilities' filings of FPC Forms 23 and 23A. Thus, the timely submission of these forms will be a necessary prerequisite to receiving future allocations.

Reports should be addressed to FEA Electrical Utilities Reports, Code 47, Washington, D.C. 20461.

Issued in Washington, D.C., February 18, 1975.

DAVID G. WILSON,
Acting General Counsel.

Pages 8061–8161

PART I

HIGHLIGHTS OF THIS ISSUE

This listing does not affect the legal status of any document published in this issue. Detailed table of contents appears inside.

RETAIL GASOLINE SALES—FEA proposes review of mark-up to reflect increased non-product costs; comments by 3–21–75 8109

VOCATIONAL EDUCATION—HEW issues state program requirements 8076

RELOCATION ASSISTANCE—DOT/FHA proposes to redefine "displaced person"; comments by 3–14–75 8109

FOREIGN PORTFOLIO INVESTMENT—Treasury/MO notice of exemptions and interpretations relating to filing of reports (4 documents) 8112, 8113

FEDERAL CREDIT UNIONS—NCUA full and fair disclosure requirement; effective 1–1–75 8069

RAILWAY ASSOCIATION—RA regulations describing organization and functions; effective 2–19–75 8100

FREEDOM OF INFORMATION—FHLBB, FMC and CSC amend regulations 8065

RAIL PROPERTY—ICC requests information on acquisitions 8152

EASTERN PACIFIC FISHERIES—Commerce/NOAA amends provisions on yellowfin tuna 8101

MEETINGS—
Interior/NPS: Indiana Dunes National Lakeshore Advisory Commission, 3–14–75 8114
State: Advisory Committee on Private International Law, 3–14–75 8112
Northwest Atlantic Fisheries Advisory Committee, 3–13–75 8112
HEW/OE: National Advisory Council on Extension and Continuing Education, 3–13 and 3–14–75 8118
Advisory Council on Developing Institutions, 3–12–75 8118
SBA: Philadelphia District Advisory Council, 3–19–75 8130
Wichita District Advisory Council, 3–19–75 8131
DOD: Defense Science Board Task Force on Specifications and Standards Improvement, 3–20 and 3–21–75 8113
Commerce/NBS: Federal Information Processing Standards Task Group 15, 4–1–75 8117

PART II:

HEALTH MANPOWER—HEW/PHS designation of critical shortage areas 8155

(Continued inside)

reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

Rules Going Into Effect Today

This list includes only rules that were published in the FEDERAL REGISTER after October 1, 1972.

page no. and date

DOT/Office of Pipeline Safety—Transportation of natural and other gas by pipeline: minimum Federal safety standards; qualification of pipe transported by railroad..... 6345; 2–11–75

List of Public Laws

NOTE: No acts approved by the President were received by the Office of the Federal Register for inclusion in today's LIST OF PUBLIC LAWS.

ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5284. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

list of cfr parts affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, follows beginning with the second issue of the month.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1974, and specifies how they are affected.

rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

Title 3—The President

CHAPTER V—EXECUTIVE OFFICE OF THE PRESIDENT

PART 101—PUBLIC INFORMATION PROVISIONS OF THE ADMINISTRATIVE PROCEDURES ACT

Freedom of Information Regulations

Correction

In FR Doc. 75-4777 appearing at page 7346 in the issue of Wednesday, February 19, 1975, the paragraphs appearing on page 7346 immediately under the heading "Executive Office of the President" are codified to read as follows:

Sec.
101.1 Executive Office of the President.
101.2 Office of Management and Budget.
101.3 Council on Wage and Price Stability.
101.4 National Security Council.

§ 101.1 Executive Office of the President.

Until further regulations are promulgated, the remainder of the entities within the Executive Office of the President, to the extent that 5 U.S.C. 552 is applicable, shall follow the procedures set forth in the regulations applicable to the Office of Management and Budget (5 CFR Ch. III). Requests for information from these other entities should be submitted directly to such entity.

§ 101.2 Office of Management and Budget.

Freedom of Information regulations for the Office of Management and Budget appear at 5 CFR Ch. III.

§ 101.3 Council on Wage and Price Stability.

Freedom of Information regulations for the Council on Wage and Price Stability appear at 6 CFR Ch. VII.

§ 101.4 National Security Council.

Freedom of Information regulations for the National Security Council appear at 32 CFR Ch. XXI.

Title 5—Administrative Personnel

CHAPTER I—CIVIL SERVICE COMMISSION

PART 213—EXCEPTED SERVICE

Department of Commerce

Section 213.3314 is amended to show that one additional position of Special Assistant to the Assistant Secretary for Economic Affairs is excepted under Schedule C.

Effective on February 25, 1975, § 213.3314(a)(11) is amended as set out below.

§ 213.3314 Department of Commerce.

(a) *Office of the Secretary.* • • •

(11) Two Special Assistants to the Assistant Secretary for Economic Affairs.

(5 U.S.C. secs. 3301, 3302, E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75-5007 Filed 2-24-75;8:45 am]

PART 213—EXCEPTED SERVICE

Department of the Treasury

Section 213.3305 is amended to show that one position of Special Assistant to the Assistant Secretary (Enforcement, Operations, and Tariff Affairs) is excepted under Schedule C.

Effective on February 25, 1975, § 213.3305(a)(61) is added as set out below.

§ 213.3305 Department of the Treasury.

(a) Office of the Secretary. • • •

• • • • •

(61) One Special Assistant to the Assistant Secretary (Enforcement, Operations, and Trade Affairs).

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75-5008 Filed 2-24-75;8:45 am]

PART 213—EXCEPTED SERVICE

National Foundation on the Arts and the Humanities

Section 213.3182(a) is amended to show that authority in § 213.3182(a)(1) is revoked and that one position of Director of Performing Arts and Public Media Programs for the Arts is excepted until June 30, 1976, under Schedule A.

Effective February 25, 1975, § 213.3182(a)(1) is revoked and §213.3182(a)(29) is added as set out below.

§ 213.3182 National Foundation on the Arts and the Humanities.

(a) *National Endowment for the Arts.*

(1) [Reserved].

• • • • •

(29) Until June 30, 1976, one Director of Performing Arts and Public Media Programs.

(5 U.S.C. secs. 3301, 3302; E.O. 10577, 3 CFR 1954–58 Comp. p. 218)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

[FR Doc.75-5011 Filed 2-24-75;8:45 am]

PART 294—AVAILABILITY OF OFFICIAL INFORMATION

Freedom of Information Regulations

Subpart A, General Provisions of Part 294 is being revised in its entirety to conform with several important amendments to 5 U.S.C. 552, Pub. L. 93-502, the Freedom of Information Act.

The revised Subpart A is set out below:

Subpart A—General Provisions

Sec.
294.101 Purpose.
294.102 Definitions.
294.103 General policy.
294.104 Information available—Indexes of certain records.
294.105 Places where information may be obtained.
294.106 Procedures for obtaining information.
294.107 Service charges for information.
294.108 Appeal of a denial of information.
294.109 Custody of information; subpenas.
294.110 Deceased employees.

AUTHORITY: 5 U.S.C. 552, Freedom of Information Act, Pub. L. 92-502.

Subpart A—General Provisions

§ 294.101 Purpose.

The purpose of this part is to set forth the basic policies of the Commission in regard to the availability or disclosure of information in the possession of or controlled by the Commission.

§ 294.102 Definitions.

In this part:

(a) "Information" means books, papers, manuals, records, photographs, and other documentary materials, regardless of physical forms or characteristics, made in or received by or under the control of the Commission in pursuance of law or in connection with the discharge of official business;

(b) "Information available to the public" means information, including reasonably segregable nonexempt portions of information that may lawfully be withheld, which, on request may be examined and copied, or of which copies

XUM
V 40 138
FEB 25 75
XUM

may be obtained in accordance with this part by the public regardless of interest and without specific justification; and

(c) "Disclose or disclosure" means making information available, on request, for examination and copying, or furnishing a copy of the information.

§ 294.103 General policy.

(a) When the Commission receives requests for information under section 552 of Title 5, United States Code, it will provide or disclose the requested information promptly, subject only to the following conditions:

(1) The request reasonably describes the information sought.

(2) The request is filed according to the procedures specified in § 294.106 below.

(3) Any applicable fees for records search, copying, printed matter, or computer services have been paid or waived as specified in § 294.107 below.

(4) The requested material is not subject to one of the exemptions in section 552(b) of Title 5, United States Code.

(b) If the requested information is subject to one of the exemptions, the Commission may disclose it or may not, depending on the nature of the information. However, the Commission will not ordinarily disclose the following exempt materials:

(1) Material specifically authorized by an Executive Order to be kept secret in the interest of national defense or foreign policy and properly classified pursuant to criteria in such an Executive Order;

(2) Material related solely to the internal personnel rules and practices of the Commission;

(3) Material specifically exempted from disclosure by statute;

(4) Commercial or financial information obtained from a person and privileged or confidential;

(5) Interagency or intra-agency memoranda or letters which would not be available by law to a party in litigation with the Commission;

(6) Personnel and medical files and similar files the disclosure of which would constitute a clearly unwarranted invasion of personal privacy (except that such files will be disclosed to the individuals to whom they pertain as specified in § 294.703 of this part); or

(7) Investigation records (except that such records will be disclosed to the individuals to whom they pertain under the conditions specified in § 294.601 of this part).

(c) If part of the requested information is exempt from disclosure and part is not, the Commission will disclose reasonably segregable portions of the material after deleting exempt portions.

§ 294.104 Information available—indexes of certain records.

(a) Indexes of materials published and offered for sale or available for public inspection and copying shall be maintained and revised at least quarterly.

(b) A copy of this index is available at cost from:

Office of Public Affairs, U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C. 20415.

Indexing of these materials is for the convenience of the public and does not constitute a determination that all of the materials listed are within the category of those required to be indexed by 5 U.S.C. 552(a)(2).

§ 294.105 Places where information may be obtained.

(a) A request for information which the requester believes located in the Commission headquarters in Washington, D.C., should be addressed to the director of the bureau or the chief of the office indicated in the list in paragraph (b) of this section. The address for all such requests is:

U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C. 20415.

(b) The following lists the bureaus and offices of the Commission in Washington, D.C., and their principal areas of responsibility:

Bureau or office:	*Subject matter*
Director, Bureau of Policies and Standards.	Personnel management policies, pay policies, position classification standards, qualification standards, personnel management research, development of examinations.
Director, Bureau of Recruiting and Examining.	Civil service examinations, procedures for referring individuals to agencies for selection, selection and placement in civil service positions.
Director, Bureau of Executive Manpower.	Executive staffing, recruiting, apportionment of executive positions, approval of qualifications and planning for executive manpower needs.
Director, Bureau of Personnel Investigations.	Background investigations of Federal employees and applicants for Federal employment.
Director, Bureau of Training...	Job related training, training information and training available to Government employees.
Director, Bureau of Retirement, Insurance and Occupational Health.	Civil Service retirement system, group life insurance, and health benefits programs for Federal employees and development of Government-wide occupational health programs.
Director, Bureau of Manpower Information Systems.	Government-wide statistical personnel information, personnel reports and forms.
Director, Bureau of Personnel Management Evaluation.	Evaluation of personnel management in agencies and employee position classification appeals.
Director, Bureau of Intergovernmental Personnel Programs.	Grants to State and local governments, intergovernmental assignments, and other improvements to State and local government personnel systems.
Director, Federal Employees Appeals Authority.	Basic appeals: adverse action, reduction in force, termination of employment during the probationary period under specified circumstances, and suitability for Federal employment.
Director, Office of Federal Equal Employment Opportunity.	Selection and advancement within the Federal service without regard to race, religion, color, national origin, sex, or age.
Director, Office of Labor Management Relations.	Technical information and policy guidance concerning management and employee unions in the Federal service.

(c) A request for information located in a regional office, area office, or post of duty of the Commission should be addressed to the Director, U.S. Civil Service Commission Regional Office, at the appropriate address indicated in the following list:

1340 Spring Street NW., Atlanta, Georgia 30309.
John W. McCormack Post Office and Courthouse; Boston, Massachusetts 02109.
Federal Office Building, 29th Floor, 230 South Dearborn Street, Chicago, Illinois 60604.
1100 Commerce Street, Dallas, Texas 75202.
Denver Federal Center, Building 20, Denver, Colorado 80225.
New Federal Building, 26 Federal Plaza, New York, New York 10007.
William J. Green, Jr., Federal Building, 600 Arch Street, Philadelphia, Pennsylvania 19106.
1256 Federal Building, 1520 Market Street, St. Louis, Missouri 63103.
Federal Building, Box 36010, 450 Golden Gate Avenue, San Francisco, California 94102.
Federal Office Building, 26th Floor, 915 Second Avenue, Seattle, Washington 98174.

(d) If a request for information is made to a Commission office that does not have possession of the information, that office will forward the request to the appropriate office and will notify the requester that it has done so. However, for purposes of application of the time limits in section 552 of Title 5, United States Code, the request will not be considered to be received until it arrives in the office having possession of the requested information.

(e) Information, and the office to be contacted for such information, published and offered for sale, or available to the public for examining and copying, for the convenience of the public or pursuant to section 552, Title 5, United States Code, subsection (a), paragraph (2) is found in the Commission's index required by that paragraph.

(f) A request for information on a subject matter not specifically referred to in this paragraph or in the index, should be directed to:

Office of Public Affairs, U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C. 20415.

§ 294.106 Procedures for obtaining information.

(a) A request for information under section 552 of Title 5, United States Code, may be made personally or in writing. Such requests may be made by letter as indicated above in § 294.105 or in person at an address indicated above during business hours on a regular business day.

(b) Each request for information under section 552 of Title 5, United States Code, should be clearly and prominently identified by means of a legend on the first page, such as "Freedom of Information Request." In addition, if sent by mail or otherwise submitted in an envelope or other cover, it should be clearly and prominently marked to show, "FOI" or "Freedom of Information" on the envelope, or some variation of this legend.

(c) A request under this part should reasonably describe the information being requested by a brief description containing a name, number, date as applicable, subject, title of publication or description, sufficient to enable the information to be identified and located. Requests for information contained in personnel records from persons other than the individual to whom the record pertains will be judged in accordance with § 294.103(b)(6).

(1) Requests for information from Official Personnel Folders and similar files must contain: name, date of birth, Social Security Account Number, agency where employed, and, if not presently employed, approximate dates of the most recent Federal employment. If presently employed, requests should be directed to the employing agency.

(2) Requests for information from investigatory files must contain: name, date and place of birth, and Social Security Account Number.

(3) Requests for information concerning the results of examinations should include name, date of birth, Social Security Account Number, identification number, and date, place, and time of examination.

(d) If a request is for materials that have been published and are offered for sale, e.g., by the Superintendent of Documents, the requester will be advised of the appropriate office in the Commission where the materials may be reviewed and the location where the materials may be purchased.

(e) The Commission shall make a determination to disclose or deny the requested information within ten working days after receipt of the request (excluding Saturdays, Sundays, and holidays) and shall notify the requester immediately of its determination and the fees involved, if any, prescribed by § 294.107.

§ 294.107 Service charges for information.

(a) Reasonable quantities of information that have been printed or otherwise reproduced by the Commission for the purpose of making it available to the public without charge, shall be furnished to a member of the public free of charge.

(b) Information other than that described in paragraph (a) of this section may be subject to a fair and equitable fee when it is made available to the public. The fee shall be paid by check or money order made payable to the Treasurer of the United States.

(c) Schedule of Fees. When a request is made for information under section 552 of title 5, United States Code, the Commission will charge a fee for searching and duplicating such information. The fees charged shall be as follows:

Photocopies, per page	$0.10
Printed material, per 25 pages or fraction thereof	.25
Manual records search, per hour	5.00
Automated records search:	
Programing, per hour	14.00
Keypunching, per hour	8.75
Computer time, per hour	65.00
Duplication, per hour	47.00

(d) Unless the request specifically states that whatever cost is involved will be acceptable, or acceptable up to a specified limit that covers anticipated costs, a request that can reasonably be expected to involve assessed fees in excess of $5.00 will be deemed not received until the requester, after prompt notification of the anticipated cost of the request, agrees to bear it.

(e) When the anticipated fees exceed $50.00, a deposit of 20 percent of the amount must be made within 30 days after the requester has been advised that the anticipated fees exceed this amount. The request will be deemed not received until the deposit is received.

(f) Charges will be assessed in cases of unproductive or unsuccessful searches unless waived by the appropriate Commission official. Services performed that are not required under the Freedom of Information Act such as formal certification of records as true copies may be subject to charges under the Federal User Charge Statute (31 U.S.C. 483a) or other applicable statutes depending upon the services performed.

§ 294.108 Appeal of a denial of information.

(a) In the event of a difference concerning the availability or disclosure of information between a member of the public and an employee of the Commission or an employee of another agency with custody of information controlled by the Commission and authority to deny disclosure of such information, the requester may ask for reconsideration of the denial. The request shall be addressed to the Assistant Executive Director, U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C. 20415, within ten working days after the requester receives notification of the denial. The Assistant Executive Director shall notify the requester of the decision within 20 working days (excluding Saturdays, Sundays, and holidays) after receipt of the request for reconsideration. The request to the Assistant Executive Director is the only administrative appeal within the Commission. The decision on appeal exhausts the administrative remedies within the Commission. If the Assistant Executive Director upholds in whole or in part the denial of the request for records, the written notice shall inform the person making the request of the provisions for judicial review of that determination.

§ 294.109 Custody of information; subpenas.

(a) The Executive Assistant to the Commissioners has official custody of the official records of the Commission. A subpena or other judicial order for an official record from the Commission should be served on the:

Executive Assistant to the Commissioners, 1900 E Street NW., Washington, D.C. 20415.

(b) If a subpena or other judicial order for an official record is served on an employee of the Commission other than the Executive Assistant to the Commissioners, the employee shall immediately inform the General Counsel of the Commission who shall advise the employee accordingly.

(c)(1) If a subpena or other judicial order for information contained in an Official Personnel Folder in the physical custody of a Government agency other than the Commission is served on a Government employee responsible for the Folder, he shall disclose such information as is allowed under this part. However, he should retain custody of the information and, as necessary, request permission of counsel or the court to furnish a certified copy for inclusion in the court record.

(2) In an unusual situation or a situation in which information not available under this part is sought, the Government employee who received the subpena shall immediately forward it and the Official Personnel Folder containing the information sought to the:

General Counsel, U.S. Civil Service Commission, Washington, D.C. 20415.

When this is done, the Government employee shall inform the person who applied for the subpena that the subpena and the information sought have been sent to the Commission pursuant to this subparagraph and, if necessary, request a postponement of the scheduled appearance.

§ 294.110 Deceased employees.

A right under this part to the disclosure of, and to control the disclosure of, information personal to an employee, former employee, annuitant, or applicant passes after his death to the executor or administrator of his estate, or in the absence of an executor or administrator, to his next of kin.

Public comment is invited on the above provisions and will be considered by the Commission if received no later than March 21, 1975. Comments should be submitted in writing to the Assistant Executive Director, U.S. Civil Service Commission, 1900 E Street NW., Washington, D.C. 20415. Notwithstanding the foregoing, these provisions become effec-

XUM V40138 FEB 25 75 XUM

tive February 19, 1975 and shall remain in effect until and unless revised by the Commission.

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] JAMES C. SPRY,
Executive Assistant to the Commissioners.

Title 7—Agriculture

CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS, FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

PART 926—TOKAY GRAPES GROWN IN SAN JOAQUIN COUNTY, CALIFORNIA

Increase in Expenses for the 1974–75 Season

This document authorizes an increase of $9,928 in the Industry Committee expenses during the 1974–75 season (April 1, 1974, through March 31, 1975) under Marketing Order No. 926. Said increase changes the seasonal committee budget from $139,183 to $149,111 with no change in the related rate of assessment on handlers of Tokay grapes.

On January 29, 1975, notice of proposed rulemaking was published in the FEDERAL REGISTER (40 FR 4315) regarding proposed amendment of the committee expenses for the period April 1, 1974, through March 31, 1975, pursuant to the marketing agreement, as amended, and Order No. 926, as amended (7 CFR Part 926), regulating the handling of Tokay grapes grown in San Joaquin County, California. This is a regulatory program effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674). The notice allowed interested persons 20 days to submit written data, views, or arguments pertaining to the proposal. None were submitted. After consideration of all relevant matter presented, including the proposal set forth in said notice which was submitted by the Industry Committee (established pursuant to said amended marketing agreement and order) it is *hereby ordered* That the provisions of paragraph (a) of § 926.214 (39 FR 33306) be amended to read as follows:

§ 926.214 Expenses, rate of assessment, and carryover of unexpended funds.

(a) *Expenses.* Expenses that are reasonable and likely to be incurred by the Industry Committee during the period April 1, 1974, through March 31, 1975, will amount to $149,111.

* * * * *

It is hereby found that good cause exists for not postponing the effective time hereof until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (1) the Industry Committee has incurred expenses in excess of those previously thought likely to be incurred, (2) it is essential that the determination of expenses, as specified therein, be issued immediately so that said committee can meet its obligations and perform its duties and functions during the current fiscal period in accordance with the provisions of said marketing agreement and order, and (3) the increase in expenses, as set forth herein, will not result in an increase in the rate of assessment for handlers as heretofore fixed by the Secretary (39 FR 33306).

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: February 20, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc. 75-4997 Filed 2-24-75; 8:45 am]

[Amdt. 1]

PART 980—VEGETABLES; IMPORT REGULATIONS

Onions; Minimum Quality Requirements

This regulation changes minimum quality requirements for imported onions.

Notice of rulemaking regarding a proposed amendment of § 9c0.113 Onion import regulation, was published in the January 16, 1975, FEDERAL REGISTER (40 FR 2819). This regulation is effective under section 8e of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 608e–1).

The notice afforded interested persons an opportunity to file written data, views or arguments in regard thereto not later than February 3, 1975. None was filed.

Under section 8e, whenever two or more marketing orders are concurrently in effect regulating the same agricultural commodity produced in different areas of the United States, the importation of such commodity shall be prohibited unless it complies with the grade, size, quality, and maturity provisions of the order which, as determined by the Secretary of Agriculture, regulates the commodity produced in the area with which the imported commodity is in most direct competition.

Onion import regulation § 980.113 (39 FR 26290), became effective July 16, 1974, and sets forth similar grade, size, quality and maturity requirements as those in effect for onions handled under Marketing Order No. 958, as amended (7 CFR Part 958) regulating the shipments of onions grown in designated counties in Idaho and Malheur County, Oregon.

Grade, size, quality, and maturity requirements become effective for the period March 10 through May 11, 1975 (39 FR 45208) under Marketing Order No. 959, as amended (7 CFR Part 959), regulating the handling of onions grown in South Texas. Imported onions will be in most direct competition with those regulated under Marketing Order 959 on or about March 17 and the changes are necessary to bring import regulations into line with domestic regulations covering South Texas onions.

Findings. (a) After consideration of all relevant matters, including the proposal set forth in the notice, and other available information, it is hereby found that the proposal as published in the notice should be issued and that imported onions comply with the grade, size, quality and maturity requirements, as hereinafter provided, applicable to onions produced in the United States, and effective under Marketing Order No. 959, as amended (7 CFR Part 959) regulating the handling of onions grown in designated counties of South Texas. This regulation is subject to further amendment with adequate notice as domestic regulations are changed.

(b) It is hereby further found that good cause exists for not postponing the effective date of this regulation beyond the time specified (5 U.S.C. 553) in that (1) the requirements established by this regulation are mandatory under Section 8e of the act; (2) all known onion importers were notified of the proposed regulation; and (3) notice hereof was published in the January 16, 1975, FEDERAL REGISTER (40 FR 2819), and such notice is determined to be reasonable.

Regulation, as amended. Section 980.113 Onion import regulation (39 FR 26290), is hereby revised to read as follows:

§ 980.113 Onion import regulation.

Pursuant to Section 8e of the act (7 U.S.C. 608e–1) and except as otherwise provided herein, during the period beginning March 17, 1975, and continuing through May 11, 1975, the importation of onions is prohibited unless such onions are inspected and meet the requirements of this section.

(a) Minimum grade and size requirements. (1) *Grade.* Not to exceed 20 percent defects of U.S. No. 1 grade. In percentage grade lots, tolerances for serious damage shall not exceed 10 percent including not more than 2 percent decay. Double the lot tolerance shall be permitted in individual packages in percentage grade lots. Applications of tolerances in U.S. onion standards shall apply to in-grade lots.

(2) *Size.* White onions—1 inch minimum diameter; all other varieties of onions—1¾ inches minimum diameter.

(b) Condition. Due consideration shall be given to the time required for transportation and entry of onions into the United States. Onions with transit time from country of origin to entry into the United States of ten or more days may be entered if they meet an average tolerance for decay of not more than 5 percent, provided they meet the other requirements of this section.

(c) Minimum quantity. Any importation which in the aggregate does not exceed 100 pounds in any day, may be imported without regard to the provisions of this section.

(d) Plant quarantine. Provisions of this section shall not supersede the restrictions or prohibitions on onions under the Plant Quarantine Act of 1912.

(e) Designation of governmental inspection service. The Federal or the Federal-State Inspection Service, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, and the Fruit and Vegetable Division, Production and Marketing Branch, Canada Department of Agriculture, are designated as governmental inspection services for certifying the grade, size, quality and maturity of onions that are imported into the United States under the provisions of section 8e of the act.

(f) Inspection and official inspection certificates. (1) An official inspection certificate certifying the onions meet the United States import requirements for onions under section 8e (7 U.S.C. 608e–1), issued by a designated governmental inspection service and applicable to a specific lot is required on all imports of onions.

(2) Inspection and certification by the Federal or Federal-State Inspection Service will be available and performed in accordance with the rules and regulations governing certification of fresh fruits, vegetables and other products (Part 51 of this title). Each lot shall be made available and accessible for inspection as provided therein. Cost of inspection and certification shall be borne by the applicant.

(3) Since inspectors may not be stationed in the immediate vicinity of some smaller ports of entry, importers of onions should make advance arrangements for inspection by ascertaining whether or not there is an inspector located at their particular port of entry. For all ports of entry where an inspection office is not located, each importer must give the specified advance notice to the applicable office listed below prior to the time the onions will be imported.

Ports	Office	Advance Notice
All Texas points..	L. M. Denbo, P.O. Box 107, San Juan, Tex. 78589 (Phone 512-787-4091 or 4661).	1 day.
All Arizona points.	B. O. Morgan, P.O. Box 1414, Nogales, Ariz. 85621 (Phone 602-287-2962).	Do.
All California points.	D. F. Thompson, 784 South Central Ave., Room 206, Los Angeles, Calif. 90021 (Phone 213-688-5704).	3 days.
All Hawaii points.	Stevenson Ching, P.O. Box 5426, Pawaa Substation, 1428 South King St., Honolulu, Hawaii 96814 (Phone 808-941-3087).	1 day.
All Puerto Rico points.	Darrell McNeal, P.O. Box 10163, Santurce, P.R. 00908 (Phone 809-759-2280 or 4116).	2 days.
New York City..	Carmine J. Cavallo, Room 28A Hunts Point Market, Bronx, N.Y. 10474 (Phone 212-991-7669 or 7668).	1 day.
New Orleans....	Anthony Gennaro, 5027 Federal Office Bldg., 701 Loyola Ave., New Orleans, La. 70113 (Phone 504-527-6741 or 6742).	Do.
Miami.....	Lloyd W. Boney, 1350 Northwest 12th Ave., Room 538, Miami, Fla. 33136 (Phone 305-324-6111 or 6117).	Do.
All other Florida points.	C. B. Brantley, P.O. Box 1232, Winter Haven, Fla. 33880 (Phone 813-294-3311, Extension 33 and 813-294-2089).	Do.
All other points..	D. S. Matheson, Fruit and Vegetable Division, AMS, Washington, D.C. 20250 (Phone 202-447-3870).	3 days.

(4) Inspection certificates shall cover only the quantity of onions that is being imported at a particular port of entry by a particular importer.

(5) Each inspection certificate issued with respect to any onions to be imported into the United States shall set forth, among other things:

(i) The date and place of inspection;

(ii) The name of the shipper or applicant;

(iii) The commodity inspected;

(iv) The quantity of the commodity covered by the certificate;

(v) The principal identifying marks on the containers;

(vi) The railroad car initials and number, the truck and trailer license number, the name of the vessel, or other identification of the shipment; and

(vii) The following statement, if the facts warrant: Meets import requirements of 7 U.S.C. 608e–1.

(g) Reconditioning prior to importation. Nothing contained in this part shall be deemed to preclude any importer from reconditioning prior to importation any shipment of onions for the purpose of making it eligible for importation.

(h) It is hereby determined that imports of onions, during the effective time of this section, are in most direct competition with onions grown in South Texas. The requirements set forth in this section are the same as those applicable to grade, size, quality and maturity being made effective for onions grown in South Texas.

(i) Definitions. For the purpose of this section, "Onions" means all (except red) varieties of Allium cepa marketed dry, except dehydrated, canned and frozen onions, onion sets, green onions, and pickling onions. Onions commonly referred to as "braided," that is, with tops, may be imported if they meet the grade and size requirements except for top length. The term "U.S. No. 1" shall have the same meaning as set forth in the United States Standards for Grades of Bermuda-Granex-Grano Type Onions (§§ 51.3195–51.3209 of this title), United States Standards for Grades of Creole Onions (§§ 51.3965–51.3970 of this title), or in the United States Standards for Grades of Onions Other Than Bermuda-Granex-Grano and Creole Types (§§ 51.2830–51.2854 of this title), whichever is applicable to the particular variety. Tolerances for size shall be those in the applicable United States Standards. The requirements of Canada No. 1 grade are deemed comparable to the requirements of U.S. No. 1 grade. "Importation" means release from custody of the United States Bureau of Customs.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674).

Dated: February 14, 1975 to become effective March 17, 1975.

CHARLES R. BRADER,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 12—Banks and Banking

CHAPTER V—FEDERAL HOME LOAN BANK BOARD

SUBCHAPTER A—GENERAL

[No. 75–155]

PART 505—AVAILABILITY AND CHARACTER OF RECORDS

Freedom of Information; Release of Records and Information

Summary. The following summary of the amendments adopted by this Resolution is provided for the reader's convenience and is subject to the full explanation in the following preamble and to the specific provisions of the regulations.

1. *Present regulations.* Part 505 of the General Regulations contains regulations adopted in June, 1967, implementing the Freedom of Information Act ("FOIA"), 5 U.S.C. 552.

2. *Reason for changing the regulations.* Part 505 is being amended to implement recent amendments to 5 U.S.C. 552 contained in Pub. L. 93–502.

3. *Final regulations.* The principal changes in Part 505 are contained in § 505.4(f) which provides time limitations and procedures for handling requests for information and records under the FOIA, and in § 505.4(g) which provides time limitations and procedures for processing administrative appeals from the denial of such requests. The changes are described in the preamble.

Also described in the preamble is Board Resolution No. 75–15 which proposed the amendment of § 505.4(e) of the general regulations, revising the schedule of fees which may be charged under the FOIA.

As stated above, pursuant to Pub. L. 93–502 which amended 5 U.S.C. 552, and Board Resolution No. 75–15, dated January 15, 1975, the Board is amending certain portions of Part 505 of its general regulations (12 CFR Part 505).

Section 505.1 *Basis and scope* is not changed.

Certain editorial and technical changes have been made in §§ 505.2 *Definitions* and 505.3 *Published information.* A new paragraph (d) to § 505.3 has been added to describe the "Annotated Manual of Statutes and Regulations", and former paragraphs (d) and (e) of that section have been redesignated as (e) and (f), respectively.

Section 505.4 *Access to records,* contains the most significant changes occasioned by Pub. L. 93–502. Paragraph (a), (b), and (c) remain unchanged, except for the deletion of references to § 505.5 (see explanation below). The final three sentences of the former paragraph (d) of § 505.4 (which has been reentitled "Request for records and other information"), relating to fees under the FOIA, have been incorporated in amended form in a new paragraph (e).

As previously indicated, with respect to paragraph (e), the Board, by Resolution No. 75–15 dated January 7, 1975, proposed an amendment in its fee schedule. Notice of proposed rule making was

XUM
V 40 138 FEB 25 75 XUM

duly published in the FEDERAL REGISTER on January 15, 1975 (40 FR 2715) with an invitation for interested persons to submit written comments by January 30, 1975. Upon consideration of all relevant material, the Board has determined to adopt paragraph (e) substantially as proposed. As amended, the new fee schedule provides for the furnishing of cost estimates in certain cases; the search fee has been increased from $5 to $10 per hour; and advance deposits are authorized in certain cases. The Secretary or an Assistant Secretary designated by the Secretary is authorized to waive fees of $3 or less and to waive in whole or part fees when the imposition of such fees would impose an unnecessary hardship on the person making the request or when such waiver would serve the public interest.

The Board has not at this time attempted to provide a fee schedule for supplying records and information from computer and other information systems programs. When the Board accumulates experience in the processing of such requests, a more definitive fee schedule for such services will be proposed.

Paragraph (f) of § 505.4 provides for the initial determination of FOIA requests by the Board's General Counsel. As described therein, a request must, in the absence of "unusual circumstances" as defined in paragraph (i) of § 505.4, be granted or denied within 10 days (excluding Saturdays, Sunday, and legal holidays) after its receipt by the Secretary or Assistant Secretary to the Board. Notification of the initial denial of requests for access to information or records shall include a statement of the reasons therefor and shall advise the person making the request of the right to an administrative appeal under paragraph (g).

Paragraph (g) of § 505.4 replaces former § 505.8 and establishes a method for appeals to the Board, or to a designated Member thereof, from an adverse initial determination under paragraph (f). The appeal must be taken within 30 calendar days from the date of written notification of such denial, and must be determined within 20 working days, except in unusual circumstances.

Under paragraph (h) of § 505.4, the Board may, in cases where an action has been filed for judicial review of an initial denial, (1) continue to process an appeal therefrom under paragraph (g), or (2) if the person making the request has not appealed under paragraph (g), initiate and process an appeal.

Paragraph (i) of § 505.4 sets forth the "unusual circumstances" described in Pub. L. 93–502, upon which the time periods referred to in paragraphs (f) and (g) of said section may be extended for a total of 10 working days in the aggregate; provided, however, that the person requesting access to records or information is notified of (1) such circumstances, and (2) the date on which the initial determination shall be made or the administrative appeal decided.

Under paragraph (j) of § 505.4, the time limitations for the making of initial determinations and appeals therefrom shall commence when the request or appeal is actually received by the Secretary to the Board.

Former § 505.5 *Deferment of availability of certain information* provided for the deferment of the availability of certain information. Since the provisions of that section do not conform with the time limitations imposed by Pub. L. 93–502, it has been deleted, and § 505.6 *Information not disclosed* has been redesignated § 505.5.

Paragraph (a) of the latter section is amended in two respects: subparagraph (4) of paragraph (a) is amended to reflect the more restrictive limitations upon the exemption from disclosure of investigative files contained in 5 U.S.C. 552(b)(7), as amended by Pub. L. 93–502. Also, a sentence is added at the end of the paragraph (a) to make clear that in responding to requests for records of the Board, portions of which are exempt from disclosure, the non-exempt material, if reasonably segregable, shall be furnished to the person making the request.

Paragraph (b) of § 505.5 (which formerly was part of § 505.6) has been amended to provide that copies of regular examination reports of each insured institution, and affiliates examined in connection with such examinations (including holding companies and service corporations), are routinely made available by the Board's Supervisory Agent at the appropriate Federal Home Loan Bank, to the institution examined; and that reports of examination and other information relating to State-chartered insured institutions and affiliates are also made available, upon request, to State regulatory authorities.

Paragraph (c) of said section was also amended to permit unpublished information to be released under delegated authority as well as under the procedure provided in § 505.4; however, the "proper interest" test as a condition to the release of information has been deleted since it is inconsistent with the provisions of 5 U.S.C. 552.

Section 505.7 *Subpoenas*, without other change, has been redesignated § 505.6. The provision of appeals formerly contained in § 505.8 has been superseded by the administrative appeals provisions of § 505.4(g) and, therefore, § 505.8 has been deleted.

Accordingly, the FHLBB amends §§ 505.2, 505.3, and 505.4; amends and redesignates § 505.6 as § 505.5; redesignates without change § 505.7 as § 505.6; and deletes former §§ 505.5 and 505.8. Part 505 of the general regulations reads as set forth below, effective February 19, 1975.

Since the above-described amendments are either required by the amendments to 5 U.S.C. 552(a) and (b), effected by Pub. L. 93–502, are for the purpose of clarification, or relate to rules of procedure or practice, the Board hereby finds that (except as indicated above as to the proposed amendment to § 505.4 (e)) notice and public procedure thereon are unnecessary under the provisions of 12 CFR 508.11 and 5 U.S.C. 553(b); and since Pub. L. 93–502, which said amendments are designed to implement, becomes effective on February 19, 1975, publication of said amendments for the 30-day period specified in 12 CFR 508.14 and 5 U.S.C. 553(d) prior to the effective date of said amendments would therefore be impracticable, unnecessary or contrary to the public interest.

AUTHORITY: 5 U.S.C. 552: sec. 17, 47 Stat. 736, as amended, sec. 5, 48 Stat. 132, as amended, sec. 402, 48 Stat. 1256, as amended; 12 U.S.C. 1437, 1464, 1725; Reorg. Plan No. 3 of 1947, 12 FR 4981, 3 CFR, 1947 Supp.

§ 505.1 Basis and scope.

This Part is issued by the Federal Home Loan Bank Board pursuant to the requirement of section 552 of Title 5 of the United States Code, that every Federal agency shall publish in the Federal Register for the guidance of the public descriptions of the established places at which, the officers from whom, and the methods whereby, the public may secure information, make submittals or requests, or obtain decisions.

§ 505.2 Definitions.

As used in this Part 505:

(a) *Information of the Board.* The term "information of the Board" means all information coming into the possession of the Board or of any Member thereof, of the Federal Savings and Loan Insurance Corporation, or of any Federal Home Loan Bank or of any officer, employee, or agent of the Board or of the Federal Savings and Loan Insurance Corporation or of any Federal Home Loan Bank in the performance of duties for or on behalf of the Board, whether located at the offices of the Board or of a Federal Home Loan Bank, or elsewhere, including any examination report or related information in connection with examinations made by examiners selected, approved, or appointed by the Board.

(b) *Records of the Board.* The term "records of the Board" means rules, statements, opinions, orders, memoranda, interpretations, letters, reports, accounts, and other papers that contain information of the Board.

(c) *Member institution.* The term "member institution" means an institution which is a member of a Federal Home Loan Bank.

(d) *Person.* The term "person" includes any individual, firm, corporation, organization, or other entity.

§ 505.3 Published information.

(a) FEDERAL REGISTER. As required by sections 552 and 553 of Title 5 of the United States Code, and subject to the provisions of § 505.5 of this Part, the Board publishes in the FEDERAL REGISTER for the guidance of the public, in addition to this Part:

(1) Descriptions of its central and field organization;

(2) Statements of the general course and method by which its functions are channeled and determined, including the nature and requirements of all formal and informal procedures available;

(3) Rules of procedure, descriptions of forms available or the places at which forms may be obtained, and instructions as to the scope and contents of all papers, reports, or examinations;

(4) Substantive rules of general applicability adopted as authorized by law, and statements of general policy or interpretations of general applicability formulated and adopted by the Board;

(5) Every amendment, revision, or repeal of the foregoing; and

(6) General notices of proposed rulemaking.

(b) *Annual report.* The Board's Annual Report to Congress, made pursuant to section 17(b) of the Federal Home Loan Bank Act, as amended (12 U.S.C. 1437 (b)), which is published after its submission to Congress, covers the operations of the Federal Home Loan Bank System, the Federal Savings and Loan Insurance Corporation and the Federal Savings and Loan System.

(c) *Federal Home Loan Bank Board Journal.* In the Federal Home Loan Bank Board Journal, which is issued monthly, the Board publishes brief summaries of economic and statistical information; special articles on subjects of economic interest; brief summaries of regulations, statements of general policy, and interpretations of general policy, and interpretations of general interest to the public; notices of actions by the Board on certain types of applications, such as applications for membership in the Federal Home Loan Bank System; and a directory which includes a listing of new insured members of the Federal Home Loan Bank System, new Federal associations, and new branch offices of Federal associations.

(d) *Annotated Manual of Statutes and Regulations.* The Board publishes the Annotated Manual of Statutes and Regulations which contains: (1) The statutes under which the Board operates; (2) the regulations, rulings, and statements of policy promulgated by the Board; (3) interpretative memoranda of the Office of Examinations and Supervision; (4) digests of opinions rendered by the Office of General Counsel; and (5) other statutory and regulatory material relating to the Board's operations. The Annotated Manual is regularly supplemented to provide current changes in the aforementioned categories. Each member institution is given a free copy of the Manual and it is available from the Superintendent of Documents to the general public on a subscription basis.

(e) *Other published information.* From time to time, the Board issues statements to the press regarding particular dividend and credit actions, regulatory actions, statements of policy, actions with respect to certain types of applications, and other matters. In addition, it issues various publications, among which is an annual compilation of statistics relating to the savings and loan industry called the "Combined Financial Statements".

(f) *Access to publications.* The publications referred to in paragraphs (b), (c), (d), and (e) of this section may be examined and, if available, copies may be obtained at the offices of the Board at the times and address set forth in paragraph (d) of § 505.4 of this Part.

§ 505.4 Access to records.

(a) *General rule.* All records of the Board are made available to any person for inspection and copying in accordance with the provisions of this section and subject to the limitations stated in § 505.5 of this Part. It is the policy of the Board to disclose its records to the public, even though such records may, in the Board's discretion, be exempted from disclosure by section 552 of Title 5 of the United States Code or by § 505.5 of this Part, wherever such disclosure can be made without resulting in injury to a public or private interest intended to be protected by the foregoing statute or in a significant interference with the statutory responsibilities of the Board and the national interest. Requests for information which can be produced only by processing through an information system program especially designed for that purpose are not regarded as requests for identifiable records that must be disclosed pursuant to section 552 of Title 5 of the United States Code; but it is the policy of the Board to make such information available if it is not otherwise exempt from disclosure, provided that the retrieval or production of such information does not unduly burden or interfere with the functioning of the Board.

(b) *Opinions, order, statements of policy, interpretations, and staff manuals and instructions.* Subject to the provisions of § 505.5 of this Part, the Board makes available for inspection and copying (1) all final opinions (including concurring and dissenting opinions) and all orders made in the adjudication of cases; (2) statements of policy and interpretations adopted by the Board that are not published in the Federal Register; and (3) administrative staff manuals and instructions to staff that affect any member of the public. However, to the extent required to prevent a clearly unwarranted invasion of personal privacy, the Board may delete identifying details in any material of the kinds abovedescribed; and in each such case the justification for such deletion will be fully explained in writing. The Board maintains and makes available for public inspection and copying a current index providing identifying information for the public as to any material described in this paragraph which is issued, adopted, or promulgated after July 4, 1967.

(c) *Other records.* Subject to the provisions of § 505.5 of this Part, a record of the final votes of each member of the Board in any proceeding of the Board is available for public inspection.

(d) *Requests for records and other information.* Available records and other information of the Board subject to this section may be inspected or copied during regular business hours on regular business days at the offices of the Federal Home Loan Bank Board, 320 First Street NW, Washington, D.C. 20552. Any person requesting access to, or copying of, such records or other information shall submit such request in writing to the Secretary to the Board. The request shall state the full name and address of the person and a description of the records or other information sought that is reasonably sufficient to permit their identification without undue difficulty. Wherever possible request should be submitted in advance of the date inspection or copying is desired, preferably by mail.

(e) *Fees for providing copies of records.* (1) A person requesting access to or copies of particular records shall pay the cost of searching or copying such records at the rate of $10 per hour for searching and 10 cents per page for copying. Unless a requester states in his initial request that he will pay all costs regardless of amount, he shall be notified as soon as possible if there is reason to believe that the cost for obtaining access to and/or copies of such records will exceed $50. If such notice is given, the time limitations contained elsewhere in this Part shall not commence until the requester agrees in writing to pay such cost. The Secretary is authorized to require an advance deposit whenever in his judgment such a deposit is necessary to insure that the Board will receive adequate reimbursement of its costs. If such a deposit is required, the time limitations contained elsewhere in this Part shall not commence until the deposit is paid.

(2) The Secretary or an Assistant Secretary designated by the Secretary is authorized either to waive such payment in instances in which total charges are less than $3 or to wave in full or in part such fees when unnecessary hardship would be inflicted upon the requesting person or in which waiver would serve the public interest.

(3) With respect to information obtainable only by processing through an information systems program, which has been made available under paragraph (a) of this section, a person requesting such information shall pay a fee equal to the full cost of retrieval and production of the information requested and the Director, Information Systems Division, or such person or persons as he may designate, with the concurrence of the Director, Office of Economic Research, or such person or persons as he may designate, is authorized to determine the cost of such retrieval and production, and to waive such payment in instances in which unnecessary hardship would be inflicted upon the requesting person or in which waiver would serve the public interest.

(f) *Initial determination.* (1) The General Counsel, or his designee, shall determine within ten days (excepting Saturdays, Sundays, and legal public holidays) after the receipt by the Secretary to the Board of a written request for records or other information of the Board whether, or the extent to which, the Board will comply with such request.

XUM
V 40138 FEB 25 75 XUM

(2) Upon determination by the General Counsel, or his designee, with respect to a request for records or other information of the Board, the Secretary shall immediately send written notification to the person making the request. If the request is denied, in whole or in part, said notification shall include the reasons therefor and shall advise such person that such determination is not a final agency action and of the right to appeal therefrom under paragraph (g) of this section.

(g) *Appeal procedure.* (1) In the event of any denial under paragraph (f), the person making the request may, within 30 calendar days of the date of written notification thereof, appeal from said denial by written application, stating the grounds therefor, to the Secretary to the Board at the address set forth in § 505.4(d).

(2) The Board, or such Member thereof as it may designate, shall make its determination with respect to the appeal within 20 days (excepting Saturdays, Sundays, and legal public holidays) after receipt of said application by the Secretary. If on appeal the denial of the request for records is upheld, in whole or in part, the Secretary shall promptly notify the applicant in writing of such determination and of the provisions for judicial review thereof under 5 U.S.C. 552(a)(4).

(h) *Appeal during pendency of action for judicial review.* If a suit is filed in a district court of the United States under 5 U.S.C. 552(a)(4) in any case in which an initial adverse determination, in whole or in part, has been issued, regardless of whether or not the suit is premature, (1) the Board, or designated Member thereof, may continue to process any appeal therefrom under paragraph (g) of this section, or (2) if the person making the request has not appealed under said paragraph (g), the Board, or designed Member thereof, may initiate and process an appeal from such determination.

(i) *Time extension in unusual circumstances.* In unusual circumstances as provided in this paragraph, the time limitations prescribed in paragraphs (f) or (g) of this section may be extended for not more than ten additional working days by written notice to the person making the request setting forth the reasons for such extension and the date on which a determination of the request or appeal is expected to be dispatched. As used herein, "unusual circumstances" means:

(1) The need to search for and collect the requested records from field facilities or other establishments that are separate from the office processing the request;

(2) The need to search for, collect, and appropriately examine a voluminous amount of separate and distinct records which are demanded in a single request; or

(3) The need for consultation with another agency having substantial interest in the determination of the request or the appeal, or among two or more components of the Board having substantial subject-matter interest therein.

(j) *Time limitations.* All time limitations established pursuant to this section with respect to initial determinations and appeals therefrom shall begin as of the time that a written request for records or other information of the Board, or the appeal from such determination, is actually received by the Secretary to the Board.

§ 505.5 Information not disclosed.

(a) *General rule.* Except as otherwise provided in this Part, or as may be specifically authorized by the Board, information of the Board that has not been published in accordance with § 505.3 of this Part and is not available to the public through other sources will not be made available to the public or otherwise disclosed if such information is—

(1) Exempt from disclosure by statute or executive order;

(2) Contained in or related to examination, operating, or condition reports prepared by, or on behalf of, or for the use of, the Board or a Federal Home Loan Bank, relating to the affairs of any member institution or affiliate thereof, or any other person engaged in, or proposing to engage in, the savings and loan business;

(3) Privileged or related to the business, personal, or financial affairs of any person and is furnished in confidence;

(4) Contained in investigatory files compiled for law enforcement purposes, including, but not limited to, information relating to matters involving: (i) the issuance of a cease-and-desist order, or order of suspension or removal, under the Financial Institutions Supervisory Act of 1966 (Pub. L. 89-695); (ii) the termination of insurance under section 407 of the National Housing Act, as amended (12 U.S.C. 1730); (iii) the termination of membership in a Federal Home Loan Bank pursuant to section 6 (i) of the Federal Home Loan Bank Act (12 U.S.C. 1426); (iv) appointments of conservators and receivers under section 5(d) of the Home Owners' Loan Act of 1933, as amended (12 U.S.C. 1464), and section 406 of the National Housing Act, as amended (12 U.S.C. 1729); (v) the application of section 408 of the National Housing Act (12 U.S.C. 1730a) to holding companies; and (vi) the granting or revocation of any approval, permission, or authority; except to the extent required under the provisions of 5 U.S.C. 552(b)(7);

(5) Related solely to the internal personnel rules or other internal practices of the Board;

(6) Contained in personnel, medical, and similar files (including financial files), the disclosure of which would constitute a clearly unwarranted invasion of personal privacy; or

(7) Contained in interagency and intra-agency memoranda or letters that would not be routinely available by law to a private party in litigation with the Board, including but not limited to memoranda, reports, and other documents prepared by the Board's staff, or by the staffs of the Federal Home Loan Banks acting as agents of the Board, and records of deliberations and discussions at meetings of the Board or of the Board's staff.

Any reasonably segregable portion of a record shall be provided to any person requesting such record after deletion of the portions which are exempt from disclosure under this section.

(b) *Information available to insured institutions and to State and Federal agencies.* A copy of each report of the regular examination of each insured institution or affiliate is made available by the Board's Supervisory Agent at the appropirate Federal Home Loan Bank to the institution examined. Reports of examination and other information relating to State-chartered insured institutions and affiliates are made available, upon request, by the Director of the Board's Office of Examinations and Supervision to the State governmental authority having general supervision of such State-chartered insured institutions. Reports of examination and other information may be made available by the Board to other agencies of the United States or a State for use where necessary in the performance of their official duties. All reports or other information made available pursuant to this paragraph shall remain the property of the Board and, except as otherwise provided in this Part, no person, agency, or authority to whom the information is made available, or any officer, director, or employee thereof, shall disclose any such information except published statistical material that would not disclose the identity of any individual or corporation.

(c) *Prohibition against disclosure.* Except as authorized by this Part or otherwise by the Board, no officer, employee, or agent of the Board or of any Federal Home Loan Bank shall disclose or permit the disclosure of any unpublished information of the Board to anyone (other than an officer, employee, or agent of the Board or of a Federal Home Loan Bank properly entitled to such information for the performance of his official duties), whether by giving out or furnishing such information or a copy thereof or by allowing any person to inspect, examine, or copy such information or copy thereof, or otherwise. Notwithstanding the foregoing, unpublished economic, statistical, or similar information or unpublished information regarding interpretations by the Board of statutory or regulatory provisions may be disclosed, orally or in writing, by any officer, employee, or agent of the Board or of any Federal Home Loan Bank, acting in his capacity as agent of the Board, subject, however, to the restrictions stated in § 505.5 of this Part.

§ 505.6 Subpoenas.

(a) *Advice by person served.* If any person, whether or not an officer or employee of the Board or of a Federal Home Loan Bank, has information of the Board that may not be disclosed under this Part and in connection therewith is served with a subpeona, order, or other

process requiring his personal attendance as a witness or the production of documents or information in any proceeding, he shall promptly advise the Board of such service and of all relevant facts, including the documents and information requested and any facts which may be of assistance to the Board in determining whether such documents or information should be made available; and he shall take action at the appropriate time to advise the court or tribunal which issued the process and the attorney for the party at whose instance the process was issued, if known, of the substance of these rules.

(b) *Appearance by person served.* Except as the Board has authorized disclosure of the relevant information, or except as authorized by law, any person who has information of the Board that may not be disclosed under this Part and is required to respond to a subpoena or other legal process shall attend at the time and place therein mentioned and respectfully decline to produce such information or give any testimony with respect thereto, basing his refusal upon this Part. If, notwithstanding, the court or other body orders the disclosure of such information or the giving of such testimony, the person having such information of the Board shall continue respectfully to decline to produce such information and shall promptly report the facts to the Board for such action as the Board may deem appropriate.

Dated: February 19, 1975.

By the Federal Home Loan Bank Board.

[SEAL] GRENVILLE L. MILLARD, JR.,
Assistant Secretary.

CHAPTER VII—NATIONAL CREDIT UNION ADMINISTRATION

PART 702—RESERVES

Full and Fair Disclosure Required

On pages 33244-33245 of the September 16, 1974, edition of the FEDERAL REGISTER (39 FR 33244-33245) there was published a proposal to rescind § 702.3 of Part 702 (12 CFR 702.3) and in lieu thereof add a new § 702.3. The purpose of the proposal is to update Part 702 in view of the accounting principles and standards which became effective January 1, 1975.

Interested persons were given until November 10, 1974, to submit written comments, suggestions, or objections regarding the proposed amendment. As a result of the comments, the following changes have been made:

1. *Paragraph (a).* Delete the language "a creditor, or" after the word "union" and before the word "the." Add the language, ", or, at the discretion of the board of directors, a creditor" after the word "Administration" and before the word "in."

2. *Paragraph (b)(1).* Delete the "s" on the word "unions" and add the language "financial statements" after the word "union" and before the word "shall." Delete the language "during a dividend period" and in lieu thereof add the language "for the period concerned."

3. *Paragraph (c)(1).* Delete the language "at the close of each dividend period" after the word "income" and before the word "to" and in lieu thereof add the language "before the payment of each dividend".

4. *Paragraph (c)(2).* Delete the language "at the end of each dividend period and" after the word "made" and before the word "prior." Add the language "or posting" after the word "distribution" and before the word "of", the language "to the accounts of all members" after the word "dividend" and before the word "so", and the language ", where applicable" after the word "including" and before the word "any."

5. *Paragraph (c)(3)(i).* Delete the word "All."

6. *Paragraph (c)(3)(ii).* Delete the language "remaining after the statutory transfer of gross income to the regular reserve account" after the word "deficits" and before the word "shall." Delete the period after the number "702.1" and add the language "of this Part."

7. *Paragraph (d).* Delete the "s" on the word "presents."

8. *Paragraph (e).* Delete the period after the first sentence and add the language "in amounts which are in excess of the statutory requirements of section 116 of the Federal Credit Union Act but are required under subsection (c)(3)(ii) of this section." Delete the last sentence and in lieu thereof add "Such application shall set forth the justification for the requested waiver and shall be addressed to the appropriate Regional Director."

Accordingly, with the above changes and additions, the proposed § 702.3 is adopted as set forth below.

Effective date: January 1, 1975.

HERMAN NICKERSON, JR.,
Administrator.

JANUARY 2, 1975.

§ 702.3 Full and fair disclosure required.

(a) "Full and fair disclosure" is the level of disclosure which a prudent person would provide to a member of a Federal credit union, the National Credit Union Administration, or, at the discretion of the board of directors, a creditor in order to fairly inform any or all of them of the financial condition and the results of operations of the credit union.

(b)(1) Federal credit union financial statements shall provide for full and fair disclosure of all assets, liabilities, and members' equity, including such valuation allowance accounts as may be necessary to present fairly the financial position; and all income and expenses necessary to present fairly the results of operations for the period concerned.

(2) Full and fair disclosure will further be accomplished by (i) selecting one of the accounting bases provided for in the Accounting Manual for Federal Credit Unions which shall be either the modified cash basis or the accrual basis of accounting, and by (ii) use of appropriate financial statements described in the Accounting Manual for Federal Credit Unions, or financial statements of equivalent format.

(c)(1) The maintenance of a valuation allowance for loan losses shall not eliminate the requirement for transferring a percentage of gross income before the payment of each dividend to the regular reserve as required by section 116 of the Federal Credit Union Act.

(2) As a minimum, adjustments to the valuation allowance for loan losses shall be made prior to the distribution or posting of any dividend to the accounts of all the members so that the valuation allowance established fairly presents the value of loans and anticipated losses resulting from (i) uncollectable loans and notes and contracts receivable, including, where applicable, any uncollectable accrued interest receivable thereon, (ii) assets acquired in liquidation of loans, and (iii) loans purchased from other credit unions.

(3)(i) Adjustments to the valuation allowance for loan losses will be recorded in the expense account "Provision for Loan Losses."

(ii) Whenever additions to the valuation allowance for loan losses cause a deficit in the regular reserve account, such deficits shall be transferred first to undivided earnings and, if this shall cause a deficit in undivided earnings, then to other segregations of undivided earnings that may exist, exclusive of the Special Reserve for Losses, should such be required by the Administrator in accordance with § 702.1 of this Part. These amounts are eligible for return to undivided earnings as provided for in the Accounting Manual for Federal Credit Unions.

(iii) Dividends shall not exceed the amount available for that purpose after provisions have been made for the statutory transfer to the regular reserve account and the removal of any deficit in the regular reserve account.

(d) The Statement of Financial Condition, when presented to members, creditors, or to the National Credit Union Administration, shall contain a dual declaration by the treasurer and by the president, or in the absence of the president, by any other officer designated by the board of directors of the reporting credit union to make such declaration, that the report and related financial statements are true and correct to the best of their knowledge and belief and present fairly the financial position and the results of operations for the period covered.

(e) Upon written application by the board of directors of a Federal credit union, the Administrator may waive, in whole or in part, the requirement for the maintenance of the valuation allowance for loan losses in amounts which are in excess of the statutory requirements of section 116 of the Federal Credit Union Act but are required under paragraph (c)(2)(ii) of this section. Such applica-

Title 14—Aeronautics and Space

CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 12660; Amdt. 39-2110]

PART 39—AIRWORTHINESS DIRECTIVES

Dowty Rotol Propellers

A proposal to amend § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1803 (39 FR 10426), AD 74-7-3, to make that airworthiness directive (AD) applicable to Dowty Rotol type (c) R245/4-40-4.5/13 and (c) R259/4-40-4.5/17 propellers, to revise the requirements of paragraph (c) of that AD, and to incorporate into the AD certain other clarifying revisions was published in the FEDERAL REGISTER on May 21, 1974 (39 FR 17862).

Interested persons have been afforded an opportunity to participate in the making of this amendment. No objections were received. However, the Air Transport Association of America (ATA), by letter dated June 20, 1974, while agreeing with the intent of the proposal, requested that the comment period for the proposal be extended from June 20, 1974, to July 15, 1974, to provide the commentator sufficient time to determine the availability and delivery dates of parts to establish the feasibility of complying with the proposed amendment. Based on the ATA request the FAA has reevaluated the parts availability status with reference to the proposed amendment and has determined that a sufficient number of parts are available and that delivery schedules are adequate for compliance with the amended AD. Therefore, the amendment is adopted herein as proposed.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

In consideration of the foregoing, § 39.13 of Part 39 of the Federal Aviation Regulations, Amendment 39-1803 (39 FR 10426), AD 74-7-3, is amended as follows:

1. By amending the applicability statement and the introductory language of the AD to read as follows:

DOWTY ROTOL—Applies to Dowty Rotol type (c) R 209/4-40-4.5/2, (c) R 245/4-40-4.5/13, and (c) R 259/4-40-4.5/17 propellers installed on, but not necessarily limited to, Nihon Model YS-11 and YS-11A Series airplanes and Convair Models 600[240D], 640[340D], and 640[440D] Series airplanes equipped with Rolls-Royce Dart Model 542 Series engines.

Compliance is required as indicated.

To prevent possible propeller failure resulting from cracking of full width case hardened rollers in the bottom (C.F.) race of the propeller blade bearings, accomplish the following:

• • • • • •

2. By amending the introductory language of paragraph (b) of the AD, the first sentence of paragraph (c) of the AD, and paragraph (d) of the AD by inserting between the date, "December 20, 1972," and the phrase "or an FAA-approved equivalent", the following phrase: "for type (c) R 209/4-40-4.5/2 propellers; Dowty Rotol Service Bulletin No. 61-542-9, dated June 21, 1973, for type (c) R 245/4-40-4.5/13 and (c) R259/4-40-4.5/17 propellers;"

3. By amending the second sentence of paragraph (c) of the AD to read as follows:

• • • • • •

(c) • • • If ten or more rollers are found to be broken or if the preload is found to be less than .0035 inches, before further flight, remove the associated propeller blade, blade retaining bolt, and bearing assembly from service, mark them in a manner that will prevent their further use, and replace them with serviceable parts of the same part number or FAA-approved equivalents.

This amendment is effective March 27, 1975.

• • • • • •

Issued in Washington, D.C. on February 18, 1975.

R. P. SKULLY,
Director,
Flight Standards Service.

PART 73—SPECIAL USE AIRSPACE

Designation of Temporary Restricted Areas

On December 30, 1974, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (39 FR 45045) stating that the Federal Aviation Administration (FAA) was considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would designate several temporary restricted areas in the vicinity of Fayetteville, Wilmington, Beaufort, and Washington, N.C., to contain a joint military training exercise Solid Shield 75. The exercise would extend from May 25, 1975, through June 6, 1975. Those areas encompassing airspace at or above 14,500 feet MSL would also be included in the continental control area for the duration of their time of designation.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. One comment was received. A representative of the North Carolina Department of Natural and Economic Resources commented that the State's Division of Forest Resources aircraft must operate within the temporary restricted areas during the exercise for forest fire detection and suppression. He therefore suggested that all agencies concerned meet to establish mutually acceptable operating procedures. As a result, a meeting of representatives from the Atlantic Command and the North Carolina Division of Forest Resources was held and procedures for coordinating their use of the airspace were developed.

Subsequent to publication of the NPRM, it was noticed that in a few instances coordinates defining boundaries of adjoining or overlying areas varied from one another by at most a few hundred yards. These variations have been corrected so that the boundary descriptions now coincide with adjoining areas. Furthermore, in R-5309A the boundary has been defined as an 8.5-mile radius arc centered on Stalling Field to provide additional maneuvering area for civil aircraft using that field. This results in a reduction in R-5309A. As these corrections are minor matters upon which the public would have no particular desire to comment, further notice and public procedure thereon are unnecessary and they have been incorporated in this rule.

In consideration of the foregoing, Parts 71 and 73 of the Federal Aviation Regulations are amended, effective 0901 G.m.t., April 24, 1975, as hereinafter set forth.

In § 71.151 (40 FR 343) the following temporary restricted areas are included for the duration of their time of designation from 0001 e.d.t., May 25, 1975, through 2359 e.d.t., June 6, 1975.

1. R-5309H Solid Shield 75, N.C.
2. R-5309I Solid Shield 75, N.C.
3. R-5309J Solid Shield 75, N.C.
4. R-5309K Solid Shield 75, N.C.
5. R-5309L Solid Shield 75, N.C.
6. R-5309M Solid Shield 75, N.C.

In § 73.53 (40 FR 687) the following temporary restricted areas are added:

1. R-5309A SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 35°14'45" N., Long. 77°30'00" W.; to Lat. 34°57'30" N., Long. 77°02'00" W.; thence southwest along the boundary of R-5306B, C, and D to Lat. 34°42'00" N., Long. 77°17'30" W.; thence counterclockwise along connecting arcs of 8.5-mile radius circles centered on the New River MCAS (Lat. 34°42'25" N., Long. 77°26'35" W.) and the Albert J. Ellis Airport (Lat. 34°49'49" N., Long. 77°36'42" W.) to Lat. 34°55'30" N., Long. 77°42'00" W.; to Lat. 34°56'00" N., Long. 77°48'30" W.; to Lat. 35°12'15" N., Long. 77°35'00" W.; thence counterclockwise along an 8.5-mile radius arc centered on Stalling Field (Lat. 35°19'36" N., Long. 77°37'02" W.) to point of beginning.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

2. R-5309B SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 34°56'00" N., Long. 77°48'30" W.; to Lat. 34°55'30" N., Long. 77°42'00" W.; thence clockwise along an arc of 8.5-mile radius centered on Albert J. Ellis Airport (Lat. 34°49'49" N., Long. 77°36'42" W.) to Lat. 34°49'50" N., Long. 77°27'45" W.; to Lat. 34°33'00" N., Long. 77°46'30" W.; to Lat. 34°33'30" N., Long. 77°49'00" W.; to Lat. 34°51'30" N., Long. 77°52'00" W.; to point of beginning.

Designated altitudes. 5,000 feet MSL to 10,000 feet MSL, May 25-May 29, 1975, inclusive, and surface to 10,000 feet MSL, May 30-June 6, 1975, inclusive.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

3. R-5309C SOLID SHIELD 75, N.C.

Boundaries: Beginning at lat. 34°49'50" N., Long. 77°27'45" W.; thence clockwise along an arc of 8.5-mile radius centered on the New River MCAS (Lat. 34°42'25" N., Long. 77°26'35" W.) to Lat. 34°42'00" N., Long. 77°17'30" W.; thence south and east along R-5306D and E to Lat. 34°30'20" N., Long. 77°15'50" W.; thence 3-nautical miles from and parallel to the shoreline to Lat. 34°18'00" N., Long. 77°37'30" W.; thence counterclockwise along a 13-nautical mile radius arc centered on the Wilmington VORTAC (Lat. 34°21'05" N., Long. 77°52'29" W.) to Lat. 34°33'00" N., Long. 77°46'30" W.; to point of beginning.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

4. R-5309D SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 35°22'00" N., Long. 78°31'30" W.; to Lat. 35°20'30" N., Long. 78°10'00" W.; thence counterclockwise along a 10-nautical mile radius arc centered on Seymour Johnson AFB (Lat. 35°20'20" N., Long 77°57'50" W.) to Lat. 35°10'30" N., Long. 77°59'00" W.; to Lat. 34°57'30" N., Long. 78°02'30" W.; to Lat. 35°02'00" N., Long. 78°40'00" W.; to point of beginning.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

J. Ellis Airport (Lat. 34°49'49" N., Long 77°36'42" W.) to Lat. 34°49'50" N., Long. 77°27'45" W.; to Lat. 34°33'00" N., Long. 77°46'30" W.; to Lat. 34°33'30" N., Long. 77°49'00" W.; to Lat. 34°51'30" N., Long. 77°52'00" W.; to point of beginning.

Designated altitudes. 5,000 feet MSL to 10,000 feet MSL, May 25-May 29, 1975, inclusive, and surface to 10,000 feet MSL, May 30-June 6, 1975, inclusive.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

3. R-5309C SOLID SHIELD 75, N.C.

Boundaries: Beginning at lat. 34°49'50" N., Long. 77°27'45" W.; thence clockwise along an arc of 8.5-mile radius centered on the New River MCAS (Lat. 34°42'25" N., Long. 77°26'35" W.) to Lat. 34°42'00" N., Long. 77°17'30" W.; thence south and east along R-5306D and E to Lat. 34°30'20" N., Long. 77°15'50" W.; thence 3-nautical miles from and parallel to the shoreline to Lat. 34°18'00" N., Long. 77°37'30" W.; thence counterclockwise along a 13-nautical mile radius arc centered on the Wilmington VORTAC (Lat. 34°21'05" N., Long. 77°52'29" W.) to Lat. 34°33'00" N., Long. 77°46'30" W.; to point of beginning.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

4. R-5309D SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 35°22'00" N., Long. 78°31'30" W.; to Lat. 35°20'30" N., Long. 78°10'00" W.; thence counterclockwise along a 10-nautical mile radius arc centered on Seymour Johnson AFB (Lat. 35°20'20" N., Long 77°57'50" W.) to Lat. 35°10'30" N., Long. 77°59'00" W.; to Lat. 34°57'30" N., Long. 78°02'30" W.; to Lat. 35°02'00" N., Long. 78°40'00" W.; to point of beginning.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

5. R-5309E SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 34°53'45" N., Long. 78°42'00" W.; to Lat. 34°49'20" N., Long. 78°07'20" W.; to Lat. 34°24'00" N., Long. 78°24'00" W.; to Lat. 34°24'00" N., Long. 78°42'30" W.; to Lat. 34°50'30" N., Long. 78°46'00" W.; to point of beginning.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

6. R-5309F SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 34°24'00" N., Long. 78°42'30" W.; to Lat. 34°24'00" N., Long. 78°24'00" W.; to Lat. 34°09'30" N., Long 78°34'30" W.; to Lat. 34°10'00" N., Long 78°41'00" W.; to point of beginning.

Designated altitudes. Surface to 10,000 feet MSL.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

7. R-5309G SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 34°57'30" N., Long. 77°02'00" W.; to Lat. 34°43'30" N., Long 76°47'30" W.; to Lat. 34°42'00" N., Long. 76°54'45" W.; to Lat. 43°51'00" N., Long. 77°05'30" W.; to Lat. 34°49'30" N., Long. 77°10'00" W.; to point of beginning.

Designated altitudes. Surface to 3,000 feet MSL.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

8. R-5309H SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 34°43'30" N., Long. 76°47'30" W.; to Lat. 34°38'15" N., Long. 76°42'00" W.; thence west along a line 3-nautical miles from and parallel to the shore line to Lat. 34°37'30" N., Long. 76°56'-00" W.; thence north and east along R-5306C and B to point of beginning.

Designated altitudes. 1,000 feet MSL to FL 180.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

9. R-5309I SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 35°04'30" N., Long. 76°04'30" W.; to Lat. 35°00'30" N., Long. 76°00'30" W.; thence south and west along a line 3-nautical miles from and parallel to the shoreline to Lat. 34°38'15" N., Long. 76°42'00" W.; to Lat. 34°43'30" N., Long. 76°47'30" W.; thence east and north along R-5306B and A to point of beginning.

Designated altitudes. 10,000 feet MSL to FL 180.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

10. R-5309J SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 35°16'10" N., Long. 79°14'00" W.; to Lat. 35°18'10" N., Long. 79°02'30" W.; to Lat. 35°10'30" N., Long. 79°02'30" W.; thence west along R-5311A to Lat. 35°12'30" N., Long. 79°14'00" W.; to point of beginning.

Designated altitudes. Surface to FL 180.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

11. R-5309K SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 35°18'10" N., Long. 79°02'30" W.; to Lat. 35°22'00" N., Long 78°31'30" W.; to Lat. 35°20'30" N., Long. 78°10'00" W.; thence counterclockwise along a 10-nautical mile radius arc centred on Seymour Johnson AFB (Lat. 35°20'-20" N., Long. 77°57'50" W.), to Lat. 35°10'-30" N., Long. 77°59'00" W.; to Lat. 34°57'30" N., Long. 78°02'30" W.; to Lat. 34°24'00" N., Long. 78°24'00" W.; to Lat. 34°09'30" N., Long. 78°34'30" W.; to Lat. 34°10'00" N., Long. 78°41'00" W.; to Lat. 34°50'30" N., Long. 78°46'00" W.; thence clockwise along a 10-nautical mile radius arc centered on Fayetteville Municipal Airport (Lat. 34°59'-35" N., Long. 78°52'50" W.;) to Lat. 35°00'-00" N., Long. 79°05'00" W.; to Lat. 35°02'55" N., Long. 79°05'40" W.; thence north and west along R-531A to Lat. 35°10'30" N., Long. 79°02'30" W.; to point of beginning.

Designated altitudes. 10,000 feet MSL to FL 180.

Time of designation. Continuous, 0001 e.d.t. May 25 to 1359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

12. R-5309L SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 35°10'30" N., Long. 77°59'00" W.; to Lat. 35°12'15" N., Long. 77°35'00" W.; to Lat. 34°51'30" N., Long. 77°52'00" W.; to Lat. 34°16'00" N., Long. 77°45'30" W.; to Lat. 34°09'00" N., Long. 78°20'00" W.; to Lat. 34°09'30" N., Long. 78°34'30" W.; to Lat. 34°24'00" N., Long. 78°24'00" W.; to Lat. 34°57'30" N., Long. 78°02'30" W.; to point of beginning.

Designated altitudes. 10,000 feet MSL to FL 180.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2350 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

13. R-5309M SOLID SHIELD 75, N.C.

Boundaries: Beginning at Lat. 35°32'30" N., Long. 77°09'00" W.; to Lat. 35°23'00" N., Long. 76°34'30" W.; thence southwest along R-5306A, B, C, D and E to Lat. 34°30'20" N., Long. 77°15'50" W.; thence southwesterly along a line 3-nautical miles from and parallel to the shoreline to Lat. 34°18'00" N., Long. 77°37'30" W.; to Lat. 34°16'00" N., Long. 77°-45'30" W.; to Lat. 34°51'30" N., Long. 77°52'00" W.; to Lat. 35°12'15" N., Long. 77°35'00" W.; thence counterclockwise along an 8.5-mile radius arc centered on Stalling Field (Lat. 35°19'36" N., Long. 77°37'02" W.) to Lat. 35°20'00" N., Long. 77°28'00" W.; to point of beginning.

Designated altitudes. 10,000 feet MSL to FL 180.

Time of designation. Continuous, 0001 e.d.t. May 25 to 2359 e.d.t. June 6, 1975.

Controlling agency. Federal Aviation Administration, Washington ARTC Center.

Using agency. United States Atlantic Command, Norfolk, Va.

(Sec. 307(a), Federal Aviation Act of 1958 (49 U.S.C. 1348(a)); sec. 6(c), Department of Transportation Act (49 U.S.C. 1655(c)))

Issued in Washington, D.C., on February 19, 1975.

F. L. CUNNINGHAM,
Acting Chief, Airspace and
Air Traffic Rules Division.

[FR Doc.75-4950 Filed 2-24-75;8:45 am]

SUBCHAPTER F—AIR TRAFFIC AND GENERAL OPERATING RULES

[Reg. Docket No. 14316; Amdt 95-257]

PART 95—IFR ALTITUDES

Miscellaneous Changes

The purpose of this amendment to Part 95 of the Federal Aviation Regulations is to make changes in the IFR altitudes at which all aircraft shall be flown over a specified route or portion thereof. These altitudes, when used in conjunction with the current changeover points for the routes or portions thereof, also assure navigational coverage that is adequate and free of frequency interference for that route or portion thereof.

XUM V40138 FEB 25 75 XUM

As a situation exists which demands immediate action in the interest of safety, I find that compliance with the notice and procedure provisions of the Administrative Procedure Act is impracticable and that good cause exists for making this amendment effective within less than 30 days from publication.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (24 FR 5662), Part 95 of The Federal Aviation Regulations is amended, effective March 27, 1975, as follows:

1. By amending Subpart C as follows:

Section 95.1001 *Direct routes*—United States is amended to delete:

From; to; and MEA

Gulfport, Miss., VOR; *2,500—MCA Rom INT, northeast-bound, **1,500—MOCA; Rom INT, Miss.; **1,800.
Dog INT, Miss., *1,400—MOCA; Gulfport, Miss., VOR; *2,300.
Brookley, Ala., VOR; Burbank INT, Ala.; 2,000.
Columbus, Miss., VOR; *3,000—MRA; *Beaverton INT, Ala.; 2,200.
Greenville, Miss., VOR; *1,700—MOCA; Jackson, Miss., VOR; *2,000.
Holly Springs, Miss., VOR; *1,900—MOCA; Tupelo, Miss., VOR; *2,500.
McComb, Miss., VOR; *1,800—MOCA; Mobile, Ala., VOR; *2,300.
Int. 228 M rad Tuscaloosa, Ala., VOR & 150 M rad Columbus, Miss.; VOR; *1,600—MOCA; Columbus, Miss., VOR; *2,000.
Saugatuck, Mich., VOR; Traverse City, Mich., VORTAC; 18,000; MAA—45,000.
Gar INT, Alas. (Control 1400); *2,000—MOCA; Anchorage Oceanic Control, East Boundary; *3,000.
Naknek River, Alas., LF/RBN; Gar INT, Alas. (Via Control 1,400); 2,000.
Naknek River, Alas., LF/RBN; Herring INT, Alas. (Via Control 1,401); 3,000.

Section 95.1001 *Direct routes*—United States is amended by adding:

Hattiesburg, Miss., VOR; Jackson, Miss., VOR; 2,000.
New Orleans, La., VORTAC; Natchez, Miss., VOR; 18,000; MAA—30,000.
Natchez, Miss., VOR; Monroe, La., VORTAC; 18,000; MAA—30,000.
New Orleans, La., VORTAC; Monroeville, Ala., VOR; 18,000; MAA—30,000.
Anchorage Oceanic Control Bdry., *2,000—MOCA; Garrs INT, Alas. (Control 1,400); *3,000.
Garrs INT, Alas., *2,000—MOCA: King Salmon, Alas., LOM (Control 1,400); *3,000.
Herry INT, Alas., *2,000—MOCA; King Salmon, Alas., LOM (Control 1,401); *3,000.
San Angelo, Tex., VOR Lometa, Tex., VOR; 4,000.
Abilene, Tex., VOR; Lometa, Tex., VOR; 4,000.

Section 95.6011 *VOR Federal Airway 11* is amended by adding:

Dyersburg, Tenn., VOR; Via West alter.; Cunningham, Ky., VOR; Via West alter.; 2,000.

Section 95.6013 *VOR Federal Airway 13* is amended to read in part:

From; to; and MEA

Jetty INT, Tex., Via West alter.; Corpus Christi, Tex., VOR; Via West alter.; 2,000.
Newry INT, Minn., *2,700—MOCA; Hope INT, Minn.; *3,000.

Section 95.6014 *VOR Federal Airway 14* is amended to read in part:

Vicky, Mo. VOR; Via South alter.; St. Louis, Mo., VOR; Via South alter.; 2,800.

Section 95.6020 *VOR Federal Airway 20* is amended to read in part:

Mobile, Ala. VOR; Via South alter.; Monroeville, Ala., VOR; Via South alter.; 2,000.

Section 95.6047 *VOR Federal Airway 47* is amended by adding:

Little Rock, Ark. VOR; *2,000—MOCA; Walnut Ridge, Ark., VOR; *4,000.
Walnut Ridge, Ark., VOR; Malden, Mo., VOR; 2,000.
Malden, Mo., VOR; Cunningham, Ky., VOR; 2,500.
Cunningham, Ky., VOR; Weston INT, Ky., 2,600.
Weston INT, Ky; Evansville, Ind., VOR; 2,100.

Section 95.6056 *VOR Federal Airway 56* is amended to read in part:

Midway INT, Ala., Via South alter.; *1,900—MOCA; Columbus, Ga., VOR; Via South alter.; *2,400.

Section 95.6063 *VOR Federal Airway 63* is amended to read in part:

Stevens Point, Wis., VOR; Wausau, Wis., VOR; 3,000.
Wausau, Wis., VOR; Rhinelander, Wis., VOR; 3,600.

Section 95.6070 *VOR Federal Airway 70* is amended to read in part:

Monroeville, Ala., VOR; Rutledge INT, Ala.; 2,000.
Rutledge INT, Ala.; *1,800—MOCA; Crenshaw INT, Ala.; *2,500.
Crenshaw INT, Ala.; *1,900—MOCA; Banks INT, Ala.; *2,400.

Section 95.6079 *VOR Federal Airway 79* is deleted.

Section 95.6123 *VOR Federal Airway 123* is amended to read in part:

From; to; and MEA

Mitch INT, Md., Swan Point INT, Md., 3,000.

CHAPTER II—CIVIL AERONAUTICS BOARD

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER-896, Amdt. 26]

PART 288—EXEMPTION OF AIR CARRIERS FOR MILITARY TRANSPORTATION

Correction

Adopted by the Civil Aeronautics Board at its office in Washington, D.C. February 18, 1975.

On January 17, 1975, by ER-896 (Docket 26899), 40 FR 3578, the Board amended Part 288 of its Economic Regulations (14 CFR Part 288) by making final certain changes in the minimum rates for foreign and overseas air transportation services performed by air carriers for the Department of Defense. However, the actual text of the amendments to § 288.7(a), both as proposed [1] and as finally adopted, inadvertently eliminated provisions relating to matters which were not under consideration in this proceeding, to wit, the minimum rates for intra-Alaskan services performed with piston aircraft.

Accordingly, the complete text of § 288.7(a), as amended by ER-896, is hereby corrected to read as follows:

[1] EDR-278, 39 FR 27694.

§ 288.7 Reasonable level of compensation.

It shall be a condition on the exemption granted by this part that the level of compensation for transportation provided shall not be uneconomically low. In the absence of specific Board approval, the compensation for such services shall not be less than the following:

(a) For charter service in foreign and overseas transportation, in transportation between the 48 contiguous States, on the one hand, and Alaska or Hawaii, on the other hand, and in transportation within Alaska, other than specified in paragraph (c) of this section:

(1) Performed with turbine-powered aircraft:

Amended rates effective January 17, 1975

Aircraft type	Passenger rates, per passenger-mile		Cargo, per ton-mile		Convertible rates [1]		Mixed passenger-cargo rates, per revenue plane-mile [1] [2]

Passengers-pallets:								
105 and 0							4.844	9.251
81 and 2							4.578	8.881
50 and 5							4.509	8.780
46 and 4							4.485	8.755
0 and 7							4.205	8.309

[1] Conversion rates shall apply only for flights that are converted a minimum of 10 days in advance of the performance of the service. Conversion charges for convertible flights or variable mixed flights shall be at the rate of $75 per seat charged on each segment. If a flight is converted with less than 10 days, notice, the one-way rates shall apply to each leg of the converted sound trip.

[2] For the Coral Sea variable mixed operation the conversion charge shall be $397 per cargo pallet in lieu of a seat charge.

[3] Also applies to wide-bodied (B-747, DC-10, and L-1011) equipment.

[4] Shall also apply to the L-382/L-100-10/30/30 and CV-500 aircraft.

(2) Performed with piston aircraft:

Type of service:	Rates within Alaska (Cents)
Passenger, per passenger-mile:	
Round trip	2.80
One way	5.46
Cargo, per ton-mile:	
Round trip	13.10
One way	26.20
Convertible:	
Passenger leg, per passenger-mile	2.80
Cargo leg, per ton-mile	15.80
Mixed passenger-cargo:	
Round trip mile, for following aircraft and number of seats installed at request of DOD:	
DC-7CF, L-1049/O/E/G/H,L-1649A/F:	(Dollars)
0 to 2	[1] 2.36
1 to 47	[2] 2.55
48 to 59	2.57
60 to 71	2.63
72 to 85	2.68
86 to 92	2.72
93 and over	2.74

[1] All-cargo rate applicable on flights designated as all-cargo where limited services for the personnel who may be carried are required under the DOD contract.

[2] Rate applicable on flights designated as mixed where full passenger services are required under the DOD contract.

Provided, That subject to the provisions of § 288.8, the minimum rates set forth above shall not be applicable to passengers or cargo carried on a particular trip in excess of the amount that the contract calls for DOD to supply and the carrier to provide space: *And provided further*, That if a carrier performs a one-way charter flight carrying nonmilitary traffic for a nonmilitary user, the carrier may charter the return flight of that aircraft to DOD at a published one-way charter tariff rate that is in fact available to the general public for equivalent services: *Provided, however*, That effective January 17, 1975, the total minimum compensation pursuant to the rates set forth in subparagraph (1) above for (i) services performed with regular jet, wide-bodied jet and DC-8F-61/63 aircraft, (ii) Pacific interisland services

XUM

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45.)

[Cease and desist order, Hair Encore, Inc., t/a Hair Encore, et al., Columbia, S.C., Docket C–2591, Nov. 1, 1974.]

In the Matter of Hair Encore, Inc., a Corporation, Doing Business as Hair Encore, and James D. Wilson, Sr., Individually and as an Officer of Said Corporation

Consent order requiring a Columbia, S.C., promoter of a cosmetic hair replacement system, among other things to cease failing to disclose the medical risks—i.e., discomfort and pain, risk of irritation, infection and skin disease, and permanent scarring of the scalp—involved in its system and to give customers a three-day cooling-off period within which to cancel their contract. Further, 15 percent of respondents' advertising must include disclosures as to the possible deleterious side effects to be encountered.

The Decision and Order, including further order requiring report of compliance therewith, is as follows.[2]

It is ordered That respondents Hair Encore, Inc., a corporation, doing business as Hair Encore or any other trade name or names, its successors and assigns, and James D. Wilson, Sr., individually and as an officer of said corporation (hereinafter sometimes referred to as "respondents"), and respondents' officers, agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale, or distribution of any hair replacement product or process involving surgical implants (hereinafter sometimes referred to as the "System"), in commerce, as "commerce" is defined in the Federal Trade Commission Act, or by the United States mails within the meaning of section 12(a)(1) of the Federal Trade Commission Act, do forthwith cease and desist from representing, directly or by implication:

1. That after the System has been applied, the hair applied becomes part of the anatomy like natural hair, teeth, and fingernails and has the following characteristics of natural hair:

a. The same appearance in all applications as natural hair, upon normal observation, and upon extreme close-up examination;

b. It may be cared for like natural hair where care involves possible pulling on the hair; and

c. The wearer may engage in physical activity and movement with the same disregard for his hair as he would if he had natural hair.

2. That after the System has been applied, the wearer can care for it himself, and will not have to seek professional or skilled assistance in maintaining the System and that the customer will not incur maintenance costs over and above the cost of applying the System.

It is further ordered That respondents, in advertising and in all oral sales presentations, offering for sale, selling or distributing the System, disclose clearly and conspicuously that:

1. The System involves a surgical procedure resulting in the implantation of prolene (or any substitute) sutures in the scalp, to which hair is affixed.

2. By virtue of the surgical procedure involving implantation of prolene (or any substitute) sutures in the scalp, and by virtue of the prolene (or any substitute) sutures remaining in the scalp, there is a high probability of discomfort and pain, and a risk of infection, skin disease and scarring.

3. The System has been in use for too short a period of time to determine to a reasonable medical certainty the extent or seriousness of the above-described side effects, or whether there are other side effects.

4. Continuing special care of the System is necessary to minimize the probabilities and risks referred to in Subparagraph Two of this Paragraph, and such care may involve additional costs for medications and assistance.

5. The purchaser is advised to consult with his personal physician about the System before deciding whether to purchase it.

Respondents shall set forth the above disclosures separately and conspicuously from the balance of each advertisement or presentation used in connection with the advertising, offering for sale, sale or distribution of the System, and shall devote no less than 15 percent of each advertisement or presentation to such disclosures. *Provided, however,* that in advertisements which consist of less than ten column inches in newspapers or periodicals, and in radio or television advertisements with a running time of one minute or less, respondents may substitute the following statement, in lieu of the above requirements:

Attention: This application involves surgery whereby permanent sutures are placed in the scalp. Discomfort, pain, and medical problems may occur. Continuing care is necessary. Consult your own physician (this statement is required by Order of the Federal Trade Commission).

No less than 15 percent of such advertisement shall be devoted to this disclosure, such disclosure shall be set forth clearly and conspicuously from the balance of each of such advertisements, and if such disclosure is in a newspaper or periodical, it shall be in at least eleven point type.

It is further ordered That respondents provide prospective purchasers with a separate disclosure sheet containing the information required in the immediately preceding Paragraph of this order, Subparagraphs One through Five, thereof, and that respondents require that such prospectives purchasers, subsequent to receipt of such disclosure sheet, consult with a duly licensed physician who is not associated, directly or indirectly, financially or otherwise, with the respondents regarding the nature of the surgery to be done, the probabilities of discomfort and pain, and risks of infection, skin disease, and scarring.

It is further ordered That no contract for application of respondent's System shall become binding on the purchaser prior to midnight of the third day, excluding Sundays and legal holidays, after the day of the purchaser's above-described consultation with a duly licensed physician who is not associated, directly or indirectly, financially or otherwise, with the respondents, or after the day on which said contract for application of the System was executed, whichever day is later, and that:

1. Respondents shall clearly and conspicuously disclose, orally prior to the time of sale, and in writing on any contract, promissory note or other instrument executed by the purchaser in connection with the sale of the System, that the purchaser may rescind or cancel any obligation incurred, by mailing or delivering a notice of cancellation to the office responsible for the sale prior to midnight of the third day, excluding Sundays and legal holidays, after the day of the purchaser's above-described consultation with a duly licensed physician or after the day on which said contract for application of the System was executed, whichever day is later.

2. Respondents shall provide a separate and clearly understandable form which the purchaser may use as a notice of cancellation.

3. Respondents shall not negotiate any contract, promissory note, or other instrument of indebtedness to a finance company or other third party prior to midnight of the fifth day, excluding Sundays and legal holidays, after the day of the purchaser's above-described consultation with a duly licensed physician, or after the day on which said contract for application of the System was executed, whichever day is later.

4. Respondents shall obtain from each purchaser a certificate signed by the physician who was consulted as required by this order, such certificate specifying that the said physician has explained to the purchaser the nature of the surgery to be done, and has advised him of the probabilities of discomfort and pain, and risks of infection, skin disease and scarring, and specifying the date and approximate time of the consultation; and respondents shall retain all such certificates for three years.

It is further ordered That respondents, in connection with the advertising, offering for sale, sale, or distribution of the System, serve a copy of this Order upon each present and every future licensee or franchisee, and upon each physician participating in application of respondents' System, and obtain written acknowledgement of the receipt thereof; and that respondents obtain from each present and future licensee or franchisee an agreement in writing (1) to abide by the terms of this Order, and (2) to cancellation of their license or franchise for failure to do so; and that respondents cancel the license or franchise for failure to do so; and that respondents cancel the license or franchise of any licensee or franchisee that fails to abide by the terms of this Order. Respondents shall retain such acknowledgements and agreements for so long as such persons or firms continue to participate in the application or sale of respondents' System.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent, such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries, licensees, or franchisees, or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That in the event that the corporate respondent merges with another corporation or transfers all or a substantial part of its business or assets to any other corporation or to any other person, said respondent shall require such successor or transferee to file promptly with the Commission a written agreement to be bound by the terms of this order; *Provided* that if said respondent wishes to present to the Commission any reasons why said order should not apply in its present form to said successor or transferee, it shall submit to the Commission a written statement setting forth said reasons prior to the consummation of said succession or transfer.

It is further ordered, That respondents forthwith distribute a copy of this order to each of their operating divsions, offices, department or affiliated corporation.

It is further ordered That respondents shall forthwith deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the offering for sale, sale or distribution of respondents' System or in any aspect of preparation, creation or placing of advertising, and that respondents secure a signed statement acknowledging the receipt of said order from each such person.

It is further ordered That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission, Nov. 1, 1974.

CHARLES A. TOBIN,
Secretary.

Title 20—Employees' Benefits

CHAPTER V—MANPOWER ADMINISTRATION

PART 618—FEDERAL SUPPLEMENTAL BENEFITS (EMERGENCY UNEMPLOYMENT COMPENSATION)

Correction

In FR Doc. 75–3411, appearing on page 5498, in the issue for Thursday, February 6, 1975, make the following corrections:

1. On page 5500, in the first column, in § 618.3(b)(2), in the third line, insert the word "before" between the words "ending" and "January."

2. On page 5500, in the third column, in § 618.10(b), in the seventh line, the word "on" should read "or".

3. On page 5501, in the first column, in § 618.11(b), in the second line, insert a comma between the words "apply" and "where".

4. On page 5502, in the first column, in § 618.18 (a)(1), in the second line, the word "off" in quotation marks should read "on".

5. On page 5502, in the first column, in § 618.18(a)(2), in the second line, the word "tindicator" should read "indicator".

PART 619—SPECIAL UNEMPLOYMENT ASSISTANCE

Implementation

Correction

In FR Doc. 75–3410, appearing on page 5502, in the issue for Thursday, February 6, 1975, make the following corrections:

1. On page 5504, in the first column, in § 619.4(b), in the penultimate sentence, the word "an" should read "and".

2. On page 5506, § 619.13(1) should read as set out below:

"(1) Provisions in the procedures of each State with respect to detection and prevention of fraudulent overpayments of SUA shall be, as a minimum, commensurate with the procedures adopted by the State with respect to regular compensation which are consistent with the Secretary's "Standard for Fraud and Overpayment Detection" (Employment Security Manual, Part V, section 7510 et seq.)."

3. On page 5506, in the second column, § 619.15(a) should read as set out below:

"(a) A Special Unemployment Assistance Period shall begin in an area of a State on the first day of the third calendar week after the week for which there is an "on" indicator in the area, and shall terminate with the last day of the third calendar week after the first week for which there is an "off" indicator in the area."

4. On page 5506, in the third column, in § 619.18(a)(2), in the fifth line, insert a comma between the words "determination" and "and".

5. On page 5506, in the third column, in § 619.18(c), in the thirteenth line, the word "abount" should read "about".

Correction

In FR Doc. 75–1897, appearing at page 3294 in the issue for Tuesday, January 21, 1975, the third line of the fourth paragraph now reading "1975" should be changed to read "1974".

Title 45—Public Welfare

CHAPTER I—OFFICE OF EDUCATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 102—STATE VOCATIONAL EDUCATION PROGRAMS

Administrative Regulations

Notice of Proposed Rule Making was published in the FEDERAL REGISTER on July 24, 1974 at 39 FR 27086, setting forth the proposed regulations governing the administration of State Vocational Education Programs under the Vocational Education Act of 1963, as amended, 20 U.S.C. 1241 through 1393f.

Pursuant to section 503 of the Education Amendments of 1972, a public hearing was held on September 20, 1974 in Washington, D.C., on the proposed regulations. In addition, interested persons were invited to submit written comments, suggestions or objections regarding the proposed regulations.

The following comments were submitted to the Office of Education.

1. *Comment.* A statement was received by a representative of the Women's Legal Defense Fund, Inc., Human Rights for Women, the National Committee on Household Employment, and the Women's Rights Project of the Center for Law and Social Policy. This statement sets forth in detail proposed language to modify a number of provisions to ensure both a wider range of vocational training alternatives for women and to prohibit sex discrimination in such programs. The thrust of the statement concerns the interrelationship of the sex discrimination prohibition in Title IX of the Education Amendments of 1972 and the regulations issued thereunder. The commenters express their position that 45 CFR 100b.262(b) is not sufficiently explicit about the means which must be employed by State administrators to eliminate sex-based discrimination. They suggest that the textual language of the operative sections of part 102 should reflect the phraseology "on a basis which does not discriminate as to sex."

Response. The General Education Provisions Regulations, particularly § 100b.262(b), coupled with the proposed regulations in 45 CFR Part 86 which effectuate Title IX of the Education Amendments of 1972, provide that no persons in the United States shall on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance. The scope of Part 86 and 100b has a direct application to Part 102—State Programs. To repeat these mandates in every operative section of Part 102 would defeat the express purposes of the General Education Provisions Regulations, which is to publish in one place regulations which affect the various education programs generally.

The numerous directives promulgated in proposed 45 CFR Part 86 also are incorporated by reference into all applicable provisions of Part 102.

The commenters have also requested certain substantive changes to be reflected in Part 102. However, section 503 of the Education Amendments of 1972 prohibits the inclusion of any rules or interpretations in the Federal regulations unless such rules or interpretations are based on some legal or statutory authority. This provision precludes expanding the membership of State advisory councils in § 102.22 to include at least one person with special knowledge, experience, or qualifications with respect to the special educational problems and needs of women in vocational education.

The commenters have also suggested that § 102.4(b) should be amended to strike out "fireman" and substitute "firefighters"; similiarly, § 102.24 should be amended to strike "chairman" and substitute "chairperson". These suggestions have been adopted and the regulations have been changed to reflect these changes.

2. *Comment.* A commenter suggested incorporating language into Part 102 which would insure a more effective coordination of activities between programs under the Comprehensive Employment Training Act (CETA) and programs under the Vocational Education Act.

The justification for this position stems from the close similarity of both the purpose and the target populations indicated in the CETA and Vocational Education Act. Furthermore, the commenter maintains that the addition of coordination requirements in the Vocational Education regulations would avoid duplication of effort.

Response. The proposed rules do provide for coordination between vocational education agencies, manpower units and other State public employment offices. The authority appears in § 102.40 which requires that: "The State plan shall provide for cooperative arrangements with the public employment service system in the State * * *" The employment offices will make available to the State board and local educational agencies occupational information regarding reasonable present and future prospects of employment in the community and elsewhere * * *" Since this provision addresses itself to the issue of cooperative arrangements, no modifications, additions or deletions in the language of Part 102 are necessary.

3. *Comment.* A commenter suggested that notifications of public meetings be published in local newspapers in advance of such hearings.

Response. Pursuant to § 102.24, State advisory councils must provide for not less than one public meeting each year at which the public is given an opportunity to express views concerning vocational education. Additionally, § 102.31 (e) requires reasonable notice and reasonable opportunity for a public hearing prior to the submission of a State plan to the Commissioner. As long as the means utilized are reasonably calculated to place the public on notice, the final decision will be at the discretion of the State board or State advisory council. No legal or statutory basis exists to require the public notice to be in local newspapers. No change has been made in the proposed regulations.

4. *Comment.* A commenter suggested that institutions which prepare faculty for vocational education programs at the secondary, technical, and community college levels should have a representative on the State advisory councils.

Response. Since the membership of the State advisory council is specified in the legislation, no statutory or legal basis exists to expand the specified membership. Although there will be no change in the proposed regulation, the States have the prerogative of enumerating additional qualifications for membership of other persons on the State advisory councils.

5. *Comment.* A commenter suggested that some reference should be made in Subpart C of the State plan provisions to the review as required by Part III of OMB Circular A–95.

Response. Part II of OMB Circular A–95 is reflected in the General Edueation Provisions Regulations. Therefore, the reference to OMB Circulars are not included in each set of program regulations. No change has been made in these proposed regulations.

6. *Comment.* A commenter suggested that the membership of State advisory councils include at least one person with special knowledge, experience and understanding of the needs of women workers and of the need for training women in non-traditional occupations.

Response. As previously explained in the responses to comment 1 and comment 4, due to a lack of statutory or legal basis, no substantive change can be made in the proposed regulations to expand the membership of the State advisory councils.

7. *Comment.* A commenter suggested that the requirements of section 102(b)(3) of the Act as amended to be changed to the extent of deleting the monthly dollar limitations. Additionally, this commenter postulated a new ratio to complement the existing formula under section 181(b)(1) of Part 4 of the Act.

Response. The Cranston Amendment in section 421 of the General Education Provisions Act (20 U.S.C. 1231) prohibits any funds appropriated to carry out any

applicable programs to be allotted, apportioned, allocated, or otherwise distributed in any manner or by any method different from that specified in the law authorizing the appropriation. Accordingly no change has been made in the regulations.

Other changes. The provisions relating to noncommingling of funds from Federal sources with State or local funds were deleted from the proposed revised regulations since these requirements were clearly delineated in the Vocational Education Act of 1963, as amended, and repetition of the provisions seemed unnecessary. However, since some confusion has arisen due to the deletion of these provisions and in order to prevent any additional confusion and to emphasize the importance of these requirements, the same sections, §§ 102.67, 102.80 and 102.102, will be restored.

The general contracting provision in § 102.5 is changed in order to be consistent with the Act. However, contracting is not limited to private vocational training institutions and may include public or non-public agencies or institutions.

Typographical corrections have been made. The reference to § 102.160 in § 102.31(f)(ii) has been deleted since there is no longer a § 102.160. The duplication of § 102.38 in the proposed rules has been deleted in this publication. The provision in § 102.72(b) on review of applications has been changed to read: "State research coordination unit or the State advisory council", rather than "State research coordination unit of the State advisory council."

Changes required by Public Law 93–380. The Education Amendments of 1974, Pub. L. 93–380 require the following changes: The purpose and scope provision in § 102.1 is amended to include bilingual vocational training pursuant to section 194 of Part J of the Act as amended by section 841 of Pub. L. 93–380. The definitional section in § 102.3 is amended to include the statutory definition of "postsecondary educational institution" and "vocational training". Programs for disadvantaged or handicapped persons under § 102.6 are amended to include persons of limited English-speaking ability. The membership of State advisory councils in § 102.22 is amended so that it may also include persons representing school systems with large concentrations of students who are persons of limited English-speaking ability. Also, the allocation of funds to Part B purposes in § 102.51 is amended to include persons of limited English-speaking ability.

Since the Education Amendments of 1974 make only technical changes in relation to the State plan portion of the Vocational Education Act, these corresponding technical changes have been incorporated into the regulations at this time. Since these technical changes are required by the Act and are non-discretionary in nature, opportunity for public comment thereon would appear to be unnecessary. However, section 122(a)(4)(C) of the Vocational Education Act, as added by section 841(a)(5)(A) of Pub. L. 93–380 requires that the funding to the States for the purpose of vocational education programs for students of limited English-speaking ability be carried out in coordination with bilingual education programs under Title VII of the Elementary and Secondary Education Act of 1965, and bilingual adult education programs under section 306(a)(1) of the Adult Education Act. A clarification of the statutory reference, if deemed to be necessary, will be made in the forthcoming publication of amendments to Part 102 regulations for State Vocational Education Programs.

Procedure for submitting general application and annual program plan. Section 434(b) of the General Education Provisions Act, as added by section 511 of the Education Amendments of 1974 (Pub. L. 93–380), provides a new procedure in lieu of submitting State plans for State administered programs. Section 434(b), which became effective July 1, 1974, requires any State which wishes to participate in any applicable program in which Federal funds are made available to local educational agencies through or under the supervision of the State educational agency (as in Vocational Education), to maintain on file with the Commissioner a general application. Such general application must include five assurances stipulated in section 434(b)(1)(A), including an assurance that the State will submit an annual program plan to the Commissioner. The annual program plan must be prepared and administered in a manner consistent with the Specific State plan requirements of the appropriate applicable statutes affecting the program for which the annual program plan is applicable.

Since this new procedure is only applicable to Federal programs operated through, or under the supervision of, the State educational agency, those State boards for vocational education which are separate from the State educational agency are not covered by the provisions of section 434(b). However, in a State with a separate vocational board, if funds are transferred to the State educational agency for operation or supervision of a program, such funds would have to be included in the section 434(b) application of the State educational agency.

Regulations implementing section 434(b) and instructions will be issued by the Commissioner as soon as possible. Since section 434(b) did not revoke statutory references to State plans, this publication of Final Regulations retains such references. However, States are advised that the new procedures are effective for fiscal year 1975.

After consideration of all comments, the Commissioner hereby adopts the proposed regulations which were published in the FEDERAL REGISTER on July 24, 1974 with the changes noted above.

Effective date: Pursuant to section 431(d) of the General Education Provisions Act, as amended, (20 U.S.C. 1232(d)), these regulations have been transmitted to the Congress concurrently with the publication in the FEDERAL REGISTER. That section provides that regulations subject thereto shall become effective on the forty-fifth day following the date of such transmission, subject to the provisions therein concerning Congressional action and adjournment.

(Catalog of Federal Domestic Assistance Nos. 13.493–495; 13.498–503; Vocational Education-Basic Grants to States, Consumer and Homemaking, Cooperative Education, Research, Special Needs, State Advisory Councils, Work Study and Innovation.)

Dated: January 20, 1975.

T. H. BELL,
U.S. Commissioner of Education.

Approved: February 18, 1975.

CASPAR WEINBERGER,
Secretary of Health, Education, and Welfare.

102.140 Allowable expenditures for consumer and homemaking education.
102.141 Allowable expenditures for cooperative vocational education.
102.142 Allowable expenditures for vocational work-study programs.
102.143 Allowable expenditures for State planning, administration, and evaluation.
102.145 Allowable expenditures under more than one State allotment.

Subpart E—Payments and Reports

102.151 Conditions for payments to States.
102.152 Withholding of payments.
102.153 Payment to State advisory council.
102.156 Transfer of allotments.
102.157 Reallotment.
102.159 Annual evaluation report.
102.161 Final reports of programs or projects.

AUTHORITY: Secs. 101–191 of Pub. L. 90–576, 82 Stat. 1064–1091; as amended (20 U.S.C. 1241 to 1391), unless otherwise noted.

Subpart A—General

§ 102.1 Purpose and scope.

(a) *Purpose.* The regulations in this part implement the Vocational Education Act of 1963, as amended, which provides for Federal grants to States to assist them to maintain, extend, and improve existing programs of vocational education, to develop new programs of vocational education, and to provide part-time employment for youths who need the earnings from such employment to continue their vocational training on a full-time basis, so that persons of all ages in all communities of the State—those in high school, those who have completed or discontinued their formal education and are preparing to enter the labor market, those who have already entered the labor market but need to upgrade their skills or learn new ones, those with special educational handicaps, and those in postsecondary schools—will have ready access to vocational training or retraining which is of high quality, which is realistic in the light of actual or anticipated opportunities for gainful employment, and which is suited to their needs, interests, and ability to benefit from such training.

(20 U.S.C. 1241)

(b) *Scope.* The regulations in this part cover general provisions under part A of the Act; allotments to States for vocational education programs under part B; research, training, experimental, developmental, and pilot programs, and dissemination activities under section 131 (b) of part C; exemplary programs and projects under section 142(d) of part D; consumer and homemaking education programs under part F; cooperative vocational education programs under part G; and work-study programs for vocational education students under part H.

(20 U.S.C. 1241–1244, 1247–1305, 1341–1374)

(c) *Other regulations.* The regulations in Part 103 are applicable to grants and contracts by the Commissioner for research, training, and related programs in vocational education pursuant to section 131(a) of part C of the Act, exemplary programs and projects in vocational education pursuant to section 142(c) of part D, curriculum development in vocational and technical education pursuant to part I and bilingual vocational training pursuant to section 194(a) of Part J.

(20 U.S.C. 1281(a), 1302(c), 1391)

§ 102.3 Definitions.

"Act" means the Vocational Education Act of 1963, as amended, 20 U.S.C. 1241–1391.

(20 U.S.C. 1241, note)

"Adult vocational education" means vocational education which is designed to provide training or retraining to insure stability or advancement in employment of persons who have already entered the labor market and who are either employed or seeking employment.

(20 U.S.C. 1262(a) (2), (3))

"Ancillary services and activities" means services and activities necessary to assure quality in vocational education and consumer and homemaking education programs provided for under the Act, the regulations in this part, and the State plan. Such services and activities may include the following:

(a) State administration and leadership as provided for in the State plan pursuant to § 102.35;

(b) Administration and supervision of instructional programs at the local level, including vocational education programs, as provided for in § 102.4(g);

(c) Evaluation of programs under the State plan, as provided for in § 102.36;

(d) Training of teachers and other program personnel as provided for in §§ 102.9 and 102.36(b);

(e) Special demonstration and experimental programs;

(f) Development of curricula and instructional materials; and

(g) Research related to any of the services and activities above.

(20 U.S.C. 1262(a)(5))

"Area vocational education school" means any public school or public institution which falls in any one of the following categories:

(a) A specialized high school used exclusively or principally for the provision of vocational education to persons who are available for study in preparation for entering the labor market; or

(b) The department of a high school exclusively or principally used for providing vocational education in no less than five different occupational fields to persons who are available for study in preparation for entering the labor market; or

(c) A technical or vocational school used exclusively or principally for the provision of vocational education to persons who have completed or left high school and who are available for study in preparation for entering the labor market; or

(d) The department or division of a junior college or community college or university which provides vocational education in no less than five different occupational fields, under the supervision of the State board, leading to immediate employment but not necessarily leading to a baccalaureate degree.

An "area vocational education school" shall be available to all residents of the State or an area of the State designated and approved by the State board. In the case of a technical or vocational school described in subparagraph (c) of this paragraph or a division of a junior college or community college or university described in subparagraph (d) of this paragraph, such school must admit as regular students both persons who have completed high school and persons who have left high school.

(20 U.S.C. 1248(2))

"Consumer and homemaking education" means education designed to help individuals and families improve home environments and the quality of personal and family life, and includes instruction in food and nutrition, child development, clothing, housing, family relations, and management of resources with emphasis on selection, use, and care of goods and services, budgeting, and other consumer responsibilities.

(20 U.S.C. 1341)

"Cooperative vocational education program" means a cooperative work-study program of vocational education for persons who, through a cooperative arrangement between the school and employers, receive instruction, including required academic courses and related vocational instruction by the alternation of study in school with a job in any occupational field, but these two experiences must be planned and supervised by the school and employers so that each contributes to the student's education and to his employability. Work periods and school attendance may be on alternate half-days, full-days, weeks, or other periods of time in fulfilling the cooperative vocational education work-study program.

(20 U.S.C. 1248(1), 1355)

"Disadvantaged persons" means persons who have academic, socioeconomic, or other handicaps that prevent them from succeeding in vocational education or consumer and homemaking programs designed for persons without such handicaps, and who for that reason require specially designed educational programs or related services. The term includes persons whose needs for such programs or services result from poverty, neglect, delinquency, or cultural or linguistic isolation from the community at large, but does not include physically or mentally handicapped persons (as defined in this section) unless such persons also suffer from the handicaps described in this paragraph.

(20 U.S.C. 1262(a)(4)(A))

"Employment" means lawful work in a recognized or new or emerging occupation.

(20 U.S.C. 1248(1), 1263(a)(6)(A))

"Funds", unless otherwise specified, means any funds available for expenditure under the State plan, whether derived from Federal allotments under the Act or State or local appropriations or other non-Federal sources. (See § 102.121 for further explanation.)

"Gainful employment" means employment for which persons normally receive in cash or in kind a wage, salary, fee, or profit. This term includes employment in sheltered workshops for handicapped persons.

(20 U.S.C. 1248(1))

"Handicapped persons" means mentally retarded, hard of hearing, deaf, speech impaired, visually handicapped, seriously emotionally disturbed, crippled, or other health impaired persons who by reason of their handicapping condition cannot succeed in a vocational or consumer and homemaking education program designed for persons without such handicaps, and who for that reason require special educational assistance or a modified vocational or consumer and homemaking education program.

(20 U.S.C. 1262(a)(4)(B))

"Industrial arts education programs" means those education programs (a) which pertain to the body of related subject matter, or related courses, organized for the development of understanding about the technical, consumer, occupational, recreational, organizational, managerial, social, historical, and cultural aspects of industry and technology including learning experiences involving activities such as experimenting, designing, constructing, evaluating, and using tools, machines, materials, and processes which provide opportunities for creativity and problem solving, assisting individuals in the making of informed and meaningful occupational choices; and (b) which the Commissioner has determined, pursuant to § 102.4(b)(5), will accomplish or facilitate one or more of the purposes of the first sentence of section 108(1) of the Act.

(20 U.S.C. 1248(1))

"Local educational agency" means a board of education or other legally constituted local school authority having administrative control and direction of public elementary or secondary schools in a city, county, township, school district, or political subdivision in a State, or any other public educational institution or agency (such as a junior or community college or State-operated area vocational school) having administrative control and direction of a vocational education program. In this part, anything modified by the adjective "local" pertains to a "local educational agency" herein defined.

(20 U.S.C. 1248(9))

"Occupational field" means a group of recognized and new and emerging occupations having substantial similarities common to all occupations in the group, e.g., similarity in the work performed; similarity in the abilities and knowledge required of the worker for successful job performance; similarity in the tools, machines, instruments, and other equipment used; and similarity in the basic materials worked on or with. The term is applied, in the case of Federal participation in the construction of an area vocational school, to determine whether a department of a certain type of high school, or a department or division of a junior college, community college, or university provides "vocational education in no less than five different occupational fields." (See the above definition of "Area vocational education school.") The purpose is to assure that such schools will have offerings that will afford prospective students of varying interests a reasonably broad choice of the type of occupation for which they are to be trained. Determinations of what is an "occupational field" will be made in the light of this purpose.

(20 U.S.C. 1248(2) (B) and (D))

"Postsecondary educational institution" means a nonprofit institution legally authorized to provide postsecondary education within a State for persons sixteen years of age or older, who have graduated or left elementary school.

(20 U.S.C. 1248(15))

"Postsecondary vocational education" means vocational education which is designed primarily for youth or adults who have completed or left high school and who are available for an organized program of study in preparation for entering the labor market. Such education may be provided in schools or institutions such as business or trade schools, technical institutions, or other technical or vocational schools; and departments of colleges and universities, junior or community colleges, and other schools offering vocational education, particularly technical education, beyond grade 12. The term shall not be limited to vocational education at the level beyond grade 12 if the vocational education needs of the persons to be served, particularly high school dropouts, require vocational education at a lower grade level. Anything modified by the adjective "postsecondary" pertains to postsecondary vocational education as herein defined.

(20 U.S.C. 1248(10), 1262(a) (1), (2))

"Recognized occupation" or "new and emerging occupation" means a lawful occupation that has been identified or is identifiable by employers, employee groups and governmental and nongovernmental agencies and institutions concerned with the definition and classification of occupations.

(20 U.S.C. 1263(a)(6)(A))

"School facilities" means the facilities of an area vocational education school, including:

(a) Instructional and auxiliary rooms and space necessary to operate a program of vocational instruction at normal capacity (in accordance with the State plan and the laws and customs of the State), such as classrooms, libraries, laboratories, workshops, cafeterias, office space, and utility space. This would not include facilities intended primarily for events for which admission is to be charged to the public such as single-pur-

XUM
V 40 I 38 FEB 25 75
XUM

pose auditoriums, indoor arenas, or outdoor stadiums.

(b) Initial equipment of the school facilities described in subparagraph (a) of this paragraph, such as all necessary building fixtures and utilities, furnishings (including conventional classroom and office furniture), and instructional equipment.

(c) In connection with the erection of new or the expansion of existing facilities, initial equipment shall include only that equipment which must be placed in the proposed facility to accommodate the type of instruction or other vocational education purpose for which the facility is designed.

(d) In connection with the acquisition, remodeling, and alteration of existing facilities, initial equipment also may include equipment installed to replace obsolete or worn-out equipment. Any reimbursement for salvage or trade-in value of any such equipment shall be deducted in computing the cost of such replacement equipment to be included in the construction costs of a proposed project.

(e) Interests, whether in fee, leasehold, or otherwise, in land on which such facilities are to be constructed.

(20 U.S.C. 1248 (3), (4))

"State" means a State of the Union, the District of Columbia, the Commonwealth of Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands.

(20 U.S.C. 1266(7))

"State board" means a State board designated or created by State law as the sole State agency responsible for the administration of vocational education, or for supervision of the administration thereof by local educational agencies in the State, and designated pursuant to § 120.32.

(20 U.S.C. 1248(5))

"State plan" means that plan submitted by a State board pursuant to the Act and the regulations in this part in order to be eligible to receive Federal funds allotted to the State. Such plan shall include both long-range and annual program plans pursuant to §§ 102.33 and 102.34.

(20 U.S.C. 1263)

"State research coordination unit" means a unit in a State agency or institution designated by the State board in its State plan pursuant to § 102.71 as the coordination unit for vocational education research and personnel training programs; developmental, experimental, or pilot programs; and dissemination activities in vocational education, including those programs supported with funds under section 131(b) of the Act.

(20 U.S.C. 1261(b))

"Vocational education" means programs, services, or activities related to vocational or technical training or retraining provided under the Act, the regulations in this part, and the State plan. In this part, anything modified by the adjective "vocational" pertains to "vocational education" as herein defined. Such programs, services, and activities shall include:

(a) Vocational instruction meeting the standards and requirements of § 102.4;

(b) Vocational guidance and counseling meeting the standards and requirements of § 102.8; and

(c) Training of teachers and other vocational education personnel meeting the standards and requirements of § 102.9.

(20 U.S.C. 1248(1))

(d) Consumer and homemaking education meeting the standards and requirements of § 102.4.

(20 U.S.C. 1341)

"Vocational training" means training or retraining which is conducted as part of a program designed to prepare individuals for gainful employment as semiskilled or skilled workers or technicians or subprofessionals in recognized occupations and in new and emerging occupations, but excluding any program to prepare individuals for employment which the Commissioner determines, and specifies by regulation, to be generally considered professional which requires a baccalaureate or higher degree; such term includes guidance and counseling (either individually or through group instruction) in connection with such training or for the purpose of facilitating occupational choices; instruction related to the occupation or occupations to which the students are in training or instruction necessary for students to benefit from such training; the training of persons engaged as, or preparing to become, instructors in a vocational training program; travel of students and vocational training personnel while engaged in a training program, and the acquisition, maintenance, and repair of instructional supplies, aids, and equipment, but such term does not include the construction, acquisition, or initial equipment of buildings or the acquisition or rental of land.

(20 U.S.C. 1248 (14))

§ 102.4 Vocational instruction.

(a) *Arrangements for instruction.* (1) Vocational instruction shall be provided either under public supervision or control meeting the criteria of subparagraph (2) of this paragraph, or under contract with the State board or local educational agency as provided for in § 102.5.

(2) To be under "public supervision and control," a school or class must be organized and operated under the direction of the State board or a local educational agency responsible for expenditure of public school funds for vocational education in the State.

(20 U.S.C. 1248(1))

(b) *Objective of instruction.* (1) Vocational instruction shall be designed to—

(i) Prepare individuals for gainful employment, including volunteer firefighters, as semiskilled or skilled workers or technicians or semiprofessionals in recognized occupations and in new or emerging occupations, or

(ii) Prepare individuals for enrollment in advanced or highly skilled vocational and technical education programs, or

(iii) Assist individuals in the making of informed and meaningful occupational choices, or

(iv) Achieve any combination of the above objectives.

(20 U.S.C. 1248(1), 1263(a)(18))

(2) Vocational instruction with the objective specified in subparagraph (1)(i) of this paragraph shall include:

(i) Instruction related to the occupation or occupations for which the students are in training; that is, instruction which is designed upon its completion to fit individuals for employment in a specific occupation or a cluster of closely related occupations in an occupational field, and which is especially and particularly suited to the needs of those engaged in or preparing to engage in such occupation or occupations. Such instructions shall include classroom related academic and technical instruction and field, shop, laboratory, cooperative work, apprenticeship, or other occupational experience, and may be provided either to—

(20 U.S.C. 1248(1))

(a) Those preparing to enter an occupation upon the completion of the instruction, or

(20 U.S.C. 1262(a)(1) and (2))

(b) Those who have already entered an occupation but desire to upgrade or update their occupational skills and knowledge in order to achieve stability or advancement in employment.

(20 U.S.C. 1262(a)(3))

(ii) Instruction necessary for vocational students to benefit from instruction described in subdivision (i) of this subparagraph; that is, remedial or other instruction which is designed to enable individuals to profit from instruction related to the occupation or occupations for which they are being trained by correcting whatever educational deficiencies or handicaps prevent them from benefiting from such instruction.

(20 U.S.C. 1262(a)(4)(A), (B))

(3) Pretechnical vocational instruction with the objective specified in subparagraph (1)(ii) of this paragraph shall include instruction of the type described in subparagraph (2) of this paragraph, except that such instruction need not be designed to fit individuals for employment in a specific occupation, but must be primarily designed to prepare individuals for enrollment in advanced or highly skilled postsecondary and technical education programs having the objective specified in subparagraphs (1)(i) of this paragraph. It shall not include instruction which is primarily designed to prepare individuals for higher education, or for professional training of the type described in paragraph (c)(2) of this section, and which is only incidentally designed for individuals preparing for technical education.

(20 U.S.C. 1262(a)(4)(A), (B))

(4) Prevocational instruction with the objective specified in subparagraph (1)(iii) of this paragraph shall include instruction designed to familiarize individuals with the broad range of occupations for which special skills are required and the requisites for careers in such occupations.

(20 U.S.C. 1248(1))

(5) Industrial arts education instructional programs with the objectives specified in subparagraph (1) of this paragraph shall be designed to:

(i) Assist individuals in the making of informed and meaningful occupational choices. In order to accomplish or facilitate this purpose, such programs shall:

(a) Provide occupational information and instruction pertaining to a broad range of occupations, including training requisites, working conditions, salaries or wages, and other relevant information;

(b) Provide exploratory experiences in shops, laboratories, and observations in business or industry to acquaint students with jobs in the occupations included in this purpose;

(c) Provide guidance and counseling for students enrolled in the industrial arts program under § 102.4(b)(5) of this part to assist them in making informed and meaningful choices in selected occupational fields; and

(d) Employ industrial arts teachers who have qualifications as provided in the State plan pursuant to § 102.36; or

(ii) Prepare individuals for enrollment in advanced or highly skilled vocational and technical education programs. In order to accomplish or facilitate this purpose, such programs shall:

(a) Provide individuals with occupational information and exploratory experience for enrollment in such programs;

(b) Provide occupational information and exploratory experiences directly related to current practices in industry; and

(c) Be conducted in an institution approved by the State Board of Vocational Education and by industrial arts teachers and guidance and counseling personnel who have qualifications as provided in the State plan pursuant to § 102.36.

(6) Instruction for volunteer firefighters with objectives specified in paragraph (b)(1)(i) of this section, whether or not such firefighters are paid for services performed, shall include instruction of the type described in subparagraph (2) of this paragraph.

(20 U.S.C. 1248(1))

(c) *Nonetigible instruction*—(1) *General.* Funds under the Act shall not be available for instruction in general education subjects unless such subjects have objectives specified in paragraph (b) of this section. However, a program of vocational instruction under the State plan may be supplemented with such other general education subjects supported with funds from other sources as may be necessary to develop a well-rounded individual.

(20 U.S.C. 1262, 1263(a)(18))

(2) *Professional.* Funds under the Act shall not be available for instruction which is designed to fit individuals for employment in recognized occupations which are generally considered to be professional or as requiring a baccalaureate or higher degree. The Commissioner has determined and specified the following as examples of occupations which are generally considered professional or as requiring a baccalaureate or higher degree, and are therefore excluded from those occupations for which instruction may be provided:

Accountants and auditors.
Actors and actresses.
Architects, artists, and sculptors.
Athletes, professional.
Authors, editors, and reporters.
Clergymen.
Engineers, professional.
Lawyers.
Librarians, archivists, and curators.
Life scientists, including agronomists, biologists, and psychologists.
Mathematicians.
Medical and health professions, including physicians, surgeons, dentists, osteopaths, veterinarians, pharmacists, and professional nurses.
Musicians.
Physical scientists, including chemists, physicists, and astronomers.
Social and welfare workers.
Social scientists, including economists, historians, political scientists, and sociologists.
Teachers and other educators.

The above is not intended to exclude from vocational instruction those semiprofessional, technical, or other occupations which are related to those listed, but which do not themselves require a baccalaureate degree.

(20 U.S.C. 1248(1))

(d) *Access to vocational instruction offered.* (1) In determining which individuals shall have access to programs of vocational instruction offered within the State, consideration will be given to all individuals residing in the State. If it is not economically or administratively feasible to provide each type of program in all areas and communities of the State served by a local educational agency, individuals residing in an area or community served by one local educational agency shall be permitted to enroll, in accordance with policies and procedures established by the State board or the local educational agencies involved, in a program of instruction offered by another local educational agency, so long as—

(i) The local educational agency serving the area or community in which the individual resides does not offer a reasonably comparable type of program.

(ii) Facilities are reasonably available for additional enrollees in the program offered by the receiving local educational agency.

(2) To the extent that facilities are available, each type of program of vocational instruction offered by the State board shall be made available to all individuals residing in the State, and each program of instruction offered by a local educational agency shall be made available to all individuals residing in the district or community served by the local educational agency offering such instruction. The fact that an individual resides in a certain attendance area within such district or community shall not preclude his access to a program of instruction available to other individuals residing in other attendance areas within the district or community, if access to a reasonably comparable program is not otherwise available to him.

(20 U.S.C. 1241, 1261, 1263(a)(4), (5), (6), (11))

(e) *Content of vocational instruction.* The content of vocational instruction shall be developed and conducted in accordance with the following standards to assure soundness and quality in such instruction:

(1) The program of instruction shall be based on a consideration of the skills, attitudes, and knowledge required to achieve the occupational or other objective of such instruction, and includes a planned sequence of those essentials of education or experience (or both) deemed necessary for the individual to achieve such objective.

(2) The program of instruction shall be developed and conducted in consultation with employers and other individuals or groups of individuals (such as local advisory committees) having skills in and substantive knowledge of the occupations or the occupational fields included in the instruction.

(3) The program of instruction shall include the most up-to-date knowledge, attitudes, and skills necessary for competencies required to meet the occupational or other objective of such instruction.

(20 U.S.C. 1263(a)(6)(F)(i))

(4) The program of instruction shall be sufficiently extensive in duration and intensive within a scheduled unit of time to enable the student to achieve the occupational or other objective of the instruction.

(20 U.S.C. 1263(a)(6)(F)(iii))

(5) The program of instruction shall combine and coordinate classroom instruction with field, shop, laboratory, cooperative work, apprenticeship, or other occupational experience which (i) is appropriate to the occupational or other objective of the instruction, (ii) is of sufficient duration to develop competencies necessary for the student to achieve such objective, and (iii) is supervised, directed or coordinated by persons qualified under the State plan. (See §§ 102.3, 102.96 through 102.104, and 102.141 relating to cooperative vocational education programs).

(20 U.S.C. 1248(1), 1263(a)(6)(F)(iii), 1263(a)(7), (18))

(f) *Adequate facilities and materials for instruction.* Classrooms, libraries, shops, laboratories, and other facilities

XUM
V 40 138 FEB 25 75 5
XUM

(including instructional equipment, supplies, teaching aids, and other materials) shall be adequate in supply and quality to meet the occupational or other objectives of the vocational instruction offered. If the State board or local educational agency cannot provide such facilities and materials, but they are available in a business, industrial, service, or other establishment, vocational instruction may be provided in such establishments provided that such instruction meets the standards and requirements of the Act, the regulations of this part, and the State plan. For provisions governing the use of funds for construction of area vocational education school facilities, see § 102.3 "area vocational education school" and "school facilities," and also § 102.135.

(20 U.S.C. 1243(1), 1262(a)(8), 1263(a) (6)(F), (20))

(g) *Teachers and supervisors.* The vocational instruction shall be conducted and supervised by teachers, teacher aides, supervisors, and other supporting personnel as provided in § 102.38. To the extent necessary to provide for a sufficient supply of teachers, teacher aides, supervisors, and other supporting personnel in the State, the program of instruction shall be accompanied by a teacher-training program as provided for in §§ 102.9 and 102.38(b).

(20 U.S.C. 1263(a)(7))

(h) *Vocational guidance and counseling.* The program of instruction shall provide for vocational guidance and counseling personnel and services sufficient to enable such a program to achieve and continue to meet its objectives and the standards and requirements of this section. See § 102.8 for provisions relating to the use of funds for guidance and counseling programs.

(20 U.S.C. 1263(a) (7), (8))

(i) *Vocational youth organizations.* The program of instruction may include activities of vocational education youth organizations which are an integral part of the vocational instruction offered and which are supervised by vocational education personnel.

(20 U.S.C. 1262(a))

(j) *Industrial arts youth organizations.* Industrial arts education programs may provide for students to participate in club activities as an integral part of the instruction which are offered as indicated by § 102.4 and which are supervised by industrial arts personnel.

(20 U.S.C. 1243(1))

(k) *Evaluation.* Evaluation of the results of the program of instruction shall be made periodically on the State level by the State board and the State advisory council and continuously on the local level with the results being used for necessary change or improvement in the program through experimentation, curriculum development, training of vocational educational personnel, or other means. See § 102.36 for specific provisions relating to program evaluation.

(20 U.S.C. 1244(b)(1)(C), 1262(a)(8), 1263 (a)(6)(A))

§ 102.5 Vocational instruction under contract.

(a) *General.* Arrangements may be made for the provision of any portion of the program of instruction on an individual or group basis by private vocational training institutions through a written contract with a State board or a local educational agency. Such contract shall describe the portion of instruction to be provided by such institution and incorporate the standards and requirements of vocational instruction set forth in the regulations in this part and the State plan. Such a contract shall be entered into only upon a determination by the State board or local educational agency of satisfactory assurance that:

(1) The contract is in accordance with State or local law; and

(2) The instruction to be provided under contract will be conducted as a part of the vocational education program of the State and will constitute a reasonable and prudent use of funds available under the State plan. Such contract shall be reviewed at least annually by the parties concerned.

(20 U.S.C. 1243(1), 1262(a)(7))

(b) *Arrangements with private postsecondary vocational training institutions.* (1) Postsecondary vocational instruction provided in other than public institutions may be provided only through arrangements with private postsecondary vocational training institutions entered into pursuant to paragraph (a) of this section where the State board or local educational agency determines that such private institutions can make a significant contribution to attaining the objectives of the State plan, and can provide substantially equivalent training at a lesser cost, or can provide equipment or services not available in public agencies or institutions.

(20 U.S.C. 1262(a)(7))

(2) For purposes of this paragraph, a "private postsecondary vocational training institution" means a private business or trade school, or technical institution or other technical vocational school providing postsecondary education in any State which meets the requirements set forth in subparagraphs (A) through (D) of section 108(11) of the Act. A list of such institutions meeting the requirements of this subparagraph may be obtained upon request from the Division of Vocational and Technical Education, Office of Education, Washington, D.C. 20202.

(20 U.S.C. 1243(a)(11))

§ 102.6 Vocational education for disadvantaged or handicapped persons or persons of limited English-speaking ability.

(a) Vocational education for disadvantaged or handicapped persons, or persons of limited English-speaking ability, supported with funds under section 102 (a) or (b) of the Act shall include special educational programs and services designed to enable disadvantaged or handicapped persons, or persons of limited English-speaking ability, to achieve vocational education objectives that would otherwise be beyond their reach as a result of their handicapping condition. These programs and services may take the form of modifications of regular programs, special educational services which are supplementary to regular programs, or special vocational education programs designed only for disadvantaged or handicapped persons, or persons of limited English-speaking ability. Examples of such special educational programs and services include the following: Special instructional programs or prevocational orientation programs where necessary, remedial instruction, guidance, counseling and testing services, employability skills training, communications skills training, special transportation facilities and services, special educational equipment, services, and devices, and reader and interpreter services.

(20 U.S.C. 1243(1), 1262(a)(4))

(b) Funds available for vocational education for disadvantaged or handicapped persons, or persons of limited English-speaking ability may not be used to provide food, lodging, medical and dental services and other services which may be necessary for students enrolled in such programs but which are not directly related to the provision of vocational education to such students. However, the State board or local educational agency conducting such programs shall encourage the provision of such services through arrangements with other agencies responsible for such services. (See § 102.40 (b) and (c) relating to cooperative arrangements.)

(20 U.S.C. 1243(1), 1262(a)(4))

(c) To the extent feasible, disadvantaged or handicapped persons, or persons of limited English-speaking ability, shall be enrolled in vocational education programs designed for persons without their handicapping condition. Educational services required to enable them to benefit from such programs may take the form of modifications of such programs or of supplementary special educational services. In either case, funds available for vocational education for disadvantaged or handicapped persons, or persons of limited English-speaking ability, may be used to pay that part of such additional cost of the program modifications or supplementary special education services as is reasonably attributable to disadvantaged or handicapped persons or persons of limited English-speaking ability.

(20 U.S.C. 1262(a)(4))

(d) If certain disadvantaged or handicapped persons, or persons of limited English-speaking ability, cannot benefit from regular vocational education programs to any extent, even with modifications thereto or with the provisions of supplementary special educational services, then these persons shall be provided with special programs of vocational instruction which meet the standards and requirements of all vocational education programs set forth in § 102.4 and which, in addition, include such special instructional devices and techniques and such supplementary special educational services as are necessary to enable those persons to achieve their vocational objective. In these cases, funds available for vocational education for the disadvantaged or the handicapped, or persons of limited English-speaking ability, may be used to pay that part of the total cost of the instructional program and supplementary special educational services that are reasonably attributable to the vocational education of disadvantaged or handicapped persons or persons of limited English-speaking ability.

(20 U.S.C. 1262(a)(4))

(e) Vocational education programs and services for disadvantaged or handicapped persons, or persons of limited English-speaking ability, shall be planned, developed, established, administered, and evaluated by State boards and local educational agencies in consultation with advisory committees which include representtives of such persons; and in cooperating with other public or private agencies, organizations, and institutions having responsibility for the education of disadvantaged or handicapped persons, or persons of limited English-speaking ability, in the area or community served by such programs or services, such as community agencies, vocational rehabilitation agencies, special education departments of State and local educational agencies, and other agencies, organizations, and institutions, public or private, concerned with the problems of such persons. (See § 102.40 (b) and (c) relating to cooperative arrangements).

(20 U.S.C. 1244(b)(1)(C), 1263(a)(6)(F)(1))

§ 102.7 Participation of students in private nonprofit schools.

The participation of students enrolled in private nonprofit schools in vocational education programs or projects under part B supported with funds allotted under section 102(b) and under parts D and G of the Act (see §§ 102.66, 102.79, and 102.101) shall be in accordance with the following requirements:

(a) Each program and project carried out under part B supported with funds allotted under section 102(b) and under parts D and G of the Act shall be designed to include, to the extent consistent with the number of students enrolled in private nonprofit schools in the geographic area served by the program or project, vocational education services which will meet the vocational education needs of such students. Such services may be provided through such arrangements as dual enrollment, educational radio and television, or mobile or portable equipment, and may include professional and subprofessional services.

(b) The vocational education needs of students enrolled in private nonprofit schools located within the geographic areas served by the program or project, the number of such students who will participate in the program or project, and the types of vocational education services which will be provided for them shall be determined, after consultation with persons knowledgeable of the needs of those students, on a basis comparable to that used in providing such vocational education services to students enrolled in public schools. Each application submitted by the local educational agency to the State board shall indicate the number of students enrolled in private nonprofit schools who are expected to participate in each program and project proposed by such agency and the degree and manner of their expected participation.

(20 U.S.C. 1263(a)(6)(F))

(c) Public school personnel may be made available on other than public school premises only to the extent necessary to provide vocational education services required by the students for whose needs such services were designed, and only when such services are not normally provided at the private school. The State board or local educational agency providing such vocational education services to students in private nonprofit schools shall maintain administrative control and direction over such services, and each application from a local educational agency providing such services shall so provide. Vocational education services provided with Federal funds shall not include the payment of salaries of teachers or other employees of private schools, except for services performed outside their regular hours of duty and under public supervision and control, nor shall they include the use of equipment, other than mobile or portable equipment, on private school premises or the construction of private school facilities. Mobile or portable equipment may be used on private school premises for such period of time within the life of the current program or project for which the equipment is intended to be used as is necessary for the successful participation in that program or project by students enrolled in private schools.

(20 U.S.C. 1243(1), 1263(a)(2); Lemon v. Kurzman, 403 U.S. 602, 91 S. Ct. 2105 (1971))

(d) Any program or project to be carried out on public premises and involving joint participation by students enrolled in private nonprofit schools and students enrolled in public schools shall include such provisions as are necessary to avoid forming classes that are separated by school enrollment or religious affiliation.

(20 U.S.C. 1247, 1263(a)(16))

§ 102.8 Vocational guidance and counseling.

(a) State boards and local educational agencies conducting programs of instruction shall provide such vocational guidance and counseling services as are required by such instruction pursuant to § 102.4(h). Such vocational guidance and counseling services shall be designed to (1) identify and encourage the enrollment of individuals needing vocational education, (2) provide the individuals with information necessary to make meaningful and informed occupational choices, (3) assist them while pursuing a program of vocational instruction, (4) aid them in vocational placement, and (5) conduct follow-up procedures to determine the effectiveness of the vocational instruction and guidance and counseling program.

(b) The State board shall make provision for an adequate guidance and counseling supervisory staff to (1) develop, secure, and distribute occupational information, (2) provide consultative services concerning the vocational aspects of guidance, and (3) give leadership to the promotion and supervision of better vocational guidance and counseling services at the local level. In carrying out these responsibilities, the State board shall utilize the resources of the State employment service pursuant to the cooperative arrangements provided for in § 102.40(a).

(20 U.S.C. 1243(1), 1263(a) (5), (7), (8))

§ 102.9 Training of personnel.

(a) *General.* The State board shall provide for such training (both preservice and inservice) as is necessary to provide qualified personnel meeting the requirements of the State plan pursuant to § 102.38. Such training shall be sufficient to provide an adequate supply of qualified teachers and other personnel, including those capable of meeting the special educational needs of disadvantaged and handicapped persons in the State.

(b) *Arrangements for training of personnel.* (1) Training of personnel pursuant to paragraph (a) of this section may be provided either by (i) the State board or (ii) public or private agencies or institutions.

(2) When such training is provided by an agency or institution other than the State board, the State board shall enter into cooperatively developed written agreements with such agency or institution. These agreements shall describe the training program developed by the State board in cooperation with such agency or institution, and the policies and procedures which the State board and the agency or institution agree to utilize in evaluating the effectiveness of the programs so described.

(c) *Eligibility of enrollees.* Training of personnel pursuant to paragraph (a) of this section shall be offered only to persons who are teaching or are preparing to teach vocational education students or consumer and homemaking students or who are undertaking or are preparing to undertake other professional or semiprofessional duties and responsibilities in connection with vocational education programs or consumer and homemaking programs under the State plan to whom such education would be useful professionally.

(20 U.S.C. 1262(a)(3), 1263(a)(7))

§ 102.10 Cross reference to General Provisions Regulation.

Assistance provided under this part is subject to applicable provisions con-

tained in subchapter A of this chapter (relating to fiscal, administrative, property management, and other matters).

(20 U.S.C. 1221c(b)(1), 1241-1391)

Subpart B—State Advisory Council

§ 102.21 Establishment and certification.

(a) *Establishment.* Each State which desires to receive funds under the Act and the regulations in this part for any fiscal year shall establish a State advisory council which shall be appointed by the Governor or, in the case of States in which the members of the State board are elected (including election by the State legislature), by such board, and which shall be separate and independent from the State board.

(b) *Appointment by State board.* In order for the appointment power to be vested in the State board pursuant to paragraph (a) of this section, a majority of its members must be individuals elected by the State legislature or directly by the eligible voters of the State or of the districts which the individuals represent or by the State legislature.

(20 U.S.C. 1244(b)(1))

(c) *Certification.* The Governor of each State establishing an advisory council appointed by the Governor or the State board in each State establishing an advisory council appointed by the State board pursuant to paragraph (a) of this section shall certify to the Commissioner the establishment and membership of such advisory council not less than 90 days prior to the beginning of any fiscal year ending after June 30, 1969.

(20 U.S.C. 1244(b)(2))

§ 102.22 Membership.

The membership of the State advisory council shall exclude members of the State board, the State director of vocational education, and State board staff, and shall include:

(a) At least one person familiar with the vocational needs and problems of management and labor in the State and at least one person representing State industrial and economic development agencies;

(b) At least one person representative of community and junior colleges and other institutions of higher education, area vocational schools, technical institutes, and postsecondary or adult education agencies or institutions, which may provide programs of vocational or technical education and training;

(c) At least one person familiar with the administration of State and local vocational education programs, and at least one person having special knowledge, experience, or qualifications with respect to vocational education and who is not involved in the administration of State or local vocational education programs;

(d) At least one person familiar with programs of technical and vocational education, including programs in comprehensive secondary schools;

(e) At least one person representative of local educational agencies, and at least one person representative of school boards;

(f) At least one person representative of manpower and vocational education agencies in the State and the Comprehensive Area Manpower Planning System of the State;

(g) At least one person representing school sytems with large concentrations of academically, socially, economically, and culturally disadvantaged students, and students who are persons of limited English-speaking ability;

(h) At least one person with special knowledge, experience, or qualifications, with respect to the special educational needs of physically or mentally handicapped persons; and

(i) Persons representative of the general public, of whom at least one shall be representative of and knowledgeable about the poor and disadvantaged, who are not qualified for membership under any of the preceding categories.

(20 U.S.C. 1244(b)(1)(A)(i)-(ix); H. Rep. No. 1938, 90th Cong. 2d Sess., p. 44 (last para.))

§ 102.23 Functions and responsibilities.

The State advisory council shall—

(a) Advise the State board on the development of the State plan, including the preparation of long-range and annual program plans pursuant to §§ 102.33 and 102.34, and prepare and submit pursuant to § 102.31(e)(2) a statement describing its consultation with the State board on its State plan;

(b) Advise the State board on policy matters arising in the administration of the State plan submitted pursuant to the Act and the regulations in this part;

(c) Evaluate vocational education programs, services, and activities under the State plan, and publish and distribute the results thereof;

(d) Prepare and submit through the State board to the Commissioner and to the National Advisory Council an annual evaluation report, accompanied by such additional comments of the State board as the State board deems appropriate, which (1) evaluates the effectiveness of vocational education programs, services, and activities carried out in the year under review in meeting the program objectives set forth in the long-range program plan and the annual program plan required by §§ 102.33 and 102.34, and (2) recommends such changes as may be warranted by the evaluations; and

(20 U.S.C. 1244(b)(1)(B), (C), (D))

(e) Prepare and submit to the Commissioner within 60 days after his acceptance of certification submitted pursuant to § 102.21(c) an annual budget covering the proposed expenditures of the State advisory council and its staff for the following fiscal year.

(20 U.S.C. 1244(d))

(f) Perform with respect to the programs carried out under part B of Title X of the Higher Education Act of 1965 (Occupational Education Programs) functions identical with or analogous to those stated in paragraphs (a)-(d) of this section.

(20 U.S.C. 1244(c))

§ 102.24 Meetings and rules.

Each State advisory council shall meet within 30 days after certification, as provided in § 102.21(c), has been accepted by the Commissioner and select from among its membership a chairperson. The time, place, and manner of meeting shall be as provided by the rules of the State advisory council. Such rules shall provide for not less than one public meeting each year at which the public is given an opportunity to express views concerning vocational education.

(20 U.S.C. 1244(b)(3))

§ 102.25 Staff.

Each State advisory council is authorized to obtain the services of such professional, technical, and clerical personnel as may be necessary to enable the council to carry out its functions described in § 102.23 and to contract for such services as may be necessary to enable it to carry out its evaluation functions. Such personnel shall not include members of the State board, and shall be subject only to the supervision and direction of the State advisory council with respect to all services performed by them for the council.

(20 U.S.C. 1244(b)(4))

§ 102.26 Compensation.

Members of the State advisory council and its staff, while serving on the business of the council, may receive subsistence, travel allowances, and compensation n accordance with State law, regulations ,and practices applicable to persons performing comparable duties and services.

(20 U.S.C. 1244(d))

Subpart C—State Plan Provisions

General

§ 102.31 State plan.

(a) *General.* Any State desiring to receive funds for any fiscal year under the Act shall submit to the Commissioner, in accordance with such forms as may be furnished by him, a State plan which meets the requirements of the Act and the regulations in this part. Such plan shall be a detailed description of the State's programs, services, and activities under the Act, and shall include the policies and operating procedures which the State board will implement in order to maintain, extend, and improve existing programs and develop new programs in furtherance of the purposes of the Act. Such procedures shall assure that funds allotted to the State under the Act will be expended only for programs, services, and activities related either to vocational education for gainful employment or consumer and homemaking education. For specific State plan requirements under the Act:

(1) Regarding all programs, services, and activities under the Act, see §§ 102.31 through 102.46;

(2) Regarding programs, services, and activities under each of the parts of the Act, see §§ 102.51 through 102.113; and

(3) Regarding Federal financial participation, see appropriate sections in subpart D of this part.

(20 U.S.C. 1241, 1263(a))

(b) *Format.* The State plan shall be composed of three parts:

(1) The administrative plan provisions required in this subpart, which are set forth in the initial State plan and thereafter amended only as necessary to conform with the requirements of the Act, the regulations in this part and applicable State law, rules and regulations;

(2) The long-range program plan provided for in § 102.33, which shall be revised annually and submitted with the annual program plan;

(3) The annual program plan provided for in § 102.34, which shall be submitted each year at such time as the Commissioner shall specify.

(20 U.S.C. 1269(a)(3)-(6))

(c) *Amendment*—(1) *Administrative plan provisions.* The administration of vocational education programs under the State plan must be kept in conformity with the administrative plan provisions. Whenever there is any material change in the content or administration of such program, or in pertinent State Law, or in the organization, policies, and operations of the State board affecting the programs under the plan, the administrative plan provisions shall be appropriately amended by the State board after consultation with the State advisory council, and such amendment shall be submitted to the Commissioner.

(2) *Long-range program plan.* Changes in estimates of present and projected vocational education needs and vocational education objectives set forth in the long-range program plan shall be submitted each year as a part of the annual revision of such plan.

(3) *Annual program plan.* Minor deviations in actual allocations of funds from specific amounts estimated for allocation among programs, services, and activities described in the annual program plan submitted pursuant to § 102.34 shall not constitute such a change in the State plan as to require amendment of the annual program plan in order to be in conformity with Federal requirements if otherwise made in accordance with the Act, the regulations in this part, and other provisions of the State plan. Such minor deviations and the reasons therefor (such as, for example, a change in the total amount of funds available to the State for programs, services, and activities under the State plan) shall be indicated and explained in the annual report of the State board.

(20 U.S.C. 1263(a)(3)-(6))

(d) *Certification of State plan*—(1) *Certification by State board.* The annual State plan and any amendments thereto required by paragraph (c) of this section shall include as an attachment a certificate of the officer of the State board authorized to submit the State plan to the effect that the plan or amendment has been adopted by the State board and that the plan or plan as amended will constitute the basis for operation and administration of the vocational education program in which Federal financial participation will be made.

(2) *Certification by State Attorney General.* The State plan and any amendment thereto required by paragraph (c) of this section shall also include as an attachment a certificate by the State's Attorney General, or other official designated in accordance with State law to advise the State board on legal matters, to the effect that the State board named in the plan is the State board which has authority under State law to submit the State plan and to administer or supervise the administration of the vocational education programs described therein as the sole agency responsible for the administration of the plan; and that all the plan provisions with respect to the use of funds under the Act can be carried out by the State.

(20 U.S.C. 1263(a))

(e) *Prerequisites for submission of State plan*—(1) *General.* The State plan or any amendment thereto required by paragraph (c) of this section shall be submitted to the Commissioner only if the State board has—

(i) Prepared the State plan or amendments thereto in consultation with the State advisory council pursuant to subparagraph (2) of this paragraph;

(ii) Given reasonable notice and afforded reasonable opportunity for a public hearing as described pursuant to subparagraph (3) of this paragraph; and

(iii) Implemented policies and procedures with regard to public information described pursuant to subparagraph (4) of this paragraph.

(2) *Consultation with State advisory council.* The State plan for each fiscal year and any amendment thereto required by paragraph (c) of this section shall be accompanied by a statement of the State advisory council certifying that the State plan or amendment was prepared in consultation with the council.

(20 U.S.C. 1244(b)(1)(B), 1263(a)(1))

(3) *Public hearing.* The State plan for each fiscal year and any amendment thereto required by paragraph (c) of this section shall be accompanied by a statement describing the method by which, and the extent to which, reasonable notice and opportunity for a hearing was offered by the State board prior to the adoption of such plan or amendment, including a description of how and to whom notice of public hearings was given, the manner in which such hearings were conducted, and the results of such hearings.

(4) *Public information.* The State plan shall describe the policies and procedures established by the State board for the purpose of making reasonably available to the public copies of the approved State plan described in paragraph (b) of this section, and amendments thereto, and all statements of general policies, rules, regulations, and procedures issued by the State board concerning the administration of the State plan.

(20 U.S.C. 1263(a)(1), (3))

(f) *Approval by Commissioner.* (1) The Commissioner will not approve a State plan or amendment thereto until he has:

(i) Examined each of its provisions;

(ii) Made specific findings, on the basis of reports submitted to him pursuant to § 102.159 and such other reports and information available to him, that each of its provisions complies with the applicable State plan requirements set forth in the Act and the regulations in this part; and

(iii) Determined that its provisions are set forth in sufficient detail to insure that such provisions will be carried out.

(2) After reviewing the State plan or amendment pursuant to subparagraph (1) of this paragraph, the Commissioner shall notify the State board of the granting or withholding of approval in each such case. No final action with respect to a State plan or amendment, other than that of approval, will be taken by the Commissioner unless he first notifies the State board of his proposed action and in connection therewith affords a reasonable opportunity for a hearing on whether the affected plan or amendment meets such requirements.

(20 U.S.C. 1263 (a) and (c) (1), (2))

§ 102.32 State board.

(a) *Designation or creation.* Any State desiring to receive Federal funds under the Act shall designate or create by State law a State board which is the sole State agency responsible for the administration of vocational education, or for the supervision of the administration thereof by local educational agencies, in the State. The State plan shall identify the State board so designated or created and the executive officer thereof.

(20 U.S.C. 1243(3))

(b) *Authority.* The State plan shall set forth the authority of the State board designated or created pursuant to paragraph (a) of this section and shall set forth the State board's authority under State law to submit the State plan and administer the program contained therein. If local educational agencies have any authority for the administration of State plan programs, the State plan shall also indicate the basis for such authority and for the authority of the State board to supervise such administration. Copies of, or citations to, all pertinent laws and interpretations of laws by appropriate State officials or courts shall be included as a part of the State plan.

(20 U.S.C. 1263(a)(2))

§ 102.33 Long-range program plan.

The State plan shall include a long-range program plan (or, as appropriate, a supplement to or revision of a previously submitted long-range plan) for vocational education in the State. Such plan shall:

(a) Extend over a 5-year period beginning with the fiscal year for which the plan is submitted;

XUM V 40138 FEB 25 75 XUM

(b) Describe the present and projected vocational education needs of the State; and

(c) Set forth a program of vocational education objectives which affords satisfactory assurance of substantial progress toward meeting the vocational education needs of the potential students in the State.

(20 U.S.C. 1263(a)(4))

§ 102.34 Annual program plan.

The State plan shall also include an annual program plan as an explanation and justification of the activities that carry out the objectives of the first year of the long-range plan. The annual program plan shall describe:

(a) The content of vocational education programs, services, and activities to be carried out during the year for which Federal funds are sought (whether or not supported with Federal funds under the Act);

(b) The allocation of Federal and State vocational education funds to the programs, services, and activities referred to in paragraph (a) of this section;

(c) How and to what extent such programs, services, and activities will carry out the program objectives set forth in the long-range program plan referred to in § 102.33;

(d) How and to what extent the allocations of Federal funds by the State will take into consideration the criteria set forth in §§ 102.53 through 102.57; and

(e) The extent to which consideration was given to the findings and recommendations of (1) the most recent evaluation report of the State advisory council and (2) such other evaluation reports and studies as may be applicable.

(20 U.S.C. 1263(a)(5))

§ 102.35 State administration and leadership.

(a) *Adequate State board staff.* The State board shall provide for a State staff sufficiently qualified by education and experience and in sufficient numbers to enable the State board to plan, develop, administer, supervise, and evaluate vocational education programs, services, and activities under the State plan to the extent necessary to assure quality in all education programs which are realistic in terms of actual or anticipated employment opportunities and suited to the needs, interests, and abilities of those being trained. Particular consideration shall be given to staff qualifications for leadership in programs, services, and activities for disadvantaged or handicapped persons, or persons of limited English-speaking ability, depressed areas, research and training, exemplary programs and projects, consumer and homemaking, cooperative vocational education, curriculum development, and work-study.

(b) *Organization of State board staff.* The State plan shall describe the organizational structure of the State board staff, including a description of its units, the functions assigned to each unit, the number of professional personnel assigned to each unit, and the relationships among the units within the State board staff and with other State agencies and institutions responsible for conducting programs of vocational and technical education. The titles of all State officials who are to have authority in the administration and supervision of the programs, services, and activities shall be given in the State plan. This description shall be sufficient to enable the Commissioner to find that the State board has an adequate staff to provide requisite administration and supervision of the federally aided vocational education programs. The plan shall provide for a full-time State director or a full-time executive officer who shall have no substantial duties outside the vocational education program.

(20 U.S.C. 1262 (a)(8), (b))

§ 102.36 Program evaluation.

(a) The State board shall be responsible for assuring that State and local programs, services, and activities carried out under the State plan will be periodically evaluated with sufficient extensiveness and frequency to enable the State board to effectively carry out its functions under the State plan and fulfill the purposes of the Act.

(b) In carrying out its evaluation responsibilities pursuant to paragraph (a) of this section, the State board shall consider and may utilize the evaluations made by the State advisory council pursuant to § 102.23(c), and such additional evaluations conducted or arranged by the State board and each local educational agency as may be required to carry out such responsibilities. The results of such periodic evaluations shall be described in the annual report submitted by the State board and may provide the basis for the State board's comments on the State evaluation report submitted by the State advisory council pursuant to § 102.159.

(c) The State plan shall describe the State's program for evaluating State and local programs, services, and activities carried out under the State plan. This description shall include:

(1) The agencies and institutions (in addition to the State advisory council pursuant to § 102.23(c)) responsible for making periodic evaluations;

(2) The frequency with which each of the agencies and institutions referred to in subparagraph (1) of this paragraph will make periodic evaluations of the various programs, services, and activities under the State plan carried out at both the State and local levels; and

(3) The procedures which the State will follow, or which it will require local educational agencies to follow, in conducting periodic evaluations, including an outline of the types of evaluations planned and of the criteria to be utilized in evaluating the effectiveness of programs, services, and activities under the State plan supported with funds from any of the allotments under the Act.

(20 U.S.C. 1263(a)(5), (6))

§ 102.38 Qualifications of personnel.

(a) *Minimum qualifications.* The State plan shall set forth the minimum qualifications for teachers, teacher trainers, supervisors, directors, and all other personnel (including teacher aides) having responsibilities for vocational education and consumer and homemaking education in the State regardless of whether there is to be Federal financial participation in their salaries. Such qualifications shall contain standards of experience and education and other requirements which are reasonable in relation to the duties to be performed, including recent experience and association with the groups of persons to be served such as disadvantaged persons. Provision shall be made for personnel having unique and relevant experiences in lieu of formal degrees and certifications requiring such degrees.

(b) *Improvement of qualifications.* The State plan shall set forth the State board's policies and procedures which have been developed to improve the qualifications of personnel referred to in paragraph (a) of this section to insure that the personnel needs for programs, services, and activities under the State plan are met. The State plan shall describe the methods by which the State board makes arrangements for preservice and inservice training of personnel meeting the requirements of § 102.9.

(c) *Modification of personnel standards.* The State plan shall set forth the State board's policies and procedures for reviewing and modifying personnel qualification standards to insure that such qualification standards continue to reflect a direct relationship with the need for personnel in vocational education programs carried out under the State plan. Such modifications shall include those deemed necessary for the employment of personnel necessary to carry out research, experimental, developmental, demonstration, or pilot programs, or exemplary programs or projects.

(20 U.S.C. 1263(a)(7))

§ 102.40 Cooperative arrangements.

(a) *With State employment service.* The State plan shall provide for cooperative arrangements with the public employment service system in the State. Such arrangements shall be approved by the State board and by the State head of such system, and a copy of the agreement between the State board and the State head of such system providing for such arrangements shall be submitted as a part of the State plan. Under such cooperative arrangements:

(1) The employment offices will make available to the State board and local educational agencies occupational information regarding reasonable present and future prospects of employment in the community and elsewhere. The State plan shall provide how such information, along with all other pertinent information available, will be considered by the State board or local educational agencies in providing vocational guidance and counseling to students and prospective students and in determining the occupations for which persons are to be trained and in providing such training.

(2) Guidance and counseling personnel of the State board and local educational

agencies working through the cooperative arrangement will make available to the local public employment offices information regarding the occupational qualifications of persons having completed or completing vocational edueation courses in schools. The State plan shall provide how such information will be considered in the occupational guidance and placement of such persons.

(b) *With State agencies responsible for education of handicapped persons.* The State plan shall provide for cooperative arrangements with the State special education agency, the State vocational rehabilitation agency, or other State agencies having responsibilities for the education of handicapped persons in the State. Such cooperative arrangements shall provide for—

(1) The joint development of a comprehensive plan for the vocational education of handicapped persons in the State which shall provide the basis for the provisions in the State plan relating to vocational education of handicapped persons; and

(2) Coordination of activities of the State board and the other State agencies in the development and administration of the State plan to the extent that handicapped persons are affected, such as, for example, in the review of applications for funds for programs or projects providing benefits to handicapped persons. Copies of agreements between the State board and other agencies providing for the arrangements described herein shall be submitted when executed by the State board for filing with the State plan.

(c) *With other agencies, organizations, and institutions.* The State plan shall provide that in the development of vocational education programs, services, and activities there may be, in addition to the cooperative arrangements referred to in paragraphs (a) and (b) of this section, cooperative arrangements with other agencies, organizations, and institutions concerned with manpower needs and job opportunities, such as institutions of higher education, model city, business, labor, and community action organizations. Copies of agreements between the State board and other agencies, organizations, and institutions, providing for such arrangements described herein shall be submitted when executed by the State board for filing with the State plan.

(d) *With other States.* In order to provide all individuals with ready access to suitable vocational education of high quality with offerings which have been developed in light of actual or anticipated opportunities for employement, the State plan may provide that the State enter into a cooperative arrangement with one or more other States for the conduct and administration of programs, services, and activities under the State plan. The State plan shall describe the policies and procedures of the State for approval of and participation in such arrangements. Copies of all such cooperative agreements (including joint fiscal arrangements, if any) shall be submitted when executed by the State board of each participating State to the U.S. Office of Education for filing with the State plan.

(20 U.S.C. 1248(1), 1263(a)(8), (9))

§ 102.41 Effective use of program results and experience.

The State plan shall provide that, in planning, developing, and carrying out programs, services, and activities under any part of the Act, effective use will be made of the results and experience of other programs and projects assisted under other parts of the Act, both through allotments to the State under the regulations in this part and its State plan, and through direct grants and contracts by the Commissioner under the regulations in 45 CFR Part 103. The State plan shall also describe the policies and procedures to be followed by the State board in assuring such effective use.

(20 U.S.C. 1263(a)(10))

§ 102.42 State fiscal and accounting procedures.

The State plan shall describe the fiscal control and fund accounting procedures which are in accordance with applicable State and local laws, rules, and regulations and which will assure proper disbursement of and accounting for Federal funds paid to the State under each program included in this part, funds paid by the State to participating local educational agencies and other organizations, agencies, and institutions, and all matching funds.

(20 U.S.C. 1263(a)(12), 17))

§ 102.43 Opportunity for hearing on local applications.

The State plan shall provide that any local educational agency dissatisfied with final action with respect to any application for funds under the Act shall be given reasonable notice and opportunity for a hearing before a board or official designated by the State board for this purpose and specified in the State plan. The State plan shall describe the procedures for affording local educational agencies reasonable notice and opportunity for a hearing, for conducting such hearing, for providing a written record of the hearing, and for informing local educational agencies in writing of the decisions and reasons therefor.

(20 U.S.C. 1263(a)(13))

§ 102.45 Economically depressed or high unemployment areas.

(a) In determining which areas and communities of the State are "economically depressed areas," "economically depressed communities," or "areas of high unemployment" for the purposes of §§ 102.55(b), 102.70(a)(2), and 102.92(c), the State board may rely upon the determinations made by the Secretary of Commerce of areas eligible for designation as "redevelopment areas" pursuant to section 401 of the Public Works and Economic Development Act of 1965 (42 U.S.C. 3161). Information on such areas may be obtained from thte Economic Development Administration, Department of Commerce, Washington, D.C. 20230, or from its regional offices.

(b) If the State board determines that the use of such determinations by the Secretary of Commerce is impracticable or undesirable with respect to its State either because the areas so designated are too large in size or too few or many in number, the State board may designate such other areas or communities in the State of smaller size (such as local school district or school attendance areas therein, urban renewal areas, or model city areas) which, on the basis of the most recent information available to it, meet either of the following criteria (or more strict criteria as the State board may deem appropriate):

(1) The current rate of unemployment is at least 6 percent; or

(2) The median family income in the area is not more than 40 percent of the national median.

(c) The State plan shall describe—

(1) The manner in which the State board determines which areas or communities in the State will be designated as economically depressed or high unemployment areas or communities in terms of—

(i) The size or composition of the area to be designated, and

(ii) The criteria to be used by the State board in designating such areas in terms of such factors as the unemployment rate, median family income or other indices of economic depression; and

(2) The sources of information on unemployment rates, median family income, and other indices of economic depression, and the frequency with which this information is updated.

(20 U.S.C. 1263 (a), (b) and 1341(d))

§ 102.46 Areas of high concentration of unemployed youth or school dropouts.

(a) In determining which areas of the State are "areas of high concentration of youth unemployment or school dropouts" for the purpose of §§ 102.65, 102.97(a), and 102.111(a), the State board, on the basis of the most recent information available to it, shall designate areas of the State (including local school districts or school attendance areas therein, urban renewal areas, or model city areas) which meet the following criteria (or more strict criteria as the State board may deem appropriate):

(1) The current rate of youth unemployment in the area is at least 12 percent.

(2) The current school dropout rate in the area is in excess of the overall State school dropout rate. For the purpose of this section, the term "school dropout" refers to a student who leaves an elementary or secondary school before graduation from secondary school or completion of a program of studies and without transferring to another school.

(b) The State plan shall describe—

(1) The manner in which the State board determines which areas in the State will be designated as areas of high concentrations of youth unemployment and school dropouts in terms of—

(i) The size or composition of the area to be designated, and

XUM
V 40138 FEB 25 75 XUM

(ii) The criteria used by the State board in designating such areas in terms of such factors as rate of youth unemployment or school dropout rate;

(2) The method of computing the overall State school dropout rate and the school dropout rates in the areas to be designated and the sources of information used in computing such rates; and

(3) The sources of information on youth unemployment dates, the age to be designated and the sources of information, and the frequency with which this information is updated.

(20 U.S.C. 1263(a) (6)(C), (16))

STATE VOCATIONAL EDUCATION PROGRAMS

§ 102.51 Allocation of funds to part B purposes.

(a) Funds appropriated under section 102(a) of the Act and allotted to States for the purposes of part B (sections 121–124 of the Act) may be used for vocational education programs, services, and activities for the following groups of persons:

(1) Persons in high school;

(2) Persons who have completed or left high school and who are available for study in preparation for entering the labor market;

(3) Persons who have already entered the labor market and who need training or retraining to achieve stability or advancement in employment (other than persons receiving training allowances under the Manpower Development and Training Act of 1962 (42 U.S.C. 2571–2628) or the Trade Expansion Act of 1962 (19 U.S.C. 1801–1991));

(4) Disadvantaged persons;

(5) Handicapped persons; and

(6) Persons of limited English-speaking ability.

(b) The programs, services, and activities referred to in paragraph (a) of this section include:

(1) Programs of vocational education, as defined in § 102.3, including:

(i) Vocational instruction as provided in § 102.4;

(ii) Vocational guidance and counseling designed to aid vocational education students in the selection of, and preparation for, employment in all vocational areas, as provided for in § 102.8; and

(iii) Vocational education through arrangements with private postsecondary vocational training institutions, as provided for in § 102.5(b);

(2) Construction of area vocational education schools, as defined in § 102.3; and

(3) Ancillary services and activities to assure quality in all vocational education programs described in subparagraph (1) of this paragraph, as defined in § 102.3.

(20 U.S.C. 1262(a))

(c) The State plan requirements set forth in §§ 102.31 through 102.46 are applicable to State vocational education programs, services, and activities described in paragraphs (a) and (b) of this section. In addition, paragraph (d) of this section and §§ 102.52 through 102.60 require inclusion in the State plan of certain provisions specifically applicable to such programs.

(d) The State plan shall set forth in detail the policies and procedures to be followed by the State board in allocating part B funds in its annual program plan among the programs, services, and activities specified in paragraph (b) of this section, and among the population groups specified in paragraph (a) of this section which are to be served by each of these programs, services, and activities. These policies and procedures shall:

(1) Assure compliance with the percentage requirements specified in § 102.59;

(2) Include the policies and procedures to be followed by the State board and local educational agencies in identifying disadvantaged persons in terms of such factors as those in § 102.3;

(3) Include the policies and procedures to be followed by the State board and local educational agencies in identifying handicapped persons of the various types specified in § 102.3;

(4) Assure that due consideration will be given to the current and projected manpower needs and job opportunities existing in the State; and

(5) Assure that due consideration will be given to the relative vocational education needs of each of the population groups specified in paragraph (a) of this section, particularly disadvantaged or handicapped persons, or persons of limited English-speaking ability.

(20 U.S.C. 1263(a))

§ 102.52 Allocation of funds among local educational agencies.

(a) The State board shall allocate funds allotted to it under part B of the Act among local educational agencies for the purposes specified in § 102.51 in such a manner as to:

(1) Fulfill (i) the statewide matching requirements of § 102.133, (ii) the maintenance-of-effort requirement of § 102.58, and (iii) the reasonable tax effort requirement of § 102.57; and

(2) Maintain compatibility with (i) the long-range objectives set forth in the long-range program plan pursuant to § 102.33, and (ii) the estimated allocation of funds to program purposes made pursuant to § 102.51 and set forth in the annual program plan pursuant to § 102.34.

(b) No funds made available to States under the Act shall be allocated among local educational agencies by matching local expenditures at a percentage ratio uniform throughout the State or by any other method which fails to take into consideration the criteria for allocation of funds set forth in §§ 102.53 through 102.56.

(c) The State plan shall describe in detail the policies and procedures by which the State board determines how the funds allotted to it under part B of the Act will be allocated among the local educational agencies of the State. This description shall include:

(1) An outline of the procedures by which local applications submitted by local educational agencies pursuant to § 102.60 will be processed, reviewed, and acted upon by the State board;

(2) A statement of any criteria, other than the criteria for allocation of funds set forth in the State plan pursuant to §§ 102.53 through 102.56, which the State board will use in determining the relative priorities of local applications for the purpose of allocating funds; and

(3) A description of the method by which the State board will use the criteria set forth in the State plan pursuant to subparagraph (2) of this paragraph and §§ 102.53 through 102.56, including an explanation of how it will weigh their relative importance in reaching allocation decisions.

(20 U.S.C. 1262, 1263(a))

§ 102.53 Manpower needs and job opportunities.

(a) In allocating funds among local educational agencies, the State board shall give due consideration to information regarding current and projected manpower needs and job opportunities, particularly new and emerging manpower needs and opportunities on the local, State, and national levels.

(b) In complying with paragraph (a) of this section, the State board shall give particular consideration to those vocational education programs which are best designed to (1) fulfill current or projected manpower needs in existing occupations at the local level by preparing students for current or projected job opportunities in such occupations, or (2) fulfill new and emerging manpower needs at the local, State, and national levels by preparing students for new and emerging job opportunities at such levels.

(c) The State plan shall describe in detail the method by which the State board will give due consideration to the criterion set forth in paragraph (a) of this section in allocating funds among local educational agencies. This description shall include an explanation of:

(1) How the State board will identify current and projected manpower needs and job opportunities, particularly new and emerging needs and opportunities, on the local, State, and national levels;

(2) What use will be made of the information on manpower needs and job opportunities in the long-range program plan submitted pursuant to § 102.33;

(3) What use will be made of the results of the periodic evaluations referred to in § 102.36;

(4) What use will be made of information obtained through cooperative arrangements entered into pursuant to § 102.40; and

(5) What other information will be relied upon in identifying manpower needs and job opportunities, how it will be obtained, and how often it will be updated.

(20 U.S.C. 1263(a)(6)(A)(8))

§ 102.54 Differences in vocational education needs.

(a) In allocating funds among local educational agencies, the State board shall give due consideration to the relative vocational education needs of all the

population groups referred to in § 102.51 (a) in all geographic areas and communities in the State, particularly disadvantaged or handicapped persons, or persons of limited English-speaking ability, and unemployed youth.

(20 U.S.C. 1263(a)(6)(B))

(b) In weighing the relative vocational education needs of the State's various population groups, the State board shall give particular consideration to additional financial burdens (other than those which are to be considered pursuant to § 102.56(b)) which may be placed upon certain local educational agencies by the necessity of providing vocational education students, particularly disadvantaged or handicapped students, and students with limited English-speaking ability, with special education programs and services such as compensatory or bilingual education, which are not needed in areas or communities served by other local educational agencies in the State.

(20 U.S.C. 1263(a)(6)(C), (E), (G))

(c) The State plan shall describe in detail the method by which the State board will give due consideration to the criterion set forth in paragraph (a) of this section in allocating funds among local educational agencies. This description shall include an explanation of:

(1) How the State board will identify the vocational education needs, including the need for special education programs and services referred to in paragraph (b) of this section, which must be met by each local educational agency in the State;

(2) What use will be made of the information on vocational education needs in the long-range program plan submitted pursuant to § 102.33;

(3) What use will be made of the results of the periodic evaluations referred to in § 102.36; and

(4) What other information will be relied upon in identifying vocational education needs, how it will be obtained, and how often it will be updated.

(20 U.S.C. 1263(a)(6))

§ 102.55 Relative ability to provide resources.

(a) In allocating funds among local educational agencies supported in whole or in part with local tax revenues, the State board shall give due consideration to their relative ability to provide the resources necessary to meet the vocational education needs in the areas or communities served by such agencies.

(b) In determining the relative priority of local educational agencies in terms of their ability to provide the resources referred to in paragraph (a) of this section, local educational agencies serving areas which the State board has designated as economically depressed or high unemployment areas pursuant to § 102.45 shall be given priority over local educational agencies not serving such areas. Within these two classes of local educational agencies, relative ability to provide such resources may be determined by comparing the wealth of the areas or communities served by each of these agencies in relation to the number of students each is educating (see paragraph (c) of this section), or by comparing the per capita incomes of the areas served by each local educational agency, or by some similar measure which the State board considers fair and equitable to all local educational agencies concerned.

(c) If the State board compares the "wealth per student" of local educational agencies in order to determine their relative ability to provide the resources referred to in paragraph (a) of this section, local wealth may be measured by reference to the equalized assessed value of taxable property in the area served by the agency, or the total taxable income of residents in the area served by the agency, or by any similar method which reasonably measures a local educational agency's ability to provide such resources. "Wealth per student" may then be determined by dividing the figure representing the wealth of the local educational agency by the total number of students that agency educates.

(d) The State plan shall describe in detail the method by which the State board will give due consideration to the criterion set forth in paragraph (a) of this section in allocating funds among local educational agencies. This description shall include an explanation of:

(1) How the State board determines the relative priority of local educational agencies in terms of their ability to provide the resources referred to in paragraph (a) of this section;

(2) What information is to be relied upon in making this determination; and

(3) What the sources of this information are and how often it is updated.

(20 U.S.C. 1263(a)(6))

§ 102.56 Relative costs of programs, services, and activities.

(a) In allocating funds among local educational agencies, the State board shall give due consideration to the cost of the programs, services, and activities these local educational agencies provide which is in excess of the cost which may be normally attributed to the cost of education in such local educational agencies.

(b) In determining the relative priority of local educational agencies in terms of costs of education, the State board shall give primary consideration to:

(1) Differences in the cost to local educational agencies of materials and services, such as construction or equipment costs or teachers' salaries, which are due to variations in price and wage levels or other economic conditions existing in the areas served by the local educational agencies; and

(2) Differences in the amount of excess costs accruing to local educational agencies because of the need for supplying special services (other than those necessary to meet the special vocational education needs of certain population groups, such as disadvantaged or handicapped persons or persons of limited English-speaking ability, to be considered pursuant to § 102.54), such as bus transportation for students, or unusual and excessive maintenance costs for outdated buildings and facilities, which are not usually part of the cost of education provided by other local educational agencies in the State.

(c) The State plan shall describe in detail the method by which the State board will give due consideration to the criterion set forth in paragraph (a) of this section in allocating funds among local educational agencies. This description shall include an explanation of:

(1) How the State board determines the relative priority of local educational agencies in terms of costs of education;

(2) What kind of information is to be relied upon in making this determination; and

(3) What the sources of this information are and how often it is updated.

(20 U.S.C. 1263(a)(6))

§ 102.57 Reasonable tax effort.

(a) In apportioning funds among local educational agencies supported in whole or in part with local tax revenues, the State board shall assure that no local educational agency which is making a reasonable tax effort, as determined pursuant to paragraphs (b) and (c) of this section, will be denied funds for establishing new vocational education programs solely because it is unable to pay the non-Federal share of the cost of such programs.

(b) For purposes of this section, the tax effort of a local educational agency shall be represented by the ratio between the total annual local tax revenues available to the local area or community served by the agency and the total wealth of such area or community (calculated on the basis of the equalized assessed value of real property, income, or similar measures, as appropriate). In computing local tax effort each State may use whatever means, including reference to an existing tax effort index, it considers fair and equitable to all local educational agencies in the State.

(c) A local educational agency's tax effort may be considered reasonable whenever it is at least equal to the average local tax effort in the State. The average local tax effort in the State shall be represented by the ratio between total annual local tax revenues in the State and total aggregate wealth in the State. However, in States where local educational agencies have been divided into different legal clasifications with different taxing authorities, the State may choose to determine the reasonableness of a local educational agency's tax effort by comparing it with the average tax effort of local educational agencies of the same legal class rather than with the overall average local tax effort in the State.

(d) The State plan shall describe in detail the manner in which the State board assures that paragraph (a) of this section will be complied with in allocating funds among local educational agencies. This description shall include a statement of—

(1) How local tax effort and how each of the factors used in computing local

XUM
V 40 38 FEB 25 75 XUM

tax effort (e.g., local revenues and local wealth) are measured;

(2) How often the data concerning local revenues and local wealth are updated, or, in the case of States which compile and rely upon a tax effort index, how often the index is updated;

(3) The level of local tax effort which the State board shall consider reasonable and which meets the minimum requirement in the first sentence of paragraph (c) of this section; and

(4) Whether the reasonableness of local tax effort is to be determined by comparing it with the average local tax effort in the State or with the average tax effort of local educational agencies in the same legal class.

(20 U.S.C. 1263(a)(6)(G))

§ 102.58 Maintenance of effort.

(a) The State plan shall provide assurance that Federal funds made available under part B of the Act will not supplant State or local funds, but will be so used as to supplement and, to the extent practical, increase the amount of State and local funds that would in the absence of such Federal funds be made available for all of the purposes set forth in section 122(a) of the Act, and for each of the purposes set forth in section 122(a)(2), section 122(a)(4)(A), and section 122(a)(4)(B) of the Act, so that all persons in all communities of the State will as soon as possible have ready access to vocational education suited to their needs, interests, and ability to benefit therefrom.

(b) The State plan shall also provide that no payments of Federal funds under the Act will be made in any fiscal year to any local educational agency unless the State board finds that the combined fiscal effort of that agency and the State with respect to the provision of vocational education by that agency for the preceding fiscal year was not less than such combined fiscal effort for that purpose for the second preceding fiscal year. For the purpose of this paragraph, "combined fiscal effort" means total expenditures of State and local funds with respect to the provision of vocational education by the local educational agency. A combined fiscal effort in the preceding fiscal year shall not be deemed to be a reduction from that in a second preceding fiscal year unless the expenditure for vocational education and ancillary services and activities from State and local funds in the preceding fiscal year is less than that in the second preceding fiscal year by more than 5 percent. Any such reduction in combined fiscal effort for any fiscal year by more than 5 percent will disqualify a local educational agency unless the local educational agency is able to demonstrate to the satisfaction of the State board that such a reduction was occasioned by unusual circumstances that could not have been fully anticipated or reasonably compensated for by the local educational agency and that the fiscal effort of the local educational agency does not otherwise indicate a diminished fiscal effort. Such unusual circumstances may include in the first preceding fiscal year unforeseen decreases in revenues due to the removal of a large segment of property from the tax rolls or other causes, or transfers to, or combinations with, other local educational agencies of responsibility for the conduct of some or all vocational education activities or services; or, in the second preceding fiscal year, contributions of large sums of money from outside sources on a short-term basis, or unusually large amounts of funds expended for such long-term purposes as the construction and acquisition of school facilities or the acquisition of equipment.

(20 U.S.C. 1263(a)(11))

§ 102.59 Percentage requirements with respect to uses of Federal funds.

(a) *Application of percentage requirements.* The State plan shall provide that allocations of Federal funds pursuant to § 102.52 shall comply with the following requirements with respect to the use of Federal funds:

(1) *Vocational education for disadvantaged persons.* At least 15 percent of the total allotment for any fiscal year to a State of funds appropriated under section 102(a) of the Act, or 25 percent of that portion of the State's allotment which is in excess of its base allotment, whichever is greater, shall be used only for vocational education for disadvantaged persons.

(2) *Postsecondary vocational education.* At least 15 percent of the total allotment for any fiscal year to a State of funds appropriated under section 102(a) of the Act, or 25 percent of that portion of the State's allotment which is in excess of its base allotment, whichever is greater, shall be used only for postsecondary vocational education.

(3) *Vocational education for handicapped persons.* At least 10 percent of the total allotment for any fiscal year to a State of funds appropriated under section 102(a) of the Act shall be used only for vocational education for handicapped persons.

(20 U.S.C. 1262(c)(1)-(3))

(b) *Definition of base allotment.* As used in this section, the term "base allotment" means the sum of the allotments to a State for fiscal year 1969 from sums appropriated under (1) section 102(a) of the Vocational Education Act of 1963 before its amendment by the Vocational Education Amendments of 1968 (20 U.S.C. 35–35n), (2) the Smith-Hughes Act (20 U.S.C. 11–15, 16–28), (3) the Vocational Education Act of 1946 (20 U.S.C. 15i–15m, 15o–15q, 15aa–15jj, 15aaa–15ggg), and (4) the Act of March 3, 1931, relating to vocational education in Puerto Rico (20 U.S.C. 30), the Act of March 18, 1950, relating to vocational education in the Virgin Islands (20 U.S.C. 31–33), section 9 of the Act of August 1, 1956, relating to vocational education in Guam (20 U.S.C. 34), and section 2 of the Act of September 25, 1962, relating to vocational education in American Samoa (48 U.S.C. 1667).

(20 U.S.C. 1262(c)(4))

(c) *Waiver of percentage requirements.* The percentage requirements in subparagraphs (1) and (2) of paragraph (a) of this section may be waived for any State by the Commissioner for any fiscal year upon his finding that the requirements impose a hardship or are impractical in their application with respect to that State. Such a finding will be made only upon the request of the State submitted through its State board as a part of its annual program plan or amendment thereto.

(20 U.S.C. 1262(c)(1), (2))

(d) *Vocational education meeting more than one percentage requirement.* If an expenditure for vocational education falls within more than one of the categories for which there is a percentage requirement, the total amount of the expenditure may be counted as an expenditure for vocational education in one of the categories, or prorated to each of the categories in any manner which the State board deems reasonable and proper so long as the aggregate amount prorated to the categories in which the expenditure falls does not exceed the total amount of the expenditure.

(20 U.S.C. 1262(c))

§ 102.60 Content of local applications.

(a) Applications from local educational agencies shall include the following:

(1) A description of the proposed programs, services, and activities (including evaluation activities) for which funds under the State plan are being requested;

(2) A justification of the amount of Federal and State funds requested, and information on the amounts and sources of other funds available for the programs, services, and activities;

(3) Information indicating that the application has been developed in consultation with the educational training resources available in the area to be served by the applicant local educational agency;

(4) Information indicating that the programs, services, and activities proposed in the application will make substantial progress toward preparing the persons to be served for a career;

(5) A plan, extending 5 years from the date of the application, for meeting the vocational education needs of potential students in the area or community to be served by the local educational agency, which plan shall be related to the comprehensive area manpower plan, if any, in that area; and

(6) Information indicating the means by which the programs, services, and activities proposed in the application will make substantial progress toward meeting the needs set forth in the application pursuant to subparagraph (5) of this paragraph.

(b) The application shall also contain such other information as may be required by the State board in determining allocations of funds pursuant to §§ 102.51 and 102.52, and in determining whether the programs, services, and activities proposed therein will otherwise meet all other applicable requirements in the Act,

the regulations in this part, and the State plan.

(c) The State plan shall describe in detail the information which the State board will require local applications to contain in order to meet the requirements of paragraphs (a) and (b) of this section.

(20 U.S.C. 1263(a)(6)(F))

VOCATIONAL EDUCATION PROGRAMS FOR THE DISADVANTAGED

§ 102.64 State plan provisions—general.

Funds appropriated under section 102(b) of the Act and allotted to States for the purpose of section 122(a)(4)(A) of the Act may be used only for vocational education programs for disadvantaged persons. The State plan requirements set forth in §§ 102.31 through 102.46 are also applicable to vocational education programs for the disadvantaged assisted with funds under section 102(b) of the Act. In addition, §§ 102.65 through 102.67 require inclusion in the State plan of certain provisions specifically applicable to such programs for the disadvantaged.

(20 U.S.C. 1242(b), 1263(a)(4)(A))

§ 102.65 Areas of allocation.
